CHARLES L. PULSIFER	1897-8
EDMUND TETLEY	1899-0
JARED A. GREENE	1901-2
WOODBURY L. MELCHER	1903-4
BENJAMIN F. DRAKE	1905-6
WILLIAM F. KNIGHT	1907-8
ALFRED C. WYATT	1909-10
GEORGE H. SALTMARSH	1911-12
GEORGE B. COX	1913-14

*Deceased.

ORGANIZATION OF CITY GOVERNMENT

TUESDAY, MARCH 24, 1914.

At ten o'clock in the forenoon of the above date, members-elect of the city council for the municipal year of 1914 and the members from the previous council met for organization at the city council room agreeably to the provisions of the city charter.

The oath of office was administered to the mayor-elect, Hon. George B. Cox, by the city solicitor, Charles B. Hibbard.

The mayor administered the oath of office to the following councilmen-elect, viz:

Ward 1—Caleb J. Avery.

Ward 2—William L. Delorey.

Ward 3—John B. Moore.

Ward 4—George P. Munsey.

Ward 5—Joseph F. Frye.

Ward 6—Clarence E. Rowe.

Prayer was then offered by the Rev. Geo. L. Thompson, after which the mayor delivered his inaugural address.

INAUGURAL ADDRESS

OF HON. GEORGE B. COX, MARCH 24, 1914

Gentlemen of the Council:

As a man comes to a day crowded with cares and fearing that at the evening hour there will be work unfinished, you and I enter the present year. A careful painstaking study of the city's needs oppresses the cautious because seeming necessity demands four-fold more than can be raised by taxation that is less than an extreme burden upon the property owner. But when all needs are considered and their urgency weighed we must fearlessly meet the most pressing, trusting to the judgment of our people to abide by our choice and decision. Our task is not in spending the money, but in finding it to spend. And not finding enough for all our needs we are embarrassed as we attempt to choose between worthy claimants. But certain advance steps must be taken or the community suffers and the city fails to make the progress it otherwise would. The coat that covers the shoulders of the ten-year-old lad leaves him in a sad plight if he attempts to wear it when he has reached the age of manhood. Let us look briefly to our work done during the past year.

UNION AVENUE.

During the year the north line of Union avenue from Main street past the Morrill Grist Mill has been established and the first step taken toward the improvement of this important thoroughfare. It was absolutely necessary that this line should be determined before the city attempted the permanent improvement so much needed. This street,

because of its location in reference to the residential section at the south end and the large mills and shops located upon it, is destined to be one of our most travelled thoroughfares. Although laid out three rods in width abutters had encroached upon it till at the narrowest point within the zone named there was left to the town but thirty-four feet. That the city's rights should be maintained all citizens agreed; that the line should be fixed for all time has been agitated for several years. But each council bequeathed to its successor the troublesome question. Meantime real estate values in that section were increasing and the proposition was becoming more and more vexed year by year. That the City Council of 1913-14 had the courage to act is worthy of mention; that every member was present and voting, that the final action was unanimous are facts I recall and now mention with much pleasure and satisfaction. As a result of the definite action and the contemplated improvement of the avenue, substantial alterations and additions are to be made to certain real estate located upon this thoroughfare, thereby increasing the taxable property of the city and improving in a marked degree the appearance of the street. In establishing the line all abutters save one waived land damage. Should an appeal be taken to the Superior Court by him, construction will be deferred necessarily till the end of litigation. But I shall urge the Solicitor to hurry the case to its finish and I am confident Mr. Avery's attorney will co-operate with us to the end that there shall be no unnecessary postponement. But if there is a tendency on the part of any to chafe at the delay I will ask such a one to remember that there is being accomplished in a few months what has been deferred for years.

ELM STREET BRIDGE.

At the beginning of the year the city engineer reported as unsafe, the Elm Street wooden bridge. Photographs of the structure, taken while it was being demolished are

now at the engineer's office as witnesses to the accuracy of the report. All who made a careful examination of the old bridge agreed that it must be trusted no longer to carry the burdens then being laid upon it. One question alone confronted us—and that a question upon which men of good judgment could disagree—Should we build in wood, iron or cement? Iron was eliminated when, upon receiving preliminary estimates, it was found to be as expensive as cement; and beyond this was considered the cost of painting and the fact that an iron bridge is subject to corrosion. I believe the future will justify the choice of the council to build in cement and commend their judgment; and, as we wait for a moment between the past and the coming years, comparing impartially Laconia's first permanent bridge with those that are rotting under the merciless touch of time, I predict that our city has built its last wooden bridge.

WIDENING MAIN STREET.

At the hearing upon the petition of Frank H. Lougee et als for the widening of Main street at the location of the Central House no one appeared in opposition and public sentiment was almost unanimous in favor of granting the prayer of the petition. It is safe to say that the petition presented to the council was the product of a well defined sentiment and the voice of our taxpayers.

Building Elm street bridge and widening Main street, each undertaking being somewhat burdensome to the taxpayer, would have been deferred had it not appeared that public necessity demanded present and immediate action.

WORK DONE UPON VARIOUS STREETS

Two lines of surface drainage have been laid at The Weirs,—both greatly needed—one to avoid heavy wash-outs on Tower street and the other to carry to the river water discharged into Endicott street from the Wadleigh hill watershed in times of showers and spring thaws. The

situation at the latter point was somewhat serious as the flow of water along the open ditch carried away such a quantity of earth that the "Channel," at the point of the ditch's outlet, was receiving such a heavy deposit that navigation of the larger boats would be interfered with in time.

Champlain street, laid out in 1911, has been sufficiently graded to render it safely passable. The natural grade was low and filling was required along the entire length of the street.

Warren street has been re-graded and one sidewalk build thereon.

The work commenced on Merrimac street in 1912 has been completed.

The concrete sidewalk on Baldwin street was extended from Pine street to its easterly terminus, thus providing this old and thickly settled street with a concrete walk through its whole course.

The sidewalk on the westerly side of South Main street from Bowman to the property of Mrs. Thomas Benton Weeks has been built to grade. Originally the contour of the land at this point was high and when the city several years since cut the roadway to the present grade the westerly sidewalk was left at the old grade, making an unsightly appearance as well as an unsafe walk for the pedestrians. If an outer embankment is dangerous a like decline upon the inner side must be equally unsafe.

The concrete walk on Spring street, ending at the foot of the hill, extending about one-half the length of the street, has been completed to the Highland street junction.

Lakeside avenue from the Campmeeting association bridge to a point opposite the Regimental buildings has been covered with cinders and the remainder of the street to the Pleasant View House is to be cindered as soon as the ground opens this season. This was and is a much needed improvement as this portion of the avenue must take the water flow from the steep hill rising to the west.

Concrete walks have been built on Washington, School and Belvidere streets, and dirt or gravel walks on Sheridan and High streets.

PARK COMMISSION.

I wish to commend most heartily the efforts made by the park commission to bring their department to some degree of efficiency. And, knowing something of the obstacles they had to overcome, I can appreciate the work accomplished. The public has not co-operated generally with the commission. However, its attitude is not hostile but indifferent. The lack of interest has been due, I believe, to a failure to comprehend what lies within the possibilities of the commission's office and the value of a beautiful city. During the year it has become apparent to me that one of the offices of this department must be educational. It must teach us the value of parks and shaded streets,—of trees, plants and flowers.

LEAVITT PARK.

During the past year substantial progress has been made in grading Leavitt park and trees and shrubbery are to be planted in May. To prepare and care for this park there will be no expense to the city as the generosity of the donor, Mr. Thomas L. Leavitt, provided a perpetual income amounting to about seven hundred dollars annually for its care and up-keep.

OPECHEE PARK.

In 1908 the city purchased for park purposes the fair grounds on the shore of Lake Opechee at an expense of seven thousand, two hundred dollars (\$7,200.00). Thus far the property has remained unimproved and the investment lays as dead capital. That the generation which has paid the price of the purchase may have some benefit there should be improvement and use of this property at once. As the property has been abandoned to idlers, a reck-

less and disorderly element has taken possession, rendering the place undesirable and unsafe for children and ladies. But legitimate use and improvement of these grounds will remedy the evil. The Parent-Teachers' association asks that a playground be established upon a portion of the field during the coming season. And I will suggest to the commission that they solicit from individuals the contribution of trees and shrubbery to be set in that portion of the tract not to be devoted to play grounds and sports. One hundred people each giving a tree or the like in shrubs (\$1.00 per individual) will make a substantial beginning in the creation of a beautiful park.

PLAY GROUND AT SOUTH END.

Thus Ward Six or Lakeport and Ward three, the north end of Ward Four and a portion of Ward Two, will be supplied with play grounds and parks; but Opechee park is too far away for the smaller children living in Ward Five and in the south portion of Wards Two and Four. And I call your attention to the tract of unoccupied land lying between Garfield, Webster, Champlain and Center streets and would suggest the advisability of its purchase.

CANAL STREET (so called).

I am informed by the superintendent of streets that there is no recorded lay-out of any highway over the land now occupied by and known as Canal street. Beyond question the city has acquired a right through usage to this highway, but it is advisable to establish a location over the course now occupied that a record may be made. The section accommodated by this thoroughfare is important and eventually the whole square within Canal, Main, Hanover and Beacon streets will be occupied by mercantile interests. Because of the valuable and costly improvements recently made to the real estate in this locality I would suggest a wider street than the passway now used. The owner who has invested so heavily, his

tenants and the public generally are entitled to this betterment. There is no doubt that at some time in the future more space will be required for traffic than lies within the limits of the present way. But when that time is reached some valuable building, standing on the land needed, may interpose as an insurmountable barrier to the city's growth and progress.

MAIN STREET.

I endorse the Main street improvement recommended by the Board of Public Works. Of course the thought comes to mind that the paving was laid at large expense and undoing the work seems a waste of money. But the best choice can be had only through experience although the tuition may be expensive. When the paving was laid granite blocks were considered the best and most enduring for such a street; but use has condemned them for the traffic of our Main street. The roadway soon becomes uneven and tiresome to ride upon; the irregular, unmatched surface damages the beast that draws the burden and the clatter and noise of traffic is a needless annoyance to the human ear. Our merchants, their customers, and the offices along the street should be treated to more favorable conditions. The expense of taking up the blocks would hardly be more than unloading from the freight car. Business on and through Water street demands the completion of the improvement which was made in the years 1904, 1905 and 1906, and for the accommodation of heavy teaming over this street the granite block seems to be desirable and perhaps the best covering for such traffic.

POLICE DEPARTMENT.

The Police Commission asks for and the retiring finance committee recommends an appropriation for the erection of a suitable, sanitary, safe and up-to-date lock-up. The present building is wholly unfit. It merely *holds* the prisoner, without regard for his personal comfort, health

or life. The public knows and for many years has known the need, and indifference is no longer to be tolerated.

In conclusion I offer this sentiment:—We owe the best that is in us to those who are trusting us in our respective places of responsibility; the community is greater than any political party; we must look well to it that our acts and influence tend to promote and stimulate the city's varied financial, commercial and manufacturing interests, the comfort, happiness and prosperity of its homes, the advancement and establishment of a high standard of morality and civic life.

MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All bills against the city must be approved by the persons authorizing the charge; and unless this is done, no action can be had upon the bill by the committee on accounts and claims, and no order will be given for its payment.

When bills are certified to as above, and left with the city clerk not later than Thursday at 12 o'clock, m., preceding the last Monday of each month, they will be audited by the committee on accounts and claims, and if approved by them and allowed by the council, will be ready for payment on the following Wednesday, at the office of the city treasurer.

Meetings of the committee on accounts and claims are held on the Friday preceding the last Monday of each month, at 7.30 o'clock p. m., at the city clerk's office.

CITY GOVERNMENT

LACONIA, N. H.

Inaugurated fourth Tuesday of March, yearly. Stated meetings:
The last Monday of each month, at 7.30 o'clock P. M., at city
council room, Masonic Temple, Main street.

1914

CITY COUNCIL

Mayor

GEORGE B. COX

Elected March 10, 1914, for one year. Salary, \$300 per annum
Office, Masonic Temple, Main street. Residence, No. 60 Academy
street.

Council

Salary, \$50 each, per annum.

Ward 1—Caleb J. Avery.*

Ward 2—William L. Delorey.*

Ward 3—John B. Moore.*

Ward 4—George P. Munsey.*

Ward 5—Joseph F. Frye.*

Ward 6—Clarence E. Rowe.*

Standing Committees

Finance—The Mayor, Avery and Delorey.

Accounts and Claims—Delorey, Frye and Rowe.

Public Instruction—Avery, Munsey and Moore.

