ORGANIZATION

OF THE

City Government, January 1, 1923.

The final meeting of the City Council of 1922 was held in the Council Room at 7.30 o'clock in the afternoon.

Mayor Douphinett and Councilmen Douphinett, Lagace, Woodman, Thompson, Riley and Griffin were present.

No business coming before the Council, adjournment was taken to the Opera House, where it was voted to adjourn the Council of 1922.

The Council of 1923 was called to order in the Opera House.

The oath of office was administered by City Clerk Goss to Mayor-elect Louis H. Douphinett and Councilmen-elect James H. Gerlach of Ward One, Alphonse Lagace of Ward Two and Alexander B. Hebert and James B. Woodman of Ward Three.

Rev. C. B. Hansen of the Methodist Episcopal church offered prayer.

The following abstract of Mayor Douphinett's inaugural is taken from the Journal-Transcript of January 4, 1922:

Mayor Douphinett spoke briefly and extemporaneously. He expressed his thanks to the council of 1922 and said that the record made by the council was due to co-operation given by the members. He called attention to highways and remarked that River street had been given permanent

repairs. He favored permanent work this year on Oak and Spring streets.

Garbage removal, he remarked, was a bill of expense and he urged that more attention and care be given back yards by the citizens. In speaking of the fire department he referred to the fact that the contract between the city and the Prescott garage runs out June 1st. Mayor Douphinett recommended that most of the apparatus be housed near the city proper. He suggested that the city employ two men and conduct its own repair shop, saying that repairs on the trucks were very heavy. He urged the fire department committee to endeavor to keep down expenses. In speaking of schools he said that additional room was needed but he did not favor expending \$125,000 for a new school house as the city could not afford it. In discussing public buildings he spoke in favor of repairs upon the interior of the opera house. The street lighting contract he said expires in April.

APPROPRIATIONS.

In the year of our Lord one thousand nine hundred and twenty-three.

A resolution relating to the appropriations for the year one thousand nine hundred and twenty-three.

Resolved by the City Council of the City of Franklin as follows:

That the following appropriations be made for the year 1923:

HIGHWAY DEPARTMENT.

HIGHWAY COMMISSIONER'S REPORT.

The Mayor and City Council of Franklin:

I herewith submit the following report of work done in the highway department during the year 1923:

State Aid Construction.

During the summer the construction of a new State Aid highway was started, beginning at the Daniel Webster Birthplace and to continue to the Daniel Webster Highway on South Main street. About 3,500 feet of the road has been graded, all the culverts from the Birthplace to the Salisbury road have been completed, and about 1300 lineal feet of the highway has been covered with gravel and is finished.

Trunk Line Maintenance.

On the Daniel Webster Highway, from Franklin to Boscawen, about 4000 lineal feet of the roadway has been redressed with stone and a surface of modified asphalt has been applied.

About 4100 feet of the roadway on Webster street has had an application of oil and sand.

State Aid Maintenance.

The usual patrol work has been done on the Sanborn-ton road. On the Hill road, in addition to the patrol work, considerable resurfacing with gravel has been done.

Streets.

More permanent work has been done on the streets of the city the present year than any year since Central

street from the Daniell Bridge to the Sanborn bridge was rebuilt and improved.

The following streets were dressed with stone and were finished with an application of modified asphalt:

Memorial street, 1683 1-3 yards, cost \$1683.33.
 Orchard street, 2339 yards, cost \$2,689.98.
 Franklin street, 2975 yards, cost \$3,718.99.
 North Main street, 3249 yards, cost \$4,061.25.

One thousand, three hundred and ninety-two yards of new concrete gutters have been constructed.

Sanborn street from Central street to Aiken avenue and the roadway on Aiken avenue was rebuilt with water bound macadam and a top dressing of Tarvia B.

Prospect street from Winnipisaukee street to the Mojalaki Country Club has been graded and covered with ashes.

The entire length of Bow street has been redressed with gravel and rolled.

Auburn street and a part of Prospect and Franklin streets have had an application of sand and Tarvia.

Country Highways.

All of the outside roads have been gone over with the road machine.

Bridges.

All bridges are in good repair.

Sidewalks.

Concrete and dirt sidewalks were built the present year at a cost of \$5418.52.

Concrete walks were constructed as follows:

Memorial street, 659 7-9 yards.
 Canal street, 82 4-9 yards.
 Beech street and Elm avenue, 246 yards.
 Orchard street, 394 2-3 yards.
 Highland avenue, 70 yards.
 Pleasant street, 138 yards.
 Franklin street, 1197 4-9 yards.
 School street, 163 4-9 yards.

Six hundred and eighty-eight and two-ninths yards of sidewalks have been recovered.

Three thousand lineal feet of ash sidewalks were built during the year.

Sewers.

A new septic tank was constructed on View street and about 150 feet of new sewer on Poplar street.

Garbage Removal.

There has been a considerable increase in the cost of removing garbage the present year due principally to the much larger quantity of refuse matter to be removed and the increased number of families who are having their ashes taken away monthly.

I appreciate the co-operation of the Highway Committee and other members of the City Government who have aided me in my work.

JAMES C. NOWELL, Commissioner.

Auto Trucks, Horses, Carts, Tools, Etc., in Highway
Department as Estimated December 31, 1923.

FIRE DEPARTMENT

ENGINEERS' REPORT.

The following report from December 31, 1922 to December 31, 1923, is submitted: The manual force consists of Chief Harry E. Colby and two assistants, John E. Cunningham and Almedos Rousseau. The combination chemical and pumper, 15 men, Edward Wheeler, captain. The Hook and Ladder Company, No. 1, 15 men, Albert Garneau, captain. Hose Company, No. 1, South Main street, 10 men, Alwin Dean, captain.

Location of Apparatus.

Hose Company, No. 1, South Main Street.

One one-horse sled.
One 30-foot ladder.
500 feet 2½ inch hose.
One hand tub.

Prescott's Garage.

One automobile hose and chemical wagon, carrying eight pony fire extinguishers, 500 feet 2½-inch hose, boots, coats and hats, nozzles, axes, etc.

Carries three men besides driver, and nine men going to brush fires.

One automobile combination, hose, chemical and hook and ladder truck, carrying 950 feet of 2½-inch hose, one 40 gallon chemical tank with 200 feet ¾-inch chemical hose, and all ladders formerly carried on Seagrave Hook and Ladder truck, also extinguishers with extra charges, hose pipes, axes, gates, relief valve, stops, spanners, wrenches, coats, hats, boots and belts for 30 men. One cellar pipe, wire cutter, tin roof cutter, ropes, eight smoke protectors and one deluge set.

Central Fire Station.

One American LaFrance triple combination truck.

One two-horse Seagrave hook and ladder truck.

There is at the Central fire station, 1,750 feet of 2½ inch hose in good condition, also 300 feet of leaky hose that could be used in case of a big fire.

Hose 3, Central Street, Opposite Paper Mill B.

