TOWN WARRANT
Town of Tuftonboro
State of New Hampshire

The polls will be open from 10:00 a.m. to 7:00 p.m.

To the Inhabitants of Town of Tuftonboro in the County of Carroll in said State, qualified to vote on Town Affairs:

You are hereby notified to meet at the Tuftonboro Town House in said Tuftonboro on Tuesday, The Ninth Day of March next, 2010, at 10:00 o'clock in the forenoon to act upon the following subjects:

Articles 1-6 will be voted on by Ballot on March 9, 2010. You are hereby notified to meet at the Tuftonboro Central School in said Tuftonboro on Wednesday, the 10th day of March next at 7:30 p.m. in the evening to act upon the remaining articles:

1. **To choose all necessary Town Offices for the year ensuing.**
2. **Are you in favor of the following amendment to Section 2.6 Table of Uses of the Zoning Ordinance as recommended by the Planning Board?**

Amend G. 1 entitled "Industrial Uses" to allow such uses in the Neighborhood Business District by Special Exception and to read as follows:

G. INDUSTRIAL USES

1. Manufacturing, assembly, S X X ✕ X X
Fabricating operations not [insert "S"]
exceeding 10,000 s.f. of
gross floor per Lot.

The Planning Board recommends this amendment to allow such use in Neighborhood Business Zoning District and to match this section with existing conditions.

3. **Are you in favor of the following amendment to the Zoning Ordinance as recommended by the Planning Board?**

Amend Section 19.1 entitled "DEFINITIONS" by deleting definitions 19.1.28 and 19.1.29 as shown below:

~~19.1.28 Junk: The statutory definition of "Junk" (see RSA 236:91 II) is hereby incorporated herein by reference.~~

~~19.1.29 Junk Yard: An area of land of 500 or more square feet, or a Building, within which waste, junk or scrap materials are bought, sold, exchanged, stored or otherwise handled. A Scrap Yard includes, without limitation, an auto wrecking yard and "Junkyard" as defined by RSA 236:112 and RSA 236:91.~~

The Planning Board recommends this amendment at the request of the Board of Selectmen and the Code Officer since it is impossible to enforce any sections of the Zoning Ordinance that uses these terms.

4. Are you in favor of the following amendments to Section 2.4 entitled "District Purposes" of the Zoning Ordinance as recommended by the Planning Board?

Amend Section 2.4.3 entitled "Neighborhood Business" of the Zoning Ordinance so that it reads as follows (language to be added is in *italics*): The intent of this District is to permit limited commercial uses primarily to serve tourists and neighborhood areas which have a mixture of residential, including cluster development, and non-residential uses but where the trend has been Conversion to commercial use. These areas are typified by small Lots and area frequently abutted by residential neighborhoods.

Amend Section 2.4.5 entitled "Open Space/Forestry" so that it reads as follows (Language to be added is in *italics*):

The intent of this District is to provide areas which because of their environmental characteristics of ownership, should remain predominantly open and used for recreation, residential, conservation, and/or agricultural purposes.

Note: In the 2007-8 session the state legislature enacted a bill referenced as SB 342 which became RSA 674:58-61. RSA 674:59.I states, "In every municipality that exercises the power to adopt land use ordinances and regulations, such ordinances and regulations shall provide reasonable and realistic opportunities for the development of workforce housing, including rental multi-family housing." The following proposed changes to our Zoning Ordinance bring Tuftonboro into compliance with state law.

The Planning Board recommends this amendment to bring this section into compliance with New Hampshire RSA 674:58-61.

5. Are you in favor of the following amendment to the Zoning Ordinance as recommended by the Planning Board?

Amend Section 4.4 entitled “CONVERSIONS and EXPANSION” to read as follows (language to be added is in *italics*; language to be deleted is in ~~strike through~~):

4.4.1 In the LDR, MDR and NHB Districts, a residential Building existing at the time of passage of this Ordinance, shall be permitted to be remodeled to a maximum of ~~four (4)~~ *five (5)* Dwelling Units, provided, however, that there is no increase in the size of the Building.

See also “Note” in Article 4 above. The Planning Board recommends this amendment to bring this section into compliance with New Hampshire RSA 674:58-61.

6. Are you in favor of the following amendment to the Zoning Ordinance as recommended by the Planning Board?

(Language to be added is in *italics*; language to be deleted is in ~~strike through~~)

Amend various subsections contained in SECTION VII entitled “CLUSTER DEVELOPMENTS,” specifically:

Amend Section 7.2 entitled “OBJECTIVES” by adding a new section “F” to read as follows:

F. Provide opportunity for a diversified housing stock to achieve a diverse balanced community with housing available for households of all incomes.

Amend Section 7.3.1 entitled “Review Process” to read as follows:

A cluster development shall be treated as a Subdivision for review and public hearing purposes.

A. The applicant shall, at a properly noticed Hearing, submit a ~~preliminary design plan for review by the~~ ***Design Review by the*** Planning Board. Using the Subdivision Rules and Regulations as a guide, the Planning Board shall advise the applicant of changes needed for approval. The applicant may also first request a ~~preliminary review~~ *Conceptual Consultation*, without a Public Hearing, if general concepts are to be discussed and Board guidance sought.

B. Once the ~~preliminary design~~ *Design Review* plan has been reviewed by the Board, the Planning Board may then hold a public hearing for final approval of the ~~site plan subdivision~~.

Amend Section 7.3.2 entitled “Legal Review” to read as follows:

The applicant shall submit for review by the Town Attorney any restrictive covenants, Condominium or cooperative agreements, *long-term sale or lease agreements for workforce housing*, or other legal agreements proposed for use in the cluster development. The Town Attorney shall approve the legal documents prior to the granting of final approval of a Cluster Development.

Amend Section 7.4.3 of “Permitted Uses” to read as follows:

7.4.3 Dwelling Unit Configuration: Dwelling Units may be in the form of single Family detached ~~units~~, or attached ~~townhouses~~ *units* of up to ~~four~~ *five* Dwelling Units per Building. The Dwelling Units may be in Condominium or cooperative type ownership.

Amend Section 7.5 entitled “DEVELOPMENT REGULATIONS” to read as follows:

The cluster development shall meet the following standards.

7.5.1 Area: ~~The cluster development shall have a minimum area of eight (8) acres of Contiguous land lying within the residential Districts except for Lakefront Residential which shall have four (4) acres. In Neighborhood Business and Island Conservation Districts, there shall be a minimum of four (4) acres. In the Open Space/Forestry District there shall be a minimum of sixteen (16) acres. The cluster development shall have a minimum area of four (4) acres of contiguous land in all districts except the Open Space/Forestry District where the minimum area for a cluster development shall be eight (8) acres.~~

7.5.2 Dwelling Unit Density: The cluster development shall have a minimum of ~~3/4~~ 1/2 acre per Dwelling Unit in the MDR, LKR, NHB, and ISC Districts, ~~1.5~~ 1 acre per Dwelling Unit in the LDR District and ~~3~~ 1 1/2 acres per Dwelling Unit in the OSF District, provided that the soil conditions do not require a lower density for health and safety reasons. In order to calculate the allowed density, the total acreage exclusive of waterbodies, wetlands, and slopes over 25% shall be divided by the acres per Dwelling Unit, as specified herein.

Amend Section 7.5.3 entitled “Layout” by deleting existing Section A entitled “External Dimensional Requirements” and replacing with language to read as follows:

Structures may be located in any manner on the site to meet the objectives in Section 7.2 and providing that the following standards are met.

A. Buffering and Setbacks

The Planning Board may require a vegetative buffer within the existing zoning district setbacks.

See also "Note" in Article 4 above. The Planning Board recommends these amendments to bring this section into compliance with New Hampshire RSA 674:58-61.

- 7. To see if the Town will vote to raise and appropriate the sum of Five Thousand Two Hundred Dollars (\$5,200.00) for the road striping of Ledge Hill Road, Union Wharf Road, Durgin Road and Sodom Road.**
(Majority vote required)
(Recommended by the Selectmen 3-0 and Budget Committee 5-1-1)
- 8. To see if the Town will vote to raise and appropriate the sum of One hundred Eighty Five Thousand Dollars (\$185,000) for the paving of town roads.**
(Majority vote required)
(Recommended by the Selectmen 3-0 and Budget Committee 7-0)
- 9. To see if the Town will vote to raise and appropriate the sum of Five Thousand (\$5000.00) for the perambulation of the Tuftonboro/Ossipee line and the Moultonborough/Tuftonboro line.**
(Majority vote required)
(Recommended by the Selectmen 3-0 and Budget Committee 6-0)
- 10. To see if the Town will vote to raise and appropriate the sum of Ten Thousand Dollars (\$10,000.00) for the purchase of containers to be used at the Transfer Station.**
(Majority vote required) (Recommended by the Selectmen 3-0 and Budget Committee 6-1)
- 11. To see if the Town will vote to raise and appropriate the sum of One Hundred Fifteen Thousand Dollars (\$115,000.00) to make an extra principal payment on the Gould property, for the purpose of paying off the loan in 2010.**
(Majority vote required)
(Recommended by the Selectmen 3-0 and Budget Committee 4-0)
- 12. To see if the Town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of building a New Library and to raise and appropriate the sum of Eighty-Five Thousand Three Hundred Dollars (\$85,300) from the unreserved fund balance to be placed in said fund and**

furthermore to appoint the Selectmen as agents to expend. No money is to be raised by taxes. This warrant article is contingent on warrant article 13 passing. If warrant article 13 does not pass, this warrant article will be null and void.

(Majority vote required)

(Recommended by Selectmen 3-0 and Budget Committee 7-0)

13. Shall the Town vote to rescind the authorization of \$100,000 in warrant article 7 from the March 2006 annual meeting for the purpose of preliminary site work and design of an expansion to the Tuftonboro Free Library. These funds were non-lapsing until 12/31/2011. Said unexpended funds (\$85,300) are to be transferred to the municipality's general fund. This warrant article is contingent on warrant article 12 passing. If warrant article 12 does not pass, this warrant article will be null and void.

(Majority vote required)

14. To see if the Town will vote to raise and appropriate the sum of Ten Thousand Dollars (\$10,000.00) to purchase, in conjunction with neighboring towns, a Diver Assisted Suction Harvester (DASH) for the purpose of removing milfoil from Lake Winnepesaukee. Of this amount Five Thousand (\$5,000.00) will come from a matching grant with the remaining Five Thousand (\$5,000.00) to be raised from taxes.

(Majority vote required)

(Recommended by Selectmen 2-1)

(Not recommended by Budget Committee 3-4)

15. To see if the Town will vote to raise and appropriate the sum of Ninety-Five Thousand Dollars (\$95,000.00) for a statistical update revaluation of properties in the Town of Tuftonboro.

(Majority vote required)

(Recommended by the Selectmen 3-0 and Budget Committee 4-2-1)

16. To see if the Town will vote to discontinue the following capital reserve and expendable trust funds in accordance with RSA 35:3: Fire Truck CRF, Dump Closure CRF, Town Beach 19 Mile Bay CRF, Police Vehicles CRF and Country Road Bridge ETF. These funds all have zero balances. This article is per request of the DRA.

