## REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

---

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention, however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience—a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop, extinguish it promptly.
2. Carry your rubbish to the public dump—its safer. A neglected backyard incinerator causes many fires.
3. Never discard lighted cigarettes or matches. Make this a year round habit regardless of the safety of your surroundings.

4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

Number of fires and burned area in 1963:

State: Fires—873; Area-Acres—2,117

District: Fires—122; Area-Acres—968

Town: Fires—10; Area-Acres—8

## SUPERINTENDENT'S REPORT

---

For the current year Candia has received over \$60,000 in state aid as follows: Foundation Aid \$50,470.14; Building Aid \$1,874.15; Special Aid \$7,899. Special Aid was voted by the last legislature to be granted to the most needy districts and is most welcome. Total aid received during 1962-63 was \$41,388.02. It is obvious that Candia will benefit from any program of state aid based on need.

Our school enrollment continues upward at a regular pace. As of December 6, 1963 we had registered 340 pupils but had an active membership of 330. This increase is not as great as in the previous year but one should not predict what the rest of the year, or next, will produce. Pre-school census figures show an average well over 40, indicating no let-up in over-all enrollments.

The State Board of Education has already started to reorganize the supervisory unions and are continuously studying this complicated problem. It is safe to guess that most unions will be affected over a period of years. The big questions are when and how much?

There is no way for us to know what the tuition rate at Manchester will be next year. *We have* estimated it at \$490.00 and hope we will be close to the actual figure. Obviously, we could be wrong by several thousand dollars. This does not create a good budget.

Teachers, qualified by training and experience, do not exist in sufficient quantity to fill our annual vacancies. This is particularly true for the lower grades. Although there are more teachers graduating this year, the demand is expected to exceed the supply. The southeastern corner of New Hampshire is growing rapidly and the battle for teachers

is a vigorous one every year. We need to be highly competitive.

Much research is being done in education in many fields and many experiments are being tried. However, in this area it would seem that we will be doing well if we can provide proper spaces, capable teachers, and make good use of each.

Your support and understanding are appreciated.

Respectfully submitted,

C. MAURICE GRAY
