## AUDITORS' REPORT

We have examined all books and accounts of the Town Officers. All vouchers were checked with the Selectmen's Receipts and Payments book. All voucher numbers were accounted for and each voucher had attaching invoices, time sheet or other supporting evidence.

The Treasurer's accounts were checked and found to be properly signed and in good order. The bank balance was reconciled with the cash balance.

The Town Clerk's accounts were checked and found correct.

The Tax Collector's accounts were checked and found to be out by the amount of cash on hand. Verification Notices were mailed to the major unpaid tax accounts.

Trustees of the Trust Funds accounts were verified, as to principal, interest received and payments made and with the minor corrections they seemed to balance.

Accounts of the Library Treasurer were checked and found correct.

The bonds of the town officers, trustees of the trust funds and insurance policies were examined and found in good order.

We suggest that the Town employ a certified Public Accountant as Auditor. The town books are becoming more complicated each year and professional assistance seems indicated.

Our Audit Report has been filed with the State Tax Commission as required.

## REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

---

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy - both industrial and recreational - is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area - 4,350,000 acres is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.
2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.
3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident we can improve our fire record in 1965.
