CARLETON M. WENTWORTH,
LORETTA J. MORROW,
C. G. FELKER,

School Board.

Madbury, N. H., February 4, 1946

REPORT OF SUPERINTENDENT OF SCHOOLS, MADBURY, N. H.

To the School Board and Citizens of Madbury:

This is my seventeenth annual report. The figures in the Report of the Nurse are those submitted to the State Board of Education last June, Miss Macdonald having left us as of September. Miss Myrtle Fletcher, who has been for several years Community Nurse at Milton, N. H., has succeeded Miss Macdonald and covers the same school districts.

The teacher situation is just as acute now as it has at any time since 1940. We have been fortunate to secure good teachers. Mrs. Christine Taylor of West Nottingham is continuing at North Madbury. She is an experienced teacher and a graduate of the Gorham, Maine Teachers' College. Mrs. Mina Sanders continues at the Center School. As one room rural schools, both are well taught. Last year the schools were equally divided, but this year enrollment at the Center School has dropped, and there is no first grade. The enrollment as of September this year is as follows: Center School—16; North School—20. For further information, see the table of Comparative Statistics.

Six pupils from the District are attending the Durham schools at the expense of the parents.

At the time of writing the District is paying for the transportation of only one pupil. The West family left town in October.

Both school rooms were painted during the summer and extensive repairs made to the vault at the Center School. The problem of drinking water at each school continues to be the hardest to solve satisfactorily.

Usually we have a long list of pupils perfect in at-

tendance for the year, but in 1944-1945 the weather was so severe that we did not have any pupil perfect.

Edward Huntley of the Center School was perfect for two terms; Haven Hayes of the Center School for one term and Julia Fernald of the North School for one term. It should be noted that Julia Fernald probably lives farther from the school than any other pupil who walks to school.

There have been no meetings of the County or State Teachers' Associations this year. Two meetings of all the teachers of the Supervisory Union have been held, and your teachers given a visiting day. From their reports I know that their visits were worthwhile.

Your superintendent attended the meeting of New England Leaders in Education held in October and the New England Superintendents meeting held in Boston in November. He has been a member of the Educational Council of New Hampshire for thirteen years.

Both schools have aided in the war efforts by the purchase of bonds and war savings stamps. No time has been lost because of war activities.

Mrs. Sanders at the Center School carries on a unique lunch program, most of the food being contributed by the parents. Federal aid is given to the extent of 4 cents per serving if certain abundant foods are used in addition to the contributions made. This enables a hot dish to be served each day with no charge to the pupils. At the North School almost all the pupils are able to go home for lunch.

The last session of the General Court passed a Teacher's Retirement Law which requires each teacher who joins to pay into the system a certain percentage of her salary. The School District must also pay into the system an additional amount, set at present at 4 per cent of the teacher's salary. This means that the Annual Budget should contain enough to cover this item. This

law should be welcomed by all as it will enable elderly teachers to be retired with some security. They are not covered by Federal Social Security.

As I write this report, I do not know what report the committee, appointed by the School District meeting last March, will make, but as a superintendent looking over your situation without any bias, I feel strongly that the only proper long time solution of your school problem is that of a consolidated school, and I urge the District to make ready its plans in order to be able to secure Federal Aid--if and when that is made available. If you study the situation, you will find several Districts in your vicinity laying plans for consolidation. Very few buildings over one hundred years old can be made suitable for modern conveniences.

Your School Board members have given generously of their time in order that schools should be properly supplied and operated. I wish them to know that their cooperation has been appreciated.

Respectfully submitted,

HOWARD L. WINSLOW,

Superintendent of Schools.
