 LORETTA J. MORROW,

School Board.

Madbury, N. H., January 22, 1945

REPORT OF SUPERINTENDENT OF SCHOOLS, MADBURY, N. H.

To the School Board and Citizens of Madbury:

I am privileged to present my sixteenth Annual Report, together with that of the school nurse. These cover the work of the school year ending June 30, 1944. You will note more visits made to the Center School by both the nurse and the superintendent than were made at the North School. As a matter of fact the nurse made more visits than her contract called upon her to make. These extra calls were made on account of ivy poisoning and communicable diseases neither of which proved serious. The superintendent sometimes called at the Center School as he went to or returned from the Durham school. The two schools remain about the same in enrollment as you will see from the table of statistics.

In 1944 there was one pupil in Madbury attending the Durham school at District expense and five others at the expense of the parents. One was reported in Barrington attending there at the parents' expense and one in Dover. If there were any attending the parochial schools in Dover they were not reported.

Last year children from only one family were transported at District expense. This year another family has moved into town and three more children are being transported.

The teacher shortage affects all schools but small communities with one room rural schools are the first to suffer. Fortunately Mrs. Mina Sanders remained at the Center School. Mrs. Edna Ordway is teaching at the Rollinsford Grade School. Her place at the North School was taken by Mrs. Edith Fernald Reed who was

secured just before school opened. She is teaching on a War Emergency Certificate and doing good work. Mrs. Sanders is carrying on a fine lunch program for nineteen of her pupils. The War Food Administration allows a small rebate for the use of certain foods purchased locally. This help, together with fine cooperation of the parents enables the teacher to carry on the program without expense to the District.

No time has been lost this year because of government operations. The teachers attended the meeting of the New Hampshire Teachers' Association held in Manchester in October. No rural institutes or county association meetings have been held and transportation difficulties have prevented the superintendent from holding Union meetings.

The school children have consistently bought war savings stamps and bonds and the North School flies the war savings banner because of more than 90 per cent of the children being consistent purchasers of War Savings Stamps. Pupils from both schools helped to gather milk weed pods to be used in the making of Mae West jackets for the sailors and the Center School exceeded all other schools in my Union on a per capita basis of pods gathered. Waste paper has also been collected.

The schools have not lacked the materials for successful operation but even brooms have been hard to obtain and some books ordered in September have just been delivered owing to the paper shortage.

Your superintendent continues to devote some time to the supervision of Defense courses at Durham and Somersworth. The new tax forms, lunch blanks and other governmental required papers keep both the superintendent and his secretary busy every minute in the office. We do not complain, it is our effort to help win the war.

There have been several propositions brought forward from school board members and citizens regarding the improvement of school conditions in Madbury. One is to arrange transportation in such a way as to place four grades, 1, 2, 3, 4, in one school and four grades, 5, 6, 7, 8 in the other school. This could be done by one good sized vehicle. Another proposition is to transport all elementary school pupils to the Center School in Durham. This could also be done by using a fifty passenger bus. This would not be a long time solution as the Durham school is filled nearly to capacity now and is likely to be larger. Another proposition is to have those pupils living near the Dover line take the bus already provided by Dover for its pupils and go to Dover. The other pupils going to Durham by another bus. To your superintendent none of these propositions provide a long time solution. Conditions should be improved but to him the only satisfactory solution is to build a consolidated school. We are expecting federal aid for school building after the war is over and those communities having plans all ready will be likely to be first to benefit. I should like to see the District meeting appoint a special committee to work with the School Board and Superintendent and report to a future meeting some plan for school betterment which would be likely to meet the approval of a majority of the citizens.

Respectfully submitted,

HOWARD L. WINSLOW,

Superintendent of Schools.
