## REPORT OF THE LIBRARY TRUSTEES

---

The report of the Library Trustees consists chiefly of acknowledgements of gifts to the Library during the year past.

Mrs. George E. Rollins, Mr. Oliver Akerman and Mr. Hervey Kent gave books; Mr. Dalton Boynton gave us a handsome bookcase in memory of Mrs. Boynton; and the Baptist Church of Hampton Falls gave the "way-side-library" which has been the subject of many favorable remarks from out-of-town people as well as from our own residents.

To all of these people and to those who have worked for our Library we say a sincere "thank you".

Respectfully submitted,

E. EMMONS SANBORN,

Secretary

## VOLUNTEER FIRE DEPARTMENT HAMPTON FALLS

---

We, of the Hampton Falls Volunteer Fire Department wish to thank all people of the Town for being careful of fires during the past year. We had rather be called while the fire is small or to find it out when we arrive than to have to fight a large one.

We have been called out of town on two occasions and have had help from Hampton and Seabrook on one fire at the Goodwin Convalescent Home all on Mutual Aid.

We have added another stall to the station and expect to have another tank truck soon. We also have a tower in which we can dry our hose and not have to take it to Hampton Beach as we have had to do.

We had to hire the labor to put on the roof of the new station as it could not be done evenings and spare time as we have done on the rest of the station which has been done with volunteer labor. We are thankful to all who have given their time and especially to John Fogg and Michael Laughlin for giving their labor to paint the station.

When we get the upstairs finished we will have a large meeting hall for suppers and a modern kitchen and two toilets. Also a separate entrance without going through the station.

We will welcome anyone who would like to join the department. Our meeting night is the first Tuesday of each month. The dues for active members are 25c per month and for associate members \$3.00 per year.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of the  
Hampton Falls School District:

It gives me great pleasure to submit my second annual report as your Superintendent of Schools. The past year has been productive of both personal and professional satisfaction, all of which has been due to the continued co-operation of the professional and lay people who support the Hampton Falls School. I look forward to the privilege of serving these people in the year ahead.

The Lincoln Akerman School has made considerable progress during this school year. Despite the reduction in funds requested for the salaries of teachers it was possible to secure an excellent staff. Inasmuch as a school revolves about its teachers, success in this venture assured success for the remainder of school activities.

Mr. Nicholas Kontinos, completing his third year as your Principal, is an excellent teacher and principal. Much of the credit for the school's progress can be attributed directly to him. Mrs. Frances Mahoney, now in her second year at the Akerman School, was transferred from a combined Grade One and Two to a Grade Three. She has displayed the ambition and initiative so characteristic of her and much progress can be observed in her classes.

New to the staff this year were Miss Evelyn Harvey, Grade Four, Mr. Roland Shevenell, Grade Five, and Mrs. Pearl Marston, Grades One and Two. The former two are beginning teachers and they have performed very satisfactorily. Miss Harvey's conduct of the French program over Education Television has won the commendation of visitors from Portland, Maine and Channel Two in Boston. Mr. Shevenell has displayed a great deal of

imagination in meeting the demanding claims of 29 eager students.

Mrs. Marston, no stranger to residents of Hampton Falls, graciously accepted a last-minute transfer from Grade Three to a combined Grade One and Two. It was felt that her long experience in multiple grades would be an asset in this situation and the subsequent results have proven this to be an accurate estimate. If it is necessary to have combined grades, the communities that have them should also have a Mrs. Marston. Unfortunately, this is not always possible.

In an effort to retain these fine teachers for future years, and to reward their unselfish efforts of the past year, the School Board has included substantial increases in their salaries for the forthcoming year. It is my hope that the citizens will indicate their appreciation by abiding by their School Board's recommendation. Most certainly, the road to long-range economy is not replacing qualified teachers with those less qualified.

Other areas of the budget reflect a desire to make improvements. Sums for Music and Art have been increased to afford an increased amount of instruction in these two areas. Penmanship, a victim of budget reduction last year, has been restored. This instruction has proven very satisfactory in other schools in Supervisory Union No. 21, and it is felt that it should be available to the Hampton Falls children. Funds for the transportation of children on field trips have been added also. This is a relatively small amount and one that will enable the children to enjoy such ventures while it does not reduce their educational value.

Once again a request will be made for a two-room addition to the school. The same reasons that applied last year are applicable this year. Two of the classrooms are overcrowded and enrollment, increasing everywhere, is certain to increase in Hampton Falls. The time to build is now before the deterrent effects of over-crowding and

rising costs make this too expensive both educationally and financially.

Other items to be included in special articles are funds for the purpose of matching a federal grant under the National Defense Education Act, and Hampton Falls's share of the salary and travel for an Assistant to the Superintendent. The latter is a relatively small amount and is being submitted despite its defeat last year. Once again, a unanimous approval by all eight districts will be required before this becomes effective. Your School Board has agreed that it is necessary and if passed, will permit the Superintendent to do more work, not less, as might be the logical conclusion of a person not thoroughly familiar with the situation.

Hampton Falls continues to share in, and benefit from, the progressive educational program of the Supervisory Union. Now the sixth largest educational unit in New Hampshire, this organization has been able to move forward in many areas. The most recent request, one approved by the Supervisory Union School Board, is for more adequate office facilities. While the site has not yet been determined it is expected that Hampton will remain the location.

Much has been said and written concerning American public education during the past few years. In general it would seem that the trend of thought is that education, once considered "desirable" is now considered "necessary." This subtle change in emphasis will have far reaching effects on the school system of each community, large or small. With the current philosophy that education is a local matter the desired and needed changes must be initiated at the local level. We cannot expect the federal or state governments or charitable foundations to be concerned about your problem and mine.

For this reason I have recommended to the School Boards, that curriculum studies be undertaken in this

Supervisory Union. At the time of this writing a Science group is meeting for the third time, and plans are being developed for a series of meetings on the subject of Arithmetic. It is fully expected that positive action will be taken by these two groups of Teachers and Administrators to improve our instruction in these two vital areas.

“Schools reflect the society they serve. Many of the failures we ascribe to contemporary education are in fact failures of society as a whole. A society that is indifferent to its own heritage cannot expect the schools to make good that indifference. A society that slurs over fundamental principles and takes refuge in the superficial and ephemeral cannot demand that its schools instruct in abiding moral values. A society proudly preoccupied with its own material accomplishments and well-being cannot fairly expect its schools to teach that the snug warmth of security is less meaningful than the bracing venture of freedom. In all this, to reform our schools is first to reform ourselves.” Henry Steele Commager, “Our Schools Have Kept Us Free”, October, 1950.

In closing I wish to thank the School Board, the staff of the school, and all those thoughtful and considerate citizens who have aided in the support of your school. The past year has not been an easy one “to be for education” and I admire those who have persisted in the face of criticism.

I wish also to pay tribute to Miss Leota Whitcomb, Helping Teacher, Miss Edith Hammond, Executive Assistant, and the other members of the office staff whose diligent labor and selfless devotion to their work has enabled me to do much that would have otherwise been left undone.

Respectfully submitted,  
C. M. GREEN,
