Mayor's Message

To the Citizens of Berlin:

I regret that due to my continued and confined illness I have been unable to complete my message to you for publication in the annual report.

I have prepared some data on the activities of our municipality which I believe will be of interest and furnish an understanding of the various departmental reports and exhibits.

It is my hope to have my completed report published in the local newspapers as soon as physically possible.

Respectfully,
GEORGE A. BELL

CITY GOVERNMENT

BERLIN, N. H.

1946-1947

EXECUTIVE DEPARTMENT

MAYOR

GEORGE A. BELL

Elected annually in March by the people. Salary \$1,500 per year.

CITY COUNCIL

One Councilman elected annually for term of three years by the voters of each ward. Salary \$6.00 for actual attendance at regular, special and adjourned meetings.

Not to exceed \$250.00 annually.

Ward 1—J. SINAI DEMERS
ROLAND MORNEAU
GUY J. FORTIER

Ward 2—EDMUND CHALOUX
ROMEO DESILETS
LAURIER LAMONTAGNE

Ward 3—*WILLIAM C. THOMAS
OLAF M. NELSON
LOUIS DELORGE, JR.

Ward 4—LEO R. LEBLANC
ALBERT DESROCHERS
EMILE J. PARENT

*Deceased

CITY CLERK

GASTON A. COURNOYER

Elected annually by the City Council. Also Clerk of City Council.

Office in the City Hall. Salary \$2,372.00 per year and fees.

DEPUTY CITY CLERK

MARY E. MORGAN

Salary \$2,122.00 per year.

CITY TREASURER

LLOYD BUDWAY

Salary \$400.00 per year.

CITY AUDITOR

PEISCH & ANGELL

Hanover, N. H.

Appointed annually by the Mayor and confirmed by the Council.

CITY ENGINEER—STREET AND SEWER COMMISSIONER
ALFRED KING

Appointed by the Mayor and confirmed by the Council.
Office, City Hall. Salary \$79.00 per week.

INSPECTOR OF BUILDINGS
NAPOLEON JACQUES

Appointed annually by the Mayor and confirmed by the Council.
Residence, 517 School Street. Office, City Hall.
Salary, \$264.00 per year.

SEALER OF WEIGHTS AND MEASURES
NORMAN ROBICHAUD

Appointed annually by the Mayor and confirmed by the Council.
Residence, 299 Grafton Street. Salary \$300.00 per year.

COLLECTOR OF TAXES
EARLE A. YOUNG

Appointed annually by the Mayor and confirmed by the Council.
Salary, \$52.00 per week.

CITY SOLICITOR
ARTHUR O. DUPONT

Appointed annually by the Mayor and confirmed by the Council.
Office, Main Street and City Hall. Salary \$660.00 per year.

BOARD OF ASSESSORS
ROMEO J. BARBIN
THOMAS BELLEFEUILLE
FRED G. HAYES, JR.

One appointed annually by the Mayor and confirmed by the Council for a term of three years. Meet Assessors' Rooms second Tuesday of each month. Salary \$500.00 each per year.

OVERSEER OF THE POOR

EDGAR BOUTIN

Appointed annually by the Mayor and confirmed by the Council.
Salary, \$49.75 per week.

BOARD OF HEALTH

GENEVA BERWICK, Chairman, term expires April 1, 1947.

MARY ANN LAFFIN, term expires April 1, 1948.

IRVING MOFFETT, D. O., term expires April 1, 1949.

Official Staff

A. F. HICKEY, Health Officer, Milk Inspector.

MARIE V. RAMSEY, R. N., Public Health Nurse.

IDA ROY, R. N., Parochial School Nurse.

CORINNE GREGOIRE, R. N., District Nurse.

GLADYS FANCY, R. N., New Hampshire Tuberculosis Association Nurse.

JEANNETTE COTE, Clerk Stenographer.

Office and Laboratories, City Hall.

CLINIC PHYSICIANS, 1946

J. E. LAROCHELLE, M. D., Venereal Diseases.

B. S. MUNRO, M. D., Pre-School.

POLICE DEPARTMENT**POLICE COMMISSIONERS**

ARTHUR O. DUPONT

SAMUEL P. NEVINS

W. B. FARQUHARSON

One commissioner appointed annually by the Governor to serve
for three years. Salary, Chairman \$150.00 per year.

Other members, \$100.00 per year.

CITY MARSHAL

WALTER J. HYNES

Salary, \$66.50 per week.

ASSISTANT CITY MARSHALS

HERMAN OLESON

GEORGE OUELLETTE

Salary, \$54.50 per week.

JUSTICE

J. LOUIS BLAIS

Appointed by the Governor and Council, Office, Main Street.

Salary, \$1,200.00 per year.

ASSOCIATE JUSTICE

MATTHEW J. RYAN

Office, Sheridan Building, Main Street.

Salary, \$3.00 when presiding.

CLERK OF COURT

E. ARTHUR VALLIERS

Salary, \$400.00 per year.

Assessors' Report

February 10, 1947

To His Honor, the Mayor, and Members of the City Council.
Gentlemen:

We submit herewith our report for the year ending January 31, 1947, being the fiftieth annual report of the City of Berlin.

The following is the inventory of taxable property of the City of Berlin for the year 1946.

Lands and buildings	\$ 9,006,254.00
Neat stock, 6	290.00
Cows, 172	6,940.00
Hog, 1	30.00
Fowl, 2790	2,550.00
Horses, 72	7,030.00
Sheep, 2	20.00
Ox, 1	50.00
Growing wood and timber.....	40,311.00
Vehicles	33,320.00
Oil tanks	38,330.00
Electric plants	372,090.00
Stock in trade	2,067,000.00
Mills and machinery.....	6,524,270.00
<hr/>	
Total.....	\$18,098,485.00
Bank stock	\$ 1,274.65
Poll taxes	15,732.00

Uncommitted to Tax Collector

1945 Poll taxes @ \$2.00	\$ 72.00
1945 Special taxes @ \$3.00.....	111.00
1946 Poll taxes @ \$2.00	302.00
Real and personal taxes	7,271.40

Abatements

Years of Commitment	Poll Tax	Real Estate and Personal
1946	\$ 392.00	\$ 123.11
1945	72.00	63.75
1944	_____	_____
1943	_____	12.32
1942	_____	43.05
1941	1,000.00	123.21
1940	2,630.00	14.94
1939	1,987.50	_____
1938	_____	_____
1937	_____	58.50
1936	_____	78.75
Total	\$ 6,081.50	\$ 517.63

We wish to express our appreciation for the courtesies and assistance given us during the year by His Honor, the Mayor, City Council and other members of the City Government.

