HANOVER FINANCE COMMITTEE FIFTEENTH ANNUAL REPORT

GENERAL OR OVERALL CHANGES

The general trends which were pointed out in the last report of the Hanover Finance Committee have continued in this second postwar transition year. No major changes have been made in postwar plans or policies. The period continues to be one of inflationary pressure on prices, of rising costs for materials and equipment, and of the necessity of making upward adjustments in wages and salaries in order to secure and to hold the type of personnel desired to carry out efficiently and effectively the work of the schools, and of the police, fire and highway departments. Two or three minor but desirable readjustments have been proposed in the "Tentative Ten-year Schedule of Expenditures" which was submitted in our report a year ago. No comprehensive reconsideration of these estimates has been attempted since a more detailed study of prospective needs and taxable resources must await upon the work of the Planning Commission. The trend in costs is still upward and therefore the sums levied against property taxpayers will tend to rise correspondingly until the construction of new buildings eases the situation by increasing assessed values, until new sources of revenue are discovered, or unless the citizens decide that a ceiling upon taxes is more essential for a time than the improvement of municipal services.

Taxpayers whose interest in financing our local municipal units is restricted to noting changes in the overall tax *rate* as it may affect them are hereby given specific and emphatic warning that this is not a true index of what is happening. Any complacency which might arise from the discovery that the tax rates which appear in this year's report are substantially the same as those which appeared in our report a year ago is unfounded. The tax bills which they will receive next July if the proposed budgets are adopted, will be in general approximately 15% higher than the tax bills they received a year ago. The explanation is found in the general reassessment upward of property values in Hanover com-

parable with the rise in assessed values which has been made in other towns and cities throughout the state of New Hampshire. It is worth noting that the final tax "rates" for 1946 were much lower than those published in the town reports in March because of subsequent adjustments which were made in assessments. Upon the advice of the State Tax Commission that the inflationary rise in real estate values called for some revision of assessments even for 1946, the assessors, therefore, subsequent to town meeting, raised assessed values in Hanover about 6% in general. The result was that the tax rates were reduced appreciably below those submitted in the reports for 1946 although the tax bills were not any lower.

During recent months the assessors, together with their advisory board, have been reexamining the assessed valuations placed upon all properties in Hanover with the two-fold purpose in view (1) of taking into account the marked but perhaps temporary and abnormal rise in market values which seems due to the absence of new building construction and the high cost of scarce materials, and (2) of correcting any inequalities in assessments as between individual properties to make them "proportional" or fair in relation to one another. The net result, aside from corrections in assessments for individual properties will be a general overall increase in assessments for 1947 which is approximately 15% above those for 1945. It is believed that these increases are reasonable in view of the current real estate market situation and also in harmony with developments in other towns and cities in the state. The net effect—it should be repeated—will be to increase substantially the tax bills which property owners will receive next July even though the tax rate which appears in the table at the end of this report gives the impression that taxes are not rising this year in Hanover. They are. And for persons who have retired on annuities or other fixed incomes it is recognized that these increases are very burdensome.

A brief explanation of the reasons for the increase is to be found in those sections of this report which refer to the current budget proposals of the three municipal units. Citizens are urged to study the proposed budgets carefully and to attend the public hearings so they may understand the proposals thoroughly and may vote in-

telligently on proposals when they are submitted to the voters in March. It is the responsibility of the voters to decide what kind of municipal services they want and how far they are willing to go in paying for better services.

The only new function indicated to be undertaken in 1947 is the introduction of a physical training program in the schools. The costs of such a program were included in the table of estimated costs for a ten-year period submitted a year ago, and they are included in the school budget for 1947-48 although the estimated expense of \$4,400 may be too low.

It should also be recalled that the cost of a Town and Precinct Assistant—a new office approved at town and precinct meetings a year ago—will be fully reflected for the first time in the budgets for 1947.

One final change in overall plans as they affect the financial picture was made at the request of the precinct authorities and on the advice of those responsible for protection against fires. A reserve fund was being built up by setting aside annually \$2,000 toward the purchase of a new pumper for the fire department by 1948 or 1949. On further examination and at the request of the fire officials it seems desirable to change these plans to the extent of purchasing a 750-gallon pumper instead of a 500-gallon pumper and to ensure that it be made available by 1948. The larger pumper will cost about \$4,000 more than the smaller one. If this change is approved by the voters in precinct meeting, it will mean the inclusion of \$6,000 in the 1947 budget for that purpose and of \$4,000 in the 1948 budget instead of the \$2,000 which it had been planned to budget each year toward a fire department pumper. As for the longer run needs for new fire fighting equipment, it is expected that the Hanover Improvement Society will, as in the past, provide a substantial share.

Two final items of a general nature deserve mention. For the first time in 1947 all three municipal budgets reflect the new policy initiated a year ago of offering to all employees of Town, Precinct and School participation in the State Retirement program. Some of them have been eligible before, but a marked increase in participation has taken place in the last year or two. Some employees have

elected not to participate. For some of those eligible to retire in the near future, participation will be a great boon. The policy of making possible participation in a State Retirement program to employees of all municipal units is of great significance and is heartily endorsed by the Finance Committee, but the cost to the taxpayers appears at present to be nearly \$4,000. This cost will increase as more persons participate and as salary scales increase.

Finally a change in policy is being recommended with reference to the financing of cemeteries, a change which is explained in dealing with proposals for the town budget. The policy of building up a trust fund out of receipts from the sale of Pine Knolls cemetery lots which would finance perpetually the cost of upkeep of the cemetery—a policy which was sound and adequate at the time it was adopted—seems to the Finance Committee to be no longer either wise or feasible. With the marked increase in the costs of upkeep of the cemetery and the marked decline in the rate of return on invested funds the net result is that the policy in no sense makes cemeteries self-supporting. Costs of maintenance are a recurring charge upon the taxpayers of the town—a responsibility which the town will always recognize whether a trust fund is built up or not.

FINANCIAL RESULTS FOR 1946

Following customary procedure we shall present some of the highlights of the financial operations for the year that has just closed, comparing actual expenditures or receipts with the budgeted items where any substantial differences are to be noted. Following this a summary will be given of major changes which are being submitted in the budgets for 1947 for the approval of the voters. The report on what has been happening in the year just closed is a necessary basis for understanding the budgetary changes which are proposed as a basis of operations for the year which is ahead.

Starting with the operations of the town, the first thing to be noted is an increase in expenditures under the heading of "general government," which is \$600 above the budgeted figure for 1946. This apparent excess was due to the fact that it was voted in town meeting to hire a Town Assistant and this item was not included

in the budget estimates for 1946. The increase covers not only the salary of the Assistant for about four months but also includes the cost of retirement allowances for certain town employees.

The sum of \$350 which was budgeted for postwar planning was intended to cover the cost of getting out base maps by the Postwar Planning Commission. But the work was not completed during the year.

The large over-run of expenditures for highways by \$4,173 in excess of the sum budgeted was due to several factors. Highway crews have been restored to their normal size and stabilized at a postwar level; wages have necessarily been increased; the cost of repairing and maintaining old and in some cases obsolete equipment was higher than in former years; and the cost of lumber and of other materials used on the highways was an important factor in the increase.

Estimates of the probable costs of caring for the aged and town poor are difficult to make and frequently are wide of the mark. The costs of old age assistance were \$350 above the budget estimates. The costs of caring for town poor were enough under the estimates to more than counterbalance the old age assistance over-run. The cost of Hospitalization reflects the wisdom of the recent change in policy whereby payment is made to the hospital for the actual costs of caring for town cases instead of paying a flat sum regardless of the town's use of hospital facilities.

On the receipts side, sums received by the town from the state for taxes collected by the state were appreciably in excess of the estimates put in the budget. It is true that receipts from the Savings Bank tax were down sharply (\$614) from the estimates and this trend is likely to continue for some time, owing to the increase in tax free investments, but this decrease was much more than offset by receipts returned to the town from the state collected tax on interest and dividends in an amount \$1,725 in excess of the estimates.

