## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Hill:

I herewith submit my third annual report as your Superintendent of Schools.

In these times of such significant change in political and social thinking you are most fortunate in having your school staffed with teachers who have so much feeling for the welfare of the children and the community. It was indeed a pleasure for me and a tribute to your teachers to have a visiting foreign educator, who supervises teachers in his own native land, sing the praises of the work your staff is doing. It was an additional pleasure for me to be associated with them in this endeavor. It is said that a good teacher makes a good school. You can rest assured that the Jennie D. Blake School is an excellent school.

One of the things which helps your teachers in making your school good is the financial support to supply books, scholars' materials, maps and the like. You have been generous in the past in this support and it is deeply appreciated. Another thing which helps maintain a good school is the fact that you have a school board that is cognizant of and acts to make needed improvements and who are willing to spend their time doing the job for which they have been elected. You are fortunate in having members who possess these traits.

The community as a whole participates in the school program mainly through its financial support. This you have done most willingly. As you look over the school budget you note that your board has done all that they could in holding items to their lowest without harming the program. They have held the elementary cost to the same cost or even less than last year. Slight increases have been made in some items and decreases in others. The principal cause for the

increase has been in the cost of high school education. The tuition charges for the school year 1953-54 have increased at Franklin and at Bristol. The tuition rate in Franklin will be \$260 per pupil while at Bristol it will be approximately \$275. The tuition item alone represents an increase over last year's budget of \$1400 and it is an item over which your Board has no control. As you look at the budget, think in terms of elementary and secondary school costs. If you do this, you will find that the Jennie D. Blake School is not costing the taxpayers of the District an excessive amount. I am sure you will find that your tax dollar is being spent wisely and most efficiently.

During the school year your Board has made two physical improvements at the school which should be called to your attention. The most important item has been the insulating of the attic of the school building. This has been effective in saving of fuel and giving less heat loss thereby making the building much more comfortable than in the past. The other project completed was that of installing storage space in the basement. This enables us to lock supplies, etc., in the spaces and allows more free play area in the basement. Both of these have added much to the improvement of your school plant.

In closing this report I wish to express my appreciation to the teachers, the Board, and the many citizens who have been most helpful in carrying on the educational program for the children of Hill. I hope we will be able to continue for many more years this wonderful cooperation.

Respectfully submitted,

FRED W. SNELL,  
Superintendent of Schools