Respectfully submitted,
 ROMEO J. BARBIN,
 Chairman,
 THOMAS BELLEFEUILLE,
 FRED G. HAYES, JR.,
 Board of Assessors.

Report of Relief Department

To His Honor, the Mayor, and Members of the City Council:
Gentlemen:

I submit herewith my report as Overseer of the Poor for the fiscal year ending January 31, 1947.

A total of 259 cases were aided during the year comprised of 101 direct relief recipients, 16 soldiers' aid, 15 board and care of adults, 7 board and care of children and 120 old age assistance, a grand total of 412 individuals in all categories. The City transferred liability of 11 cases to the County of Coos and they in turn transferred 6.

An appropriation of \$45,000.00 was credited the Relief Department for all expenditures. The sum of \$44,628.05 was expended less refunds of \$2,434.47, leaving a net expenditure of \$42,193.58 with an unexpended balance of \$2,806.42.

In conclusion, I wish to express my thanks and appreciation to His Honor, the Mayor, members of the City Council, especially the members of the Relief Committee, and my office staff for the splendid aid and cooperation given me in the performance of my duties.

Respectfully submitted,
EDGAR BOUTIN,
Overseer of the Poor.

FINANCIAL STATEMENT:

Appropriation from City.....	\$ 45,000.00
Credits or refunds	2,434.47
	<hr/>
	\$ 47,434.47

EXPENDITURES:

Groceries	\$ 5,600.00

Footwear	86.73
Clothing	178.83
Miscellaneous, funerals, maids, lights, trans- portation, etc.	1,648.58
Cash allowances	4,994.52
Mileage	255.00
Salaries	6,736.50
Office supplies, repairs and equipment.....	1,065.05
	<hr/>
Grand total expended.....	\$ 44,628.05
	<hr/>
Unexpended balance.....	\$ 2,806.42

Report of Public Works

Herewith is the annual report of the Public Works Department for the fiscal year ending January 31, 1947.

York Street

This street and 36-in. reinforced combination concrete sewer and surface drain which has been under construction since August, 1944, has been completed. 1530 lineal feet of concrete sidewalk was laid also necessary walks, etc., constructed. Tarring of this street will be necessary when the weather permits.

Western Avenue

State funds under Town Road Aid Program were allotted for the construction of 1,800 feet of street, the City's share of this cost being \$1,452.28. It is expected that state funds will be available in the coming year for the extension of this project.

Streets Rebuilt and Surfaced

The following streets were reconstructed and tarred. A sealer coat of tar should be laid on these in the very near future:

Norway Street (extension), 200 lineal feet.

Near Amoco Tanks, 300 lineal feet.

Brown Street, 450 lineal feet.

Enman Hill, 300 lineal feet.

Bermico Street, 200 lineal feet.

Verdun Street, 700 lineal feet.

Thomas Street, 200 lineal feet.

Berwick Street, 200 lineal feet.

Delia Street, 200 lineal feet.

Gendron Street, 500 lineal feet.

Hutchins Street, 700 lineal feet.

Sixth Avenue, 100 lineal feet.

Duguay Street, 450 lineal feet.

Cushing Street, 150 lineal feet.

Sidewalks

The following six-foot concrete sidewalks were constructed during the past year:

Burgess Street Sidewalk and retaining wall, 120 lineal feet.

Fourth Avenue Sidewalk, 420 lineal feet.

Second Street Sidewalk, 315 lineal feet.

Cole Street Sidewalk and street grading, 330 lineal feet.

Wight Street Sidewalk, 1,300 lineal feet.

Sewer and Drain Construction (New)

The following sewers and drains were completed:

Eleventh Street, 160 feet 12-in. R. C. P. (Sewer).

Third Avenue Drain, 250 feet 8-in. Tile (Drain).

Off Standard Street, 80 feet 8-in. Tile (Sewer).

Western Avenue, 104 feet 12-in. R. C. P. (Drain).

Wescott Street, 215 feet 18-in. R. C. P. (Drain).

Coos Street, 70 feet 24-in. R. C. P. (Drain).

The relaying of the present sewer line on Norway Street is inevitable, the elevation of the present one being such that necessary cellar drains cannot be installed in residences in this district. The cost involved in this project would be a major one but would greatly decrease the present cost of sewer maintenance.

Emergency Construction

Approximately 300 feet of 18-in. R. C. Pipe had to be relaid on Main Street to replace the tile pipe that had broken after many years of service. This was done at a cost of \$3,240.00. This cost may seem somewhat excessive but due to having to break through concrete, excavate to a depth of ten feet or more and encountering ledge, back filling, tamping, and relaying a reinforced concrete slab the total length, and also traffic conditions making it difficult to operate, we feel that the cost is reasonable under these conditions.

Tarring Streets

Approximately twenty miles of our streets were surfaced treated in the past summer. We recommend that approximately the same amount be undertaken next summer and to include Main Street from Pleasant Street intersection going northerly to Eleventh Street. This section should be reshaped with a bituminous mix thus eliminating the poor drainage condition on this thoroughfare.

Parks and Playgrounds

Demands have been increasingly made for more recreational facilities and the following has been done along with the other duties of the department:

Community Field	
Construction of bleachers.....	\$ 1,000.00
Maintenance of field	530.31
Memorial Park	
Sub grading for baseball diamond.....	1,581.28
Regular maintenance of Glen Avenue, Pleasant Street, Grand Trunk Station and Fourth Street Parks	1,106.92
Green Street Area, sub grading	448.50
	<hr/>
Total.....	\$ 4,667.01

Cemetery

Regular maintenance and digging of graves was carried on as usual. The much needed painting of the iron railing fronting the old cemetery was also done. Tentative plans are under way for the installation of a wire fence and the enlarging of the new cemetery.

Mechanic Street Building

The enlarging of quarters for the Veterans of Foreign Wars has necessitated considerable expense to our department for a waiting room for our employees that was constructed in the basement.

