

Report of Mayor

To the Citizens of Berlin:

In looking back over my year as your Mayor, I cannot help but notice the large amount of improvements that have been made in our city, such as the Glen Avenue project, the rebuilding of Coos Street, the resurfacing of East Mason Street, the many sidewalks repaired and some new ones constructed. A great number of new homes have been built on the several new developments, which required the laying of a great number of sewers by the Department of Public Works, which show a continuation of the expansion of our city which is a healthy situation.

The rebuilding and straightening of Route 110 or Jericho Road near the compact line was started in the fall of 1957 after I and several members of the legislature contacted the Governor and State Highway Department several times. We were successful in securing this project for Berlin. This will be completed in the early spring and will be constructed at no expense to the City of Berlin.

Plans have been laid for the changing of our garbage disposal system to one of sanitary land fill this spring, which should add to the betterment of our city and to living conditions in this area.

Being a firm believer in the pay as you go method of financing, I have paid all our projects out of available funds, and reduced the net city debt to a point that another year should easily turn the tide of finance from one of showing a debt to one of showing no debt, and still be able to carry on a large amount of public improvements.

I would highly recommend that the new city fathers carry on in the same way and create a surplus fund by appropriating \$25,000 per year, plus the Parking Meter Funds, plus the \$6,600 per year repayment from the state on the Glen Avenue project and apply

this fund to a matching federal fund. This would raise approximately \$100,000 per year for a public highway improvement fund. If this method of financing future projects is used it will have a tendency to put the city in a good financial condition when it comes time to pay for future projects and will also allow us to keep our tax rate at or near its present level.

Several new pieces of equipment were purchased for various departments and this I believe should be carried on a larger scale if possible, so that our departments may carry on their work and give various services with less delay and more economically.

The Airport has been kept open for the past year and I hope that the near future will bring year around air service to the citizens of Berlin, which will be of a great benefit to our city.

The Brown School project is in the design stages and a committee has been working to procure the land required. I do however believe that we should be conservative on the construction at this time, for I have every reason to believe that federal funds for construction will be available in the near future. For this reason I recommend that we build only the number of classrooms that will fill our present needs.

In closing I wish to thank the various department heads and the many people of Berlin that made my year in office a successful one as far as benefit to the city of Berlin is concerned, and I wish to state that I have no regrets when I look back over my record, and feel that I have done the best possible under the conditions for the citizens of Berlin as a whole, and I leave the city in a better financial condition than it was when I took over the reigns of the office of Mayor of your city.

GUY J. FORTIER,

Mayor

ANITA T. DRAPEAU, R. N. Parochial School Nurse

JEANNETTE R. COTE Clerk, Secretary

REPORT OF HEALTH OFFICER

To His Honor, the Mayor, the City Council and the Members of the Board of Health:

I herewith have the honor and privilege to submit the city's forty-seventh annual report of the Health Department activities for the year ending December 31, 1957.

Permit me to acknowledge with sincere appreciation the unending support and cooperation received; and also the profound interest taken by you, Mr. Mayor, members of the City Council, the Public Health Committee, and the members of the Board of Health.

I wish to acknowledge also the splendid cooperation received from the members of the medical and dental profession; the hospital, official and un-official organizations and social agencies, school officials, the press, the radio, the public spirited citizens, and last but not least, the loyal staff.

DEPARTMENTAL FUNCTIONS

I. Medical Service

- 1. VENEREAL DISEASE. The control of all such diseases can best be accomplished through the cooperation of all physicians and citizens of the City of Berlin. Information regarding all cases remains strictly confidential; such as required by state statute.
- 2. TUBERCULOSIS. The New Hampshire Tuberculosis Association, active in the fight against tuberculosis in this state, conducted 4 clinics in Berlin during the year. 4 cases of active tuberculosis were found in our community. They are currently receiving treatment.
- 3. IMMUNIZATIONS. For immunizations see section D under Administrative Functions.

NOTE: Biologicals are stored at the Health Department and are available, at cost, to all physicians of this city.

