STATEMENT OF SELECTMEN

We the Selectmen of Farmington, herewith submit our annual report for the year 1965, for your consideration. Projects completed this year include improvement of sidewalks on Bunker Street. A major improvement was the resurfacing of North Main Street to the corner of Charles Street. The Chestnut Hill Road was resurfaced in its entirety. A new bridge was constructed on the Horne Town Road. A TRA project not complete as yet is a 3/4 mile section of the Ten Rod Road. This we hope to complete in 1966.

We have tried to establish better communication between all departments by having section heads attend one of our weekly meetings each month. This has worked out very well in keeping us informed as to each department's problems.

Joining of the New Hampshire Municipal Association by the town of Farmington has proved most beneficial. We now having the buying power of the State of New Hampshire. By meeting certain requirements, we can now be included in state contracts for gasoline, fuel oil, heating oil, tires, automobiles, trucks, salt, office supplies, and many other items. For example, arrangements are now in process at the present time which may result in a savings of up to five cents per gallon on all gasoline we purchase. Another benefit available to us is the Association's vast knowledge of Municipal affairs backed up by a library devoted entirely to this subject.

You may have noticed that on several occasions, news releases were made by this office. This was done to keep you informed with first hand information. It is important to us that you do know what your selectmen are doing. You are entitled to this information and it is your right to demand it if it is not given.

Realizing our responsibility to our youth, we, along with other local groups have provided several areas for recreation, including sliding and skating. The Town Hall has been opened to supervised groups. The Youth Government Day was very well received also.

The Planning Board has been Re-activated and is working on several worthwhile projects.

The Sewerage Committee has held one meeting to review progress to date. More meetings are planned for the near future. This project must be started in 1966 or we may expect to lose some of the matching funds available to us.

Effective this year we have agreed to assume the plowing of snow for the school District, as requested by them. We feel the end result of this arrangement will be a saving to the town.

We were very fortunate in being able to receive the funding for the Davidson Water Line Extension thru our local bank, at the rate of 3.5 per cent interest. This agreement included an interest producing clause whereby any unexpended balance would draw interest at the standard rate. The Farmington National Bank is to be commended for their co-operation and understanding.

The Motor Vehicle Junk Yard Bill has been put into effect and it is our fullest intention to continue enforcement of it. The co-operation received to date in eliminating existing yards has been greatly appreciated.

We are closing the year 1965 with a fine surplus of \$14,808.33. We are very proud of this and want to thank the many people who gave of their time and advice to help us make the decisions that made these savings possible.

Respectfully submitted
Carroll H. Kimball
Ronald R. Chagnon
Paul A. Therrien

TOWN WARRANT

To the inhabitants of the Town of Farmington, qualified to vote in town affairs;

You are hereby notified to meet at the Town Hall in said Farmington on Tuesday, the 8th day of March next, at nine o'clock in the forenoon, to act on the following subjects:

Article 1. To choose one selectman for three years, one selectman for two years, one selectman for one year, a town clerk, a town treasurer, two auditors, a trustee of the trust funds for three years, five budget committee members and all other necessary officers and agents for the ensuing year.

You are also notified to meet at said Town Hall at seven o'clock in the afternoon on the same date, to act on the following subjects:

Article 2. To see what sum of money the town will vote to raise and appropriate to defray the expenses of general government as defined in the budget.

Article 3. To see if the town will vote to raise and appropriate the sum of \$1,932.35 for the purchase of a new Police Cruiser.

Article 4. To see what sum of money the town will vote to raise and appropriate for the police department.

Article 5. To see what sum of money the town will vote to raise and appropriate for fire protection.

Article 6. To see if the town will vote to raise and appropriate the sum of \$1,800.00 to be applied to the payments for services of a district nurse of said town, said funds to be disbursed through the Farmington Visiting Nurse Association. (By request).

Article 7. To see what sum of money the town will vote to raise and appropriate for the Health Department.

Article 8. To see what sum of money the town will vote to raise and appropriate for vital statistics.

Article 9. To see what sum of money the town will vote to raise and appropriate for summer and winter maintenance of highways and bridges and for the general expense of the highway department.

