#### VOLUNTEER FIRE DEPARTMENT REPORT

Fires reported and attended: 8

Once again we are pleased to relate that the fires reported in town were of a relatively minor nature: four chimney, one very small forest, and two railroad fires.

Eight men and both of our trucks were also dispatched to assist Lebanon at the time of their disastrous fire last June.

Early in the year considerable work was done by members to equip two trucks with material stripped from our old Ford truck, which was retired from service, and whose chassis was voted to be sold to one of our members for \$50.00.

Please continue to cooperate by obtaining a permit to burn Anything, Anywhere, Outside, unless the ground is covered with snow. This includes fires in incinerators and grills.

Respectfully submitted,

C. L. GOVE, Chief

J. F. KUSTER, Sec'y

#### REPORT OF THE FOREST FIRE WARDEN

#### AND YOUR DISTRICT CHIEF

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy -both industrial and recreational - is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area - 4,350,000 acres - is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.

2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.

3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.