Locally collected taxes and miscellaneous receipts were in several cases much above the estimates: national bank stock taxes by nearly \$500; town clerk's fees by \$525; municipal court fines by \$350, and sale of cemetery lots by \$850. These results may be

noted with gratification even though they are minor items in relieving the burden on property taxpayers. A more important item worth especial mention is the substantial upturn in receipts from automobile permits, \$2,300 in excess of the estimate—the first increase since the low yield of the war years. This reflects primarily an increase of about 50% in the number of cars which were registered locally. It is expected that as new cars become available in quantity receipts from automobile permits will increase, within a year or two, to such an extent that they will exceed the prewar yield (\$7,500) and thus provide a minor source of relief to property owners.

Because receipts from several items were higher than the estimates by about \$6,000 the town was able to close the year with a budget surplus of about \$4,000. This was accomplished despite the fact that one or two expenditure items were higher than anticipated.

The school fiscal year differs from that of town and precinct and therefore a report on its operations for the year which is closed is for a period which ended in June, 1946. For that year the total expenditures for the schools of Hanover were \$5,400 above the budgeted estimates. This "over-run" was due primarily to four factors: (1) about \$2,600 was due to salary items, including the return of a veteran teacher from the armed services and to the increased costs of payments to the Teachers' Retirement Fund; (2) about \$1,000 was due to unexpectedly higher costs for fuel and supplies; (3) about \$760 to increased costs of transportation; and (4) \$700 to the cost of increased fire insurance protection on school buildings. With the increase in building construction costs, it seemed wise to increase the amount of insurance carried on school buildings by about 40% (from \$240,000 to \$345,000). Although the "over-run" was \$5,400, the actual deficit was \$2,400. This deficit is carried forward into the 1947-1948 budget.

About two-thirds of the teachers are now included in the State Teachers' Retirement system. The cost to the school district of its share of the cost varies from 2 to 6% of the salaries paid; it will aggregate about \$3,000 annually.

In carrying out the precinct functions for 1946, the financial

results were about what was expected except that the year ended with a balance on hand of about \$1,800. For one reason, the \$500 which was appropriated for legal fees in connection with the revision of the zoning laws was not used. That will presumably be needed in 1947. For another reason, not so much was spent for the Town and Precinct Assistant as was expected.

The increase in expenditures for police services above the estimates was due to underestimation in figuring the salary commitments. And the item of \$425 spent for transportation, when nothing was budgeted, was an oversight in budgeting due to the inclusion at the last minute of provision for a new police car.

Total expenditures for care of the highways were in excess of the estimate due to the provision of a new drain on West Wheelock street, although expenditures on ordinary maintenance were low. Oiling, snow removal, and sanding costs were down altogether \$1,650 because of favorable weather conditions and in spite of higher wage rates for the crews.

The cost of retirement allowances to the precinct is a minor item.

BUDGET ESTIMATES FOR 1947

Now let us turn to a summary of the budget proposals for 1947, taking up first the school budget which accounts for more than the other two units combined. In most respects this budget merely reflects the program of salary increases and the introduction of a program of physical education which were outlined for 1947 in the "tentative ten-year plan." A revision of that salary schedule for teachers adds \$2,800 to the estimated cost. This recalls the decision recorded in our report for last year "that no new function such as physical training or kindergarten should be undertaken in the same year in which salaries were substantially increased." The school budget for 1947-48, as approved unanimously by the Finance Committee, does nevertheless include under appropriate items the cost of physical education.

Bearing these two things in mind, it is less surprising than it otherwise would be to discover that expenses proposed for schools

in 1947-48 total nearly \$130,000 compared with about \$90,000 budgeted in 1945-46 and \$110,000 for the current year, 1946-47. This means an increase of nearly 45% within two years in the costs of carrying out a program of improving the school system and extending its functions. Owing to changes in tuition receipts expected from out-of-town pupils only about three-fourths of the increased cost for next year should fall upon local property owners.

Comparing the proposed school budget for 1947-48 with the school budget for 1946-47, the following changes may be mentioned: (1) about three-fourths of the proposed increase represents an increase in teachers' salaries and related items, \$8,800 of which was foreseen in the 1946 preview; (2) salaries for 1947-48 include the estimated costs of three additional teachers, two of them in physical education; (3) \$700 additional is included for retirement funds.

Conditions also made necessary an increase in the salaries of janitors by \$1,100. Rising costs for textbooks, scholars' supplies, fuel, janitors' supplies, transportation and special activities are reflected in an increase in proposed expenditures for each of those items. The increase in insurance was mentioned earlier. Deterioration of equipment in the shop during the war and failure to get replacements explain the increase proposed under new equipment.

Income budgeted for schools from sources other than the property tax will be higher by about 50% in 1947-48 compared with recent years. The major item in this category is receipts in the form of tuition from out-of-town pupils who number approximately 80. With the 45% increase in educational costs in Hanover it is only reasonable that out-of-town pupils should pay their fair share of the costs. Upon consultation with authorities in neighboring towns, an agreement has been reached whereby the tuition payments to Hanover for out-of-town pupils will be increased to \$125, per pupil, whereas formerly they were \$50 for grade school pupils, \$75 for junior high and \$90 for senior high pupils. Even so, the \$125 is somewhat less than the average cost per pupil for all those in attendance in the Hanover schools.

The net result of all the proposed changes in the school budget for 1947-48 will be an increase in the sum to be raised by property

taxes by about \$15,500 over 1946-47 and \$38,450 over the amount raised in 1945-46. Most property owners understand the demands of the situation if Hanover is to offer educational training of a high quality; and most of them pay their tax bills with little grumbling. But the present rate of increase cannot and will not long be borne exclusively by property owners. Some supplementary sources of revenue are needed in Hanover no less than in other hard-pressed cities and towns. The Philadelphia type of proportional income (or payroll) tax collected from all incomes earned in the locality is the most promising recent development in local finance and might be worthy of study for its applicability to Hanover.

Meanwhile another hoped-for development in New Hampshire appears to be more imminent and therefore a possible future source of some relief. Reference is made to the proposals now before the legislature which, if adopted, will increase by several fold the amount of state-aid granted for improving and equalizing educational opportunities throughout the state. So long as the State can secure sufficient funds from race tracks, liquors, tobaccos, etc., to meet the two million dollars needed for state aid for schools, these proposals, if adopted, will result in easing the burden upon property taxpayers which otherwise they would be asked to bear. This possibility is worth mention when the burden of school costs in Hanover is being considered. Increase in the near future in automobile permits, in state-aid, and in assessed values arising from future new building construction may somewhat mitigate the future burden upon property owners. But these developments are still mere potentialities, not realities.

Turning to the 1947 precinct budget, the gross budget as proposed is above the 1946 expenditures by about \$10,150 on current expenses and about \$4,850 on new equipment and additions to reserves for new equipment, a total of \$15,000. The charge against taxpayers, however, will be increased by only \$7,000. The main factors accounting for this result are the carry-over of a cash balance of \$1,800 from 1946 and the charging of \$3,000 against the capital reserve fund for new highway equipment. A further explanation lies in the fact that the precinct tax bill in 1946 was higher than it otherwise would have been in order to cover the deficit of

approximately \$1,500 from operations in 1945 and to provide the surplus of \$1,800 noted above.

The main changes proposed are accounted for as follows: first the increase of \$1,000 under administration represents largely the precinct's share of the Town and Precinct Assistant for a full year. The increase in the budget for the police department is caused by the addition of a fourth policeman to the force, by salary increases, and by an allowance for uniforms. The cost of running a police car is estimated at \$650 and this is a new item since nothing was budgeted for this purpose last year.

Some increase is to be noted in the cost of fire services, equipment and repairs. All municipal equipment is getting old and costs of repairs are increasing.