Article 10. To see if the town will vote to raise and appropriate the sum of \$1,040.44 in order to assure State Aid in the amounts of \$6,936.28 for the improvement of Class V Highways.

Article 11. To see if the town will vote to raise and appropriate the sum of \$5,000.00 for the Farmington Public Library Association. (By request).

Article 12. To see what sum of money the town will vote to raise and appropriate for old age assistance, town poor and soldiers aid.

Article 13. To see what sum of money the town will vote to raise and appropriate to Clarence L. Perkins Post No. 60, American Legion, to be used for Memorial Day observance.

Article 14. To see what sum of money the town will vote to raise and appropriate for the care of parks and playgrounds.

Article 15. To see if the town will vote to raise and appropriate the sum of \$275.00 for the maintenance of the Cocheco River Project.

Article 16. To see what sum of money the town will vote to raise and appropriate for the care or removal of dead trees located specifically on town property.

Article 17. To see if the town will vote to authorize the Selectmen to hire such sums of money as may be necessary in anticipation of taxes.

Article 18. To see what purpose or purposes the town will vote to appropriate the balance of the parking meter fund not otherwise earmarked and the income over and above the maintenance expenses, in accordance with the provisions of Laws of 1947, Chapter 74, Section 2.

Article 19. To see if the town will vote to authorize the Selectmen to appoint a Building Committee to investigate the possibilities of a combined Fire Station and Town Garage and possible sites. The Committee to include, the Fire Chief, one Selectman, the Road Agent and three others and to raise and appropriate \$100.00 to cover expenses incurred.

Article 20. (By petition of the Budget Committee).
RESOLVED, The Selectmen are authorized to hire and pay a Town Manager to administer the affairs of the Town under the supervision of the Selectmen and in accordance with State Statutes, & Rules covering the duties of a Town Manager as proposed by the Selectmen.

Article 21. To see if the town will vote to authorize the Selectmen to have all taxable land and buildings in the town revaluated for a sum not to exceed \$11,000.00 (and to issue serial notes in equal amounts up to a period of five years.)

Article 22. (By request) To see if the Town will authorize a committee to be appointed by the Moderator for the purpose of investigating the possibility of changing the boundaries of the Farmington Village Precinct by enlarging the same and if found desirable, to petition the Selectmen to change said boundaries, following the statutory procedure in such cases provided.

Article 23. To see what amount of money the town will vote for the repair of the Town Grader.

Article 24. To see if the town will vote to raise and appropriate the sum of \$750.00 for new tables for the Town Hall.

Article 25. To see if the town will vote to authorize the Selectmen to transfer from the Net Surplus account \$5800.00 toward the purchase price of a new truck together with the trade-in allowance on one of the old trucks.

Article 26. (By request). To see if the Town will vote to raise and appropriate a sum not to exceed \$25,000.00 through the issuance of serial notes or bond, upon the credit of the Town, to cover the cost of constructing an extension of the municipal water system from existing wells on South Main Street to Route 11 at Wagon Wheels Corner (formerly Edgerly's Corner) using the most expeditious route and thence for such distance southerly on Route 11 as may be deemed advisable so as to supply water to the voters at Wagon Wheels Corner and to authorize the Selectmen to determine the terms and conditions upon which the notes or bond shall be issued, including their sale and time and place of payment in accordance with the provisions of the Municipal Finance Act (RSA33) and any amendments thereto, and further to authorize the Selectmen to seek any federal or state financial aid available for such a project and to authorize the Selectmen to execute any and all documents necessary to acquire such financial assistance on behalf of the Town for this project.

Article 27. To hear reports from the Sewer Committee and Planning Board and to transact such other business as may legally come before said meeting.

Given under our hands and seal this 21st. day of February 1966.

REPORT OF SEWER COMMITTEE

In regard to our sewer system we have nothing definitely to report, at present. On January (5th) we met with representatives of the Anderson & Nichols Engineering firm from Concord and discussed both the lagoon system and also the Conventional treatment plant. We are trying to get figures on the cost of each plant and as soon as available we will call a public hearing and discuss the matter with the voters and then decide which plant you prefer to install.

Carroll H. Kimball
Chairman of Committee

FIRE WARDEN REPORT

REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless act. It is up to each one of us to be ever mindfull that a spark or flame is a potential fire.