Roads and Bridges—Delorey, Munsey and Avery.

Parks and Commons—Frye, Rowe and Moore.

*Elected March 10, 1914, for one year.

Fire Department—Avery, Rowe and Delorey.
Lighting Streets—Delorey, Munsey and Avery.
Elections and Returns—Frye, Moore and Rowe.
Engrossed Ordinances—Moore, Frye, Rowe.
Police and Licenses—Delorey, Munsey and Avery.
Sewers—Rowe, Avery and Moore.
Land and Buildings—Munsey, Frye and Delorey.

EXECUTIVE DEPARTMENTS

City Clerk

Salary, \$600 per annum and fees provided by law.

EARL FLANDERS

Office: Room 7, Masonic Temple, Main street.

City Treasurer

Salary, \$75.00 per annum.

PERLEY E. HAMILTON

Office: 480 Main street.

City Solicitor

Salary, \$300 per annum.

CHARLES B. HIBBARD

Office: 480 Main street.

Board of Assessors

Salary, \$1500 per annum for the board.

Office: Room 1, Masonic Temple, Main street.

J. FRANK SLEEPER
 DENNIS W. McCARTHY
 CHARLES L. SIMPSON

CITY OF LACONIA

Collector of Taxes

Salary, \$450 per annum, conditional on amount collected.

° MARTHA E. JOHNSON

Office: Room 1, Masonic Temple, Main street.

Auditor

C. HARRY THWING

Board of Public Works

Created by Act of Legislature, 1901. Elected by the city council. One member of said board to be chosen biennially on the fourth Tuesday of March to serve six years. Annual salary of each member, \$100.

J. HENRY STORY.* *President*

Elected March 25, 1913. Term expires March 23, 1915.

JULIUS E. WILSON, *Secretary*

Elected March 28, 1911, for six years.

JOHN T. DODGE

Elected March 25, 1913, for six years.

Office: Room 2, Masonic Temple.

City Engineer, Superintendent of Sewers and Street Commissioner

Appointed by Board of Public Works. Salary, \$1650.

CHARLES A. FRENCH

Office: Room 2, Masonic Temple, Main street. Office hours, 7 to 9 o'clock, Monday and Saturday evenings.

*Elected to fill vacancy.

Overseers of Poor

For Wards One and Six.

SAMUEL A. GARLAND

16 Clinton street, Lakeport.

For Wards Two, Three, Four and Five.

PAUL E. MORIN

11 Winter street.

City Physician

ALPHA H. HARRIMAN, M. D.

Salary, \$100 per annum.

Board of Health

Salary, \$200 per annum for the board, divided as follows: Member from Laconia proper, \$125; member from Lakeport (so-called), \$50; member from The Weirs (so called), \$25.

EDWIN P. HODGDON, M. D., *President*

Elected March 24, 1914, for three years.

Office: 831 Union Avenue.

WALTER H. TRUE, M. D., *Secretary*

Elected March, 1912, for three years.

Office and residence: 642 Main street.

FRED C. TRUE

Elected March 25, 1913, for three years.

P. O. address: The Weirs, N. H.

DEPARTMENT OF SCHOOLS

Board of Education

Salary, \$90.00 per annum for the board.

ALPHA H. HARRIMAN, *President*

liam D. Kempton, Leandre Lavallee, George Lavallee, James McCarthy, Henry L. Morgan, Fred C. Moulton, Walter L. Paine, Thomas F. Riley, Horace E. Rowen, Anthony Saunella, Clarence M. Smith, William A. Smith, Bernard P. Sullivan, Arthur A. Tilton, William Zanes.

Truant Officer,

Horace E. Rowen.

FIRE DEPARTMENT.

Chief Engineer

Cleophas L. Fecteau. Salary, \$175 per annum.

Assistant Engineers

Salary, \$100.00 per annum.

1st, Edward H. Kennedy; 2nd, Henry H. Shorey; 3rd, Edward Sargent; 4th, William H. Rand.

Superintendent Fire Alarm Telegraph

William B. Johnson. Salary, \$150 per annum.

OTHER CITY OFFICERS

Board of Supervisors of Checklists

Charles E. Carroll, chairman. Elected by City Council, Nov. 30, 1914. Ward 1, Fred F. Eastman; 2, Frank C. Morin; 3, Joseph F. Sleeper; 4, Charles A. Fales; 5, Sherman E. Thompson; 6, Arthur L. Davis, Oscar J. George. Elected at biennial election, November 3, 1914. Salary, \$2.00 per day of service.

Park Commissioners

Claude C. Dame, Mrs. Idella Drew Lamprey, Mrs. Cora F. Hayward, Mrs. Laura E. Varney.

Surveyors of Lumber

Lewis S. Perley, *Pearl S. Lovejoy, Charles L. Kimball, Lew K. Perley, L. J. Batchelder, Albert Griffin, Alexander J. Harper, *Fred W. Moore, Albert E. Dodge, William

*Elected but have not qualified.

H. Cummings, Conrad Clark, Charles E. Swain, Tilden H. Avery.

Measurers of Wood and Bark

Lewis S. Perley, *B. J. Hutton, Alexander J. Harper, Lew K. Perley, *Charles E. Swain, Tilden H. Avery.

Weighers of Hay, Straw, Coal and Other Articles

*John Parker Smith, Lewis S. Perley, Charles L. Kimball, Charles F. Locke, *B. J. Hutton, George H. Leighton.

Measurer of Stone

Lewis S. Perley.

Inspector of Petroleum

Walter R. Eames.

Measurer of Brick and Plastering

Charles A. French.

Measurer of Painting

Benjamin Turgeon.

Sealer of Weights and Measures

Walter R. Eames.

Fence Viewers

Lewis S. Perley, *Charles E. Swain.

Tree Warden

Harry F. Mansfield.

Board for Examination of Plumbers

Edwin P. Hodgdon, M. D., Charles A. French, Claude C. Dame.

Licensed Plumbers

John S. Morrisey, Thomas F. Caveny, Claude C. Dame, Thomas H. Walsh, George J. Perry, Bertram G. Walker, J. P. Rand, Jos. H. Valier, Leland S. Topham.

Licensed Drain Layers

Charles A. Young, Claude C. Dame, Wesley B. Stevens, Thomas Fecteau.

*Elected but have not qualified.

CITY OF LACONIA
WARD OFFICERS

Moderators

Elected at biennial election, November 3, 1914, for two years.
Salary, \$3.00 per term.

- Ward 1*—George D. Graham.
2—Louis J. Truland.
3 John B. Moore.
4—Edwin H. Shannon.
5—Alfred C. Wyatt.
6—Harry L. Smith.

Ward Clerks

Elected at biennial election, November 3, 1914, for two years.
Salary, \$7.00 per term.

- Ward 1*—Carl F. Blaisdell.
2—Arthur F. Trask.
3—George Walter Varrell.
4—John J. McDonough.
5—Archie L. Campbell.
6—Clarence E. Rowe.

Selectmen

Salary, \$5.00 per term.

Elected March 12, 1912, for three years.

- Ward 1*—Amos Chattle.
2—John B. Morin.
3—*Walter L. Paine.
4—Edward H. Shannon.
5—Charles P. Clement.
6—L. E. Hayward.

Elected March 11, 1913, for three years.

- Ward 1*—Fred M. Severance.
2—William B. Johnson.
3—Charles K. Hawkins.
4—Edwin A. Thyng.
5—Albert Bourque.
6—John Frank Sanders.

*Elected by City Council to fill vacancy.

Elected March 10, 1914 for three years.

- Ward 1*—*Arthur A. Tilton.
2—William D. Kempton.
3—Michael J. Carroll.
4—Ned F. Sleeper.
5—Frank H. Stone.
6—Oscar A. Flanders.

Inspectors of Election

Appointed by a Justice of the Superior Court, as required by Laws of 1897, Chap. 78, Sec. 14. (Also see Public Statutes, page 145.)

Ward 1—Willis Floyd, Clarence R. Davis, Frank L. Cawley, Stephen J. McCarthy.

Ward 2—William H. McAnerlin, Edward J. Coran, Xavier Trembley, Charles N. Crowell.

Ward 3—Amos J. Dinsmoor, Edwin N. Quimby, A. Eugene Hill, Adelbert F. Stevens.

Ward 4—James G. McGloughlin, Fletcher Hale, John M. Guay, Robert S. Foss.

Ward 5—Arthur J. Vallee, *Ralph B. Gilman, Benj. Turgeon, William N. Charles.

Ward 6 Frank W. Lougee. Harry L. Smith, Olin C. Moore, Charles L. Simpson.

*Elected by City Council to fill vacancy.

RESOLUTIONS

RESOLUTIONS.

In the year of our Lord one thousand nine hundred and thirteen.

A RESOLUTION authorizing the city treasurer to hire money in anticipation of taxes.

Resolved by the City Council of the City of Laconia as follows:

That the city treasurer be and hereby is authorized to hire on the credit of the city, a sum of money not exceeding forty thousand dollars (\$40,000.00) in anticipation of taxes for the present year. The same to be borrowed upon notes of the city, signed by the mayor and treasurer and countersigned by the city clerk.

Passed and approved May 9, 1913.

GEORGE B. COX, *Mayor.*

In the year of our Lord one thousand nine hundred and thirteen.

A RESOLUTION making certain appropriations for the year ending February 15th, 1914.

Resolved by the City Council of the City of Laconia as follows:

That the sum of \$480.00 be and the same is hereby appropriated for the following purposes:

Regulating South Main street and grading Champ-	
lin street	\$200.00
Maintenance of public water closets at Weirs . .	50.00
Memorial Day	230.00

And the mayor is hereby authorized to draw his warrant for the same.

Passed and approved; May 26, 1913.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and thirteen:

A RESOLUTION authorizing the city treasurer to hire money in anticipation of taxes.

Resolved by the City Council of the City of Laconia as follows:

That the city treasurer be and hereby is authorized to hire on the credit of the city, a sum of money not exceeding thirty thousand dollars (\$30,000) in anticipation of taxes for the present year, the same to be borrowed upon notes of the city signed by the mayor and treasurer and countersigned by the city clerk.

Passed and approved July 7th, 1913.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION authorizing the city treasurer to hire money in anticipation of taxes.

Resolved by the City Council of the City of Laconia as follows:

That the city treasurer be and hereby is authorized to hire on the credit of the city, a sum of money not exceeding forty thousand dollars (\$40,000.00) in anticipation of taxes for the present year, the same to be borrowed upon notes of the city signed by the mayor and treasurer and countersigned by the city clerk.

Passed and approved April 27, 1914.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION appropriating money for Memorial Day expenses.

Resolved by the City Council of the City of Laconia as follows:

That the sum of two hundred and sixty-five dollars be and the same is hereby appropriated for the expenses of Memorial Day, to be divided as follows:

To John L. Perley post No. 37	\$150.00
To Darius A. Drake post No. 36	115.00

And the mayor is hereby authorized to draw his warrant for the same.

Passed and approved, April 27, 1914.

GEORGE B. COX, *Mayor.*

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION declaratory of the meaning of a resolution entitled "A resolution exempting certain property of the Laconia Car Company from taxation for a period of ten years from May 1, 1913."

Resolved by the City Council of the City of Laconia as follows:

Whereas, in a resolution passed and approved July 7, 1913, and entitled "A resolution exempting certain property of the Laconia Car Company from taxation for a period of ten years from May 1, 1913," the preamble recited that said company "has purchased since May 1, 1913, large tracts of land in the city of Laconia and is to erect thereon, at great expense, shops for the construction of passenger, of freight cars, or both," and the exemption granted was "on said land and all other land hereafter purchased and used for the same purpose, all new structures erected, all equipment purchased during said period and used in the aforesaid new buildings and all stock in

trade used solely in said new plant;" and whereas the demand for new cars has been slight and said company has used said land, structures, equipment and stock in trade largely in extending its business of repairing cars and may be compelled to continue such use, and the question may be raised whether such exemption applies to property so used or is limited to property used in the construction of new cars; and whereas said additional shops will benefit the city and enhance the value of its real estate substantially the same whether used for the construction of new cars or the repair of old cars and there was no intention of excluding such use for repairing;

Therefore, be it resolved, that it was not the true intent and meaning of said resolution to limit the exemption to property used in the construction of new cars, and that property used in the repair of cars is and shall be included in the exemption if otherwise coming within the terms of the resolution.

Passed and approved May 25, 1914.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION authorizing the city treasurer to hire money in anticipation of taxes.