Most of the other items of current expense show no noteworthy changes, except the cost of fire escapes for the municipal apartments and repairs to buildings on the Gould farm.

Under new equipment, \$3,000 has been included under expenses for the purchase of a new truck for the highway department. But since the cost will be met by withdrawing the same amount from the capital reserve fund, it is not properly chargeable against the 1947 budget. The policy of setting up a \$2,000 reserve for highway equipment will be continued for another year although the precinct budget appears to be padded as a result. In reality a new \$3,000 truck is to be purchased by charging \$2,000 against the 1947 budget and \$1,000 is withdrawn from the capital reserve fund which was initiated during the war years. It is anticipated that all of the municipal units will discontinue the policy of setting up capital reserve funds after 1947 and will revert to the prewar policy of planning the purchase of equipment as recurring items.

The \$6,000 appropriation to reserve to make possible the purchase of a 750 gallon fire department pumper in 1948 has already been referred to. The anticipated cost is about \$14,000.

In view of a carryover of \$1,800, the net cost to property owners of the proposed precinct budget in 1947 is \$48,550—an increase of \$7,000 over the tax in 1946.

The total impact of all the proposed budgets upon property owners is always shown in the budget of the town under "property

taxes” and—with some qualifications, in the table of tax rates. The town is the collecting agency for all municipal bodies and it performs certain functions of its own; but as a spending agency it is far outdistanced in recent years by the school authorities. This may be interpreted as indicating a greater current interest in the quality of our schools than in highways, the poor, or in cemeteries. The budgeted expense of the Town, including a County assessment of \$13,000, is \$65,000, an increase of \$4,500 in 1947 over 1946. But the burden of town functions upon property owners will be only about \$1,500 higher in 1947 because of anticipated increases in other revenue. The main cause of rising taxes is not to be found in the town budget.

The \$700 item under capital reserve is a transfer to reserve which resulted from the sale of certain old equipment. The \$1,000 under new equipment will cover the cost of a welder and a greasing machine which will help keep down the cost of maintaining old equipment in use. Much of the town equipment is hoary with age; but in spite of that it is worth recording that unexpectedly favorable results have been obtained over the past five years in keeping down the cost of maintaining in operation this aged and rather obsolete equipment. Credit is due to efficient and interested service.

A change in policy is recommended to be followed in the financing of cemeteries. Heretofore one-half of the price paid for a lot was used to cover current expenses of maintaining cemeteries; the other half was set aside in a trust fund as an investment. This was a far-sighted policy and wise when it was adopted, and would have worked out well if conditions had continued as they were at that time. The income from the trust fund which was being built up would have covered most of the costs of maintaining the lots perpetually. It would have been a self-financing institution. But times have radically changed. Interest rates have fallen 50% and consequently the income from the proposed trust fund is sharply down. At the same time the costs of maintaining the cemeteries is much higher than it was. As a result the cost of upkeep of the Dartmouth Cemetery is borne only about one-fourth by the trust fund which the town acquired when it took over that cemetery, taxpayers currently bear about three-fourths of its cost of upkeep.

And the current yield of the trust fund which has been built up for Pine Knolls Cemetery covers less than 10% of current costs of upkeep. The costs are mainly borne by the taxpayers year by year, and bear almost no relation to the present or prospective yield of the trust funds.

Because of these conditions, the Finance Committee has recommended to the Selectmen that the policy be changed from one of diverting half of the current receipts from the sale of lots to a Trust Fund (whose income would be expected to maintain cemeteries) to a policy of using the recurring receipts from the sale of lots exclusively in the current budget as a means of meeting recurring expenditures of cemeteries. The previous policy means investing at 2% about \$1,200 received from the sale of lots in order to ensure an annual income of \$24 at current interest rates, and perhaps even less a decade hence. The change in policy which is recommended will of course leave existing trust funds as they are but it would stop building them up. It would also save taxpayers today perhaps \$1,000 per year. They would continue to be responsible for bearing indefinitely all the costs of upkeep which are not covered by the income from existing trust funds. The Finance Committee is unanimous in the belief that this change in policy is wise.

A few comments on miscellaneous matters. The policy is being continued of constructing annually a mile of hard surfaced road from Etna through Hanover Center. The power grader which was ordered a year ago has not been delivered. It will probably cost 8-10% more than was estimated but it will not affect the current town budget because it will be financed from the capital reserve fund. Most of the remainder of that town fund will be used to purchase a new truck which is now on order at an estimated cost of \$2,800. So far only seven employees of the town have elected to participate in the State Retirement system.

If all the budgets are voted as they are presented here the probable effect upon the tax rates—remembering the general increase in assessed values—will be substantially as is estimated in the following table:

TAX RATES

	1933	1935	1939	1943	1946	1947
Town	83	1 17	96	78	76	76
Precinct	62	57	56	52	80	86
School	1 10	1 48	1 51	1 36	1 76	1 86
Total in Precinct	2 55	3 22	3 03	2 66	3 32	3 48
Total outside Precinct	1 93	2 65	2 47	2 14	2 52	2 62

HANOVER MUNICIPAL DEBT

<i>Description</i>	<i>Rate</i>	<i>Date of Final Payment</i>	<i>Present Amount Outstanding</i>	<i>To be Paid in 1947</i>
High School Bonds	3½%	Feb. 15, 1954	\$49 000	\$ 7 000
Ledyard Bridge Bonds	3¾%	Dec. 1, 1954	18 000	3 000
Municipal Building Note	3%	July 31, 1949	7 500	2 500
Total			\$74 500	\$12 500

The membership and officers of the Finance Committee for the past year have been as follows:

William P. Kimball (term expires 1947)
 Lloyd P. Rice (term expires 1947), Chairman
 Haslett D. Fullington (term expires 1948)
 Martin J. Remsen (term expires 1948)
 Joseph L. McDonald (term expires 1949)
 Harry W. Tanzi (term expires 1949)
 Martin L. Lindahl (representing the Precinct Commissioners), Secretary
 Fletcher Low (representing the School Board)
 Andrew G. Truxal (representing the Selectmen)

Respectfully submitted,

HANOVER FINANCE COMMITTEE

by Lloyd P. Rice, *Chairman*

REPORT OF COMMISSION ON POSTWAR
PLANNING

In accordance with Article Seven of the warrant, as amended and voted by the Town of Hanover on March 12, 1946, the moderators of Town, Precinct, and School District appointed the following men to serve as a Commission on Postwar Planning for a term of three years: Andrew G. Truxal, representing the Selectmen; Martin L. Lindahl, representing the Precinct Commissioners; Robert K. Carr, representing the School Board; Theodore E. Bacon; Archie B. Gile; William P. Kimball; Frank M. Morgan; Hugh S. Morrison; and W. H. Trumbull.

The Commission elected Mr. Morrison as its chairman for a term of one year, and Mr. Bacon as secretary pro tem. Mr. James F. Cusick was appointed in February to replace temporarily Mr. Robert K. Carr as the representative of the School Board. In October Mr. Robert J. Anthony, newly-appointed Town and Precinct Assistant, was named Clerk of the Commission.

The Commission agreed to devote its first year to a few of the most urgent planning problems, especially revision of the Zoning Ordinance, and to try to carry these through to the stage of action. Meetings were held bi-weekly to July, and weekly since October 1st. The chief matters for report are as follows:

Town Map. A new map of the Town of Hanover, started last year, has been completed and is being printed.

Sewers. A sub-committee consisting of Mr. Lindahl, Chairman, E. S. Brown Jr., C. W. Sargent, and R. J. Anthony has carried on study of the sewer problem. A plan for Precinct ownership and operation of all sewers in the Precinct will be presented in the future, and work will continue thereafter on a long-term plan for modifying and extending the system and studying the problem of river pollution.