WE MUST ALL BE CAREFUL:

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely despose of rubbish preferably at the town dump. If you must burn rubbish or brush;
 - a. Always get a permit to burn from the warden.
 - b. Start your fire late in the day after 5:00 P.M.
 - c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreads of acres of destroyed woodlands. Yours never to enjoy.

AUDITOR'S CERTIFICATE

We hereby certify that we have examined the accounts of the selectmen, tax collector, town clerk, town treasurer, trustees of the trust funds and municipal court, have compared their several accounts, vouchers and bank statement of funds on deposit and find these accounts in agreement and believe these reports to be a true account of the town business for the year ending December 31, 1965, with the following exception.

Tax Collector: On the 1965 tax levy there was a \$10 overpayment on head taxes and a \$6 overpayment on poll taxes, also on the 1964 levy there seems to be a \$10.19 overpayment on the property tax.

Mrs. R.N. Feeny, R.N.
Visiting Nurse, Farmington, N.H.

REPORT OF THE PLANNING BOARD

To the Citizens of Farmington:

This year's Planning Board consists of Paul Place, Chairman; Frank Parshley, Secretary; Harold Meserve; James Riley; and Ronald Chagnon, representing the Selectmen. We have held six meetings.

Our main project has been the making of a complete, up-to-date map of the town. This was accomplished by buying base maps and an aerial photograph from the Economic Development Commission. By use of these, a true map of the town was made and returned to the Commission for final checking. The completed map will be available for use in the selectmen's room.

We are now in the process of taking a census of the town. This census will not only give the population picture, but it will also have a record of skills which will be helpful for future industrial development.

We have discussed many subjects pertinent to the growth and welfare of Farmington, subjects which we expect to give impetus to future plans.

Respectfully submitted,

Frank Parshley, Secretary

To the Inhabitants of the School district in the Town of FARMINGTON qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 16th. day of March 1966, at 7:30 o'clock in the afternoon, to act upon the following subjects:

1. To determine and appoint the salaries of the school board and truant officer, and fix the compensation of any other officers or agent of the district.
2. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.
3. To choose agents and committees in relation to any subject embraced in this warrant.
4. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district.
5. To see if the School District will vote to raise and appropriate the sum of \$700 for the purchase of stainless steel counters to be installed around the dishwashing machine. (without budget committee's recommendation).
6. To see if the district will vote to accept the provisions of Title I. Public Law 89-10 (Elementary and Secondary Education Act of 1965). and to appropriate such funds as may be made available to the district under said Federal Act for such particular projects as may be determined by the School board. Further to see if the district will authorize the school board to make application for such funds and to expend the same for such projects as it may designate.
7. To see if the district will authorize the school board to sell the School Street School House on a bid basis. The board reserving the right to accept or reject any and all bids.

8. To see if the district will appoint a study committee to study the future needs of the Farmington School and access the present facilities and to ascertain whether it would be feasible to tuition high school pupils to a regional school nearby. This committee shall be composed of 6 members, 3 to be appointed by the moderator and 3 by the school board.

9. To transact any other business that may legally come before this meeting.

Given under our hands at said Farmington this day of February 1966.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Farmington:

The activities of the educational scene are so varied that it is impossible to cover them all in any one annual report. Some of them are mentioned in the reports of the high school principal, elementary principals, school nurse and reading consultant. You are encouraged to read these reports and to become familiar with the organization of your schools.

As of September 20th, the enrollment in the Farmington Schools was as follows:

	Grades												Totals
School	1	2	3	4	5	6	7	8	9	10	11	12	
Memorial													
Drive	98	96	78	82									354
Main St.					80	85	67						232
High School								86					86
High School									83	41	43	56	<u>223</u>
													895

At this writing, based on current enrollment and the September Census for Farmington and Middleton, it is projected that next Fall we will have an enrollment of 930 pupils. The impact on your school population that the Davidson Rubber Co. may or may not bring to the community is a matter of conjecture at this time.

In anticipation that all available space will be in use next Fall, except for the School Street facilities, it would appear that some consideration should be given to the election or appointment of a committee to study the future needs of the Farmington School system.

