REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention, however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience — a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on a rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump — it's safer. A neglected backyard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.
4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

SUPERINTENDENT'S REPORT

Hebron

The fulfillment of the Newfound Area School District on July 1, 1964, will abolish the Hebron School District, as such. Some voters will regret this move as the ending of another of New Hampshire's traditional concepts of education, the local school district. This is not strictly true, as Hebron is becoming a part of a larger local district, even as the small prudential districts were once incorporated into the present one which consists of the whole town. We will expect better educational opportunities for our young people as the co-operative district is activated.

"Modern Mathematics" has been introduced to Grades 1 and 2. This is basically a new approach to an old problem, to get the pupils to think and to develop new ways of working with numbers.

We have also incorporated a new system for learning to read. It is a phonetic approach which can be used in connection with any reading series, and gives the pupils a method of attacking the pronunciation of new words. Larger vocabularies, faster reading and better understanding should result from this change.

This would seem to be a poor time to be requesting a deficiency appropriation. The fact that there are more children in town than we budgeted for has resulted in additional costs of tuition and transportation.

Since this is my last report to the Hebron School District as such, I would like to commend Mrs. Blodgett for her devoted service to the children of the town over a period of many years.

May I also take this opportunity to thank the members of the school boards with whom I have worked. Their cooperation with me and their dedication to the welfare of the young people of Hebron (and Groton) are deeply appreciated.

Respectfully submitted,
EDWARD H. CURRIER
