SELECTMEN'S REPORT

For the first time in several years it has been necessary to spend beyond the appropriation in several areas. These are easily explainable and do not mean that the town is operating in the red. The situation developed because, in realizing that the amount of money to be raised by taxes for the year 1966 was going to be greatly increased because of the school expansion, the Selectmen attempted to keep the expenditures necessary for the support of the town at a very minimum. Their estimates proved to be inadequate. The extra expenditures for Town Officer Expenses was occasioned by relocating the office of the Town Clerk. The modest expense of remodeling the office space in the rear of the Fire Station and the necessary installation of a telephone were not planned for in the budget.

No one could have been expected to accurately estimate the quantity of snow which had to be plowed last winter. The Selectmen were wrong in hopefully expecting it would not exceed the expenditures of the preceding year.

Payments for Old Age Assistance were in excess of appropriation because of an increase in rates assessed. The Town Officials have no control over the rate, only over the number to whom payments are allowed. This has been kept remarkably low.

For several years it has not been necessary to borrow money in anticipation of taxes and although the authority was given to the Selectmen for doing so, no money was appropriated for interest payment. This year it was necessary to borrow money and the interest had to be paid when the note was paid after the taxes were collected.

Near the end of the year the amount allotted for parks was exceeded because repairs had to be made to the summer house in the center of the village. It was a source of irritation to the Selectmen that the irresponsible action of some of the younger generation was destroying a building which is a landmark of the town. It was embarrassing to see it pictured in its damaged condition in Profiles magazine which is circulated widely throughout the country. It has been repaired several times over the years and merits some respect.

The Selectmen are hopeful that State Aid Construction will again permit additional road work in Greenland. Some work was done in 1963 on Winnicut Road and more work needs to be done there.

Because of the many unpleasant reports which have been made to the Selectmen during the past year concerning dogs, the Selectmen are printing as a part of this report some of the state laws about dogs. Careful reading proves that the Selectmen have ample authority for action. The Selectmen propose to raise the fee on each animal in town by one dollar - as authorized by RSA 466:39 - and use this money to secure additional policing for vicious, noxious, or wandering dogs in Greenland.

DOGS Assessors shall make a list of all dogs and owners or keepers names on April 1, and return it to the Town Clerk by May 1. A fine of \$10 shall be levied on dog owners or keepers answering falsely or refusing to answer. Selectmen must annually issue a warrant within ten days from May 1, directing one or more police officers either to collect all fees or to kill all dogs not licensed and collared according to law and to issue a complaint against the owners or keepers.

R.S.A. 466:31 Vicious Dogs. Any person who considers a dog to be vicious or a menace to persons or property without the enclosure of its owner or keeper may make complaint to the chief of police or to the selectmen of the town in which such dog is kept, and such officers shall, within three days after the receipt of such complaint, investigate the case, and, if the complaint is sustained, shall forthwith order the owner or keeper of such a dog to muzzle or restrain such dog from running at large as the case may require. Service of such order shall be made upon the owner or keeper of such dog by causing a certified copy of such order to be delivered to him; and if he refuses or neglects for twelve hours thereafter to comply therewith he shall be fined not more than twenty-five dollars, and the chief of police or selectmen may issue their warrant to one or more of the police officers of such town who shall kill such dog whether on or off the premises of the owner or keeper and make return thereof of his doings.

R.S.A. 466:39 Town By-laws. Any town may make such additional by-laws and regulations concerning the licensing and restraining of dogs as they deem expedient, and may affix penalties not exceeding ten dollars for a breach thereof. Such by-laws and regulations shall relate only to dogs owned or kept in the town, and the annual fee required for a license shall in no case be more than one dollar in addition to the sum hereby required.

The library is indebted to the Greenland Junior Women's Club for a gift of \$25.00 for the purchase of books for pre-school children. The Club also conducted a book sale, the proceeds of which are to be used for the replacement of standard works. These gifts are deeply appreciated and the library is grateful for the interest shown by the Junior Women's Club.

A Friends of the Library group was organized in October. While the organization is just getting underway, there have already been benefits to the library, such as assistance with the re-cataloging and other volunteer work. A book drop for the outer door has been purchased and will be installed soon, also through the efforts of the Friends of the Library.

Improvements to the library this year include new bookcases for the children's books, giving more space and a better chance to expand; also relocation of one table and the lights over it. The bookcases were built by Jarib Sanderson and his help and cooperation are much appreciated.

We have received many gifts of books during the year. The Graffort Club of Portsmouth presented a book in memory of Mrs. Arthur Sewall. Mr. and Mrs. G. Newton Weeks gave the library a copy of the History of Stratham, in memory of William Weeks. Col. George Prindle and Mr. and Mrs. Richard Moody have given many books and magazines. Sincere thanks are extended to all these donors for their interest in the library.

