# CITY OF LEBANON NEW HAMPSHIRE

## 1987 CITY REPORT

Containing Operating Results

for the

Year Ended December 31, 1986

University of New Hampshire  
Library

## CITY COUNCIL

Feno H. Truax, Mayor	Ward I	3/86 - 3/88	643-2894
Frank E. Mastro, Asst. Mayor	Ward III	3/86 - 3/88	448-1899 or 448-4445
Channing T. Brown	At large	3/86 - 3/88	448-1824
Karen O. Wadsworth	At large	3/86 - 3/88	448-4348
Shirley A. Girouard	At large	3/87 - 3/89	298-5891
David R. Shedd	Ward I	3/87 - 3/89	643-2635
Philip W. Mans	Ward II	3/86 - 3/88	448-2676 or 298-8737
Mark W. Farnham	Ward II	3/87 - 3/89	448-5743 or 643-6600
Patti J. Laurie	Ward III	3/87 - 3/89	448-2155

## CITY ORDINANCES

1	Enactment of Ordinance	39	Prohibition Against Consumption of Alcoholic Beverages in Certain Places
2	Zoning Ordinance	40	Sewer Ordinance
4	Planning Board	41	Sewerage Treatment Plant Connecton Fee Established
7	Regulating Use of Bicycles	42	Sewer Department Residential User Rate
8	Establishment of Water Rates	43	Ordinance Relating to Library Trustees
11	Changing Name of Airport	44	Ordinance Relating to Lebanon Recreation Commission
12	Franklin Street	45	Licensing Ordinance
14A	Relating to Dogs and Other Animals	46	Standard of Conduct Relative to Municipal Contracts
16	Water Department Rules and Regulations	47	Ordinance Prohibiting Traffic in Drug Related Objects
16A	Water Investment Fee	48	An Ordinance Establishing Procedures for Filing Initiative Petitions (See Sections 419:23a and b. of City Charter)
17	Regulating and Controlling Use of P.A. System, etc.	49	Septage Rate and Disposal Ordinance
18	Pay Plan	50	Ordinance Creating a Drive Way and Culvert Policy
19	Relating to Substandard Housing	51	Waiver of Motor Vehicle Registration Fee of Former Prisoners of War
21	Regulations of Taxicabs	52	An Ordinance Relating to The Soldiers Memorial Building
22	Junk Dealers and Junk Yards	53	Regulation of Highway Excavation
23	Building Code, Fire Prevention Code Adopting Ordinance		
25	Cemeteries - Rules and Regulations		
26A	Mobile Homes		
27	Regional Planning Commission		
28	Snow and Ice Ordinance		
30	Traffic Ordinance		
31	Snow Traveling Vehicle Ordinance		
32	Conservtional Commission		
34	Sanitary Landfill Rules and Regulations		
36	City Historian		
37	Establishment of Department of Public Works		
38	Flood Damage Prevention Ordinance		

City of Lebanon  
51 North Park Street  
Lebanon, New Hampshire 03766

June 4, 1987

**TO ALL THE RESIDENTS OF LEBANON**

Your City Council is firmly committed to providing you with as much detailed information about your City and its operation as possible. You are all aware that we are growing at a very fast rate and so, consequently, is the day-to-day operation. This fact is readily apparent when reviewing the reports of the various City Reports contained herein.

The City Council is empowered by the City Charter to formulate policies and render decisions which are then carried out by the City Administration. All City Councilors are very conscientious of the fact that they are elected solely for the purpose of representing you in the decision making process. We do not receive enough citizen input, and even though we have enjoyed a larger attendance at our semimonthly Council meetings this year, it would seem that it requires a controversial issue in order to stimulate very much interest. This should not be.

Issues which occurred that required many meetings, much debate and, in some cases, unpopular decisions were the Route 12A traffic problems and suggested solutions, the Rezoning of Route 10, the James Campion Skating Rink, the Unifirst Laundry request to locate on Etna Road, and Route 120 traffic lights at the intersection with I-89, Heater Road and the Etna Road just to name a few. Sure we made some unpopular decisions, but they were made in good faith and only after much discussion and deliberation.

We are very proud of our beautiful City and we are trying very hard to keep it that way. We are constantly searching for ways to control our explosive growth, to provide the necessary utilities and services and yet keep the City Tax Rate reasonable. Your attention is specifically directed to the City of Lebanon Composition of Tax Rate - bar chart on page five.

Very sincerely,

Feno Truax,  
Mayor

City of Lebanon  
51 North Park Street  
Lebanon, New Hampshire 03766

May 28, 1987

To All The Residents of Lebanon:

Your City Government is comprised of a great number of volunteers and paid staff, who, through long hours of deliberation and hard work, produce the municipal services you require, and also develop plans for the City's future. This cooperative effort results in decisions that are in the long-term interests of the City, and the services are provided with the twin goals of efficiency and economy.

Growth continued during 1986, with a record increase in the Tax Base. City Government responded to this, but it also acted in anticipation of problems that other fast-growing communities have faced.

Most notably, the Planning Board completed its update of the City's Master Plan, a document which will guide development for years to come. Concurrently, legislation was passed to carry out a regional transportation study in the hope of coordinating highway and other transportation projects, and having a better chance of securing funds through the New Hampshire Legislature.

The revaluation of all property was carried out, with appeals nearly complete at this writing. Progress was made toward computerizing the property records of the City.

Major construction projects included Hardy Hill Road reconstruction and the completion of water system improvements. The Air Park neared completion, with the assistance of two Federal grants.

Our Wastewater Treatment Facility entered a management competition, and this year was given an award as the best operated plant in the Northeast. Our Landfill was deemed one the best in New Hampshire.

1987 will see significant programs and projects. Probably the most important will be the completion of the Capital Improvement Program, which will be a valuable budgetary tool and a blueprint for economic growth.

The proposal submitted by the Dartmouth/Hitchcock Medical Center to move to Lebanon will be decided upon this year. The consequences for Lebanon's future will be profound.

A major plan for the future of our Landfill will be carried out, with the potential of embarking upon an entirely new operation on City-owned land near the present site.

Reconstruction of Hanover Street Extension will head the list of construction projects. The Enfield Sewer Project will be well underway this summer. Private development shows every indication of continuing at a high level.

It continues to be a pleasure serving you, the citizens of Lebanon. If there is anything you don't see in this report please give me a call and we'll try to incorporate your ideas into next year's City Report.

Sincerely,

*Alan H. Edmond*

Alan Edmond  
City Manager

# 1987 CITY REPORT

## CITY OF LEBANON,

### NEW HAMPSHIRE

## DESCRIPTION OF CITY

### General Information

Lebanon is located on the Vermont/New Hampshire border midway between Massachusetts and Canada. It is one hundred and twenty miles from Boston and one hundred and fifty miles from Hartford, Connecticut. Located at the junction of the Mascoma, White and Connecticut Rivers, the area grew from woolen mill profits in the 1800's. Due largely to the location of Dartmouth College and Mary Hitchcock Memorial Hospital in adjacent Hanover, a large and growing Veteran's Administration Hospital in Hartford (White River Junction), Vermont, a large hydropower generation facility, as well as its nearness to some of the largest ski areas in New England, the area has shown steady growth combined with low unemployment. New Hampshire had the lowest unemployment rate in the United States during 1986 and the Lebanon job center had the second lowest rate in the state.

### Transportation and Economy

Lebanon is located near the intersection of Interstates 89 and 91. As a consequence several trucking companies and two bus systems serve Lebanon. The Lebanon area is served by the Boston and Maine railroad, Amtrak, and full-service commercial airlines to New York, Boston, and other major eastern cities from the City's airport. The Lebanon, Hanover, and Hartford (Vermont) area constitute a regional economic center for northern Vermont and New Hampshire. Large shopping malls attract consumers from a sixty mile radius. Three major hospitals serve persons from both states.

### City Government

Lebanon was incorporated as a town in 1761 and granted a City Charter in 1958. The Charter established the City under the council/manager form of government. The City is governed by a nine member City Council. Three council members are elected at large, and two from each of three wards. Each ward elects councilors to the City Council. Each councilor holds office for a term of two years.

The Mayor and Assistant Mayor are elected by the council to serve a one year term. The Mayor chairs the Council meetings. The City Council establishes policy relative to the administration of all fiscal, prudential, and municipal affairs within the City. The City Manager is the chief executive officer of the City and carries out the policies established by the City Council. The current manager has served for four years.

