THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of East Kingston in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said East Kingston on Tuesday, the ninth day of March, next at two of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see if the Town will vote to authorize the Selectmen to hire money in anticipation of taxes.
4. To see if the Town will vote to raise and appropriate the sum of \$2,500 for the maintenance of the Fire Department and any surplus not used for maintenance to be set aside for a fire truck fund.
5. To see if the Town will vote and appropriate the sum of \$100 for the purpose of putting up street name signs.
6. To see if the Town will vote to raise and appropriate the sum of \$200.06 against the State appropriation of \$1,333.76 for Class V Road Assistance.
7. To see if the Town will vote to raise and ap-

*Report of the Forest Fire Warden
 and
 Your District Chief*

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds characterized 1964 as one of the most hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2,280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our

state is now 86% wooded and its economy — both industrial and recreational — is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area — 4,350,000 acres— is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.
2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.
3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.

	<hr/>
Tuition Rate	\$475.00

Following is a statement by Mr. Frederick King, Teacher Consultant for Supervisory Union 16, on his work as supervisor of elementary education.

“It is inherent in the nature of our education that the schools are responsive to the society’s changing needs. Schools have and will continue to make changes to meet these needs.

“Last year at this time I reported that a committee was formed to study various arithmetic programs and to select one that could be used in all of the towns of this school union. I am happy to report that after careful study and much discussion the Elementary School Mathematics Series was selected.

It has been widely adopted and successfully used in thousands of classrooms. It reflects much of the thinking and findings of leading educators, psychologists and mathematicians over the past decade. It incorporates proven teaching techniques with the latest findings in learning theory, blending the best of the old with the exciting, creative ideas of the new.

“All of our first three grades are working with this program now, and I expect it will be expanded to the intermediate grades next fall. A workshop for teachers will be held soon in which teachers will have a chance to discuss any phases of the new program that need further explanation.

“Public elementary schools will soon get a chance to look at themselves through a new State of New Hampshire Department of Education publication, *Guidlines for Public Elementary Schools*. I have had the pleasure of working as a member of the state committee responsible for the new ninety-page booklet which discusses all phases of elementary education from the building itself to the facilities and teaching within the walls. I feel there will be much material here for discussion in the coming months as we move toward the maximum standards and practices recommended in the publication.

“Much profitable time this year has been spent in introducing new media and materials. We are continually developing new ways of reaching major understandings with learners through a variety of resources. The accessibility and correct usage of printed materials, graphic materials, audio-visual materials and television programs become more important each year. We need the best possible re-

sources for teaching and learning, and we hope for these resources to be used as well as they can be. Demonstrations, bulletins, and discussion sessions have helped teachers with the many resources available.

“As teacher consultant I shall continue as a part of my work to study new approaches to learning, and to evaluate curriculum changes throughout the country and to present to the staff only that which best fits our needs in this school union.”

Last year the Trustees of Brown's Academy established a scholarship for some deserving high school graduate of either Exeter High School or Sanborn Seminary. This first scholarship was awarded to Sally Ross who graduated from Sanborn Seminary. As there were several worthy applicants, the Trustees have voted to offer two scholarships this year. Any interested student should contact Mrs. Evelyn Bake of Kingston, the secretary of the Board, for details.

The Parent-Teacher Association continues its sponsorship of the school milk program and its interest in the schools.

I call your attention to the reports and tables which follows.

Again I wish to express my appreciation for the continued support of the citizens, the members of the School Board and the teachers.

School Health Report

To the Superintendent of Schools:

Health services to children have grown by leaps and bounds in the last few decades. The schools, with community backing, have provided (especially in our own Union #16) the services that are important if each child is to take full advantage of the educational facilities offered. The best trained teacher in the best equipped classroom cannot teach a child who is beset by the ills of the flesh and spirit. How much can a child learn who cannot see the blackboard, who can't hear instructions, who is listless from lack of proper rest or food, or who is emotionally disturbed?