(Majority vote required)

(Recommended by the Selectmen 3-0)

17. To see if the Town will vote to establish a Recreation Revolving Fund pursuant to RSA 35-B: 2, II. The money received from fees and charges for recreation and/or park services and facilities shall be allowed to accumulate from year

to year and shall not be considered to be part of the Town's General Fund unreserved fund balance. The Town Treasurer shall have custody of all monies in the fund and shall pay out the same only upon order of the recreation commission (no further town meeting approval required). These funds may be expended only for recreation purposes as stated in RSA Chapter 35-B and no expenditure shall be made in such a way as to require the expenditure of other town funds that have not been appropriated for that purpose.

(Majority vote required)

(Not recommended by Selectmen 3-0)

18. **To see if the Town will vote to raise and appropriate the budget committee recommended sum of Two Million Eight Hundred Thirty Five Thousand Seven Hundred Eighty Three Dollars (\$2,835,783) for general Town operations.**

The selectmen recommend \$2,841,183.00.

This article does not include any special or individual warrant articles.

(Majority vote required)

(Budget Committee 7-0)

19. **(By Petition): To see if the Town will vote to approve the following resolution to be forwarded to our State Representative(s), our State Senator, the Speaker of the House and the Senate President.**

Resolved: The citizens of New Hampshire should be allowed to vote on an amendment to the New Hampshire Constitution that defines "marriage".

(Majority vote required)

20. **To transact any other business that may legally come before this meeting.**

Given under our hands and seal this 22nd day of February, in the year of our Lord, Two Thousand and Ten.

True Copy of Warrant Attest:
Tuftonboro Board of Selectmen

Daniel J. Duffy, Chairman
Carolyn Sundquist, Selectman
William L. Stockman, Selectman

Roberts, Greene & Drolet, PLLC

February 8, 2010

Members of the Board of Selectmen
Town of Tuftonboro
PO Box 98
Tuftonboro, NH 03816

Dear Members of the Board of Selectmen:

We are in process with the audit of the Town of Tuftonboro's financial statements as of December 31, 2009. We will be issuing our final report within 30 days of the completion of field work and the receipt of all required correspondences and confirmations. We appreciate the opportunity to provide audit services for the Town.

Sincerely yours,

Roberts, Greene & Drolet, PLLC

2009 SELECTMEN'S REPORT

March elections brought no changes to the Board of Selectmen. Our new schedule for meetings is working well.

2009 found Tuftonboro as well as the rest of the country mired in one of the worst recessions since the great depression. In response to the current economic times; the Selectmen have chosen to back away from some of the more pressing growth issues of the last few years. Instead we have focused on reducing our overall debt. We have cautiously moved forward on building a new Public Safety Building using monies previously appropriated, but we have held back on a new Library and improved Police Facilities. We hope to set aside the money already approved for a new Library in a capital reserve fund. This will allow us to have that money earn interest and still be available for its intended use at the library when the economy recovers.

After much hard work with the Public Safety Building Committee and a public meeting; we have tried to get as much public input as possible, we have settled on a possible new stand alone Fire Station on the Dearborn Property using the design produced by the Public Safety Building Committee.

Our proposed budget for 2010 is down from last year's budget, reflecting the cooperation of your town employees in understanding and shouldering the burden of these tough economic times. The amount to be raised from taxes is down by \$263,635.00. There is no guarantee of lower taxes as we so rudely found out last year. We have no control as to what our Legislature will require of us. Your town employees deserve our heartfelt thanks for their hard work and sacrifice in forgoing pay raises and decreases in benefits to assist us in attempting to hold the line on taxes.

We have contracted a new ambulance service for Tuftonboro. Care Plus Ambulance will have two ambulances; our primary service and a regional standby, located in Tuftonboro at Winner Circle Farm. The changes made at the Transfer Station as well as our enhanced recycling efforts have proven to be well received and have saved the town considerable expense.

We worked with the Town of Wolfeboro through our conservation Commission to monitor the quality of water entering 19 Mile Brook from their RAPID Infiltration Waste Water System. We also worked with the State and others on monitoring and improving water quality in Mirror Lake. Our thanks go out to the Mirror Lake Protective Association for their continued hard work.

The Selectmen negotiated with the New Hampshire Department of Revenue to forgo a full re-evaluation of assessed property values and instead we will have a much less expensive statistical update.

Respectfully submitted,
Daniel J. Duffy, Chairman
Carolyn Sundquist
William L. Stockman
Tuftonboro Board of Selectmen

TOWN OF TUFTONBORO
Annual Town Meeting Minutes
March 11, 2009

At a legal meeting of the inhabitants of the Town of Tuftonboro, County of Carroll, and State of New Hampshire on Tuesday, the tenth day of March, at ten o'clock in the forenoon at the Town House, the meeting was called to order by Moderator Daniel F. Barnard, Jr. The polls were declared open for voting and to remain open until 7:00 PM or until all present that wish to vote have voted.

Ballots were also cast for school officers and for articles on the school warrant, as provided for under the SB2 plan. These ballots were then taken to Wolfeboro to be counted.

Listed below are the results of the town balloting for **Article 1: to choose all necessary Town Officers for the year ensuing:**

Listed below are the results of the town balloting for **Article 2 – Tuftonboro Zoning Amendment.**

2. Are you in favor of the adoption of Section XX: Small Wind Energy Systems as proposed by the Planning Board for the Town Zoning Ordinance?

This amendment allows Small Wind Energy Systems, and adds development standards and related definitions for this use.

On July 11, 2008 the New Hampshire legislature passed HB310, creating a framework for municipalities to regulate the construction of small-scale wind turbines. The law clarifies the obligation municipalities have to encourage renewable energy in a manner that protects the public’s health, safety and welfare. It was also constructed in a flexible manner to allow municipalities to adjust their regulations to meet the individual community’s goals.

YES 499

NO 101

Section XX: Small Wind Energy Systems

20.1 Authority and Purpose

This small wind energy systems ordinance is enacted in accordance with RSA 674:62-66, and the purposes outlined in RSA 672:1-III-a. The purpose of this ordinance is to accommodate small wind energy systems in appropriate locations, while protecting the public’s health, safety and welfare. In addition, this ordinance provides a permitting process for small wind energy systems to ensure compliance with the provisions of the requirements and standards established herein.

20.2 Definitions

20.2.1 Meteorological tower (met tower). A temporary tower which includes the tower, base plate, anchors, guy wires and hardware, anemometers (wind speed indicators), wind direction vanes, booms to hold equipment for anemometers and vanes, data loggers, instrument wiring, and any telemetry devices that are used to monitor or transmit wind speed and wind flow characteristics over a period of time for either instantaneous wind information or to characterize the wind resource at a given location. For the purpose of this ordinance, met towers shall refer only to those whose purpose is to analyze the environmental factors needed to assess the potential to install, construct or erect a small wind energy system.

20.2.2 Modification. Any changes to the small wind energy system that materially alters the size, type or location of the small wind energy system. Like-kind replacements shall not be construed to be a modification.

20.2.3 Net metering. The difference between the electricity supplied to a customer over the electric distribution system and the electricity generated by the customer's small wind energy system that is fed back into the electric distribution system over a billing period.

20.2.4 Power grid. The transmission system, managed by ISO New England, created to balance the supply and demand of electricity for consumers in New England.

20.2.5 Shadow flicker. The visible flicker effect when rotating blades of the wind generator cast shadows on the ground and nearby structures causing a repeating pattern of light and shadow.

20.2.6 Small wind energy system. A wind energy conversion system consisting of a wind generator, a tower, and associated control or conversion electronics, which has a rated capacity of 100 kilowatts or less and will be used primarily for onsite consumption.

20.2.7 System height. The vertical distance from ground level to the tip of the wind generator blade when it is at its highest point.

20.2.8 Tower. The monopole, guyed monopole or lattice structure that supports a wind generator.

20.2.9 Tower height. The height above grade of the fixed portion of the tower, excluding the wind generator.

20.2.10 Wind generator. The blades and associated mechanical and electrical conversion components mounted on top of the tower whose purpose is to convert kinetic energy of the wind into rotational energy used to generate electricity.

20.3 Procedure for Review

20.3.1 Permits. Small wind energy systems and met towers are an accessory use permitted in all zoning districts where structures of any sort are allowed. The installation or modification of a small wind energy system or met tower shall require a building permit from the building inspector and a Conditional Use Permit from the Planning Board. The permits shall be applied for simultaneously. The Planning Board shall prepare a single permit application for this purpose. Met towers shall be permitted on a temporary basis, not to exceed three (3) years from the date of the issuance of the building permit.

20.3.2 Conditional Use Permit. Conditional Use Permit applications shall be processed in accordance with the Town of Tuftonboro Site Plan Review Regulations. Upon the request of the applicant, the Planning Board may grant waivers to its requirements for soils mapping, surface water drainage plans and storm drainage

plans where such plans are not necessary in order to evaluate the application. Applications for a building permit and Conditional Use Permit shall include the following information:

A site plan stamped by a professional engineer or land surveyor, licensed by the State of New Hampshire, showing:

Property lines and physical dimensions of the applicant's property.

Location, dimensions and types of existing major structures on the property.

Location of the proposed small wind energy system, foundations, guy anchors and associated equipment.

Setback requirements as outlined in this ordinance.

The right of way of any public road that is contiguous to the property.

Any overhead utility lines.

Any wetland, marsh, stream, pond or other water body within 150 feet of the tower.

Small wind energy system specifications, including manufacturer, model, rotor diameter, tower height, tower type, nameplate generation capacity.

Small wind energy systems that will be connected to the power grid shall include a copy of the application for interconnection with their electric utility provider.

Tower foundation blueprints or drawings.

Tower blueprints or drawings.

Sound level analysis prepared by the wind generator manufacturer or qualified engineer.

Electrical components in sufficient detail to allow for a determination that the manner of installation conforms to the NH State Building Code.

Evidence of compliance or non-applicability with Federal Aviation Administration requirements.

List of abutters.

Abutter and Regional Notification. In accordance with RSA 674:66, the building inspector shall notify all abutters and the Board of Selectmen by certified mail upon receipt of an application for a building permit to construct a small wind energy system. The public shall be afforded 30 days to submit comments to the building inspector prior to the issuance of a building permit. The building inspector's notice may be mailed concurrently with the Planning Board's notice of its hearing on the Conditional Use Permit.

An application for a small wind energy system shall be reviewed pursuant to RSA 36:56 to determine whether the system will have regional impact as defined in RSA 36:55. If the proposal is determined to have potential regional impacts, the regional planning commission and the affected municipalities shall be notified by certified mail and shall have 30 days to submit comments prior to final action on the applications for a building permit and conditional use permit, as provided in RSA 36:57.

All costs of abutter and regional notifications shall be borne by the applicant.

