REPORT OF SUPERINTENDENT OF SCHOOLS

February 1, 1949

TO THE SCHOOL BOARD AND CITIZENS OF MADBURY:

I am pleased to submit my second annual report as Superintendent of Schools for Madbury. Although no schools are in operation in Madbury there is considerable accounting involved with the pupils attending schools in surrounding districts. The numbers of Madbury pupils and the public schools which they attend are shown below:

<i>Name of School</i>	<i>No. of Pupils</i>	<i>Tuition</i>
Barrington Elementary	2	\$71.50
Dover Elementary	45	75.00
Dover High	21	158.74
Durham Center	7	100.00
	<hr/>	
Total	75	

High School tuition was \$138.89 last year.

The above figures as well as the tuition rates indicates an appreciable increase over the previous year. This condition is characteristic of that throughout the State and the the Nation; tuition charged by Dover High is the average of the Costs of Instruction in all public high schools in the State for 1947-48.

SCHOOL CENSUS

The following census figures as of September, 1948 indicate that the elementary enrollment may remain about the same for the next few years. The large number of children who are less than two years old is characteristics of increased birth for those years elsewhere.

<i>Age of Children</i>	<i>Number</i>	<i>Age of Children</i>	<i>Number</i>
Less than 1 year	9		
1	13	9	8
2	4	10	6
3	3	11	5
4	4	12	9
5	8	13	8
6	9	14	7
7	5	15	6
8	8	16	

FINANCE

As is generally recognized, Educational Finance is one of the most important items in school administration; practically all of the accomplishments of the school are dependent upon money and leading authorities have consistently pointed out that—with exceptions—the quality of education that is provided varies directly with the amount of money that is provided for that education. Increases in school expenditures have not kept pace with the decreased value of the dollar. It would seem to the writer that Madbury tax payers have been very fortunate to be able to educate their elementary children at the tuition rates as have been charged during the past two years plus costs of transportation.

PLANS FOR NEW BUILDING

Your School Board has held several meetings during the year with the architect, Mr. Irving Hersey, to prepare plans for a new elementary school in Madbury—as directed at the last annual district meeting. It appears at the present time that there may be some interest on the part of surrounding districts to cooperatively build a new elementary school. This general thought is common throughout the state although little action has been taken to date.

It would seem to the Superintendent that the idea might well be further considered.

The following quotation is taken from a letter of January 13, 1949 from Mr. Farnum to the Architect:

"The development of a plan for a two-room building in Madbury does not entirely fit into our over-all pattern for the development of administrative units in this state. I would hate to see Madbury plan and build a little elementary school and then in five years be handicapped in making full use of superior facilities in a neighboring town. I realize the district has accepted federal funds for planning, and plans and specifications should be prepared for this structure. Any statement to the Federal Works Agency by this office would have to be made with a reservation concerning the advisability of ever building a school of this size in a community so close to large educational centers."

EDUCATION OF MADBURY CHILDREN

Madbury children are presently receiving a good education in the schools which they attend at a total cost to the taxpayer which is less than it would probably cost to operate schools in Madbury. Desirable comments have been made by Madbury children and parents as to the services which they have access to and which they probably would not have in school in Madbury. Services referred to are: A complete and well balanced school lunch, health examinations with well trained and experienced personnel, music, one grade per room per teacher rather than four or eight grades as might be the case if Madbury were operating its own schools, etc.

It is also believed that more high school pupils are attending high school for longer periods than might be the case if transportation were not furnished by the district. As long as elementary pupils are transported to Dover, the high school pupils ride at little, if any, additional cost to the district.

In visiting with Gordon Fox, Superintendent of the Dover schools, I am told that the Madbury pupils take their places in the Dover schools with other pupils and appear to profit by the social as well as the educational offerings of those schools. The same comments apply to those children who attend school in Durham.

In conclusion, I wish to thank the members of the School Board and other District Officers who have cooperated to make our work effective.

Respectfully submitted,

JONATHAN A. OSGOOD

REPORT OF FIRE DEPARTMENT

TO THE CITIZENS OF MADBURY:

The Madbury Fire Department wishes to report their progress and activities for 1948.

The truck was received April 1, and equipment was installed so that on May 1 it was in operational condition.

Work continued on the truck through the summer and with the equipment donated by the Madbury Grange in September it became a well equipped unit.

Because no housing was available in Madbury arrangements were made to house the truck in Barrington.

Plans are being made for permanent housing in Madbury for next winter.

At the request of the Men's Club Kingman's Pond was flooded so the young people might have skating.

The department has cooperated with townspeople in such matters as burning of fields and pumping and hauling of water.

The department responded to nine calls in 1948—five in Madbury and four out of town.

JAMES COLPRIT,

Chief.