One hand reel with pipes, wrenches, spanners and 400 feet 2½-inch hose.

Hose 4, Head of Elm Avenue.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

One two wheeled truck equipped with one 31-foot roof ladder, one 28-foot, one 20-foot and one 15-foot ladder.

Hose 5, Pearl Street, Near Park Street.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

Hose 6, Sturtevant Street.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

There is also one 55-foot extension ladder at the city stable.

Pony extinguishers to be used by any person for fire purposes in the vicinity of the places of keeping are in the following places: City hall 4, Franklin passenger station 1.

Recommendations.

We would recommend the purchase of two fire alarm boxes.

We would also recommend the purchase of 1,000 feet of hose.

HARRY E. COLBY,

Chief Engineer,

ALMEDOS ROUSSEAU,

Assistant Engineer.

JOHN E. CUNNINGHAM,

Assistant Engineer and Clerk, Board of Engineers,

Location of Boxes.

14. Webster and Main Streets.
15. Odell Private Box.
16. Depot and Main Streets.
17. Central and Main Streets.
21. Center of Bow Street.
22. South End of Franklin Street.

Total,	
Receipts from fines and costs.....	\$1,401 72
Disbursements	456 03
	\$945 69
Balance to City Treasurer.....	

EDWARD L. WELCH, Clerk.

REPORT OF PROBATION OFFICER.

To the City Council of the City of Franklin:

During the year 1923 only two cases were brought before the Juvenile Court, these being charges of breaking and entering. These cases were disposed of by dismissing the charges on recommendation of your Probation Officer after three months of good behaviour on the part of the parties involved.

Cases reported to your officer which were investigated and settled out of court were:

Delinquency	8
Children deserted	1
Larceny	2
Cruelty to children	1

Wherever possible the cases of minors are settled without recourse to formal court proceedings, so that the stigma of a police record shall not attach to names of youthful offenders.

Respectfully submitted,

WILTON E. CROSS, Probation Officer.

BOARD OF HEALTH.

The Board of Health respectfully submits the following report for 1923:

The number of contagious diseases reported, for which disinfecting was necessary, are seven. There were no deaths from these cases. Three of them were diphtheria and the other four were scarlet fever.

Two deaths were reported from tuberculosis.

The total number of deaths during the entire year, exclusive of stillborns, were 81. The number of bodies brought here from other places for which burial permits were issued were 39.

Everything possible has been done to insure a clean and healthy city. The clerical duties of this board have been promptly and efficiently attended to.

In concluding this report we wish to extend our thanks to the Honorable Mayor and Councilmen for their hearty support given us in the performance of our duties.

Signed:

W. E. SMITH,
IRVING V. GOSS,
HECTOR MORIN,
Board of Health.

CITY SOLICITOR'S REPORT.

There are no claims or suits pending against the City so far as I know, except the one pending with the Franklin Light & Power Co., which is in the Superior Court, and in which the City is represented by other counsel. A decision is expected in this case within a month.

The claim in favor of John W. Dresser for damages in an automobile accident pending a year ago, has been settled without suit.

As usual, I have had occasion to give advice to the City officials on various matters during the year.

EDWARD G. LEACH,
City Solicitor.

MARY J. COLBY FUND.

In the year of our Lord one thousand nine hundred and thirteen.

A resolution relating to the Mary J. Colby Fund.

Resolved by the City Council of the City of Franklin as follows:

Whereas, By the terms of the will of the late Mary J. Colby, the sum of ten thousand dollars has been given to the City of Franklin, N. H., in trust, the income to be used annually for the support of the poor of said city, and the principal to be known as the Mary J. Colby Fund:

Be it Resolved, That the City of Franklin, N. H. in accepting said trust fund hereby votes that same shall be deposited by the Treasurer of said city as follows, to wit: That the sum of five thousand dollars shall be deposited to the credit of the City of Franklin, in the Franklin Savings Bank of Franklin, N. H., *(and the sum of twenty five hundred dollars shall be deposited to the credit of the City of Franklin in each of the following named banks to wit: New Hampshire Savings Bank and Merrimack County Savings Bank, both of Concord, N. H.), to be known as the Mary J. Colby Fund, and that the annual interest or dividends paid by said banks on said deposits shall be expended for the benefit of the poor of Franklin, N. H., by an agent who shall be elected by the City Council of said city of Franklin, for a term of one year, and that said agent shall annually make a return to said city of the names of the persons assisted and the amounts to each, but that said names shall not be included in the list of paupers, or published.

Approved, W. W. EDWARDS, *Mayor.*
Passed September 8, 1913.

*Enclosed clause repealed February 6, 1922.

That part of the above resolution relating to "an agent who shall be elected by the City Council" was repealed September 13, 1915, and trustees appointed under provisions of Chapter 162, laws of 1915.

February 6, 1922. Amended by authorizing the Trustees of Trust Funds to withdraw said money and invest same in the Bonds of the City of Franklin.

W. F. DUFFY, Treasurer.

FRANKLIN PUBLIC LIBRARY.

A SHORT HISTORY.

As time progresses, the need of a history of the town of Franklin becomes more acute. Modern teaching demands that the study of history and geography shall begin in the child's home town, and this is almost an impossibility for children of school age.

The town of Franklin was incorporated December 24, 1828. The territory included within its bounds was formerly in the towns of Sanbornton, Salisbury, Andover and Northfield; and prior to 1823, in the three counties of Hillsborough, Rockingham and Strafford, which joined where the Pemigewasset and the Winnipiseogee unite to form the Merrimack. In 1748 the first settlement of the town was made in the neighborhood of the Webster Place: a fort was built and occupied for four months. On the withdrawal of the garrison to the lower settlements, Philip Call and his son Stephen remained, and thus became the first permanent settlers.

Franklin adopted a city charter in 1895.

There were three libraries that served the public under certain restrictions, up to the time of the opening of the Public Library in 1907; the Franklin Library association, still functioning in the West Village, the Aiken Library, no longer in existence, and the Smith Library, given by George and Persis Smith of St. Louis, which is incorporated with the present library.

In the year 1901, George E. Buell, a considerable property owner on Central street; E. B. S. Sanborn and Isaac N. Blodgett, two prominent lawyers, were appointed by the City Council to look after the interests of a public library. The cash deposit in the Savings Bank at this time was \$1,398.27.

During the year 1904, a campaign for funds was carried on under the following trustees:—Willard E.

Everett, Isaac N. Blodgett, George E. Buell, M. J. Nevins, Mary E. Daniell and Mary A. Rowell. Mr. Frederick H. Daniell led a campaign for pledges, the payment of which was to extend over a period of five years, and \$6,000 was collected in this way for the purchase of books.

The sum standing to the credit of the library on January 1, 1906 was \$10,180.85.

Mr. Andrew Carnegie gave the sum of \$15,000 on condition that the city vote a yearly sum of \$1500 for the care and support of the library. A lot, beautifully located on the Winnipiseogee was purchased from the Franklin Falls Co., for \$7,000. The event has proved that the selection was wisely made, for it could not be excelled in beauty, convenience or utility.