Standards

20.4.1 Prior to approving an application for a Conditional Use Permit, the Planning Board shall determine that the small wind energy system complies with the following standards:

Setbacks: The setback shall be calculated by multiplying the minimum setback requirement number by the system height and measured from the center of the tower base to property line, public roads, or nearest point of an occupied building. Small wind energy systems must meet all setbacks for structures for the zoning district in which the system is located.

Guy wires used to support the tower are exempt from the small wind energy system setback requirements.

MINIMUM SETBACK REQUIREMENTS

All Buildings on Participating Landowner Property All Buildings on Abutting Properties Property Lines of Abutting Property and Utility Lines Public Roads

0 1.5 1.1 1.5

System: The maximum system height shall be restricted to 35 feet above the tree canopy within 300 feet of the small wind energy system or 150 feet, whichever is less.

Sound Level: The small wind energy system shall not exceed 60 decibels using the A scale (dBA), as measured at the site property line, except during short-term events such as severe wind storms and utility outages.

Shadow Flicker: Small wind energy systems shall be sited in a manner that does not result in significant shadow flicker impacts. Significant shadow flicker is defined as more than 30 hours per year on abutting occupied buildings. The applicant has the burden of proving that the shadow flicker will not have significant adverse impact on neighboring or adjacent uses. Potential shadow flicker will be addressed either through siting or mitigation measures.

Signs: All signs, including flags, streamers and decorative items, both temporary and permanent, are prohibited on the small wind energy system, except for manufacturer identification or appropriate warning signs.

Code Compliance: The small wind energy systems shall comply with all applicable sections of the New Hampshire State Building Code.

Aviation: The small wind energy system shall be built to comply with all applicable Federal Aviation Administration regulations including, but not limited to, 14 C.F.R. part 77, subpart B regarding installations close to airports, and the New Hampshire Aviation regulations including, but not limited to, RSA 422-B and RSA 424.

Visual Impacts: It is inherent that small wind energy systems may pose some visual impacts due to the tower height needed to access wind resources. The purpose of this section is to reduce the visual impacts without restricting the owner's access to the optimal wind resources on the property.

The applicant shall demonstrate through project site planning and proposed mitigation that the small wind energy system's visual impacts will be minimized for surrounding neighbors and the community. This may include, but not be limited to information regarding site selection, wind generator design or appearance, buffering, and screening of ground mounted electrical and control equipment. All electrical conduits shall be underground, except when the financial costs are prohibitive.

The color of the small wind energy system shall either be the stock color from the manufacturer or painted with a non-reflective, unobtrusive color that blends in with the surrounding environment. The owner shall be responsible for maintaining the color of the small wind energy system.

A small wind energy system shall not be artificially lit unless such lighting is required by the Federal Aviation Administration (FAA). If lighting is required, the applicant shall provide a copy of the FAA determination to establish the required markings and/or lights for the small wind energy system.

Approved Wind Generators: The manufacturer and model of the wind generator to be used in the proposed small wind energy system must have been approved by the California Energy Commission or the New York State Energy Research and Development Authority, or a similar list approved by the State of New Hampshire, if available.

Utility Connection: If the proposed small wind energy system is to be connected to the power grid through net metering, it shall adhere to RSA 362-A:9.

Access: The tower shall be designed and installed so as not to provide step bolts or a ladder readily accessible to the public for a minimum height of 8 feet above the ground. All ground-mounted electrical and control equipment shall be labeled and secured to prevent unauthorized access.

Clearing: Clearing of natural vegetation shall be limited to that which is necessary for the construction, operation and maintenance of the small wind energy system and as otherwise prescribed by applicable laws, regulations and ordinances.

Abandonment

20.5.1 At such time that a small wind energy system is scheduled to be abandoned or discontinued, the applicant will notify the building inspector by certified U.S. mail of the proposed date of abandonment or discontinuation of operations.

Upon abandonment or discontinuation of use, the owner shall physically remove the small wind energy systems within 90 days from the date of abandonment or discontinuation of use. This period may be extended at the request of the owner and at the discretion of the building inspector. "Physically remove" shall include, but not be limited to:

- A. Removal of the wind generator and tower and related above-grade structures.
- B. Restoration of the location of the small wind energy system to its natural condition, except that any landscaping, grading or below-grade foundation may remain in its same condition at initiation of abandonment.

In the event that an applicant fails to give such notice, the system shall be considered abandoned or discontinued if the system is out of service for a continuous 12-month period. After the 12 months of inoperability, the building inspector may issue a Notice of Abandonment to the owner of the small wind energy system. The owner shall have the right to respond to the Notice of Abandonment within 30 days from Notice receipt date. After review of the information provided by the owner, the building inspector shall determine if the small wind energy system has been abandoned. If it is determined that the small wind energy system has not been abandoned, the building inspector shall withdraw the Notice of Abandonment and notify the owner of the withdrawal.

If the owner fails to respond to the Notice of Abandonment or if, after review by the building inspector, it is determined that the small wind energy system has been abandoned or discontinued, the owner of the small wind energy system shall remove the wind generator and tower at the owner's sole expense within 3 months of receipt of the Notice of Abandonment. If the owner fails to physically remove the small wind energy systems after the Notice of Abandonment procedure, the building inspector may pursue legal action to have the small wind energy system removed at the owner's expense.

Violation

It is unlawful for any person to construct, install, or operate a small wind energy system or met tower that is not in compliance with this ordinance. Small wind energy systems installed prior to the adoption of this ordinance are exempt from this ordinance except when modifications are proposed to the small wind energy system.

Appeal

In accordance with RSA 674:21 and RSA 676:5, III, appeals of Planning Board decisions on applications for a Conditional Use Permit may be taken to the Superior Court as provided by RSA 677:15.

March 11, 2009 – Tuftonboro Central School

Moderator Daniel F. Barnard, Jr. called the second portion of the 2009 Annual Meeting to order at 7:30 PM. The meeting was opened with a salute to the flag.

The Moderator explained the voting card each voter received when they checked in at the meeting. Non-registered voters were identified by a show of hands. Housekeeping reminders were announced.

Moderator Barnard announced the results of the election of March 10th - 616 townspeople cast ballots, 33 of them by absentee vote. The officers elected stood to be recognized and will be sworn in after the three day waiting period. The meeting then proceeded with the remaining articles of the Town warrant.

3. To see if the Town will vote to raise and appropriate the sum of Two Million Fifty Six Thousand Six Hundred Dollars (\$2,056,600) for the purpose of building and equipping a new library, such sum to be raised through issuance of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33) to authorize the Selectmen to issue and negotiate such bonds and notes and to determine the rate of interest thereon and the maturity and other terms thereof; and authorize the receipt and expenditure of federal grants that may become available for said purpose.

Note: The first payment of approximately \$200,000 (the exact amount to be determined based upon the bond or note terms) to be made in 2010 will be paid from town library savings and trust accounts. The first payment the town will be responsible for will be 2011.

(2/3-ballot vote required)

(Recommended by Selectmen 2-1 and Budget Committee 4-1-2)

A motion was made by Gordon Hunt and seconded by Bill Antonucci. Selectman Carolyn Sundquist addressed the article. The circulation at the library has grown 65% in 5 years and the collection is 37% over design maximum for the building. Current overcrowding compromises resources, services, access & safety. The town is looking to secure a loan with Norway Bank, which does not charge an application fee, no closing costs and no penalty for pre-payment. The Friends of the Library have raised money and plan to pay the 2010 payments, no impact on the taxpayer until 2011. The old library location may be a viable option for the public safety or police facility. Several residents spoke in favor of a new library and a few residents expressed concern about whether this was the best time due to the current economic times and questioned whether a new library was fundamentally needed.

After much discussion, Gordon Hunt made a motion to call the question. The motion was seconded. Voting for this article was by secret ballot. Voters were asked to mark the ballot and place it in the ballot box at the front of the hall. Voting began on this article at 8:18 PM and ended at 9:18 PM. A bond issue requires 2/3 votes. Results of secret ballot voting.

YES 189

NO 125

The Moderator declared this article defeated.

4. To see if the Town will vote to raise and appropriate the sum Forty Two Thousand Nine Hundred Dollars (\$42,900) for the purchase and equipping of a new Police Cruiser.

(Majority vote required) (Recommended by the Selectmen 3-0 and Budget Committee 7-0)

The article was moved by Selectman Bill Stockman and seconded by Bill Marcussen. Selectman Stockman explained the Town is in a cycle of replacing a police cruiser every 2 years. Other vehicles were researched and quotes obtained.

The vehicle is a 4x4 Chevy Tahoe. No further questions or discussion. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

5. To see if the Town will vote to raise and appropriate the sum of Fifty Three Thousand Eight Hundred Sixty Four Dollars (\$53,864) for the purchase of a new Fire Department Vehicle and related equipment.

(Majority vote required) (Recommended by the Selectmen 3-0 and Budget Committee 7-0)

A motion was made by Selectman Dan Duffy and seconded by Caleb Pike. Selectman Duffy addressed the article stating the current fire vehicle is 10 years old and is falling apart. The new vehicle is also a Suburban. No further discussion or questions. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

6. To see if the Town will vote to raise and appropriate the sum of One Hundred Eighty Five Thousand Dollars (\$185,000) for the paving of town roads.

(Majority vote required) (Recommended by the Selectmen 3-0 and Budget Committee 7-0)

The article was moved by Selectman Bill Stockman and seconded by Caleb Pike. The proposed roads to be paved this year include: Bay Road, Chase Point Road, Hurlburt Road and a topcoat on Dame Road. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

7. To see if the Town will vote to raise and appropriate the sum of Twenty Thousand Dollars (\$20,000) for the purchase of a baler for the Transfer Station.

(Majority vote required) (Recommended by the Selectmen 3-0 and Budget

Committee 5-1-1)

A motion was made by Selectman Dan Duffy and seconded by Gordon Hunt. The purchase of another baler will help to expand recycling, making it more efficient and less of a burden on the taxpayers. No discussion or questions. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

8. To see if the Town will vote to raise and appropriate the sum of One Hundred Twenty Six Thousand Fifty Eight Dollars (\$126,058) to make the last 2 payments of the Fire Truck Lease purchase. Of the \$126,058, Seventy five thousand dollars (\$75,000) plus all accrued interest is to be appropriated from the Fire Truck Capital Reserve Fund established for this purpose at the 2003 Annual meeting. The balance of Fifty One Thousand Fifty Eight Dollars (\$51,058) less accrued interest is to be raised from taxes.

(Majority vote required) (Recommended by the Selectmen 3-0 and Budget Committee 7-0)

The article was moved by Selectman Carolyn Sundquist and seconded by John Simms. Selectman explained that this article addressed a lease purchase the Town agreed to for both the fire truck and the loader. The loader was left out the article inadvertently. A motion was made by Gordon Hunt to amend the article to include the words **“and loader”** to the article after the words **“Fire Truck”**. The motion to amend the article was seconded. No discussion or questions. The Moderator asked for a show of hands to vote on the amendment to the article. The amendment to the article was declared passed.