Garbage and Ash Collection

Due to the increase in oil burner installations, the present incinerator is inadequate for proper garbage disposal. Plans should be made for the installation of another furnace.. The re-location of a new incinerating plant should be considered in the near future.

Equipment

This past year the department has paid for the following equipment ordered the previous year, namely:

1 New Mack Chassis Model E. H.....	\$ 3,855.36
1 8½ yd. Bucket Loader (ash truck body).....	2,105.83
1 Austin Western Grader.....	708.29
	<hr/>
Total	\$ 6,669.48
Equipment ordered and paid for year ending January 31, 1947.	
1 Dodge Coach	\$ 1,212.00
1 1946 Pick-up Truck	1,040.25
2 3-ton Reo Trucks	8,723.08
	<hr/>
Total.....	\$ 10,975.33

Berlin Mills Bridge

This structure was found to have a safe load capacity not to exceed 60 tons. This bridge requires comparatively little cash outlay if the work is undertaken at an early date.

Y.M.C.A. Bridge

The condition of this bridge was found as very poor. The original plans of this structure were not designed for heavy truck traffic such as are on our more modern bridges. After a thorough investigation of the steel members by qualified bridge engineers of the State Highway Department, the City was advised that the maximum safe load capacity could not exceed eight tons, therefore construction of sidewalks on either side of this bridge could not possibly be considered, as a recommendation to future construction of a bridge at this site. An alignment of the bridge with the street line of High Street would be an ideal traffic solution for east and west bound traffic to and from our new mill being built. This construction would not be too costly a project as both shore lines are natural ledge ties for bridge approaches, thus eliminating the costly item of drilling and pier construction which ordinarily involves nearly half of the total cost.

East Mason Street Bridge

This bridge was also completely investigated and the maximum safe load computed as not to exceed thirty tons. It was found that if the present concrete flooring were to be replaced by open steel grid flooring that the load could be safely increased to nearly sixty tons. It was recommended that the complete steel work be thoroughly sand blasted and painted with a high quality lead paint. A favorable consideration of the recommendations as outlined by these competent engineers would certainly be an asset and probably a life saving investment to the citizens of Berlin. The construction of new commercial buildings and mills such as are now in progress on the easterly side of the river will most certainly mean an increase in the load weight of traffic to and from the east side.

Airport

A few necessary repairs have been made on the hangar. The roof on the present building is very much in need of a waterproof coating to eliminate the present erosion from doing further damage. This recommended paint would either be an asphalt or aluminum paint. The dirt floor should be replaced with concrete

or asphalt, also proper living quarters for the manager should be seriously considered.

Police Station Parking Area

Considerable gravel and tar were used on this area. A sealer coating of either tar or asphalt would keep this area in a very good condition for a few years. The placing of bumper logs and proper line markings would facilitate the parking problem and also eliminate the present damage being done to abutting properties.

Wages

The two wage increases, namely 11c and 6c per hour, had been unforeseen in estimating the 1946-1947 budget. This has meant an increase in our payroll of approximately \$20,000.00.

Recommended Purchase of Necessary Equipment

The present maintenance cost of a great part of our equipment is excessive. Several of our trucks were purchased some thirteen years ago and cannot be expected to perform the necessary work needed in our city at a minimum cost. Snow removal equipment is badly needed to maintain the standards of snow removal as justly requested by our citizens. The following is the required equipment needed to replace obsolete machinery now in use:

- 2 Heavy Duty Dump Trucks (3 and 5 tons).
- 2 Truck Chassis (1½ tons).
- 1 10-ton Tractor with Bulldozer, Blade Plow and Wing Attachments.
- 1 Side Loading Snow Loader.
- 1 Pick-Up Street Sweeper.
- 2 Track Type Sidewalk Plows.

Snow Removal

Snow removal in Berlin has now become a major problem. We now have over fifty miles of streets to plow and sand. Approximately half of this amount of streets involves the complete or partial removal of snow. This cost amounts to a great portion of our appropriation, thus the need for faster and more efficient equipment to meet the many requests of the tax payers during the winter months.

Conclusion

In conclusion, the department employees and myself extend our most sincere thanks to the Mayor, Members of the City Council, the Committee on Public Works and the general public for their kind cooperation in helping us fulfill our duties.

Respectfully submitted,
ALFRED G. KING,
Commissioner of Public Works.

Report of Parks and Playgrounds

We, the undersigned members of the Parks and Playgrounds Committee of the City, herewith submit our annual report of activities for the summer of 1946.

The five playgrounds were opened for a period of eight weeks under the general supervision of Mr. C. Edward Morton. The full time instructors at the school grounds were Mrs. Edna Prowell, Miss Isabel Hachey, Miss Grace Devlin and Mrs. Charles Armstrong. Mr. Richard Wagner supervised baseball at the Community Club Field.

All playgrounds were active with a good average attendance. A successful field day, with all playgrounds participating, was held at Horn Field. Each playground held some of the following attractions: Hobby Day, Doll Show, Poster Contests, Soft Ball Tournaments, in addition to routine sports, games and handicraft.

Our present budget allows for very little in addition to current expenses. We, therefore, recommend that more permanent equipment be purchased.

Playgrounds are essential at all times but especially so during these days of increased juvenile delinquency.

Respectfully submitted,
S. D. STORY,
EMMANUEL CHRISTIANSEN,
Parks and Playgrounds Commissioners.

Report of Building Inspector

I herewith submit my report as Building Inspector for the year ending January 31, 1947.

During the year 155 permits were issued at a total of \$159,309.00. They were divided as follows:

12 Residential dwellings, amount.....	\$ 40,850.00
9 Warehouses, stores, restaurants.....	35,800.00
30 General repair, and demolition to rebuild.....	30,050.00
20 Garages	22,720.00
23 Porches, sheds, henhouses	5,026.00
22 Alterations, and new entrances.....	17,482.00
21 New roofs and exterior repairs.....	7,381.00
13 Neon signs	
5 Awnings	
Total	\$159,309.00

I gratefully thank the City Clerk's office, the Fire Chief, and Commissioners of Public Works for their help and cooperation.

Respectfully submitted,
NAPOLEON JACQUES,
Building Inspector.

Report of City Clerk

January 31, 1947

To the Honorable Mayor and City Council
Berlin, New Hampshire

Gentlemen:

I submit herewith my report as City Clerk for the year ending January 31, 1947.

