EPSOM PUBLIC LIBRARY

Report of Trustees

Your Trustees are pleased to report that the number of books borrowed in the year 1955 is more than 30% larger than last year. This is very gratifying.

We have several gifts of books from friends. Mr. Sanders presented us with more than 100 volumes. We received a complete set of Stoddard's Travel Lectures; the genealogy of Captain John Locke; an anonymous gift of money for new books.

The Bookmobile of the State Library on five occasions loaned us from 60 to 70 volumes, enriching our fine choice of good reading.

Perhaps our citizens are unaware that we are possessed of some especially interesting items; for example:

A large pulpit Bible which was used in the first Town Meeting House which was located in Epsom Center on ground that is now a part of the Center Cemetery. This Bible was printed in 1796 and was dedicated to use in the Meeting House in 1804.

We have also a statue of Abraham Lincoln fashioned by John Rogers in 1868 of which Lincoln's son Robert Todd Lincoln said that it is the best likeness of his father he ever saw.

Such items are worthy of inspection and our Librarian, Miss Marjorie Yeaton, will be glad to show them to you.

The Library is open for your free use Saturday afternoons from two until five o'clock.

REPORT OF EPSOM VOLUNTEER
FIRE DEPARTMENT
For Year Ending December 31, 1955

Following is submitted the annual report of the Epsom Volunteer Fire Department.

Total number of calls — 15

With — 1 incinerator fire
2 chimney fires
2 oil fires
1 grass fire
1 lightning fire
4 brush fires
4 house fires

Four out of Town calls

There were 10 regular and well attended meetings.

For the June meeting a joint field day with the Chichester Fire Department was held at Webster Park. We had a good attendance at this field day with people coming and going during the day. We would like to see as many as can attend this coming year, as it is the best way for the people to acquaint themselves with the Department and know how their money is spent, what we have for equipment and the efficiency of the Department.

The Ladies Auxiliary has been organized and is getting under way. With some of the women securing licenses to run the Base Station and learning to operate the radios, it is expected they will be a big help this coming summer.

With the Base Station having been moved to the Fire Station, the red phones and siren board, and someone in attendance there, we should be able to handle our fires very quickly — and time is the most important factor when there is a fire.

As Chief of the Fire Department, I ask you all to be CAREFUL. Most fires are accidents. Most accidents are carelessness. Both are lack of thinking. So let us THINK. There are greasy rags, rats' nests, thick glass, electricity, smoking and one hundred ways of fires starting. While we are thinking and watching for the ninety-nine ways, the hundredth one will still get us. But if we think of the ninety-nine, we have cut the chance of a fire down to one out of a hundred against fire. We of the Department feel that the decrease in fires in Town is due to the watchful eyes of the members of the Department, the efficiency of our oil burner man (Lt. Goodwin), the cleaning of chimneys, the efforts of the officers of the Department and the co-operation of the townspeople. So we take this opportunity to thank all the townspeople, officers of the Department and Town for this cooperation. The cheapest fire department to run is one that never has a fire. The cheapest insurance is the one that never has to pay for a fire.

So *please* — no Fires.

R. G. WARREN, *Chief*

FIRE WARDEN'S REPORT

Be a Good Citizen — Cooperate

Smoking and debris burning caused more than 50 percent of the forest fires occurring in the state of New Hampshire in 1955 — 235 fires out of a total of 463 originated from these two sources. Lighted smoking material and matches thrown from moving vehicles along the highway or dropped by fishermen, hunters, hikers, berry and flower pickers accounted for 26 percent; debris burning in the wrong place or at the wrong time by those who failed to heed all pleas for safety or refused to recognize the logical, sensible rules and regulations set up under legislative authority governing the use of fire in or near woodlands accounted for more than 24 percent. This is inexcusable.

