REPORT OF HISTORY COMMITTEE

Since last March we have held 11 monthly meetings.

Each of the committee members has at least one category which he is researching and writing about.

Annie Shelly is writing about the Town's Military History. Ruth Churchill is writing about the Connecticut River and the Ferries. Ruth Burt and Majorie Hudson are editing and up-dating the geneology of the Abbott Papers. We are all collecting the geneology of the more recent residents of Westmoreland. Dorothy Dunn has chosen to do the history of the Schools. Thomas Rouner has done a great deal of research about the industries of the Town. Elinor and Thornton Paine are writing a short history of the Mines and Bertha Staples is making a map of Westmoreland on which will be found all of the present-day residences.

Needless to say there are several categories that we have not yet touched and with which we would greatly appreciate help.

All the time we are collecting historical data from various sources. We have collected some valuable pictures and maps of interest, all of which are being safely kept in the safe at the Town Hall. Pictures have been taken of various older homes in the Town, also.

Julia Mark has been reading the old Sentinels, found at the Keene Library, beginning with the year 1885 and copying any Westmoreland news which might be of interest.

Majorie Hudson (with the generous help of her sister, who lives in Walpole) is researching the older houses in the Town. If anyone has any material about the history of his house, or any pictures which he thinks would be of interest, please contact one of our committee. If anyone wishes to research his own property, please contact Marjorie Hudson. We would like to know when each house was built, by whom it was built and who the previous owners have been.

The committee wishes to thank all those who have helped us in any way this past year.

Dorothy Dunn
Secretary

Report of Forest Fire Warden and District Chief

Less fortunate than our northern towns, we had too many fires. Carelessness in burning trash and discarding smoking material and children playing with fire caused most of the fires. Your Forest Fire Warden's job would be easier if everyone understood the State laws that govern the kindling of outdoor fires. A synopsis of these laws follow:

FIRE PERMIT

A *fire permit* is needed for all outdoor fires in or near woodland anytime the ground is not covered with snow. This includes household waste burning, even if in an incinerator, grass burning, garden trash as well as brush burning. Such burning is restricted by regulation to be *prior to 9:00 a. m. and after 5:00 p. m.*

EXCEPTIONS

Commercial or Industrial burning is allowed anytime under normal conditions with permission of the District Chief and a permit from the Fire Warden.

Camp or cooking fires are allowed on your own property with permission of the Fire Warden. On another's property with written permission of the landowner and permission of the Fire Warden. The Warden can forbid such fires if in a hazardous area. Permits for cooking fires in the White Mountain National Forest can be obtained from the Laconia Office or at the Ranger Stations. Permits are not required in public camp or picnic grounds when fireplaces have been built for this purpose.

PENALTIES

1. For kindling a fire without a permit. Maximum of \$200.00 fine; or imprisonment for not more than 60 days.
2. For kindling a fire by any means wilfully or recklessly that shall endanger woodlands the maximum fine is \$500.00 or one year's imprisonment.
3. For failure to totally extinguish a camp or cooking fire before leaving it the same penalties as in (1) above.
4. For dropping inflammable material in or near woodland, maximum fine is \$25.00.

Fire prevention is a personal matter and a good habit. Keep our town free from smokes in 1970.

THE STATE OF NEW HAMPSHIRE

School Warrant

To the inhabitants of the School District of the Town of Westmoreland qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 14th day of March, 1970, at 10:00 o'clock in the forenoon to act upon the following subjects:

Article 1. To choose all necessary school district officers for the ensuing year.

You are hereby further notified to meet at the Town Hall in said district on March 14, 1970, at 2:00 P.M. in the afternoon to act upon the following articles. (Polls will be open from 10:00 A. M. to 6:00 P. M.)

Article 2. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.

Article 3. To see if the district will vote to accept the provisions of Title I, II, III, Public Law 89-10 (Elementary and Secondary Education Act of 1965), and to appropriate such funds as may be made available to the district under said Federal Act for such particular projects as may be determined by the school board. Further, to see if the district will authorize the school board to make application for such funds and to expend the same for such projects as it may designate.

Article 4. To see if the district will vote to authorize the school board to make application for and to accept and use in the name of the district such advantages, grants in aid or other funds for educational purposes as may now or hereafter be forthcoming from the United States Government, the State of New Hampshire, or any department or agency thereof, or any federal, state, or private agency.

Article 5. To see if the District will vote to establish an Authorized Regional Enrollment Area (A.R.E.A.) School Planning Committee, said committee to consist of three qualified voters of whom at least one shall be a member of the school board, or take any other action relating thereto.

Note: This District is currently in an A.R.E.A. arrangement with Keene for grades 9-12. For planning purposes this District should continue discussions with other Districts 7-8. Approval of this article makes no commitments for this as to the mutual problems of education, particularly grades District except to form a committee that will consider the future, meet with such committees from other districts, and report its findings at a future meeting of this District. Ap-

propriate discussion and planning for the future seems essential with pupil enrollment increases and the evolution of educational change.

Article 6. To see if the District will vote to authorize the employment of a Teacher Consultant for New Hampshire Supervisory Union No. 29 as provided in RSA 186:11 XII and XXIV as amended or take any other action related thereto.

