REPORT OF LIBRARY TRUSTEES

The past year has seen no outstanding changes in your Library or it's policies, however more new books of various types have been purchased and are now available.

The Trustees, at a recent meeting, discussed various improvements which, if they prove feasible will enable your Library to better serve the community.

We wish to thank those who have helped us during the year and a special word of gratitude to the Librarians.

The Trustees would welcome any criticisms or suggestions which you may have to offer.

Respectfully submitted,

E. EMMONS SANBORN,

Secretary

**REPORT OF LADIES' AUXILIARY OF THE
HAMPTON FALLS VOLUNTEER FIRE DEPT.**

The Ladies Auxiliary of the Hampton Falls Fire Department are pleased to report that we've had a very successful year. We wish to thank the citizens of the town for their generosity in contributing to our various projects; food sales, rummage sales etc. During the course of the year we have purchased the following equipment for the fire department; hose amounting to \$365.00 and gas masks amounting to \$122.12. We also have a goodly balance in our treasury for future needs of the department. We would be very happy to welcome new members to our organization at any time. We meet the first Monday of each month, usually at the Fire Station, however there is always an announcement in the Hampton Union.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Hampton Falls School Board:

I herewith present to you my 24th report as Superintendent of your schools. The current year began on Wednesday, September 9, 1953 with an initial enrollment of 94. This compares with last year's September enrollment of 77 and 61 of the year previous. Since the first grade was the heaviest with 26 pupils enrolled, the prospects for increased enrollment for future years is evident. It would seem that the time has come when a complete survey of our situation should be made.

At the present time we have an unsatisfactory alignment of grades owing to the large entering class. Since it is all important that our children secure a good start in the first grade, one teacher has been assigned to this group. This leaves two teachers to work with the remaining five classes. Because of grade enrollment it was necessary to divide the fourth grade. This leaves two teachers with two full grades and part of another. The census shows a first grade, at least, nearly as large as that of this year. If this proves true, our situation will be critical.

By enactment of the legislature of 1953 the position of Helping Teacher was established for six unions in the State. The criteria for determining the unions eligible for such assistance included such factors as: the number of school districts comprising a union, the number of teachers, number of pupils, number of schools, population trends and general educational problems of the communities served. With these criteria, Supervisory Union No. 21 was offered the services for which this law provided. The helping teacher is a full time employee

servng throughout the calendar year. She will be a highly trained person serving teachers, pupils, parents, and citizens of the communities. She is not a supervisor as such, but is at the service of the teachers at their request. With the large classes we now have, her help will be in increasing demand. The State Department of Education has obligated itself to pay \$2,500. toward the salary of this teacher. The remainder of the total salary is to be apportioned among the seven towns of the Union in the same manner as other Union costs. Since the total salary voted by the Union at its regular budget meeting was \$4,100. with the state paying \$2,500. of this amount, and since Hampton Falls pays 4.96% the cost to the district will be \$79.36. This amount is included in the school budget as presented.

Prior to the acceptance of this help the board members of the seven districts held meetings with the Commissioner of Education and with a helping teacher now working in New Hampshire. At these meetings the plan of this teacher was carefully outlined and her actual duties were explained. As a result of careful study by the board members, it was voted to adopt this means of improving the efficiency of our schools.

Federal Aid has been received in all seven districts of Union No. 21. This was made possible by amendment of the house bill 874. As originally passed, aid was given to districts educating children whose parents are employed on federal property "part or all of which is situated in such state." Since the Naval Shipyard is located in Maine, our district was not eligible for federal funds. However, the amendment allowed aid for children whose parents work on federal property and who live in reasonable commuting distance of said property. Thus our districts became eligible and received as reimbursement for the year 1952-1953 a total of \$32,172.90. Hampton Falls received \$1,128.60.

The work of the Supervisory Union is continually increasing. Teachers are being added almost yearly in each of the districts, because of constantly increasing enrollments. The entrance of pupils from other districts always offers problems of placement and orientation. The federal government has now entered the field through its aid program. These are a few of the reasons that the Union felt an executive assistant should be employed. This assistant will be paid on the same basis as all Union employees with each of the districts contributing its proportional share. A more efficient organization will result.

Hampton Falls has a school building of which it can well be proud. It is an attractive modern building and well located. Such a building attracts people to the town. The Parent-Teacher association is interested in developing the playground facilities. Good playgrounds help materially in the morale of the school. Children who learn to play together develop the ability to work together. The P. T. A. is to be commended upon their interest in this phase of the school program.

The immediate concern of the school board is the welfare of the children of the district. Under its guidance the school will keep pace with the ever increasing services of schools everywhere. For their continued advice and help I express my appreciation.

Respectfully submitted,

ROY W. GILLMORE,

Superintendent of Schools