The article now reads **“To see if the Town will vote to raise and appropriate the sum of One Hundred Twenty Six Thousand Fifty Eight Dollars (\$126,058) to make the last 2 payments of the Fire Truck and Loader Lease purchase. Of the \$126,058, Seventy five thousand dollars (\$75,000) plus all accrued interest is to be appropriated from the Fire Truck Capital Reserve Fund established for this purpose at the 2003 Annual meeting. The balance of Fifty One Thousand Fifty Eight Dollars (\$51,058) less accrued interest is to be raised from taxes.**

Gordon Hunt asked the Fire Department what capital expenditures are needed in the future. Chief Adam Thompson stated the current lease is a 7-year lease for a 2005 fire truck – this payment will reduce the interest. The fire department will need to replace Utility 2 next year and the Rescue/Engine down the road. No further discussion or questions. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

9. To see if the Town will vote to raise and appropriate the sum of One Hundred Fifteen thousand Dollars (\$115,000) to make an additional principal payment on the Gould Property.

(Majority vote required) (Recommended by the Selectmen 3-0 and Budget

Committee 6-0)

A motion was made by Selectman Bill Stockman and seconded by Paul Thornton. Selectman Stockman addressed the article. The purchase of the Gould Property was financed by Norway Bank with a 4.25% interest rate. This payment would shorten the length of the loan from July of 2012 to July 2011 and save on interest. No questions or discussion. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

10. To see if the Town will establish a Revolving Fund pursuant to RSA 31:95-h, for funding Police Special Details. All revenues received for Police Special Details will be deposited into the fund and the money in the fund shall be allowed to accumulate from year to year and shall not be considered part of the Town's General Fund, Unreserved Fund Balance. The Town Treasurer shall have custody of all moneys in the fund and shall pay out the same only upon order of the Board of Selectmen and no further approval is required by the Town Meeting to expend. Such funds may be expended only for the purpose for which the fund was created. To establish said fund, One Thousand Dollars (\$1,000.00) will be transferred from the 2009 Police Department operating budget.

(Majority vote required) (Recommended by the Selectman 3-0)

The article was moved by Selectman Dan Duffy and seconded. Selectman Duffy asked Police Chief Andrew Shagoury to address the article. Chief Shagoury explained that by establishing this fund, money would be on hand to handle any special details, which are needed such as construction details or special events. Officers will be paid by the fund and special detail money will be deposited into the fund. This will eliminate the Town having to raise and appropriate special detail money every year whether it is needed or not. Paul Thornton asked what is included in the special detail costs. Chief Shagoury explained there is a set rate for the car and for the officer's time. No further questions or discussion. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

11. To see if the Town will vote to establish an Agricultural Commission as permitted by RSA 674:44-e. The Agriculture Commission will consist of 7 members with 5 alternates. The members will be appointed by the board of selectmen, and the alternates will be appointed by the board of selectmen who may consider the recommendation of the Agricultural Commission. One Agricultural Commission member may be a member of the board of selectman. One Agricultural Commission member may be a member of the planning board. The members and alternates shall be appointed to staggered 3 year terms, with the initial appointments to be for 1, 2, and 3 year term for members and alternates. All Agricultural Commission members and alternates shall be residents of Tuftonboro and may also serve on other boards and commissions.

(Majority vote required)

A motion was made by Selectman Bill Stockman and seconded by Tony Lyon. Selectman Stockman asked Tony Lyon to address the article. Mr. Lyon explained the Town currently has an active Agricultural Committee and would like to make the Committee into a Commission. The establishment of an Agricultural Commission was a goal of the Master Plan and the group has been busy this past year with the development of the community garden, Town wide yard sale, seed swap and making wreaths for the Town Office. Bill Rollins said he was confused why the Committee can't stay a Committee and has to change to a Commission. Would the Agricultural Commission be in charge of something? Tony Lyon said they would not be in charge of anything, just that a Commission is longer lasting. No further questions or discussion. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

12. To see if the town will vote to adopt the provisions of NH RSA 72:62, which provides for a property tax exemption from the assessed value for property tax purposes, for persons owning real property equipped with a solar energy system, as defined in RSA 72:61. Such exemption can be claimed for 15 years for the actual cost of the system, or \$20,000.00, whichever is less. For clarification purposes, this article replaces the article for such exemptions approved at Town Meeting in 1980.

(Majority vote required)

The article was moved by Selectman Carolyn Sundquist and seconded. Selectman Sundquist stated that the article was intended to encourage the use of alternative energy, helping to make it an affordable option. Currently solar energy systems have no separate assessed value. Selectman Sundquist thanked John Ratcliffe for all of his work on both the solar and wind exemption articles. A motion was made by Mike Phelps to amend the article by eliminating the "*or \$20,000*" from the article. Gary Chehames seconded the motion. The Moderator asked for any questions or comments about the amendment. Paul Thornton expressed he thought it was foolish to remove the cost limit. This can always be amended in the future. Sue Weeks asked for clarification about how the exemption was calculated. David Wiley stated it was easier to monitor a fixed amount. No further discussion or questions on the amendment. The Moderator asked for a show of hands to vote on the amendment to the article. The Moderator declared the amendment to the article defeated.

Harry Liedtke asked why others in Town should have to pay for a system if he chooses to install it. Others stated that rebates are offered by the electric utility and federal stimulus money may be available for alternate energy systems. No further discussion or questions on the article. The Moderator asked for a show of hands to vote on the article and the article was defeated.

13. To see if the town will vote to adopt the provisions of NH RSA 72:66, which provides for a property tax exemption from the assessed value for property tax purposes, for persons owning real property equipped with a wind-powered energy system, as defined in RSA 72:65. Such exemption can be claimed for 15 years for the actual cost of the system, or \$20,000.00, whichever is less.

(Majority vote required)

A motion was made by Selectman Carolyn Sundquist and seconded by Mike Phelps. Selectman Sundquist stated this article has the same purpose as the previous article. No discussion or questions. The Moderator asked for a show of hands to vote on the article and the article was defeated.

14. **By Petition: To see if the Town will vote to adopt the "Optional Veterans Tax Credit" pursuant to the provisions of RSA 72:28, II, in the amount of Five Hundred (\$500). The optional Veteran's Tax Credit shall replace the existing Optional Veteran's Credit in the amount of Two Hundred Fifty Dollars (\$250) in its entirety and shall not be in addition thereto.**

(Majority vote required)

The article was moved by Bill Rollins and seconded by Paul Thornton. The Selectmen were asked if all three of them were in favor of the article. All three Selectmen stated they were in favor of the article. Selectman Duffy stated he felt we should support our veteran's. No questions or discussion. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

15. **To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same the sum of Two Million Eight Hundred Sixty Three Thousand Six Hundred Ninety Five Dollars (\$2,863,695). This article does not include any special or individual warrant articles.**

(Majority vote required) (Budget Committee 7-0)

A motion was made by Selectman Bill Stockman and seconded by Helen Whall. Joe Kowalski expressed concern about four full-time attendants at the Transfer Station/Recycling Center plus their benefits. He does not feel 4 full-time people are needed. Mr. Kowalski made a motion to amend the article by "**reducing the operating budget by \$32,482.00**", which is the salary of one full-time person at the Center. Selectman Stockman explained that the Town is in a period of transition at the Center. Sue Weeks said she felt hiring a part-time person would have been better. A motion was made and seconded to call the question. The Moderator asked for a show of hands to vote on the amendment to the article. The amendment was defeated.

Tuftonboro Head Swim Instructor Mary Ann Murray spoke and made a motion to amend the article by "**adding \$3,000**" for the lifeguards at the Town Beach. Susan

Ahearn seconded the motion. Ms. Murray said her original budget included \$3,000 more for lifeguards so the beach could be staffed with 2 lifeguards for 300 hours but the budget committee cut the budget by \$3,000 citing the need for only one lifeguard on duty at a time. Only having one lifeguard on duty at a time was a concern to Ms. Murray and others at the meeting. The Moderator asked for a show of hands to vote on the amendment to the article. The amendment was passed.

The article now reads **“To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same the sum of Two Million Eight Hundred Sixty Six Thousand Six Hundred Ninety Five Dollars (\$2,866,695). This article does not include any special or individual warrant articles.”**

John Simms expressed concern about the Towns health insurance costs and suggested a Committee to look into this issue. Selectman Sundquist explained she has researched this issue and this year the Town moved to a less costly health insurance plan. Selectman Sundquist stated other towns offer their employees, not only health & dental, but long and short-term disability and life insurance, benefits Tuftonboro does not offer.

No further questions or discussion. The Moderator asked for a show of hands to vote on the article. The article was declared passed.

16. To transact any other business that may legally come before this meeting.

County Commissioner Chip Albee updated the Town on what is happening at the County level. The Commissioners are looking for input on public transportation in Carroll County and use of Carroll County jail inmates for projects in Towns. He encouraged residents to attend meetings of the Commissioners every Wednesday at 8:15 AM.

School Board representative Jack Widmer reported the official results of the school district election. The renovations to Kingswood Middle/Senior High School & Vocational Center passed by a 74.4% vote. Articles 3 & 4 (roof replacement & repairs/improvements buildings & grounds) were also passed.

Bob Theve of the Tuftonboro Association announced the 5th annual Roadside cleanup day would be held this year on Saturday, April 25th from 8:00 AM – 12:00 PM. The event will be the same as in years past. A sign up sheet is available at the Town Offices.

A motion was made and seconded to adjourn the meeting. The meeting was adjourned at 10:03 PM. There were approximately 314 people in attendance.

Respectfully submitted,
Heather Cubeddu
Town Clerk

State of New Hampshire
Department of Revenue Administration

Part X SUPPLEMENTAL INFORMATION WORKSHEET

A. INTERGOVERNMENTAL EXPENDITURES

Report payments made to the State or other local governments on reimbursement or cost-sharing basis. Do not include these expenditures in part VIII.

Purpose (a)	Account No. (b)	Amount paid to other local governments (c)
Schools		\$ -
Sewers		-
All other-County	4931	-
All other - Towns	4199	-
Purpose (a)	Account No. (b)	Amount paid to the State (c)
Highways	4319	-
All other purposes	4199	-

B. DEBT OUTSTANDING, ISSUED, AND RETIRED

Long-term debt purpose (a)	Bonds outstanding at the beginning of this fiscal year (b)	Bonds during this fiscal year		Outstanding at the end of this fiscal year	
		Issued (c)	Retired (d)	General obligations (e)	Revenue bonds (f)
Water sewer utility	-			-	-
Industrial revenue	-				-
All other debt	-			-	-
Education	-			-	-
Interest on water debt	-				

C. SALARIES AND WAGES

Report here the total salaries and wages paid to all employees of your city before deductions for social security, retirement, etc. Include also salaries and wages paid to employees of any utility owned and operated by your government, as well as salaries and wages of city employees charged to construction projects. These amounts may be taken from the W3 form filed by your government for the year ended December 31.

Total wages paid
\$ 757,821

D. CASH AND INVESTMENTS HELD AT END OF FISCAL YEAR

Report separately for each of the three types of funds listed below, the total amount of cash on hand and on deposit and investments in Federal Government, Federal agency, State and local government, and non-governmental securities. Report all investments at par value. Include in the sinking fund total any mortgages and notes receivable held as offsets to housing and industrial financing loans. Exclude accounts receivable, value of real property, and all non-security assets.