Streets. Streets, traffic-flow, and parking together form one major problem which has been considered in committee-of-the-whole. An

eventual master street plan intended to contribute to the orderly and efficient development of the street network has received some consideration, though primarily from the standpoint of its relationship to zoning revision. As preliminary to the formation of such a plan, the Commission desired a thorough survey of the volume, character, origin and destination of through and local traffic. Such a survey was requested and will be undertaken by the New Hampshire State Highway Department this Spring.

Zoning. The Precinct voted on March 14, 1946 (Article Nine of the warrant) to authorize the Commission on Postwar Planning to review and revise the Zoning Ordinance of the Precinct. As the most urgent problem for the postwar years, due to expected building activity, this has constituted the Commission's major work for the past year. Long and careful work has resulted in steady progress on the zoning ordinance and map. Though substantially complete, the new ordinance is not ready to submit to the Precinct at its March meeting, because of the necessity of thorough legal examination and a series of public hearings. These will presumably be held in the late Spring and action taken either at a special Precinct meeting or at the regular meeting of March 1948.

Respectfully submitted,

HUGH S. MORRISON, *Chairman*

for the Commission on Postwar Planning

WARRANT
THE STATE OF NEW HAMPSHIRE

Grafton, SS Town of Hanover

To the inhabitants of the Town of Hanover in the County of Grafton, in the State of New Hampshire qualified to vote in town affairs:

You are hereby notified to meet in the Gymnasium of the High School in said Hanover on Tuesday, the Eleventh day of March next, at ten o'clock in the forenoon to act upon the following subjects:

First: To choose by Non-Partisan Ballot the following Town officers:

- one Selectman for three years
- one Town Clerk
- one Treasurer
- one Library Trustee
- one Trustee of Trust Funds

Second: To hear the reports of the Selectmen, Treasurer, Auditors, and other Town officers and to pass any vote relating thereto.

Third: To raise such sum of money as may be necessary to defray town charges for the ensuing year and to make appropriation of the same.

Fourth: To elect by majority vote the following Town officers:

- two Auditors
- one Member of the Advisory Assessors Board—for a term of three years

three Fence Viewers
two Surveyors of Wood and Lumber
other necessary Town officers

Fifth: To see if the Town will vote to place under gates and bars that section of Hayes Hill from driveway of George White easterly to driveway of Augustus P. Farnsworth residence.

Sixth: To transact any other business that legally may be brought before said meeting.

Polls will be closed at three o'clock.

Given under our hands and seals this Twenty-fourth day of February in the year of our Lord Nineteen Hundred Forty-seven.

ANDREW G. TRUXAL,

ROBERT J. PUTNAM,

NILES A. LACOSS,

Selectmen of Hanover.

A true copy of Warrant, attest:

ANDREW G. TRUXAL,

ROBERT J. PUTNAM,

NILES A. LACOSS,

Selectmen of Hanover.

ABSTRACT FROM THE TOWN CLERK'S RECORD

A legal meeting of the inhabitants of the Town of Hanover, New Hampshire, was called to order by Edgar H. Hunter, Moderator, on March 13, 1946, at 10:00 A.M. in the Gymnasium of the High School Building.

The Town Warrant was read by the Clerk, L. Leroy Blodgett.

Voted: That Articles I and II be considered together.

The following officers were elected by Non-Partisan Ballot: .

Niles A. Lacoss, Selectman, for three years
 L. Leroy Blodgett, Clerk, for one year
 Ethel C. Bond, Treasurer, for one year
 Adna L. Camp, Library Trustee, for three years
 David C. Rennie, Trustee of Trust Funds, for three years

Voted: That the reports of the Selectmen, Treasurer, Auditors, and other Town Officers be accepted as printed.

Voted: That the report of William P. Kimball, Chairman of the Post-War Planning and Rehabilitation Commission, be accepted.

Voted: That the report of Harold R. Bruce, Chairman of the Town War Memorial Committee, be accepted.

Voted: That the report of the Hanover Finance Committee be accepted.

Voted: That in addition to the State, County, Highway, and Poll Taxes required by law, the Town raise the sum of twenty-five thousand eight hundred and twenty-five dollars (\$25,825.00) and appropriate said sum and all other moneys which may be paid into the treasury, and which are not required by law otherwise to be expended, in accordance with the budget and report as presented by the Selectmen.

The following officers were elected by ballot:

David C. Rennie and Donald L. Barr, Auditors, for one year
 Walter H. Trumbull, Member of Advisory Assessors board,
 for three years

Leon G. Hayes, Elmer A. Dana, and Vincent C. Harris,
 Fence Viewers, for one year

Harvey N. Camp and John H. Minnich, Surveyors of wood
 and Lumber, for one year.

Voted: That the Town include its Officers and employees, other than those now covered by the Firemans' Retirement System, in the Employees' Retirement System of the State of New Hampshire.

Voted: That the Town raise and appropriate the sum of six hundred ninety-four dollars (\$694.00) to pay for the Town's share in the Employees' Retirement System.

Voted: That the Moderators of the Town, School District, and Precinct appoint a commission on Post-War Planning to serve for three years, whose duties and powers shall be as follows:

1. To continue the study of long-time future needs of the three government units; to undertake a study of the probable trend in tax resources and to make suggestions for promoting the development of local property tax resources; and to report to appropriate municipal bodies.

2. To cooperate with the Finance Committee, through the appointment of a Joint Sub-Committee, in formulating any specific plan or recommendations which may involve the expenditure of public moneys, or a change in tax rates, or public borrowing.

3. The Commission shall have such other powers and duties as may be delegated to it by the Selectmen.

Voted: That the Town participate with the Precinct in the employment of a full time Town and Precinct Assistant, and that the Town raise and appropriate the sum of seven hundred fifty dollars (\$750.00) to defray the Town's share of the salary of said Town and Precinct Assistant for half of the current year.

Voted: That upon all taxes on real and personal property, paid within fifteen days after the date of the tax bills, or on or before July 15, whichever is the later date, a discount of $1\frac{1}{2}$ per cent be allowed the taxpayers.

Voted: That the Town be authorized to borrow such sums of money as may be necessary to meet the Town's obligations until the taxes are collected and paid into the Treasury.

Voted: That the following resolution be spread on the minutes of this meeting and that the Town Clerk be instructed to send a copy thereof to Horace E. Hurlbutt:

"For fifteen years, from January 6, 1930 to January 1, 1945, Horace E. Hurlbutt served in the capacity of Selectman of Hanover. While Hanover has had, in the past, public servants who might match him, it was generally agreed that none could excel Horace in absolute integrity, in loyalty to the community, in high ideals of public service, and in sympathetic treatment of the poor and unfortunate. The Town, in meeting assembled, takes this opportunity to express its appreciation of a duty so well done."

Voted: That the following resolution be spread on the minutes of this meeting and that the Town Clerk be instructed to send a copy thereof to J. Walter Ferson:

"It is with regret that we report the resignation of J. Walter Ferson as Forest Fire Warden of the Town of Hanover. The fact that Walter had been appointed year after year for a period of more than twenty years by the State Forestry Department to serve as our Warden is testimony enough that during that period he discharged his duties fully and faithfully. For health reasons he concluded that he ought to resign and to hope that a younger man might be appointed so that the maximum precautions would be taken against any disastrous fires. The Town of Hanover, in meeting assembled, desires to take this opportunity to express to Walter Ferson its appreciation of the quiet and efficient manner in which he has performed the duties of his office."

Meeting closed at 3:00 P.M.

L. LEROY BLODGETT,
Town Clerk.

HANOVER TOWN LIBRARY REPORT

for the

Year Ending December 31, 1946

The Library has been open all the regular days this year.

The output of juvenile books has been considerably increased. Among the new books purchased this year is a large Funk and Wagnall's dictionary which we have needed for some time. Three volumes of travel for juveniles have been added.

The repairs on the building have not been as extensive as we had hoped. Lack of labor was the main reason for this. The interior walls and the entrance have been painted.

The steps and walk need repairing badly. We hope this year to get the ceiling cleaned and the floor refinished.