The largest contributors to the fund were: Alvah W. Sulloway, \$2,000; Warren F. Daniell, \$2,000; James Aiken, \$1,000; M. T. Stevens, \$1,000; Edward H. Sturtevant, \$500; Parker C. Hancock, \$250; George W. Griffin, \$250; Frank Proctor, \$250.

At the time the library lot was purchased it was occupied by the building west of the Salvation Army Hall, then used as a grain store; a fruit store, now Pickering's Lunch; and the first Night Lunch, known as the "Ocean Wave Cafe," standing where the beech tree now grows. The maple tree, now on the West lawn, stood at the edge of a steep bank, very unsightly with rubbish and shabby buildings.

In digging the foundations for the library, quick-sand was encountered at the North-west corner, a pile-driver had to be imported, and scores of people watched it driving long piles into the earth. This added considerable cost to the building. The trustees encountered many other difficulties during the unusually cold winter of 1906, but the work was carried on continuously, both outside of the building and within; painting, decorating, furnishing, cataloguing and laying the composition floors, all going on at the same time. Grading and outside stonework and sidewalks proved costly. Much of the West lawn is filled land, and the granite wall on the river bank is made of imported stone.

The architects of the building were McLean and Wright of Boston; the style Italian Renaissance; the

material, Michigan pressed brick with Indiana lime-stone trimmings. The roof is of slate with Renaissance decorations of copper. These have since been painted to harmonize with the other trimmings.

The two beautiful pillars at the entrance are monoliths of Indiana limestone, Greek Ionic in design. They were lost in transit, but were finally traced and set up.

The Delivery Room has a floor of terrazzo and pillars of scagliola. The clock, a gift of Mr. Warren Draper, has a marble dial. The walls are decorated in "flat" tones without panelling, as a house would be. The furniture of solid quartered oak, has proved its worth by sixteen years of hard service. The book-stacks are steel, enamelled in green.

The picture of Franklin, in the Reading Room is a gift of James Aiken, and is a copy of one by Duplessis in the Boston Art Museum. The engraving of Webster was given by Frank Proctor. The painting "Peace," in the Hall is by Caliga, and is a gift of the Chapman heirs.

Mrs. Barron Shirley was hired as librarian on September 18, 1906 at a salary of \$40.00 a month; Miss E. Louise Jones of Boston, an experienced cataloguer, began the work of preparing the books in November, the expense being \$250 for the whole work. Many of the women and most of the school children of Franklin assisted by writing book slips, cutting pages, perforating, and varnishing the books.

The Building Committee's report, Mr. Willard E. Everett, chairman, was as follows:

Cost of Building.....	\$22,545 92
Heating.....	1,295 50
Clock (gift).....	84 08
	<u>\$23,925 50</u>
Land.....	7,000 00
Total cost of building and land.....	\$30,925 50
Furniture, Stacks, etc.....	3,446 07
Total cost of building furnished.....	\$34,371 57
Sidewalk, grading, curbing and river wall, etc.,.....	9,473 07
Making total cost of building, furnishing and grounds.....	\$43,844 64

The building was open for inspection on February 26, 1907. Each church sent a representative who welcomed the people of his acquaintance and showed them about. The dedication took place on the next night, the exercises being at Memorial Hall. The order of exercises:

President—Chief Justice Frank N. Parsons.

Prayer—Rev. David P. Hatch.

Music—High School Chorus.

Report of Building Committee and Presentation of Library to City, by Willard E. Everett, Chairman.

Acceptance of Library by Mayor Michael J. Nevins.

Music—High School Chorus.

Address—Prof. Craven Laycock of Dartmouth College. Subject, The History and Mission of the Public Free Library.

Music, America,—High School Chorus and Audience.

The circulation of books and the use of the Reading Rooms began on February 28, 1907 at six P. M. One hundred and forty-three books went out that night, registration being carried forward at the same time.

The library contained at the end of 1907 5,800 books, 2,600 of which were contributed by the Smith Library. The circulation of books for the first ten months was 30,000 volumes.

The library has had many assistants, some of them filling, at the present time, positions of trust and honor. Miss Mildred Peaslee, who was given a year's leave of absence to complete her library course at Pratt Institute, has served with that exception since September 1, 1914.

The Library Trustees with their length of service is as follows:

Isaac N. Blodgett.....	1901-1905

RATES.

All customers are supplied through meters. The minimum charge is seven dollars and fifty cents per year, which entitles the consumer to 2,000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is 37½ cents per 100 feet; for the excess over 1,000 feet used each quarter 25 cents per 100 feet is charged. Upon all quarterly bills exceeding \$12.50 a discount of 25 per cent of the excess over \$12.50 is made.

No charge is made for private hydrants or for automatic sprinkler service.

FRANK PROCTOR, Treasurer.

BOARD OF EDUCATION.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the Board of Education:—

I herewith submit my second annual report, which is the twenty-third in the series of similar reports.

General Comments.

The past year has been a memorable one in the school history of Franklin. Within the year the school system has been reorganized and, we believe, made more efficient: the suggestions made in our report of last year, relative to the building and establishing of a Junior High School, were very happily made possible of realization by the gift of the Daniell estate: the citizens very generally supported the reorganization plan and building program, and the city government responded promptly and authorized the immediate construction of a new school building on the Daniell property. Before March 1, 1924, this new building, the Daniell Junior High School, will be occupied by nearly 200 pupils. In the mean time, the crowded condition of the grades has been relieved; the Junior High School established, organized and made a reality; and the whole school system unified and equipped with good teachers, who are cooperating splendidly to improve every department of the school work. It has been a splendid year educationally for Franklin, and the unusual interest manifested in the school by parents and citizens generally has been very gratifying and inspiring.

While great progress has been made in one year there are big things yet to be done. The Manual Training department, for which we plan much, and from which we expect much, is at present in a state of preparation only.

The boys of this department, since September have been tearing down old horse stalls in the basement of the big barn and building up a work shop. They have made concrete supports for floor timbers, and laid new plank floors. They have made and laid concrete foundations ready for installing their wood turning lathes, forges and other machinery, and will soon be ready to set up the machines and work benches. This work being done by the boys will save the city about \$700.00. Other parts of the barn are to be finished off for Domestic Science rooms and practically all this work will be done by the boys.

Before the school year ends in June, we hope to have both these departments well provided for and doing their regular work. Then the Junior High School will be ready to enlarge the scope of its work over that of the past year, and to more fully aid the boys and girls to fit into the social and economic life of the community.

The best proof that the present organization of the schools is appealing to the real interests of the boys and girls, is the fact that the number leaving school since September is the smallest in many years. Last year the number leaving school from the seventh to the twelfth grades during the Fall term was 41; this year 12, due almost entirely to financial reasons or a lack of preparation to successfully do the work required.