Resolved by the City Council of the City of Laconia as follows:

That the city treasurer be and hereby is authorized to hire on the credit of the city, a sum of money not exceeding twenty-five thousand dollars, (\$25,000.00) in anticipation of taxes for the present year, the same to be borrowed upon notes of the city signed by the mayor and treasurer and countersigned by the city clerk.

Passed and approved June 29, 1914.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION appropriating the sum of fifty dollars for the re-imbusement of damage sustained by Carl W. Blaisdell by reason of a defective culvert on Lakeside Avenue, so-called.

Resolved by the City Council of the City of Laconia as follows:

That the sum of fifty dollars, (\$50.00) be and the same hereby is appropriated for the purpose of re-imbursing Carl W. Blaisdell for damages sustained to his automobile and to himself by reason of a defective culvert on Lakeside avenue, so called in the city of Laconia, and the mayor is hereby authorized to draw his warrant for the same.

Passed and approved June 29, 1914.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION raising money by taxation for the year ending February 15, 1915.

Resolved by the City Council of the City of Laconia as follows:

There shall be raised and there is ordered to be raised on the polls and the estate liable to be taxed within said city, the sum of \$152,093.46 to defray the necessary expenses and charges of the city for the financial year ending February 15, 1915.

Passed and approved August 5, 1914.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION making appropriations for the year ending February 15, 1915.

Resolved by the City Council of the City of Laconia as follows:

That the following appropriations be made for the year ending February 15, 1915, which appropriations shall be in full for all expenditures in each department named:

State tax	\$17,920.00
County tax	14,592.84
Schools	30,500.00
Highways and Bridges	15,000.00
Repairs to macadam roads	1,500.00
Recovering concrete sidewalks	1,500.00
City engineering	750.00
Sewer maintenance	1,000.00
Street lighting	8,500.00
Hydrant service	2,550.00
Police department	6,000.00
Public library	2,500.00
Brown-tail moths	2,000.00
Fire department	9,000.00
New hose	500.00
Health department	500.00
Support of poor	1,200.00
Laconia hospital, (\$500 for benefit of members of fire department requiring treatment; \$500 for free bed)	1,000.00
Miscellaneous expense	9,687.85
Rent of Masonic Temple	1,300.00
Salaies	4,300.00
Public wharfage, Ward 6	125.00
Partial payment rent Co. K	100.00
Interest on bonds and notes	11,500.00
Payment of Tow of Laconia bonds	5,000.00
Note for macadam, 1911	4,000.00

Elm street bridge notes, 1913	\$ 4,000.00
Street sprinkling	4,000.00
Care soldiers monument, Ins., etc.	250.00
Maintenance of state highways	1,500.00
Surface drain, Highland St.	2,000.00
Sidewalk on Union Ave.	541.30
Elm St. drain	700.00
Weirs toilet	50.00
Grading on Belvidere St.	300.00
Elm street bridge	1,350.00
Tower street sidewalk	300.00
Davis place bridge	396.00
Butler street	544.50

Garfield St. sidewalk	594.60
Canal St. sidewalk	384.50
Foster avenue, Weirs	150.00
Play-ground	300.00
Band concerts	200.00
	<hr/>
	\$177,280.46

Passed and approved August 5, 1914.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION authorizing the City Treasurer to hire money in anticipation of taxes.

Resolved by the City Council of the City of Laconia as follows:

That the City Treasurer be and hereby is authorized to hire on the credit of the City, a sum of money not exceeding Fifteen Thousand Dollars (\$15,000,) in anticipation

of taxes for the present year, the same to be borrowed upon notes of the City signed by the Mayor and Treasurer and countersigned by the City Clerk.

Passed and approved August 5, 1914.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION relating to membership in the fire department and to the salary of its members.

Resolved by the City Council of the City of Laconia as follows:

That the salary of the Chief Engineer shall be one hundred and seventy-five dollars per annum, and that the salary of the First, Second, Third and Fourth Assistant Engineers shall be one hundred dollars each per annum.

That the membership of the companies in the Fire Department for the City of Laconia shall be constituted and paid as follows:

Steamer Company No. 1, to consist of ten men at seventy-five dollars each; Hose Company No. 2, to consist of eight men at seventy-five dollars each; Hook and Ladder Company No. 1, to consist of ten men at seventy-five dollars each; Hook and Ladder Company No. 2, to consist of twelve men at seventy-five dollars each; Hose Company No. 4, to consist of ten men at seventy-five dollars each; J. A. Greene Company No. 6, to consist of ten men at thirty dollars each; said number of men in said companies to be the entire number of each of said companies until this resolution shall be repealed, altered or amended by the City Council.

Nothing in this resolution shall be construed as repealing or in any way limiting the provisions of an ordinance approved June 12, 1893, entitled "An Ordinance in relation to the Fire Department."

This resolution shall take effect upon its passage.

Passed and approved Sept. 8, 1914.

GEORGE B. COX, *Mayor*.

In the year of our Lord one thousand nine hundred and fourteen.

A RESOLUTION making certain improvements for the year ending February 15, 1915, and transferring the necessary funds from the Miscellaneous Expense account.

Resolved by the City Council of the City of Laconia as follows:

That the following improvements be and the same are hereby authorized to be made.

Namely:

Sewer on Lyman and Butler Streets	\$ 200.00
Sewer on Joliet street	100.00
Surface drain on Highland street	194.00
Recovering sidewalk, Highland street	175.00
Crushed rock sidewalk on Province street	150.00
Crushed rock sidewalk on Fenton avenue	187.00
Winter street sidewalk and grading	680.00
Beaman street sidewalk, (crushed rock)	420.00
Surface drain on Belknap street	1,100.00
Crushed stone sidewalk, Academy to Beech St	150.00
Crushed rock sidewalk and grading, Pine St. Ext.	300.00
Crushed rock sidewalk and grading Walker St.	100.00
Crushed stone sidewalk on Woodland avenue	200.00
State highway improvement, from Weirs bridge to Meredith line, (providing that a like sum is obtained from the state)	500.00
Concrete sidewalk on Pleasant street	272.00
Crushed rock sidewalk on Webster street	146.00
For repairs on police station	250.00
	\$5,124.00

And the total sum of the same to be transferred from miscellaneous expense account to their respective accounts.

Passed and approved September 28, 1914.

GEORGE B. COX, *Mayor.*

In the year of our Lord one thousand nine hundred and fourteen.

AN ORDINANCE prohibiting smoking in theatres and places of public amusement.

Be it ordained by the City Council of the City of Laconia as follows:

SECTION 1. No person shall light or smoke a cigar, cigarette or pipe in any theatre or place of public amusement in this city, or in any room, hall or passageway connected therewith, at any time, whether a performance is or is not taking place.

SEC. 2. The board of fire engineers may grant to the proprietors of a theatre or place of public amusement a permit to allow smoking in one or more specified rooms connected therewith, and such a room may be marked as a smoking room, or a sign posted that smoking is allowed therein. The prohibition of the preceding section shall not apply to such a room, or to smoking on the stage as a part of the play or performance.

SEC. 3. Any person violating the prohibition of section one shall be punished by a fine not exceeding ten dollars for each offense.

Passed and approved, January 25, 1915.

GEORGE B. COX, *Mayor.*

Department Reports

SCHOOL DEPARTMENT.

REPORT OF THE BOARD OF EDUCATION.

To the Citizens of Laconia :

Your board of education respectfully calls your attention to the report of the superintendent of schools and the reports of teachers in special subjects. Here you will find detailed at length and truly setting forth the kind of instruction that is being entertained in your various schools, together with results of such teaching and other data pertaining to schools, teachers and scholars.

It is to be hoped that every person at all interested in the public schools of Laconia will give these documents a careful and critical reading. Especially do we wish your attention to be called to what is and what is not, being done by way of industrial education.

The schoolroom is coming more and more to be universally regarded for five hours a day, five days in the week, and thirty-six weeks in the year the home, not only of one child, but the home of many children. That which is to represent a home for so many hours a year for all of the children is, indeed, suggestive as to what this place should be like.

During the past year there has been instituted a more or less systematic monthly cleaning of all the schoolrooms in Laconia, and this not for its hygienic value alone, but that these rooms should be more attractive, more like what a home should be.

Some of the school buildings of the town could be res-

cued from a look of degeneracy by simply grading the lot, setting out a few of our native trees, and giving the buildings themselves a coat of paint. The schoolhouse at Crockett district, Weirs, and at the Oaks, though each commands most beautiful scenery, are very unattractive and for above reason. Scarcely is there anything, except the school book, to suggest anything more recent than fifty years ago. The grounds are barren and mostly ungraded. There are no trees or shrubbery, and the buildings are old and out of repair.

These buildings are heated with the old box wood stove, with nothing modern anywhere. At a small expense these structures could be made to answer for quite modern school apartments. The objectionable stove could be jacketed, and a modern ventilating system could be inexpensively installed. The grounds could be graded and a few native trees set out on the lot. (Not so very long ago patriotic neighbors did this sort of thing to school grounds.)

The school children of the city are ever increasing in numbers. School age is of short duration and it is a serious question to decide just what shall be taught any one individual. Time is too limited to admit of experimenting, and failing, to be obliged to retrace the school steps and going over the ground again. At eighteen or twenty, a scholar's fate is sealed, so far as public school education is concerned, and he has, or he has not, received a valuable asset to his mental armament; one that stands the test of time, or one that fails.

Were there space for argument this would naturally lead to the question of industrial training in the public schools of Laconia. Some considerable work is now being done for the girls, but very little for the boys, in industrial work.

Now, what action will the citizens of Laconia, acting as a body of intelligent men and women, do about this matter?

Shall we repair these schoolhouses? Shall there be as good schools in Laconia as money can buy? Shall the

boys have industrial training as well as the girls? Certainly this is a question that citizens must pass on. It may not be apparent that this is the case, but it is, nevertheless.

The city government gives the school management money with which to carry on the schools in a liberal manner so far as they personally are concerned; but they do exactly what they interpret to be the demand of the citizens of the town, and whether the school board get sufficient funds or less, depends not upon what the city government thinks and does, but that which the citizens through its city government orders to be done.

It is an old but true saying, that that which costs nothing is worth nothing. Good schools cost something. It takes a little extra in cost to retain our good teachers. Certainly money is demanded if we are to have equipment and schools. Money is obtained by work and economy. Talk will not run a decent school for a very long time. It may be some time before Laconia is abreast of other similar towns and cities of the state in industrial training unless the citizens make a demand that manual training be given the boys as well as domestic science to the girls.

Your board of education hopes that the citizens themselves will see to it that a school spirit pervades every household in order that the best efforts may be made and the best results attained.

The present high school building is not by any means filling the role of a modern high school building, and as long as the high school is in this building there probably will be no effort to introduce industrial training to the boys, for there is no room that can possibly be utilized for such purposes.

The "out of town" schoolhouses and school grounds need immediate attention. Parents, teachers and scholars should see to it that these places are made more attractive, if for no other reason than that attractiveness begets contentment and this in turn tends to efficiency.

It is to be hoped that among the small blessings of the school system of Laconia, the school grounds and school-houses and school rooms shall be made cleanly and inviting and that they shall be so kept indefinitely.

A. H. HARRIMAN,

For the Board of Education.

SUPERINTENDENT'S REPORT.

To the Board of Education:

The present report makes the eighteenth annual statement for the schools under the present official and the twenty-third from the beginning. It covers the time from the beginning of the winter term, January 1914, to the same period in 1915, except in the case of the statistical tables which follow the school registers and end with the spring term in June. A table is also given showing the work of the fall term.

The following new teachers have joined our force during the year: Mabel E. Steele in place of Ethel Whittier in the 8th grade, Academy street; Marjorie W. Parker in place of Georgia M. Stevens, Batchelder street; Elsie Cate went to Bowman street second grade, filling the place left vacant when Miss Chase was transferred to the vacancy made by Miss Sanborn's resignation; Marion Thompson followed Bernice A. Houston in the fifth and sixth grade Harvard street; Cora R. Giff was transferred from the Crockett school to the position left by Bernice H. Goodwin at Mechanic street; while Editha Kennedy succeeded to the first and second grade at Washington street, on the resignation of Miss Foss. Ethel C. Ward took Miss Giff's place at the Crockett school. At the end of the fall term 1914, Miss Bernice A. Leavitt, Miss Florence A. Jackman and Miss Della M. Donnocker resigned and their places were filled by Miss Blodgett, Miss Fisk and Miss Davis, respectively. Miss Marie Philbrook has been substituting for Miss Mary L. Chase at Harvard street. In the high school, Misses Collins and Dorsett resigned at the end of the school year in June last, and their places were filled by Misses Butterworth and Bushell.