Respectfully submitted,

ADNA L. CAMP,

MARTHA T. FULLER,

HELENE A. POLAND,

Trustees of Hanover Town Library.

During the year, 269 books from the State Library and the Regional Library at Littleton (Bookmobile) were loaned 612 times to 68 borrowers.

The card catalogue is in the process of revision. The juvenile books have been classified according to the Dewey Decimal System.

The library has received some valuable gifts. Mrs. E. M. Hopkins of Hanover gave four bound volumes of the Youth's Companion. Mr. W. L. Webber of Newton, Mass., gave us some choice volumes which are an addition to our reference department.

The librarian visited the upper grades in our village school during Book Week, showed books and told stories. Every book was borrowed and the children came to the library for more.

Respectfully submitted,

KATHRINA EMERSON SPENCER,

Librarian.

Juvenile Cases

Delinquent child	1
------------------	---

The Court tried 10 civil suits: 5 small claims cases, 4 suits on account and one action of ejectment.

DONALD L. STONE, *Justice.*

ETNA FIRE ASSOCIATION

SECRETARY'S REPORT

We do indeed feel Providence has been kind to us this past year in regard to serious fires. The house known as the Christopher King place, just off the Rudsboro Road burned. No one was living there at the time. By chance it was discovered, at a late hour. Though the traveling was slow, our Department arrived in record time. The fire was beyond control, but we were able to keep it from spreading over the fields of tall, dry grass, to do greater damage.

While we need no reminder of the difficult years just past, our enterprise has surely been affected. The past five years we have managed to keep in shape through constant care by our maintenance committee. In early fall we found seven lengths of hose had become unfit by reason of age and use. The replacement of this item, and others, forced us to draw more heavily on our budget than in any previous year.

The budget for the coming year has been carefully prepared, with full knowledge that some changes are sorely needed if we are to keep within a reasonable degree of prepared efficiency.

Our fire warden, Harvey N. Camp, reports we have been called nine times, with satisfactory response to each call.

We have a full quota of membership, eighteen in number. Regular meetings are held each month, with President Clifford R. Elder presiding.

The personnel of our Association has maintained a high standard of good will, and efficiency. Each working for all, and all working for our Community and Town.

All bills are paid to date.

Respectfully submitted,

HARLEY H. CAMP, *Secretary.*

WARRANT

THE STATE OF NEW HAMPSHIRE

Grafton, SS Town of Hanover

To the inhabitants of the Village Precinct, in the Town of Hanover, in the County of Grafton, in the State of New Hampshire qualified to vote in Precinct affairs:

You are hereby notified to meet in the Gymnasium of the High School Building, in said Village on Thursday, March 13th, 1947 at 7:30 P.M. o'clock, to act upon the following subjects:

First: To choose by ballot a Moderator to serve for one year.

Second: To choose by ballot a Clerk to serve for one year.

Third: To hear the report of the Precinct Commissioners, Treasurer, Auditor, and other Precinct Officers and pass any vote relating thereto.

Fourth: To raise such sum of money as may be necessary to defray Precinct expenses for the ensuing year according to the proposed budget for 1947 and make appropriation of the same.

Fifth: To choose by ballot a Treasurer and an Auditor, each to serve for one year; and one Precinct Commissioner to serve for three years.

Sixth: To transact any other business that may legally come before said meeting.

Given under our hands and seals this 26th day of February, 1947.

GORDON H. GLIDDON,
JOHN S. GOULD,
MARTIN L. LINDAHL,
Commissioners.

A true copy of warrant, attest:

GORDON H. GLIDDON,
JOHN S. GOULD,
MARTIN L. LINDAHL,
Commissioners.

Hanover, New Hampshire

March 14, 1946

A meeting of the voters of the Village Precinct of Hanover, New Hampshire was called to order at 7:30 P.M. in the Grade School Auditorium. The Warrant was read by the Clerk.

ARTICLE 1. Donald L. Stone was elected Moderator for a term of one year.

ARTICLE 2. Ira W. Leavitt was elected Clerk for a term of one year.

ARTICLE 3. *Voted:* That the Precinct Report as printed, including the reports of the Commissioners, Treasurer, Auditor, and other Precinct officers be accepted.

ARTICLE 4. *Voted:* That the Village Precinct of Hanover, New Hampshire raise the sum of \$39,980 (Thirty-nine thousand nine hundred eighty dollars) and appropriate said sum and all other moneys which may be paid into the Treasury to defray the expenses of the Precinct for the year ending December 31, 1946, according to the budgets and report as presented by the Commissioners.

ARTICLE 5. Ethel C. Bond was elected Treasurer for a term of one year; Clarence W. Cofran was elected Auditor for a term of one year; Martin L. Lindahl was elected Precinct Commissioner for a term of three years; Donald L. Stone was elected Pine Park Commissioner for a term of three years.

ARTICLE 6. *Voted:* That the Precinct approve the inclusion of its officers and employees other than those now covered by the Fireman's Retirement System and the Police Retirement System, in the Employees' Retirement System of the State of New Hampshire, which system is provided for by Chapter 27-a of The Revised

Laws as inserted by Chapter 183 of Laws of 1945, and as provided by Chapter 201 of the Laws of 1945, and any subsequent amendments thereto.

ARTICLE 7. *Voted:* That the Precinct raise and appropriate the sum of \$750 (Seven hundred fifty dollars) to provide for the Precinct's share of the cost of participation in the Employees' Retirement System of the State of New Hampshire.

ARTICLE 8. *Voted:* That the Precinct participate with the Town in the employment of a Town and Precinct Assistant, and raise and appropriate the sum of \$750 (Seven hundred and fifty dollars) to defray as the Precinct's share, one-half of the salary of said Town and Precinct Assistant for approximately one-half of the current year.

ARTICLE 9. *Voted:* That the voters of the Village Precinct of Hanover, New Hampshire authorize the Commission on Post War Planning created by the vote of the Town of Hanover at the meeting of March 12, 1946 to act in the capacity of a Zoning Commission for the Village Precinct of Hanover, and that the Precinct Commissioners inform the Commission on Post War Planning, where constituted, of this vote and of the functions of the Commission on Post War Planning under it as follows: In acting as a Precinct Zoning Commission it would be the function of the Commission on Post War Planning to review the present zoning ordinance of the Precinct in the light of experience since its adoption in 1931 and of the present needs of the community for adequate housing. To propose any alterations of amendments to the present Zoning Ordinance which it considers desirable to hold for the hearings on such changes as it may propose on the basis of a preliminary report, after such public hearings, to present its final report and recommendations to the voters of the Precinct for vote. Such report would be made to the regular meeting in March, 1947, or to a special meeting for the Precinct to be held prior to that time, in the event that the Commission on Post War Planning acting as Precinct Zoning Commissions, should consider such earlier consideration and action by the Precinct voters desirable.

ARTICLE 10. The Sewer Committee reported progress in their work which is yet incomplete.

A vote of thanks was given to W. H. McCarter for his excellent work as Precinct Commissioner.

Voted: That upon all taxes upon real and personal property paid within fifteen days after the date of the tax bill or on or before July 15, 1946, whichever is the later date, a discount of one and one-half per cent be allowed the taxpayers and that the Commissioners be authorized to borrow such sums of money as may be necessary to meet the Precinct's obligations until the taxes have been collected and paid into the Treasury.

Voted to adjourn.

IRA W. LEAVITT,
Clerk.

AUDITOR'S CERTIFICATE

Hanover, New Hampshire
January 27, 1947

I have examined the accounts of Gordon H. Gliddon, John S. Gould, and Martin L. Lindahl, Precinct Commissioners, for the period of one year, January 1, 1946 to January 1, 1947, and I find them to be correctly kept and supported by proper vouchers.

CLARENCE W. COFRAN,

Auditor.