The complexities of school administration have been enhanced by the advent of the many new federal aid programs which have been added to the many existing programs. The acceptance and/or rejection of any federal monies is a decision of each respective community.

I will not attempt to describe the replacements of addi-

tions in staff this year by listing faculty changes. A directory containing a list of teachers is included elsewhere within the report so that you may become acquainted with those who are working daily with your children throughout the district. These people are a dedicated group in whose hands rest the future of your community and nation through the influence they have in training your youth to assume their place as adults. They solicit your continued support and understanding.

School authorities are continually confronted with request for expanded transportation services. These requests are evaluated carefully by the administration and school board who consider each on the basis of safety, adequacy, and efficiency.

We respectfully request parents to consider additional requests for added transportation carefully in light of the above and not necessarily join in the national trend of an apparent aversion, our society seems to hold generally, against walking whenever it is possible to ride.

Serving the needs of the school-going population in years gone by was relatively simple and inexpensive. Provided with little beyond book learning, few acquired what was equivalent to a high school education. Steeped in the tradition of college-preparatory oriented schools, we may wonder what effect Benjamin Franklin's academy, founded during the middle of the 18th century, had upon the general public. Now the University of Pennsylvania, Franklin's academy was established for the purpose of providing "practical instruction" and was what may be looked upon as the forerunner of the comprehensive high school.

Today, American schools are fully committed to the philosophy of educating all of the children of all of the people, and applies not only to that segment of youth considered to be educable, but trainable. Public pressure is being brought to bear on the schools to provide facilities and training for many who normally would be deprived. The federal government is supporting massive

schemes to train young adults presently unemployable because of lack of skills. While we respect the fact that the schools will not always meet all of the needs of those who attend, nevertheless, the challenge must be met as successfully as possible. Business and industry will assume important roles with respect to training and work experience programs, as will state-operated vocational and technical schools, but the public schools will be counted upon to carry the biggest share of the load---if for no reason other than mounting enrollments.

What does this mean when interpreted as a school program? Nothing less than providing youth with the training and skills necessary to participate in the adult world of work, if high school is terminal, or to continue with a post-secondary program. Inherent in this is that instruction must be offered at a level which relates to ability, for it must be remembered that the "education" has its roots in the latin "edacatus", meaning to "lead out". There are those who consider the educative process simply as one involving a "pouring in" of information. Respecting the fact that there are individual differences, it must be appreciated that capacities vary. Likened to water, if to educate meant to pour in, some would swim, some would float, and many would drown.

Your school board has spent many hours trying to establish policies and programs that will insure the youth of our district the best education that we can afford to buy.

We again solicit the continued support of parents, the press, business men, citizens, churches and all other agencies, in our common effort to improve our greatest natural resource, the boys and girls of America.

Respectfully submitted

Ramon Martineau
Superintendent of Schools

John Houghton, Jr.
Asst. Superintendent of Schools

REPORT OF PRINCIPAL

To the Superintendent of Schools:

The undersigned herewith submits his report for the period from January 26, 1965 to January 20, 1966.

The enrollment of pupils in Farmington High School has increased by ten. The proportion of transfers, dropouts, and new pupils has remained consistent with that of previous years. It is expected that next year's enrollment will be lower because of a smaller entering eighth grade, and a larger graduating class.

In June, 1965, forty-seven pupils graduated from Farmington High School. Of this total, sixteen elected to continue their formal education; five entered the armed services; one married; twenty entered gainful employment; three remained at home; and the status of two; could not be classified. The Class of 1966 will be Farmington High School's largest to date; the Classes of 1967 and 1968 will be smaller.

The most important addition to the curriculum this year was a one semester introduction to the French language for grades 8 and 9. So far, this experiment has been well received and it is felt that this program will prove of value to the students in enabling them to attain a more complete mastery of the subject. Public speaking has been temporarily dropped because; of the increased size of English classes and the small registration for the course. It is recommended that the following opportunities be made available as soon as economically feasible; full time library services; a more extensive and intensive educational guidance program; a course in small internal combustion engines and electricity in place of a second year of woodworking; and the addition of a physical education program for all students.

