Facilities Control Center
(603) 862-1437

Welcome to UNH Facilities

The UNH Facilities Division provides comprehensive services to the UNH campus through our four units: **Campus Planning, Energy and Utilities, Facilities Services and Facilities Project Management.**

Our Mission Statement
UNH Facilities are stewards of the University campus, providing a safe, accessible and attractive physical environment while efficiently using resources and planning for the future needs of the University.

UNH Campus Aerials

Facilities Control Center: (603) 862-1437

Call us for any and all Facilities-related requests, including:

- Project management
- Maintenance
- Energy (including heating and cooling issues)
- And more

For non-emergency issues, please enter service on FAMIS.

If you have a personal, medical or health-related issue that may be impacted by the work to repair or replace a facility, please include this information on the request form to 862-1437 or in the "Description" field of the request form. Include a best estimate of the impact.

What's New in Facilities

- Eversource Seacoast Reliability Project: Open Community Letter
- Regarding a proposed electric transmission project affecting the towns of Madbury, Durham, and Portsmouth.

Project Process

Develop a Professional Development Program for employees to enhance their skills to keep current with existing or future positions by April 1, 2017.

- Create a team – April 2016
- Develop a Charter, Plan and Schedule
- Weekly Meetings to Track Progress, Assess Risks, Assign Tasks and Update Schedule
- Complete project
- Market project to employees
