Volunteer Fire Department Report

The Town was very fortunate last year in that there were no fires. The Fire Department held regular meetings once a month, with an average of about ten members attending. Once a week the trucks were started and the equipment checked over. During the summer we took the trucks out for practice whenever possible. Some of the firemen went to firefighting school in Laconia at their own expense. We also helped to burn three old buildings in town during the year.

The Fire Department borrowed \$3500 from the Colebrook National Bank to pay for having the body and pump removed from the old truck and put on No. 2 truck. Now there are two good pumpers plus the tanker. We were to pay \$500 on the note this year but, since there were no fires, the town helped by paying the first installment from money appropriated for the Fire Department in 1969. We bought some hats and rubbers from some of the money raised by cleaning chimneys and a raffle.

PITTSBURG SCHOOL DISTRICT
WARRANT

State of New Hampshire

To the Inhabitants of the School District in the Town of Pittsburg qualified to vote in District affairs:

You are hereby notified to meet at the Town Hall in said District on the 10th day of March, 1970, at 10:00 o'clock in the forenoon at which time the polls will be open. The School Business Meeting will begin at 1:00 P. M. or immediately following the Town Business Meeting, should it be extended to the afternoon session, to act upon the following subjects:

1. To bring in your ballots for the election of School District Officers to be elected by ballot for the ensuing year(s).
2. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any officer or agent of the District.
3. To hear reports of Agents, Auditors, Committees or Officers chosen, and pass any vote relating thereto.
4. To see if the District will vote to raise the sum of \$1400.00 to supplement the School Lunch Program.
5. To see if the District will vote to raise the sum of \$100.00 to transport school students, Grades I through VI, within Town limits on extremely cold and windy school days.
6. To see if the District will vote to accept the Guidance service on a Supervisory Union level, beginning with the 71-72 school year.
7. To see what sum of money the District will vote to raise and appropriate for the support of schools, for the payment of salaries of the School District officials and for the payment of the statutory obligations of the District.
8. To see if the District will vote to accept two additional teachers to allow for division in the elementary grades and raise money for the same.

9. To see if the District will vote to authorize the School Board to make application for and to accept, on behalf of the District, any or all grants or offers for educational purposes which may now be forthcoming from the State of New Hampshire and/or the United States for the ensuing year.

10. To transact any other business that may legally come before this meeting.

Given under our hands at said Pittsburg on this 5th day of February, 1970.

Report Of The Superintendent

To the School Board and the Citizens of the School District of Pittsburg:

The concept of shared services and facilities is increasingly becoming the most practical method by which individual school districts can meet the current demand and challenges of education. The recent ruling by the State Department of Education allowing dual enrollment, a method by which a student in one school district may attend school in another district for the purpose of taking a course or courses not offered in his own school, certainly is a logical step in reducing the demanding cost of education and in the duplication of services and facilities within immediate school districts.

This past year the five school districts comprising Supervisory Union No. 7 agreed to share the costs of a junior and senior high guidance counselor. Students attending school in Colebrook, Pittsburg and Stewartstown now have available to them the services of a counselor for vocational and college plans, as well as obtaining assistance in securing part-time or summer employment. This position is now capably filled by Mr. Jason Sibulkin, who has had a number of years experience working with young people in a social worker capacity and as an educator in the Colebrook School District.

This year, voters in the towns of Supervisory Union No. 7 will be asked to support the guidance counselor service on a Supervisory Union level. Since no new service may be added to the Supervisory Union without consent of the majority of the school districts, as specified in RSA 189:47, voters will be asked to support this service beginning with the 71-72 school year by means of a special article in the current school warrant. It should be noted that the "grace" period allocated to Supervisory Union No. 7 was given with the stipulation that the State Board of Education would re-examine in June of 1970 the services originating from the Supervisory Union office. Realizing that each district is financially incapable of supporting this service alone, the decision by local school board members to initiate and maintain this needed and worthwhile service until

it could be placed on a Supervisory Union level through voter action is to be commended.

The possibility of sharing specialists and creating a quality multi-media center is now being investigated by seven Supervisory Unions in the north country. Designating the North Country Shared Services Project, school districts from North Conway to Pittsburg will be investigating what services, materials and equipment can be feasibly shared at a reasonable cost. These districts now have available to them a shared Central Arts Library which developed out of Project Arise. Each school may now count the books, records, filmstrips, etc. in this library as part of its own library in meeting library standards.

With the ever increasing cost and demand for quality education and services, the concept of sharing, either by local districts or at a Supervisory Union or Inter-Supervisory Union level, certainly appears to present the most practical solution and one that should be earnestly considered and investigated for the improving and expanding of the educational process.

Respectfully submitted,

STEPHEN E. DEHL
Superintendent of Schools

Supervisory Union No. 7 Guidance

Guidance is that part of the total educational program which assists the individual student in developing a realistic concept of himself and society and in setting and achieving goals consistent with his potential. The guidance process helps the student to understand his abilities, interests, and special aptitudes; to acquire information about educational and vocational opportunities within a changing society; and to make appropriate adjustments and wise choices.

Guidance is based on the philosophy that no two students are alike. Each has his own pattern of growth. This pattern governs to a large extent the direction and rate of growth for each. The good teacher and counselor will provide the appropriate environment for the unfolding of this pattern.

Guidance is a continuous process which, from the school's standpoint, begins with the child's first contact with the school and continues as long as the school can be of service. This concept indicates that guidance is developmental in nature rather than merely remedial or preventive. Each student needs continuing assist-

ance in assessing previous and present situations and in planning for the future.

Guidance emphasizes assisting students in making their own choices rather than having decisions dictated to them. Guidance is a school-wide responsibility requiring close working-together of teachers, administrators, counselors, and other school personnel. All of this is based upon the cooperative efforts of the school, the home, and the community.

JASON SIBULKIN,
School Counselor.

SCHOOL HEALTH

The purpose of a school health program is to perform the necessary duties to maintain and promote good health of the pupils in our schools.

The following services are performed each year: checking heights and weights, vision and hearing; physical examinations for all students in grades 4, 8, 11, and athletics; T. B. skin tests as recommended by the State T. B. Association; necessary immunizations; pre-school clinics every spring for in-coming first graders; and continuous supervision of general health.

In May, a Lazy-Eye Clinic was held for pre-school youngsters under the sponsorship of the Grange. The response to this clinic was very gratifying and very few youngsters were found to have vision defects.

The overall program of school health in this area is adequate, but there is always chance for improvement. By everyone working together, it is hoped that these improvements can be realized to the mutual benefit of our students and community as a whole.

Respectfully submitted,
DOROTHY L. DUCRET, R. N.