The students continue to have open to their use a fairly large number of co-curricula activities, including the athletic teams, the science, math, and drama clubs, and the class organizations. The Student Council is maintaining its control of the student driving program, has aided the junior varsity cheerleaders in obtaining uniforms, and is, in general, attempting to foster good school spirit.

The school has had a smaller turnover of its staff during the past school year. The veteran teachers on the staff have been most helpful in aiding the newcomers, as well as contributing valuably to the total school program. The building remains in good condition, and requires no more than the usual precautions necessary to preserve the district's investment. The district would be wise to provided a financial program to take care of preventive maintainance, such as cleaning septic tanks regularly, cleaning heating equipment, maintaining roofs, and the like. This attention would tend to prevent sudden failure of equipment resulting in hazards to the pupils, In passing, it is noted that parts of the building have been used by many outside organizations many times during the past year.

In closing, the writer would like to express his appreciation for the fine cooperation he has received from the Farmington School Board, the Superintendent of Schools, fellow principals, faculty and staff, and from the pupils and their parents.

Respectfully submitted,
Charles H. Morgan
Principal
Farmington High School

MAIN STREET SCHOOL ELEMENTARY PRINCIPAL'S REPORT

Encouraged by what we considered to be the very considerable success of the experimental classroom organization which we tried out in the fifth grade last year, our major efforts this year have been directed towards the extension of this system into the sixth grade. To recapitulate briefly, this system is one which attempts to gain the advantages of two generally antipodal methods of classroom organization, while at the same time ameliorating some of the inherent weaknesses of each. To be specific, instruction by means of departmentalization as opposed to instruction by means of the traditional self-contained classroom have been concepts of instructional technique whose relative merits have long been debated in the field of elementary education. We feel that each method has major advantages which should be exploited, and, similarly, each has major disadvantages which should be mitigated to the greatest degree possible. Departmentalization should provide instructional advantages by (1), allowing specialist teachers to concentrate on single subject areas, thus giving them greater skill and efficiency in the preparation and presentation of their lessons, and (2), by exposing children to a broader background of experience in dealing with different teacher personalities and interpretations and emphases, providing, in general, a more realistic environment in an institution which is theoretically preparing children to cope with a natural world, one of whose keynotes is diversity.

Complete departmentalization, however, especially at this age level, might be undesirable, for it could result in a lack of close student-teacher relationships and the security which this fosters, and also might lead to a lack of correlation of concepts from subject area to subject area - liabilities which self-contained classrooms can avoid to a large degree.

From the basis of these considerations we have derived our system, which divides the day up between the two approaches, with three-seventh of the day devoted to departmentalized work and four-sevenths devoted to self-contained classroom techniques.

The three subject areas which have been departmentalized are reading, arithmetic and language. These lend themselves well to a specialized approach, Departmentalization of instruction lends itself well to ability grouping, so the classes during this part of the day are organized on this basis. This has, we feel, produced great benefits, allowing us to offer each group the materials, the type of instruction, and the classroom pace most suited to their abilities, needs and interests.

We feel that, in general, this system has proven itself more effective than that which it has replaced.

We wish to express a large measure of gratitude to the school board for the very large effort which it has made under trying circumstances, in providing our fifth grade with a teacher to make possible a third section. If we had been obliged to operate with just two sections in the fifth grade this year (as it looked as though we might), much of the work we had done during the previous year to develop our fifth grade program on a semi-departmentalized basis would have had to be abandoned. Of greater importance, the large classes that would have resulted (about 40 apiece) would have perpetrated a considerable educational injustice on the pupils of those classes, for the condition would have presented them with a very restricted educational opportunity. Large class disadvantages are readily seen, and the adverse effects of the probable numerous discipline problems, the lack of time and opportunity for effective individual attention, and the excessive teacher workload (which would severely limit the time teachers could devote to lesson preparation, creative work, etc.) would have created a very real educational inequity. The board should be commended for recognizing this and taking pains to avert it.

