TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Brentwood, in the County of Rockingham, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Brentwood on Tuesday, the fourteenth day of March, next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see if the town will accept State Aid Construction and raise and appropriate $637.50 for the same.

4. To see if the town will accept Class 5 roads and raise and appropriate $283.43 for the same.

5. To see if the town will raise and appropriate money for blister rust control.

6. To see if the town will raise and appropriate $25.00 for the purchase of new fire tanks and shovels.

7. To see if the town in future desires the relief figures itemized in the town report (by request).

8. To see what action the town wishes to take in regard to the claim of J. Alfred Lyford for damages.

9. To see if the town will vote to close the road leading from Lister Savage's property to Pierre Hebert's property or whether the town wishes to appropriate $500.00 for the repair of this road and to see if the town wishes to close the Haigh road, so called.
10. To see what sums of money the town desires to appropriate for repairing the Town Hall.

11. To see if the town will vote to raise and appropriate $1,000.00 to repair and oil a section of Pickpocket road, so called, beginning at the Exeter line and extending north. This article to be null if town should vote to accept Class 5 State Aid and apply part of same on this road.

Given under our hands and seal, this twentieth day of February, in the year of our Lord nineteen hundred and thirty-nine.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Brentwood:
I herewith present my tenth annual report as Superintendant of Schools:

SUPERVISION

My primary duty should concern the welfare of the children in your schools. My philosophy is dependent upon that function. The supervision and improvement of instruction naturally come to mind as the first essentials whether they come from the introduction of a new textbook, advice to the teachers on school problems or absolute direction to perform certain tasks. Your same four teachers remain in your service from last year. It is creditable to note that these teachers are always seeking whatever aid I am able to render. I trust that this aid and support is indirectly helpful to the pupils.

We must look to the results to determine the value of instruction. Among the eighty-four pupils in your schools at the close of June, 1938, eighty-one were promoted or better than 96%. In other words, it was found that less than 4% were in need of or could profit by remaining in the same grade for another year. I believe this is a splendid record and one in which you, too, may take pride. Last year's graduation class of seven will serve as another example of accomplishments. Along with the other 79 graduates of the eighth grade in this Union, these pupils took the Metropolitan Achievement Tests, Advanced Form. Three exceeded, two equalled and two fell below their grade standards. Suffice is to say that I am satisfied that their achievements represent a favorable record. As a further example of parental co-operation and pupil interest, I am pleased to list the following pupils who were perfect in attendance during 1937-38:

As the parent is more often as much responsible as the child, his name is added as extra credit.

FINANCIAL

My secondary duty has to do with finance and the general operation of the physical plant. In a large Union such as this, often this function comes ahead of the first ideal-supervision. Yet certain situations must be faced and problems solved. Required reports must be finished on time, meetings held to review needs, plans made to meet conditions. Much time must be spent to determine the means for satisfying these needs by long-time planning. That is one of the duties of the School Board, and mine, just now and a rather difficult one it is due to the length of time in advance before the spending occurs as well as the uncertainties of high school tuition, caused by frequent shifts in family residence. Every budget presented to you must foresee the demands of a year and more in the future. This year’s budget is no exception to this formula.

In connection with the above I believe it would not be out of place to discuss with you the probabilities for next

year's enrollment. The prospects for 1939-40, as of this date, follow:

As there is a strong possibility that State Aid may be withdrawn from the support of the Marshall's Corner School on account of the great decrease in enrollment, we must consider the effects of such withdrawal and plan to meet the situation thus created. In my opinion there are other problems revealed in this tabulation of enrollment. The South Road is too small a building to adequately house thirty pupils. If some of the membership of the South School are assigned to Crawley Falls, the result would overtax the facilities and teaching efficiency of that school. It would appear logical, as you glance at the figures, to transport the pupils from Marshall's Corner to the North Road but that fails to consider two factors; that the nearest connecting road is hardly suitable for travel at many times of the year and that the North Road School has a fluctuating enrollment due to demands made by the children from the County Farm. These are the problems thrust upon you for solution. I believe you have possibilities for solution which I trust you will consider carefully. Disagreeable as the situation may be to you as to me, we must face the facts and act in the way which is least harmful to the welfare of the children concerned. To me this means that educational opportunity should be increased for the greater numbers. A suggested answer follows.

Census figures will show that, by far, the greater number of children in town live in the areas known as Crawley Falls and West Brentwood. It so happens that the Crawley Falls School is a large building—approximately 37 feet by 30 feet. As the standard classroom is about 20 by 30 and the minimum 18 by 27, this school could be divided and made into two rooms, one for the upper four and the other
for the lower four grades. Then, if the Marshall’s Corner and South Road Schools were closed and the children transported over the state road to Crawley Falls, the resulting re-assignments would give the grammar room 31 pupils and the primary room 32 pupils. A later development might involve the addition of another room to this school and would make a still greater improvement of educational opportunity for every child in town. Briefly, this describes the changes necessary. While this plan eliminates the operation of a small school in one section, it also remedies the situation caused by excess enrollments in another section or sections. The solution of the problem lies in your hands; I can only present a remedy.

To show certain facts concerning the financial management of your schools I list the following information taken from recent releases of the State Board of Education. These indicate the financial burden and how well it is being done in comparison with other towns of this union.

APPRECIATION

I am very appreciative of the interest and activity of the School Board in their unselfish efforts to make your schools the best that available funds will allow. We have worked together for another year in harmony and for the best interests of the children.

I would like to express my gratitude for the co-operation of your citizens and parents. Horace Mann once said, "The Common School is the greatest discovery ever made by man." I am content that you realize and appreciate the significance of this statement.

I would not forget the loyal service and the active efforts of the teachers. I give them my thanks for their support and diligence in meeting our plans for pupil welfare. They deserve the bulk of the credit.

Very respectfully,

HAROLD C. BOWLEY, Superintendent.

Sixty pupils were tested for hearing by the Audiometer. Two were found to have hearing loss in the right ear, two in the left ear and one in both ears. Corrections were effected in four cases by the families and donations from Red Cross and State funds.

Twenty-seven pupils were transported for dental attention. Money obtained from the operetta paid for a part of the work.

The Red Cross and state funds also provided funds for glasses, tonsillectomies, medical advice and test.