Respectfully submitted,
Catherine M. Syphers,
Librarian

*REPORT OF THE GREENLAND VOLUNTEER
FIRE DEPARTMENT FOR 1966*

During the year 1966 the Fire Dept. answered a total of 24 calls. This represented a drop of 11 calls from the 1965 with property loss being practically negligible.

It is believed that the new regulations issued by the State of New Hampshire in regards to outdoor burning plus normal precipitation during the spring months contributed to the reduction of the number of fires during 1966.

Calls received during the year were classified as follows:

Motor Vehicle	4
Grass	3
Brush	3
Town Dump	2
Tree Fires	2
Investigate Smoke	2
Stove	1
Chimney	1
Furnace	1
Curtains	1
Washing Machine	1
Saw Dust Pile	1
Mutual Aid	2
	<hr/>
Total	24

Under the Mutual Aid System assistance was provided to the Town of Stratham for 1 fire, also to the town of Newington for 1 fire.

New equipment during the year included the replacement of 350 ft. of booster hose and 150 ft. of 2½" hose from funds provided by the town. Other new equipment included the purchase of a special length of

3" hose with clapper valves to facilitate the maintenance of 2½ hose lines when operating from tank trucks.

Also purchased were 2 Scott Air Paks with funds provided by the Fire Dept. Auxiliary, Fire Dept., and donation of Stamp Books.

A course in the use of this equipment was conducted by Asst. Chief Grimes of the Durham Fire Dept., Instructor for the N.H. State Board of Education. About 20 members of the Dept. received certificates at the conclusion of this course.

Members of the Dept. also attended the Training School sessions held at Fitzwilliam, N. H., also at the Training School at Laconia, N.H.

To people who have recently moved into Greenland we would like to remind you that in case of emergency, when calling Fire Dept., be sure to give your street and house number. If you do not have a number, one may be secured by calling 436-2598. Please do not use Fire No., except for emergency's.

To report a fire - Call 436-5553 or ask operator for Greenland Fire Dept.

*REPORT OF THE FOREST FIRE WARDEN
AND DISTRICT CHIEF*

Most of us who live in New Hampshire and the thousands of vacationist that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause woodland fires. True, this was a much dryer than normal year, but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindful that a spark or flame is a potential fire.

WE MUST BE CAREFUL:

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish, preferably at the town dump. If you must burn rubbish or brush:
 - a. Always get a permit to burn from the Warden.
 - b. Start your fire late in the day, after 5 p.m.
 - c. If burning a field or brush, have equipment and adequate water on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundred of acres of destroyed woodlands. Yours never to enjoy.

REPORT OF THE CHIEF OF POLICE

This will give you a brief rundown for the short time I have worked for the Town of Greenland. There are many things to be done. With the cooperation of the Town I think we can do them. To date I have had the cruiser and the radio repaired. I am now tied in with the Sheriff's -Department in Exeter and the Portsmouth Police, in case we need assistance such as getting a doctor or an ambulance. I also had to buy two snow tires.

The following is a summary of work from November 19 to December 31, which is 43 days:

Investigations for the Army, Naval Industrial Security and Internal Revenue.

Calls of a miscellaneous nature, approximately 10.

Accidents	5
Fatalities	0
Disturbing the Peace	12
Theft	3
Dog calls	14
Warrants served	1
Summons served	1
Vandalism	3
Child mollesting	0
Brawls	5
Defective Equipment Violations	0
Traffic Violations	6
Approx. 180 hours patrolled — 240 miles.	
Cost of Maintenance	\$140.00

GREENLAND WATER BOARD REPORT 1966

The progress in water lines expansions for the past year was limited to a small nature.

In 1965 the 12" line on Portsmouth Avenue at the intersection of Tuttle Lane was extended towards the Winnicut River as far as the Bunker property. This year the 12" line was continued on to the approach of the Winnicut River Bridge on Portsmouth Avenue and sealed with a 122" gate valve. A standard hydrant was installed at the corner of Portsmouth Avenue and Riverside Lane during the same operation.

One small project was completed on Riverside Lane. A request by Timothy and/or Pauline Evans for water was approved by the board. This line was privately sponsored financially.

For the year ended 1966, there is a credit of \$4,263 with the Portsmouth Water Department. It is the wish of the Water Board, with this credit, plus approximately \$11,000.00, that a 12" line, the necessary fittings and 3 hydrants could be extended on Post Road to Breakfast Hill Road in 1967.

*REPORT OF THE SUPERINTENDENT
OF SCHOOLS*

To the School Board of Greenland, New Hampshire:

I am pleased to submit my nineteenth annual report as Superintendent of Schools. I again express my sincere thanks to each member of the Greenland School Board, supervisors, teachers, members of the Parent-Teacher Association, and to the citizens for their continued cooperation and support during the year.

