REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and the Citizens of the Salisbury School District:

Once more it becomes my duty to report to you regarding your local schools.

This year your enrollment is slightly larger than that of previous years. First day enrollment was as follows:

Heights School

Grade 5	7 pupils
Grade 6	5 pupils
Grade 7	6 pupils
Grade 8	8 pupils
Total	26 pupils

South Read School

Grade 1	9 pupils
Grade 2	7 pupils
Grade 3	2 pupils
Grade 4	10 pupils
Total	28 pupils

Total enrollment for both schools was 54 children, an increase of four children. This does not seem like very much to some people. However, when you realize that each teacher has to handle four grades with each pupil almost having to be given individual instruction, the addition of even four children makes the task all the more difficult.

We have been faced with other difficulties due to circumstances beyond our control. Last year Salisbury had two teachers of unusually good ability. Neither of them returned for per-

sonal reasons. The school district lost two good teachers and their places had to be filled from other teachers, one without any experience, and the other a teacher of some experience. Perhaps the district does not realize that it is most difficult to find any teachers today who are willing to take a four-grade combination position. This places a heavy responsibility upon both superintendent and school committee. Another factor is that of salary. Very few people are willing to work these days for the salaries which the Salisbury School District is willing to pay. The very minimum salary should be three thousand dollars for a qualified teacher—even if you can find one to take four grades. I feel that such a salary is the least that should be paid for the responsibility such a position entails.

Another point is the degree of criticism to which teachers are being subjected. Sometimes teachers come in for severe criticism because they do not teach children in the manner that parents like. I would like to say that I believe teachers should have the authority to run their classes in ways that are acceptable to the school board and superintendent. If there are misunderstandings regarding such matters they should and could be solved by conference with those concerned. Teachers do not, in any way, attempt to dominate children or work in ways that are detrimental to children. However, it is absolutely necessary that teachers be given the authority to maintain good discipline in the schools. This is the first requisite of any good teacher. She should be sustained and aided by both superintendent and school board in this all-important matter. This should not be difficult for any qualified teacher. She should never be placed in the position of fearing to demand good behavior of any and all pupils. The work should be well motivated, the instruction interesting and profitable, and good behavior insisted upon. Here again, the teacher must show a fine sense of understanding of children, and parents must support her in her decisions as she carries out her work of training the children in general behavior. Children should obey their teachers; teachers must take the lead in demanding this. They cannot do it effectively

if they sense that they are restrained by unreasonable opposition from any source.

The schools of Salisbury are adequately supplied with all the necessary material resources, such as books, supplies, reasonably good quarters and things of that kind. The children are well taken care of so far as these things are concerned. There is a good hot lunch program, supported by local effort and directed by a member of the School Board. Those people who are behind this effort merit the commendation of the community.

In closing, I want to say that because Salisbury has always had pretty good schools, I want them to continue to be that way. I am asking the people of the community to take a personal interest in the educational facilities of their community, to support the school board and the superintendent in their efforts to secure such a continuation of good schools and through every means in their power to work cooperatively for the best interests of their children.

Respectfully submitted,

WILLIAM B. HOUNSELL
