Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Stewartstown qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on Tuesday, the 10th day of March, 1970, at 10:00 o'clock in the forenoon at which time the polls will be opened, followed by the business meeting at 2:00 o'clock in the afternoon, to act upon the following subjects:

1. To bring in your ballots for the election of School District Officers to be elected by ballot for the School District of Stewartstown for the ensuing year (s).
2. To determine the salaries of the officers and fix the compensation of any agents of the district.
3. To hear the reports of Agents, Auditors, Committees, or officers chosen and pass any vote relating thereto.
4. To see if the District will vote to accept the Guidance service on a Supervisory Union level, beginning with the 71-72 school year.
5. To see what sum of money the District will vote to raise and appropriate for the support of schools, for the payment of salaries for school district officials and agents and for the payment of the statutory obligations of the District.
6. To see if the District will vote to authorize the school board to make application for and to accept, on behalf of the district, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or United States.

7. To transact any other business that may legally come before this meeting.

Given under our hands at said Stewartstown this 13th day of February, 1970.

REPORT OF THE SUPERINTENDENT

To the School Board and the Citizens of the School District of Stewartstown:

The concept of shared services and facilities is increasingly becoming the most practical method by which individual school districts can meet the current demand and challenges of education. The recent ruling by the State Department of Education allowing dual enrollment, a method by which a student in one school district may attend school in another district for the purpose of taking a course or courses not offered in his own school, certainly is a logical step in reducing the demanding cost of education and in the duplication of services and facilities within immediate school districts.

This past year the five school districts comprising Supervisory Union No. 7 agreed to share the costs of a junior and senior high guidance counselor. Students attending school in Colebrook, Pittsburg and Stewartstown now have available to them the services of a counselor for vocational and college plans, as well as obtaining assistance in securing part-time or summer employment. This position is now capably filled by Mr. Jason Sibulkin, who has had a number of years experience working with young people in a social worker capacity and as an educator in the Colebrook School District.

This year, voters in the towns of Supervisory Union No. 7 will be asked to support the guidance counselor service on a Supervisory Union level. Since no new service may be added to the Supervisory Union without consent of the majority of the school districts, as specified in RSA 189:47, voters will be asked to support this service beginning with the 71-72 school year by means of a special article in the current school warrant. It should be noted that the "grace" period allocated to Supervisory Union No. 7 was given with the stipulation that the State Board of Education would re-examine in June of 1970 the services originating from the Supervisory Union Office. Realizing that each district is financially incapable of supporting this service alone, the decision by local school board members to initiate and maintain this needed and worthwhile service until it could be placed on a Supervisory Union level through voter action is to be commended.

The possibility of sharing specialists and creating a quality multi-media center is now being investigated by seven Supervisory Unions in the north country. Designated the North Country Shared Services Project, school Directors from North Conway to Pittsburg will be investigating what services, materials and equipment can be feasibly shared at a reasonable cost. These districts now have available to them a shared Central Arts Library which developed out of Project Arise. Each School may now count the books, records, filmstrips, etc. in this library as part of its own library in meeting library standards.

With the ever increasing cost and demand for quality education and services, the concept of sharing, either by local districts or at a Supervisory Union or Inter-Supervisory Union level, certainly appears to present the most practical solution and one that should be earnestly considered and investigated for the improving and expanding of the educational process.

Respectfully submitted,

STEPHEN E. DEHL
Superintendent of Schools

SUPERVISORY UNION NO. 7 GUIDANCE

Guidance is that part of the total educational program which assists the individual student in developing a realistic concept of himself and society and in setting and achieving goals consistent with his potential. The guidance process helps the student to understand his abilities, interests, and special aptitudes; to acquire information about educational and vocational opportunities within a changing society; and to make appropriate adjustments and wise choices.

Guidance is based on the philosophy that no two students are alike. Each has his own pattern of growth. This pattern governs to a large extent the direction and rate of growth for each. The good teacher and counselor will provide the appropriate environment for the unfolding of this pattern.

Guidance is a continuous process which, from the school's standpoint, begins with the child's first contact with the school and continues as long as the school can be of service. This concept indicates that guidance is developmental in nature rather than merely remedial or preventive. Each student needs continuing assistance in assessing previous and present situations and in planning for the future.

Guidance emphasizes assisting students in making their own choices rather than having decisions dictated to them. Guidance is a school-wide responsibility requiring close working-together of teachers, administrators, counselors, and other school personnel. All of this is based upon the cooperative efforts of the school, the home, and the community.

JASON SIBULKIN
School Counselor

SCHOOL HEALTH

The purpose of a school health program is to perform the necessary duties to maintain and promote good health of the pupils in our schools.

The following services are performed each year: checking heights and weights, vision and hearing; physical examinations for all students in grades 4, 8, 11, and athletics; T.B. skin tests as recommended by the state T.B. Association; necessary immunizations; pre-school clinics every spring for in-coming first graders; and continuous supervision of general health.

In May, a Lazy-Eye Clinic was held for pre-school youngsters under the sponsorship of the Grange. The response to this clinic was very gratifying and very few youngsters were found to have vision defects.

The overall program of school health in this area is adequate, but there is always chance for improvement. By everyone working together, it is hoped that these improvements can be realized to the mutual benefit of our students and community as a whole.

Respectfully submitted,
Dorothy L. Ducret, R. N.

NOTES ON BUDGET

The School Board has requested for its Budget an appropriation of \$137,581.00. A sum of \$38,371.24 has been anticipated as the estimated income, leaving a balance of \$99,209.76 to be appropriated through taxes. This represents an increase of 7.9% in comparison to the current year. The greatest increase is reflected in the Instruction Section, due to the additional teaching position, which has become necessary due to increased enrollment. Also the District's share of the Guidance Service, which will be required for minimum elementary school standards, tuition and transportation are also reflected in the increase.
