CIVIL DEFENSE REPORT

Progress in our C. D. organization in 1966 was much less active than we had hoped for.

This coming year we intend to have two Medical-Self-Help courses. We hope to arouse more interest in this program this year. At least one person in each family should have this training in case of any emergency. The Federal Government expects that 700 persons should receive this training in a town our size.

Four Radiological units are in the process of being assigned to the Town at no cost. This was made possible by the completion of our Radiological course which was carried on in 1965.

I wish to thank all those who have given their time and support to this program.

FIRE RECORD

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966.)

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A.M. and 5:00 P.M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.
2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important — Instruct your children that matches are not play things.

Truly — Only You Can Prevent Forest Fires