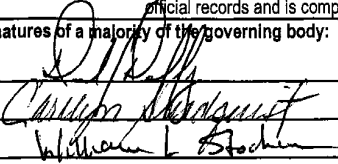

Type of fund (a)	Amount at end of fiscal year Omit cents (b)
Bond funds - Unexpected proceeds from sale of bond issues held pending disbursement	-
All other funds except employee retirement funds	-

Remarks

Part XI CERTIFICATION

This is to certify that the information contained in this report was taken from official records and is complete to the best of our knowledge and belief.

Signatures of a majority of the governing body:

GENERAL INSTRUCTIONS

Three copies of this report are sent to each municipality. Selectmen, treasurer and tax collector are expected to cooperate in making out this report. When completed, one copy should be returned to the Department of Revenue Administration and one copy should be placed in your municipal records. The third copy is for use in preparing the annual printed report for the voters. **Please be sure you have completed Part X, items A-D.**

WHEN TO FILE: (RSA 21-J:34,V) For cities/towns reporting on a calendar year basis, this report must be filed on or before April 1.

For cities/towns reporting on an optional fiscal year basis (year ending June 30), this report must be filed on or before September 1.

WHERE TO FILE

Department of Revenue Administration
State of New Hampshire
Municipal Services Division
PO Box 487
Concord, NH 03302-0487

HIGHWAY DEPARTMENT

With the first full year as the Road Agent behind me, I feel that 2009 went pretty well.

The winter season came and went without any major issues. The accident count was down from previous years and I have received lots of positive feedback on the condition of the roads.

Some road improvements were completed this past year. A portion of Federal Corner Road was widened at the dirt section, so that two vehicles are able to pass safely which was a hazardous blind hill. The top of Phineas Graves Road was also widened and proper drainage was installed. Paving was done on Dame Road, Cross Neck Road and Hurlburt Way.

I have learned a lot since becoming the Road Agent and hope to do even better in 2010. I would like to thank the townspeople for their support and welcome any comments, assistance and advice to help keep Tuftonboro roads in first class condition.

Respectfully submitted,
James Bean, Road Agent

POLICE DEPARTMENT ANNUAL REPORT 2009

I am pleased to submit my report for 2009. With our report is the Incident Based Reporting offenses and activity for 2009. Some types of offenses that had increases were sexual assaults, drug offenses and credit card fraud. These cases take significant amounts of time to investigate. We also experienced a dramatic increase in arrests from 28 to 58. Many of these were officer initiated through traffic stops or accident investigations. The increase in arrests also caused an increase in court time for officers. Despite the increased demands on our time, our motor vehicle activity increased from 2008.

The abuse of prescription drugs is a significant problem throughout the State of New Hampshire. We are not immune. In 2009 there was an increase in drug related offenses. The most serious was death caused by overdose. This case led to a significant amount of time working with other agencies investigating the source which we found was in another state. There have been some new programs that opened up in Carroll County to help treat addiction. There is also a Restorative Justice Center in Carroll County to help deal with juveniles and other minor offenders.

This year we had four full-time officers for entire year. We also have one part-time officer to help fill shifts and augment our coverage. Our most recent hire, Officer Karl Koch has completed his probationary period and has worked the year on his own. That has been a significant help.

Ongoing issues with our facility still need to be addressed. In 2009, the latest *Public Safety Facilities Committee* issued a report recommending a new combined police and fire public safety facility. This is the latest study making such a recommendation. Hopefully we can find a way forward to resolving and addressing the space and accessibility needs of the departments so all citizens can be served in an efficient manner.

We wish to thank the Town and citizens for their continuing support. We look forward to serving and working with you.

Respectfully submitted,
Chief Andrew Shagoury

TUFTONBORO FIRE RESCUE REPORT 2009

In 2009 the Tuftonboro Fire Rescue Department responded to 149 emergency medical calls, 26 service calls, 10 special details and, 131 fire related incidents for a total of 316 calls. The Department also conducted a total of 67 Inspections.

Officers of the Tufonboro Fire Rescue Department are:

Chief Adam Thompson
 Deputy Chief Richard Piper
 Captain Ernest Gagne
 Captain Kyle Joseph
 Lt. Frank Tranchita
 Lt. Caleb Pike

Department Apparatus includes:

Melvin Village Station- Engine 2, utility 1, Boat 3, Boat 2 (Air Boat), ATV and trailer, Rescue sled
 Mirror Lake- Engine 4, Rescue 1, Utility 2, Emergency Management Generator
 Winners Circle Farm- Engine 1
 Pier 19 (Summer Months) - Boat 1

The Tufonboro Fire Rescue Department continues to conduct trainings and meetings every Thursday of the month. Business meetings are held on the second Thursday and EMS Training is conducted the third Thursday of each month. Department members collectively attended over 3,400 hours of training for the year. The training included but was not limited to EMT and advanced EMT classes, live fire training, high angle ropes classes, cold water rescue training and many more topics. All the members show great enthusiasm and I would like to thank them and their loved ones for all their sacrifices they make to help their neighbors. Department members continue to teach CPR classes to the community and other Town Departments. Any group that would like learn these potentially lifesaving skills should feel free to contact the Department for more information. Department members enjoyed their annual visit with the students at Tufonboro Central School in October. They would like to again thank the students and staff for the attention and their help in spreading fire safety throughout the community.

The downward trend in emergency calls continued in 2009 for Tuftonboro. Once again I feel this shows a lot of hard work by our town's people to ensure they are responsible when they burn outside, keep their chimney's and furnaces clean. The town was also fortunate not have any major storm events this past year. These reasons as well as a little luck all played a role in the decrease of emergency calls. The demands of the Department continue to grow however as our role in the community has been evolving to include; pandemic planning, helping with flu clinics, preparing for H1N1 outbreaks, water resource mapping, working to achieve a better ISO rating, (this is a rating that some insurance companies use in their formula for establishing premiums for home owners insurance.) emergency management planning, life safety inspections, public education, as well as supporting other town departments in various capacities, just to name a few. The Department remains vigilant in its preparation for emergencies because this trend could change at any time. We never know when a call will come or what that call will bring. The demand for emergency services is increasing nationwide and it is only a matter of time before our own calls for service increase again. We look forward to serving the community in 2010 and beyond.

The Fire Rescue Department continues to feel strongly that a new station needs to be built as soon as possible. The new station would not replace the existing stations but would be in addition to them. By building a third station near the geographical center of town we feel that not only would we gain much needed space, a modern, safe work environment but ultimately the response times to emergencies would be decreased for that area of town. The Department concluded working with the last public safety building committee in the summer of 2009. This was a great experience and we feel a viable solution for our needs was reached with their hard work and dedication. Copies of the committees report and conceptual plans can be seen at the town hall. The report can be seen on the town's web site. I would like to thank the committee once again for their efforts and hard work. I would like ask the citizens for their support when this vital project comes before them in the future.

The Fire Rescue Department is pleased with the new command vehicle that was placed into service in mid December. Although the voters approved the purchase at the March town meeting the project was delayed due to auto manufactures inability to produce vehicles. The new vehicle came out very well and was ultimately worth the wait. It continues to be the most widely used vehicle and will provide years of service.

The Firefighters Association continues to sell reflective house numbers for \$15.00. The program has been a huge success. The numbers that are out there have aided us in finding numerous houses that needed our services. There is still room for improvement, so if you would like to participate in the program please contact the Department or a Member for more information. Thank you to everyone that has put up a sign, you may have helped save a life.

2009 brought many new challenges to the Department. Although some were more challenging than others they were all very educational and helped the Department grow. We look forward to serving the community in 2010. As always we appreciate your input and listening to any concerns or questions you may have. So I encourage you to stop by or call. We can't address your questions or concerns if we do not hear them. Our Office hours at Mirror Lake are Monday thru Friday 8:00am to 5:00pm. The phone number is 569-3381. Please call ahead, we may be out of the office for an emergency or other Department business. Feel free to stop by one of the stations if members are around to visit.

Respectively submitted,
Adam L. Thompson, Chief

EMERGENCY MANAGEMENT REPORT FOR 2009

The Town of Tuftonboro luckily saw minimum severe storm activity throughout the year. This was very unusual for the town but a welcomed relief for some of the areas that are prone to storm damage. The Emergency Management Department continues to plan for any emergencies that may arise. More safety road signs, liners for cots and cones have been put in place in the event that a town wide event occurs. The Tuftonboro Central School remains the emergency shelter for the town as well as acting as the All Health Hazard Region Eight Pod (point of distribution for medications) for the State of New Hampshire. Several H1N1 flu clinics have been held there. Planning continues for when a major pandemic may occur.

Although the Emergency Operations Center (EOC) at the Town Hall was not activated this past year, it still has to be ready to serve in that capacity. Several shortfalls have been identified when it was activated. One of which was the lack of emergency power. The current generator at the Town Hall is an 11kw gasoline powered portable generator, which cannot be set up to cycle on automatically. The existing switching gear that changes from main power to emergency power are at capacity so cannot be expanded. Currently the heat, some lights, phones, and one outlet in the selectman's meeting room are powered by the generator. The outlet powers the phone but the radio has to plug into the generator via extension cord. The digital radio is very sensitive to voltage and malfunctions if a consistent supply of power is not provided. I have been working with the Capital Improvement Committee to fund a larger automated generator that would run the entire Town Hall. It was determined that 2010 was the year that this project should be funded to fit into the capital capacity of the town. The Selectmen have made the choice to not include the project on this year's warrant. I am sure the \$27,500.00 cost of the project and the size of the generator may have played a role in their decision. The size of the generator and applicable switches was determined by a licensed electrician who based his calculations on running the entire building including the Police Department and all town offices. Also, consideration was given to a future expansion of the building. It would cost more now but could potentially save money if a larger generator had to be purchased in the future if an expansion of the building is ever done. I feel this project is definitely needed. I would not only provide the EOC with the needed power to run efficiently but it would also enable the town offices/Police Department to remain fully operational in the event of a major power outage.

Overall, the Selectmen and citizens continue to show great support of Emergency Management and I appreciate them for it. Hopefully 2010 will be as safe as 2009 and the implementation of the Town's Emergency Plan won't happen. If it does, we are prepared to put it to use and mitigate any emergency situation as smoothly as possible.

Respectively submitted,
Adam L. Thompson
Emergency Management Director

REPORT OF FOREST FIRE WARDEN AND STATE FOREST RANGER

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. Under State law (RSA 227-L:17) a fire permit is required for all outside burning unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at www.nhdf.org.