The usual amount of repairs were made during the summer. At Bowman street, a new bulk head was built and the outside trimmings of the building were painted; at Batchelder street, the entire interior of the building including halls and school rooms was refinished. These were the first repairs of the kind made since the building was built in 1902. Window screens were fitted to at least two windows of each room throughout the school buildings of the city. Various minor repairs were also made in all the other buildings, particularly at Washington street, where one room was entirely replastered.

There has been a very noteworthy growth in the graded schools of the city since 1912, a fact doubtless due to the natural increase in population of the city. This has been apparent particularly at Lakeport where there are several rooms with nearly fifty children. This is too large a number for one teacher to instruct and yet there seems no relief at hand. The school buildings have no further accommodations as every room is now occupied. It would be a very wise policy in the construction of school buildings to adopt such a plan of architecture that additions might be made as growth takes place without the necessity of the purchase of additional grounds with every new school building needed. The fact is that more school room must be had for the pupils at Lakeport. This matter should receive early attention by your Board as the need is at hand and will become more urgent every year.

While the desire of new school room at Lakeport has never before been called to your notice, the fact of a high school for the city's needs has been repeatedly mentioned in my reports. I wish to still further emphasize our wants again. The time has already arrived to take definite action as we have been compelled to rent rooms for school purposes this year. The fact that there is absolutely not room enough to take care of the numbers we have is certain proof to all that something must be done. While an appeal for a new high school building on account

of the total inadequacy of the present one for high school purposes might not convince everybody of its urgency, it can not fail to be seen that certain building expansion must come when your Board is obliged to place schools in rented quarters.

The present high school building can take care of the growing number of grade pupils for many years to come and though it is not so well adapted for high school needs, it would answer every purpose of a grade building.

The Academy street ninth grade reached the largest enrollment in its history for the fall term. This condition made it necessary to employ an assistant for Miss Abbott. This school has numbered 64 pupils and two divisions have been reciting at the same time. In this grade, Miss Carrie Moore has kindly given her services as instructor in wood carving. During the early part of the term the lower corridor was used for recitation purposes by one of the teachers and the main room by the other. The lack of board room and other inconveniences made a continuance of this make-shift absolutely inadequate and the eighth grade was moved to Batchelder street. Room was made there by moving the primary grade to a room which was rented at the old Willard.

The care of the school buildings in the way of cleanliness has deservedly received the attention of your Board and I do not hesitate to claim this to be the greatest single factor for the year in our school progress. Vacuum cleaners have been purchased for the several school buildings of the city and in their use both the dust and dirt are together removed.

The number of changes during the year in our teaching force has been very marked and we have lost several very excellent teachers, but I am glad to say that it was through marriage intentions rather than other causes. The corps of teachers as it now stands is doing good work and I feel that with further experience in cases of a few of our younger teachers some of the difficulties arising in every person's

pathway who attempts the vocation of a teacher will disappear.

The Domestic Arts course for girls has entered upon its second year. A parallel course for boys cannot be organized until a new high school building is built as it is impossible to provide suitable room for the needs of such a department. The wood-working for boys in the grades is also much hindered for the same reason. This can only be properly organized when suitable room can be had for it.

We have made a better record of attendance for this year than last, much to my gratification. This result has been gained through the co-operation of teachers, parents and pupils. There has been little or no time lost on account of stormy weather. The usual teachers' meetings have taken out several days, but as they came at so wide intervals, it is to be hoped that the good received by the teachers more than compensated for the loss of time suffered by the pupils. What I can say in regard to attendance does not hold true in the matter of tardinesses. This has been growing for the last few years and I fear with less concern by our teachers. I say this advisedly for one of our schools had a record for the year that equalled the total record of the school for seven years previous. Such a condition can only result from carelessness on the teacher's part, or perhaps a better way of putting it would be to say that the school is no better in the matter of tardiness than the teacher will allow it to become, and that any good school will immediately lapse into slipshod ways if the teacher will allow it to do so. Much of this trouble has been with our younger teachers who do not realize the records their schools have made. In 1910-1911 there were the fewest number of cases but since that time there has been a slight increase. Our best records have been made by grammar school teachers, yet a first and second grade teacher with fifty pupils had only three cases last year.

While absence and tardinesses are in themselves a waste of time they are by no means the only leak for the teacher to be on the lookout to stop. Well planned lessons, carried to a wise conclusion must always be of the first importance. It is for this thing particularly that we call normal graduates as teachers for our schools. They have been instructed in making the teaching of the pupil most efficient, by well planned lessons adapted to the grade and age of the pupil. The child's mind and powers of mental ability and growth must be well known to the teacher as well as the subject matter taught if we are to secure the best results.

RECOMMENDATIONS.

In closing my report I wish to call the attention of your board again to some of our needs. The first and often mentioned want is a new high school building and it should come at once, as not only is the high school itself embarrassed but the manual work in the grades is suffering from lack of room.

The schoolhouse at the Oaks needs immediate attention. This has become a large country school of seventeen pupils and should by no means be neglected. It calls for extensive repairs of such a nature that it shall become comfortable, clean and sanitary.

I would further recommend to your board to take such steps that will lead to having the Batchelder street schoolhouse made more accessible to the pupils and teachers. There is no sidewalk reaching that building either on the Batchelder street side or from Pine street. Probably more pupils enter from Pine street and yet to do so means leaving the semblance of a sidewalk, climbing a steep and rocky hillside, through mud and mire after every rain, across roadside ditches to the top of the bluff on which the house is located. The concrete walk from the front door of this school terminates in the air several feet higher than the street and is a most ridiculous situation

to say the least. At the time this house was constructed it was understood by your board that the street was to be properly graded and a walk extended along the Batchelder street side. As nothing has been done I deem it time to say that this whole matter should be brought to the attention of the proper city authorities for remedy.

In closing, I wish to call your attention to the several valuable reports accompanying this and to thank your board for its courtesy and helpfulness, and the teachers for their loyalty and devotion to duty.

Jan. 20, 1915.

Respectfully submitted,

J. H. BLAISDELL,

Superintendent.

REPORT OF PRINCIPAL OF HIGH SCHOOL.

Mr. J. H. Blaisdell, Superintendent of Schools:

I submit my fifth annual report as principal of the Laconia high school.

In regard to the character and scope of the work of our several departments during the past year, I have nothing essentially different to report, no radical change to mention.

It would be idle expectation to look for a greater degree of progress in certain directions while present conditions remain unchanged. In its present quarters the school has reached the limits of its growth and useful activities. These must remain in statu quo until a new building with modern equipment be provided. That such provision be made without unnecessary delay is the earnest desire of all loyal friends and supporters of the Laconia High school.

Our courses of study as last revised were approved by the state department with the exception of the domestic arts course. This did not meet with the approval of Mr. Morrison and his deputies. Said he, "A course in domestic arts, such as this department can sanction must not consist wholly of cooking and sewing." It became necessary, therefore, to revise the course, which was done and submitted to Mr. Morrison for his approval. It was accepted as satisfactory and is given below:

YEAR 1	YEAR 2	YEAR 3	YEAR 4
English . . . 5	English 5	English 5	English 4
Algebra . . . 5	Geometry 5	Physics 5	Chemistry 4
El. Sci. or Latin . . . 5	Mod. Lang. or Latin . . . 5	Mod. Lang. or Latin 5	Am. History 4
Cooking and Sewing . . . 5	Mechanical Appli- cances and Sani- tation 5	Physiology and El. Nursing 5	Mod. Lang. or Latin 4 (a) Dietetics and Adv. Cookery
			(b) Household Eco- nomics
			(c) Household Deco- ration & Design- ing 4

Following this course, during the first year the girls who elect it do their cooking and sewing in half the time they spent before. This gives them opportunity for an extra study, elementary science, in the pursuit of which they learn the important principles of physics and chemistry to supplement their work in the management of the household.

The second year they are not concerned with cooking and sewing as such, but their activities are devoted to the study of mechanical and household appliances. I quote from an institute circular issued by the state department:

“The real educative value of a course in Household Appliance lies in the fact that a study of the various devices found in a modest modern home affords ample opportunity for girls to get first hand practical experience with the phenomena of physics.”

The following classification gives a partial list of the household appliances which the girls are expected to study during the second year of the course:

A. Appliances having to do with water supply: Pumps, windmills, combustion engines, pressure tanks, metres, filters, heaters, valves, etc.

B. Appliances having to do with heating, ventilating, etc.: Stoves, hot air furnaces, hot water heaters, electric heaters, ventilating fan, radiators, direct and indirect heating devices, vacuum cleaners, etc.

C. Appliances used in preparing and cooking foods: Ranges, coal or wood, gas, oil, electric, oven thermometers, steam and fireless cookers, percolators, meat choppers and grinders, churns, ice cream freezers.

D. Appliances and devices used in disposal of sewage and refuse: Bathroom fixtures, sink, cesspool, sewer traps and ventilators.

E. Appliances involved in making and cleaning clothing: Sewing machine, washing machine, wringer, electric, gasolene and gas irons, laundry set tubs, boilers, dry cleansing devices, dyeing contrivances.

F. Appliances used in storing, preserving and keeping foods and food materials: Refrigerators, canning outfits, evaporators, cold storage plants.

C. Appliances used in illumination: Lamps, gas and electric systems, meters, etc.

As many as possible of the machines and appliances in the above list and their uses and underlying principles are to be studied throughout the year, at home wherever feasible and, where necessary, in local mills and shops with the kind permission and coöperation of the various proprietors. The results of their study and investigation are expressed in recitation work, essays and note books. Only the courses of the first and second years as outlined are at present in operation in this school.

Next year the girls will take up the study of physiology and elementary nursing, giving special attention to invalid cookery and the care of the sick. The fourth year will be devoted to dietetics, more advanced cookery, household economy and home decoration, and designing. With these courses in full operation we feel confident that an excellent opportunity for scientific instruction in household management and economy will be afforded those girls who wish to take advantage of it.

The work of the other courses is going much as usual at the mid-year period, with about the same percentages of progress and failure. The standard of work seems to be fully up to the average with certain exceptions. Regarding first year pupils the same trouble exists as in former years. I find that all members of the class are not equally prepared to carry on the work of their grade. Most of those entering from the convent and from outside districts are not up to the standard. This is, no doubt, in large measure due to the fact that an eight grades system is not equal to a nine grades system in preparation, maturity and effectiveness. I strongly recommend that all pupils be required to do the work of our ninth grade, either at Laconia or at Lakeport, before entering high

school. Much better results will be obtained and there will be fewer failures to record each year.

At present the departments of history and business are being conducted by one instructor. It is too much to ask one person to do. He cannot do the work of both as it should be done. What we need is another teacher, one who has had special business training to take charge of our commercial work. We could not only improve our business course, we could also enlarge and enrich our department of history. Now we have only Ancient and American history in our courses. The school should be able to offer to pupils courses in English and European, Mediaeval and Modern history. There should be work enough in the history department alone to keep one instructor busy all his time.

The daily schedule of recitations has been changed to consist of eight periods of 35 minutes each instead of seven periods of 40 minutes each as heretofore. This innovation was made for two principal reasons, to give relief to both teachers and pupils from the stress and burden of work caused by recitations continued without sufficient intermission and to afford pupils better conditions for study in school. By the old schedule a suitable room, quiet for study purposes, was not available for those who were not reciting, but pupils in all the rooms had to prepare their work with recitations going on. At times teachers have been obliged to conduct classes with enough study pupils in addition to fill the room completely. This was very distracting to teacher and pupil both. The one could not teach effectively because she had to keep the room in order; the other could not study successfully because of the reciting. The new schedule has improved the situation greatly. The largest class room in the building is now available nearly every period for a study room of which each teacher in turn takes charge. The change is proving of great benefit to all

and when more of the pupils have learned better how to study and to concentrate their attention upon their tasks, the congestion of home study should be considerably relieved.

Thirty were graduated from Laconia High school last June, 11 boys and 19 girls. A good percentage of the class entered college and normal school. Five went to the New Hampshire college, one to Simmons, one to Wesleyan, one to the Carnegie Institute of Technology at Pittsburg, one to Colby college, and three are training in Plymouth Normal to be teachers. Truly an excellent showing! Reports from the various institutions indicate that all are acquitting themselves creditably in the courses of study they are pursuing.

