TRUSTEE'S REPORT

Webster Memorial Library

Again we are glad to be able to report a continued growth of our library in all categories — number of borrowers, number of new volumes, number of magazines available, increased use of the Book Mobile, with its increased value in research service to our school children, and we continue to have available the large print books and “talking” records for our senior citizens.

We regret that due to our curtailed appropriation we have had to abandon our Thursday “open day” which reduces our hours of service, thereby not only jeopardizing various benefits from the State, but working a hard-ship on many of our school children.

We have also had to forego part of our proposed improvement on the gym — thus we have been able to operate without a deficit. However, it is appropriate at this time to call attention to the fact that we are facing a very difficult situation in the coming year. As everyone knows, we made the library available to the school — for which they very generously contributed about \$300. This, plus careful management, has enabled us to operate without going in the “red”.

It will be noted from the Treasurer's report that we received only \$807.79 from the Plummer dividend as compared with \$850.00 last year — a loss of \$42.21 and face a possible smaller amount the coming year. Then too, we received a refund of \$42.00 from Ayer when we changed our insurance. These sums, plus the \$302.79 windfall from the school, which we will not get next year, means that we face an absolute decrease in our income of a total of \$386.98. Thus, in view of the fact that with this extra income this year, we were barely able to stay within our appropriation of \$1,500.00, it is self-evident, as seen from our estimated budget for 1972, that we must ask for an increased appropriation.

It will be noted from the Treasurer's report that we have a balance on the check book of \$416.28. However, we have an unpaid premium on our insurance of \$405.00, which leaves us with an actual cash balance of \$11.28.

Respectfully submitted,

James R. Weeks
Chairman

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF
LEST WE FORGET – IT CAN HAPPEN HERE

Disastrous forest and brush fires that destroy hundreds of homes are more prevalent on the west coast with their dry seasons and strong dry hot winds but 25 years ago this fall is the anniversary of a disaster that devastated large areas of northern New England leaving villages in ashes with rows of cellar-holes and chimneys in a number of summer vacation home locations. Many lives were lost on that destructive day of October 23, 1947 nothing could stop the wind driven flames.

It is true that such conditions are unusual for New Hampshire but they happened once, they can happen again. The fuel for fires is all around us. All it takes is a firebrand. Only by cultivating a habit of carefulness with fire at all times can we meet the challenge of protection when dry conditions prevail. Please let these reminders be your guide:

1. Never, either when walking, riding or driving, discard a firebrand-a lighted match or a glowing cigarette.
2. Always obtain a permit for any outside burning. The burning of household rubbish is not permitted if your town has rubbish collection. Burning of grass or garden litter can be dangerous. See your warden first.
3. If you camp or picnic, be sure open fires are allowed and if they are, put them **dead out** when leaving.
4. **Most important**-instruct your children in the danger of the lighted match. A lighted match and dry grass or forest litter is a dangerous combination which leads to destructive loss and can lead to tragedy.

The past year-1971 was a favorable year for the control of fires. There were too many fire starts in some towns. We thank those who remembered and ask others to heed Smokey's message.

WENTWORTH PLANNING BOARD REPORT

The Wentworth Planning Board has spent the past year in administering the Sub-Division Regulations and discussing potential future problems.

In regards to Sub-Division Regulations, all applications have been approved, as the majority were for the sale of single lots. All applications were acted upon at the monthly meeting following receipt of the application. In a couple of instances approvals were returned the same day because the individuals involved were particularly pressed for time. In one case, there was an application for division of a parcel of land into three lots. Since the sub-divider met all the requirements of the regulations, approval was granted. In another instance, an out of state corporation sub-divided land without approval of the town. The Planning Board is taking steps to rectify this situation.

A future problem receiving much consideration of the Board is finding some new way of disposing of refuse since our Town Dump will become illegal in 1975.

Although zoning of the town is not believed warranted at this time, the Board is investigating the desirable and undesirable aspects of zoning.

We believe it is the duty of the Planning Board to attempt to foresee the requirements and problems of the town five, ten or fifteen years from now. In many cases effective local control of the town and our way of life will be possible only if action is taken in sufficient time. We would, therefore, welcome any comments or suggestions from the residents of the town.

DONALD L. CAMPBELL
Chairman

PEMI-BAKER HOME HEALTH AGENCY

The object of the Pemi-Baker Home Health Agency is to provide skilled nursing care, therapeutic services, and health guidance to individuals and families in this area. It is staffed by two full-time nurses, one part-time physio-therapist, and an occupational therapist. Their services are available to anyone for whom the doctor orders home care, including all ages from the new-born to the elderly. Persons needing information should call either the office at 536-2232 or Marcella Hoffmann at 764-5795.

In 1971 the agency made seventy-nine home visits in Wentworth.

REPORT OF THE SCHOOL NURSE

One day of each school week is spent at Wentworth.

Heights, weights, routine vision and hearing tests, health conferences and assisting parents with medical doctor follow-up appointments is a part of routine health work.

First Aid supplies were furnished at a minimum cost through the efforts of the staff of Sceva Speare Memorial Hospital.

Health community resources, the aid of welfare workers, specialized clinics, our local hospital and the aid of doctors has been a coordinated effort for all students.

Forthcoming for the Wentworth Elementary School is a health teaching program, a change in health requirements for 1st grade entrants, a routine physical for everyone working with students, a screening dental program at the New Hampshire Technical Institute in Concord, and a dental consultant, Dr. Allen Naves.