REPORT OF POLICE DEPARTMENT

January 1, 1947

To the Board of Commissioners of the Village Precinct of Hanover, New Hampshire:

Roster of the Department

1. Andrew J. Ferguson, Chief
2. Charles F. R. Stone, Patrolman
Appointed May 1, 1936—
Resigned May 15, 1946
3. Dennis J. Cooney, Patrolman
4. Sylvio J. Desroches, Patrolman
Appointed May 1, 1946
5. Edwin M. Thompson, Patrolman
Appointed June 1, 1946

Special Officers

- | | |
|----------------------|-----------------------|
| 1. Agan, Robert | 13. Leavitt, Dana |
| 2. Bruce, Rufus | 14. Lordon, Gene |
| 3. Camp, Harley | 15. Marcotte, Henry |
| 4. Fogg, Malcolm | 16. Mower, Stafford |
| 5. Gauthier, Alfred | 17. Normandin, Arnold |
| 6. Hazen, Seymour | 18. Palmer, Carl |
| 7. Hobbs, Edward | 19. Ricard, Richard |
| 8. Knox, Henry | 20. Roy, Clayton |
| 9. LaBounty, Francis | 21. Roy, Raymond |
| 10. Laramie, Eugene | 22. Sargent, Merton |
| 11. Larty, Wilfred | 23. Snow, William |
| 12. Lee, Fred S. L. | 24. Tuxbury, Francis |

The department called upon the Lebanon, White River Junction, Canaan, Claremont, Enfield, Woodsville, Windsor, and Woodstock police departments for uniformed officers numbering one hundred and fifty-nine (159) to assist at various College events during the year. This was done at no expense to the Precinct.

All information concerning crime in the Precinct, Town and State is filed at Police Headquarters.

Criminal Activities

Number of criminal arrests, 52; investigations made, 121; number apprehended and released without criminal action, 60. In some instances arrests were made at the request of other law enforcement authorities and the persons released to them for prosecution.

<i>Crime</i>	<i>Arrest</i>	<i>Investi- gation</i>	<i>Apprehended & Released</i>
Army and Navy Deserters	2		
Assault and Battery	1	3	2

Violation of Parking	6	46	
	148	239	299

Air Craft Violations

Operating so as to endanger—1 arrest, 2 warnings.

The Police Department report this year highlights the appointment of two patrolmen in the persons of Sylvio J. Desroches and Edwin A. Thompson. Dennis J. Cooney was appointed in 1945. They are all veterans of World War II and are receiving benefits of training under the G. I. Bill of Rights. The department gains much under this arrangement in financial support and more particularly in service. The employment of three patrolmen in addition to the Chief permits twenty-four hour coverage under working conditions which allow each man one day off a week, a limited amount of sick leave, and a two weeks vacation.

When Officer Stone retired in May, the Police Department and the Hanover Volunteer Hose Company tendered him a dinner at which he was presented a substantial purse raised by his many friends and associates. Officer Stone was deeply appreciative of this recognition of his long service to the community.

The office records reveal that work has more than doubled over last year. There have been 148 Motor Vehicle arrests, an increase of 81. Criminal arrests number 52, an increase of 21.

Purchase of a motor vehicle by the department permits a routine patrol which has never before been possible. The car is also used for many emergency cases and the department is called frequently for such service.

The department report can only become complete with the reiterated statement that police work is successful in direct relation to community support. The Hanover Police Department has always enjoyed the cooperation of local residents and it continues to receive help in its attempt to maintain an orderly community. The officer personnel are deeply appreciative of this fact and welcome this opportunity to have it placed on record.

Respectfully submitted,

ANDREW J. FERGUSON,
Chief of Police

REPORT OF THE FIRE DEPARTMENT

January 1, 1947

A glance at the number of fires which occurred this past year shows that there were twenty-three more than for the previous year. Fortunately, for all parties concerned, there were no large or serious fires.

As for several years past, the greatest number of calls was for chimney fires, which indicates very definitely that it would be wise to have the chimneys cleaned once a year.

The next largest number of calls was for fires in hot water and oil heaters. This number of fires could be reduced greatly, if the directions for the use of the heaters were followed carefully and if the heaters were kept clean.

The number of fires in automobiles is next on the list, and is a new item. These fires may be due to the fact that the cars are old, and the wires have become oil soaked. It would be advantageous to have your garage man check up on the condition of these wires.

Fires in grass and leaves have increased from none in 1945 to seven in 1946. This is due in part to carelessness and thoughtlessness, and it should be pointed out again that permission must be obtained from the Fire Chief for the burning of grass and leaves in the open. With the increase in the number of automobiles on the road, coupled with the consequent increase in the number of picnics and camp fires, greater care than ever must be observed by all who use these hazardous areas.

The department was called to three forest fires or fires in woodlands. These might well have developed into large fires, had it not been its good fortune to have them discovered before they got out of control, and to have them occur on a day when there was no wind.

Chief Nott, Assistant Chief Stewart, Captain Rand, and Lieut. Ware attended a Fire Training School given in March at the Navy Yard in Boston.

Chief Nott was present at the New England Chief's Convention at Wentworth-By-the-Sea in June, 1946. Commissioner John Gould, Chief Nott, and Assistant Chief Stewart attended the N. H. State Fire College at Durham, N. H., in September 1946.

The two housing projects, Wigwam Circle and Sachem Village have increased the fire hazards of the district and have necessitated the addition of three new hydrants in the former area, and one in the latter. Two new boxes have been installed, No. 24 in Wigwam Circle, and No. 67 on Lebanon Street near Ware's Garage.

The Board of Engineers would like to call your attention to the fact that the present equipment grows older from use with each passing year as well as more antiquated. New and modern equipment is needed, if the town is to be protected adequately and efficiently. This paragraph is not intended as an advance alibi for your Engineers, in the event of a serious fire, for which some of our out-moded equipment is inadequate—It is a real need.

The Hanover Fire Department is both pleased and gratified by the co-operation which the owners of homes have shown in installing fire escapes where they have been required. It is sincerely hoped that all who have not as yet done so, will tend to this vital matter during the coming year.

Once again the Xmas party for the children was a great success, even though the weather was poor. The Fire Department appreciates the generosity of the people of Hanover in contributing so willingly to this annual event. It is sufficient reward to observe the happiness of the children during their ride, and when it is time for Santa Claus to give them their gifts.

The drills during the year were well attended, and the spirit of the men was admirable. They were most anxious to learn or to review the many varied skills and techniques which they are required to know in their line of duty.

During National Fire Prevention Week in October, the Fire Department, in conjunction with the P.T.A. of Hanover, gave an outdoor demonstration of simple fire fighting methods. The

demonstration was well attended and many of the people enjoyed it so much that they would like to have another one next year. In the light of this year's experience, it would be wiser to hold it during the months of June or July, when it is warm and light out-of-doors in the evenings.

Respectfully submitted,

C. H. NOTT, *Chief*

S. C. HAZELTON, *Asst. Chief*

A. P. STEWART, *Asst. Chief*

REPORT OF THE FIRE DEPARTMENT

January 1, 1947

To the Commissioners of the Village Precinct of Hanover,
New Hampshire:

Amount of Ladders raised in feet	2 237	1 807

REPORT OF HEALTH DEPARTMENT

January 31, 1947

To the Commissioners of the Village Precinct of Hanover,
New Hampshire:

There was no extensive epidemic of contagious disease in Hanover this past year. Only 59 cases of reportable disease were brought to the attention of the Health Officer.

A series of inspections of the restaurants and other eating places made by the Health Officer and State Inspectors showed that in the majority of cases sanitary conditions were not up to standard. Directives for correcting unsanitary conditions were given, and on later inspection improvement was noted. These inspections are to be continued.