The school year 1966-1967 opened with the following teaching staff:

Mr. Eugene Haight, Principal, Mathematics
Mrs. Gwendolene Sanderson, Social Studies
Mrs. Erma Milner, English
Mrs. Catherine Verville, Science
Mr. Robert Cushing, Mathematics
Mrs. Evelyn Dimock, Grade 4
Mrs. Elinor Milbury, Grade 3-4
Mrs. Judith Hudson, Grade 3
Mrs. Mary Varrell, Grade 2
Mrs. Nancy Parker, Grade 2
Mrs. Meredith Stevens, Grade 1
Mrs. Stella Scamman, Title I, Remedial
Mrs. Virginia Holder, Nurse
Mrs. Sally Wool, Music
Mr. Harold Matava, Handwriting
Mrs. Evelyn Arey, Grade 1

Mrs. Meredith Stevens replaced Mrs. Margaret Blakeney who retired as teacher of grade 1. Mrs. Blakeney gave twenty-one years of competent and dedicated service to the Greenland School and it is our sincere wish that she will enjoy many happy years of retirement.

Mrs. Nancy Parker was employed as an additional grade 2 teacher. This provides two teachers for each of the first two grades.

As a result of the vote to keep grade 8 students in Greenland, Mrs. Catherine Verville and Mr. Robert Cushing were employed as the two additional teachers needed to departmentalize fully grades 5-8.

Mrs. Sally Wool replaced Mrs. Janet Layton as teacher of music.

Mr. Eugene Haight was released from full time teaching so that he has about one-third of his time for administrative duties.

Under Title I of the Elementary and Secondary Education Act, Greenland's entitlement for 1965-66 was about \$4100. A project was written and approved which allowed for the purchase of equipment for the school library and for remedial instruction for educationally deprived children.

This year, Mrs. Stella Scamman has been employed to give remedial instruction in reading and the use of reference materials. She spends four half-days a week in the school. Also, a speech therapist from the Portsmouth Rehabilitation Center visits the school one morning a week and is working with about twenty students as a part of the Title I program.

Under Title II of the Education Act, Greenland received last year its share of the library books, classrooms sets and film-strips which were purchased with the money allocated to the Supervisory Union for this purpose. This year from these funds more library books will be purchased as well as sets of maps for the upper grade classrooms.

A valuable addition to the school is the new library. Mrs. Barbara Parker serves as a part-time librarian and with the assistance of volunteer helpers makes the library available to the pupils at stated times during each week. It is hoped that the number of volumes in the library can be increased each year.

The enrollment as of December 23 was as follows:

Grade 1	49	Grade 5	41
Grade 2	40	Grade 6	35
Grade 3	33	Grade 7	30
Grade 4	43	Grade 8	33

This is a total of 304 for eight grades as compared to 259 for seven grades on a corresponding date a year ago.

Mr. Frederick King, Teacher Consultant for Supervisory Union No. 16, explains some of the work which he is doing in the area of curriculum as follows:

We are at the beginning of a new period in the teaching of social studies. The sophisticated ideas and methods of the social scientist are deemed accessible to the child from six to twelve years old — providing they are developed in words and situations that the child is able to handle on his own.

Last year a workshop for teachers was held in social studies education and an in-service course from the university was conducted in Exeter. Since then the State Department of Education has produced a guide called **NEW VIEWPOINTS IN SOCIAL STUDIES FOR NEW HAMPSHIRE SCHOOLS, K-12.**

In this Union this fall the formal study of our social

studies program was begun. A curriculum study committee was established consisting of eight members from various towns in the union with the teacher consultant as chairman. Each of the committee members in addition to representing our towns also was chosen so that each grade level was represented. Each member then acts as a chairman for her grade level when each grade holds a discussion.

In addition to this, an advisory committee consisting of the principals of each school in the union, the teacher consultant and the head of the social studies department at Exeter High School will work closely with the general committee to read, review and evaluate the material and progress.

Curriculum planning is a many step process. One does not change a school program without a complete study of the existing program and the possibilities for the future. The present general committee is discussing a philosophy, determining objectives, selecting concepts to be taught, planning learning experiences, examining grade by grade content, looking at the total program sequence, selecting appropriate materials, finding ways to evaluate the program once it is underway, and in the end to have a written guide available for each teacher in social studies teaching for the schools of School Union No. 16. Each of these steps deserves lengthy consideration but space does not permit it.

We have a long way to go, and many hours will be spent in this task. We must search, however, for an education that prepares children to cope with a social world radically different from the one that exists at present. To this aim each teacher joins me in this important curriculum work. We are attempting each year

to examine a different curriculum area so that we never remain static. Education is a "changing scene" and as our society changes so must our school program.