Spring fire season was unusually short this past year, with wet weather beginning the third week in April and lasting virtually all summer long. Consequently both the number of fires and the number of acres burned were below the last five year average. Due to state budget constraints, the staffing of our statewide system of 16 fire lookout towers was limited to class III or higher fire danger days. Despite the reduction in the number of days staffed, our fire lookout towers are credited with keeping most fires small and saving several structures this season due to their quick and accurate spotting capabilities. The towers fire spotting capability was supplemented this year by contracted aircraft and the Civil Air Patrol when fire danger was especially high. Surprisingly the largest single fire this year occurred in the northern Coos County town of Clarksville in late November during an unusual dry spell. This fire burned 17.1 acres and is presumed to have been caused by a careless hunter. Many homes in New Hampshire are located in the wildland urban interface, which is the area where homes and flammable wildland fuels intermix. Several of the fires during 2008 season threatened structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

TRANSFER STATION 2009

2009 saw many changes at the Transfer Station. Scott Greenwood has moved to the Moultonboro Station and Harry McGee has retired. Michele Cole, Ralph Mitchell and Michael Hlushuk were added to our staff this summer and fit in wonderfully with our team. Our swap shop was opened this year and was a huge success. A new 40' trailer is on the way to replace our smaller trailer so it can be open year round in 2010. Volunteers will be needed to make this a success. If you have some free time to donate, see one of our staff to let us know when you would be available. I would like to thank our volunteers who helped us this year; Paul Kelleher, Jane Wilson, Dick O'Shaughnessy and Don Ditillio.

With the addition of a new bailer this year our recycling abilities expanded. We now bail aluminum & steel cans to add to our cardboard shipments. Pricing has fluctuated this year. Our total revenue went up to over \$40,000 this year which was a significant increase over last year. Recycling keeps our solid waste costs down, which lowers our budget requirements to run the Transfer Station. Keep up the good work and recycle when you can.

Respectfully submitted,
Fred Sargent, Supervisor
Darren Medeiros
Michele Cole
Ralph Mitchell
Michael Hlushuk

TOWN OF TUFTONBORO

PARKS AND RECREATION COMMISSION

Annual Report 2009

The eight member Parks and Recreation Commission met thirteen times during 2009. The following is a report of major projects and undertakings.

Parks and Recreation owns new and gently used adult and child snowshoes, which are stored at the Tuftonboro Library and which can be “checked out” for two days at a time. The 2007 Vegetables for Charity money was used to purchase four child and two adult pair of snowshoes that were ready for use at the beginning of 2009.

Super Bowl Sunday, Feb. 1, the 2009 Ski for Scholarship event was held. This year, in hopes of increasing the number of participants, the focus was again on Family and Friends. Sadly, there were only five skiers and four snowshoers who participated in one or two laps of the 1.7 mile loop at Spider Web Gardens. A total of \$360 was raised for the Tuftonboro Scholarship Fund. For a variety of reasons, a different approach will be tried during 2010, combining the fundraiser with the annual snowshoe event, this year projected to be held on March 14.

The second Tailgate Snowshoe Party was held on a gorgeous, sunny March 8 at the Gould Lot, with 24 adults and children participating in the 1 ¼ mile snow hike. P&R is grateful to the TCS physical education program for allowing P&R to borrow enough student snowshoes for all who needed loaners. Hot chocolate and sweet treats were served from the tailgate following the hike.

Spring came and miscellaneous work was accomplished at Davis Field, the TCS playground, and the Gould Lot. The large bushes at the edge of the field across from the TCS entrance were cut down because they attracted so many bees that students were frequently being stung. These bushes also obstructed the view of recess from the main office because they had grown so large. Those areas are now filled in with loam and grass seed. In addition, new sand was delivered to the baseball diamond and spread with the help of a number of TCS 5th graders. The TCS playground, constructed during 5/94, is starting to show its age. The deck off the gangplank of the back sliding area had separated, and the long straight slide had a hole in it, appearing to be the result of misuse. After considerable effort on the part of a P&R member, the original company was located and a new slide and deck were ordered

through a distributor. These parts arrived just before Christmas and will be set up in the spring. Finally, a second trail at the Gould Lot was finished and is now blazed with a red diamond "T", complementing the original trail that has the blue diamond "T".

During late spring, the TCS Healthy Boys group, totaling 26, and the Healthy Girls group, totaling 20, utilized the Gould trails for hiking. Because so many students have walked and snowshoed these trails over the past two years, P&R solicited assistance from TCS students and staff in giving the Gould Lot an official name. Sixty-seven suggestions were submitted as potential names. The most popular entries were voted on by the Parks and Rec Commissioners, with Tuftonboro Central Park coming out as the winner. Therefore, the Gould Lot is now known as Tuftonboro Central Park.

For the first time ever, a lifeguard program became a reality for Tuftonboro. The Parks and Recreation Commission is grateful to those town residents who, at the March 2009 town meeting, agreed that for safety purposes two lifeguards should be on duty at the same time, and therefore voted in the extra money to allow this to happen. As a result, two lifeguards were on duty at Nineteen Mile Beach during those times that were projected to be busiest at the beach. At the end of the summer, the swim director had received a significant amount of positive feedback from parents about our first year lifeguard program.

Similar to the previous year, swim registrations were down again from those of years past, however, the program still went well. Since summer didn't arrive until close to August, much credit goes to those swimmers who, along with their instructors and coaches, endured clouds, wind, waves, 60 degree temperatures and rain to complete their swim lessons and swim team responsibilities. The only occasional day of sun for those first three weeks of July finally turned into a typical week of summer weather the last week of July, also the last week of the program. Students in this summer's swimming lessons faced more of a challenge for passing their levels due to the revamping of the Red Cross criteria for level completion. In addition, Level One, previously focused on water adjustment, now requires students to already be comfortable in the water. Preschool Levels 1,2,3 were added prior to that level and focus on adjustment to the water for children who are ages 3,4,5.

The Swim for Scholarship happened on July 20, with five swimmers raising \$328 for the Tuftonboro Scholarship Fund. There was a discussion on how to enhance this community service event for next summer, including ways to involve the swim team.

Miscellaneous work at the beach included re-staining the storage box and repainting the pavilion support posts. Broken picnic tables were removed and replaced with three new ones. Thanks to a letter of environmental concern from a young swimmer, the beach also became a site for recycling as two new bins were in place mid-July for plastic and can collections.

Two young men carried out Lake Host duties at Pier Nineteen boat launch for Saturday and Sunday morning and evening shifts from July through Labor Day.

Signs for Copp's Pond Wildlife Viewing Station and Tuftonboro Central Park are completed and will be set up in the spring. Fall work parties occurred at both locations to clear debris and continue marking the trails. In addition, a trail system has been developed on Tuftonboro Neck through the efforts of a group of "Tuftonboro Neckers". This trail is called Kate's Trail and stretches from Eaglemere to Cross Neck Road, passing over the Kate Nesbit property.

Lastly, P&R member Betsy McCarthy resigned during the year. The Commission is grateful for her membership and participation over the years. Three open slots need to be filled and a number of parents have expressed interest, however, are unable to join due to conflicts with family or work commitments.

Respectfully submitted,
Parks and Recreation Commissioners

TOWN OF TUFTONBORO SWIM PROGRAM REPORT 2009

The Swim Program began the week of June 29, 2009 with pre-season practice and registration during the practice from 9-10 AM. Many registrations were received by mail and directly at the beach through the Town web site and additional registration times were offered on Friday, July 3. Lessons began on Monday July 6 and continued through July 30. The instructors were Amanda and Natasha Moody, Mary Ann Murray, Kathy Roseen and Erik Sager all returning from last year. The registration numbers were slightly off from 2008 and reflected a general trend throughout the Lakes Region. The weather was very poor for the first three weeks of the program with cold and rain prevailing. Two days were canceled, totally, due to temperatures of 58 degrees. The last week provided much more conducive weather for swimming and there was a noticeable improvement in the youngsters' skills. Many youngsters will remain at their current swimming levels next year due to two factors, the inclement weather and a change in the Red Cross Swim levels. The levels were changed and many new and more difficult skills were added to some levels. The program closed with regular lessons on July 30th followed by an hour of fun and games after both the morning and afternoon lesson sessions. Popsicle treats were enjoyed by all the youngsters. The change in the closing program was made because of the number of days missed due to the poor weather.

The Tuftonboro Torpedoes Swim Team was very successful and the numbers of swimmers remained consistent with last year. Thirty-one swimmers participated in three meets. Two of the meets were with a much smaller Meredith Team and the third was with the Swampscott Beach Club. The Beach Club Meet had to be postponed due to predicted thunderstorms in Swampscott. The meet went very well and the weather held off until after the last event. The Torpedoes showed their strength in the older age groups and the younger swimmers had many personal best. All the swimmers enjoyed swimming in the pool, using the slide and diving board as well as taking a dip in the ocean even though the rain had begun to come down heavily.

The first year of the Lifeguard program went very well. There were two complaints and many compliments. Three training sessions during the season were offered to the guards, general information, review of backboard procedure and CPR and AED for the Professional Rescuer. The two issues that arose were the storm policy and the area of responsibility for the Lifeguards. The storm policy is clear in the Policy and Procedure Manual and is a National Standard. As soon as lightning

is seen or thunder heard, the water shall be cleared until there is no further thunder or lightening for a period of 30 consecutive minutes. The second issue was with regard to the area of responsibility of the Lifeguards. During the final day of swim lessons, it was brought to my attention that several youngsters were fishing from the water side of the bridge on a small ledge. The guards asked if I felt that was safe and should they address the issue. I asked them to tell the youngsters to fish from behind the railing to prevent any of them from falling from the bridge into the shallow water. This request was consistent with the national model of preventive lifeguarding, whereby the lifeguard recognizes the dangerous situation and corrects it before an accident happens. Later that evening at the Selectmen's meeting one parent appeared and brought the issue up. The Selectmen determined that fishing from the water side of the bridge was acceptable and outside the area of the Lifeguard's responsibility. Chairman of the Board of Selectmen, Dan Duffy called me and we discussed this matter. I informed him that the lifeguards would certainly respond if there ever was an accident from the bridge and/or outside the enclosed swimming area, but the Lifeguards would not speak to the people fishing or swimming outside the marked swimming area. The Policy and Procedure manual will be amended to reflect this determination. The Lifeguards that were hired and worked from 12-5 PM everyday were Connor Houghton, Amy Karewa, Amanda Moody, Dennis Page and Erik Sager. The hours of operation seemed to be consistent with the heaviest usage of the beach and should be continued next year.

The recommendations for next year would be to offer an afternoon session of level 6 and some preschool aquatics and level 1 and 2 classes at Melvin Beach. The Lifeguards should continue under the same schedule as this year adding a training session every week as well as daily 500 yard swims for each guard on duty. A lifeguard chair should be included in this year's budget.

The parents and youngsters are to be commended for their cooperation and as always it has been a pleasure to work with the Board of Selectmen and their cooperation and consideration is most appreciated.

Respectfully submitted,
Mary Ann Murray

TUFTONBORO

CAPITAL IMPROVEMENTS PROGRAM COMMITTEE

Your CIP Committee presented its 2009 advisory report on Tuftonboro's future Capital Projects to the Board of Selectmen on Monday, October 5th of 2009. This report covered all projects in excess of \$10,000 with a useful life of at least two years, and brings together the next ten years of forward planning by all Departments and Committees in town. The full report is available on-line at the Tuftonboro website, at the Library and at the Town Office.