During the spring and summer of 1945 some 500 gallons of oil were spread over the mosquito breeding places in and about Hanover Precinct and we still had plenty of mosquitoes. In the spring of this year (1946) the breeding places of mosquitoes were thoroughly sprayed with an oil solution of D.D.T. This summer there appeared to be relatively few mosquitoes. This diminution of numbers of mosquitoes may have been due in part to unfavorable climatic conditions for mosquito breeding, but it is believed that the long lasting action of the residual D.D.T. on the breeding places was an important factor in lessening the numbers of these flying pests. It is expected to spray again this year with D.D.T.

As usual the water supply was examined twice monthly and is satisfactory. The algae growth in the water of the reservoir was relatively low this year.

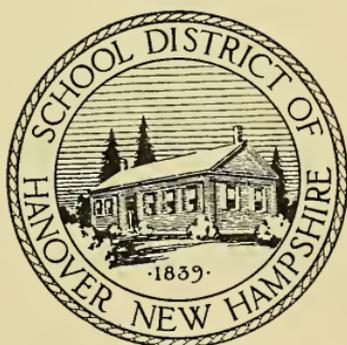

The milk examinations and dairy inspections show the milk supply to be satisfactory. It should be remembered that almost all the Hanover milk supply is now pasteurized which is an added health protection.

Respectfully submitted,

KENNETH N. ATKINS,
Health Officer and Milk Inspector.

REPORT OF THE SCHOOL BOARD

Believing that the primary function of a teacher is the ability to teach and desirous of attracting and retaining the superior teacher, the Hanover School Board, on January 6, 1947, voted to adopt the following salary scale. It is realized that not all members of the present teaching staff can be placed immediately at the salary their training and experience warrants. These adjustments, the school board believes, will have to take place over a span of a few years with annual increments of \$200 until the proper positions of such teachers are attained.

SALARY SCALE

Maximum

Headmaster, High School	\$5 000
Asst. Headmaster, High School	4 200
Principal, Elementary School	4 200
Teachers (all grades men and women)	4 000

Minimum

Bachelor's degree	1	800
Annual Increments	2 of	100
	4 of	200
	4 of	150
	6 of	100
Master's degree	1	900
Annual Increments	1 of	100
	5 of	200
	4 of	150
	4 of	100

TEACHERS. No new teacher shall be employed by the Hanover School Board after September 1, 1946 unless such individual is the holder of a bachelor's degree or its equivalent.

COACHES. There shall be no extra pay for coaching. All teachers are expected to assist, cooperate, or direct extracurricular activities of the school system.

SUMMER SCHOOL. It is expected that, at least, once in every four year period each teacher will attend summer school or make some similar contribution to his (or her) educational advancement. Such attendance or other contribution is considered necessary by the school board for advancement beyond the salary limit of that four year period.

There shall be available the sum of \$1000 annually to assist teachers in attending summer schools; for in-service training or for other similar purposes which have the approval of the superintendent and of the school board.

SICK LEAVE. There shall be fifteen days per year allowed at full pay cumulative over a five year period. After expiration of sick leave, leave of absence shall be granted up to one year at full pay minus the salary of the substitute teacher.

CHANGE. The school board reserves the right to change or modify any or all of the above at any time. It does not recognize the above as representing any contractual obligations between any teacher and the school board. However, the present school board does believe that the limits and the conditions specified above are fair and just to the teacher as well as to the taxpayer of Hanover.

FLETCHER LOW, *Chairman,*

For the Hanover School Board.

INTRODUCTION OF PHYSICAL EDUCATION

- I. Why the School Board considers this the proper time to include physical education in the curriculum.

It may first of all be said that the time is always "right" for the taking of such a vitally important step. Hanover should endeavor to remedy what has always been a serious deficiency in its educational program just as promptly as possible.

In the second place, our war experience should lead us to take this step at once. Physical fitness has become a key phrase in the American vocabulary since 1941:

Selective Service rejection figures show that 30% of all men aged 21 were rejected as unfit for military service, and 70% of men aged 36. Of course, many causes were responsible for this amazingly high rate of rejection. But it is proper to say that lack of physical fitness was a very important factor and that many of the defects that caused rejections might have been remedied at an early date in the individual cases had the men in question enjoyed the advantages of a satisfactory physical education program during their school years.

- II. What are the aims that would be furthered by a physical education program in the Hanover schools?

A. PRIMARY AIMS

1. Development of sound organic structure and the promotion of a condition of physical fitness for each individual student. Studies show that many individuals, if left to their own resources, do not automatically achieve their maximum physical strength or well-being. A scientific, continuous program of physical education in the schools can do much to promote that maximum development.
2. Acquisition of, and improvement of basic skills, such as running, jumping, climbing, throwing, and swimming; of skills in spe-

cific sports, such as volleyball, tennis, skiing, skating and softball; and an opportunity to learn the fundamentals of certain team sports.

B. SECONDARY AIMS

1. Development of healthful living habits. Physical education by itself does not necessarily make a person healthy. But it can teach him sound rules of personal hygiene, and it can in cases needing remedial treatment promote improvements in posture, body coordination, and muscular strength.
2. Development of the individual's capacity for social adjustment. By providing opportunities for children to be creative, to succeed, to cooperate with others, to adjust to group needs, to contribute to group welfare, to lead, to follow, to learn to play fair and to respect the rights of others, physical education trains our youth for life in a democratic society. Since physical education frequently is concerned with doing whereas many other studies are concerned with reading and thinking, the contribution it can make to the student's understanding of the democratic process is apt to be unique.
3. Promotion of the individual's recreational capacity and his ability to make an intelligent and rewarding use of his leisure time. Physical education teaches the individual how to enjoy exercise and sports throughout life. The resulting beneficial effect upon personality development and the individual's sense of satisfaction in life can be substantial.

III. What are the essential features that should be included in a physical education program in Hanover?

- a. Physical examination of each child, recognition of individual defects and prescription of special work for children with such defects.
- b. A program of organized physical training, consisting of games, gymnastics, rope-climbing, tumbling, etc., with regular periods of instruction during the school hours.

- c. A well planned intramural program of games and sports out of doors where possible, and outside the school hours, with emphasis upon encouraging large numbers of children to participate in activities that are carefully scaled as to age groups.
- d. A reasonable program of interscholastic sports, with emphasis upon physical development, good fellowship, and enjoying the game, rather than winning teams. The program should be varied so as to encourage large numbers of different students to participate. Schedules should be carefully controlled so as to limit the length of the schedule of any one sport, the number of out of town games and to prevent the playing of teams beyond Hanover's class.
- e. Cooperation with a summer recreation program such as the one that has been developing in recent years in Hanover, and also cooperation with non-school programs that are carried on during the school year, such as in skiing.

IV. What equipment and personnel will be needed if Hanover is to have a physical education program that incorporates the aims and features indicated above?

- a. Our present physical plant is entirely adequate. In the high school gymnasium and the grade school assembly room plus the playing field, we possess admirable facilities for physical education. In failing to utilize these facilities more fully for the purposes for which they were originally intended Hanover has been wasting its resources.
- b. A modest item in the annual budget will be sufficient to provide for the purchase of equipment. The physical education program of today does not necessitate a great deal of costly paraphernalia or apparatus.
- c. There will be needed a well-trained capable, enthusiastic Director of Physical Education to take charge of the entire program. He should be a man and should be a graduate of one of the recognized institutions providing special instruction in physical education.

- d. All authorities seem agreed that the actual instruction of girls in physical education should be provided by a woman. There are two alternatives: 1. a regular woman instructor, to serve under the director, 2. utilization of present women on the teaching staff to provide such instruction. The first alternative seems very much the better, except as to the elementary grades, where there seems to be a division of opinion among the authorities with many experts recommending that instruction be provided by the home room teacher under the Director's supervision.

There is agreement however upon the importance of the physical education program at the elementary school level.

- e. There is a good chance that there will be available to supplement the personnel already described a number of practice teachers from Dartmouth College. Both the Department of Education and the Department of Physical Education in Dartmouth College have indicated enthusiasm for the use of college men by the Hanover schools in this manner.