It is a pleasure to assist the Wentworth Elementary School in working for better health for all students.

Respectfully submitted,

BLANCHE A. MacDONALD, R. N.
Supervisory Union Nurse

REPORT OF THE PRINCIPAL

Our first year in the new building is going along well. Because of the new facility, we have been able to expand our curriculum to include art and physical education. Departmentalization is another new for the school. In doing this, we are best able to pool the resources of each teacher and at the same time preparing the upper grades for the high school routine.

Mrs. Jensen is the new teacher of grades one and two. There are nine children in the first grade and six in the second. Mrs. Luhtala is teaching grades three and four in which there are ten students in the third grade and fourteen in the fourth (our largest grade). We also have a new teacher in the fifth and sixth grades, Mrs. Farrington. She also teaches certain subjects to grades seven and eight. In grade five we started the year out with four students but this has risen to a grand total of five. In grade six we have eight. In grades seven and eight there are eleven in the seventh and nine in the eighth. Mr. St. Germain is the teacher.

In the sports category the school has done quite well. During football we won three and lost three ending up with a .500 season. This is quite an improvement over last year's no win season. In basketball the boys have really excelled. As of February 10, 1972, our last game of the season in which we beat Campton, the Wentworth Falcons are the district champs with an undefeated season.

After a late start the hot lunch program is running along well. Mrs. Dot Brown is the cook with Mrs. Floyd Gove as helper. The children have been getting variety and seem to enjoy the fare.

Respectfully submitted,

BRIAN E. ST. GERMAIN,
Principal

REPORT OF THE ASSISTANT SUPERINTENDENT OF SCHOOLS

We are extremely fortunate to have acquired the services of the two new teachers, Mrs. Jensen and Mrs. Farrington. Their extra efforts plus those of the returning staff are greatly appreciated and should be recognized.

Most of your teachers are currently attending an ESS Science Institute held in Plymouth State College through a Spaulding-Potter Charitable Fund grant. The purposes of this Institute are:

1. to strengthen the science background of the teachers
2. to acquaint the teachers with the ESS Science program

The teachers are spending three hours every Monday evening for the school year. The ESS Science Program will be implemented in the Wentworth School starting next fall and your students will have one of the best science programs in the nation.

The curriculum changes this year have been many. The most noticeable of the new programs are in the areas of mathematics and reading. Wentworth has for the most part an excellent curriculum.

The unfortunate fire to the old Wentworth Elementary School caused many hardships to the students, teachers, and parents. Through the combined efforts of many people you now have a fine new school which you can be extremely proud of. The school was built at one of the lowest square foot costs for schools in the nation. It also is of fine quality and was completed in a relatively short span of time.

We are attempting to gain voter support in six of the seven school districts to employ the services of a special education teacher. The vast majority of teachers, principals, and school boards in Supervisory Union #48 agree that the greatest immediate need in our schools is a special education teacher. The following is a list of functions this teacher would perform:

1. Diagnostician
 - (a) Individual Psychological Testing (I.Q.)
 - (b) Achievement Tests
 - (c) Learning problems
 - (d) Recommendation to teachers

2. Resource Person
 - (a) Coordinator of services available within the state
 - (b) Assist teachers with problems; i.e., set up programs in behavior modification, etc.
 - (c) Obtain and disseminate materials for teachers to use.
3. Tutoring
 - (a) When possible work with accurate problems
 - (b) Coordinating use of college students
4. Develop and conduct workshops for teachers on an in-service basis

Mrs. Belyea, teacher aide, is currently working with students who need a little extra small group instruction. She is working primarily in the area of reading and as usual is doing a fine job. Her experience is valuable to the school.

The new Hot Lunch director, Mrs. Dorothy Brown and her cooks-helper, Mrs. Lorraine Gove, are working diligently to give the students a fine hot lunch. The kitchen was completed at a late date due to some minor problems with equipment delivery and installation.

Your School Board has worked very hard to give the children of Wentworth a fine school. The school building committee also deserves a good deal of credit for this new school. Others deserve credit as it takes many people to plan, build and operate a new school.

Respectfully submitted,

N. KENNETH SMITH
Assistant Superintendent of Schools

EXPLANATION OF SUPERINTENDENTS' SALARY

Chapter 189, Section 48 Revised Statutes Annotated of the State of New Hampshire, requires that the school district annual report show the total amount paid to the Superintendent and Assistant Superintendent of Schools as per the following quotation: "Reports. Each superintendent salary paid to the superintendent, showing in detail the amount paid by the state and each local school district, and their share of same. Said report shall be filed with the school board of each school district involved and shall be included in the annual report of the respective school district as a separate entry. A like report and entry shall be made for each assistant superintendent, teacher consultant, and business administrators, if any is in service in the union."

One-half of the supervisory union expenses is prorated among the several school districts of the union on the basis of adjusted valuations. One-half is prorated on the basis of average daily membership in the school for the previous school year ending June 30th. The salary of \$14,500, which was received by the superintendent of schools of Supervisory Union No. 48 during 1970-1971 was made up as follows: \$2,500 paid by the State of New Hampshire and \$12,000 was prorated among the several School Districts. Allowance for \$1,000 travel within the Union was also prorated as stated above.

The salary of \$12,000 for the assistant superintendent during 1970-1971 was made up as follows: \$2,700 paid by the State of New Hampshire and \$9,300 was prorated among the several School Districts. Allowance for \$1,000 travel within the Union was also prorated as stated above.

The table below shows the portion of salary and travel charged to each school district.
