CONSENT FORM FOR PARTICIPATION IN A RESEARCH STUDY

**RESEARCHER AND TITLE OF STUDY**

My name is Jess Carson, and I am a research assistant professor at the Carsey School of Public Policy, at the University of New Hampshire. This project is the 2022 Early Supports and Services Workforce Survey for the statewide Preschool Development Grant (UNH IRB #IRB-FY2022-301).

**WHAT IS THE PURPOSE OF THIS FORM?**

This consent form describes the research study and helps you to decide if you want to participate. It provides important information about what you will be asked to do in the study, about the risks and benefits of participating in the study, and about your rights as a research participant. You should:

- Read the information in this document carefully, and contact me with any questions, particularly if you do not understand something.
- Not agree to participate until all your questions have been answered, or until you are sure that you want to.
- Understand that your participation in this study involves you taking a one-time online survey that will last about 5 minutes for directors and 10-15 minutes for staff.
- Understand that the potential risks of participating in this study are minimal.

**WHAT IS THE PURPOSE OF THIS STUDY?**

The purpose of this study is to help us understand the current capacity, training needs, and challenges facing the early supports and services workforce serving children 0-3 years old and their families in New Hampshire.

We expect about 150 people will be involved in this study. You must be 18 years old to participate.

**WHAT DOES YOUR PARTICIPATION IN THIS STUDY INVOLVE?**

Participation involves taking a one-time online survey, which will involve answering questions about your role, expertise, education, and certifications. Directors will be asked about workforce challenges including issues of staff turnover, staff recruitment and retention, and position vacancies. You must be at least 18 years old to participate, must be employed at a Family-Centered Early Supports and Services program in New Hampshire, and must be either a director or provide services for children 0-3 and their families. We expect this survey will take about 5 minutes for directors to complete and about 10-15 minutes for staff to complete.

You should complete the survey only once. You will receive compensation for only one set of responses if you are eligible to participate in the study. The researcher(s) may exclude your data or not provide compensation to you if they determine that you did not meet the eligibility criteria for the study. For questions about compensation or eligibility, please contact the researcher (information provided at the end of the form).

**WHAT ARE THE POSSIBLE RISKS OF PARTICIPATING IN THIS STUDY?**

Your answers will be combined with the answers of about 150 others across the state and used for research purposes only. Data will be kept in secured files, available only to the researchers, who will make every effort to maintain the confidentiality of the data. Research via the internet presents minimal risk of a breach of confidentiality.

**WHAT ARE THE POSSIBLE BENEFITS OF PARTICIPATING IN THIS STUDY?**

You are not anticipated to receive any direct benefits from participating in this research. However, your input is important! Leaders across the state, including the DHHS Bureau for Family-Centered Services, will use the information collected here to support the early supports and services workforce and help meet families' needs for services.

**WILL YOU RECEIVE ANY COMPENSATION FOR PARTICIPATING IN THIS STUDY?**

If you are at least 18 years old, employed at a Family-Centered Early Supports and Services program in New Hampshire, and either are a director or provide services for children 0-3 and their families, you are eligible to participate and receive a \$20 gift card to Amazon. You should complete the survey only once. You will receive compensation for only one set of responses if you are eligible to participate in the study. We may exclude your data or not provide compensation to you if we determine that you did not meet the eligibility criteria for the study. You will need to provide both your name and email address to receive the compensation.

**DO YOU HAVE TO TAKE PART IN THIS STUDY?**

Taking part in this study is completely voluntary. You may choose not to take part at all. If you agree to participate, you may refuse to answer any question. If you decide not to participate or not to complete this survey, you will not be eligible for compensation.

**CAN YOU WITHDRAW FROM THIS STUDY?**

If you agree to participate in this study and you then change your mind, you may stop participating at any time. Any data collected as part of your participation will remain part of the study records. If you decide to stop participating at any time, you will not be eligible for compensation.

**HOW WILL THE CONFIDENTIALITY OF YOUR RECORDS BE PROTECTED?**

I plan to maintain the confidentiality of all data and records associated with your participation in this research.

There are, however, rare instances when I may be required to share individually identifiable information with the following:

- Officials at the University of New Hampshire,
- Regulatory and oversight government agencies, or
- The sponsor(s).

Further, any communication via the internet poses minimal risk of a breach of confidentiality.

To help protect the confidentiality of your information, responses will be reviewed to ensure they meet eligibility requirements. Once deemed eligible, we will send an e-gift card via email, then separate your name and email address from your survey responses. Your email address will be removed from our records. Your name will be stored in separate list to meet UNH tax policy rules, and that list will be stored in a secure cloud-based storage location (i.e., Box or OneDrive), not linkable to your survey responses. Only the research team will have access to this data, including me (Jess Carson), Carsey School Policy Analyst Sarah Boege, Carsey School Research Assistant Kamala Nasirova, and UNH Survey Center Project Director Zachary Azem. Data, once de-identified may be used for future studies. I will report the results only in aggregate, and not report responses for any individual respondent nor describe responses among respondents that have five or fewer members in the sample. The results may be used in reports, presentations, and publications.

**IS THERE ANYTHING ELSE YOU SHOULD KNOW ABOUT THIS STUDY?**

You may stop this survey and return to it later without losing your place if needed.

**WHOM TO CONTACT IF YOU HAVE QUESTIONS ABOUT THIS STUDY**

If you have any questions pertaining to the research you can contact Jess Carson, 603-862-3215 or [jessica.carson@unh.edu](mailto:jessica.carson@unh.edu) to discuss them.

If you have questions about your rights as a research subject you can contact Melissa McGee in UNH Research Integrity Services, 603-862-2005 or [melissa.mcgee@unh.edu](mailto:melissa.mcgee@unh.edu) to discuss them.
