## REPORT OF CEMETERY TRUSTEES

Your trustees are pleased to report that we were able to purchase the land directly in the rear of the cemetery for additional lots at what we consider a fair price.

We also regret to report that we were unable to contact anyone to clean up the cemetery this fall but hope to make a thorough job in the spring.

## DALAND MEMORIAL LIBRARY

The Trustees have been notified of bequests from the Estates of Mrs. Clara H. Kendall, Miss Emma C. Flint and Harry G. Blood, which will be of great aid in the upkeep and maintenance of the Library, and we should all keep them in grateful remembrance for their interest and generosity for this important phase of community welfare.

Other than this there is little change from last year's report to record, but we are glad to note that the circulation of books and magazines has increased appreciably, in spite of circumstances which necessitated closing the Library several times in January and February last year.

Much credit is due the janitor that the building has been comfortably heated in spite of a wet cellar and damp wood to contend with.

One hundred and forty-five new books have been added, some from the town appropriation and book funds, 23 donated by State Aid, six purchased from the Alice C. Parker fund, and by gifts from the Nashua Public Library, Mrs. G. W. Auryansen, Mrs. Mary H. Vinal, Mrs. G. D. Kittredge, Mrs. Madeleine Conant, Miss Mary E. Bancroft, Mrs. Francis V. Braun, Miss Elizabeth Towne, Ernest M. Gleason, W. B. Wood, Miss Bertha Rogers, Mrs. Neary, Mrs. J. W. Butler, Mrs. J. L. Bailey, who also gave us more picture puzzles, all of which are gratefully acknowledged.

Though less tangible, the kind words of commendation for the effort to make the Library of active service to the community, and the hearty cooperation of all concerned, are no less appreciated.

The Librarian was privileged to attend the District meeting at Nashua in May, receiving inspiration and help from the discussion of the problems and activities of other libraries in this section.

With the ending of war, and less stringent restric-

tions on paper, we should be able to acquire more and better books to offer our patrons in 1946, thus increasing our usefulness.

Respectfully submitted,  
**RUTH S. ENDREJAT,**  
 Librarian.

## REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Mont Vernon:

I herewith present my seventh annual report, the twenty-seventh in the series.

### Teacher

Miss Viola Jenkins remains as your teacher for another year. As these one-teacher and two-teacher schools are the hardest hit by the teacher shortage, you should feel fortunate that Miss Jenkins is at hand and willing to keep your school open.

### You and Youth

We are told that juvenile delinquency is on the increase. We hear of trouble here and there which concerns boys and girls. We adults are in the midst of trying times; likewise so are the youth. We are fortunate to live in a section not particularly hit by this delinquency. Therefore, lest we be affected, we need to "take stock" and examine our problems.

I have worked with and for youth for a good many years. Naturally I believe in them and have confidence in them. I therefore feel competent to offer a few suggestions.

Youth needs guidance and not all of that should come from the school or church. They need the genuine interest of their parents. Some send their children to school, others bring them. The latter are there with their young people and know what their problems are and help to solve them. Naturally the results are going to be more satisfactory. Young people need something to do and let it be largely within their interests. Parents may need to give up a movie or card party themselves in order to plan activities which would keep their youth doing something worthwhile. Without doubt the best any parent can do for his child is to set the right example. Since youth are growing up

and emulate some pattern of adulthood, right example refers to interest shown by parents and others in worthwhile pursuits, to setting a good behavior pattern and to influencing good morals. The greatest obstacle to a successful youth training program today is the lack of appreciation on the part of elders that the power of example is still a very potent force.

In order to make a good school better, I urge every parent and friend of youth to consider and act upon these suggestions. Youth is not all bad, not all "going to the dogs." All I urge is an intelligent analysis of their problems and a wise parents' interest in their successes.

### Teachers' Salaries

I have had so much to do with this problem of finding teachers for the past five years or more that I find myself spending the majority of my time on that phase of the work. Other duties of importance have been neglected as teachers must be provided. I am concerned with the progress of each and every pupil. I should give some time to market conditions for the purchase of school materials. I would like to know the new things that come into our profession. But, alas, I find much has to be set aside in favor of locating a new teacher or a substitute. I know the situation is not peculiar to this Union, for my colleagues are doing the same. Naturally one turns to salaries as a reason.

I trust the majority of you have read the article about Teachers' Salaries which was printed in the October issue of the Readers' Digest. It called the salaries paid teachers a National Disgrace. You should read the comparisons set forth in the article. I tried to follow it up and found the following comparisons from other sources: In 1943—latest figures available—the average annual earnings of full-time employes in private industry were \$2026 while the earnings of public school teachers, principals and supervisors, aver-

aged \$1599. Average annual earnings in Agriculture, Forestry and Fisheries \$836, in Mining \$2161, in Contract Construction \$2505, in Manufacture \$2349, in wholesale and retail trade \$1802, in Finance, Insurance and Real Estate \$2065, in Transportation \$2489, in Communications and Public Utilities \$2074, in Services \$1355. All of this last group of figures are included in the average of \$2026 mentioned above. While teachers are better educated and have more responsibilities, their average salary is about \$500 less than the average salary paid in private industry.

At the same time that we make these comparisons, I want to call your attention to the fact that the vast majority of teachers stuck to their jobs all during the war. At a time when their graduates were going out and earning more money than their teachers and when the temptation was great to take a war job, these teachers stood fast and kept their posts so that the children might not suffer. My tribute goes to them as they deserve it equally with those who served in other capacities.

My plea is that you pay the teachers just as much as you possibly can. I hope that the pay will be attractive enough so that more of your own young people will want to train for a teaching career. You can not expect to equip your schools with good teachers unless some local young people train for teaching. While your son or daughter may not be employed here, he is successful in some other community and a resident of that town succeeds here.

### **Recomendations**

I hope you will act favorably upon the article in the warrant relative to transportation contracts. As the article is worded, it will be permissive to award three year contracts if it is favorable to the best interests of the district and the children. It seems to me

wise for the transporter so that he can figure his overhead over a three year period rather than for a shorter time.

**Tribute**

I appreciate the helpful attitude of the School Board, the faithful work of a friendly teacher, and the good will of your citizenry.

Very respectfully,

HAROLD C. BOWLEY,  
Superintendent of Schools.

February 9, 1946.