Everything possible is being done officially to remedy the situation. Since 1909 there has been a statute on our law books which requires everyone to secure written permission from the local forest fire warden before starting a fire in or near woodlands or where fire can be communicated to woodlands, unless the ground is covered with snow. A never ending program of educational work is being carried on by your local warden and state officials to inform the general public both of the value and necessity of securing the required permit for such burning. Much progress has been made, but there are still many who fail or refuse to cooperate. The value of our permit system was definitely proven in this district during the 1955 calendar year. Local wardens issued 3,864 permits for debris burning fires. That's a lot of permits. The records show only 2 permit fires got out of control. This proves several things — while wardens were liberal in the issuance of fire permits, accommodating every applicant so far as possible, they were cautious, following closely directives out-

lining overall policy governing the issuance of burning permits and thoroughly instructing permit users. The latter, too, fully appreciating their responsibility in using their permits, governed themselves accordingly. Result? Much burning done legally and safe.

But what of the smokers? Despite all the efforts of those officially charged with the responsibility of preventing fires, too many were careless or thoughtless in disposing of smoking material and matches. Why? It is difficult to say. Autos are now equipped with ash trays. Why not use them. The crushing out of a cigar, cigarette and the complete extinguishment of matches before being discarded is an easy chore.

If the costly habits of the careless and indifferent smoker and debris burner could be overcome, more than half of our annual forest fires would be eliminated. Will YOU do YOUR share to bring this about?

Remember

1. Get a written permit from your local warden before starting your debris burning or camp fire. The law requires it.
2. Make certain they are dead out before leaving them.
3. Become a safe smoker by extinguishing smoking material and matches before discarding them.

IN CASE OF FIRE DIAL 4622

Give your name and location of fire.

This number is to be dialed in case of fire **ONLY**.

The above number is the Red network. The Red network is: Five red phones placed in the homes of fire officials about the town. There are also hooked to these phones two extensions — two gong bells and a buzzer. Anyone dialing the above number will start all these phones, bells and gongs ringing at once. They will continue to ring until someone answers. **SO WATCH YOUR DIALING and avoid FALSE ALARMS.**

For any other business with the department, dial:

4703 Chief R. G. Warren, or

4732 Fire Station

THE SIREN —

The siren board, which we value at \$150 to \$200 but which was made at a cost of only \$25.00 to the taxpayers, is for the purpose of blowing the siren to call help and also to blow code designating the location of the fire. It is tested each Saturday at 12:30 by one short blow.

Each blow or number of blows is repeated to be sure of count. The code is:

- 1 long blow — Fire Station
- 2 repeated — all east of Firehouse
- 3 repeated — Gossville and Gaborough Road
- 4 repeated — Traffic Circle — all west of river
- 5 repeated — Short Falls — East of River
- 6 repeated — New Rye
- 7 repeated — Civil Defense
- 1 short blow "all out"

For members going by Fire Station there is a blackboard at the front with the location of the fire written on it.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Epsom:

I hereby submit my first annual report to the inhabitants of Epsom and I shall endeavor to report on some of the problems facing public school administration.

First on the list, in my opinion, is the procurement of qualified school personnel, particularly teachers. Supply and demand make it necessary to compete with surrounding districts, many of whom are establishing a minimum salary which must be met by schools in this district in order to retain the present staff.

Fortunately, Epsom has taken care of its housing problem. The people who have devoted so much of their time and energy are to be commended for the excellent facilities which are now provided for the children of Epsom.

It was a pleasure to see the large congregation in attendance at the Christmas pageant last December, under the able direction of Mr. Frederick Johnson, music supervisor, with the cooperation of the teachers. The pride evidenced by the citizens at this meeting certainly justified this worthwhile project.

Financing of public schools continues to be an increased burden on local property taxpayers. There is need to make a thorough study of any legislation forthcoming which would more equally distribute this burden on a more equitable basis. It is everyone's duty to become well informed.

Effective July 1, 1956, S.B. 11-Chapter 227, Laws of 1955 — An Act relative to education of children placed in homes for children — provides that any child of school age placed in a home for children shall be entitled to attend the public schools in the school district where the home is located. If the child was domiciled in another school district at the time of placement in the home, then that school district shall be liable for the child's tuition. Under this Act Epsom is entitled to some revenue.
