REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Warren:

The general aim of Education is to train all children in those qualities of life and character which will make them good and efficient citizens in the community, state and nation.

The specific aims are, to develop in the child:

1. Ability to earn his own living.
2. Willingness to contribute to the welfare of others.
3. A knowledge of how to use his leisure time.
4. A knowledge of how to care for his health.

All the efforts put forth by those concerned must be directed toward these ends. The school that does not, in some way, approximate toward a realization of these aims, is not properly functioning as a school at the present time.

During the present year, schools are in session in three different buildings. The teachers are as follows: Grammar, Pearl Batchelder; Intermediate, Agnes Avery; Primary, Myrle Kinney; East Warren, Dorothy Keyes; Glencliff, Ernestine Bolddl. I feel that we have a good teaching force and that fine progress is being made.

There were 118 different pupils enrolled during the past school year. The attendance averaged 91.2 per cent of the membership. This is an improvement over the previous year when it was 86 per cent. The average for the state during the period covered by this report was 93.6. The table which follows and the attendance records are for the year ending June 1924.

An attendance contest has been conducted this year. Each contest lasts for four weeks, and thus making nine for the year. An Honor Banner is hung

on the walls of the winning school. The children have shown much interest in the contest and improved school attendance has been the result.

A revised calendar has been adopted by the School Board for the year 1924-1925. This calendar will save three days lost because of holidays, and consequently gives that many more days of school without any additional expense. It also provides more frequent, but not too long vacations, allowing a week at Thanksgiving, two weeks at Christmas, and a week of vacation after every seven weeks of school for the remainder of the year.

The Medical inspection and follow up work is again being done by Miss Underhill. Good results are obtained from this work. The examination of men for army service at the time of the World War showed that one man out of every three was incapable of military service because of physical defects. It was also found that a very great number of these defects could have been remedied in childhood by medical attention. Physical defects when discovered should receive prompt attention.

We have good hopes that a dental clinic will be held at Warren during May. The Pythian Sisters through their assistance are making the clinic possible.

For the teachers and the School Board and myself as well, we express the common desire that a larger number of parents and friends visit the schools. If parents will come to see their children at work, what they are doing, what they are given to do with and how their work is directed, it will give them first hand information concerning our schools.

In closing I wish to express my appreciation of the courtesy and cooperation, of the School Board, the teachers and the community.

Respectfully submitted,
WILLIAM J. NELSON, Superintendent
