Jan. 23, 1952

I have this day examined the accounts of the Trustees of Trust Funds of the Town of Brentwood and find them correct and with proper Vouchers.

GLADYS E. McCoy,
Auditor.
Report of Fire Department

The year 1951 was one of the best years since the organization in 1942. The department responded to 15 calls, only one being a major fire resulting in loss of taxable property. Due to the extremely wet season our forest fires were eliminated.

During 1951 we installed a fire siren on the outside of the fire house. We are remodeling a Model A Ford truck into a forest fire truck. This truck was donated to the Fire Department by one of our interested citizens. The town needs a new fire truck of tank truck pumping design. It will mean a reduction in insurance rates to some, and a reduction of property loss to all.

We wish to thank the people of Brentwood for co-operating with us and with the association. We are also very grateful to the Fire Departments of Exeter, Kingston, Epping and Fremont for the mutual aid given us in the past year.

Respectfully submitted,

W. S. BARTLETT,  
Chief.  

SIDNEY PARSHLEY,  
Deputy Chief.

REMEMBER!

When calling the Fire Department, ask for the Kingston telephone operator, give location of fire, name and place.

REMEMBER!

You must obtain a written permit from your warden to start any fire, when the ground is not covered by snow.

REMEMBER!

Large fires result from that small fire you try to put out yourself. Call the Fire Department first.

Superintendent's Report

To the School Board and Citizens of Brentwood:

It gives me a great deal of pleasure to submit this, my second annual report, as your superintendent of schools.

It can truly be said of the new Swasey School that it was and still is a community project. The untiring efforts of members of the school board and building committees as well as interested citizens in developing the front yard and play ground is a fine example of what can be done when citizens take pride in their schools.

Brentwood has every reason to be proud of its school. Physical plant is of little value to the children of a community if the instruction given in the school is of poor quality. I am happy to say that the educational program provided at the Swasey School is well in keeping with its external and internal appearance. The teachers are carrying on many educational extras that add up to a well rounded educational experience for the children of Brentwood.

Teachers

Mrs. Alice E. Hammond to replace Mrs. Gloria Gendron, who resigned to accept a position in Newmarket to be nearer her home. Mrs. Hammond came to Brentwood with a wealth of experience and is doing a very fine job with grades 5 and 6.

Miss Ann-Marie O'Shea, B. U. School of Music "51" to replace Miss Jean Readio who resigned to be married. Miss O'Shea's musical background has permitted her to fit very nicely into the type of instruction necessary for a Supervisory Union position.
Testing Program

A union wide testing program has been instituted this year. Children in grades 4, 6, and 8 were tested in October by the University of New Hampshire counseling service. Grades 4 and 6 were given Mental Efficiency tests plus Achievement tests in Reading, Arithmetic and English. Grade 8 was given a battery of tests which included, Interest Inventory, Mental Efficiency, Mechanical Aptitudes and Comprehensive Reading. Grade 8 tests shall be used as a medium for counseling and guiding pupils into selection of a high school program best fitted for them in terms of interest and abilities.

These tests are in the hands of the respective teachers who would welcome the opportunity to sit down with any and all interested parents for a discussion of their child's problems as indicated by the tests. Naturally these tests are not infallible, but they are of immeasurable help when supplemented by the teacher's judgment. I urge parents to take advantage of this opportunity to sit down with the teacher and discuss their child objectively.

Guidance

As the value of a testing program must be measured by its use and because the State Department recognizes the value of a full time Counselor in Guidance Work, the Union has voted a sum of money to pay part of such a man's salary. The State Department of Education has consented to match the amount voted by the Union in order to set up a pilot program on a Supervisory Union basis. This program will be the only such program in the state and will be closely supervised by your Superintendent and the State Guidance Director.

It should prove of great value to Brentwood in that it will make available a man trained in counseling techniques to work with parents, teachers, and children in working toward the solution of problems in mal-adjustment, truancy, and others common to the advanced or retarded pupil.
Equipment

New movable desk units have been added to the first and second grades while enough new units were added to grades 5 and 6 to complete the furnishings in that room.

A new duplicating machine has been added. This has helped tremendously in expanding the teachers' work program.

The new steel chairs for the auditorium have been a fine addition in that now school and public assemblies can be held without bringing in chairs and benches from the outside.

Through public programs, the school has raised enough money to purchase a very good movie projector. This has already added to the educational and instructional program.

The School Board and Teachers are constantly looking for some means of broadening the social and educational horizons of the school program.

School Lunch

I am glad to see interest in the development of a good school lunch program. Although provisions have been made to warm food in the school kitchen; experience in other schools has been that a good class "A" meal has improved both the health and school marks of children as a whole.

I hope that the children of the Swasey School will be able to participate in such a program in the near future.

This report is accompanied by a page devoted to Return of District Revenue which shows the actual budget we are operating on this year (1951-52).

Finally, I wish to express my appreciation to the
School Board, Citizens, Teachers and Pupils of Brentwood for the fine spirit of friendliness and cooperation shown me. It has made my work very pleasant.

Respectfully submitted,

LOUIS L. RAMSAY,
Superintendent.

Report of Music Teacher

To the Superintendent and School Board, Citizens of Brentwood:

The first consideration in all music work in the schools is the child; his mental and emotional condition, his tendencies and possibilities for absorbing music.

There is a way to teach music to children in the schools, a way which emphasizes the mission of music as a potent force in its power to soothe and heal; to inspire and stimulate. This way entails:

MUSIC READING, which is simply a means to an end which permits a wide experience in SONG SINGING, which is an incentive to musical growth and results in MUSIC APPRECIATION, which is the open door to greater opportunities in the world of music.

Besides these above phases of music, the children have had experience in Folk Dancing, Music Listening and Music Theory.

A Christmas play and musical program was presented in December which, through the combined efforts of teachers and pupils, proved successful.

I wish to express my appreciation to the School Board, Superintendent, teachers, parents, pupils and other citizens for their cooperation.

Respectfully submitted,

ANNE-MARIE O’SHEA,
Music Supervisor.
Health Supervision

To the Superintendent and School Board, Citizens of Brentwood:

Following is a report of the school health program from January 1, 1950 to January 1, 1951:

The same health work has been carried on. Monthly inspections of heads, skin, etc., plus visual and hearing tests, examinations of teeth, throats, glands, and posture. Defects found were followed up with home visits and when necessary, ways were provided for the corrections of defects.

Weighing and measuring in September, February and June. Brief health discussions when needed. Pupils in grades seven and eight were all skin patched for tuberculosis.

All children in the first two grades have been vaccinated, and have been inoculated against Diphtheria, Whooping Cough and Tetanus.

I am grateful for this opportunity to thank those who have cooperated and given this program such fine support.