4. NURSING SERVICE

A. District Nursing—The City of Berlin is divided into two separate districts, namely District No. 1 and District No. 2. We have 2 district nurses servicing the entire Community. District Nurses assist the physicians at all Maternal and Child Health Clinics and all other immunization clinics sponsored by the Health Department.

| | District 1 & 2 | Child Hygiene | Totals |
|-----------------|----------------|---------------|--------|
| No. of patients | | 737 | 1702 |
| No. of visits | 2224 | 1063 | 3287 |

- B. Parochial School Nursing Service—Two school nurses supervise and service 4 Parochial Schools, 2 High Schools and 1 Kindergarten; a total of 2713 students.
- C. **Public School Nursing Service**—Public School nursing service is under the supervision of the Berlin Board of Education.
- D. Clinics
 - A. Baby Clinics—These clinics are held weekly, on Thursday afternoons, at 1:30 p.m. at the Health Department.
 49 clinics were held during the year with a total of 677 babies attending (ages 1 week to 1 year).
 - B. Pre-School Clinics—These clinics are held monthly on the first Tuesday at 1:30 p.m. at the Health Department.
 11 clinics were held during 1957 with a total of 423 preschool children attending (ages 1 year to school age).
- 5. CHILD HYGIENE—The importance of the work of a group of ladies known as "The BERLIN CHILD HYGIENE AS-SOCIATION" can hardly be overestimated from the standpoint of child health in this city. These ladies give of their time and energy to help foster better health for our children. Both baby and pre-school clinics owe their existence to this voluntary organization which provides, in cooperation with the Berlin Health Department, medical supervision at the clinics for children from birth to school age.

It is with pleasure that we include herewith the financial statement of the Berlin Child Hygiene Association for the year ending December 31, 1957.

| Clinic Physician's Salary | |
|---|--------|
| (from January 1 to July 1, 1957\$ | 300.00 |
| Physician's Services | |
| (Performed at the Hospital) | 20.00 |
| Baby and Pre-school clinic supplies | |
| (Baby blankets, Cod Liver Oil, Paper Bags | |
| Vitamins and other miscellaneous items) | 20.25 |
| | |
| Total Expenditures\$ | 340.25 |

- Note: The above expenditures would have had to be paid by Health Department appropriation had not the association undertaken the task of raising the funds to meet the amount shown. We wish to thank the Berlin Child Hygiene Association for their part in making the Baby and Pre-School Clinics possible.
- 6. MENTAL HYGIENE—SPEECH THERAPY--Appointments to these clinics are made through the State Welfare office and the clinics are conducted under the supervision of the State Health Department. Attending physicians were: Dr. Anna L. Philbrook, Psychiatrist and Dr. Ursula Sanders, Pediatrician.

7. CRIPPLED CHILDREN'S SERVICES

- A. Orthopedic Treatment Center—Conducted at the Health Department. These clinics are under the direction of Miss Mary Bullock, Physiotherapist, State of New Hampshire Health Department, assisted by the staff of the local Health Department.
- B. Orthopedic Clinic—Held every 2 months at the St. Louis Hospital. Said clinics are under the direction of Dr. Howard Halfman, Orthopedic specialist, assisted by members of the staff of the State and Local Health Departments. Appointments to the clinic are made by the Berlin Health Department.
- 8. DIABETIC DETECTION DRIVE—During the week beginning November 17, 1957, this department conducted a diabetes detection drive. 52 samples of urine were tested.
- 9. HAYFEVER CONTROL—Fire apparatus of the City was used during the month of July to spray ragweed growing along our city streets. Approximately 5,000 gallons of liquid herbicide were used.
- COMMUNICABLE DISEASE CONTROL—Although many measures may be used for the control of communicable diseases, all of them may be classified under the headings:
 Dependent of the disease
 - 1. Preventing spread of the disease.
 - 2. Increasing the resistance of the new host.

