REPORT OF HEALTH OFFICER

I herewith submit my report as Health Officer for the year ending Jan. 31, 1936.

We have again been fortunate as regards contagious diseases and have had only the following reported: tuberculosis, one; scarlet fever, six; chicken pox, four; measles, five. I sent to the State Laboratory of Hygiene for analysis eight pints of milk taken from dealers, with the following report: six satisfactory and two had excessive bacteria count. Several lots of town water were also sent and with the same complaint—iron in excessive quantity. The

past year new pipes were laid to take care of the sewage from the Acre to the Town Dump, which has eliminated a lot of trouble and complaints.

Just another reminder, that spitting on the sidewalk or floor of any car or public building is forbidden by law.

At this time I wish to express my sorrow and regret for the loss of our beloved and departed Dr. Abram W. Mitchell. He advised and worked with me for many years in the interest of the health and welfare of the community. He was a real man and a wonderful doctor. I can think of no better recommendation to make at this time than for all of us to try and emulate the life of him who has gone beyond. Let me again ask all citizens to cooperate with me in the discharge of my duties as Health Officer and I will endeavor to see that all the Health Laws are complied with.

Respectfully,
 GEORGE A. GILMORE,
 Health Officer.