While tardiness is of too frequent occurrence to please me, attendance has been and remains good. The total number of pupils enrolled is 186, 93 boys and 93 girls. Of this number 11 have dropped out for various reasons so that the present membership of the school is 175. In the entering class 62 were enrolled. Of these, 31 came in from Laconia ninth grade out of a class of 35, 4 from Lakeport ninth grade out of a class of 11, 9 from the convent out of a class of 14, 1 from The Weirs, 9 from outside towns, and 8 failed of promotion last year and are doing the work of the grade over again. Only 5 out of the Freshman class have left school up to the present time, a record which, compared with former years, is a decided improvement.

Many thousands of children drop out of the public schools of this country every year, either from choice or necessity, and go into life untrained and uneducated. How to get hold of those children who deliberately throw away their opportunities for an education; how to inspire in them a desire to grow intellectually to the greatest stature of which they are capable so that they will remain in school and complete their courses is one of the most

pressing and vital problems which confront the American public school system to-day.

I take occasion to express my sincere appreciation of the many courtesies extended to me in the administration of the school.

Respectfully submitted,

VERNE M. WHITMAN,

Principal.

REPORT OF DRAWING TEACHER.

Mr. J. H. Blaisdell, Superintendent of Schools:

I herewith submit my report for the drawing in the public schools, for the year just passed.

Meetings for the grade teachers are held every Monday afternoon in Room 14, at the High School building. The first and second grade teachers attend the first Monday in each month; the third and fourth, the second Monday; the fifth and sixth the third Monday, and the seventh, eighth and ninth the fourth Monday. At these meetings the teacher receives the drawing outline for her own grade for the coming month.

A new feature of this year's work is the beginning of a collection of drawings selected from each grade, these drawings to illustrate the written outline followed by all the teachers in the city. This book is a "loose leaf" one, made up of nine parts, and is still unfinished. When it is completed it is hoped that it may be of permanent value to other schools in time to come, showing them the care with which our teachers and school children carried out the plans laid down for them.

Careful comparison with the work done in drawing by the school children of Massachusetts, the cities of Salem, Beverly, Peabody and Boston being visited, shows our drawing outline for the grade work to be identically the same as theirs. The quality of the work is equal in every detail to that of the larger schools in our sister state.

The School Arts Book is a monthly publication and shows the work done by the schools in many of the cities of the United States, the illustrations being exceedingly valuable in showing the exact reproduction of the chil-

dren's work, and also in showing to its readers what other school children are attempting along the line of drawing and domestic arts.

In our High School course each girl is required to furnish a creditable pencil drawing, an ink drawing, a charcoal drawing, a colored crayon drawing, and a water color painting.

It has been demonstrated that the boys' course in mechanical drawing for the High school is a practical one and that when the boy enters business, or a higher school of education he is able to enter upon his work as well equipped in drawing as in any other study. With our limited room we are unable to do "blue printing," but as thorough a knowledge of this as can be done is obtained from our text books. The text books are the Mechanical Drawing Books, by Mr. Anson K. Cross, the drawing plates being published by the Taylor Holden Co., of Springfield, Mass.

It is my belief that when girls and boys have reached high school age they should begin to make plans for their life work. Even if they should change these plans a number of times it is better for them to have an aim in view. From our public schools will come the artists, the newspaper illustrators, and the cartoonists of the future, as well as the architects and the draughtsmen. It should be the high aim of every teacher to set before the children as high an ideal of work as possible.

I wish to thank all of the helpers and friends who have aided in bringing about a most harmonious condition of things which now exists.

Respectfully submitted,

ABBY HARLAN JEWETT,

Supervisor of Drawing.

REPORT OF SUPERVISOR OF MUSIC.

Mr. J. H. Blaisdell, Superintendent of Schools:

No change has been made this year in the general plan as outlined seven years ago. We are using the same materials, but using them with more skill as ought naturally to be expected. A mechanic does better work with his tools after he has used them a long time, than when he begins to use them, and when a grade teacher uses the same books and charts a second year she, too, does better work, and does it quicker, than she could the first year. We have this year eleven teachers who are using the Harmonic course in their grades this year for the first time and they are doing well, some remarkably well, but their second year is bound to be better. The course has now regularly reached the eighth grades and I think we should be pleased with the results. When I spoke of grade teachers, I had in mind the fact that the success of the works rests largely with the grade teacher. If she is enthusiastic and insists on the best, we progress; but if she is indifferent and allows slipshod work to go unnoticed it don't get us anywhere; in fact, it sets us back. I am happy to say that we have a loyal staff of teachers, and that I appreciate them and their work. A school superintendent in a western city, in a paper entitled "Relation of the Grade Teacher to Music Instruction in the Public Schools," said: "The magnitude of the undertaking is at once realized, when you consider that this commercial age is not over friendly to culture, and it offers little encouragement to any subject taught in the common schools which does not clearly demonstrate its 'bread and butter' value. The begrudged support ac-

corded to music instruction by school authorities and the people in general, and the common doubt of its real educational value, will not be lessened perceptibly, as long as music leaders depend upon conservatories, private schools, and the unaided influence of supervisors to change the current of public opinion. Musicians may talk, sing, and resolve for three centuries more and their efforts be known not far beyond the circle in which they move, unless they communicate with the people, and accomplish their desired ends through the coöperation of the grade teacher, whom they must first recognize and then inspire with their own enthusiasm. The grade teacher holds the key to the situation. The grade teacher is the real power in the public school system. An army composed of undisciplined, untrained soldiers, even when commanded by a general who is himself an expert in military affairs, can hardly be called a good army. Even moderate achievements can not be expected under such conditions. The whole army must be trained, the commander must be able to reach the private in the ranks through the colonels and captains. He must be able to inspire his soldiery through those who march and fight, shoulder to shoulder, and he who adopts any other course fails. He may issue orders, he may direct, he may organize, but the execution of his plans must be accomplished by others. The music supervisor must depend upon the grade teacher for results. She, under proper encouragement, can teach her pupils to the best advantage, because she is more closely in touch with them, and understands their individual natures. It is certain that supervisors must pin their faith to the grade teacher. It is she who comes in touch with the real life of the pupils, and who understands local conditions. It is she who, day by day, thinks and plans with the children, and through them shapes public sentiment and moulds public opinion in the place. The leader who does not recognize these facts and direct his influence through her to the people, has his

lesson to learn. It is the grade teacher who arouses a lasting interest in music and gets boys and girls to want to sing, and not the supervisor, who reaches them so remotely. It is she who will convince the people that music has an educational value and that it is not an expensive fad. It is the grade teacher who must be depended upon to create a musical spirit in America."

The High school chorus is learning "The Rose Maiden" by Cowen. It is the most pretentious thing the chorus has ever attempted but we hope and expect to do it fairly well. I wish more people would visit schools and see what is being done. The piano in the High school hall has been in constant use since the building was erected and is entitled to a rest. We need a new one badly.

I take this opportunity to express my appreciation to all who have helped to make the year a pleasant and successful one.

Respectfully submitted,

FRED H. OSGOOD,

Supervisor of Music.

REPORT OF TRUANT OFFICER.

J. H. Blaisdell, Superintendent of Schools :

DEAR SIR.—I have the honor to present herewith my annual report in tabulated form of all work performed by me for the year ending January 31, 1915.

Resident school children in the city, between five and sixteen years:.

	BOYS.	GIRLS.	TOTAL.
Ward 1	99	90	189
Ward 2	192	213	405
Ward 3	36	48	84
Ward 4	155	132	287
Ward 5	182	207	389
Ward 6	217	161	378
	881	851	1732
Gain over last year			31
Number between the ages of 10 and 16 not able to read and write English			45
Number between the ages of 5 and 8 who do not regularly attend school			30
Number between the ages of 8 and 14 who do not attend school on account of illness			8
Number between the ages of 14 and 16 who do not attend school on account of holding employment certificate			50
Number born in New Hampshire			1298
Elsewhere			170
Foreign born			264
			1732

Number at St. John's Parochial school	168
Number at the Sacred Heart school	560
Visits to schools	4442
Truancy determined by investigation	17
Put into school by officer	65
Furnished with shoes and clothing	50

I have found a great many more to help this winter than for some time. I wish to thank the manufacturers for the stockings they have given me for the poor people.

It is with pleasure that I have the opportunity of thanking the superintendent and members of the school board, the teachers and Sisters of both Parochial schools for their kindness and coöperation during the last year.

Respectfully submitted,

H. E. ROWEN,

Truant Officer.

FOURTEENTH ANNUAL REPORT OF BOARD OF PUBLIC WORKS.

To the Honorable Mayor and Council:

We recommend the following amounts to be appropriated for the coming year.

General appropriation	\$15,000.00
Recovering sidewalks	1,500.00
Treating new macadam	1,500.00
Engineer's department	750.00
" " special work	1,000.00
Sewer department	1,500.00
Care soldier's monument, insurance, etc.	250.00
Street sprinkling and oiling	4,500.00
State road maintenance	2,500.00
" " new work	1,000.00
Elm St. surface drain	1,000.00
Main St. repaving and regulating	1,100.00
Paving Water St.(granite blocks)	2,000.00
Macadam Union Ave. south from Casino Square	5,000.00
	\$38,600.00

The reports of the street commissioner and engineer accompanying this are quite explicit in explaining conditions as they exist and his recommendations have the approval of the board. While it is not probable that we can accomplish all that should be done, in one year, we select the items that to us seem the most important. The small wooden bridge over Durkee brook, Academy street, should be replaced at once with a concrete bridge. Many of the larger wooden bridges are not in good condition and will have to be rebuilt soon. In regulating Main street some items for which the engineer provided were changed, en-

abling us to make quite a saving in the expense and we recommend an additional appropriation of \$1,100.00 to be used with our balance in extending the work from the bridge to Court street and completing Main street. We consider it important that Union Ave. from Casino Square to Main street should be macadamized but conditions at the junction with Main street prevent any permanent work at that point and if commenced at Casino square the city may, in the meantime, be able to locate a permanent line on the portion in dispute.

The improvement of Water street is a subject we have many times submitted and again ask you to provide the necessary funds to make better the bad conditions existing there. The sums asked for State road will secure a like amount from the State and we are of the opinion that the city should take advantage of this while there is an opportunity. There is a reasonable demand for additional work on Pine street extension and any money provided for work there will be of much benefit to the residents of that district. The matter of surface drains is important and we ask your consideration of the many locations requiring drainage facilities as recommended by the city engineer.

In The Weirs district we have no place for storing machinery and tools used there and we ask that a small piece of land be purchased and an inexpensive building be erected for the use of this department.

For sprinkling and oiling streets we can use to advantage a larger sum than usually devoted to this work as there is a constant and insistent demand for the oiling of streets which we are unable to oil from a lack of necessary funds.

Thanking you for the many courteous acts, we ask your favorable consideration of the above.

J. H. STORY,

JULIUS E. WILSON,

JOHN T. DODGE,

Board of Public Works.

REPORT OF STREET COMMISSIONER.

To the Board of Public Works:

GENTLEMEN:—I present the following as the annual report of the Street Department for the year ending Feb. 15, 1915.

BITUMINOUS MACADAM.

Tarvia macadam pavement was laid on the Elm street bridge and approaches, and a strip of the Trunk Line state road, 750 feet in length, was resurfaced with a 4-inch coat of tarvia macadam.

There was laid 853 square yards on Elm street bridge and 1,300 square yards on state road.

The total area of tarvia macadam laid since 1908 is 58,677 square yards, exclusive of state road.

The maintenance cost for the year 1914 was \$1,019.92 or 1.74 per square yard. The whole area is in excellent condition.

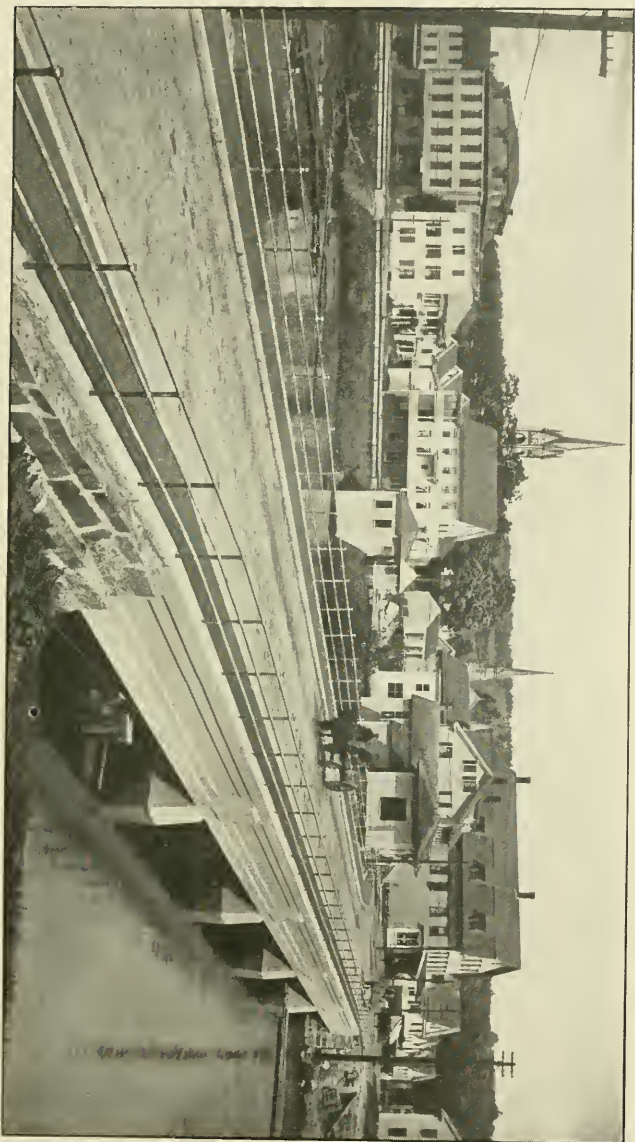

BRIDGES AND CULVERTS.