Another proof of the interest is the high per cent of daily attendance. Pupils seem anxious not to lose a day of school. The fact that pupils in pairs and groups are discussing school subjects at home and on the street has been favorably commented upon by parents and citizens. This too shows real interest.

I regret that lack of room has prevented moving the Kindergarten to a more satisfactory place and that for the same reason it has been impossible to organize the "Special Room" recommended in the report last year. I hope to see both these things accomplished during the coming year.

Teachers.

There are 37 teachers now in our schools. Of this number, 14 are new to Franklin. All but one are

graduates of either a College, Normal School or Special Training School.

Some of our teachers attended summer schools last summer, where they received new ideas and inspiration and their work this year is, in consequence, much improved. Many more are planning to attend summer school this year. This shows the right attitude on the part of the teacher and should be highly commended and properly rewarded.

Nearly every teacher in the school system received an increase in salary this year, and in doing this an attempt was made to equalize salaries on the basis of efficiency and length of service, and a beginning made toward having a definite scale of wages. I think the teachers feel that the Board tried to rectify some past wrongs and to properly recognize efficient service. I think they are giving us better service this year because of this feeling. We have a splendid corps of teachers.

High School.

After 17 years of faithful service as principal of Franklin High School, Harry P. Swett resigned in May to take effect at the end of the school year in June. Mr. Swett was a gentleman, a scholar, a true man and one held in the highest respect by all who knew him. It presented no easy task to fill the position he had so long held. Several excellent candidates were considered for the place. To find just the man to do what was felt ought to be done, was the problem. Mr. Roy E. Keller, a graduate of Pennsylvania State College, with special graduate work at Harvard, was finally elected to the place.

I feel that no mistake was made in our choice. Mr. Keller has shown splendid ability as an organizer and director. He has succeeded admirably in having the student body recognize its own responsibilities as a part of a successful school system.

He has been most courteous and considerate in his relations with pupils and parents, but always firm for what he believed to be right for the best good of the school as a whole, essential characteristics of a good Headmaster. He has received the hearty cooperation

of an able corps of assistants and the high school is today an earnest, self-respecting almost self governing body of working pupils.

The school spirit, dormant for some years past, no longer lies sleeping. It has been aroused to such a state that its effect is decidedly wholesome upon the attitude of every pupil toward the school and the school activities. It is an inspiring sight to see the entire student body at public gatherings as has been the case several times, cheering for their school and singing the school songs. It does the pupils good, it does us all good to hear them.

The program of the social activities of the school has been and must necessarily be restricted until the gymnasium can be used for such occasions. The high school is attempting to teach its pupils that only a part of real education is secured in books. It will attempt to give the other part in various ways. I call special attention to Headmaster Keller's report for further consideration of high school plans and purposes.

Junior High School.

After considerable hesitation, it was decided to start the Junior High School at the beginning of the school year in September, although it was evident that the new building would not be ready.

Accordingly four temporary rooms were finished off in the gymnasium, the stage being used as a sort of study room. Two rooms in the main house were used so long as the weather conditions permitted, then a room in the barn was prepared for use. It is with this arrangement of rooms that the Daniell Junior High School has had its beginning.

Notwithstanding the adverse conditions under which the school has been working the good results justify the decision of making the beginning. Teachers and pupils alike have been subjected to many inconveniences and trying situations.

Both parties have been patient with and considerate of each other under these conditions and the cooperative spirit manifested has received much favorable comment from visitors. Great credit is due both teachers and

pupils for the success of the school to date, and I certainly consider it a success. The school has had an enrollment of 197. This was 25 more than was anticipated and necessitated the employment of an extra teacher after the school was started, a part of whose time was used in high school work.

There are now eight teachers connected with the junior high, five of whom give their entire time to this school, and three divide their time with the high school. Each of these does departmental work. The results show marked improvement in interest and accomplishment over the old method of one teacher teaching five or six different subjects.

I feel sure that when the Junior High School is properly housed and its several departments equipped for work it will be recognized as a powerful factor in the training of the boys and girls of Franklin for good and active citizenship.

Miss Rowell, as principal, deserves the highest praise for the excellent work done from both the executive and administrative standpoint under most trying circumstances.

Summer School.

The Summer School had an enrollment of 88 pupils and five teachers were employed for six weeks at a cost of \$450.00. The results were good and many pupils, in consequence, were promoted to the next grade on trial and have since made good, with a few exceptions.

Evening School.

The Evening School enrollment this year has been larger than usual, 79 pupils being enrolled. The interest has been good as shown by the regular attendance of so many. The beginners' class, those learning to read, write and speak English, numbered 20.

The Commercial classes are large. The typewriting classes have all the pupils, 34, and the shorthand and book-keeping classes have 12 each.

All the teachers of this school are doing satisfactory work and the progress of the pupils is commendable. The cost of the school the past year was \$572.00.

Repairs.

We have expended over \$2800.00 for repairs. More than half, (\$1466.69) has been spent on the high school building alone. The more expensive repairs on this building have been as follows: The inside was varnished throughout, and the principal's office refinished. More than \$350 was expended on the roof attempting to stop the leaky places that have given trouble annually for several years. They have not been stopped yet. It is my opinion that an entirely new top story is the only way to remedy the difficulties and stop this annual expenditure on this particular roof, which in five years has exceeded \$3400. Twenty-five windows were equipped with window strips and as many more need to be.

The expense for damage caused by frozen water pipes each year in this building amounts on the average to over \$300. So long as steam is shut off from a large building like this at six or seven o'clock in the evening on cold nights, there will be frozen pipes and consequent damage and expense.

Next year the main room must have a new ceiling, and considerable amount of outside repairing on the brick work must be done. I believe the time has come to again have an expert builder or builders examine carefully this building as was done a few years ago. There is evidence to show that there has been a recent spreading of the walls of this building. Not to any alarming extent perhaps, but enough to warrant expert examination, and the taking of measures to prevent the situation from becoming really dangerous.

The Nesmith School has been newly shingled and repaired, and badly needs refinishing throughout the interior. It is my purpose to do this the coming year.

The Webster Lake and Golden Rule Farm schools have been repaired and neatly painted inside. Both of these schools should have chemical toilets installed.

The neighbors in the Webster Lake district deserve our thanks for the interest they have taken in this school and for the labor given to help us make this building a fit abode for children.

The Morrison School will need considerable attention this year. It needs painting on the outside, refinishing on the inside and a new furnace heater.

Athletics and Physical Instruction.

For the first time, Franklin High School, with the help of public spirited men interested in the schools, has employed an athletic coach and physical director. Mr. Charles A. Burnham was selected as the man for this position. The splendid school spirit, spoken of elsewhere, is due in no small degree to Mr. Burnham. The football season proved a success, our team winning half its games. The basketball season has opened auspiciously and our team is rapidly developing into a strong team. Mr. Burnham insists on our athletes playing the game, win or lose, with the spirit of true sportsmanship. We believe some splendid lessons along this line have been learned by the boys this year.