I have collected for the City of Berlin and credited to the appropriate departments, the following sums:

Automobile taxes	\$ 11,647.61
Dog taxes	809.60
City Hall	65.00
City Hall rest room.....	118.90
Public Works	9,732.71
Fire Department	6,877.33
Cemetery	1,096.00
Municipal Halls	198.00
Tax deeds	1,682.17
City Clerk's Department, licenses, etc.	537.75
Miscellaneous. rentals, etc.	3,985.80
Election expenses	54.00
	<hr/>
	\$ 36,804.87
Paid City Treasurer.....	\$ 36,804.87

Vital Statistics

The following tabulation shows the listing of births, deaths and marriages as recorded during the past five years:

	1942	1943	1944	1945	1946
Births	428	404	348	327	472
Marriages	132	82	83	118	296
Deaths	163	201	168	171	181

Respectfully submitted,
G. A. COURNOYER,
City Clerk.

COMMISSIONERS' REPORT

To His Honor, the Mayor, and Members of the City Council.
City of Berlin, N. H.

Gentlemen:

The first full year of operation following the second World War has brought on much activity in your Water Department. Water consumption has increased twelve percent, gross water sales approximately eleven percent over the year 1945, and six per cent over the year 1941, which was our best year since water rate reductions went into effect in 1932. However, six percent of the increase was realized from industry and new construction. The balance from some three hundred domestic services put back into operation.

Plans this year consisted of several projects, only one of which was thoroughly completed. Namely, our filter back-washing system. The others, although intentions were good, were no more than started.

The tightening up of materials, and shortage of labor, the latter of which was caused by other local construction, made it advisable to curtail part of the plant expansion program, and bend every effort toward rendering a better service to the individual, who for the past several years has been made to accept it as he receives it.

The relaying of old services exceeded the anticipated budget figure by eight hundred percent. Cost of materials averaged thirty percent above all previous prices on record.

Fifty percent of the original eleven percent of the increased

gross income was expended on 40 hour basis payroll wage and salary increases.

In spite of all this, the Department managed to safely operate within income, and still expend the usual sum of approximately ten percent of gross income for permanent improvements.

It may be of interest to note that during the year, the value of free water to the citizens amounted to \$11,642.82. One hundred thirty-four millions of gallons was used for this purpose, equivalent to approximately forty-nine days' average consumption for the entire city.

Financial

As may be seen from the financial statement further on in this report, thirty thousand dollars are invested in Government bonds. These have been accumulated by careful planning, earmarked for new work, details of which may be found further on in our Superintendent's report. It is hoped next year, providing labor and materials are available, to use some of these bonds for expansion of our carefully laid out program for the future.

With water costing $6\frac{1}{2}$ cents per ton delivered to the home, the average water bill is slightly over one cent per day per person. There are no middleman's costs of profits included, as the producer delivers the supply, not alone to the door, but even to the top floor of the houses. All this is taken for granted, and as time marches on, and our financial obligations become less, we expect to steadily improve our water supply, and render service at a minimum cost.

For details of your Water Department, we refer you to the Superintendent's report, and for financial standing, to the Auditor's report, both of which are included herewith.

Respectfully submitted,
 GEORGE A. BELL,
 Mayor, Member Ex-Officio,
 H. G. GOSSELIN,
 Chairman,
 A. W. O'CONNELL,
 Clerk,
 RICHARD CHRISTIANSEN,
 Commissioner
 EDWARD MURPHY,
 Commissioner.

SUPERINTENDENT'S REPORT

Board of Water Commissioners, City of Berlin, N. H.

Gentlemen:

The year ended has been one of the most active in recent years. Twenty-five new services were added to the system, and an equal number relaid with new pipes. Many more were reamed out with our pipe cleaning machine.

Wash Water System

The major job for the year was the constructing of a back washing system. This eliminates the tremendous overload on the filters during washing periods, by the use of filtered water for washing, taken direct from the city flow.

Construction work consisted of the erection of one seventy-five thousand gallon tank for filtered water storage, constructed of California redwood, thirty feet in diameter and twenty in height. The tank is located four hundred feet in the rear of the filter plant, and at an elevation of eighty feet above the filters. Pipe line is twelve inches in diameter, and composed of transite pipe. Other necessities included numerous valves and fittings inside the plant for operation. The storage tank is filled with filtered water through a by-pass from the main city supply line during low load periods. The project was completed early in the year, so that it could be utilized during the peak summer demands.

We are pleased to say that the heretofore washing of filters has been cut down at least fifty percent, which in turn will not only eliminate labor costs, but will reflect directly upon the life of the filter beds. The cost of this job amounted to some eight thousand dollars.

York Street

Four hundred and fifty feet of six-inch pipe was laid in York Street during the year. The work is by no means completed. Permission was granted for us to lay our new pipe in a trench being excavated for a combined sewer and surface drain. Both ends were plugged temporarily.

The job when completed will supplement a now existing 2-inch line supplying some fifty families with water. Next year, we plan to relay all the services, cut out the old line, and connect them onto the new main. In addition to furnishing better

domestic service, there will be added better fire protection. The connecting of the new line will be made near Pleasant Street with the present 12-inch main trunk line on one end, the other end, at Granite Street, to a 6-inch line, thereby forming a loop, instead of the present existing dead ends.

Distribution Line to East Side

This was a 12-inch wooden stave pipe line suspended underneath the present Community Club bridge upon a wooden carrier. The line was constructed in 1928 and is one of the main feed lines for the East Side of the City.

The action of acid fumes from the mills, together with dampness from the river, always caused us unending troubles. This year, replacement was made with transite pipe, a composition of asbestos and cement. Each length is joined together with couplings and flexible rubber gaskets, and is acid resisting. The pipe was insulated from frost by rock-wool covering, over which heavy roofing paper was tied for weather protection.

Meters

The meter situation has been a headache for the past few years due to lack of sufficient replacement parts and demands from flat rate customers for metered service. However, during the entire year we managed to obtain a total of seventy-five new meters at a cost of \$1,300.00, the largest single year's investment ever made in the purchase of new meters. Figuratively speaking the equivalent of seven years' normal purchases.

The book value of some six hundred meters in service and on hand, most of which average twenty years of service, is about \$2,300.00, and will, in three years more, become fully depreciated. The sum for materials alone, invested in repairs for this year, amounted to over \$600.00, about one-fourth of the present book value. The average cost for repairs amounted to twelve dollars per meter for parts. Taking labor into consideration, the cost was more than the price of new meters.