3. Minimizing the ill effects of cases that have not been prevented.

Each of these measures is largely complementary to the other two; combination of them constitutes the usual control program and applies to any specific disease. However, prompt reporting is desirable and thus by eliminating the source of infection can the spread be curbed. Other measures of isolation and quarantine, as required by state statute, for infected persons, are followed whenever the need exists. (e. g. exclusion from school and the required issuance of re-admission certificates). Whenever necessary, laboratory methods are used to determine the necessary period of isolation.

- 11. SIGHT CONSERVATION—This program continues with the cooperation of the Berlin Lions Club and the N. H. State Sight Conservation Program. 27 individuals were assisted by this program in 1957.
- 12. DENTAL FLUORINE—Complete dental fluorine treatments including examination, cleansing and 3 applications of Sodium Fluoride were given to 89 children during the month of August at a total cost to the City of \$45.31. Mrs. Marjorie Plaisted, Dental Hygienist of the State of New Hampshire Dental Division, was in attendance. We are indebted to the State of New Hampshire Dental Division for the fine cooperation received during the year.

II. INSPECTION AND CONTROL SERVICES

1. FOOD INSPECTION

- A. Milk, Cream, Ice Cream, Cheese Products. Analysis of these dairy products requires constant impartial watchfulness. The bacteria counts of milk distributed in this city have been very good. Important also is the periodic inspection of farms and dairies. This department is indebted to Mr. Arthur Mayo, State Health Inspector for the Northern District, for the splendid cooperation received in all phases of Public Health in Berlin.
- B. Restaurant Inspection. The main problem under this heading concerns strict sanitation with particular attention to food served the restaurant patron. The persons partaking of foods dispensed include a large fraction of the total population of this city, and all of them depend on the ability of the dispenser plus whatever inspection service provided by the Health Department.

There are a total of 57 eating and drinking establishments in the City of Berlin. These establishments are inspected regularly. C. Markets. Businesses handling meat and meat products, fish and poultry must be held to high standards of sanitation. Exposure to flies, dust or other contamination, cleanliness of the premises and personnel, proper refrigeration and the like are required by state statute. There are 64 markets or confectionery stores within the limits of the City of Berlin.

2. SANITARY ENGINEERING

- A. Water Supply. City and private water supplies were bacteriologically and chemically analyzed periodically to insure clean and safe water for the community.
- B. Sewage Disposal. The greater part of the city's sewage 1s disposed of by means of sanitary sewer system, maintained by the Public Works Department. Several sewage outlets are still wide open and therefore offer excellent sources of infection with communicable diseases.
- C. Rodent Control. The department has available, for sale, various types of insecticides for the effective control of rodents.
- 3. ABATEMENT OF NUISANCES. Nuisances as such constitute a miscellaneous group of conditions usually called "complaints received." Insects, odors from garbage, sewage, animal pens, pollution of streams or shores, refuse collection, industrial complaints, objectionable vapors and gasses and excessive noise include the most frequent nuisances. The department received 26 such complaints, as listed above.

III. ADMINISTRATIVE FUNCTIONS

1. **STATISTICS.** The recording of births, deaths and other vital statistics is of great importance in the field of Public Health. Systems of handling and recording must be complete, comprehensive and accurate.

| A. Births | Male | Female | Total |
|-------------|------|--------|-------|

E. Communicable Diseases. The following cases of communicable diseases were **reported** to this department during 1957:

| Chickenpox64 | Mumps |
|------------------------|-------------------|
| German Measles 7 | Poliomyelitis 1 |
| Infectious Hepatitis 1 | Scarlet Fever 2 |
| Measles 6 | Tuberculosis 4 |
| Meningitis 1 | Whooping Cough 13 |

3. **RECORDS** (Other than statistics)

- A. **Parochial Schools.** A complete and comprehensive record of the Parochial Schools is on file at the Health Department and is available upon request.
- B. **Physical Examinations.** Physical examinations were given all first grade students in our schools at the beginning of the school year.