The physical instruction has been given in all the schools, in every room. It is a part of the every day program of the school.

When the gymnasium is ready to use, the scope of this work can be much enlarged for corrective exercises for physical defects is to be one of the most valuable requirements of this work.

Mr. Burnham is to have charge also of summer playground work, and general community recreation.

We consider the kind of work Mr. Burnham is doing and will be able to do, when he is given proper equipment, an essential part of any modern school system.

Music, Writing and Health.

I wish to call your attention to the report of the Music and Writing Supervisors and the School Nurse. The best way to know what these people are doing is to visit the school rooms. Our music and writing instruction is producing excellent results. The School band referred to in Mrs. Watts' report is no weird vision. It is a reality in hundreds of schools in this country, and is one of the things to look forward to for the schools of Franklin. We would need about \$800 to purchase the instruments. Who will give it?

Expenditures.

It may be of interest to the citizens to know where the money spent for schools goes.

For every dollar spent:

Sixty-one cents goes for teachers' salaries.

Twenty-one cents for operation and maintenance of the school plant (janitors, fuel, lights, janitors' supplies and repairs).

Five cents for books and supplies.

Five cents for auxiliary agencies (transportation, health supervision, etc.).

Four cents for administration (Superintendent's salary, truant and census officers and office expenses).

One cent for rent and insurance.

Two cents for equipment and construction.

One cent for miscellaneous.

I have endeavored to keep the expenses of the high school and elementary schools separate this year, that we might be able to get data for comparison with other places in the state. While the figures quoted below are not absolutely accurate, because of complications in making accurate divisions of expenses common to both schools, they are near enough for comparative purposes.

The current expenditure per pupil in the Franklin High School was \$115.16. In the state, it was \$124.22 in 1922.

The current expenditure per pupil in the Franklin Elementary Schools was \$63.32. In the state, it was \$63.34.

The cost of maintaining the Junior High School over and above what the old system would have cost from September to January has been \$2,856.

There necessarily will be some extra expense not permanent connected with the Junior High School, until it is fully equipped and rooms that the boys are building are finished. The schools will cost more than they have, but they will be giving more in return.

It has cost nearly \$700.00 to prepare the school rooms in the barn and gymnasium for temporary use. About half of this expense, however, will be for permanent things.

Conclusion.

I have, in this report, tried to show what progress has been made in the schools this year, some of the things doing and some of the things yet to be done. I have shown where the school money is going and, I may say, with the exception of the expenses for operation and maintenance, our percentages compare favorably with other places.

In the special reports of teachers has been given more minutely the work of their respective departments for your consideration.

I have been led to feel by the many kindly words spoken, and by the interest shown by citizens generally that the progressive action of the school authorities the past year is approved.

I know that your Board has been called upon to decide an unusual number of important problems affecting the future welfare of Franklin schools. I know, too, that you have attempted to make the wisest decisions after due deliberation. The future will, I believe, prove that you have done so.

I have received most appreciative cooperation from you, the teachers, the parents, the city government and citizens generally. This has made my work easier and enjoyable.

Respectfully submitted,

F. S. LIBBEY,

Superintendent of Schools.

REPORT OF THE HEADMASTER OF THE SENIOR HIGH SCHOOL.

Mr. Fred S. Libbey, Superintendent of the Schools:—

This report, I trust, will enable you, and others that are interested, to obtain some knowledge of the purposes, the existing conditions and the outstanding needs of the Senior High School. The school should recognize and develop at least three phases of the pupil's life. It should prepare the individual to be a constructive citizen and member of the community; it should prepare the individual to be an efficient worker and producer; and it should, also, prepare the individual to make the most of those individualistic activities which produce personality.

The enrollments of the classes are as follows: Seniors 39, Juniors 35, and Sophomores 49. This total of 123 pupils is a very low enrollment; more pupils should be enrolled in these classes. It is a generally accepted fact that an elementary school education is not sufficient to develop productive citizens of the highest quality. In so far as our boys and girls fail to secure a high school education, Franklin fails to secure for itself the best in political, social, and economic life.

While I believe that the greatest loss to the community is due to the small number of pupils that avail themselves of the existing educational opportunities, a close second is the loss that is due to the pupils' failure to select and follow the right curriculum. Too many boys are taking the commercial work. Because of the wage situation few, if any boys, will secure employment in offices. The school should revise its curricula. Complete and distinct curricula should be provided in Manual Training, Domestic Arts, and Commercial Work. However this, alone, will not solve the present problem of improper selection. There is a tremendous need for vocational and educational guidance. In many cases pupils have selected work for which they are not adapted and it is safe to predict that this improperly selected training will be of little value to them in their productive life. In order to avoid this waste in energy and time,

parents and teachers should spend adequate time in guiding the pupil in a discriminating selection of a curriculum to be followed for three years. Many of the larger schools employ a teacher who gives his or her whole time to the problem of guidance. In a large measure this service can and will be performed by and in the Junior High School.

The present Courses in English are inadequate to meet the needs of our pupils. Every effort should be made to make the English Department, which is fundamental to all departments, the strongest of all. A full unit course in English should be offered to, and required of all pupils in the senior year. A special course should be provided for pupils planning to enter college. The English Department in order to do its work properly will require the services of more than one teacher. The school should be provided with a larger list of standard reference books, new dictionaries, and new encyclopaedias. The school is in need of a reading room or library and its own set of standard magazines. These provisions, if they could be made, would greatly aid the work of the school in English.

The present arrangements and equipment for science work are unsatisfactory. The room now used for the work in chemistry should be abandoned or at least remodeled. More space is needed to enable pupils to do individual work.

The social life of the school is gradually being developed. Student government is proving successful in the three home rooms. If the attitude of the pupils proves favorable, student government will be extended to all phases of the social life of the school. Two very successful social events have been enjoyed by the entire student body. A Christmas party at the end of the fall term was unique in several respects. The mothers of the members of the senior class assumed all responsibility in serving the school supper on this occasion. The fathers of the seniors, the teachers, the Board of Education, and the pupils were the guests. Plans are being made whereby other parents will be brought into touch with the social life of our Senior High School pupils. Another evidence of the development of the social life

is the organized Outing Club which is combining social activities with out of door sports.

Franklin High School through its program of Physical Education is rendering a needed service to its pupils. Each pupil is given two periods of physical exercises and games each week. Athletics is not confined to the few; especially is this true in basketball. Class teams and girls' teams allow a comparatively large number of the pupils to have direct participation in this game. All pupils have been examined by the school nurse. This work in health and recreation represents a splendid beginning. It is in recognition of the fact that the school should do its part in building the body as well as the mind. In concluding this report, it seems advisable to call attention to the need for an extended education for every boy and girl in our community. More boys and girls should be enrolled in the senior high school. Our curricula should be extended in number. The work in the English and Science Departments should be extended. Furthermore the school should extend, more completely, its supervision of the so-called extra-curriculum activities which in reality are not extra activities but in many ways and in many cases are the means of putting life into the spirit of the school. The pupils' work in athletics is supervised and directed. Their work in music should be extended and more activities along this line brought under the supervision of the school. Class advisers serve our pupils by counseling them in their social life and in their civic organizations. There is, however, a need for a fuller recognition of the values of the educational features of the school outside of the class room. Our pupils need a larger number of social contacts with one another and with their teachers. The administration and organization of the school should afford the opportunity for the development of a sense of personal responsibility and initiative, and above all, the spirit of service and the principles of true democracy.