The Elm street bridge was completed early in the season of 1914 and the forms removed.

The concrete work was found to be in excellent condition. The outside surfaces were rubbed down and given two coats of Stone Tex, a water proofing paint which gave the structure a finished appearance and a uniform color.

Granite curb stones were set on the bridge and approaches, tar concrete sidewalks were built, and a tar macadam pavement laid. A galvanized pipe railing of good appearance was set.

The total cost of this bridge complete, including the approaches, pavement, curbing, etc., and removal of old

ELM STREET CONCRETE BRIDGE

wooden bridge, was \$21,079.97, which was considerably under the original estimate.

A portion of the northerly abutment of the bridge over Jewett brook at Casino square was undermined during a freshet in the early spring, which allowed a portion of bridge to settle into the stream. This undermining was caused by acts over which this department had no control.

The damaged portion of the bridge and abutment was torn out and rebuilt and a cut-off wall was built in the bed of the stream, extending ten feet into the banks on either side. Also the bed of the stream was paved with concrete for one-third of the length under the bridge. This work should protect the abutments from washouts, unless more works are built above the bridge to divert a heavier weight of water through and over it, in which event there is liable to be more washouts.

The wooden bridge over Jewett brook on Davis Place gave way during the summer under the weight of a motor truck and it was decided to replace it with a concrete structure. The abutments were repaired and topped with two feet of reinforced concrete wall. The steel beams taken out of the floor system of the Weirs Channel bridge were used and covered with a reinforced concrete slab.

Davis place for a distance of 300 feet was graded to conform to the new elevation of the bridge deck and a surface water drain with catch basins was built to carry off the drainage east of the bridge.

The wooden bridge over Durkee brook on Academy street should be replaced with a concrete structure as soon as possible. The probable cost would be \$1,100.00.

The Main street bridge is in a poor condition and is not at all safe for a ten ton load on four wheels and consequently it does not fulfill the requirements of the present law in regard to bridges.

The Fair street, Messer street and Mill street bridges are also of wood and would not fulfill the conditions of the present law.

Inasmuch as the New Hampshire Legislature at its last session passed a law fixing the liability of towns and cities for loads not exceeding ten tons on four wheels on bridges, it would seem wise for this city to replace these wooden bridges as rapidly as possible, with permanent structures of sufficient capacity.

The increased use of heavy motor trucks makes the liability much greater and it is quite possible that a single accident might occur which might cost the city more than the entire cost of a good bridge.

The following table of bridges of ten feet or more span, shows in a general way their condition.

Street	Span	Material	Condition
1 Academy	15.5 ft.	wooden	very poor
2 Beacon	23.5 "	"	poor
3 Church	150.0 "	"	good
4 Court	15.0 "	concrete	excellent
5 Davis Place	15.0 "	"	"
6 " "	10.0 "	wood	poor
7 Elm	232.0 "	concrete	excellent
8 Fair	201.1 "	wood	poor
9 Garfield	10.0 "	"	very poor
10 Gold	145.0 "	"	" "
11 Highland	25.0 "	concrete	excellent
12 Main	71.0 "	wooden	poor
13 Messer	100.0 "	"	fair
15 Mill St. Flume	36.0 "	concrete	excellent
15 Mill	128.0 "	wooden	poor
16 Union Ave. Jewett Brook	19.0 "	concrete	excellent
17 Union Ave. Black Brook	13.0 "	"	"
18 Weirs	100.0 "	steel	good

I would recommend that the Gold street bridge be discontinued and that the old timbering be taken out of the river.

SURFACE WATER DRAINS.

The following surface water drains were built during the year. Belknap street 1331 feet, Davis place 150 feet, Elm street 1173 feet, Highland street 2400 feet, Union avenue 470 feet.

The Bowman street and Fair street drains were given an extensive cleaning and four man holes and two lamp holes were built.

The brook channel from Court street to South Main and Pine streets was cleaned and straightened.

It is my opinion that the city should enter into some arrangement with the abutting owners and enclose this brook in a suitable covered conduit of sufficient size to take the maximum flow. Although there has been no drainage area added to this water shed, there have been built streets, the land has been cleared and a great many houses, etc., built, all of which tend to make the surface water run to the brook channel much more quickly and to make it insufficient to take away the water in a proper manner. An underground conduit would be of great benefit to the property owners and make available much valuable land, so that it would seem reasonable that they should pay a part of the cost.

I have been unable to get an appropriation to remove the mouth of the Messer street drain from Adams dump and run it under the railroad, but this is a matter that should be attended to.

Drains should be built on High street from Highland to Beaman; on Baldwin, Joliette and Lovell streets to Mer-rimac street; on Province street from Main street to the Harrington property. The Union avenue drain, south end, should be continued to the junction of High street, and up High street to Avery street, thus relieving the overcharged drain, down Union avenue, Jewett street to the river.

The drain now crossing Court street, near Orange court, and running down Orange court to private land,

should be run down Lawrence street to the river. The Elm street drain should be extended westerly to Massachusetts avenue.

GENERAL REPAIRS TO SUBURBAN ROADS.

The problem of keeping some of the main suburban roads in good repair is constantly increasing and in some sections, where good natural road material is not readily available, is a serious one. North Main street, from Pleasant to the N. H. School for Feeble-Minded, has been surfaced with coal ashes and road oil which works well, but the section from Oak street to Pleasant street, by the ice houses, should be macadamized, and the section from the School for Feeble-Minded to the Tilton farm, should be given a thorough re-surfacing.

Coal ashes treated with road oil make an effective combination but has but a short life and the danger of nails and spikes in the ashes is a drawback. Great assistance would be given the department if householders would try and keep nails and spikes out of the ashes that they set out to be removed by the city.

MAIN STREET IMPROVEMENT.

Main St. from the smooth pavement on Bank Sq. to the bridge was completely rebuilt during the summer. New water main and services were laid, new gas services and new telephone conduits were built by the companies owning them. The sidewalks were widened and repaved, with new edge stones, catch basin grates, etc. The old granite block pavement on the street was taken up and a tar concrete pavement on a cement concrete base laid. The total cost to the city was \$3,537.58. The appropriation was \$6,000.00 and there remains a balance of \$2,462.42 which, together with an appropriation of \$1,100.00, would continue this work from the southerly end of the bridge to the south side of Union Ave.

LAKESIDE AVENUE IMPROVEMENT.

The work of improving Lakeside Ave. at The Weirs was continued. Additional drains and catch basins were built, and the remainder of the avenue surfaced with cinders and treated with road oil. There was expended in this work \$794.33 which was not provided for by any specific appropriation.

REGULATING STREETS AND GRADING SIDEWALKS.

The following streets were graded and in many cases sidewalks were built on one or both sides. Belknap from Oak to the lake, Belvidere from North to School with sidewalk on north side, Butler with sidewalks, Foster Ave. and a part of Maple St. at The Weirs. Pine St. extension was partially graded, but there should be an appropriation made to complete the work. St. Catherine St., Walker St. with one sidewalk the whole length, Winter St. with two sidewalks, Woodland St. with one sidewalk.

SIDEWALKS.

New tar concrete sidewalks were built on the following streets, Canal, Garfield, Hanover, Highland, Pleasant, Union Ave. and Winter Sts. amounting to 4283 linear feet.

Crushed stone sidewalks were built on the following streets, Academy, Batchelder, Beaman, Fenton Ave., Orchard, Pleasant, Summer, Webster and Winter Sts. amounting to 5542 linear feet, and 4100 feet of sidewalk was graded which did not have a hard surface.

A cinder sidewalk was built on Tower St. at The Weirs, 1050 feet in length.

The total length of sidewalks built was 14,975 feet, which is nearly three miles.

SCAVENGER SERVICE.

There has been collected 2347 loads of ashes and waste during the past year and they have been disposed of at a cost of \$1.01 per load.

STATE ROAD CONSTRUCTION AND MAINTENANCE.

There was expended \$1,078.94 one half of which was furnished by the State, for grading portions of the Merrimack Valley Trunk Line between The Weirs bridge and the Meredith town line. This work should be continued during the season of 1915 and I would recommend an appropriation of \$1,000.00 be made by the city for this purpose.

There has been expended for maintenance of the state road through Laconia \$2,924.83, one half of which was paid by the State. This work has consisted of oiling and patching the water bound macadam sections; dragging and oiling gravel sections, and resurfacing a section 750 feet in length of the water bound macadam near the Laconia—Belmont line, with bituminous macadam.

I would recommend that \$2,500.00 be appropriated by the city to go with a like amount from the State to provide for oiling and dragging and to resurface portions of the road from the north end of the water bound macadam to The Weirs bridge.

STREET SPRINKLING AND OILING.

The sum of \$4,088.51 was expended for street sprinkling and oiling. There are some streets which should have been oiled if it had been possible to do so with the amount of money appropriated. In my opinion a portion of the cost of sprinkling and oiling should be assessed on the abutting owners as they get a direct benefit whereas on streets that are not oiled the abutters do not get the direct benefit to their premises but are obliged to pay as much in proportion as do those directly benefitted.

GENERAL.

There was no appropriation made for laying bituminous macadam pavement although there are several streets which badly need surfacing.

It seems to me that the sum of \$5,000.00 or \$6,000.00

might be advantageously set aside each year, specifically for such work, and in a comparatively short time our principal streets would have a satisfactory surface.

Considerable money is expended from year to year laying out and grading new streets and it seems to me that much more laying out of streets is done than the demand for house lots would warrant, or that the present progress of building would call for.

The result is that we get a number of streets, many of them costly to grade and maintain, on which there is not near enough taxable property to warrant the expenditure. Land is subdivided into house lots and streets laid out by the owners without regard to lines, grades, drainage, sewer extensions, or proper development of the city and the result is that in the attempt to establish proper grades, drainage, etc., the tax payers have to pay much more for such works than would be the case if extensions were made under proper engineering supervision. There are a great many vacant lots on streets that are graded, have sidewalks, water, sewers, gas, and drainage, and it would seem like good business policy to utilize such streets where the city and others have already made large investments, rather than develop areas where there are no such appliances and where their installation will cost the taxpayers a great deal of money and where they will be used to only a limited extent for many years.

This department should have an automobile for transportation purposes, as it would save much time and money and allow a much more frequent inspection of work and of the streets and sewers in general.

The first cost and maintenance of a suitable car would be small and would result in real economy.

It was necessary to tear down the tool shed at The Weirs, as it stood on Maple street and Foster avenue, and those streets were graded and opened to public travel. This department should be provided with a small piece of land and a suitable building for the storage of tools as soon as possible.

The amount expended for the year ending Feb. 15, 1915, is \$45,779.33, and I have itemized it under the following headings:

1	Bituminous macadam.		
	See Elm street bridge and state road maintenance.

REPORT OF THE CITY ENGINEER.

To the Board of Public Works:

GENTLEMEN.—The past year has kept this department very busy on designs, plans, profiles and grades for sewers, drains, street improvements, bridges, etc.

As the appropriation remained the same as the year before, no attempt has been made to start an accurate map of the city on the basis of a triangulation and base line survey.

A true meridian (north and south line) has been established at Opechee park by a U. S. government observer, and a permanent stone monument set at each end by this department. All our street location lines should be tied into this common base line and their bearings given in reference to this line, rather than in reference to the magnetic north. I recommend an appropriation of \$1,000 to devote to this work.

Much time and attention has been given to the lines of Union avenue, near its junction with Main street, and a line has been established by the city council on the northerly side of said street from Main street to the property of the Pitman Mfg. Co., but nothing has yet been done to fix the line on the southerly side.