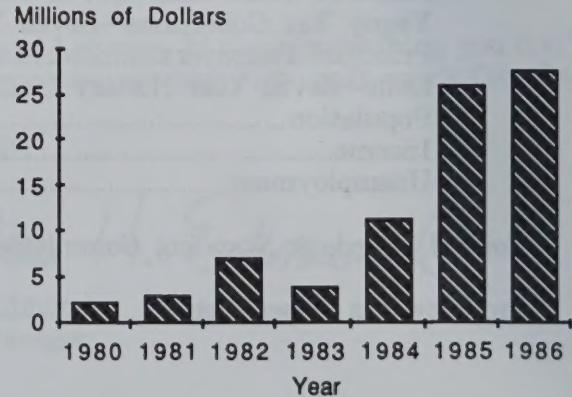

### Appointed Officials

Alan H. Edmond	City Manager
Daniel A. Nash	Public Works Director
Donald L. Vittum	Police Chief
John D. Shaw, Jr.	Fire Chief
Cindy M. Heath	Recreation Director
Jean E. Mansell	Librarian
John P. Aubin	Treasurer/Finance Director

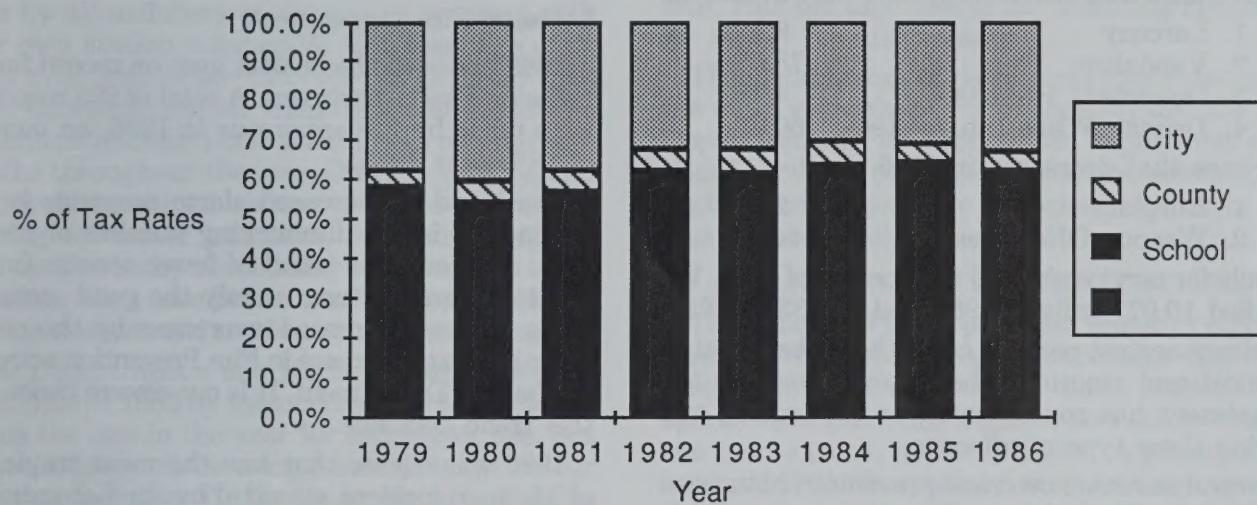

General government services are provided by the City including police and fire protection, water and sewer service, streets, municipal parking, health and welfare, library, and recreational facilities. The City bills and collects its own property taxes and also collects taxes for Grafton County and the Lebanon School District. City tax rates have been relatively stable over the past several years as the chart below shows. Growth in commercial and industrial land uses bode well for tax rates in the future while diminishing state and federal financial aid will create problems for local policymakers.

The following charts show the relative growth of the three tax rates for the City and also the value of Building Permits over the past several years. While the total tax rate has grown substantially, it would have grown much more without the "building boom" we are now going through.

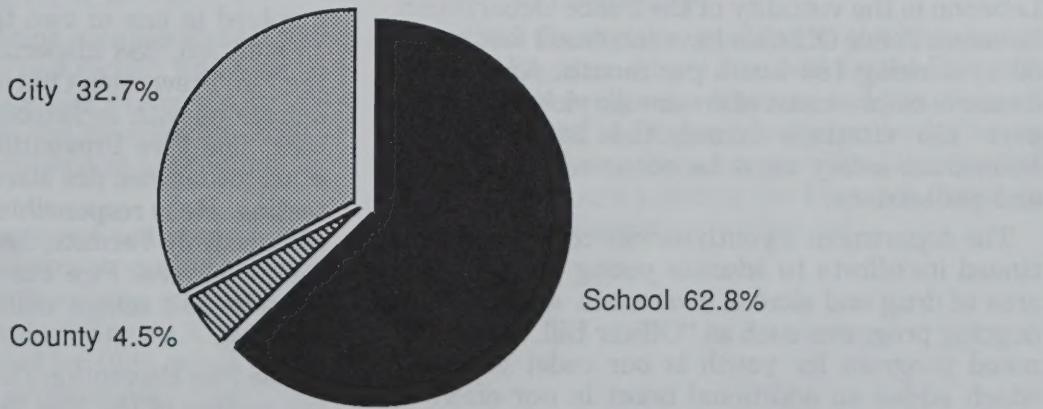

### City of Lebanon Building Permit Values

## City of Lebanon Composition of Tax Rate

## City of Lebanon Composition of 1986 Tax Rate

## REPORTS OF CITY DEPARTMENTS

### Lebanon Police Department

During 1986, trends established in the previous year continued to lead to an increase in calls for police services.

The crimes that increased in 1986 were as follows:

1. Larceny	6.4%
2. Vandalism	78.0%
3. Disorderly Persons	4.7%
4. Driving While Intoxicated	60.0%

Crimes that decreased in 1986 were:

1. Burglary	2.4%
2. Weapon Offensives	44.0%

Calls for service showed an increase of 55%. We handled 10,077 calls in 1985 and 15,633 in 1986.

Crimes against persons carry the highest cost in physical and emotional harm and therefore the department has concentrated on preventing and solving these type of offenses.

Several seminars on crime prevention have been conducted with social agencies in Lebanon.

Of equal concern are the enforcement efforts and educational approaches that address the problems of drug and alcohol abuse. The department is working continuously with local educators to address this area of concern. As already noted, the department shows a 60% increase in arrest for D.W.I. This is a good indication of the self-initiated patrol activity by our personnel, who are becoming more aggressive in finding and stopping drunk drivers.

An area of great concern to the citizens of Lebanon is the visibility of the Police Department. Lebanon Police Officials have increased foot patrol 50%, working 180 hours per month. Another increase is enforcement of crosswalk violations, with over 125 citations issued and 250 warnings. Pedestrian safety must be observed by motorists and pedestrians.

The department's youth service component continued its efforts to educate young people in the area of drug and alcohol awareness, and provided ongoing programs such as "Officer Bill." Our most noted program for youth is our cadet program, which added an additional boost in our effort to serve our community.

We will continue our public relation efforts with programs such as Halloween and Christmas parties for our youth.

I would like to thank every Lebanon Police Official for giving his or her best effort to protect our community. Each and every one is a dedicated individual with a sense of professional pride.

Respectfully Submitted,  
Donald L. Vittum, Chief of Police

### Lebanon Fire Department

1986 has been the busiest year on record for the Lebanon Fire Department. A total of 893 responses were made by fire apparatus in 1986, an increase of 18% over 1985.

The trend of increased alarm response is continuing, as is the diminishing number of serious fires. I believe this trend of fewer serious fires is due to several factors; mainly the good economy, along with an increased awareness by the public, and a dramatic increase in Fire Prevention activities by the Fire Department. It is our sincere desire that this trend continue.

1986 was a year that saw the most tragic loss of life in an incident attended by the Lebanon Fire Department in its history. In March a suicide/murder took the lives of 5 persons and, although the resulting fire was not technically the cause of death it, nevertheless, had to be dealt with by the Department.

Chief Lariviere left the Department in October. He had served the City for almost 20 years and was a highly respected member of the City Government.

The Fire Prevention Officer has reviewed 146 sets of plans for new buildings under construction within the City (normally the Department does not become involved in one or two family residential homes). In addition, 288 inspections were conducted, and the Fire Prevention Officer was involved in 451 consultations with architects, engineers, and contractors. The Fire Prevention Officer addressed 220 other situations; fire alarms, sprinklers, waterflow testing. He is responsible for the issuance of Place of Assembly Permits, fire investigations, and also taught several Fire Prevention Classes. Approximately 500 school children received fire safety training.

The Fire Prevention Division is, without a doubt, the section of the Fire Department which has the most far reaching effect on the community. It is our goal to place the burden of fire protection on the developer by means of automatic sprinkler systems, alarm systems, and superior construction.

This will help alleviate the necessity of increased fire equipment and manpower at the taxpayers expense.

### TRAINING

The responsibility of the training division is to maintain an acceptable level of competence for all members of the Department. This is accomplished by several different programs including monthly drills by all members of the call force, once with their own station companies, and once in a combined drill with other call companies along with career personnel. Officer training and an engineer's (apparatus operator) course, are held on alternate months throughout the year. On-shift training and a monthly combined session provides specialized training for career members. A recruit program gave us nine badly needed new call members to fill vacancies. Also, members attend various specialized training sessions and seminars throughout the year.

The Department's new training tower was completed late in 1986 by members of the career force. It was too late in the year for any major use, but it should prove to be a long needed boost to our evolution training. Funds are available in 1987 to convert the trailer donated by Daniels Transportation Company into a maze and obstacle course for breathing apparatus training. The training site at the water department garage area has unlimited possibilities for the future.

In 1986, one new career member attended the State Recruit Training course, placing top in his class. We consider this an important start to an individuals career in the Fire Service. Two members are scheduled to attend the 1987 session.

### MAINTENANCE

The Department maintains nine pieces of major fire apparatus, in addition to a pickup, and a sedan for the Chief. The average age of the major apparatus is fourteen years; the average life expectancy for this type of apparatus is approximately twenty years.