C. Child Hygiene

Infant Welfare

| No. of babies under supervision | 141 |
|---|-----|
| No. of babies in attendance to clinics | 677 |
| No. of babies examined by physician | 569 |
| No. of babies registered | 205 |
| No. of babies discharged | 0 |
| No. of babies transferred to pre-school | 214 |
| No. of deaths of supervised babies | |
| (Over 1 week of age) | 4 |
| No. of deaths of unsupervised babies | 4 |
| No. of home visits | 982 |
| No. of children seen | 737 |

Pre-School

| Overdraft | \$ | 1,545.47 |

NOTE: Amount of overdraft shown herewith is due to Asian Influenza Vaccine given school children and City employees during September, October and November. Total injections given: 5,083. This item had not been budgeted at the beginning of the fiscal year.

*It must be noted that the financial statement shown above does not show, as credits, the amounts of money collected by this department for Milk and Restaurant Licenses. These amounts are credited under "Other Incomes" for the City of Berlin.

Respectfully submitted,

EDWARD J. MONTMINY, Health Officer

Accepted and Approved by the Members of the Board of Health

Report of Building Inspector

To His Honor, the Mayor, the City Council of the City of Berlin. Gentlemen:

I herewith submit my report as Inspector of Buildings for the year ending January 31, 1958.

There were issued during the year, 196 permits with a total estimated value of \$1,114,970.00

These permits divided as follows:

| 77 | permits | new homes\$824,800.00 |
|----|---------|----------------------------------|
| 16 | permits | new homes, cost unknown |
| 9 | permits | additions |
| 13 | permits | additions, cost unknown |
| 21 | permits | repairs |
| 14 | permits | repairs, cost unknown |
| 10 | permits | one car garage |
| 12 | permits | one car garage, cost unknown |
| 7 | permits | two car garage |
| 4 | permits | two car garage, cost unknown |
| 1 | permit | three car garage |
| 2 | permits | three car garage, cost unknown |
| 1 | permit | four car garage, cost unknown |
| 1 | permit | seven car garage |
| 1 | permit | steel storage building 30,000.00 |
| 1 | permit | truck terminal 140,000.00 |
| 10 | permits | signs |

Copies of all permits issued are on file at this office.

I wish to express my appreciation to the Mayor, City Council, City Engineer, Fire Chief and the other city officials, Building Contractors and the Public for their cooperation.

Respectfully submitted,

JEAN E. RAMSEY, Inspector of Buildings

Report of Weights and Measures

We wish to express our appreciation for the courtesies and assistance given us during the year by His Honor, the Acting Mayor, City Council and other members of the City Government.

Respectfully submitted,

FRED G. HAYES, JR., Chairman CLOVIS E. MORIN, LEON T. DUBEY,

Board of Assessors

Board of Education

"If I could get to the highest place in Athens, I would lift my voice and say, 'what mean ye, fellow citizens, that ye turn every stone to scrrpe wealth together, and take so little care of your children, to whom ye must one day relinquish all?' "

--Socrates (469-399 B. C.)

To His Honor, the Mayor, and members of the City Council:

Herewith we submit a brief report of the Department of Education for the fiscal year ending January 31, 1958. A more detailed report is prepared at the close of the school year, and additional information may be obtained at the office of the Superintendent of Schools.

Finances

Total expenditures for the fiscal year ending January 31, 1958 were \$459,853.81, an increase of \$35,803.04 over last year's expenditures. Of the total, \$405,000.00 came from local tax appropriation and \$54,853.81 from state and federal reimbursements, tuition, cafeteria receipts, and from other sources, as shown in the financial statement of this report. The increases in the budget were chiefly due to the necessity of adding two additional teachers to care for increased enrollments in our schools; a 6% raise for non-teaching personnel; a revised teacher salary schedule to allow us to compete with other communities of equal size for able and qualified teachers; and the cost of books and supplies has risen about 12%. It is also pertinent to point out that whereas our net appropriation increased 7.4% our school enrollment since last June increased over 15%. Increased enrollment, of course, means additional teachers, books, supplies and equipment.