Union avenue was laid out by the selectmen of the town of Gilmanton, in 1816, from what is now Main street to Gold street, three rods, or 49.5 feet wide. Since that time it has been wholly re-located and straightened, except the piece from Main street to Baldwin street, and the lines can now be located, although from Baldwin street to High street there are some buildings and fences in the highway. From Baldwin street to Main street, the true

lines as originally laid out are uncertain, but it is surely known that the occupied street instead of being 49.5 feet is in places put 34.0 feet wide, or was until the Avery meat market, so-called, was moved back recently.

There is no difficulty in building a street 49.5 feet wide from Casino square to High street, but from High street southerly, a considerable change from present conditions is necessary.

This street has become one of the most important and heavily travelled streets in the city and if improved with a good surface, the traffic over it would be at least five times as heavy as at present. It would seem to me to be very unwise to lay out and improve the southerly portion of this street, viz., from Main to High streets, with a width less than 49.5 feet or less than the width from High street to Casino square.

Respectfully submitted,

CHAS. A. FRENCH,
City Engineer.

REPORT OF SUPERINTENDENT OF SEWERS.

To the Board of Public Works:

GENTLEMEN:—The sewerage system was maintained as usual with no serious difficulties.

But little construction work was done although there are several petitions for sewer extensions.

Sewers were built on Lyman street 37 feet, on Joliette street 201 feet, Butler street 122 feet, and on Baldwin street 112 feet, making a total built of 472 feet.

The appropriation of \$1,000.00, together with the money received from connection permits for maintenance of the sewer system, is not enough to do what is needed from year to year and I have found it necessary to over run the appropriation.

The amount appropriated in 1894 was \$3,000.00 but since 1897 the amount has been \$1,000.00 per year. The length of the system to be maintained has increased several miles since 1897 and the expense of removing tree roots from the older sewers is increasing.

Fifty-nine permits were issued to connect buildings with the public sewer.

PLUMBING.

The board of examiners of plumbers examined four applicants for a journeyman plumber's license; three failed to pass the required examination and were refused a license. One having passed the required examination, a license was granted him.

One hundred and seventy-five permits to do plumbing were issued.

SUMMARY.

LACONIA PUBLIC LIBRARY

REPORT OF THE TRUSTEES

To the Honorable Mayor and City Council of Laconia:

The undersigned, trustees of the Laconia Public Library herewith transmit to you the reports of the librarian and treasurer of the public library for the year ending December 31, 1914, on the part of the librarian, and for the year ending February 15, 1915, on the part of the treasurer, and respectfully submit them as covering very fully all matters pertaining to the library and its expenditures.

We respectfully recommend that the sum of \$3000.00 be appropriated for the library for the ensuing year.

JOHN T. BUSIEL,
JOSEPH H. BLAISDELL,
WILLIAM F. KNIGHT,
CHARLES L. PULSIFER,
HENRY B. TILTON,
FRANK P. WEBSTER,
JOHN W. ASHMAN.

TREASURER'S REPORT.

To the Board of Trustees of the Laconia Public Library:

The following is my report of all receipts and expenditures for the year ending February 15, 1915:

SPECIAL FUNDS

HELEN A. AVERY FUND (\$1,000.)

Receipts.

JOHN W. ASHMAN, *Treasurer.*

REPORT OF THE LIBRARIAN.

To the Honorable Board of Trustees of the Laconia Public Library:

GENTLEMEN:

I have the honor to present to you my twelfth annual report. The statistics of my report are for the calendar year 1914, while the Treasurer's report is for the fiscal year ending 15 February 1915.

During the ten months from 12 November 1913 to 14 September 1914, only six books were bought that were classed as fiction. The very small balance on hand at the beginning of the fiscal year and the uncertainty regarding the amount to be appropriated by the City Council necessitated the closest economy. Only the most urgent needs were satisfied. Equipment that would have resulted in greater efficiency was not obtained. There was much complaint and some sarcasm expressed because no new fiction was provided. Some patrons seem to expect the full tale of bricks although the straw is not provided for their manufacture. Because the library is a public institution, they expect it to provide all the books they want. It is evident that they do not realize that not only did the Gale Memorial Library and the Ossian Wilbur Goss Reading Rooms cost the taxpayers nothing for construction, but that the city has not contributed one dollar for their upkeep or for the purchase of books, periodicals or supplies. The city appropriations have barely paid the salaries of the librarian and his staff since the buildings have been in use, and for the past three years they have been insufficient even for that expense.

Some patrons ridicule the purchase of books that do not

interest them, seeming to think that only such books as they want to read should be provided. Some complain because there are not enough copies of popular fiction. If enough copies of the most popular books were purchased to satisfy the public, no other books could be bought at any time and very few of these would be circulated after a few months. The income of the special funds provided some new books, but no fiction could be bought until the city appropriation became available. After that, new books were purchased as rapidly as they could be carefully selected and prepared for circulation until the amount that could be spent for books was exhausted. If there had been no income from the Goss fund as in previous years and if the needed equipment had been purchased, there would have been no money for new fiction. The purchase of needed equipment can be deferred for a time, but the delay results in impaired service, greater cost of administration, and largely increased expenditure at a later date when the needs become so imperative that they must be satisfied. A moderate and reasonable expenditure each year would provide equipment as needed and would secure the best service for the cost of administration.

Some complain because they do not receive the help they need or because it is not given as promptly as they desire. Under existing conditions, more time is required to provide the material called for than would be the case if ample shelving and other equipment made a logical and simple arrangement possible. Because the supply of books is so insufficient, much time is required to find books for patrons that they have not read and that they are willing to take. Many expect the desk attendants to bring them a large number of books from the stack although hundreds of books in good variety are within their reach. Some want books for others without knowing what they have had or what they want. They expect the attendants to look over the charge cards to see what books have been charged previously. No bulletins have been published for

several years, so patrons who cannot come to the library have no lists of new books except those published in the local papers. Five hundred dollars should be provided for printing bulletins of the books that have been cataloged since the last bulletin was published. The income from the Avery fund did not become available until January and the necessity of preparing this report for the printer prevented a careful selection of books to be bought. They will be purchased and prepared for circulation as soon as possible after this report goes to the printer.

Notwithstanding the lack of new books, there were some notable gains in the use of the library. Five hundred and seventy four volumes were sent to The Weirs, a gain of seventy nine, or 16%. Twenty five hundred and seventy nine books, pamphlets, and periodicals were loaned for use in the building, although all current and recent periodicals are accessible to the public and nearly one thousand reference and other books can be used without application to an attendant. This showed a gain of 664, or 34%. Eight hundred and fifty eight readers were counted in the week following Thanksgiving day. This was the largest number ever counted in one week and was a gain of 22.7% over 1913. There was a slight gain of 541 or 1.5% in circulation at the main library and 168 or 1.9% at the Lakeport branch. Sixty five more regular cards were used than in 1913. This was a gain of 2.78%. Twenty six fewer non-fiction cards were used, a loss of 8% which was probably due to the fact that fewer classed books were purchased. There was a gain of 25 in the new registration from ward 1, or 67%. Ward 2 showed a gain of 14, or about 20%. In ward 3, the number was the same. In ward 4, there was a loss of 6 and in ward 5, a loss of 4. The loss in ward 6 was 29, or 25%.

The literature department of the Laconia woman's club prepared an exhibit of books suitable for children under ten years of age. Seventy four old library books were selected and 68 new books were included. Some of these

new books were bought in view of the exhibit as it seemed desirable to show the parents of the city some of the best editions of children's classics and it was hoped that the children would be induced to read these beautiful copies who would not read the cheap and unattractive editions of the same books. One hundred and thirty two books were borrowed from friends in the city. Twenty five citizens, having suitable books, freely loaned them for the exhibit. Special mention should be made of the many beautiful and choice books loaned by Miss Louise Mowbray. A few treasured books of past generations were shown as curiosities. Miss Garland and her assistant, Miss Parker, the children's librarian, of the Dover public library and Miss Hunt, the children's librarian of the Brooklyn (N. Y.) public library, gave valuable assistance in the selection of books to be shown. A considerable number of the books bought for this library and exhibited were selected from those shown to the leader of the department at the Dover library. Miss Garland and Miss Parker kindly offered the loan of any of their books desired for the exhibit and six were sent for the purpose. The salesman for Rand McNally & co. happened to be in town with a line of their attractive editions while the exhibit was being arranged. He offered the loan of such books as were desired for the exhibit and 29 of the books shown were obtained from this firm. Houghton Mifflin co. and George W. Jacobs & co. were pleased to loan any books selected from their lists. Twenty five books were thus obtained from Houghton Mifflin co. George W. Jacobs & co. sent 49 books for the exhibit and prepaid the freight, although only six books were requested. Three hundred and eighty three books were finally brought together. These books were first shown to the Parent-teacher association at a public meeting in Memorial hall on the evening of 27 November. One hundred of the most desirable books were shown to the Woman's club on the following day. For the week following, the books

were exhibited in Memorial hall from 2 to 5 and 7 to 9 p. m. One hundred and seventy five visitors were counted. Many of these selected books for Christmas gifts and it is hoped that more and better books than usual were given to the children of the city at the Christmas season.

The winter months are always busy months at the library. More books are circulated and more reference work is done than at any other season of the year. The annual report must be prepared for the printer in January, making this the busiest month of the season. At just this time in 1914 the assistant librarian broke down and was out three weeks. Mrs. P. W. Philbrook, who had been an efficient assistant before her marriage, came to our aid and made it possible to continue our regular service to the public. However, some extra work devolved upon the librarian and each member of his staff. These conditions may account for the fact that a memorandum was overlooked by the librarian when he wrote his report and he failed to mention the portraits of three men, closely identified with the library, that were painted and hung in the library building during 1913. A portrait of Hon. E. P. Jewell, who persuaded Mr. Gale to provide for a library building, a memorial hall, a public park, and a liberal endowment for their upkeep, and who had, himself, provided a generous fund for the purchase of books, was painted by Mrs. Eva D. Cowdery, of New York, and hung in the study room. Mrs. Charles F. Pitman and son gave a portrait of Mr. Pitman, and Mrs. Edwin F. Burleigh and son provided a portrait of Mr. Burleigh, both painted by the same artist, to be hung in Memorial hall. These two, with Mr. Busiel, the President of the board of library trustees, constituted the committee that directed the construction of the beautiful building containing the library and the memorial hall.

In the summer of 1914, Miss Helen Bean of Gilmanton, presented the library seven bound volumes and 109 un-

bound books, pamphlets and periodicals for the blind. A few are printed in Moon type, but nearly all are in New York point. These books have not been accessioned or cataloged, but they will be loaned to anyone who can read them, whether a resident of the city or not. They will be loaned indefinitely, subject to recall at any time if desired by others.

We gratefully acknowledge the receipt of gifts from kind friends of the library as follows:

LAKEPORT BRANCH.

Only seventeen new books were bought for the branch in 1914. Five hundred and thirty nine fewer seven-day books were circulated, but 707 more fourteen-day books were charged out, making a net gain of 168 or 1.9%. A few more than 20% of the books loaned were charged at the branch. At least one hundred new books should be bought for this library every year. Many of the more popular books sent from the main library are needed there. If duplicate copies could be bought for the branch, the patrons in all sections of the city would be better served. Eight more regular cards and five more non-fiction cards were used in 1914 than in 1913. There were 13 fewer applications filed for library cards than during the preceding year. Twenty-five fewer readers and 562 fewer visitors were counted than in 1913.

**Cards used at main library and branch are counted but once in the total.

Gifts to the Reading rooms were received from kind friends to whom grateful acknowledgement is hereby made.

Drake, Mrs. Laura A. 1 periodical.
 Haynes, Miss Cornelia A. 11 books.
 Kelley, Mrs. Alice. 7 books.
 Manter, Rev. John. 1 book.
 Untermeyer, Mr. Samuel. 1 pamphlet.

* A list of 158 books is prepared every two months by taking five titles from each page of the accessions book, beginning with the latest books catalogued. Five books from this list are sent to the branch and five books from previous lists are returned daily until all on the new list have been sent and all on previous lists have been returned. For each list, the five titles on each page follow immediately after the five titles on the preceding list.

† Patrons of the branch, who desire books from the main library, hand a list of books wanted to the librarian. Such lists are mailed daily and one book from each list is sent to the branch, if any book on the list is available. If the patron is willing to wait, he should ask the librarian to have the list held until the book can be sent. The list is then looked over each morning until a book happens to be in at the time the list is examined.