The bulk of our meters are obsolete. Several types have not been manufactured for many years. They have been kept in operation by the purchase of inferior repair parts from meter specialty companies. Repairs do not make for the precision required, or found in the more modern type of water meter. With meter companies now returning to a production basis, it would be money well spent to replace the old meters at once.

Godfrey Reservoir Basin

This storage reservoir comprising some nine acres, has not been washed since 1940. Previous to that time, washing was undertaken every year.

The installation of a power operated sluice gate during the summer of 1940, eliminated the necessity of yearly hydraulic pressure washing.

Soundings made during this year, however, indicate excessive accumulation of organic matter and silt, especially along the sides of the reservoir basin. During the winter months especially, this forms a base for fungus growths, which follow through the transmission line and accumulate upon the filter beds. We hope next year to do a thorough job of cleaning.

Storehouse

The proposed storehouse to centralize all tools and equipment was abandoned for the year due to lack of labor. However, a start was made. The lot was brushed over, a foundation wall started, and part of the lot graded. We hope next year to continue with the work.

Wooden Pipe Line

Some five hundred feet of 16-inch wooden transmission main, beginning at the Jericho road junction with the Ammonoosuc pipe line, and extending westerly, has given us much trouble lately, and should be replaced. Pipe has been ordered, and we hope to do the work next year.

Plans for the Future

Much proposed work is scheduled in years to come, most of which is listed further on in this report. All of which we hope to do in a constructive way, as earnings will permit.

In closing, and on behalf of other members of your Department, I wish to express my many thanks for the courtesies extended to us in performing our duties throughout the year.

Respectfully submitted,
 ERNEST E. TANKARD,
 Superintendent.

RECOMMENDATIONS

Sedimentation Basin and Chemical Treatment Plant

Partially completed, cost to finish.....\$ 35,000.00

**Auxiliary Supply to Supplement Ammonoosuc in Case of
Break or Drought**

Ground water supply at Smith Field and 10-inch main to City in accordance with Department plans and specifications	25,000.00

- 2 Ingersoll paving breakers
- 1 Ingersoll tamper
- 1 Myers force pump
- 2 Diaphragm hand pumps
- 1 Leadite burner
- 6 Wheelbarrows
- 2 Tripods
- 5 Kerosene lanterns
- 1 Grindstone
- 1 1½-ton chain block
- 1 Pair large chain tongs
- 1 Pair small chain tongs
- 6 24-inch pipe wrenches
- 2 18-inch pipe wrenches
- 8 14-inch pipe wrenches
- 2 Vises
- 1 Large pipe cutter
- 3 Beaver die stocks
- 3 Hack saw frames
- 1 Lead melting pot
- 2 Ladles
- 1 Clark meter testing outfit
- 3 Blasting chains
- 2 Blasting batteries
- 1 Electric drill

- 4 Pairs snowshoes
- 1 Gasoline torch and soldering outfit
- 1 Darley leak locator
- 1 Darley pipe locator
- 25 Picks
- 16 Breaker points
- 12 Hand drills
- 6 Crowbars
- 12 Snow shovels
- 5 Square shovels
- 25 Jack hammer drills
- 2 Scythes
- 4 Stone hammers
- 4 Striking hammers
- 25 Plug drills
- 6 Pairs rubber boots

SUMMARY OF STATISTICS

For the Year Ending December 31, 1946

BERLIN WATER WORKS

Coos County, N. H.

General Statistics

- Population as of January 1, 1940—19,084.
- Date of construction—Main construction, 1892.
- Source of supply—Bean and Horn brooks, Ammonoosuc river.
- Mode of supply—Gravity.

Statistics Relating to Distribution System

- 1 Kind of pipe—Cast iron, wrought iron, copper, cement lined and wooden stave.
- 2 Sizes—Two to sixteen inch.
- 3 Extended during year—730 feet.
- 4 Total now in use—48 miles.
- 5 Length of pipe less than 4 inches in diameter—16 miles.
- 6 Number of hydrants set during year—None.
- 7 Number of hydrants changed during year—3.
- 8 Number of public hydrants—197.
- 9 Number of private hydrants—97.
- 10 Number of stop gates added during year—2.

- 11 Number of stop gates smaller than 4-inch—223.
- 12 Number of stop gates now in use—493.
- 13 Range of pressure in mains—30 to 150 pounds.

Statistics Relating to Services, Meters, Etc.

- 1 Kind of pipe—Cast iron, wrought iron, brass, copper and cement lined.
- 2 Sizes— $\frac{3}{4}$ -inch to 6-inch.
- 3 New services added during year—21.
- 4 Total number of services now in use—3029.

Meters

- 1 Number of meters added for the year—27.
- 2 Number of meters now in use—546.
- 3 Number of meters changed during year—70.
- 4 Number of meters tested—90.
- 5 Percentage of services on meter—16%.

Booster Pumps

- 1 Location—Corner Spring and Guilmette streets.
Manufactured by DeLaval Steam Turbine Company.
Description—Two single stage centrifugal pumps in series. Pumps from distribution system into a 40,000 gallon emergency storage tank on Hillside Avenue. (Pump to be used only in an emergency.)
- 2 Location—Near junction of Kent Street and Forbush Avenue.
Manufactured by DeLaval Steam Turbine Company.
Description—Single stage centrifugal. Direct connected to the distribution mains. Pumps into a 20,000 gallon storage tank on Forbush Avenue.

Purification Equipment

- 1 Chloro-feeder unit, venturi controlled, in service on Ammonoosuc line.
- 2 Chloro-feeder unit, meter controlled, in service on Horn brook supply line.
- 3 Chloro-feeder unit, venturi controlled, in service on Bean brook supply line.
- 4 Chloro-feeder (emergency unit) water meter operated, in stock.