The citizens of Greenland are to be congratulated for providing a fine school plant for the boys and girls of the town. These facilities have made it possible to departmentalize grades 5 - 8 and to do some grouping with the grades in mathematics and English. It is hoped that more of this can be done next year.

As you read these reports on the past school year, please remember that they are your story as much as they are ours. Without the cooperation of parents and the community as a whole, none of this would have been possible.

Respectfully submitted,

Raymond A. Hoyt

Supt., Supervisory Union 16

ANNUAL REPORT OF THE PRINCIPAL

To the Superintendent of Schools:

Following is the annual report of the Principal of the Greenland Central School.

When we occupied the addition last May we used two rooms - for Grades 5 and 7. As we opened school in September only three rooms in the addition were not being used. With the heavy enrollment in the primary grades beginning to reach the middle and upper grades, it appears that there may be just one vacant room next year.

The steady transfer of students both in and out of this school has caused a gradual but steady increase in enrollment. The increased enrollment has resulted, naturally, in a larger staff in the upper grades as well as in the primary grades. This has allowed us to make better use of the principles of departmentalization in Grades 5 through 8.

We have nine reading sections in operation at this time for these four grades. Grade levels for these sections range from four to nine. Children are assigned at their current level of achievement. Also, grades 7 and 8 have been divided into two mathematics sections for each grade. Grade 8 is divided into English sections as well. The smaller numbers of students in the sections enable the teachers to give more time to individual pupils.

Regular library periods are scheduled for each grade. The school library has proved its worth many times over; and, to Mrs. Parker and her assistants, my thanks for a job well done.

The Social Studies Revision Committee has been working all year and the results of the members' efforts are expected soon.

The intramural basketball program is under way. The boys and girls, grades 5 through 8, have been divided into teams. All-star teams will be chosen and will play teams from other schools. I am very grateful to Mrs. Ruth Brackett and Mrs. Ruth Ladd for their work in supervising the girls' program.

As was expected, we have had to institute staggered lunch periods. The number of meals served has ranged from 214 to 252. In spite of much less federal support and a huge increase in the number of lunches served, the hot lunch program continues to be excellent.

I wish to express my appreciation for the capable administration of the school health program carried out by Mrs. Virginia Holder.

To the School Board, Superintendent of Schools, Supervisory personnel, Faculty, Parents, and all others associated with this school, I extend my thanks for their cooperation and support.

Respectfully submitted,
EUGENE F. HAIGHT, Principal

SCHOOL HEALTH REPORT

To The Superintendent of Schools:

The School Health Service is designed to serve the physical and emotional needs of all children in the school system - collectively and individually; and to promote an awareness among parents of these needs and of available help through this department. The School Nurse offers leadership and guidance to the development and maintenance of the health program.

Our Health services this year have not varied greatly from those offered during the 1965-66 school session as outlined in the previous year's report. The vision screening program was broadened by the inclusion of a clinic for the early detection of "Lazy-eye", which was held in conjunction with our pre-school clinic. As this met with excellent response we shall continue to include it as a part of our Health service for pre-school children. Classroom Physical Fitness exercises have been introduced and carried out on the primary and intermediate levels with the use of rhythm records.

Due to increased demands upon our doctors we have found it necessary to modify the physical examination schedule this year and are, therefore, encouraging all who can, to procure a physical examination for their child through their own physician, every two years or oftener if a problem should arise.

The response by mothers in the community to requests for workers and drivers is most gratifying and has been a real source of help in carrying out a total health program despite an ever increasing enrollment.

I wish to express my sincere appreciation for the generous help of individuals and organizations during the past year.

Respectfully submitted,

Virginia D. Holder, R.N.

REPORT OF THE MUSIC SUPERVISOR

To the Superintendent of Schools:

The music program in the first and second grades is aimed toward helping the students to find their own singing voices, developing an awareness of melodic ups and downs, and learning to respond to rhythms. They improve bodily coordination and listening habits while having fun through participation in music.

More specific observation of the printed music page participation in music.

More specific observation of the printed music page comes during the third, fourth, and fifth grades; students correlate their previous aural experience with continuing visual experience. More independence in singing is gained as they learn to recognize similarities and differences in melodic and rhythmic patterns, and there is improvement of lower pitched voices.

Meaningful evaluation in the basic areas of music education - playing and reading skills, listening, singing, and rhythmic activities - occurs through the sixth, seventh, and eighth grades. Junior high school students require an increasing variety of experience in music as in all other areas. Chorus has been offered as an extra-curricular activity to qualifying students in these grades.

Respectfully submitted,

Sally Wool