‡ Patrons of the main library may obtain books from the branch library in the same manner as the patrons of the branch draw books from the main library.

FIRE DEPARTMENT.

REPORT OF THE CHIEF ENGINEER.

LACONIA, N. H., Feb. 14, 1915.

To the Honorable Mayor and City Council:

I have the honor to submit this, the 22nd annual report of the Fire Department for the year ending Feb. 15, 1915. During the year we have had 26 bell alarms and 67 telephone calls and the insurance paid was smaller than last year, and compares very favorably with other cities of this size. I have papered, whitewashed and varnished the rooms of the various companies at the Central station and have painted the exterior of the Lakeport station.

The department in general is in first-class condition and harmony prevails throughout. The present inventory is \$41,752.

Following is a list of fires during the year:

March 2, Box 74; Mechanic street.

March 17, Box 25; Central fire house.

May 23, Box 56; Taylor street, Jewett's house.

June 2, box 77; Chase's Mill.

June 9, box 71; False alarm.

June 12, box 63; False alarm.

June 14, box 57; Baldi building.

August 9, box 71; Fred Mayo.

August 14, box 78; Elkins' boathouse.

August 16, box 78; Roby house.

August 29, box 25; J. W. Follet building.

August 31, box 56; Munsey building, Elliott street.

September 20, box 62; Sneirson house.

September 26, box 58; Bilodeau house.
 October 1, box 57; Old Champlain building.
 October 27, box 43; Rollins' store house.
 October 29, box 25; Belware's cobbler shop.
 November 3, box 62; grass fire.
 November 4, box 43; Chimney fire.
 November 5, box 77; Chase's mill.
 November 13, box 25; Gove court.
 November 20, box 68; Frank Shannon house, Fair street.
 November 25, box 58; F. L. Rollins' house, High street.
 December 7, box 25; D. K. Marsh & Co.
 December 11, box 51; E. F. Dean, Brook street.
 January 7, box 57; Smith's block.

The following is the personnel of the department:

BOARD OF ENGINEERS.

Cleophas L. Fecteau, chief; First asst., E. L. Sargent;

The other property of the association consists of the hospital buildings and ten (10) acres of land connected therewith, subject to a mortgage \$4,125.05.

Respectfully submitted,

JOHN W. ASHMAN, *Treasurer.*

LACONIA, N. H., Jan. 16, 1915.

I hereby certify that I have examined the foregoing account of John W. Ashman, treasurer, for the year ending December 31, 1914, and found the same correctly cast and properly vouched.

Balance in his hands, including the unexpended income of the Judge Rollins fund, eleven hundred twenty-nine dollars and thirty-three cents (\$1,129.33).

I have also examined the securities, verified the account of the permanent funds and found such funds invested and the income accounted for and shown by the book kept for that purpose.

GEORGE P. MUNSEY, *Auditor.*

PARK COMMISSION.

To the Honorable Mayor and City Council of Laconia:

The first annual report of the park commission is herewith presented for your consideration.

At the first meeting of the commission, held May 29, 1914, it seemed the logical thing, and the one most liable to bring the maximum amount of results with the minimum amount of time, to divide the work of that commission; accordingly Leavitt Park was placed under the direction of the two members from ward 6, and Opeeche Park in charge of the remaining members.

As the major part of the work has been done at Leavitt Park, the report will deal more fully with that.

The members having charge of this work, were hampered by inexperience, and a lack of knowledge as to just what had previously been done, but if mistakes have been made, it has been due rather to over zealousness than to lack of interest, and on the whole, considerable real progress has been made.

During the spring, some 400 loads of grade from the Peter Dutile lot on Fore street, was drawn by Contractor Vittum, and used for filling at the south end of the park; it was thought that this would grade this portion sufficiently to warrant the setting out of some shrubbery.

The plans for the park drawn by City Engineer C. A. French, and adopted by the city government, were placed in the hands of a competent landscape artist, who arranged for four beds of shrubs. The order for these shrubs together with some trees was placed with a reliable firm, and H. W. Welton was engaged to prepare the beds and plant the shrubs.

The commission was fortunate in securing his services, for he not only worked carefully and intelligently from the plans provided, but he was greatly interested in the work and his advice and suggestions were of much value.

In addition to the shrubbery, there were planted two purple leaf birches, two blue spruce, one cut leaf maple; eight Norway spruce trees were used to replace some of the evergreens which had died.

During the summer, inability to obtain efficient help or suitable grade held up the work, but in the fall, a gang of men under T. H. Lachance was put to work, and on account of the dry weather, were able to commence excavating for the proposed pond, and had not winter closed in so early this part of the work would have been practically finished. As it was, the area has been fixed, but a sufficient depth has not yet been attained. The dirt was used as a filler as fast as it was taken out, with the exception of about 50 loads of loam which has been placed one side to be used as needed for top coating.

The flooding of the pond this winter, for skating, has proven so satisfactory, being patronized by a very large number of children, that the commission would recommend the completion of the same, and the connection with the water supply.

It was the desire of some members of the commission to have a lawn tennis court laid out on the Washington street side of the park last summer, the play ground director, Mr. Anthony Sanella, offering to give his services Saturday afternoons to teach the game; an honest difference in opinion as to whether this would conform to the plan which Mr. Leavitt had in mind, resulted in a postponement of the matter, but believing that his idea was to benefit the community, and that he could do it in no better way than to provide healthful, out of door amusements for our young people, without in any way detracting from what was evidently his main idea—an ornamental park—the commission recommends at least a consideration of the matter.

The financial statement for the year follows:

LEAVITT PARK.

Receipts.

Received from P. E. Hamilton, city treasurer . . .	\$848.10
“ for sale of grass	10.00
“ “ “ “ grade	3.75
	<hr/>
	\$861.85

Disbursements.

Record book and postage stamps	\$.50
Chase Bros. & Co., for trees and shrubs	67.25
Frank H. Vittum for grading	294.27
H. W. Welton, making beds, setting shrubs and trees	37.65
C. A. French, labor, staking at Leavitt Park	7.08
A. J. Rowell, labor	2.90
G. W. Rollins, labor	3.00
T. H. Lachance, excavating and grading	275.60
C. C. Dame, labor	10.00
Balance expended, returned to treasurer	163.60
	<hr/>
	\$861.85

OPECHEE PARK.

At Opeeche Park it seemed best to the commission to clean up the grove at the north corner; undesirable trees were marked and a man put on to cut them and clear up the underbrush. Four and a half cords of wood was the result of this labor; this was sold on the lot for \$4.00 per cord. The work of cutting and cleaning cost \$17.40.

On the west side, around the cove and on the point, the dead trees and underbrush have been cleaned out; the work was done for the wood obtained; this seemed a fair bargain for both parties.

Should the city decide to use the park as a playground the coming season, the commission recommends that the space under the grand stand be put in condition to be used for that work in stormy weather.

Receipts.

Received from P. E. Hamilton, city treasurer . . .	\$39.45
“ “ sale of wood	18.00
	<hr/>
	\$57.45

Disbursements.

Clearing up grove	\$39.45
Cutting wood and underbrush	17.40
Paid treasurer balance on hand60
	<hr/>
	\$57.45

The Commission would like also, your Honor, to call the attention of the citizens of Laconia, to the attempt made, at your suggestion, to beautify our streets by the planting of trees. Some of the members made a canvass of the city, and succeeded in interesting property owners, so that 44 shade trees were ordered, and set out by the city, the bare cost of the tree, being the only expense to the abutter.

The commission recommends, that this number be doubled this year, and also that the waste corners of the city, be utilized and improved. Two examples of what can be accomplished in this line is the attractive little triangle, of the Lakeport Improvement society at the junction of Union avenue and Messer street, and the one between Province Road and So. Main street, for which the Laconia Woman's Club was responsible. An interested Park Commission has but one desire, to make our city the most beautiful in the state; this can be accomplished only by a sympathetic and helpful relation with your honorable body, and the co-operation of every citizen of Laconia.

Respectfully submitted,

CLAUDE C. DAME,
 CORA F. HAYWARD,
 LAURA E. VARNEY,
 IDELLA D. LAMPREY,
Park Commission.

CITY SOLICITOR'S REPORT.

LACONIA, N. H., February 15, 1915.

To the City Council of Laconia:

For the year just ending, I report as follows:

The tax-abatement cases of the Laconia Gas and Electric Co. have been settled by the company's paying the taxes in dispute, the city waiving interest on such as had not been paid when due. The Prescott and Blaisdell tax cases have not been tried, and each has a new case for the 1914 taxes. Scott & Williams, Inc., has brought a like case for the 1914 taxes.

The Locke case mentioned in my last report is now in the Supreme court for determination of certain questions.

Perley's appeal from damages awarded on account of widening Main street has been tried before the county commissioners. Their award being unsatisfactory, a jury trial is expected next March.

Claribel Clark has brought two suits for an alleged diversion of water on Union avenue, and Sidney F. Judd a suit for an alleged diversion of water on School street.

Charles A. Harvell, Ernest N. Fielding and Albert E. Davis have brought a suit for reinstatement on the police force. The Superior court has found against them, but the case may go to the Supreme court on exceptions.

Lyman B. W. Avery's appeal from the widening of Union avenue has been settled and a compromise line agreed on. The city has brought a suit to determine the lines of Union avenue from Main street to the hill by the Pitman mill.

Very respectfully submitted,

CHARLES B. HIBBARD,

City Solicitor

OVERSEERS OF THE POOR.

To the Honorable Mayor and City Council of Laconia, N. H.:

We herewith submit our report as overseers of the poor for the year ending February 15, 1915.

The partial closing down of the car shops has thrown out of employment several hundred men, and this condition thus created necessarily has increased the expense of our department.

All reasonable requests for aid have been promptly attended to and in our opinion the expenses of this department for the next year can be taken care of with the same appropriation as the year 1914.

Respectfully submitted,

SAMUEL A. GARLAND, for Wards 1 and 6.

PAUL E. MORIN, for Wards 2, 3, 4 and 5.

BOARD OF HEALTH.

To the City Council, Laconia, N. H.:

Annual report of the city board of health, year ending January 1, 1915.

Complaints investigated	48
Dead animals buried	3
Nuisances abated	16
Sewer connections ordered	9
Houses fumigated	23
Scarlet fever cases	3
Diphtheria cases	1
Typhoid fever cases	4
Measles cases	4

Laconia now has the opportunity of having pure, clean milk or, as it is called, inspected milk, from one milk dealer, at least. Collins' milk farm has met the requirements of the state board of health, which means clean barn, clean bottles, clean cows, free from tuberculosis; milk cooled and kept cold until delivered. Barns, cows, cart, bottles, and milk inspected once every month, by local and state board of health at Concord, who furnish tops reading "Inspected Milk." This is a great blessing to Laconia whose general milk supply is none too good. It is hoped that within the next year more milk dealers will conform to the rules and regulations of inspected milk.

Respectfully submitted,

E. P. HODGDON, M. D., Pres.,

F. C. TRUE,

W. H. TRUE, M. D., Sec.

Respectfully submitted,

P. E. HAMILTON,

Treasurer.

CITY EXPENSES,

FOR THE YEAR ENDING FEBRUARY 15, 1915.

Being an itemized account made up from the books of the city clerk, of the payments made by the city treasurer on account of running expenses.

The arrangement of the details of expenditures which follows is intended to give such information as is desired by the public.

Items of payment to the same person or firm at different times are included in the aggregate amount given, if paid for the same objects. Efforts have been made to ascertain and pay all approved bills to date.

State of New Hampshire.

AUDITOR'S REPORT.

LACONIA, N. H., Feb. 26, 1915.

To the Honorable Mayor and Council of the City of Laconia:

I have examined and checked the books and accounts of the City Clerk, City Treasurer, Collector of Taxes, Board of Public Works and Treasurer of the Public Library, and find them correctly balanced, and properly vouched; also checked with the lists the securities held in trust by the City and Treasurer of Public Library, and find they agree. I endorse the statement made by some former auditors that the time between the closing of the books and getting the various reports ready, printed and before the public several days before election is inconveniently short.

I herewith desire to express my thanks and appreciation for the courtesies shown and assistance rendered me by all of the public officials with whom my duties brought me in contact. I will say in a general way, that in some ways the system now in use is open to improvement in several respects, but will not attempt to discuss that in a report of this nature.

Respectfully submitted,

C. H. THWING,

City Auditor.

TRUST FUNDS.

The following funds have been placed in the care of the city, in trust, the income to be expended in the care of various lots in cemeteries within the city, agreeably to chapter 40 of the Public Statutes, and a resolution of the city council, adopted Nov. 27, 1889:
