LIBRARIAN'S REPORT

At the spring meeting of the trustees it was voted to keep the library open on Saturday afternoon from 2 until 5 o'clock and Tuesday evening from 7 to 9 o'clock. It has been the desire of the trustees and librarian to find hours that would accommodate the greatest number of patrons.

The schools as in the past have served as sub-stations.

The largest number of books taken out in one day was 42 and during the year 2381.

Respectfully Submitted,

BEATRICE E. REYNOLDS

Librarian.

AUDITOR'S CERTIFICATE

(Required by the State Board of Education from all State Aided Districts)

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Atkinson, of which the above is a true summary for the fiscal year ending June 30, 1946, and find them correct in all respects.

HARLON C. DYKE, MABEL E. SAWYER,

July 12, 1946.

Auditors.

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Atkinson qualified to vote in district affairs:

You are hereby notified to meet at the Grange Hall in said district on the 13th day of March, 1947, at seven o'clock in the afternoon, to act upon the following subjects:

- 1. To choose a Moderator for the coming year.
- 2. To choose a Clerk for the ensuing year.
- 3. To choose a Member of the School Board for the ensuing three years.
 - 4. To choose a Treasurer for the ensuing year.
- 5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
- 6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
- 7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
- 8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.
- 9. To raise and appropriate the sum of \$3,000.00 (three thousand dollars) to: 1. Buy land suitable for a new school. 2. Buy desks, lights, materials, etc., that are needed now, providing that all materials bought now can be used in new school, if and when built. 3. To repair little school, or rent suitable quarters in Academy building, to prepare suitable place for first four grades until new school is built.

- 10. To see if the district will vote to raise and appropriate the sum of \$2,000.00 for the purpose of making necessary repairs to the Center School and to provide a more adequate water supply.
- 11. To see if the district will authorize the School Board to make application to the Federal Works Agency for funds under Title V of the War Reconversion and Mobilization Act for the preparation of plans and specifications for a new central school and to execute and deliver in the name of and on behalf of the school district, any and all contracts, agreements necessary for the purpose of obtaining a loan or grant from the Federal Works Agency or any other agency of the United States.
- 12. To see if the district will vote to raise and appropriate the sum of one thousand dollars for the purpose of a play field and site for a new central school, and to authorize the school board to execute any and all contracts or agreements necessary in the acquisition of said land.
- 13. To transact any further business that may legally come before the meeting.

Given under our hands at said Atkinson this 13th day of February 1947.

ERNEST R. SCOTT, MILDRED V. ILLSLEY, BEATRICE M. HUTCHESON,

School Board.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Atkinson:

It is with pleasure that I submit my annual report as Superintendent of Schools. This report deals with the Atkinson Schools for the school year July 1, 1945 to June 30, 1946. It is accompanied by vital reports by Mrs. Soule and Mrs. Thompson.

Again I am presenting information about our schools in statistical form. Many facts of interest can best be shown in this manner. I commend these tables as well as the reports of our special supervisors to your attention.

There have been no changes in the teaching staff since my last report. We are fortunate in retaining the services of fine teachers.

The enrollment last year was 55 as compared with 61 the year before. The school attendance averaged 91.85 percent of the membership. Six boys and girls completed the work of grade eight and all of these entered high school with hardly an exception.

During the war America's educational system made vital contributions to victory. Now in peace time, the task facing our schools is to help make that victory secure for tomorrow's children. To do that effectively our schools must be equipped to meet new needs and responsibilities. The most essential and necessary improvements lie in the fields of organization, program, personnel, and finance. Resolved into details they will include all the problems that affect or limit school efficiency.

The Crisis in education is well known due to information given both by press and radio. This information is fortunate. The public is conscious of the situation and this gives promise for the future. Teachers' low salaries and over-crowded class rooms are in evidence generally. There is a very great shortage of trained elementary teachers. There is only slight relief in sight for the next three or four years and a severe shortage is indicated over the next five or six years at least.

Substantial salary increases are due devoted teachers. They are a must in order to interest teachers as new ones are needed.

Also higher salaries than those now given, as well as a greater appreciation, generally, of the real worth to society of services performed by good teachers, must become evident before substantial numbers of high school graduates will enter Teacher Training Colleges and thus relieve the shortage. Better buildings and better equipment are a common problem.

Visual education has a great opportunity to aid education in every school district. The armed services made very effective use of film-strips, models, maps, charts, slides, and motion picture films in their training program. This effective wartime use of visual aids is giving new impetus to the use of similar materials in our schools. Most teachers need to learn more about the use of these devices and more funds would be needed to finance this work. The improved methods of instruction would more than justify the effort.