ROY E. KELLER.

REPORT OF THE PRINCIPAL OF THE JUNIOR HIGH SCHOOL.

Superintendent of Schools F. S. Libbey, Franklin, N. H.

I hereby submit the first report of the Daniell Junior High School:

The Junior High School is no longer a mere thought smouldering in the minds of men, but it has become a wonderful reality.

In September we began work in the gymnasium and two rooms in the Daniell home with five teachers and nearly two hundred students. When cold weather presented heating problems we abandoned the main house and fitting up another room behind the gymnasium all classes met in one building.

Few pupils have dropped out since September. We have students from Grafton, South Danbury, Halcyon, Alexandria and Hill registered in the ninth year. Many of them commute, making a 12 hour day for several.

We are a part of the 6-3-3 plan recommended by the State Department of Public Instruction which means six years of elementary work, three years junior high work, and three years senior high work. By such a system many pupils whose school life would end at the close of their eighth year will feel that they have not finished a course until the ninth year has been accomplished, thus adding a year to their school life.

In our short existence we have been able to present to the State Department a complete secondary program which the Department has accepted and which puts us on the list of approved secondary schools of New Hampshire.

Three courses are being offered to pupils and will be carried through the Senior High schedule: the Latin course, the Commercial course, Manual Arts for boys and Domestic Arts for girls. A student who satisfactorily completes six years work in his course should be well prepared to step confidently into his future.

Before another year rolls around we expect to offer several trades thus meeting a long felt need among boys who must leave school at an early age and are often unprepared for any practical work. A blacksmith shop,

wood-working shop, printing office, and machine shop are under construction by the boys in the Manual Arts department. We feel that shops built by the boys have a most practical value and when they see the finished product there will be a feeling of ownership that will stimulate a new responsibility and respect.

We are all eagerly waiting for the day when we shall begin work in our new building, for our work has been carried on under most difficult conditions thus far. However, we realize that the student body has learned much of responsibility, concentration and adaptability through these trying weeks.

The social life of the school has had to be neglected for there has been no place suitable to hold such affairs. As soon as we begin work in the new building the gymnasium will be used for carefully directed recreation.

In every possible way we are endeavoring to raise the standard of scholarship and pupils have a greater pride and interest in work that is above mediocrity. Students wishing to engage in athletics must carry an average of 70% or over in order to be allowed the advantages thus offered. Several new and valuable rules have been made and adopted by the Board of Education which will raise our standards of education to a great degree.

In all our work we aim to get away from theory and give the boys and girls a practical working knowledge of every-day things. We desire to train for a citizenship that shall always have for its slogan: "The greatest good for the greatest number."

I wish in this public manner to express my deepest gratitude to the students of the Daniell Junior High School for their response to our calls, their 100% school spirit, their determination to make this school a vital institution. Our success thus far is in a large measure due to the student-body.

Most heartily do I appreciate the absolute cooperation of the teachers in their various departments. Their support, loyalty, and excellent work have been invaluable.

To the special teachers I hereby express appreciation for the splendid work done under such abnormal conditions.

In behalf of the faculty and pupils I wish to thank the Board of Education and Superintendent Libbey for their untiring efforts in our behalf.

Respectfully submitted,

BESSIE C. ROWELL,

Principal.

HOME ECONOMICS.

Mr. Fred S. Libbey, Superintendent of Schools:

I submit my first report as instructor of Home Economics in the Franklin Junior and Senior High Schools:

The seventh and eighth grades have three hours a week for cooking and sewing, alternating the two courses every nine weeks.

The first part of the fall term each grade had cooking. For four weeks they spent their time canning such materials as tomatoes, pears, peaches and beets. They also studied jelly and jam making. The remaining five weeks of the cooking term the seventh grade studied and prepared fruits, cereals, quick breads and beverages, and served a breakfast. The eighth grades took up soups, meats, salads and desserts, and served a dinner.

The last part of the term was devoted to sewing, the girls making cooking aprons and Christmas gifts.

The Sophomores take Household Appliances and Sanitation. They have made a study of water supply mechanisms, plumbing fixtures, sewage disposal, fuels, furnaces, stoves, meters and appliances used in the preparation of food, and have taken several excursions to see these things.

The Juniors who elected Home Economics have a course in Household Organization. They began by studying the history of the house, then chose an ideal location for a home, learned how it should be built heated, ventilated and lighted, installed a satisfactory plumbing system, and furnished the house as attractively

and economically as possible. Several original house plans were drawn to scale by each girl, and the class took a few excursions to observe some of the houses in town and house furnishings in some of the local stores.

The Seniors are making a study of Household Management. Those taking this course have planned budgets for various incomes, discussed the principles upon which a home should be built, compared systems of keeping household accounts, taken up the buying of food and clothes, the planning of menus, and the calorie requirements of different individuals. They have studied quite in detail the production and preparation for the table of several food stuffs.

Recently in all the Senior High School classes one period or part of one period each week has been devoted to reports on magazine articles related to the course the class is taking. Also the Seniors are required to keep a cash account of their personal expenditures.

I think most of the girls are interested in this line of work and sincerely hope it will prove of practical value to them all.

Respectfully submitted,

MADGE E. RIXFORD.

REPORT OF THE SUPERVISOR OF MUSIC.

Superintendent Fred S. Libbey:—

I herewith submit my second annual report:

The past year of music in schools has been one of progress. The lower grades, where I have been able to start the system, show more progress than upper grades, upper grades not being familiar with the fundamental principles that help to make their work and the room teacher's work much easier and more interesting.

In all the grades a great deal of song material is used, at least one new song each week being required, thus at the end of the year the pupil has acquired a varied song repertoire. In connection with this, as much technical work as we can get in, is given, according to the age of

the pupil. Singing at sight, notes and words combined, we have stressed. This is, after all, the thing to be aimed at, for after school days, we do not find ourselves singing "do, re, mi," before we sing a song. The older school music readers devoted a great deal of space to exercises, but the very newest books contain only songs, embodying all the principles of time and tune. The child is more eager to work on a song than a page of exercises.

Owing to the crowded conditions in the Hancock building, it has been found necessary to divide grades for music lessons and the first of January I propose to divide the first grade. As good results come from divisions in music as any other subjects.

Music is always included in any special program that any grade may offer,—the following are occasions when pupils appeared in public gatherings: Memorial Day, Falls third grade; Nesmith School Exhibition, first, third and fifth grades in songs and regular class room work; Falls School Exhibition, same grades as above, in same sort of work; Parent-Teacher Association meeting in November at Library Hall, Falls fifth grade.

To replace worn out books, new books were placed in the Falls School. Rote song material, "Songs of Childhood," Ginn & Co., publishers, Grades I, II, and III; "Introductory Music" Ginn & Co., Grade II; Hollis Daun "Third Year Music," American Book Co., Publishers, third grade; Hollis Daun "Sixth Year Music" American Book Co., Sixth grade.

In the Nesmith School—"Songs of Childhood," Ginn & Co., were put in the hands of the teachers for rote-song material in Grades I, II, and III as in the Falls School.

Hollis Daun "Third Year Music" in the third grade; and Hollis Daun "Sixth Year Music" in the sixth grade.

The New Junior High School this fall, did away with four grades. These with the Freshman Class, make up a very good chorus from which I expect good things before next June. Thus far, crowded conditions have held us to one singing period a week, the results have been very satisfactory. As soon as we have room, glee clubs and an orchestra will start work, and I believe there is splendid material for these organizations coupled with a fine spirit. Working with this group of boys and girls has been one

of the real joys of my work this fall and Mrs. Burnham's very splendid work as accompanist, has been most valuable to me.

So much is possible to do with a group like the Junior High School, a school band could be started if there were instruments available. Many school systems own instruments and they are loaned to the pupils who will learn to play them, to be used while they are a part of that certain school unit. Certain orchestral instruments, would be a valuable asset, even a few would help a great deal in building up a good school orchestra. Things of this nature could so easily be carried along into Senior High School.

Last June, the Junior High School chorus, then seventh and eighth grades only, furnished two chorus numbers for Senior High School graduation. This was the first time that the Senior High School had not provided its own music of one sort or another. I believe the departure from an old custom was a good one.

The condition of singing in Senior High School, as last year, is very poor. With no entering class this fall no new voices came in to help.

At the suggestion of Headmaster Keller, a course in music appreciation was started in November. One period a week of about thirty minutes is devoted to it. A Victrola and Piano are used for demonstrating purposes. The High School is very fortunate in having Mr. Melvin Redman who is a very splendid soloist and accompanist. Miss Cecile Proulx has very ably assisted as orchestra accompanist and for glee club and this fall has played for the girls' chorus.

This appreciation course is new to the school and is in lecture form, no preparation or demands being made upon the pupils other than to pay attention. The pupil is, however, hearing *about* good music, and *hearing* good music, and some influence of it must find lodging somewhere. Alternating weekly, the boys and girls receive twenty minutes a week of singing. I am not at all satisfied with the results and believe it would be wiser, to combine the groups and get what singing we can. Another year, with the entering class, the singing will be greatly improved, because these pupils can sing and like to sing.

Last winter and spring terms an orchestra held weekly rehearsals and played some few times in public and at graduation. Only two players remain in Senior High School so nothing has been attempted this fall.

There has been a splendid spirit on the part of the superintendent, Headmaster and all grade teachers to help and assist in the music work in any way possible. This has meant a great deal to me, and may I take this time to thank you one and all.

Respectfully submitted,

J. ESTELLE CLIFFORD WATTS.

December 31, 1923, Franklin, N. H.

REPORT OF INSTRUCTOR IN PENMANSHIP.

Mr. Fred S. Libbey, Superintendent of Schools:—

Dear Sir:

I herewith submit my second annual report as Supervisor of Penmanship in the Franklin Public Schools.

We have this year continued the Houston System of Penmanship trying to build upon the foundation laid last year. In the first six grades the pupils are having daily instruction, two lessons each week being given by the Supervisor and three by the regular teacher. These lessons follow a general plan and are designed to work together into a course of regular systematic training. In the first grade the children write mostly upon the blackboard thus becoming familiar with the letter forms and their use in simple words. Above the third grade we write with ink. In the higher grades the work is of course more finished and done with more attention to detail.

This year we have been trying for four special things, following the principle that if children know for what they are working they will make more progress. We have eliminated a large number of details and have centered our efforts upon attaining

1. Correct position—as the basis of all good writing.
2. Even spacing of the letters.
3. Even slant.
4. Good letter forms.

The children have worked hard to gain these points and have shown improvement in writing easily and fluently, as well as correctly. I can justly say that the general writing in our schools this year is far better than that of last year.

Perhaps the most encouraging thing I have to report is that we are still improving, that teachers and pupils are working together to gain for each child, a handwriting which will be an asset whatever his vocation may be.

The results of our work may best be seen in the school room and I cordially invite parents and friends to visit the penmanship classes and to see the writing of the children both here and in their general work.

I wish to express my thanks to the teachers for their hearty co-operation and faithful work. It is only by their help that the writing can be a success.

Respectfully submitted,

HELEN P. WELCH,

Supervisor of Penmanship.

REPORT OF THE SCHOOL NURSE.

Mr. Fred S. Libbey, Superintendent of Schools:

I herewith submit my third annual report:

Public Schools.

Defective teeth	195
Enlarged tonsils	1
Defective eyes	7
Defective hearing	2
Pediculosis	5

Medical inspection has been given in all the schools excepting Junior High. Owing to conditions there the work could not be done until the building is ready for occupancy.

It is gratifying to know that the number of underweight pupils grows less each year.

The physical defects, such as enlarged tonsils and adenoids are not being corrected as readily as I hoped they would be, but with the aid of the local doctors, we hope to work out a plan to do some of this work very soon.

A similar plan is being worked out with the local dentists in regard to the dental work.

The nurse again asks the cooperation of the parents. If they would pay a little more attention to the cards sent out by the nurse, notifying them of these defects and take the child to their own family physician or dentist and then report the result of that visit, I am sure a great number of these cases would be taken care of. The nurse is always working for the health of the children.

Another word to the parents in regard to their part in preventing the spread of contagious diseases. If, when

the children show symptoms of a cold, they are kept out of school for a day or two until the parents are positive that it is a cold and not some contagious disease developing such as measles, etc., a great deal would be done to prevent the spread of common colds and contagious diseases.

Milk was served to the children at the morning recess for a period of six weeks, fifty-seven of them having a half pint of milk. All gained weight, most of them up to normal at the end of that time. First aid has been given whenever necessary and a number of pupils have been taken to the doctor for treatment.

ANNIE R. PROVOST,

School Nurse.

SCHOLARSHIP FUNDS.

SANGER SCHOLARSHIP.

Resolved by the Board of Education of Franklin:

Whereas, Warren F. Daniell has by his written communication addressed to the Board of Education, expressed his intention of establishing a free scholarship for graduates of the Franklin High School in Simmons College in honor of his mother, and to be known as the "Sanger Scholarship," and agreeing to pay annually a sum sufficient to pay the costs of tuition for one student for four years in any of the courses described in the catalogue of the College, and

Whereas, a student to be awarded this scholarship must comply with the following regulations: First, she must have completed four years' satisfactory work at the Franklin High School; second, her parents must reside in Franklin.

