For several years the Trustees have been studying the problem of using the available space in the Library in such ways as will permit the acquisition of new books that the Town's residents will use and enjoy; shelves have been crowded and any addition to the Building is out of the question. Early in 1962, with the advice of the State Library and after consultation with the Selectmen, the Trustees decided to sell the collection of books generously given in 1913 by the late Dr. (Admiral) Charles H. White from his personal Library. At the time of the gift these books were very welcome, and provided a fine start for our library; in recent years, however, they were used very little. After competitive bidding, the sale was made to two dealers; the proceeds are being held in a special fund, shown above, for the eventual purchase of newer books, or for other purposes that will make our Library more attractive to its increasing numbers of readers and borrowers.

The Trustees are considering various plans for the development and improvement of the Library, as funds become available. They are grateful for contributions in the past and will welcome them from interested friends at any time.

Forest Fire Warden's Report

During the past year New Hampshire faced the greatest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience—a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump — it's safer. A neglected backyard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.
4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join with "Smokey the Bear" and Keep New Hampshire Green" and growing in 1964.

Report of Sandwich Planning Board for 1963

Highways & Bridges.

In the fall of 1962 a plan was proposed by the Selectmen providing for the appointment by a committee consisting of the Selectmen and three others, of a Road Agent and two assistants, each on full time yearly salary, and for the ownership by the Town, of the equipment regularly required. This plan was carefully studied by the Planning Board and the Selectmen for a year and was finally indorsed by the Planning Board and a detailed recommendation as to it was given to the Selectmen on January 20, 1964.

The some 14 persons who studied the plan believed that a basic reason for the bad condition of the roads is that under the present way of operating competent workers have not been available at rates in force to do work when everyone is so busy in the summer, and that only under such a plan as that proposed would competent workers be available.

Squam Lake Town Beach.

The Planning Board has procured a firm commitment from the State to relocate Squam Lake Road from close to Mill Bridge Road to Range Road and to provide \$10,000. for this if the Town raises \$5,000. An estimate by a State engineer is nearer \$10,000. than \$15,000., as the total cost of road construction.

This relocation would remove traffic hazards by placing the two dressing and toilet facilities on the same side of the new road as the beach and by eliminating bad curves at each end of the newly located road. By acquiring land of Denley W. Emerson between the old road and the new road the parking area at the beach could be materially increased.

There would be a cost also for acquiring such added land and for preparing it for use.

Mobil Homes, Trailers, Buses and Hovels.

Many people have been disturbed by the increase of such things, and have said that there should be some restriction of them. This has been given study and a tentative proposal was introduced for discussion at the Town Hearing on January 24, 1964.

Other Matters Under Consideration.

Road name signs, sewage disposal in congested areas and a flood control project proposed by the Carroll County Rural Development Committee to be carried out in the Bear Camp River watershed in Tamworth and Sandwich, are also under consideration.