SCHEDULE OF WATER RATES

Effective July 1st, 1936

Flat Rate

For first family, per year.....	\$ 9.90
For second family, per year.....	8.10

For third family, per year.....	7.20
For fourth family, per year.....	6.30
Bath tubs, each	2.25
Water closets, each	4.50
Wash basins, each	2.25
Maximum rate, covering private dwelling house occupied by one family.....	22.50
Offices and stores, faucet.....	9.00
Stable	2.70
Each additional animal.....	.90
Hose, to be used not more than two hours per day, from May 1st to October 1st	3.60

Fountains

To be used not more than six hours per day from May 1st to October 1st:

For 1/16-inch jet or less.....	\$	3.60
For 1/8-inch jet		9.00

All fountains having an orifice or discharge greater than 1/8-inch in diameter, will be supplied with water by meter.

Meter Rates

Service charge	\$0.90 per quarter
First 1,500 feet	\$.27
Next 3,500 feet20
Next 5,000 feet16
Next 10,000 feet13½
Next 20,000 feet11
Over 40,000 feet09
Minimum yearly meter charge.....	19.80

Report of Library Trustees

Trustees

KATHERINE G. CYR, Chairman NELLIE R. LOVETT
LEWIS W. MORRISON

Elected for three years, one each year, by the people. No salary.

Librarian

LOTTIE KAILEY SHERIDAN
Salary \$1,827.48 per year

Assistant Librarian

GERMAINE LEBLANC
Salary \$1,452.96 per year

Second Assistant

FERNANDE BLAIS
Salary \$1,438.08 per year

Children's Librarian

JULIA M. LAFFIN
Salary \$1,688.52 per year

We, the Trustees of the Berlin Public Library, submit herewith the fifty-third annual report, together with the Treasurer's statement and the Librarian's statistics for 1946-47.

Circulation

The drop in circulation for this year is attributed by the Librarian to the number of young people attending school away from home and also to the fact that many still remained in the service. It is also thought that the Veterans' Classes and Night School sessions at the Berlin High School diverted many potential readers. Also in setting up the new shelves in the Children's Department, some curtailment of service was necessary.

Circulation statistics, though an indication of a library's popularity, are not always a true measurement of its service and use. The Library's Reference Department is being constantly added to as new material becomes available. The continual stream of queries that are answered through its resources are an invaluable but unrecorded part of the daily library routine. Many of the questions come over the phone.

The State Library and inter-Library Loan services are also being constantly made use of for the benefit of patrons seeking the loan of technical books and books not easily available by the local Library. Music records as well, are borrowed from the collection of the State Library upon request.

Repairs and Improvements

According to the modernization program which began in 1942, new maple shelves, desk and magazine rack were installed by A. Lessard in the Children's Department. These shelves have been on order for some time but due to war conditions were not received until this year. Many favorable comments have been heard, according to the Librarian's report, regarding the improved appearance of this Department. The old bookcases which had served a long and useful career were donated to the Girl Scouts' new home where they are much appreciated.

In 1945 it was thought that the Library roof needed repairs. Investigation proved that an entire new roof would be necessary, copper metal sheeting being recommended as more enduring. This new roof was completed in May, 1946, by Hoffman & Godbout.

In the late fall of 1946, new fluorescent lights were installed in the main Library. These are a great improvement and many business men have visited the Library and commented favorably to the librarian about their appearance and effectiveness. During their installation it was considered advisable to reinforce the skylight in the lobby, by means of iron braces. This work was done by the Electrical Department of the Fire Station and the Trustees appreciate the thoroughness with which Mr. Dubois and his men did their job.

New and attractive magazine covers were purchased for the protection of current magazines. The main door, which was badly weatherbeaten, received a renovation at the hands of Mr. A. LaRiviere who applied three coats of varnish to the great improvement of its appearance. For the safety of the children, an iron rail and wire fence was put around the entrance to the Children's Department by the Public Works Department.

Personnel

There were no changes in the regular Library staff during 1946. By action of the City authorities, two pay raises granted to all City employees were also extended to include the Library staff.

Mrs. Sheridan trained two new substitutes to be on call when needed.

In June, 1946, Fernande Blais attended Summer Institute in Concord, N. H., for a period of two weeks, where courses were given in cataloguing, reference, book selection and children's work.

The Trustees feel that the effectiveness of the Library as a community service, is due in a large measure to the cheerful cooperation of the Librarian, Mrs. Sheridan, and each member of the Library staff.

General

In September, the Neighborhood Library Association of the North Country, held its annual meeting in Berlin. Librarians from different parts of the state attended and many questions were discussed. Mr. Glasson, a former Trustee, gave an informative short talk and invited the Librarians to inspect his Library at the Brown Company Research Laboratory, of which he is Librarian. At the afternoon meeting Mrs. Robert Hodgdon gave an interesting and appropriate review of Ernest Poole's "The Great White Hills of New Hampshire."

The annual celebration of Book Week with the slogan: "Books are Bridges" was again arranged by Miss Laffin of the Children's Department, and once more indicated the popularity of this event with the children and their parents.

Recommendations

During the coming fiscal year, it is the hope of this Committee that the modernization of the Library be continued. We recommend special attention to increasing its book capacity by the installation of new book stacks in the Main Library where they are much needed. The present lighting for these stacks compares unfavorably with the new lighting in the main part of the Library. However, it is recommended that new stacks be considered before making any changes.

The outside of the building has become an eyesore to many public-spirited citizens as it is in great need of an expert job of cleaning and a new paint coat for all trim. The new lock for the main door, so far unobtainable, should be purchased as soon as conditions permit. Also, a railing should be placed down the center of the entrance steps as at City Hall, to insure the safety of patrons.

Respectfully submitted,
 KATHERINE G. CYR,
 NELLIE R. LOVETT,
 L. W. MORRISON,

Trustees.

Report of Fire Department

Public Safety

I herewith submit the annual report of the Berlin Fire Department for the year ending January 31, 1947.

During the year the Department answered 603 calls, 374 still alarms, 37 box alarms, 44 false alarms, 7 calls for hunters lost in the woods, 109 ambulance calls, 39 miscellaneous calls.

The Department travelled 8,991 miles, worked 11,625 hours at fires, and used the following material: 2,976 feet of ladders, 29,495 feet of $\frac{3}{4}$ -in. booster hose, used 17,863 gallons of water from booster tanks, 18,450 feet of $2\frac{1}{2}$ -in. hose, 18,450 feet of $1\frac{1}{2}$ -in. hose, 1-C. O., 2 fire extinguisher, 3 foamite, 2 pyrene guns, 2 Indian pumps.