Enrollment

An analysis of the enrollment and school census for 1957-1958 indicates that the number of school age children in the city has increased by 657 since 1950, or enough to fill 22 classrooms. In our public schools this has been felt most in the elementary grades where a total of 316 more children are now enrolled than in 1950,

and an additional 124 will be enrolled in 1962. Also, most of this increase has occurred in the Brown School area where we now have only 5 classrooms available. At present we have a total of 21 elementary classrooms and will need an additional classroom each year until by 1962 we should have a minimum of 28 classrooms available.

As a result of this study a Joint Committee, consisting of three members from the City Council and three members of the Board of Education was formed to study construction recommendations. This committee has met regularly to insure intelligent planning and to exercise economy and efficiency in the utilization of public funds.

Curriculum

Berlin High School seeks to provide a program of secondary education for all youth. We have programs for those who seek training for clerical and stenographic work, for those who plan to establish a home after completion of their high school work, for those who are planning to enter some sub-profession, and for those who are anticipating a college course. Our teachers work toward identifying each student's special interests, aptitudes, and skills and then guide him toward those areas of work which will insure success. Our curriculum is constantly being evaluated and revised so as to keep in tune with changing world and national conditions.

The curriculum in the elementary schools remains basically the same each year with emphasis on reading, arithmetic and the correct usage of English throughout the various grade levels. Social studies, science, health, art and socializing activities are stressed as pupils reach different age levels. A new system of reporting each pupil's educational progress was initiated this year and has met with approval by both teachers and parents. Teachers are also in the process of evaluating and selecting basic textbooks in each subject area at each grade level. This will insure up-todate content and continuity throughout our elementary schools.

Teaching Staff

If we want our city to have a strong educational system we must secure and retain the services of highly competent people. The best facilities and equipment will not insure a good education unless we have teachers who have the experience and training to stimulate and teach the children. At present we are blessed with an excellent staff of teachers and administrators. The average number of years of teaching experience of our teachers is 21 and, on the average, 16 of those years have been in our city. We doubt if any school district in New Hampshire can match that. Further, all of our teachers are fully certified by the State Department of Education.

Our adult education program is the most extensive in the state. Our school buildings are constantly being used by the whole community for educational and recreational purposes. Over 400 adults are enrolled in 15 courses that offer family living, crafts, business training, cultural opportunities, and recreation. In addition we sponsor apprenticeship training courses for employees of the Brown Company and nursing chemistry for the students of the St. Louis Hospital School of Nursing. The demand and need for education beyond high school in our increasingly complex civilization might warrant a study in the near future of the advisability of starting a Junior College Program in the northern section of this state.

Maintenance of School Property

We have a large investment in our school buildings that could not be duplicated for several million dollars. To neglect this property is poor business. Much has been accomplished in recent years but more must be done to bring the buildings up to date. The exteriors of all buildings should be cleaned, waterproofed and pointed; modern equipment has placed a heavy load on our electrical system; and the program of installing new light fixtures should be completed until all classrooms meet the minimum standards of light.

Your Board wishes to acknowledge and express its appreciation to Caleb H. Niles who retired as Superintendent of Schools at the close of the 1956-1957 school year after having served this community for seventeen years. As the chief school administrator Mr. Niles created a school system that is rated among the best in New England. He furnished constant stimulation and guidance to the efforts of teachers and pupils toward self-improvement. His leadership and foresight in initiating new methods and courses of study have made our schools alert and flexible to the ever-changing patterns of life. His judiciousness in directing the big problems of public education--administrative organization, curriculum adaptation, school plant maintenance, securing and retaining a competent teaching staff, budgets and public relations-made him sought after by other school systems and made him invaluable to us.

We also wish to express our sincere appreciation to the teachers, to the Mayor and Members of the City Council, to the many individuals who have aided us with their support and cooperation.