Last summer the silent motion picture machine owned jointly by the five school districts which make up our Supervisory Union, was exchanged for a Bell and Howell 16 m.m. sound machine. Each school should have its own machine, but until this time comes we are pleased with what we have. I had hopes that each school could have two films on Geography and History each month, but we have not been able to keep this schedule.

We hope that it will be possible, next year, to have an art teacher working in the schools on art much the same as Mrs. Thompson does in music. The present broadscope of art as a school subject is in great contrast with the "drawing" in many school programs. The major purpose of art education, today, emphasizes the development of the enjoyment and appreciation of art in every phase of daily living for all pupils. Art education still includes instruction in the manipulation and use of various art mediums, but solely for enjoyment and for creative self-expression.

The Grammar School reports that approximately fifty children were served noon lunches, the preparation and serving of which develops a spirit of cooperation and responsibility. A record player, used for music appreciation was purchased with the room's funds. Grades Seven and Eight made a trip to Boston to the Pop Concert, after completing the study of the symphony orchestra. For the bus pupils, who are unable to go to the library, library books are kept in circulation by bringing a number of books at a time to school and exchanging them often. This pro-

motes keener interest in reading and gives enjoyment. Both schools participated in the Memorial Day exercises by taking part in the program and helping to decorate graves, which was training in citizenship. Both schools contributed to Junior Red Cross and the March of Dimes. \$6.26 was collected for the March of Dimes in the Primary School.

During the year a "Good Citizens' Club" was formed in the Primary School. A set of rules for "Good Citizens" was made by the children and the idea of responsibility, regard for other's privileges and rights emphasized. Each member tries to become a good citizen of the school and community. Public Library books are always on hand for the children to read when their work is finished ahead of the group, or they may be taken home. Fifty books in all have been made available, including picture books which are enjoyed by the younger children. Also the Primary School reports that at Christmas, all the tree decorations were made by the children.

Standardized achievement tests were again given during the year to the children in grades one through eight. The Otis Mental Test was given to all in grades four. The results of these tests are of great assistance to the teacher in better planning the work for both individuals and the group. In most instances our median achievement has been at or above the standard set up by the test.

Conditions are such that there will be very little school building construction this spring and summer. Of the many towns in New Hampshire that wish to improve their school buildings, it is expected that some may start in about a year. The greater number, because of conditions, will not get under way until two years from now. The porch, the floor and windows of the Primary room need repairs and improvement. For the best lighting of a class room, the light should come from one direction and with window area equal to one fifth of the floor area. The Primary room would be improved if windows were larger.

In conclusion I wish to express my appreciation of the fine spirit of cooperation on the part of the School Board, the Teachers, Local Organizations, and the Community.

Respectfully submitted,

WILLIAM J. NELSON,

Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC

To Mr. William J. Nelson, Superintendent of Schools:

It is important that music be included in the daily routine of a child's life. This does not mean that he has actually to perform music, but he should have the experience of listening to good music. Radio and phonograph provide excellent opportunities, but to listen intelligently with added enjoyment, a child needs adequate musical guidance. Our musical appreciation

course, which starts in grade one and is carried on through the succeeding years works toward this goal.

A complete study of the symphony orchestra is made in grades seven and eight. The boys and girls who successfully pass a test on recognition of the musical instruments attend a performance of the "Pops" in Symphony Hall, Boston. Watching as well as listening to a large orchestra is of real value to the students.

The work in music reading and voice development is being carried on as successfully as ever by the teachers on whose assistance I rely to such a great extent.

Two of the Atkinson Academy students sang with the All State High School Chorus at the annual Music Festival, held in Nashua in April. It was a rich experience for those who took part and a joy to all who listened.

For the continued help and support of the teachers, and your cooperation, I am most grateful.

Respectfully submitted,

EVA W. THOMPSON.

HELP YOUR FOREST FIRE WARDEN PREVENT FIRES-IT PAYS!

Prevention is one of the most important phases of all fire effort. This is particularly true of forest fire control work. Preventing forest fires preserves valuable forest growth and other property, conserves manpower and permits their use in productive channels, saves taxpayers' money and conserves fire fighting equipment.

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. Appointed by the State Forester, upon recommendation of the Selectmen, he is charged by law with the responsibility of local administration of forest fire laws, fire prevention and suppression. In his work he is aided by deputy forest fire wardens who, in emergency, may assume his power and authority. The warden is guided in his work by instructions received from the State Forester and by the District Fire Chief who represents the State Forester.

The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires.

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year. Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

The elimination of human causes from the forest fire problem is the answer. This is not as difficult of accomplishment as it might appear at first glance. Let each one who reads this—

- 1. Use ordinary common sense with fire in and near woodland.
- 2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
- 3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
- 4. Cooperate with and assist the warden and urge others to do so.
- 5. HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—his efforts are only as effective as is the cooperation you give him!

MERTON A. WEBBER, District Fire Chief