In 1985 the Fire Department initiated an Apparatus Replacement Program to extend through the year 2000. In 1986, the first major purchase was made; a new pumper to replace Engine 2. The next major purchase is scheduled for 1988, when a new, 100 foot aerial ladder is programmed. Continued support of this program will help to alleviate the rapidly increasing age of the fleet.

The division assisted in the overhaul of the complete hydraulic system of Ladder 1, the replacement

of the booster tank of Rescue, body and rust work on Engine 5 and Rescue, and institution of a tire replacement program.

A new, portable generator was purchased and placed in service on Engine 4. This replaced a thirty year old unit which was junked.

A new breathing apparatus compressor, cascade, and filling station was designed and placed in service. This will take care of the breathing apparatus air supply for many years.

The maintenance division continues to be one of the most valuable assets to the City and the Fire Department. In addition to the major work mentioned above, all tune-ups, oil changes, painting, and routine maintenance are performed at a major savings in labor costs.

### ALARMS AND COMMUNICATIONS

The Lebanon Fire Department employs eighteen career Firefighters. Approximately fifty call Firefighters are assigned to three stations. We operate five pumping engines, two ladder trucks, one rescue truck, and one tanker. A pickup truck is provided for the routine use of the duty crew and the Fire Prevention Officer. A sedan is available for the Fire Chief as an incident command vehicle. In 1986, 706 calls were answered by the on-duty career personnel. The call force was dispatched on 188 occasions.

The Municipal Fire Alarm System was extended to the industrial area along the Etna Road. This was the second major extension of the system in recent years. There are now thirty-five master fire alarm boxes connected to private alarms and sprinkler systems in our hospital, nursing home, schools, and industries.

In 1986 the division assisted in the installation of a new Digitizer Alarm Receiver for the Dispatch Center. This equipment receives and processes all alarms received at Dispatch and provides for future expansion in an orderly manner. The Division has spent many hours assisting the Dispatch Center in rewiring and relocating equipment.

**ALARM RESPONSE HISTORY**

Year	# Calls
1977	454
1978	544
1979	689
1980	722
1981	677
1982	614
1983	550
1984	656
1985	758
1986	893

In conclusion, I wish to invite the taxpayers of the City of Lebanon to come and inspect our facilities and let us demonstrate our readiness to respond to your needs. We urge anyone who is in need of information or assistance to call us at 448-1212 and allow us to answer your questions. Come and see your tax dollar at work for you.

I would like to extend my heartfelt thanks to the members of the Lebanon Fire Department for their cooperation during a very trying time. I also extend my thanks to the Lebanon Police Department, the Lebanon Water Department, and the many other individuals who have helped us to do our job.

Respectfully submitted,  
John D. Shaw, Jr., Fire Chief

**Inspection Department**

The Inspection Department consists of a full time building inspector assisted by a part time secretary. The department is responsible for assuring that all buildings built or remodeled in the city adhere to city building, electrical, and plumbing codes.

Building activity in 1985 set records and 1986 exceeded those new highs by \$1.5 million in construction.

Total Value of Permits issued \$27,571,023  
Total Building Permit fees collected 57,145

**Top Ten Permits Issued**

1. N.E. Power Co., fishway construction	\$3,400,000
2. Carter Witherell Bldg., Taylor Street	2,630,000
3. North Country Development, Etna Road	2,118,400
4. Renihan Meadows Inc., Mascoma St. Ext.	1,731,000
5. Splitball Bearing, West Lebanon Road	1,650,000

6. T.C.G. (Courtyard Pavillion On The Mall	1,107,000
7. Hodan Properties, On The Mall	1,010,650
8. Dartmouth Savings Bank, 106 Main St., W.L.	570,000
9. Etna Road Partnership, Etna Road	475,000
10. City of Lebanon, Prospect Hill	422,000

**Building Permit History**

Year	# Permits	Residential	Non-Residential	Total Value
1986	373	243	130	\$27,571,023
1985	262	152	110	26,016,999
1984	280	176	104	11,338,918
1983	288	229	59	4,008,652
1982	229	165	64	7,141,533
1981	287	206	81	3,034,620
1980	324	252	72	2,386,551

Respectfully submitted,  
Parmly Wills, Building/Health Inspector

**City Clerk**

The City Clerk is responsible for motor vehicle registrations, elections, registration of births, deaths, and marriages. The City Clerk is also the custodian of the official records of the City Council.

**Selected Statistics**

Births recorded to Lebanon Residents	163
Births recorded in Lebanon for non-residents	218
Deaths of Lebanon residents recorded	92
Motor Vehicles registered	12,099
Motor Vehicle registration receipts	\$761,348

**Elections**

The City's 1987 municipal election was held on Tuesday March 10, 1987. The results are as follows.

	Ward I	Ward II	Ward II	
Number of Ballots Cast	662	556	644	
Names on Checklist	2230	1910	1942	
For Ward Councilor (2 year term)				
Michael A. Landry	164			
* David R. Shedd	384			
Gerard J. Zeiller	205			
Stephen C. Cole		213		
Raymond S. Rogers, Jr.		82		
* Mark Farnham (write-in)		240		
Nancy M. Esquivel			307	
* Patti J. Laurie			315	
For Councilor at Large (2 year term)				
Alexander S. DeFelice	162	156	183	
William D. Finn, Jr.	77	129	98	
* Shirley Girouard	379	238	319	
For Moderator (2 year term)		24		
* Carl Begin (write-in)		477		
* Gertrude J. McFarlin			569	
* Josiah F. Hill			514	
For Ward Clerk (2 year term)				
* Brenda B. Johnson		499		
* Virginia H. Cantlin			563	
* Karen R. Moulton				
For Supervisors of the Voter Checklist (2 year term)				
* Grace L. Dickerson	551			
* Margaret A. Dutille	555			
* Joanne LaCasse	550			
* Barbara J. Couture		485		
* Clifford A. Desrosiers		475		
* Elaine A. Elliott		488		
* Marylin S. Babineau		563		
* Veneda A. Murphy		549		
* Selma Sanborn		540		
* Councilors and Election Officials declared elected.				
Results of Referendum Questions on March 10 Ballot				

## CITIZENS BINDING INITIATIVE

### Question #1.

Would you favor amending city ordinances so that an extension of municipal water and/or sewer services in residential or rural land districts for reasons other than health and safety shall be submitted to the vote of qualified voters at the next municipal election?

	Ward I	Ward 2	Ward 3	Totals
Yes	293	226	272	791
No	355	311	368	1034

### Question #2.

Would you favor reversing the recent zoning of an area in West Lebanon along Route 10 from R-2A to its previous zoning status (R3)?

	Ward I	Ward 2	Ward 3	Totals
Yes	409	269	318	996
No	234	260	310	804

### Question #3

Would you favor amending the zoning ordinance so that a change of the zoning map affecting more than ten times the Class 3 lot size within a residen-

tial or rural land district shall be submitted to the vote of qualified voters at the next municipal election?

	Ward I	Ward 2	Ward 3	Totals
Yes	351	258	293	902
No	291	273	330	894

## CITIZENS NON-BINDING INITIATIVE:

### Question #1.

Would you favor immediately reversing the recent rezoning of an area in West Lebanon along Route 10 from R-2A to its previous zoning status (R3)?

	Ward I	Ward 2	Ward 3	Totals
Yes	422	280	333	1035
No	216	250	293	759

### Question #2.

Would you favor amending the section of the City Charter (RE419:62) dealing with conflicts of interest so that a vote of an officer of the city on city business with which he/she had a personal or financial interest within the previous year shall not be allowed?

	Ward I	Ward 2	Ward 3	Totals
Yes	490	357	446	1293
No	154	180	190	524

Respectfully submitted,  
Dorothy Doyle, City Clerk

## Lebanon Public Libraries

The addition to the Lebanon Library has continued to be a focal point in library operations during 1986. The dedication of the Governor Lane Dwinell Wing was held on April 26, 1986. The Lebanon City Council voted unanimously to name the addition for Governor Dwinell because of all the past service he has given to Lebanon and to the State of New Hampshire. The vote was initiated by the Board of Library Trustees. Governor Dwinell was instrumental in the success of the library fund drive, serving as an active Honorary Chairman along with Co-Chairpersons Clark and Happy Griffiths.

Bookcases were installed in the mezzanine and library furniture such as chairs, cabinets, and bookcases were purchased to fill the new space. By the end of 1986, all areas in the addition were fully functional. Many fine programs have already taken place in the new all-purpose room, and we plan to have several more during 1987.

The storytimes for children are now held in the all-purpose room, and we are able to serve more children at a time in a comfortable situation. Average attendance has increased to twenty-five preschoolers. The Children's Librarian is now providing a storytime on alternate weeks in Lebanon on Tuesdays and in West Lebanon Library on Thursdays. The summer reading program set a new record last summer with one hundred children in Lebanon and thirty-one children West Lebanon completing certificate requirements.

Re-registration of library patrons was started in September, 1986. To date, we have 2,176 registered in Lebanon and 733 in West Lebanon. There are no duplications and some library patrons use both libraries.

The computer terminal to access the New Hampshire State Library card catalog is now in place and operating. We can now determine in minutes whether or not a requested book is available through interlibrary loan in the state. It used to take two weeks or longer before we could answer a patron's request. Up-to-date information concerning bills being considered by the New Hampshire Legislature is also available via the computer terminal.

