Supplementary material included Graphic Reports of Intelligence and Achievement Tests, Classroom Time-Tables, Transportation Detail, Table of Teachers Employed, October Budget, Financial Estimate, Statistical Report, Financial Report, Report of Treasurer and Auditors, List of the Seven Cardinal Principles of Secondary Education, Contract between Northwood District and Coe's Academy, and charts showing the subjects covered in each grade of each of the elementary schools. This survey, as well as corresponding current material for any year is on file at the office of the Superintendent of Schools.

For many years the School District of Northwood has been carrying out the purposes and spirit of the new Municipal Budget Act adopted at last Town Meeting. Early in February a careful "estimate" of amounts required for the support of schools and other statutory obligations is drawn up by the School Board, including both expenditures and income expected for the year beginning the following July 1. This estimate is presented to the District Meeting as the basis of appropriations. In October, when the necessary expendi-

tures and actual income are more exactly known for the current year, a "Budget" is drawn up in detail and submitted to the State Board of Education as a basis for the state-aid of the following year. After acceptance, this budget must be adhered to by the Board, unless permission for deviation is obtained by the State Board. Any balance of appropriations found not to be needed is listed under expected income in the "Estimate" of the following year to be re-appropriated toward the budget and deducted from the amount to be raised at the district meeting. Mr. Roger D. Hutchins, Chairman of the School Board, was appointed to represent the School Board on the town budget committee, both the School Board and the Selectmen being entitled to one representative each, according to the terms of the act.

During the year a new and uniform reading system has been introduced throughout grades I-VI. This system has produced enthusiastic comments from parents and teachers wherever it has been used under my observation. Rational emphasis has also been given to oral reading. Reading ability is the principal basis of promotion in the primary grades and increased comprehension of silent reading is cultivated in the middle and upper grades as a tool for effective study in the grades and in high school and as a means of enjoyment and general culture. It is significant that reading is the only educational qualification required for voting. Parents wishing to cooperate in increasing the reading ability of their children can do so by talking with them about their experiences before they begin to go to school, also by furnishing them the opportunity to read good books and magazines and encouraging them to read aloud.

Under the direction of the school nurse, Miss Margaret Macdonald, two dental clinics were held during the last school year, with the cooperation of the Fed-

eral Child Health Recovery Program, the Red Cross, and the Harvey Lake Woman's Club. The Woman's Club has also furnished milk for several pupils during part of the present year, following the withdrawal of federal funds for this purpose.

New chimneys at both schools and a new porch at the Narrows School increased the safety and usefulness of those buildings.

Respectfully submitted,

CHESTER W. DOE,

Superintendent of Schools.

Two hundred and fifteen books have been added to the town libraries the past year. The trustees gratefully acknowledge books given by the will of the late John W. Laskey. One hundred books have been repaired and rebound. An increase in the number of books borrowed is reported by the librarians, the output at the Narrows being the largest for many years. Many of the older books are worthy of the attention of anyone interested in worth while literature.