We had identified several Capital Projects for the Selectmen to consider presenting to the voters at the 2010 Town Meeting in the form of Warrant Articles. These were:

- * An Emergency Generator at the Town Office complex
- * A Capital Reserve for establishing water cisterns in the drier parts of Tuftonboro
- * Town Reassessment
- * Gould Property loan payment
- * 'Paving' Warrant Article
- * Specified Highway Projects
- * A Capital Reserve for replacing Police vehicles
- * A glass crusher for the Transfer Station
- * A new Fire Station

This last item reflected the decision by the Board of Selectmen that the sequence for major infrastructure projects is to be a new Fire Station first, followed, in an order to be decided later, by the Library and Police Department. The CIP report proposed that the voters commit \$200,000 in 2010 to the new Fire Station even if the engineering work is insufficiently advanced to present the full project for voter approval.

The total 2010 expense for Capital Projects proposed by the CIP Committee was \$565,000. This is \$199,000 below the Capital Capacity of Tuftonboro. The CIP Committee felt that capital expenses for 2010 should be kept low since we were informed that the Town was anticipating a reduction in revenue in 2010 greater than the potential reduction in expenses.

The CIP Committee had assumed that the town tax rate for 2010 would be relatively unchanged from the rate for 2009. However, after submitting the CIP report to the Board of Selectmen, the State set our 2010 town tax rate at \$2.52/\$1000, an increase of 33% over 2009's number. If this information had been available to the CIP Committee earlier, we might have generated a more limited proposal. As it happened, the Selectmen adopted a more conservative posture, with

the total cost of the Warrant Articles presented this year for consideration by the Town being even less than proposed in the CIP report.

In particular, several projects proposed by the CIP Committee were set aside, most notably the \$200,000 into a Capital Reserve for the Fire Station. The Selectmen also decided not to propose Capital Projects for the emergency generator, water cisterns, specified highway projects and police vehicles. The project to replace the glass crusher was changed to the purchase of containers. The one increase was for assessing, an item mandated by the State and beyond the control of the Board of Selectmen. Coupled with the decision not to fund a Capital Reserve for the new Fire Station, the Selectmen recommended accelerating the last Gould Property payment in order to prepare for the Fire Station next year.

In addition to Tuftonboro's Capital Projects, the CIP Committee also gathers information about Capital Projects beyond the direct control of Tuftonboro's Board of Selectmen. The Governor Wentworth Regional School District is planning a major construction program in Wolfeboro, starting this fall. Tuftonboro's share of this will be \$130,000 in 2010, rising to about \$500,000 per year for the next several years. In addition, Carroll County will build a new nursing home at a total cost of \$23 million. Tuftonboro's share of this project will be about \$140,000 per year. The third major obligation will be triggered by the probable return of "Donor Town Tax", conservatively projected to be an annual payment by Tuftonboro of \$1 million, starting in 2011. The projected impact on future tax rates of all these elements is given on the last page of the full CIP report. Please adjust these projections with the latest data on our Town tax rate.

The CIP report is advisory and the Selectmen use it as one of several inputs for laying out the budget for the Town. The CIP Committee thanks you the voters, the Department Heads, the Budget Committee and the Selectmen for their support, their cooperation and their use of the information in the report. We are privileged to serve the people of Tuftonboro.

I also wish to thank the other members of the CIP Committee (Christie Sarles, Ellen Laase, Vicki Kinnaman, Lloyd Wood, Erin Donnelly, Terry Smith and Bill Stockman) for their hard work and dedication leading to another fine report.

Respectfully submitted,
John Simms, Chair.

TUFTONBORO CONSERVATION COMMISSION

The Tuftonboro Conservation Commission (TCC) has had a busy and productive year. Regular recurring activities include the preliminary review and processing of numerous NHDES Wetlands Division applications from Tuftonboro residents, facilitating the placement of conservation easements, attendance of professional presentations and conferences that support conservation and preservation efforts in Hew Hampshire, and monitoring the environmental health of lakes and waterways.

The Wetlands Division applications we review all involve a site visit by one of our commissioners, and when necessary, the preparation of field notes and recommendations.

We researched and developed a conservation easement document, which will become the model for all conservation easements that are sometimes proposed in conjunction with subdivision applications. The model will be the beginning point for reaching agreement on conservation easements in such situations that will be appropriate for the town and its residents.

One of the conferences that we always attend is the annual New Hampshire Association of Conservation Commissions where we can obtain the latest guidance that is mandated by the DES and important information which is offered by other agencies and groups that promote conservation and preservation interests. Another, the Water/Watershed Conference, was attended to begin understanding and implementing the use of GPS devices.

An important part of the TCC work is monitoring water quality in Lake Winnepesaukee and Mirror Lake. We fully appreciate the work of all the volunteers that take the water samples and deliver them to a UNH laboratory for testing. The increased number of samples taken in Mirror Lake in 2009 has shown an improvement over 2008 quality.

This year was an active one in monitoring the Wolfeboro Wastewater Treatment Plant (WWTP) Rapid Infiltration Disposal System (RWIDS). Wastewater was aggressively added to the infiltration basins in early spring, and shortly thereafter, seeps and a breakout were observed in early summer. This observation prompted the TCC to do an algae study of the upper reaches of the Nineteen mile Brook that runs along side of the infiltration basins. With the help of our consultant by setting up a protocol and training for the study, members of the TCC rolled up their pants and waded through the brook area to record algae growth over a six week period of time. This report is on the TCC web site along with results from the water quantity testing that was done by our contractor. We also shared our findings, and some recommendations, with Wolfeboro by a few letters that are also on our web site.

The 2009 workload for the NHDES included 20 Approved Permits, 23 New Permits, and 6 Permits by Notification. Contact any of the members of the Conservation Commission or refer to the NHDES web site www.des.nh.gov/wetlands regulatory assistance regarding wetland permits.

PLANNING BOARD REPORT 2009

Even though the current economy has slowed the rate of applications to the Planning Board, we have had a busy year basically due to the passage of SB 342 which became RSA 674:58-61. In these regulations the state has mandated that all cities and towns “shall provide reasonable and realistic opportunities for the development of workforce housing...” We contracted with Lakes Region Planning Commission to audit our Zoning Ordinance and other regulations relating to workforce housing and recommend to us changes that should be made. This was done culminating in a public forum held in October and a public hearing held in December detailing the changes we are proposing in our Zoning Ordinance that will bring us into compliance with state law. These will be voted on at the March, 2010, Town Meeting in the ballot. We also held a public hearing in January, 2009, for proposed new section in the Zoning Ordinance for Small Wind Energy Systems that was approved by ballot at the March, 2009, Town Meeting. Resulting from this we changed our Site Plan Review Regulations and a Conditional Use Permit application was created.

We approved three lot mergers, seven subdivisions and three boundary line adjustments resulting in a net gain of twenty (20) new lots in Tuftonboro. We approved three Site Plan Review applications for the addition of a bath house at Camp Northwoods, a change of use of a building at Audioplex and the expansion of use in a building at Technicoil. We also held three preliminary hearings.

The Tuftonboro Roads list was updated by Sue Weeks with assistance from John Simms. We now have all of our roads listed, named and classified according to state RSA's.

Tony Lyon, a full member for a number of years, stepped down to become an alternate member. John LaPolla was moved from alternate to full board member.

Respectfully submitted,
Mirick Friend, Chairman

2009 ZONING BOARD OF ADJUSTMENT

The Board of Adjustment had a less than average year with nine hearings. Three Variances were granted for pre-existing, non-conforming structures to expand upwards within existing footprint. One Variance was granted for a pre-existing, non-conforming structure to build a roof over an existing deck. One Variance was granted to allow an existing business to exceed allowable square footage. One Variance was granted to build an open deck on the second floor of a home in violation of front setbacks. The Town was granted a Variance for a carport type shed with insufficient side setback, to house the emergency generator. A Variance was granted (with conditions) for construction of a covered entrance in violation of front setback. A Special Exception was granted (with conditions) to an existing auto repair shop. The applicant needs a license from the State, with permission from the Town, to sell more than 5 used autos in one year.

Current board membership includes:

Bob Murray, Chairman

Jim Cubeddu, Vice Chairman

Neil Hanson

Wolfgang "Bill" Kaiser

Tony Lyon

John Cook, Alternate

Betsy Frago, Alternate

Jackie Rollins serves as our Secretary

Respectfully submitted,
Bob Murray

TUFTONBORO AGRICULTURE COMMISSION

Annual Review Year 2009

In early 2009 the Agriculture Commission held a catalog and seed swap. The seed swap was followed up with a seed starting session held in early spring at Spider Web Gardens in preparation of transplants to be used in their garden plots.

The Agriculture Commission organized the second annual Town-Wide Yard Sale. There was a community site at the town office parking lot as well as individual sites across town. There were 20 sites on the map. This event coincides with Earth Day which is held country wide in mid April and promotes recycling. It was fun to get out around town and see our neighbors!

The Commission's most prominent project to date is the community garden which abuts the Town Offices. In 2009, 36 of our 44 plots were committed and used by approximately 25 persons. This year the irrigation system was installed and ready to water, however Mother Nature kept us in the wet!

An after school garden club at the Tuftonboro Elementary School occupied 3 plots that were tended by approximately 17 students and their parents. Participants enjoyed working as a group, planning, caretaking, and goal setting as well as learning about soil and plant sciences.

The school group and other community garden members participated in the Tuftonboro Grange's 120th Anniversary on Saturday, August 15th by having products on display at the Grange Hall.

We are interested in organizing a Farmer's/Gardener's Market in the near future. Those of you that are interested, please get in touch!

From early indications year 2010 will build on the successes of year 2009. We look forward to suggestions from the community on other agricultural projects that we could embrace.

Respectfully submitted,
Anthony Lyon and Annette Cram
Co-Chairs

CODE ENFORCEMENT OFFICER / HEALTH OFFICER

For the Year 2009

99 Building Permits
12 New Homes
79 Electric Permits
28 Plumbing Permits
32 Gas Piping Permits
29 Certificates of Occupancy
408 Inspections

\$5.25 Million in overall building construction, \$2.3 million in new homes.

The new State Shoreland Permit still has raised a lot of questions for the department.

The state will adopt a new version of the building code in 2010. The 2009 IBC, IRC, IECC and IPC

Part of the responsibilities as the Code Enforcement Officer is being the Health Officer. Pandemic planning is currently ongoing as part of a coordinated effort within the town and county. The County now has a new Public Health Organization. The Carroll County Coalition for Public Health www.c3ph.org. There is an office in Ossipee.