For this reason, all of our schools in Union #16 have a health service program with excellent equipment to detect such problems as vision and hearing. All have a school doctor — a specialist in children. Physical examinations are given in certain grades and to children who need special attention. Glasses are provided by the Lions' Club, State Sight Conservation program, or the Salvation Army. Hearing aids are still hard to obtain due to cost, but so far we have been able to see that the child gets one where help is needed.

We have children in our classrooms who, until recently, would have been excluded. The epileptic sits right along with the normal child, his spasms controlled with medication; the diabetic, the cerebral palsy, and the severely physically handicapped

child can receive the education he deserves. Even the retarded child goes to school and receives an education with the help of special teachers and program.

Immunization clinics are held to provide each child with necessary "shots" or to be kept up to date on his immunity. Every child has an annual vision and hearing test. Sight conservation clinics are held weekly, sponsored by the Exeter Lions' Club and the Kingston Lions' Club. Exeter has weekly dental Clinics. Speech clinics are also available for each town but one. Some of the finances for this clinic are provided by school boards where necessary. T.B. tests and urinalysis for the detection of diabetes are also done each year.

Pre-school clinics are held in each town to provide the in-coming first graders the chance of starting school in tip-top condition, or providing time for the correction of remedial defects. There is a long journey ahead of each child during his school years. We must give him the chance to start this journey at maximum ability.

Orthopedic clinics are held monthly with over 200 children in attendance during the school year and chest X-ray clinics periodically. Other special clinics, such as amputee clinics and convulsive disorder clinics are available as the need arises. The number attending these latter clinics varies each year.

Another most important role of the service is Health Education in the classroom. Teachers are doing more of this each year, incorporating it with science and social studies. Excellent TV programs and other visual aids are available today for each class at its own level.

This is a far cry from the scattered, unorganized beginnings of School Health Services — but there is yet much to be done. You, the parents, the school boards, the school staff, and the general community, have all made this possible. Your help is still needed. “No man is so tall as when he stoops to help a child.”

Our thanks to all for their generous help and cooperation.

Report of the Music Supervisor

To the Superintendent of Schools:

The purpose of music in the classroom is to give the pupils a general knowledge of music and to subject them to as many different musical experiences as possible. It is hoped that from these experiences everyone will find a lasting musical interest.

Music in the classroom this past year has consisted of ear-training, music appreciation, rhythms, action songs, singing games, folk and square dances, work with rhythm band instruments, singing in unison and in parts, learning to play the tonette and auto-harp, and learning the fundamentals of music.

Outside of the classroom, the musical experience of participating in operettas or special programs gives the pupils not only pleasure but also a chance to gain self-confidence and poise by appearing before an audience.

Mrs. Tilton's pupils presented a musical play, "Singing Cowboys", at the April meeting of the Parent-Teacher Association held at the Town Hall.

I extend my sincere thanks to Mr. Hoyt, the members of the East Kingston School Board, the PTA, Mr. King, the teachers and the parents for their kind cooperation at all times.

Supervisory Union No. 16 Class

To the Superintendent of Schools :

The enrollment of the Union Class is at the capacity figure this year of fifteen students, thirteen boys and two girls. The grade levels range from low primary through sixth.

There is interchanging with other classes in science, New Hampshire History, physical education and special activities. Art and music supervisors come weekly to the group. The six boys who are covering in a modified degree the sixth grade curriculum join Mrs. Trefthen's group on three days a week. This proves to be challenging and rewarding.

We are continuing the experiment of having students from Phillips Exeter Academy help the boys whose reading difficulties have hampered their progress. With their twice weekly tutoring, we have now no non-readers.

Boy Scout Troop #322 meets each Thursday at the Community Center. Dr. Pitchforth and his Academy assistants are very faithful. All boys are 2nd Class Scouts.

The variance of the class this year as regards achievement, aptitude, grade ranges, chronological age and physical size make the necessary individual attention and standards difficult to maintain. As we saw the need for continued personal assistance at the junior high level, it is apparent that the little people with special difficulties need more person to person relationship and guidance at the primary

level than one teacher can adequately give. A part-time assistant in such instances would improve the learning situation.