The trim on the West Lebanon Library was scraped and painted last spring, giving the building a much brighter appearance. Because of concerns of the City Engineer, a structural engineer was hired to determine the condition of the weight bearing floors. It was decided that something should be done to strengthen the building before more weight is added. The Lebanon City Council voted \$20,000 for this project.

Our large print book collection was greatly improved this past year with donations of funds from the Lebanon Lion's Club and the #3765 Lebanon Order of the Eagles Auxiliary.

The Lebanon Woman's Club has donated \$2,700 for the purchase of a microfilm reader/printer. This equipment will be purchased in 1987.

The circulation of library materials in the two libraries, (books, magazines, recordings, etc.) totaled 89,863 for 1986, an increase of 1,756 over 1985 statistics.

Respectfully submitted,  
Jean Mansell, City Librarian

## Recreation

Since 1983, there has been a steady increase in the number of Lebanon residents participating in recreation programs. In 1986, over 9,000 children and adults were involved in activities like arts and crafts, swimming, dance, theater, youth sports, summer concerts, environmental education, ski lessons, and the highly successful celebration of Lebanon's 225th Anniversary, complete with hot air balloons, an antique car display, and fireworks. New programs planned for 1987 include youth sport coaching clinics, summer volleyball for adults, and a variety of new performances for our noontime theater series and Monday evening concerts. The July 4th celebration is scheduled for Saturday, July 4th, and will include band concerts, children's theater, hot air balloons, and antique cars.

In 1986, the operation of Storrs Hill Ski Area was under the direction of the Lebanon Outing Club, a volunteer group that receives funds from the Carl Witherell Estate for the "development and maintenance of Storrs Hill," as well as the ski jumps and youth programs. Storrs Hill is a valuable asset — Lebanon residents are fortunate to have such a unique recreational facility and a group willing to operate it.

The Cemetery Department crew provided valuable assistance in grounds and facility maintenance in 1986. Their work included mowing ballfields, natural areas and Storrs Hill Ski Area, as well as outdoor skating rink maintenance. Facility improvements by the Recreation and Parks Department staff included shingling the outdoor pool bath house, renovations to the Storrs Hill Ski Lodge, and drainage and brush clearing in Goodwin Park. Among the projects planned for 1987 include the installation of bicycle racks and picnic tables at the outdoor pool, construction of a bathroom and storage facility, installation of portable bleachers, and renovations to the ballfield at Civic Memorial Field in West Lebanon; and, renovations to the Riverdale ballfield by the boy scouts.

The Lebanon School District, Lebanon Cemetery Department, the Lebanon Conservation Commission, and the Recreation Department cooperatively maintain the following outdoor recreation sites:

### PLAYING FIELDS

Eldridge Park—Spencer Street, Lebanon  
Civic Memorial Field—Crawford Avenue, West Lebanon  
Lebanon Jr. High Fields—Bank Street, Lebanon  
Mt. Lebanon Field—Dana Street, West Lebanon

**PARKS & NATURAL AREAS**

Goodwin Park—Storrs Hill, Lebanon  
 Boston Lot—Route 10, West Lebanon  
 Farnum Hill—Poverty Lane, West Lebanon  
 Fellows Hill—Route 4, Lebanon  
 Chambers Park—Chambers Road, Hanover

**FACILITIES**

Lebanon Memorial Pool—Pumping Station Road, Lebanon  
 Storrs Hill Ski Area—Spring Street, Lebanon  
 Civic Field Tennis Courts—Seminary Hill, West Lebanon  
 Civic Field Basketball Courts—Seminary Hill, West Lebanon  
 Lebanon Jr. High Basketball Courts—Bank Street, Lebanon

In all, the City has over fourteen hundred acres of outdoor recreation facilities available for public use. Brochures on City Parks and Recreation facilities are available at the Recreation Office, and a monthly newsletter, which lists current programs, is distributed throughout the Lebanon schools, public libraries, City Hall, and the Recreation Office.

The Recreation Commission, an advisory group of residents, will be busy in 1987 developing a capital plan for outdoor pool renovations, co-ordinating program offerings with the new Carter-Witherell Annex staff, and finalizing the Parks and Recreation Capital Improvements Plan.

As Lebanon grows, the Recreation and Parks Department is continually challenged to provide quality recreation services and opportunities for leisure time activities. Through careful planning and continued public support, we will succeed at meeting the ever-increasing public demand for excellence in recreation programs and services.

Respectfully submitted,  
 Cindy Heath, Director

**City Welfare**

City Welfare is a branch of local government set up to provide needy residents with relief, (needy being a person or family unable to support itself).

In 1986, an average of sixteen households per month were given aid for food, rent, fuel, and utilities. In exchange for this aid, City Welfare has instituted the "Work Fare Program." This is where a person, if he/she is able, is put to work for the City to pay for all aid received. In this way a real

incentive is provided for the welfare applicant to find a means of support other than City funds.

Respectfully submitted,  
 Donna Hutchins, Welfare Official

**Public Works**

The Public Works Director/City Engineer has a dual role in providing engineering expertise to the City and supervising the Public Works Department. It also has the additional duty of maintaining City Hall. The Staff includes the Public Works Director and a secretary. The office is in City Hall.

The activities and accomplishments of the Public Works Departments are listed separately. In addition, this department has been involved in the following: obtaining sprinklers for City Hall, renovation of lower City Hall into a Council meeting hall, repainting City Hall lobby and front, work on an elevator design, highway garage renovation plans, conducting traffic counts, reviewing West Lebanon Main Street rehabilitation, and a Water Department rate study. The Department also reviews site plans and subdivisions.

Respectfully submitted,  
 Daniel Nash, Public Works Director

**Highway Department****Employees:**

The Lebanon Highway Department employs twenty-one men to maintain approximately 125 miles of streets and highways and twenty-two miles of sidewalk. The staff consists of a Highway Superintendent, a Foreman, a Mechanic, a Mechanic's Helper, five Heavy Equipment Operators, three Light Equipment Operators, an Administrative Assistant, eight Truck Drivers, of which two of these men do mechanic and welding work.

**Equipment:**

The Highway Department has a total of eleven dump trucks. Eight of the eleven dump trucks are equipped with plows and wings and four of these plow trucks are equipped with sanders. Two of the dump trucks with no plows are equipped with sanders. This Department has three pick-up trucks, one Drott ditching/grading machine, one grader, one backhoe/loader, one two yard loader, one 8 - 12 ton roller, one 3/4 ton sidewalk roller, one vac-all sweeper and basin cleaner, one snowblower, two trackless and one Bombardier sidewalk tractors

with plows, one air compressor, one brush chipper, one cement mixer, one roadside mowing tractor machine, one ditch pump, and six chainsaws. In all, the Highway Department has approximately seventy-five pieces of equipment to maintain. The drivers perform their own preventive maintenance, such as greasing, changing oil filters and other minor repairs (lights, etc.). The mechanic and his helper has a backlog at all times for work to be done on equipment.

#### Spring And Summer Activities:

In early spring the Highway Department started cleaning streets and sidewalks from winter sanding, etc. All the damage caused by winter plowing was repaired such as lawns, fences, sidewalks, signs, etc. In general, the Highway Department repaired and rebuilt streets and highways and shimmed pavements. This shimming is done on all roads and streets that have bad areas and potholes, patch is used until the budget runs out. Paving was done on all roads and streets that required it. The Department repaired and replaced guardrails, repaired bridges, seal coated, installed new and repaired existing culverts and basins, painted centerlines and crosswalks, repaired existing and put up new signs, etc. See below for major jobs done in 1986.

#### Fall And Winter Activities:

The Highway Department cleaned basins, finished up summer jobs and got equipment ready for winter cleanup (plowing, sanding, etc.). This past fall we took down dead trees. Rice Tree Company took down twelve large trees that endangered houses and wires with the help of the Highway crew. The Highway crew took sixty-five dead trees down at an average of 20" each. All of the Highway Department's vehicles are put into duty during a snow or ice storm. Two trucks, equipped with sanders, sand and salt all through the storm while the plow trucks plow. When the plow trucks are through plowing, the ones with sanders begin salting and sanding. Salt is used on paved streets and sand is used on gravel roads. However, if the weather is twelve degrees or lower, sand is used.

Two pick-ups plow the dead-end streets, underpasses, Bailey Bridge and Spencer Street Bridge. They sand and salt where needed and help grader getting snow off the sidewalks on main streets and runs. First, the grader plows the roads and pulls out the snow on the main streets and Route 12A in West Lebanon for the pick-up trucks, then it comes to Lebanon and plows the main streets, around the mall area and parking lots. The loader also plows dead-end streets and parking lots.

It depends on what time the storm stops as to whether we pick up the snow on that day, or wait until the next. It takes each plow approximately five hours to complete one time around his plow run. If the storm continues, the plows keep repeating their run until the storm stops. The crew will start plowing when there is one to two inches of snow accumulation.

Sand and/or salt is used as soon as the road begins to get slippery from packed snow or ice. After the plowing is complete, it takes the salt trucks approximately five hours to salt all the City's paved streets and sand the gravel roads. If sand is used on streets because the weather is too cold for salt to work effectively, it takes approximately twelve to fifteen hours, after the plowing, to make the highways safe for traveling.

In 1986, we had twenty-eight storms that required action, sixteen that were plowed and twelve that were salted and sanded. The Highway Department worked through a total of twenty-eight storms, used 1,650 tons of salt and 2,450 yards of sand.

#### Summer Jobs

1. The Highway Department built a new parking lot between Flynn and Taylor Street.
2. Rebuilt North side of Park Fence and renewed the sidewalk on the North Park Street side of the park.
3. Rebuilt Bailey Bridge.
4. Rebuilt one-half mile of road on Hardy Hill.
5. Renewed all parking signs in the City.
6. Regular maintenance such as oiling, paving, shimming, ditching, signs, culvert and basin installations, and removal of sixty-five trees.
7. Shoulder on Rudsboro was widened four to eight feet in areas, with guard rails along the brook and big culverts.
8. True's Brook temporary Bridge.

Respectfully submitted,  
Mose Sanville, Highway Superintendent

#### Landfill Department

In 1986, the Landfill Department took care of over 35,000 tons of rubbish, rubble, wood, metal and tires, 27,000 tons of which were compacted and covered daily.

We also installed four twenty-four cubic yard dumpsters at the scale house area. This has cut down on vehicle traffic at the actual dump site,

where the heavy trucks dump and the loaders are working. This allows for less chance of accident or injury. It is also very convenient for the user.

The Landfill Department contracted a tire shredder to shred 35,000 tires. By shredding the tires, there are more ways to dispose of them. Unshredded tires cannot be buried as they can work their way back up to the surface.

In 1986, we purchased a new Ford 9000 Series 10 wheel dumptruck for hauling cover material. We also have two John Deere three cubic yard loaders — one of which is hooked up with an American Coupler system to dump the before-mentioned dumpsters when full.

We are also in the continuing process of designing a new Landfill for future use which will be needed in three years or sooner.

The Department is staffed by four employees, a Superintendent (also Heavy Equipment Operator), a Heavy Equipment Operator, a Weigh Master and a Laborer.

In 1987, the Landfill will be closed for the following holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas.

Respectfully submitted,  
Al Besaw, Landfill Superintendent

#### Cemetery Department

The Cemetery Department is staffed by the following personnel: four full-time employees (a Sexton, two maintenance workers, and a laborer) and five temporary full-time employees (summer laborers).

The Cemetery Department is responsible for a varied amount of maintenance at the following City facilities: Nine cemeteries, two ballfields, two skating rinks, Storrs Hill Ski Area, two libraries, two fire stations, City Hall, Downtown Mall, Soldier's Memorial Building, Colburn Park, Chambers Park, and the Seminary Hill Monument. Duties include: burials year round, mowing, landscaping, snowplowing, rubbish removal, fence repairs, building repairs, equipment maintenance, and emergency relief for other Public Works Departments.

There are both developed and potentially 19,000 grave spaces in Lebanon of which over 14,500 are already lot sold. The department does ninety-one hundred burials and installs approximately thirty-

forty monument foundations per year. The department performs weekly summer maintenance at more than twenty-five locations. Winter tasks include: Snow removal (in the downtown sector, at Storrs Hill Ski Area, three cemeteries, two skating rinks, and the Mascoma Fire Station), burials, revitalization of summer maintenance equipment, brush cutting, map and record updating, and capital improvement projects.

#### 1986 Major Improvements

1. Valley Cemetery Garage Addition: A ten foot high garage was completed at Valley Cemetery to allow for undercover storage at a secure location of our new field mowing tractor.
2. Field reconstruction at Valley Cemetery: The overall reconstruction and preparation of the last area of burial space at this cemetery was completed, with finishing touches to be done in 1987. Lot sales from this area are scheduled to begin no earlier than 1989 with an expected final close out of lot sales somewhere close to the turn of the century.
3. Upgrading and paving service roads: Due to an anonymous donor, more than \$4,000 worth of additional roadway reconstruction was completed in West Lebanon Cemetery. A storm water catch basin and exit pipe were installed at Valley Cemetery to relieve a chronic spring drainage problem.

Respectfully submitted,  
Steve Spydell, Cemetery Sexton

#### Water Department

The Water Department has a full treatment plant to treat surface water from the Mascoma River. Treatment consists of flocculation, coagulation, sedimentation, and filtration before going into storage. The design capability of treatment and filtration plants is four million gallons per day. The plant is in operation seven days a week, eight hours per day, producing an average of 1.2 million gallons per day.

The department is staffed by nine people. The Public Utilities Director who oversees both Water and Wastewater Departments, a Facilities Foreman, a Construction Foreman, two Construction Laborers, a Heavy Equipment Operator, a Meter Technician, and two Station Operators.

The Water Department's responsibility other than treating water is to maintain an indeter-

minate quantity of water mains. Water main sizes range from 1½" to 16" in diameter. Much of the distribution system is old cast iron or galvanized pipe. This old cast iron and galvanized pipe is prone to failure. During 1986, the distribution crew repaired twenty-one broken, leaking services or mains.

Along with main repairs, the distribution crew makes new taps. During 1986, sixty-five new service taps were made ranging in size from ¾" to 6".

The Water Department is responsible for almost all gate valves and fire hydrants. A preventive maintenance schedule is being developed where all gate valves will be exercised yearly. Fire hydrants are checked routinely to ensure they are working. A hydrant replacement/additions schedule is being developed.

The distribution crew does minor main extensions and replacements. No major main extensions were done by the department in 1986.

There was a considerable amount of private and City contracted water main construction during 1986. Also two new storage facilities and control equipment were constructed and put into service during 1986. The new 2.5 million gallon concrete tank on Prospect Hill replaced two open reservoirs which did not conform to the Safe Drinking Water Act. A new 1.2 million gallon concrete tank on Farnum Hill was constructed to assist in providing flows to the Airport Industrial Park and West Lebanon.

17,500 feet of water mains were constructed during 1986. Some of these mains were associated with the Farnum Hill Reservoir and Airport Industrial Park. A new water main was constructed on Route 10 towards Hanover. This helped facilitate needed fire flows to the North section of West Lebanon along Route 10.

Private developers added to the water system or upgraded inferior water lines on Glen Road, Bank Street Extension, and Boulder Drive.

All this construction led to an increase in the department's work load. We oversaw the construction of all projects in 1986 in varying degrees. We provided water to test all new lines, as only the city is allowed to open and close valves. We assisted and oversaw all testing of mains for leakage and contamination. We also provided technical assistance with the control equipment associated with the Farnum Hill reservoir.

A memorable moment on November 19, 1986, the Prospect Hill Reservoir was dedicated in name to

Mr. "Chib" Picard for his thirty-five years of service with the City of Lebanon Water Department.

During 1987, we anticipate a busy year. Along with keeping up with private construction, the department has planned two main replacements, one on Elm Street, West Lebanon, and the other on Mascoma Street, Lebanon.

We will be installing fire hydrants in downtown West Lebanon for additional fire protection.

With the new Farnum Hill Reservoir on line, we will be doing some much needed service work to the old Crafts Hill Tank. The Crafts Hill Tank has on provisions to be drained and cleaned. We will be shutting the tank down for repairs.

These major projects and numerous small projects will make 1987 a productive year.

Respectively submitted,  
Dana Arey, Public Utilities Director

### **Wastewater Department**

The purpose of the Lebanon Wastewater Department is the treatment of wastewater to maintain the natural integrity of the Connecticut and Mascoma Rivers. In doing so, many objectives must be met. We at the Wastewater Department take pride in maintaining a high quality of treatment. The Wastewater staff concentrates on: (1) adjusting the process to counter physical and biological changes, (2) keeping the equipment in excellent mechanical shape, and (3) keeping the costs of treatment and maintenance to a minimum.

The success of the department in producing a high quality of treatment and maintaining the multi-million dollar facility was recognized when the department was awarded the EPA's award for best Operations & Maintenance plant. This is a highly prestigious award, only the second one to be awarded in New Hampshire.

### **1986 Major Activities**

1. Substantial work on the composting facility took place. The pad area was completed, electrical equipment was installed with the compost blowers. Test piles were built and a demonstration of a mobile compost mixer was done. The composting process is being built to reduce the cost of stabilizing sludge while producing a reusable product.
2. Three of the exterior tanks with metal equipment were sandblasted and repainted to prolong their useful life.

3. We purchased two doppler flow meters to monitor sludge flow to account for equipment performance and cost determination.
4. Two return sludge pumps with mechanical varidrives were replaced with state of the art electronic inverters. The mechanical varidrives were costly to maintain and run. This project coincided with some instrumentation being reworked. Both changes should help reduce electrical consumption by approximately thirty percent.
5. In an effort to continue to reduce odors at the plant a new type of odor system was tested successfully. The equipment is on order with expected installation in early 1987.
6. To gather information helpful in maintaining proper treatment, we have surveyed most industries in Lebanon. This survey was helpful in educating the industries in how the wastewater plant functions and how unwanted wastes may affect the plant.
7. A computer was purchased in 1986 to help manage tremendous amounts of data needed to properly manage the Wastewater Department.

The construction crew had a busy year undertaking two major projects. One on Avon Avenue, the other on Atwood Avenue and Central Avenue. The Atwood Avenue, Central Avenue job removed discharge to the Connecticut River from nine structures.