Office Hours

Monday-7am to noon
Tuesday-7am to noon
Wednesday- 1pm to 3pm
Thursday-7am to noon
Friday-7am to noon

Inspection Hours:

Monday-1pm to 3pm
Tuesday-1pm to 3pm
Wednesday-7am to noon
Thursday-1pm to 3pm
Friday-1pm to 3pm

569-4539 ext.15 or 670-4042

Respectfully submitted,
John (Jack) Parsons
Code Enforcement Officer
Health Officer

2009 REPORT OF THE TRUSTEES OF THE TRUST FUNDS

During 2009 the Trustees of the Trust Funds for the Town of Tuftonboro managed the following funds:

1. Fire Truck Capital Reserve Fund
2. Charles Davis Fund
3. Leon F. Shepherd Scholarship Fund
- 4a. Tomb Library Fund – Franklin-Templeton
- 4b. Tomb Library Fund – Johnson & Johnson Stock
5. The Tuftonboro Scholarship Fund

The Town withdrew the balance of the Fire Truck Capital Reserve Fund.

In managing these Funds, the interest from the Leon F. Shepherd Fund was distributed to eight (8) Tuftonboro students for their continuing education; the Davis Fund earnings were given to seven (7) residents over seventy years of age. The Tomb Fund, which supports the Tuftonboro Free Library, doubled in size through the generous donation of stock from the Tomb Family Trust. The interest from the funds were reinvested in the Franklin Templeton Fund.

The Tuftonboro Scholarship Fund, created in 1999 continued to grow with contributions from friends and generous donations from Bald Peak. The Trustees, with the help of the Parks and Recreation Commission, sponsored the “Ski for Scholarship” fund-raiser and the “Swim for Scholarship” at the town beach to raise funds and awareness in the community about this scholarship. The Trustees were able to award scholarships from this fund to six (6) very deserving Tuftonboro Scholars. Contributions from the community will help the Scholarship Fund to continue to grow so the scholarships will be expanded. We thank all those Tuftonboro citizens who have had the faith to give to the Scholarship Fund.

All funds with the exception of the Tomb Fund – Johnson & Johnson Stock are currently invested in conservative Mutual Funds.

Respectfully submitted,
Barbara L. McClure
David Haeger
Betsy McCarthy

2009 CEMETERY TRUST FUNDS REPORT

The Cemetery Funds were invested in conservative mutual funds this year. The interest earned from these funds was given to the selectmen to cover the cost for maintenance and upkeep of the cemeteries under the Trustees' care. The Trustees are responsible for turning the water on and off at the Town Cemetery, seeing that the cemeteries are maintained, overseeing interments and answering any inquiries that effect the cemeteries.

Cemetery Sexton, Bill Stockman, has completed the portion of the Town House Cemetery near the parking lot and corrected some mapping errors that occurred after the construction of the Town House addition and the parking lot.

"Friends" of the Thompson Cemetery on Tuftonboro Neck Road asked permission to paint the picket fence around the cemetery and requested funds to help defray the cost of the paint. We thank the group who did this work and those also who rehabilitated the sign over the entrance.

Inquiries were received from current landowners with family graveyards on their property as to procedures to follow in order for the current residents to be interred in the burial site. These were handled on an individual basis.

Respectfully submitted
Betsy McCarthy, Chairman
David Haeger
Barbara McClure

TUFTONBORO FREE LIBRARY Annual Town Report for 2009

The library was open 254 days in 2009. Circulation totaled 42,586, more than 4,000 over 2008. Patronage also increased. We issued 156 new library cards, for a year-end total of 3,589 registered patrons. Books out-circulated all other items combined. We added 1,847 new and donated items to the collection, which now stands at 29,258, close to 50% over capacity for the building's design.

Lack of adequate space for resources, services, programs, patrons, and staff continued to be the major issue facing the library in 2009. We installed over 100 linear feet of new shelving for adult fiction in the Hamel Meeting Room, further restricting the space available for public programs and meetings at a time when community use of the room is increasing. An additional 24 feet of shelving in the children's section allowed a barely adequate expansion of the heavily used picture book collection.

Although the Warrant article for a new building lost by 21 votes in March, Trustees and Friends continued to fundraise for this much-needed project throughout the year. In addition to donations, public events including a yard sale, plant sale, art sale, book & bake sale, and boat raffle raised over \$10,000 for the Building Fund. Thanks to all of our hard-working Friends of the Library, and especially to FOL officers David Lee, Terry Smith, and Barbara Widmer.

In response to growing demand for public Internet access, the Friends of the Library purchased two Netbooks, making five networked computers available for patrons to use in-house. (Wifi users bring their own laptops.) The Friends also purchased a Wii gaming system, and Tom and Barbara Hall donated a Kindle II e-reader for circulation. In other technology news, Overdrive downloadable audios became available for iPods, through the library website. We also presented an Overdrive in-service training session for TCS teachers.

We undertook a complete inventory of the collection this year, in partial preparation for moving to a web-based, open source circulation system in 2010. TFL will be part of a select group of NH public libraries to pilot the new system through a program to be set up by the NH State Library.

Results of a taxpayer survey in June caused the Trustees to review and expand open hours. The library is now open 36 hours per week, including Fridays until 7:30 and Saturdays until 2:00. Increased patronage and circulation have resulted.

We recorded total attendance of 1,673 for 140 library-sponsored programs this year. Family and children's programs included weekly pre-school Story Hour, weekly visits from both first grades, regular outreach to local daycares, and the 10th annual presentation of The Polar Express. For the fourth year, the popular winter book and author luncheon series introduced adult audiences to four distinguished and fascinating local authors.

Our original seven-week summer reading program, Food for Thought, matched every child signed up to read for pleasure with an adult sponsor who agreed to

donate an item to the Life Ministries Food Pantry for each book read. On August 13th, Jane Batchelder loaded her pickup truck to the max with 463 items! Based on this success, we will make Food for Thought TFL's permanent summer reading theme, and so will at least a dozen other NH libraries. Summer programs this year also included three special performances, two themed craft workshops, and two new movie matinees, complete with popcorn and lemonade.

Twenty-one community groups and Town committees used the Hamel Meeting Room 154 times (up from 108 last year): Agricultural Committee, Abenaki Tower & Trail Association, Bible study group, Boy Scouts, Census training, CIP Committee, Crewel Embroiderers, DAR, 4-H, GWAC, Hikers, History Book Club, Happy Hookers, Home Schoolers, KnitWits, Mountain Shadows Association, Newcomers Gardeners and Knitters, Scrabblers, Tuftonboro Association, Tuftonboro Historical Society.

Original art, craft, and collectibles exhibits this year showcased the work of many talented area artists, including Kathie Pond, Suzie McCarthy, Mary Jane Beattie, Carol Thompson, Terry Smith, and Anita Fusco, as well as popular group shows mounted by the Happy Hookers, Knit Wits, and Lakes Region Photography Club, and the annual TCS student art display.

Building maintenance in 2009 included scraping, sanding, and painting trim, repairing and repainting columns, replacing rotted door frames and sills on the exterior boiler room and emergency exit doors, and replacing the circulator pump on the boiler.

Donations and grants totaled just over \$12,000, or about 9% of the total operating budget. In addition to the many generous donations from individual patrons, major gifts from the D.A. Hamel Family Foundation, the Henry F. Hurlburt III Charitable Trust, the Eaglemere Foundation, and the Friends of the Library supported collection development. Gifts from the Abenaki Tower & Trail Association, the Governor Wentworth Arts Council, the Mountain Shadows Association, the Hikers, and the Mirror Lake Community Church supported public programs for both adults and children.

We're very grateful for our adult and student volunteers, whose cheerful assistance with everything from shelving to schlepping made a big difference during such a busy year: Chris, Tyler, and Alex Brewster, Shannon Edwards, Jordan Leslie, Jay Nicewicz, Bob Nussbaum, Cieran Paterson, Jacob Wilson, Jane Wilson, and Mike Phelps, who saw a problem, found a solution, and literally lay down to get it done.

Many thanks as well to all of our patrons who expect (and so, inspire) excellence in library service, to the Trustees who wholeheartedly support our efforts to provide it, and to the dedicated staff members who ensure it: Sally Andersen, Jennifer Caldwell, Lynn Dancause, Dennis Guilmette, and student intern Ceci Mancuso.

EXECUTIVE COUNCIL REPORT

By Raymond S. Burton

2009 was indeed the year of American Recovery and Reinvestment Act (ARRA)/Stimulus Funds in New Hampshire!

As of November 4, 2009, \$579,305,870.00 had been allocated in New Hampshire in nine areas: business/community; education; employment; energy; health; housing; safety; technology and transportation. Of that \$181,463,876.00 went to Council District One towns and cities and the counties of Belknap, Carroll, Coos, Grafton and Sullivan.

The ARRA money has enabled local, state and county government to work on projects that have been in process and planning for years. For a complete listing of these projects go to: www.ed.state.nh.us/education/recovery/index.htm or write to my office.

Governor Lynch has now submitted the New Hampshire Transportation Plan to the New Hampshire House and Senate. Highways/bridges, rail, aviation and public projects are among the proposed recommendations. Contact your local State Senator and Legislator for details about what projects you believe to be key ones for your region.

As Councilor, I do not see new revenues being raised in New Hampshire State Government. With the decline in existing revenues leading to cut backs in services, only time will determine what the law making branch has in mind for new dollars. Keep in close touch with your local State Senator and Legislator to make sure costs are NOT passed on to county and local government.

The Governor and Council are required by law to fill dozens of boards and commissions with volunteers. If you are interested in serving, please send a letter of interest and your resume to Governor John Lynch, Attention: Jennifer Kuzma, Appointment Liaison, State House, 107 North Main Street, Concord, NH 03301 For the current list of what possible appointments might be coming up go to: <http://www.sos.nh.gov/redbook/index.htm>.

There is a constant flow of informational items available at my office: tourist maps, consumer handbooks and the New Hampshire Constitution. Each Monday I send, via e-mail, the schedule of my weekly meetings and other information. Send me your e-mail to be added to the list at rburton@nh.gov or find the schedule on my State House web page at: <http://www.nh.gov/council/district1/schedules>.

TRI-COUNTY COMMUNITY ACTION

Serving Carroll, Coos and Grafton Counties

448 WHITE MOUNTAIN HIGHWAY, TAMWORTH, NH. 03886
[603] 323-7400 ~ Toll Free 1-888-842-FUEL (3835) ~ Fax (603) 323-7411

To the **Selectmen** and **Residents** of the **Town of Tuftonboro**:

Tri-County Community Action/Carroll County is a private non-profit agency that was established in 1965. The Resource Center is located at 448 White Mountain Highway in Tamworth.

During the fiscal year July 1, 2008 through June 30, 2009, our agency has spent \$130,042 on Tuftonboro residents. The services provided include; Fuel Assistance, Electric Assistance, Weatherization/Home Energy Conservation and Homeless Prevention. In addition, we are the conduit for the distribution of USDA Surplus Food to all the food pantries in Carroll County.

Tri-County Community Action provides necessary services for the most vulnerable and less fortunate citizens in our communities who would otherwise have to seek help from the town. We are depending upon funding from your town and neighboring communities countywide. These local funds are used to make available local intake and support for federal and state programs including Fuel Assistance, Electric Assistance, Homeless Prevention, Weatherization, and electric utility conservation programs.

We greatly appreciate your support and look forward to a continued cooperation and partnership with your towns' residents, elected officials and staff.

Respectfully submitted,
Paula Abraham