Note: The School Board of New Hampshire Supervisory Union No. 29 (which includes the board members of this district) have voted to reorganize the administrative structure of the Supervisory Union. This reorganization includes the elimination of one Assistant Superintendent of Schools and in place of this position the creation of the position of Consultant. The change is a matter of a reassignment of responsibilities and functions with no change in the actual number of people and with no direct increase in the budget. The item appears in this warrant as dictated by law since official titles and functions will be changing. It is anticipated that the overall reorganization will result in increased efficiency while providing more service to this District, its school board, instructional staff, and students.

Article 7. To see what sum of money the district will vote to raise and appropriate for support of schools, for the payment of salaries for school district officials and agents trict.

and for payment of the statutory obligations of the dis-

Article 8. To transact any other business that may legally come before this meeting.

Given under our hands at said Westmoreland this 12th day of February, 1970.

ADMINISTRATIVE REPORT

To the School Board and the Citizens of Westmoreland:

The proposed budget shows an increase of approximately 8.3 percent. This is considerably less than an average 17 percent proposed budget increase for several districts that are in our area. It will, in the considered judgment of the School Board and administration, provide the funds to maintain your school system at the same level of accomplishment as last year.

Changes in teaching personnel require adjustment with and by other faculty members. They particularly affect the classroom pupils. Programs that are in the process of development or have been developed are familiar to the returning faculty. However, new people need considerable time and help to enable them to adapt to the philosophy, community, and requirements of the school. Faculty changes should be kept at a minimum if at all possible. Teachers salaries that are competitive for the area helps to retain a continuing faculty membership.

As stated in last year's report the major portion of school costs is born by property taxes.

This situation is emphasized this year by a loss of approximately \$10,000 in Foundation Aid income due to the increase in equalized valuation and insufficient funding by the State Legislature. The decision to change equalized valuation amounts is made by the Tax Commission.

Major budget increases occur in salaries, scholar supplies, contracted services, and tuition. The salary increases is a compromise between the request by the teachers and the school board. We should remain competitive in this area. The scholar supplies increase reflects increased cost of materials and the fact that we have used the surplus that was previously available. The major increase for contracted services is for continued membership and support of the Monadnock Children's Center. Originally this Center was funded by Federal Funds. It is now a non-profit organization and must be supported by the school districts it serves if it is to continue. School board members who serve on the board of directors are high in their praise of the services rendered by the Child Center.

The tuition increase is based on the information now available as to the number of pupils who will be eligible to attend Keene High School.

Only minor repairs were done this year including some interior and exterior painting, plus necessary repairs for the furnace. The major piece of equipment purchased was a commercial refrigerator for the school lunch program.

Westmoreland is a member of a successful A.R.E.A. high school program. The 1970 warrant contains an article that gives Westmoreland citizens an opportunity to vote to participate with several other districts in a study of the advantages and disadvantages of having a grade 7-12 A.R.E.A: We recommend that Westmoreland become a member of this study group.

Another article in the warrant gives Westmoreland citizens the opportunity to support the action of the Supervisory Union 29 meeting in voting to have a Supervisory Union Educational Consultant. An organization chart is included in this annual report. The administrators recommend your support of the Supervisory Union action. This is not an additional position, but a realignment of assignments.

Mr. Keach has been substituting on a part time basis for Mr. Cusick who left us on October 10. It is difficult for a change in personnel to continue the programs and policies of an administrator. It always means that there is an additional burden on remaining personnel. There will be an even greater challenge to keep abreast of requirements when Mr. Keach leaves in February.

The people in the Supervisory Union office wish to express their appreciation and thanks to the citizens, school board, and staff for their cooperation and support during the past year. We look forward to working with you in the future in our mutual endeavor to maintain a good educational program.

PRINCIPAL'S REPORT

To the Citizens of Westmoreland:

The 1969-70 school year opened on September 3, with 169 students enrolled. The enrollment has subsequently dropped to 166.

In my opinion, one of the school's major accomplishments over the past few years is the revision of curriculum materials. New materials are constantly coming on the market; more importantly some of these materials are distinct improvements over what has previously been available. I am happy to say that our teachers have been quite conscientious about choosing, not simply new materials—but those that mean better education in Westmoreland.

Several curriculum areas have undergone revision this year. New science books were purchased for grades 7 & 8. The revision in the mathematics program has been continued for grades 3, 4, and 5; we expect to complete this in grades 6, 7, and 8 for 1970-71. The social studies program has been revised in grades 4-8; grades 1-3 will receive new materials next year. We have updated the literature program for grades 7 & 8.

Our library has continued to grow with the acquisition of many new general reading books, and several greatly needed reference materials. As in the past we have greatly benefited from the generosity and interest of the P.T.A., the very successful "book fair" held in November, and the indispensable services of "mother librarians" being only two examples.

At present the school staff consists of the following:

Edward W. Donovan, Principal	Social Studies, Grades 5-8 Reading, Grade 8
Virginia S. Hall	Language, Grades 5-8 Reading, Grade 7
Susan Russ	Science, Grades 5-8 Reading, Grade 6
Steven Groves	Mathematics, Grades 5-8 Reading, Grade 5

 Evelyn Shelley
 Lois Leach
 Isabelle Clapp

Once again I would like to express my gratitude to the people of Westmoreland, the entire school staff and the Supervisory Union 29 administrators for having made our school year a success, and my efforts so pleasant and rewarding.

 Principal