In the major construction projects, 1,143 feet of pipe and eight manholes were installed.

The goals for 1987 have been set. They range from storm separation jobs to be done in-house and by contract to major purchases for the compost operation.

Construction projects are planned for Crafts Avenue, Hanover Street, Maple Street, Highland Avenue, Union Street, High Street, Colby Avenue, Bank Street Extension, and Abbott Court. The Department will also be involved in the Enfield Sewer Project located in Lebanon.

Planned major projects at the plant are: two vestibules for energy conservation, testing equipment associated with the dewatering process for increased efficiency, testing new flow meters, enlarging the maintenance shop, testing some new primary sludge pumps, and continuing our successful preventive maintenance program.

Respectfully submitted,  
Dana Arey, Public Utilities Director

### Lebanon Municipal Airport

1986 was a successful year for the Lebanon Municipal Airport Industrial Park characterized by major improvements and general upgrading of both the airport and the industrial park.

The airport and the industrial park are owned and operated by the City of Lebanon. No taxpayer funds go to the airport facility, it is totally self-supporting. The airport facility is funded by user fees such as tenant rents, landing fees, parking lot fees, fuel flowage fees, and other miscellaneous revenues. Capital improvement projects such as runway extension, land acquisition, ramp and taxiway expansions, snow removal equipment, etc., are ninety percent funded by the Federal Aviation Administration (FAA) and funds are derived by user fees rather than taxpayer funds. Other airport projects such as an Instrument Landing System (ILS), Microwave Landing System (MLS), and other landing aids and navigation facilities are fully funded by the FAA with user fees.

The airport staff consists of an airport manager, operations manager, secretary, part-time bookkeeper, maintenance foreman, two maintenance men, eight part-time snow removal and two summer employees. The airport staff has the responsibility of managing, operating, developing, and maintaining all aspects of the airport encompassing approximately 737 acres, such as runways, taxiways, ramps, parking lot, terminal building, and grounds (mowing, snow removal, approach clearing, painting, etc.).

Airport tenants and leasees include American Eagle/Command Airways, Eastern Express/Precision Airlines, Avis, Hertz, and National car rental agencies, Philly's Gift Shop, the Safari Restaurant, LADCO fixed base operations, and AMCA International's air transportation facility. FAA facilities include the Air Traffic Control Tower, Flight Service Station, and Airway Facilities Sector Field Office.

Airport activity in 1986 totaled 83,558 operations (a seventeen percent increase over last year) and forty-seven based aircraft. The breakdown of aircraft landing activity is as follows:

General Aviation	59,951
Commercial Airlines	12,634
Air Charter	3,092
Military	285
Misc. (After Control Tower Hours)	7,596
Total	83,558

The Upper Valley has one of the finest air transportation systems in the country. The airport is served by American Eagle/Command Airways and Eastern Express/Precision Airlines with approximately twenty-five flights per day to Albany, New York, Boston, Massachusetts, Newark, New Jersey, New York City and White Plains, New York and Philadelphia, Pennsylvania. Airline enplanements for the year totaled 40,609 passengers, a nine percent increase over 1985 and the highest enplanements in the history of the airport. Freight enplaned totaled 184,340 pounds, a 309 percent increase, and freight deplaned totaled 333,535 pounds, an 762 percent increase compared to last year's.

During 1986, significant attention was given to setting the foundation for development of Phase IA, fifty acres in the airport industrial park. Of greatest impact was the funding for such a project. In 1985 a \$600,000 grant was received from the Economic Development Administration (EDA) and \$200,000 Community Development Block Grant (CDBG) from the New Hampshire Office of State Planning. Construction of water and sewer lines and access roads commenced during the summer of 1986. Stage I construction, consisting of a portion of Airport Road and all of Commerce Avenue, with water and sewer, were completed. Stage II construction commenced in the Fall of 1986, which included Executive Avenue with water and sewer, and will be completed in the Summer of 1987. Two lots were sold and two buildings were completed totaling five buildings. This project will greatly improve the marketability of the industrial park and should result in an increase of light industrial development in the years ahead.

The Noise Compatibility Program and Noise Exposure Map prepared and completed in 1985 according to FAA Regulations was approved by FAA in 1986 and was the first approved program in the northeast region of the United States.

Land acquisition of one hundred and twenty acres for approach clear zone south of Runway 36 was accomplished under FAA Airport Improvement Program (AIP-03) Grant of \$121,860, New Hampshire State Aeronautics Grant of \$6,770 and airport funds of \$6,770. Additionally, fifty-five acres were cleared with approximately twenty-five acres grubbed, seeded, and mulched for the approach clear zone to Runway 36. This project was accomplished under FAA AIP-04 Grant of \$200,000, New Hampshire State Aeronautics Grant of \$11,111 and airport funds of \$11,111. A large snow

blower was also acquired under an older FAA Grant for \$62,950.

The main objectives for 1987 are to continue development of the industrial park Phase IA (west side) and provide development plans and financial strategy for industrial park Phase II (east side) for future development. Additional airport projects planned for 1987 include relocation of displaced threshold on Runway 36, relocate obstruction lights, relocate VASI approach lights, complete grubbing, seeding, and mulching of remaining acreage as FAA AIP-05 project; complete the ILS and MLS for Runway 18 by FAA; obtain an FAA grant to update the Airport Master Plan.

The City Council has shown much progress in establishing a foundation for the continued development of the airport and the industrial park facilities along practical and progressive lines. They have demonstrated that these facilities represent a valuable part of our community and one that will continue to offer opportunities to our citizens in the years ahead. As always, we invite the community's participation and suggestions on upcoming issues and projects.

Respectfully submitted,  
Marcel Theberge, Airport Manager

## REPORTS OF BOARDS AND COMMISSIONS

### Planning Board Report

The Lebanon Planning Board experienced a very busy year in 1986 in reviewing a heavy work load of applications resulting from the City's rapid growth. The Board meets normally twice a month, but the increase in applications required special meetings to be held on numerous occasions. To demonstrate the Board's activity, one hundred and twenty-nine applications were acted upon in 1986, compared to eight-seven in 1985 and eight-five in 1984.

Four new members joined the Planning Board in 1986 filling vacancies and bringing the Board to its full membership of nine permanent members. Two alternates have been appointed who sit in the absence of regular Board members.

The major accomplishment of 1986 was the preparation and final approval of a Master Plan for the City of Lebanon. Recommendations of the Master Plan have resulted in Board activity to

develop a Capital Improvement Plan, Wetland Regulations, Slope Regulations and Aquifer Protection Regulations. It is the Board's intent to use the Master Plan to develop its long range planning.

The Lebanon Planning Board will face important decisions in 1987 undoubtedly having long term effects. The pending move of the Medical Center, growth on Route 12A in West Lebanon, the Miracle Mile, and along Route 120 will present complex decisions for the Board.

The Planning Board's basic responsibility is to provide for orderly responsive growth as related to the general safety, health, and welfare of the citizens of Lebanon. Annexations of land, subdivisions of land, and review of site plans are a continuing function of the Lebanon Planning Board. The public is invited to attend our meetings to offer citizen input to the progress of Lebanon.

Respectfully submitted,  
Norman Dobson, Planning Board Chairman

### Zoning Board of Adjustment

There are five regular members of the Board, appointed for three year terms in accordance with New Hampshire Statutes, Chapter 31. The ZBA has the responsibility to hear and decide appeals with regard to three types of land use questions:

1. Appeals from administrative decisions when the appellant disagrees with a ruling of the Zoning Administrator.
2. Requests for special exceptions. The Zoning Ordinance allows certain land uses only when the ZBA has held a hearing on the request and determined that certain conditions are met.
3. Requests for variances. This involves applications for use of property where a literal enforcement of the ordinance would create unnecessary hardship.

In 1986, the ZBA heard forty-five requests for special exceptions, of which thirty-nine were granted, and thirteen requests for variances, of which eight were granted. The ZBA heard only one appeal from an administrative decision, which was denied.

Special exceptions must be granted when the applicant provides evidence that the request meets all the requirements set forth in the ordinance. Therefore many special exceptions are approved by the Board, often with conditions. Variances are much harder to obtain as the law requires there be

unique physical circumstances or conditions relating to the property creating unnecessary hardship, before a variance may be granted.

In order to hear all the requests that come before the ZBA, we meet regularly twice a month and often one to three more times a month in order to allow sufficient time to obtain all the information and public input to make decisions that have real effects upon the community within which we live.

Respectfully submitted,  
John B. Wheeler, Zoning Board of  
Adjustment Chairman

### Upper Valley Lake Sunapee Council

The Upper Valley Lake Sunapee Council is a public, nonprofit voluntary association of towns and cities in the Upper Valley and Lake Sunapee areas. Our thirty-one communities are in two states and five counties.

The Council consists of a Board of Directors and a professional staff. Each town or city annually appropriates funds for the Council's operation and sends two representatives to participate on the Board of Directors. The Board elects officers, adopts the annual work program and budget, and develops policies and positions on issues that are important to our communities.

