## FIRE WARDEN'S REPORT

Twenty-five percent of all forest fires in New Hampshire are caused from careless debris burning —brush, paper, leaves, grass, etc. Most of them are started without the required permit from the local forest fire warden. The cost of extinguishing these fires annually runs into large sums of money.

According to law, responsible parties must pay the cost of putting them out. In addition, violators may be subject to court prosecution with fines running as high as [\$200] two-hundred dollars.

If, however, you do burn on your premises:

1. Secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

*Save yourself much possible difficulty. Use your town dump.*

Number of local fires           0

Number of acres burned       0

Number of permits issued   59

ANNUAL REPORT OF THE  
SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of the Hill School District:

At the start of this, my first annual report as your Superintendent of Schools, I wish to express my appreciation for the friendly advice and help given me during the past few months by members of the School Committee and school staff and by citizens concerned with the welfare of our school.

**Personnel**

Mrs. Ruth Rounds has served the school district for a period of twenty-four years. During this long period of faithful service I have little doubt that Mrs. Rounds has saved the school district thousands of dollars since it is unlikely that teachers could have been hired to replace Mrs. Rounds during most of these years at the salary she has received.

Mrs. Verna C. Matthews, a graduate of Plymouth Teachers College in June, 1957, was employed to teach grades 4, 5, 6 & 7 and has been serving in that capacity during the past school year.

Mrs. Dorothy Holmes was unable to carry on her duties as music teacher due to illness. Mr. Frank Esile served as music supervisor for a very brief period of time and was forced to give up this position because of illness. Mrs. Juliet Miller of Laconia is now serving in this capacity.

Miss Marion Moynihan continues to serve as school nurse.

### **School Budget**

The School Budget for 1959 - 60 is \$26,594.75 as a district assessment as compared to \$24,459.58 for the present year.

The salary budget is up by nearly \$550 over the expenditures for 1958 - 59. This involves a \$200 raise for both teachers and includes a figure for substitutes. The janitor has also been given a small increase.

The largest single increase is for tuition, an item over which we have no control.

Transportation also shows an increase but a realistic one since we must cover the estimated cost of expanded bus routes.

### **School Lunch**

The cost of the school lunch program for the coming year is only \$946.50 and this includes \$210 for heat and lights at the town hall. The program is proceeding very successfully and it is satisfying to find that Hill is not one of those few towns who have failed to take advantage of Federal Aid in providing this important health service for the children.

### **The Helping Teacher**

It will cost the town of Hill \$132.10 if a majority of the districts in Supervisory Union No. 18 vote to employ a supervisor or helping teacher. After many years of direct observation and supervision in the classroom I am convinced, as are all competent educators in the public schools, that teachers generally are capable of constant and continual improvement in their teaching effectiveness if adequate help and encouragement is provided.

You have one teacher who has taught in this community for twenty-four years and another who is in her first year of teaching. If they are provided throughout the school year with thoughtful and stimulating suggestions, special resource materials and help in improving the courses of study offered to your children, their teaching effectiveness can be greatly increased. It would seem to me that \$132.10 is a small price to pay for this benefit.

In actual practice the helping teacher would not only visit the two classrooms to give direct assistance but would also involve these two teachers in work with other teachers in improving the program of instruction. This is particularly helpful to teachers who teach by themselves in a more or less isolated situation since they benefit greatly by meeting with other teachers, discussing common problems and by working with other teachers to improve the program of studies in their schools.

In closing, I wish to express in particular my appreciation to an unusually thoughtful and considerate School Board and to the numerous citizens and staff members who have given me helpful advice and assistance.

Respectfully submitted,

PHILIP G. HINES,

Superintendent of Schools