Major advances in the area of instructional materials were not made through the necessity of cutting costs so that our staff which, is, of course, the most vital aspect of the school environment, could be made adequate for our needs. We did purchase some new materials, however, which have proven very beneficial. A film-strip projector (purchased with funds donated by the local Woman's Club) and a moderately extensive science

film strip library were purchased and have seen considerable usage with very satisfying results. New science texts were bought to prepare for a new section of sixth grade. Some new reading materials were bought - we feel that some of our greatest advances recently have been made in this vital area, due partially to our new system of instruction which provides us with "specialist" teachers of reading who have increased time and materials to use in doing a fine job, and partially to an excellent reading series which we are introducing into the school.

Most of our planned improvements to the physical plant were temporarily postponed when adequate funds were not provided to the school board to give us the staff which our needs demanded. The board wisely decided that the staff, being the most vital aspect of the school environment, should receive prime consideration, so the relatively small amount of extra money needed for this purpose was taken from other budget areas which could afford to see their functions postponed far more easily and justly than the critical area of instruction, which is, of course, the school's reason for being and the end for which all other aspects of the school system are simply the means.

Respectfully submitted,
David Roberts

MEMORIAL DRIVE SCHOOL PRINCIPAL'S REPORT

To the Superintendent of Schools:

Memorial Drive School, Grades 1 through 4, had an initial enrollment of 350 pupils at the beginning of the school year for 1965-66. The distribution by grades was as follows:

Grade 1	98
Grade 2	93
Grade 3	79
Grade 4	80

Each grade was divided into three sections with the following teacher assignments:

Grade 1 - Mrs. M. Clough, Mrs. Cook, Mrs. Larow

Grade 2 - Mrs. Jones, Miss Skidds, Miss Whipple

Grade 3- Mrs. G. Clough, Mrs. Gardner, Mrs. Robinson

Grade 4 - Mrs. Carr, Mrs. Parshley, Mrs. Stearns

Because of the increased enrollment in September, it was necessary to "set up" another fourth grade room. This was done by taking out the partition between the teachers' room and the Memorial Drive office to make the needed classroom.

The "New Math" was introduced to Grades 1, 2 and 3 this year. We hope to extend it through Grade 4 this coming year. New science books in Grade 4 are helpful in keeping these youngsters abreast of the times. It might be interesting to note that most of our new textbooks are "inter-cultural"--that is, pictures and experiences that formerly introduced white children only, now are peopled with children of all races.

We hope, because of the town's acceptance of the federal funds, to have a special class that will benefit children in Grades 1 and 2.

Our T V programs continue to be valuable teaching aids. Even Grade 1 will have a T V science program beginning in March, titled "All About You."

Mr. Hanhisalo teaches vocal music and Mrs. Bassett continues her fine work with the instrumental music.

In closing, the Memorial Drive Teachers wish to express their appreciation to Mr. Morgan and the high school students for their acts of cooperation.

Respectfully submitted,
Bernice A. Parshley
Principal
Memorial Drive School

READING CONSULTANT'S REPORT

To the Superintendent of Schools

Last May, all pupils of Grade I were tested and graded by me to determine the results of our new phonics system which was inaugurated in Sept. 1964. The results seemed gratifying so the system was continued this year in Grades I, II, and one section of Grade III. The present plan is to have all three grades working in that system by next year. The teachers are more enthusiastic about it as they use it and we are willing to give it a try.

In June, Grades IV and V were individually tested to enable us to place them in September, where they could work most profitably. Grade V now has 4 divisions reading at 4 levels: 2,3,4,5. Miss Stevens teaches the three top divisions and I give individual help to those on level 2. Grade VI now had 3 divisions reading at levels 4,5,6 under the instruction of Mrs. Maxfield. These groups are not static; but a child may be changed as he shows improvement or shows inability to keep up with his peers. Some have been put ahead and some have been put back. Our desire is to challenge-without frustration.

Grade 7 was retested in Sept. Many of these pupils had received individualized help in previous classes, so the percentage of underachievers was not high. During the fall term, special help was given to those still below grade level and to new transfer pupils. Except for new pupils, no more help will be given to those in Grade 7 as 86% can now read on grade level. The other 14% have probably reached their maximum reading level at this time. In Sept. 1965, all pupils of Grade 4 were tested and assigned to one of 5 divisions, taught by Mrs. Parshley, Mrs. Carr, and Mrs. Stearns. The children go to their assigned groups for reading instruction.