The Upper Valley Lake Sunapee Council is the official organization that brings towns and cities within our region together. By bonding together and pooling their resources, local governments have a highly trained, professional staff available to them for a wide variety of services. Areas of expertise include land use planning, master planning, economic and community development, water quality management, transportation, landscape architecture, housing, capital budgeting, historic preservation, downtown revitalization, solid waste planning, recreation, and fiscal and environmental impact analysis. The Council also serves as a collective voice for these towns and cities in dealing with state and federal governments, thereby protecting and furthering the needs and interests of our communities.

Half of your local dues to the Upper Valley Lake Sunapee Council supports regional planning and regional programs. Over the past year the Council:

- Prepared the Upper Valley Solid Waste District Management Plan and provided administrative services to the Solid Waste District;

- Sponsored and helped organize the Upper Valley Household Hazardous Waste Collection Program and provided assistance to the New London League of Women Voters to help create a similar collection program in the New London area;
- Worked with several communities in the Lake Sunapee area to develop a solution to their septic disposal problem;
- Maintained our regional data base, including our role as a Regional Data center for the U.S. Bureau of the Census and updated and published the Economic Profile of the Upper Valley Lake Sunapee Region which is the primary source of economic and demographic data for our region;
- Provided an economic Development Agent for Sullivan County to help retain and expand employment opportunities in the area;
- Testified on several bills before the legislature, including the Connecticut River Resource Authority Bill, and distributed summaries of new and amended legislation to our communities;
- Testified on New Hampshire's 10-year highway plan and Vermont's 5-year highway plan.
- Sponsored the Municipal Law Lecture Series;
- Sponsored two meetings on groundwater protection and distributed model ordinances to each community in the region;
- Provided administrative services to the Upper Valley Community Land Trust and worked with the Connecticut River Watershed Council, Hanover Conservation Council, and Society for the Protection of New Hampshire Forests to negotiate voluntary conservation easements and deed restrictions to protect open space and conservation lands;
- Continued the regional historic preservation program, including historic surveys, national register nominations, and historic preservation plans;
- Provided technical assistance to Advance Transit and County Coach;
- Helped over a dozen communities seek state and federal grant funds by providing technical assistance, data and in most cases, preparing the grant applications;
- Conducted a survey of application fees for local land use regulations and distributed the survey results to several communities;
- Met on numerous occasions with state department heads and legislators to discuss the needs and interests of our communities; and

- Updated and amended the Regional Land Use Plan.

The Council also provided a number of direct services to the City. Following several years of intensive work by the Planning Board and UVLSC, Lebanon's Master Plan was officially adopted and printed in 1986. Additional technical assistance provided to the Planning Board included preparation of a Steep Slopes Ordinance and information on soils-based lot sizes. Working with the Zoning Ordinance Review Committee, the Council has prepared landscaping regulations, revisions to the sign code and provided information on cluster zoning and PUDs.

Transportation planning was another major component of UVLSC services over the past year. This activity was highlighted by the completion of the Route 12A Comprehensive Study and the startup of the Upper Valley Transportation Study which will lead to a comprehensive 10-year highway improvement program. The Council's Transportation Planner also developed a methodology for assessing traffic impact fees for developers and developed a recommended work program for conducting the DHMC traffic impact study on Route 120. We also conducted or reviewed impact studies concerning the following proposed developments: Densmore Pond, Rich's Day Care Center, Friendly's, Wolf Run, Eagle Ridge and Dartmouth Square Shopping Plaza.

The Council's staff of professionals stand ready to assist your community in addressing the planning and growth management issues which you will face during the coming year. We encourage you to become more familiar and involved with the Council, since we are essentially an arm of local government addressing your needs.

Respectfully submitted,  
Robert W. Varney, Executive Director, UVLSC

#### **Advance Transit Report**

During 1986, its fifth year of operation, Advance Transit provided approximately 265,000 passengers trips to the Upper Valley. Of these, about 80,000 trips were provided to Lebanon residents. Currently we make forty-eight stops daily in Lebanon, from 5:30 a.m. to 6:45 p.m.

This year saw the development and implementation of a long range plan for increased handicapped accessibility in our public transit system. This program will dramatically increase the mobil-

ity of handicapped people in the area. In addition, we are currently exploring various opportunities for the consolidation of transportation services, with the goal of providing maximum service to the transportation disadvantage.

The first phase of our capital campaign has been completed. We currently have on order a new fleet of larger, more comfortable vehicles. We also have been able to assist local human service agencies in ordering vehicles to meet the transportation needs of their clients.

On Memorial Day Advance Transit successfully ran a free shuttle service between the West Lebanon plazas. This could be the prototype for a service which would reduce traffic congestion in the Route 12A area.

Respectfully submitted,  
Lee Topham, Acting Executive Director

### Hospice Of The Upper Valley, Inc.

#### WHAT WE DO:

Offer patient care, family support, and bereavement care to people in crisis. Offer consultation and coordination with other health service providers. Provide training to volunteers who work with patients and their families. Sponsor public speakers and films on topics relevant to Hospice work. The staff for Hospice makes presentations to schools, church groups, and other community organizations.

#### WHO WE ARE:

We offer trained volunteers who visit patients and their families at home, in the hospital or nursing home to provide help with routine tasks, offering support and guidance through an illness and bereavement. We have three paid staff members: a nurse, a social worker, and an office manager who coordinate the daily work of Hospice of the Upper Valley.

#### WHOM WE SERVE:

Hospice services are available to patients and families at no charge in 21 Vermont and New Hampshire communities. In the four years since 1983 Hospice has served over four hundred and forty patient/families. This includes one hundred and two in Lebanon. Since 1979 over three hundred and twenty people have participated in our volunteer training series (not all become volunteers). Since 1979 over two hundred and forty community education programs have been available to area residents, thirty-seven in 1986.

#### WHO SUPPORTS US:

Hospice of the Upper Valley's \$69,000 1987 operating budget will be met by contributions and a few other sources. (Lebanon has allocated \$2,500 towards this budget). Nine other Upper Valley towns support us.

Respectfully submitted,  
Doreen Schweizer

#### Headrest

Headrest, Incorporated, the Upper Valley's Information Center and 24-Hour Crisis Hotline thanks the residents of Lebanon for their support. In 1986 we served four hundred and sixty-three Lebanon residents (an increase of six percent over the previous year) in the following ways:

Assault/Abuse Children	15	Family Related	122
Assault/Abuse Women	23	Financial/Mat'l. Asst.	60
Alcohol	152	Handicapped	8
Caring Listener	928	Health Related	56
Child Care	11	Housing	72
Consumer	7	Job	17
Counseling Requested	76		
Legal	23	Depression/Anxiety	56
Other Info. & Referral	91	Drug Related	39
Runaway	4	Energy	4
Suicide	23	Fuel Emergency	2
Transportation	20	Lodg. Req. (not used)	40
Volunteer/Donation	16	Lodged at Headrest	60
Collaboration	123	Lodged Elsewhere	3
		Total Situations	2051

Reason for Calling: Information (16%) Service: (66%) Crisis: (18%)

Twenty-four hours a day, each and every day of the year, Headrest staff and volunteers are available to provide the following services:

**INFORMATION:** Whenever you have a question or problem and are not sure where to turn call Headrest. We have information about local services and agencies, consumers' and tenants' rights, drugs and alcohol, and much more.

**REFERRALS:** We can guide you to the person or place best able to help you. We make referrals for personal or marriage counseling, legal assistance, support groups and other emergency services.

**SOMEONE TO TALK TO IN CONFIDENCE:** Our hotline workers are trained to offer you understanding, respect, and emotional support in a non-judging manner. Call us when you're feeling lonely, anxious, worried, upset, or overwhelmed by something in your life.

**HELP IN A CRISIS:** If it's an emergency you know that someone at Headrest will be immediately available to give you personal support, and help you contact additional resources. We are a suicide prevention hotline, and have special expertise in handling crises involving the use of alcohol and other drugs.

**EMERGENCY LODGING:** Temporary emergency shelter is offered to those who need to take a break from a stressful living situation, and those who have nowhere else to go. Supervised overnight lodging for intoxicated persons is funded by the New Hampshire Office of Alcohol and Drug Abuse Prevention.

**ALCOHOL & DRUG ABUSE PROGRAMS:** We offer information, educational presentations, and individual and family counseling about substance abuse issues. New for 1987 is a New Hampshire state grant for outpatient substance abuse counseling.

We are extremely grateful for continued support, and proud of our record of fifteen years of continuous service to the Upper Valley. Our thanks to everyone who supports the United Way, who volunteers at Headrest or other services, and who joined the Friends of Headrest for 1986. With your help we can continue to improve and expand our services for the benefit of all.

We welcome your comments, suggestions, and questions about our services so we can be responsive to the needs of the community. Feel free to contact us at 448-4872, the business line; or 448-4400, the hotline. Thank you.

Respectfully submitted,  
Rick Barrows, Administrative Director

#### Lebanon Area Health Care

Lebanon Area Health Care, Incorporated, provides a full range of home health care and home support services to residents of Lebanon. In addition, LAHC provides services to young families including Well Child and Dental Clinics, the WIC (Women, Infants and Children) Nutrition Program and Parent Aide services. LAHC sponsors a year-round Parents Anonymous Group and a parenting support group for young parents. Under contract to the Lebanon Senior Center, it provides regular nursing services at the center. In addition LAHC provides health screenings in the community which are also available to local businesses. Please give the agency a call if it can help in meeting your health

care needs. LAHC is located on the second floor of the Commerce Building in Lebanon. 448-1597.