Respectfully submitted, ROBERT O. MURPHY, Chairman MARJORIE R. GILBERT, Secretary LOUIS E. RANCOURT, Board of Education

Report of Library Trustees

To His Honor, the Mayor, the City Council of the City of Berlin, New Hampshire.

Gentlemen:

The Board of Trustees of the Berlin Public Library herewith submit its annual report, together with the Treasurer's statement and the Librarian's report.

This year 47,481 books circulated, which is an increase of over 1,500 books over the previous year. There were 904 new books purchased, among them new reference books were added to our reference shelf.

In 1957, 3,367 magazines circulated, and we subscribed to 94 magazines and newspapers. These magazines still continue to be of great interest to our borrowers and to the students of our local schools, who use them continuously for debates and current topics.

A meeting for Trustees was held in June at the State Library in Concord, New Hampshire. Mr. Leo Bagley, our Trustee, attended this meeting. Mrs. Lottie Sheridan, our Librarian, also attended a state wide librarian's meeting at the State Library, with Mrs. Mildred McKay, State Librarian, presiding. At these meetings many library problems are discussed and solved.

During July, Mrs. Eva Vogel, attended Library School in Durham, New Hampshire for three weeks. This is Mrs. Vogel's second summer at Durham and it is hoped she will be able to attend another summer to receive her certificate. She has found these courses very helpful to her. Mrs. Vogel still continues to make outstanding posters and book displays in the adult department and many compliments are received about these displays.

The Library was host to a Neighborhood Meeting in October. Fourteen Librarians from the North Country were present. Library movies were shown and current books reviewed. The Staff served tea and cake to the visitors before they left, with Mrs. Florence Hickey, our Trustee, pouring.

A week that is always looked forward to by the children of the City is Children's Book Week, in November. The 1957 slogan was "Explore With Books," and over 200 new books were displayed from tables decorated by our Children's Librarian, Miss Julia Laffin. Teachers from the different schools brought their pupils to visit the library, to see the decorations and enjoy the new books. During the week over 125 new pupils registered, and on Saturday all the new books were released for circulation. Over 1,100 books circulated, which is proof of the wonderful way our children are reading, and a very successful Book Week.

In the early part of 1957, it was discovered that the sky light on the Library was beyond repair and it was necessary for a new roof to be put on in its place. This work was done by the Brideau Construction Company, Inc. It is hoped that our project for next year will be new windows in the Children's Department.

Mrs. Marion K. Steady and Mrs. Inez N. Hamlin are our faithful substitutes, and Trustees wish to thank them for their faithfulness to the staff.

In closing, it is the wish of the Trustees to thank the staff for their faithful and courteous service.

Respectfully submitted,

JAMES J. BURNS, Chairman J. LEO BAGLEY, Treasurer FLORENCE HICKEY, Secretary

Report of Relief Department

February 11, 1958 To His Honor, the Acting Mayor and Members of City Council:

I herewith submit my report as Overseer of the Poor for the year ending January 31, 1958.

The Relief Depart. this year expended the sum of \$68,738.75 for the care of a total case load of 244 cases and 373 individuals. We had an increase during the year of 45 cases and 67 individuals.

The case story is as follows: Direct Relief Cases: 29, 22 singles and 130 individuals; Soldiers' Aid Cases: 14, 6 singles and 62 individuals; Board and Care of Adults Cases: 12; Board and Care of Children Cases: 5; Old Age Assistance Cases: 105; Alien Old Age Assistance Cases: 32; Totally Disabled Cases: 14; Transferred to County Cases: 2, 3 singles and 13 individuals. We transferred 5 cases to the County and they in turn transferred 2 to us.

Our appropriation was to the amount of \$60,000 plus \$4,540.59 we received in refunds giving us a total of \$64,540.59. With a total expenditures of \$68,738.75, we were left with an overdraft of \$4,198.16.

I wish in conclusion to say how I've appreciated the help and advice of the late Mayor and to the Acting Mayor and members of the Relief Committee, my thanks for the aid and cooperation given me in the performance of my duties.