Be it Resolved: That the Board of Education of the City of Franklin fully appreciate the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young women of said city, thereby creating an additional incentive for higher educational advantages: and

Be it further Resolved: That said Board of Education willingly accepts said trust: and

Be it further Resolved: That a permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Headmaster of the High School of said city, and

Be it further Resolved: That this resolution shall be printed annually in the school report of said Board.

FRANKLIN STUDENT AID FUND.

To the Mayor and Members of the City Council, Franklin, N. H.:

In June, 1921, I placed with Dartmouth College at Hanover, N. H., a fund of \$2,500.00—the income from which I wished to be used to assist under certain conditions students at that institution who were residents of this city.

It was found incompatible with the methods of disposing of the funds at Dartmouth College, to handle this fund under the conditions which I wished to impose—and for that reason I have transferred this sum from Dartmouth College to the City of Franklin.

I am attaching herewith the securities representing the fund together with a statement of the methods I wish followed in disposing of the income from the fund.

Respectfully yours,

WALTER F. DUFFY.

FRANKLIN STUDENT AID FUND.

Established by Walter F. Duffy, June, 1921.

A sum of \$2,500.00 is entrusted to the City of Franklin, N. H., the income from which is to be used to assist worthy boys and girls residents of this City to secure a collegiate education or its equivalent.

The recipients of the income from this fund are to be selected by a board of three consisting of the Chairman of the Board of Education, Superintendent of Schools and Principal of the High School of the City of Franklin, N. H.

The income from this fund is to be disposed of under the following fixed conditions:—

I. Scholarship.

A student must attain such satisfactory standing in studies as to make it apparent to the authorities of the institution of learning where he attends, that it is advisable that the student pursue his studies and that he is on this account worthy of financial aid.

II. Financial Needs.

It is to be required that the students who receive benefit from this fund shall be obliged, through lack of family financial resources, to earn at least a substantial part of the money necessary to meet the expenses of their attendance upon their studies.

III. General Restrictions.

It is to be understood that in allotting the proceeds of the fund, preference is to be given to students at Dartmouth College, Hanover, N. H., who are residents of the City of Franklin, N. H. If no such students apply for the benefits of this fund, then the income can be used to assist any boys or girls who are residents of the City of Franklin, N. H., and who are pursuing a course of studies in any institution of learning giving a collegiate education or its equivalent, provided that the first two conditions covering the disposition of the benefits of this fund are fulfilled.

It is also to be understood that the income from this fund may be divided between two or more students, and that any students who receive financial aid from the institutions of learning where they attend are not thereby prevented from receiving aid from this fund.

If no students fulfilling the above requirements apply for the benefit of this fund the proceeds may be used as they accrue each year as seems best to the three persons mentioned above for the general educational good of the citizens of Franklin, N. H.

DANIELL SCHOLARSHIP.

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship."

Resolved by the City Council of the City of Franklin, as follows:

Whereas, Jere R. Daniell of New London, Connecticut, on the second day of April, 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniel Scholarship," and together with his letter of the 16th of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the costs of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and,

That a student to be awarded this scholarship, in whole or in part, must comply with the following named conditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in Franklin, and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High School, marked ability in some one of the several subjects covered by the Institute courses.

In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award.

A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and,

Be it further resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the City Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and,

Be it further resolved, That a permanent Committee on Scholarship shall be established to consist of the chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and

Be it further resolved, That this resolution shall annually be printed in the reports of said city.

Approved.

W. W. EDWARDS, *Mayor*.

Passed June 1, 1914,

RESOLUTIONS.

In the year of our Lord one thousand nine hundred and twenty-three.

A resolution relating to the appointment of the Standing Committees of the Council.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor be authorized to appoint the following Standing Committees of the Council to consist of three members each:

Highways,
Sewers,
Fire Department,
Police,
Schools,
Public Lands and Buildings,
Ordinances,
Street Lighting,
Cemeteries,
Claims,

Finance to consist of the Mayor and two members of the Council.

Passed January 1, 1923.

Approved, I. H. DOUPHINETT, *Mayor.*

In the year of our Lord one thousand nine hundred and twenty-three.

A resolution relating to Hiring Money,

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer for the time being, are authorized to hire money to pay the current expenses of the several departments, and any outstanding notes, bonds, or evidences of debt of the city becoming due, and to give promissory notes of the city therefor.

Passed January 1, 1923.

Approved, L. H. DOUPHINETT, *Mayor*.

In the year of our Lord one thousand nine hundred and twenty-three.

A resolution relating to the weekly pay rolls.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor be and hereby is authorized to draw his draft each week for the payment of the weekly pay roll of the highway, sewer, and other departments where weekly payment is required.

Passed January 1, 1923.

Approved, L. H. DOUPHINETT, *Mayor*.

In the year of our Lord one thousand nine hundred and twenty-three.

A resolution relating to funds for maintenance of Odell Memorial Arch and Odell Park Cottage.

Resolved by the City Council of the City of Franklin, as follows:

That the City of Franklin hereby acknowledges the generous gift of Mrs. H. J. Odell of \$2,000 to be added to the Odell Memorial Arch Fund and \$2,000 to be added to the

Odell Park Cottage Fund, the income of which is to be used in keeping said arch and cottage in repair and when not needed for that purpose, to be used in any part of said park where needed; and said City hereby contracts and agrees with the said Mrs. H. J. Odell, her heirs and assigns, to pay 4% interest annually for the use of said sums; deposit same in Franklin Savings Bank, or invest the funds in municipal bonds or notes.

Passed February 5, 1923.

Approved, I. H. DOUPHINETT, *Mayor*.

In the year of our Lord one thousand nine hundred and twenty-three.

A resolution relating to the discount in the collection of taxes.

Resolved by the City Council of the City of Franklin, as follows:

That in the collection of taxes the tax collector be authorized and directed to make the following discount: Upon all taxes paid on or before August 1, two per cent, and the collector shall give notice to all persons whose poll tax remains unpaid September 1, and if same is not paid in fourteen days thereafter, twenty cents shall be added.

Passed March 5, 1923.

Approved, I. H. DOUPHINETT, *Mayor*.

In the year of our Lord one thousand nine hundred and twenty-three.

A resolution relating to the erection of a school building on the Warren F. Daniell estate.

Resolved by the City Council of the City of Franklin, as follows:

ACCOUNTANT'S REPORT.

To the Mayor and Council of the City of Franklin.

I have carefully examined and verified the books and accounts of the City Clerk, Treasurer, Tax Collector, Board of Water Commissioners, Superintendent of Water Works, Board of Education, Overseer of the Poor, Park Commissioners, Trustees of Trust Funds for the City of Franklin, and Clerk of the Municipal Court, for the year 1923, and find the same correctly cast with proper vouchers corresponding to all expenditures, and all receipts properly accounted for and find the following balances to the credit of the City.
