cola.unh.edu/survey-center

DURHAM, NH – Senator Jeanne Shaheen remains the most popular member of the state's congressional delegation while newly-elected Senator Maggie Hassan is also popular in the state. Congresswoman Carol Shea-Porter is somewhat popular in the First District, while Second District residents are divided on Congresswoman Ann Kuster.

These findings are based on the latest **Granite State Poll\***, conducted by the University of New Hampshire Survey Center. Five hundred and eighteen (518) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between April 24 and May 4, 2017. The margin of sampling error for the survey is +/- 4.3 percent. Included were 255 residents of New Hampshire's First Congressional District (MSE +/- 6.1%) and 263 from the Second District (MSE +/- 6.0%).

### Favorability - Jeanne Shaheen

New Hampshire senior senator and former Governor Jeanne Shaheen continues to be popular in the state. Currently, 51% of New Hampshire adults have a favorable opinion of Shaheen, 28% have an unfavorable opinion of her, 9% are neutral, and 12% don't know enough about her to say.

Shaheen Favorability Rating

\* We ask that this copyrighted information be referred to as *the Granite State Poll*, conducted by the University of New Hampshire Survey Center.

Shaheen's net favorability rating (the percentage with a favorable opinion minus the percentage who have a unfavorable opinion) is +23%, largely unchanged since February 2017 (+18%). She remains very popular among Democrats (net favorability rating of +71%) and somewhat popular among Independents (+11%), but unpopular among Republicans (-19%). However, this net favorability among Republicans represents a slight increase since February (-33%).

Those who voted for Hillary Clinton for President (81% favorable), self-described liberals (71%), frequent NHPR listeners (68%), those who have completed postgraduate work (65%), Boston Globe readers (65%), and union members (64%) are most likely to view Shaheen favorably. Those who voted for Donald Trump for President (54% unfavorable), self-described conservatives (52%), and gun owners (38%) are most likely to have an unfavorable opinion.

### Favorability - Maggie Hassan

New Hampshire's newly-elected junior senator Maggie Hassan is popular in the state but somewhat less popular than Shaheen. Hassan was broadly popular among the New Hampshire public in the early periods of her governorship, but the public became more divided in its opinion since her challenge of former Senator Kelly Ayotte for the seat and remains divided following Hassan's successful campaign.

Currently, 46% of New Hampshire adults have a favorable opinion of Hassan, 33% have an unfavorable opinion of her, 9% are neutral, and 12% don't know enough about her to say.

### Net Favorability Rating - Maggie Hassan

Maggie Hassan enjoyed a positive net favorability rating even among Republicans in the early periods of her governorship, but opinion on her has become more polarized by party since mid-2015.

Hassan's current net favorability rating is +13%, largely unchanged since February. Hassan is very popular among Democrats (+62%), independents are neutral (+1%), and she is unpopular among Republicans (-34%).

Those who voted for Hillary Clinton for President in the most recent election (79% favorable), frequent NHPR listeners (69%), self-described liberals (68%), union members (67%), Connecticut Valley residents (61%), and those who have completed postgraduate work (57%) are most likely to view Hassan favorably. Frequent conservative radio listeners (62% unfavorable), self-described conservatives (61%), Donald Trump voters (56%), and Mass Border residents (43%) are most likely to view her unfavorably.

### Favorability - Carol Shea-Porter

Congresswoman Carol Shea-Porter, who returned to Washington after defeating incumbent Frank Guinta in their fourth consecutive match-up, is somewhat popular in the First District. Currently, 39% of residents of New Hampshire's First Congressional District have a favorable view of Shea-Porter, 27% have an unfavorable view of her, 12% are neutral, and 22% don't know enough about her to say. Her net favorability rating is +12%, slightly up from February (+7%).

Shea-Porter is very popular among Democrats (net favorability rating of +63%), somewhat unpopular among Independents (-11%), and unpopular among Republicans (-32%).

### Shea-Porter Favorability Rating - First District

### Favorability - Ann Kuster

Second Congressional District residents remain divided in their opinion of Second District Congresswoman Ann Kuster. Currently, 27% of residents of New Hampshire's Second Congressional District have a favorable view of Kuster, 31% have an unfavorable view of her, 11% are neutral, and 32% don't know enough about her to say. Her net favorability rating is -4%, down from +8% in February.

Kuster is popular among Democrats (net favorability rating of +25%), somewhat unpopular among Independents (-7%), and unpopular among Republicans (-36%).

#### Kuster Favorability Rating - Second District

### Granite State Poll Methodology

These findings are based on the latest Granite State Poll, conducted by the University of New Hampshire Survey Center. Five hundred and eighteen (518) randomly selected New Hampshire adults were interviewed in English by landline and cellular telephone between April 24 and May 4, 2017. The margin of sampling error for the survey is +/- 4.3 percent. These MSE's have not been adjusted for design effect. The design effect for the survey is 1.2%. Included were 255 residents of New Hampshire's First Congressional District (MSE +/- 6.1%) and 263 from the Second District (MSE +/- 6.0%).

The random sample used in the Granite State Poll was purchased from Marketing Systems Group (MSG), Horsham, PA. MSG screens each selected telephone number to eliminate non-working numbers, disconnected numbers, and business numbers to improve the efficiency of the sample, reducing the amount of time interviewers spend calling non-usable numbers.

The data have been weighted to adjust for numbers of adults and telephone lines within households. Additionally, data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. Due to rounding, percentages may not sum to 100%. The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions.

For more information about the methodology used in the Granite State Poll, contact Dr. Andrew Smith at (603) 862-2226 or by email at [andrew.smith@unh.edu](mailto:andrew.smith@unh.edu).