The fire loss for the City was again the lowest for a city its size in the State. The fire loss for the year the Department answered was \$25,236.55 on buildings, \$9,978.69 on contents. Department not called on buildings, \$1,350.99, and \$1,566.96 on contents, or a total of \$38,133.19.

I recommend that the City make provision to replace the old equipment, that is old and not safe and cannot be depended on at fires, and is an added expense to the City, and should be replaced with new equipment.

The present fire-alarm system is forty-two years old and not dependable, and parts for it are not available, and more fire alarm boxes are badly needed, so as to provide more fire protection for the tax payers of the City, as the loss for the year 1946 was the greatest in the history of the United States to life and property.

The tax payers are welcome to inspect the Fire Station, to see what they have for equipment and for what their money is spent.

In conclusion, I wish to express my appreciation to the Mayor, Fire Committee, City Council, and all Departments of the City Government, and residents, of the City of Berlin for their help in keeping our City free from any serious fires.

Respectfully submitted,

O. B. BERGQUIST,
City Engineer.

With the clinic until April 1, 1946

B. S. MUNRO, M. D.
 Infant, Pre-School

REPORT OF HEALTH OFFICER

To His Honor, the Mayor, the City Council and Members of the Board of Health:

I herewith respectfully submit the city's thirty-sixth annual report of Health Department activities for the year ending December 31, 1946.

Communicable Diseases

Comment: The following cases of communicable diseases were reported to the department during 1946.

Chicken Pox	28
Measles	177
Scarlet Fever	22
Whooping Cough	45
Meningitis	1
Paratititis	1
Jaundice	4
Mumps	2
Vincent's Angina	1
Syphilis	4
Gonorrhoea	4

Chicken pox cases have dropped from 66 during 1945 to 28 during 1946. Scarlet fever cases went up 13 during 1946. 177 cases of measles were reported. We are very fortunate in not having one case of infantile paralysis here in Berlin, while in other cities cases reached epidemic proportions. We were also fortunate in having but one meningitis case. There were undoubtedly many cases of communicable diseases that were not reported to this department. In order to enable this department to perform its proper functions, all cases should be reported immediately.

Clinics

Smallpox—Two smallpox clinics were held in the City Hall in May with a total of 208 children being vaccinated. This is an increase of 21 over the previous year.

Diphtheria—One free diphtheria toxoid clinic was held in January. 416 children received the single dose treatment of alum precipitated toxoid. This is an increase of 125 over 1945.

Veneral Diseases—There were 120 patients under treatment

at the clinics during 1946. These patients received 70 Wassermans, 10 G. C. Smears, 47 Mapharsen, 50 Bismuths, 4 Penicillin, 19 Lumbar Punctures. 25 visits were made.

Tuberculosis—Four clinics were held during the year at the City Hall by the New Hampshire Tuberculosis Association. Dr. Robert Kerr of Manchester examined, and Mrs. Gladys F. Fancy, R. N., New Hampshire Tuberculosis Nurse for Coos County, assisted.

Sanitation

Water—City and private water supplies were bacteriologically and chemically analyzed periodically to insure pure water for the city. Of these out of 1,200, 10 ml. tested, only 109 or 9.08% were positive, and out of five 1 ml. tested, only 5 or 2 percent were positive. We are indebted to Mr. Charles E. Ross for the above figures and his cooperation in all phases of public health in Berlin.

Milk—20½ samples of milk, cream and ice cream were examined bacterially and chemically analyzed. The results from these tests as a whole show considerable improvement over the previous year. Approximately 50% of the milk sold in Berlin is pasteurized. We issued 68 store dealers', 16 dealers' and 17 producers' licenses. These must be renewed before June 1, 1947.

General Sanitation—Periodic inspections were made of restaurants, beer parlors, barber shops, hotels, etc. Eating and drinking utensils were examined bacteriologically. The standards of some of these places have been raised due to more equipment available on the market and the easing of the labor shortage.

Vital Statistics

Population—It is difficult to set an exact figure but for the purposes of this report we will assume a figure of 20,000. The population of Berlin has increased since last year due to the return of families and discharged servicemen. There were 151 resident and 29 non-resident deaths in Berlin for a total of 180.

Births and Stillbirths—There were 472 living births and 8 stillbirths.

Infant Mortality—There were 14 deaths of infants under 1 year of age and 12 of these under 1 month.

Maternal and Child Health Service

Monthly clinics are held in the Health Office for treating crippled children. The weekly baby clinics and pre-school clinics have been well attended and we wish to thank the Berlin Child Hygiene Association for making these clinics possible.

The Berlin District Nursing Association

The Berlin District Nursing Association has been affiliated with the Health Department since the last week of April, 1946.

Respectfully submitted,
 A. F. HICKEY,
 Health Officer.

Accepted and Approved:
 GENEVA ANN BERWICK, Chairman,
 MARY ANN LAFFIN,
 IRVING F. MOFFETT, D.O.M.D., Secretary,
 Members of the Board of Health.

Board of Education

To His Honor, the Mayor, and members of the City Council:

Herewith we submit a brief report of the Department of Education for the fiscal year ending January 31, 1947. A more detailed report is prepared at the close of the school year, and additional information may be obtained at the office of the Superintendent of Schools.

During the fiscal year, February 1, 1946 to January 31, 1947, the total expenditures for the Berlin Public Schools were \$215,660.46, an increase of \$32,254.92 over those of the previous year. This increase was due to the salary increases granted by the Council, payments on account of teachers' retirement, major repairs on high school roof, and to expense of opening a public kindergarten at Marston School. Some of the additional expense was also due to the adult evening and other vocational work at the Area Vocational School. This expense was offset by reimbursement from state funds. Of the total expenses of \$215,660.46, \$202,190.25 was obtained from local taxes, and \$13,476.53 from other sources as shown in the financial statement, a part of this report.

The past year has been one of unusual interest and activity for the Berlin schools, with many important changes taking place. Designation by the State Board of Education of Berlin High School as Area Vocational School for northern New Hampshire has resulted in a broad expansion of vocational offerings for pupils of this area. Opportunities for more adequate vocational training of day school pupils have been made possible in auto mechanics, machine shop, printing, and mechanical drawing. Pupils may now have three hours daily in the school shops. In new courses in Distributive Education and Diversified Trade and Industry, pupils may obtain their vocational work in stores and in industry as on-the-job training while receiving academic work and related work in school. This important vocational training will prove of real value in securing employment or in more rapid advancement in the work they have chosen, especially to those boys and girls who intend to end their formal education with high school graduation.