Respectfully submitted,

MAURICE A. BELANGER, Overseer of the Poor

E. ARTHUR VALLIERES,

Clerk of Municipal Court

Report of Recreation Parks and Playgrounds

To His Honor, the Mayor, and Members of the City Council: Gentlemen:

We herewith submit the tenth annual report of the Parks and Playgrounds commission of the City of Berlin, New Hampshire.

The year 1957 saw recreation in Berlin strive to obtain the means of providing a program for the citizens of Berlin so that we could look forward to a greater and balanced activity program.

Two outstanding examples of what could be done was shown by the huge turnout for the Easter egg hunt and talent show held at Memorial Field. These two programs alone had an attendance of 1,750 young girls who in the past have had only the playgrounds and Moose Brook trips to look forward to. We, in recreation, feel that they are a part of the community and should be taken into consideration under an all around program which Berlin deserves.

It is evident that the recreation department needs a building that it can share with another city department to meet the ever increasing demands for well organized and supervised recreation.

An outdoor swimming pool must come **real soon** as more and more of our citizens feel that this project is a necessity to Berlin. Records reveal that there has been a drop in the number of certificates awarded for swimming and life saving which indicates the need of this project to be inevitable.

We have been recognized as having an enormous recreation program for the city. It is now apparent that with added facilities recreation could have a program that meets the needs of all its citizens.

1957 Highlights of Recreation

- 1. Easter Egg Hunt.
- 2. Talent Show.
- 3. Little League Banquet (250)
- 4. First Annual Men's Hockey Banquet

- 5. Grammar School Hockey Trip to Boston. Six Teams and Coaches. (120)
- 6. Fund Raising Candy Sale for Boston Trip. Success.
- 7. High School Tennis Tourney (First).
- 8. Elks Biddy Basketball Program.
- 9. Junior High School Basketball Program (Gorham, Angel Guardian, Berlin Junior High and St. Patrick).
- 10. Lions' Club Trophy to Junior High School Champs (Gorham).
- 11. Eagles' Club Annual Trophy Award for Grammar School Hockey (Angel Guardian).
- 12. The Sgt. Tobias Trophy donated by the Soldiers of Camp Dodge to Softball League Winners (Lamoureux).
- 13. Beginners' Tennis Instruction (10 Days). Children Only.
- 14. Assistance to Berlin-Milan Baseball Team. Memorial Field.

Playgrounds

The accomplishments of the Department's summer playground program this year were very commendable. The playgrounds were well attended each day and the attendance has grown considerably in the last few years. The children had an opportunity to learn many skills and develop the sportsmanship by the many contests the department conducted. A remarkable increase of interest was shown to the arts and crafts program and participating youngsters made a huge variety of useful and colorful articles. The success of the playgrounds was due to the very capable supervisors. They assisted once again in the Kiddies' Day Parade sponsored by the Junior Chamber of Commerce.

Attendance (20,000-25,000).

Easter Egg Hunt

The first Annual Easter Egg Hunt, conducted for girls by the Recreation Department and ably assisted by the Women's Club of Berlin, Junior Chamber of Commerce, Modern Woodsmen of America and the Berlin Police Department was a huge success. Over 1,000 girls from all schools in the City from the first through the fourth grades took part.

The first and second grades were grouped as one section; and three and four as section two. Over 2,500 candy eggs of all sizes were hid throughout Memorial Field. Each group had its own section roped off so that each would have its own area. Prizes were awarded to twenty winners and following the awarding of prizes, ice cream was served to all participants.

REPORTS OF DEPARTMENTS

The Recreation Commission and Director wish to thank all those who made the affair such a huge success.

Talent Show

Under the able direction of the playgrounds supervisors the first annual talent show was conducted in Memorial Field with 140 taking active part in the program plus 760 young boys and girls as spectators. Appropriate prizes were awarded to all the winners in the five playgrounds taking part. The Recreation Department was fortunate in having members of the Berlin Women's Club as judges, and wish to express our thanks to all for their help in conducting this program.

