Dearest Elz:-

I have looked thruout my trunk and cannot find the pictures of you and the children. I dont know when they were removed. I was sure they were there. But perhaps I removed them to show you and the children & never replaced them.

So: send them to me or suitable replacements. Why dont you take the children to the photographer and have your pic made to send to me. I will place it on my desk at my new outfit - the Jk Co. for all the world to see. I do have a small pic of you, Marion, Eva, Gretel & Robbie taken in New York several years ago.

I'm in one of my moods when I think about you all so much. How I wish

I could be with you for just a short while.  
If I could make to state + back in the 14  
days leave I have I would do so. But  
alas, such is not the case.

I know you must be busy with  
fmas on the way 'cause your letters  
seldom arrive more often than once  
weekly. Perhaps I'm being forgotten  
about in keeping with that old adage:  
out of sight = out of mind. This makes  
me ~~so~~ unhappy. But I know this is not  
the case — that we all want to be together so  
much that it seems this way. You have my  
confidence.

We were told today that we must clear L worms this weekend. So I will be departing here not later than ~~Saturday~~ Monday 6 December 54. So address all your future mail to me at the

440th TRANS TRK Co  
APO 168 New York

I wont report in there until my leave time is up - on or about 20 Dec 1954 - Perhaps a day or so earlier or later.

Dont worry about my new assignment. A trk Co is old stuff to me. I can handle it without difficulty - and will if I must. My first act will be to file my application for dependent travel. Then I'll get about running the trk Co.