	I	II	III	IV	V
Grade	On or above Grade level	No. of Pupils	Below Grade level	No. of Pupils	No. in Column 4 who are more than 2 yrs. ret.
Grade 5	56%	45	44%	36	(11)
Grade 6	71%	60	29%	25	(7)
Grade 7	86%	55	14%	9	(3)

From the above figures it is easy to see that much of my time will be devoted to helping those in Grades 5 and 6. The 21 pupils in column 5, those who are more than 2 years retarded in reading, appear; to be in that category because of two main reasons: (1) mental retardation (2) indifference. There are other factors, too.

Speaking of the teachers, collectively, they are doing a superb job trying to get these youngsters up to grade level, and more and more emphasis is being placed on reading. Dedication, interest, and effort are not lacking on the part of the faculty.

Respectfully submitted,
Leona Haskell

REPORT OF SCHOOL NURSE

To the Townspeople, School Board and Superintendent of Schools:

The following report is for the school year 1964 to 1965. The communicable disease incidence was average with a mild epidemic of measles, and german measles, twenty cases of impetigo, three cases of mumps and seven cases of chicken pox. Twenty cases of scarlet fever.

The annoying incidence of pediculosis (head Lice) was just one and it was reported and properly taken care of. The Orthopedic Clinics were held in Dover, N.H. September, December and March, and six children attended these clinics.

Two Sabin Oral Polio Clinics (3 in 1 drink) were held at the Town Hall and three-hundred and seventy-five children received their drink April 15, 1965 and two-hundred and twenty-five children received their drink June 9, 1965 at the second clinic.

The School Dental Clinic was started in February 1965 and teeth were cleaned, examined and received a fluoride treatment in grades one, six, seven and eight. Two-hundred and forty-nine children took advantage of this dental clinic sponsored by the Farmington Visiting Nurse Association. All parents were notified of any defects and

advised to take their children to their family dentist as soon as possible.

The usual health physical examinations were carried out by the school physicians Dr. Robert Lord and Dr. George Quinn. Five-hundred and eighteen children were examined and whenever there was an abnormal condition existing in any child the parents were notified and advised to consult their family physician. Minor defects were promptly treated.

Vision testing was administered to check defective vision on four-hundred and seventy-two students and hearing tests with the Maico Audiometer were done throughout the school year to help the students, two-hundred and seventy-six students were tested. No child needs to go without glasses because financial assistance is available in obtaining proper diagnosis and corrective treatment. This may be arranged through me (School nurse) through various organizations.

The Pre-School Round-Up was held May 10, 11, 12, 1965 and sixty-eight children were registered at the round -up to start school in September 1965. Each child received a vision test, hearing test, was weighed, measured and teeth were checked and a history was taken on each child. During the school year five-hundred and fifteen calls were made by the school nurse in person or by telephone. One-hundred and ninety-seven children were transported home by the school nurse and sixty-one were transported to the doctors during the school year 1964 to 1965 by the school nurse.

At this time I want to personally thank the following: Farmington Kiwanis Club, Farmington Woman's Club , Farmington Visiting Nurse Association , Farmington American Legion, Farmington 500 Boys Club and Farmington D.A.R. and a private donation for the new Titmus Vision Tester which is now being used for vision testing in the school system. "THANK YOU."

In concluding this report it is a privilege to mention the cooperation of the following service organizations and groups who helped in many ways and many times: Kiwanis Club, Salvation Army, Farmington Woman's Club, American Legion, Legion Ladies Aux., Elks Club, Rain-

bow Girls, 500 Boys Club, and Ladies Church Service Organizations. These clubs and organizations are continuously serving and providing suitable clothing, dental and vision aid, food and many things for the children and by doing so, they help build a better and healthy community.

Following is the statistical report of the school health work for the school year 1964 to 1965.

Pupils examined by school physicians	518
Pupils examined by school nurse	472
Defects found by school physicians	10
Defects found by school nurse	59
Defects treated	69
Inspection of heads	582
First Aid to children	823
Ill children transported home	197
Ill children transported to Doctors	61
Home visits made by the School Nurse	515

Respectfully submitted,
Mrs. R.N. Feeny, R.N.
School Nurse Teacher