Lebanon residents on LAHC's Board of Directors are: Margaret Wheeler, Margaret Schofield and Mark Nunlist, MD.

Visits to Individuals at Home:	10,332
Child Health Services:	149
Social Services:	2,266
Total Home Visits	<u>12,747</u>
Visits by Individuals at LAHC Clinics:	394
Nutrition Services: WIC Clinics	3,653
Total Clinic Visits:	<u>4,046</u>
Lebanon Senior Center Nursing Contacts	891
Health Promotion	607
Support Groups & Education Sessions	107
Total Health Promotion:	<u>1,605</u>
Total Lebanon Residents Served In All Programs:	<u>1,025</u>

Respectfully Submitted,  
Gretchen Cherington, Executive Director

#### Upper Valley Senior Center

The Upper Valley Senior Center is located at Ten Campbell Street, Lebanon. It is a multi-purpose senior center which focuses on the nutritional, social, recreational, and health needs of the older person and offers a variety of services to address those needs.

To meet nutritional and social needs, dinner is served at noon Monday through Friday. This is a preventive service, primarily for people over the age of 60. However, guests and visitors are also welcome. For homebound individuals living in Lebanon, West Lebanon, and Hanover, hot nutritious meals are delivered each day by volunteers. Older adults who are unable to prepare their meals due to illness, convalescence, or disability are eligible to receive home delivered meals. When necessary, frozen meals are made available for weekend use.

Recreational, educational, and social needs are met through programs which include speakers, films, musical events, crafts, cards, and trips. If transportation is needed two vans - one of which is lift equipped for transportation of handicapped individuals - are available to transport people to doctors appointments, to the Center, or for shopping.

An adult day service program operates at the Senior Center daily, 9:00 to 4:00. Older adults who

who are in need of supervision, or who would like a planned program of activity are welcome to participate. Fees are based upon a sliding scale.

There are many other services available at the Center. In conjunction with other local agencies the Upper Valley Senior Center provides health services, legal services, and tax assistance. In addition a social worker is available for consultation regarding individual concerns relating to health, income, housing, in home care, insurance, and a variety of other issues and designed to assist people to maintain their independence in the community.

The Senior Center exists as a part of the Community and recognizes the many contributions older people have made. The Center invites businesses, churches and civic organizations to participate in the life of the Senior Center. Working together we can promote the well being of the residents of Lebanon. For more information people are encouraged to stop in or call 448-4213.

### **Community Action Program**

CAP outreach services are designed to help people find solutions to economic problems. Together a worker and client can identify needs and plan a course of action to assist the client. CAP workers can provide assistance, link people effectively with existing programs and advocate for clients in a joint effort to improve their quality of life.

In Lebanon the Listen Center serves as the local CAP outreach office. Listen outreach workers network with area human service agencies and welfare offices to provide basic food, shelter, clothing, energy, and medical services to people in need.

Four times a year USDA surplus cheese, butter, flour, rice, and cornmeal is distributed to income-eligible residents of the county. In Lebanon these distributions are held at the Upper Valley Senior Center, Rogers House, The Towers, Meals on Wheels locations, and LISTEN. An emergency food pantry provides food supplies to families and individuals unable to provide their own basic food. Community Dinners are served to fifty to sixty people twice a week at the Sacred Heart Church in Lebanon.

In 1986 more than two hundred households received assistance with housing issues. Emergency shelter arrangements were made for twenty-six households. Outreach workers facilitated landlord/tenant relations and assisted in locating affordable housing for one hundred and eight-four households.

Budget Counseling was provided to two hundred and eight households. This service enables people to work with a counselor to assess their financial situation and develop a manageable budget to meet expense. Budget Counseling can improve a difficult financial situation making people less vulnerable to crisis.

Community garden plots are available so that people can plant and tend their own gardens. Seeds are provided at reduced cost.

Weatherization assistance is available to families trying to improve the energy efficiency of their existing homes. Emergency back-up support staff is available to the CAP Fuel Assistance program.

The Emergency Response System provides telephone units which link elderly people living alone to needed medical services. This allows income-eligible adults to remain in their homes but to maintain close contact with support and emergency services.

The CAP Outreach program makes it comfortable for people to ask for and receive necessary services. It helps people through a crisis and teaches people to take the next step, that of helping themselves.

## FINANCIAL SECTION

Your City Government ranks as one of the largest corporations in the Upper Valley. It is one of the largest employers, and also recycles a large amount of funds back into the local economy. City Financial records are open to the public, by request, at City Hall. While a complete description of the City's finances is not possible here, citizens are encouraged to come in and examine the records and ask questions about the municipal corporation in which they are members.

The City employs the services of an outside Certified Public Accountant to audit its operations annually. The audit is done in accordance with generally accepted accounting practices. The modified accrual basis of accounting is used for all governmental type funds and expendable Trust Funds. The accrual basis of accounting is used for all Proprietary Trust Funds. The Nonexpendable Trust Funds are handled on a cash basis and not on the accrual basis which is a departure from generally accepted accounting principles.

### Pension Plan

The City participates in the State of New Hampshire Retirement System. The City's contribution for normal cost of the plan is based upon an actuarial valuation of the entire State plan. Prior to 1980, only full-time police and firemen were covered under this plan. In 1980 the City voted to include all employees. As a result, in order to provide full prior service credit (to a maximum of 10 years for each employee), the City has an accrued liability of approximately \$191,661, which is payable at a cost of \$15,057 annually. Pension costs to the City, exclusive of the accrued liability, were \$100,898 in 1986. The City also paid \$2,794 to the International City Manager's Association and \$598 toward the Employee Money Purchase Pension Plan. This plan is presently being administered by the International City Management Association Retirement Corporation.

The City's 1986 Combined Balance Sheet, the 1986 Combined Statement of Revenues, Expenditures, and Changes in Fund Balance, 1986 Combined Balance Sheet—all Special Revenue Funds, and 1986 Combined Statement of Revenues, Expenditures, and Changes in Fund Balance—all Special Revenue Funds, are shown on the following pages.

**AUDITOR'S REPORT ON FINANCIAL PRESENTATION**

---

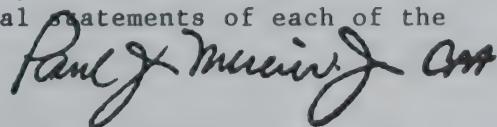

To the Honorable City Council  
City of Lebanon  
Lebanon, New Hampshire

We have examined the general purpose financial statements of the City of Lebanon, New Hampshire and the combining fund financial statements of the City as of and for the year ended December 31, 1986, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As discussed in Note 1B to the financial statements, buildings and certain equipment items are stated at values determined for insurance purposes. In our opinion, such assets should be stated at acquisition cost to conform with generally accepted accounting principles.

In our opinion, except for the effects of valuing buildings and certain equipment items at value determined for insurance purposes, as discussed in the preceding paragraph, the general purpose financial statements referred to above present fairly the financial position of the City of Lebanon, New Hampshire, at December 31, 1986, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year. Also, in our opinion, the combining fund financial statements referred to above present fairly the financial position of each of the funds of the City of Lebanon, New Hampshire, at December 31, 1986, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole and on the combining fund financial statements. The accompanying financial information listed as supporting schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the City of Lebanon, New Hampshire. Such information has been subjected to the auditing procedures applied in the examination of the general purpose and combining fund financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the respective funds taken as a whole.

Parmly Wills, Building Inspector	

## READER SURVEY

Section 419.47 of the City Charter requires that all accounts of the city government be audited at least annually, that "an abstract of the results of such an audit be made public", and that "an annual report of the city's business be made available." The Charter does not specify what kinds of information should be included in the annual report as does state law specify what should be in a Town's annual report. We have attempted to include information we think Lebanon residents would be interested in, not only for this year, but as a permanent record of the proceedings of the city for years to come. The report is also useful for mailing to people or businesses who are considering relocating to the City, or to the people who buy the City's bonds. We would, however, appreciate your input as to the contents of the report and are therefore including this short survey. Please complete this survey and return to City Hall next time you come in. Thanks for your help!

1. What sections of the City Report do you find interesting, informative, or helpful? Please rate from 1: "very helpful" to 5: "not at all helpful":

Reports of City Departments	_____
Reports of Boards and Commissions	_____
Financial Section	_____
Council Boards & Standing Committees	_____
Property Assessed Values	_____

2. Is there any other information you would like to see in future City Reports?
- 
- 

3. It costs about twelve cents to mail each copy of the report to local property owners. Is this well spent or would you rather have the reports available only for pickup at City Hall or elsewhere?

\_\_\_\_\_ mail      \_\_\_\_\_ pickup only

4. Did you keep last year's report for reference during the year?

\_\_\_\_\_ yes      \_\_\_\_\_ no

5. Overall evaluation of the report

\_\_\_\_\_ good      \_\_\_\_\_ fair      \_\_\_\_\_ poor

6. Your City government is composed of volunteers working long hours for little reward. We would like you to join us. Please list committees you would like to serve on or talents you have to offer. \_\_\_\_\_
- 
- 

7. Comments: \_\_\_\_\_
- 
- 

Thank you again for your time!