V. What will the cost of the program be?

- a. Initial: An item of \$4,400 is included in the budget for 1947-48 to cover salaries and equipment.
- b. Eventual: The physical education teachers will be eligible to enjoy the advantages of the new salary schedule for teachers. Equipment should not in the long run cost more than \$500 a year.

VI. How will Etna benefit by the program?

It seems likely that the actual instruction in the first six grades will be provided for the most part by the home room teachers under the director's supervision. The Etna program would thus operate in exactly the same manner as the program in the Hanover Grade School, with reasonably frequent visits to the Etna School by the director, the woman assistant and the practice teachers.

- VII. Has the Hanover School Board studied the problem carefully and does it possess specific plans for the introduction of a carefully worked-out and intelligent program of physical education?

Physical education has been receiving the attention of the School Board more or less continuously for three years. Two separate studies have been made by committees: one by a subcommittee of the School Board, the other by a larger committee consisting of two members of the School Board, the Superintendent of Schools, the High School Headmaster, the Grade School Principal, the School Physician and two members of the Dartmouth Department of Physical Education. Both of these committees prepared detailed reports which received the careful attention and ultimate approval of the entire School Board.

SCHOOL BOARD OF THE SCHOOL DISTRICT OF HANOVER

WARRANT

STATE OF NEW HAMPSHIRE, GRAFTON, SS. TOWN OF HANOVER

To the Inhabitants of the School District of Hanover qualified to vote in District Affairs:

You are hereby notified to meet at the High School Gymnasium in Hanover, New Hampshire, on Wednesday, the 12th of March, 1947, at seven-thirty o'clock in the evening to act on the following subjects:

1. To choose by ballot a Moderator, a Clerk and a Treasurer each to serve one year.
2. To choose by ballot three members of the School Board to serve for a term of three years.
3. To choose an Auditor to serve one year.
4. To hear the reports of Agents, Auditors, Committees or other officers heretofore chosen, and to pass any vote relating thereto.
5. To see how much money in addition to the amount required by law and the receipts of the department the district will vote to raise and appropriate to apply to the payment of salaries of district officers, to the payment of outstanding obligations and interest on the same, and to meet the needs of the department for all other purposes as set forth in the budget.
6. To transact any other business that may legally come before this meeting.

Given under our hands and seals at Hanover, N. H., this 4th day of February, 1947.

ANNUAL MEETING OF THE HANOVER
SCHOOL DISTRICT

The Annual Meeting of the Hanover School District was held in the Gymnasium of the High School at 7:30 o'clock, in the evening, Wednesday, March 13, 1946. Herbert W. Hill, Moderator, called the Meeting to order before a capacity attendance.

It was first voted to keep the polls open until 9:00 p.m. owing to the large number present.

The Clerk, Thomas C. Kirkwood, then read the Warrant, consisting of eight articles.

Article I, VOTED. Herbert W. Hill was chosen Moderator, Thomas C. Kirkwood, Clerk, and Ethel C. Bond, Treasurer, each to serve one year.

Article II, VOTED. Robert K. Carr, Marjory L. Packard, and Helene Poland were chosen as members of the school board each to serve three years.

Article III, VOTED. Gordon Bridge nominated and seconded for Auditor to serve one year and the secretary was instructed to cast one vote for the candidate.

Article IV, VOTED. On the motion of Fletcher Low it was voted to accept the reports of agents, auditor and committees and place their reports on file.

Article V, VOTED. It was voted that the School District of Hanover, raise and appropriate, including the amount required by law, \$103,567.00. This amount in addition to any unexpended balance and the receipts of the department to be used for school purposes as follows:

\$8,965.00 for the payment of bonds and interest, \$290.00 for

the salary of officers, and the remainder for general purposes and improvements as set forth in the budget.

The different items of the budget were ably explained by Fletcher Low, taking each item separately and going into great detail so that all present might have a thorough understanding of its contents, following which Messrs. Neef, Rennie and L. P. Rice questioned the meeting on the exact meaning of Masters' Degrees, after which the motion was passed.

Article VI, VOTED. It was voted to approve of the inclusion of its officers and employees in the Employees' Retirement System of the State of New Hampshire as provided for by Chapter 27-a of the Revised Laws, as inserted by Chapter 183 of the Laws of 1945, and as provided by Chapter 201 of the Laws of 1945 and subsequent amendments thereto.

This article was explained by Kenneth W. Foley.

Article VII, VOTED. The meeting also voted the sum of \$537.00 as its contribution to the retirement system for the coming year, on motion of Kenneth W. Foley.

Article VIII, VOTED. On motion of James W. Cusick it was voted that upon all taxes upon real and personal property paid within fifteen days after the date of the tax bills or on or before July 15, 1946, whichever is the later date, a discount of 1½% be allowed the taxpayer.

It was also moved by George Theriault that the school meeting endorse and encourage the School Board in its plan to add Physical Education to the school program in 1947 and kindergarten in 1948.

Adjourned at 9:15 p.m.

THOMAS C. KIRKWOOD,

Clerk.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Hanover:

ASSUMPTION OF DUTIES. My work began officially on August 16, 1946. Previous to this I attended the Administrators Conference in Plymouth for three days. There I met the members of the State Department of Education and the other 47 superintendents. I spent all available time with my predecessor, Mr. Robert J. Fuller, and found him very willing to help a newcomer. The work that he did during his term in office is reflected in the fine schools we have in Hanover. His administrative ability and his knack of selecting fine teachers are shown in the classrooms. I feel it a real opportunity and challenge to follow in his footsteps.

SCHOOL BOARD. The Hanover School Board is a hard working group of interested citizens. Their efforts on behalf of adequate salaries for all school personnel are well known in the state. Again, I am fortunate in working with such an able group of men and women.

TEACHERS. The number one problem facing our national scene today is our teaching situation. In many communities, schools are closed or classes are unusually large. Hanover was wise in raising salaries last year. The proposed budget for 1947-48 asks for further increases in salaries. The situation for teachers for the coming year is a bit alarming when one considers the fact that at present in the elementary field there will be 11 graduates from Plymouth and 19 from Keene. This means a total of 30 trained teachers for grades 1-8 in the entire state. When you consider that the normal turnover is between 150 and 200 you can readily see what will happen when 48 superintendents approach these 30 teachers. Adequate salaries are an absolute must in the face of this supply and demand.

EXPANDED CURRICULUM. It is important that we give our young citizens the fullest kind of school program. Physical education will be a step toward this. It is regrettable that kindergarten is not being introduced at this time. These additions are no

longer considered luxuries in the best schools systems in America and Hanover should consider itself in that group.

STATE AID. New Hampshire is to be commended for having such a fine Commissioner of Education, as Dr. Edgar Fuller. The State Board of Education through him has proposed a program of financial aid to all school districts in New Hampshire. If the present proposal passes the legislature, Hanover stands to receive approximately \$12000. At present, we get no aid. Thinking citizens will do well to support this kind of legislation.

P-T. A. I should like to commend the work of the Hanover P-T. A. By their work and enthusiasm they show what can be done when a group of persons decides to work closely with all school officials.

My feeling is that we have only scratched the surface in finding ways of having parents and teachers work together. Some of the best results have been obtained when each teacher works with his or her own homeroom or group of parents. Discussions of class work, proposed trips, auditorium programs, and special activities prove helpful in bringing about a better understanding on the part of all concerned.

SCHOOL VISITATION. We have a splendid school system offering a broad program of activities. Parents and other interested citizens are urged to visit our schools, for pupils benefit when a community has knowledge of its schools. One way to get this is to see for oneself what is happening. Such visitation goes far toward clearing up misunderstandings and misinterpretations.

CONCLUSION. In millions of homes in America the *teacher* is the school. Just so long as we continue to attract and to hold excellent teachers will we have schools of which we can be proud. One of the assets of Hanover is its schools, and good teachers make possible good schools.

Respectfully submitted,

PAUL F. POEHLER, JR.,
Superintendent of Schools.
