FOREST FIRE WARDEN'S REPORT

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood.

In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience — a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump - its safer. A neglected backyard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.
4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Lets all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

PLANNING BOARD REPORT

Fiscal Year Ended December 31, 1963

Work of the Planning Board in 1963 concentrated on two major areas - community facilities and land use planning.

In the field of land use planning, the Board met with State personnel regarding the availability of funds from other governmental sources for planning purposes, and the possible scope of a comprehensive planning program. The prerequisite appears to be the determination of what activities and regulations the Town might support for its own benefit, following which a specific planning program could be developed and submitted to the voters for approval and appropriation. The Board feels that the growth potential of the area merits a careful plan to protect property for its most desirable use, and to insure that the expansion of necessary public facilities can be accomplished as efficiently and cheaply as possible. A proposed land use plan is being developed and will be presented for public comment in the near future.

At the request of the Selectmen, the Planning Board has devoted considerable time in the past year to finding a new Town Dump location. The aim is to locate a site which is (1) reasonably accessible and (2) capable of being operated as a sanitary-fill (non-burning) dump. Five sites meeting these criteria were located, but none of the property owners involved were interested in selling land to the Town for this purpose. This is not surprising, but represents a problem the voters must face. Operation of a burning dump in the present location is unsatisfactory in many respects - smoke nuisance, fire hazard, and health factors included. At the suggestion of the Planning Board an article authorizing the relocation of the dump is included in the 1964 town meeting warrant. If the Town cannot obtain a suitable site from a willing seller, the exercise of eminent domain must be considered.

In other activities the Planning Board last year worked with school committees on population growth studies, and with the Selectmen on various Town improvement projects.

REPORT OF CIVIL DEFENSE DIRECTOR

Regular meetings of the twelve officers of your Civil Defense organization have been held during the year 1963. The following have been accomplished:

1. The local Civil Defense Unit has been approved by the State.
2. An Emergency Center has been established in the basement of the telephone company building with files, working space, plans and maps of the town and communications.
3. Emergency procedures under various different conditions have been studied.
4. A used Auxiliary Generator has been purchased thru State Civil Defense, a building to house it has been constructed at the fire house, and overhaul of the generator to put it in working condition has been done.

Your Civil Defense organization hopes, in the coming year, to:

1. Continue with more study including alerts, contaminated areas, and actual field practice of emergency units, particularly radiological and emergency truck.

2. Purchase radio equipment which will permit closer coordination for radiological units as well as other emergency crews.

3. Purchase, thru Civil Defense, a Races Radio.

Hillsboro is most fortunate in having a well-organized fire department, special police officers, emergency unit, medical unit and manpower unit. Our thanks go out to these units and to the officers who have been faithfully attending the meetings.

FULLER PUBLIC LIBRARY REPORT

We submit herewith report of Fuller Public Library for the year ending December 31, 1963.

We feel the Library suffered a real loss upon the retirement of Mrs. Eva Rickard on July 1, 1963 after serving the Library for 25 years.

We wish to thank all friends who have given books and magazines. They have been most generous. It is impossible to name them all, however we do wish to thank the bank family for the check in memory of Eunice Gaddas to be used for the purchase of children's books. Colonel Roy Honeywell has again renewed our subscription to American Heritage, for this we are most grateful.

One of the highlights of the year was the Art Exhibit sponsored by The Fortnightly Club and tea served in the Gilbert Room.
