Fall 2008

NOVEMBER 19 CIE OPEN HOUSE TO BE ONE OF MANY EVENTS DURING INTERNATIONAL EDUCATION WEEK

Visit us at CIE in Hood House on November 19

International education is an expanding field throughout the world as the need for global communication and collaboration increases.

In an effort to promote programs that prepare Americans for the international arena, and to attract future leaders from abroad to study and learn in the United States, the U.S. Department of State and the U.S. Department of Education joined together to create International Education Week. According to the official Web site (www.iew.state.gov), this initiative is "an opportunity to celebrate the benefits of international education and exchange worldwide." This year, International Education Week will be held November 17-21, and UNH will celebrate with many events around campus.

How can you participate in global activities while sitting at home or at work? Try www.freerice.com. Answer questions about vocabulary, grammar, languages, chemistry, math, art and geography and earn grains of rice, which will be sent to countries where people would otherwise go hungry. For each question you answer correctly, 20 grains of rice will be donated through the UN World Food Program to help end hunger.

The FreeRice Web site states: "The rice you donate makes a huge difference to the person who receives it. According to the United Nations, about 25,000 people die each day from hunger or hunger-related causes, most of them children. Though 20 grains of rice may seem like a small amount, it is important to remember that while you are playing, so are thousands of other people at the same time. It is everyone together that makes a difference. Thanks to you, FreeRice has generated enough rice to feed more than two million people since it started in October 2007."