Some fourteen different evening courses for adults have been undertaken, the value of which is attested by the fact that over four hundred adults have taken advantage of these courses. Some of these courses have been short, intensive courses of from six to ten weeks while others will continue for the full school year. At present, nearly three hundred adults are in attendance one or two nights a week in classes in auto mechanics, machine shop, bookkeeping, stenography, home decoration, sewing, and supervised correspondence courses for veterans. Much of this work has been carried on at little expense to the city, as the expense of instruction is paid from state funds. In response to popular demand, a public kindergarten has again been opened. The value of this work, although perhaps not as spectacular as that of the evening classes, cannot be over-emphasized. Sixty-five pupils are enrolled at kindergarten now being held at Marston School. For the first time in several years, it has been possible to assign full time instructors to work in health and physical education, for both boys and girls. We feel confident that as we are able to better organize this work, some worthwhile results will become increasingly evident. Berlin High School is proud to have, in addition to some eighteen veterans enrolled in supervised evening correspondence courses, fifty-five veterans enrolled in regular day school classes.

Plant and equipment are generally in good condition with no major repairs contemplated at this time. School grounds at the Brown, Bartlett and Marston schools are in deplorable condition and efforts should be made to restore these much needed play areas to maximum usefulness, as well as to improve the general appearance of our city. Certainly the appearance of our school properties on the outside is not at the present time anything to be proud of. A petition has been received to make provisions at the Brown School for additional classrooms to house a sixth grade and a kindergarten, and for an auditorium-recreation room as a civic center for the Berlin Mills area. A study is being made of this situation, and although the need is great, it would seem inadvisable to do anything until building costs and other conditions are more nearly normal.

Many requests have been received for more adequate transportation services. It seems clear that in this climate it is too much to require children, especially the younger children, to walk up to two miles to school. A survey of our whole transportation problem is under way, with the hope that more adequate transportation can be made available.

As in all other fields, costs in education have risen rapidly. Most of the increased costs are in salaries. In the matter of teachers' salaries, we are in direct competition with other communities, and if we are to secure and retain our better teachers we must meet this competition. Teachers everywhere are demanding and receiving salaries more nearly in line with the education and training required and the quality of service desired. Berlin must keep pace.

Note should be made of pending legislation proposed by the State Board of Education for additional state aid to education. Only by such aid can the poorer community give adequate education to its children. Under the proposed plan, Berlin would receive \$19,670 in state aid. This will be of tremendous help in meeting increased costs without loading the entire additional burden on to the present high property tax. We believe this legislation should pass.

We extend our sincere appreciation to the Mayor, the Members of the City Council, to the other City Departments and to the many others who have cooperated generously in our endeavor to make Berlin schools the kind of schools you want for your children.

Respectfully submitted,
 LENA JACOBS, Chairman,
 GEORGE MARTIN,
 WILLIAM ROACH,
 Board of Education.
 CALEB H. NILES,
 Superintendent of Schools.

Report of Auditors

WATER DEPARTMENT

February 15, 1947

To the Board of Water Commissioners
Berlin Water Works
Berlin, New Hampshire

Sirs :

We have examined the books and records of the Berlin Water Works for the year ended December 31, 1946.

Our examination included a verification of the assets and liabilities as shown on the attached Balance Sheet and, without making a detailed audit of all the transactions for the period, a review of the income and expense accounts by methods and to the extent we deemed appropriate.

In our opinion the Exhibits and Schedules, as indexed on the preceding page, fairly present the financial condition of the Berlin Water Works on December 31, 1946, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied throughout the period on a basis consistent with that of the preceding year.

Yours very truly,
PEISCH, ANGELL & COMPANY

Report of Police Department

POLICE COMMISSION

To His Excellency, the Governor of the State of New Hampshire,
and His Honor, the Mayor, and City Council of the City of
Berlin:

We herewith submit our annual report of the Police Department for the year ending January 31, 1947.

During the year the department lost the services of four men, Sgt. Alfred Erickson, and Sgt. Eugene Hanson were retired by reason of physical disability; Officer Andrew Malloy resigned to become Chief of Police in the town of Lancaster, N. H.; Officer Roland Rousseau resigned to take up other employment. Four veterans of World War II were employed to replace those retired and resigned. Later, three more veterans were added to the force to patrol beats on the East Side and the Berlin Mills section, therefore giving these sections protection at all times. A night patrol was also put in service to cover all outlying points of the city. This patrol was taken over by Sgt. Alfred Silts and Officer Harry Bryant, working from 4:00 P. M. to 12:00 and from 12:00 midnight until 8:00 A. M. In addition, an order has been placed for a two-way radio with a hook-up with the New Hampshire State Police and should be in operation some time in the near future.

We were able to exchange three cars for new models, thereby decreasing our repair bills considerably. These cars were necessary for the proper functioning of radio and cruising service.

For the activities and financial report of the Department we refer you to the report of the City Marshal.

Dated at Berlin, New Hampshire, February 24, 1947.

Respectfully submitted,
W. B. FARQUHARSON,
Chairman,
ARTHUR O. DUPONT,
Clerk,
SAMUEL P. NEVINS,
Member,
Police Commissioners.

CITY MARSHAL

To the Honorable Board of Police Commissioners:

Gentlemen:

I have the honor to submit for your consideration the yearly Report of the Police Department, commencing January 1st, and Ending December 31st, 1946.

Whole number of arrests.....	680

J. ARTHUR VALLIERES,
Clerk of Municipal Court.

Report of Auditors CITY OF BERLIN, N. H.

February 14, 1947

To the Honorable Mayor and City Council
Berlin, New Hampshire

Sirs:

We have audited the books and records of the City of Berlin for the year ended January 31, 1947.

Our examination included a verification of the assets and liabilities as disclosed by the general ledger on that date and, without making a detailed audit of all transactions for the year, a review of the income and appropriation accounts by methods and to the extent we deemed adequate.

In our opinion, the Exhibits and Schedules, indexed in the preceding page, fairly present the financial condition of the City of Berlin on January 31, 1947, and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied throughout the period under review on a basis consistent with that of the preceding year.

Yours very truly,
PEISCH, ANGELL & COMPANY