This type of activity brought out the fact that there is much hidden talent among our young people, and if they are given a chance to express themselves in their own way they can become a vital cog in the plans for a better all around recreation program for the people of Berlin.

Annual Kiddies' Day Parade

The Annual Kiddies' Day Parade was held Friday, August 23, at 2:00 p.m. with approximately 250 children participating.

The parade formed at Glen Avenue Park and proceeded up Main Street, across Y M C A Bridge, ending at the Community Club, where prizes were awarded to the winners and free refreshments were given to all who took part.

Winners were as follows: Outstanding—Mary Ann Derosiers, Marston; Sandra Rivard, Bartlett; Claudia Cavagnaro, Bartlett; Cynthia Delorge, Brown; Linda Lee St. Germaine, Brown; Joyce Ann Boulanger, Brown; Albert Turmel, Marston; Marie Deschene, Ramsey Hill; Diana Nolet, Marston; Loyce Chasse, Marston; Helen Turmel, Marston; Jeanette Sauvagneau, Marston; Louise Vautour, Community; Colette Leveille, Bartlett; Bobby Morris and Roland Oliver, Marston; Patty Nicoletti and Helen Roy, Community; Sharroll Roberts, Bartlett; and Paulette Lamontagne, Bartlett.

Sponsors of this annual event were the Berlin Junior Chamber of Commerce, Berlin Recreation Department and the Community Club. Judges were Mrs. Edward Chodoski, Mrs. Philip Fortier and Mrs. E. M. Danais.

The Kiddies' Day Parade climaxed the playground summer season.

Montreal Game

Once again it was our opportunity to have as guests the players from the Montreal Pony League here in Berlin for another Baseball Series with the All Stars of Berlin.

This game was in all associated press and united press news releases in both the United States and Canada.

The boys from Canada won the series by winning two out of three games played at Memorial Field, under the lights. It was one of the most interesting series to watch because each club was playing its best ball to please the few fans that showed up for the contest.

This type of competition is a must for our young players because we can use it as a measuring stick in comparing our players with those of larger communities.

In 1958, Berlin will journey to Montreal for a three-game series.

Little League

This year's activities of Little League were many. It was very encouraging to see so many of the younger set starting to show marked improvement in Baseball. The Commission, under the able leadership of Commissioner Ross, did a great job in setting into operation this huge program for the boys of Berlin.

The Yankees, under the coaching of Warren Langley, won the American League Pennant and also the World Series from the National League Champions, the Braves, who were under the coaching of Gus Rooney.

Two games were played with the Gorham Little Leaguers and Gorham won both games this year.

The National League won over the American League (12 year old game) this season by the score of 17-3.

Over 120 boys took part in the Little League Program and 84 younger boys in the Farm System under Baseball Coach, Al Brodeur.

We wish to express our sincere thanks to all those many people who did so much in helping Little League do so much for the young boys of our City.

REPORTS OF DEPARTMENTS

Pony League

Under the able direction of Baseball Director, Albert Brodeur, the Pony League had a very interesting season playing their morning games at Memorial Field. The three teams were: The Colts, Leopards and Bisons. There were forty-five boys from the ages of 13 through 16 active. The Colts won the 1957 League Championship.

White Mountain League

Once again the Berlin Recreation Department entered a team in the White Mountain Baseball League operated for all boys from 13-15. This fine program that is conducted throughout the summer months for the teenagers in the North Country is one of the best means of curbing juvenile delinquency. This program operates under a commission plus excellent young men in charge of the coaching staff.

This activity helps to bring the communities in which we live closer together and makes for better understanding of our problems.

Basketball (Men)

Basketball was one of the Department's most popular winter sports. The basketball program conducted by the Parks and Playgrounds Commission has expanded by leaps and bounds.

During the past season there were six teams with sponsors: Brown Company, Eastmans, Eagles, Labnons, Camp Dodge and Lavigne. All the games were played in the new Berlin High School Gym, with competent officials.

The Department owes much of the success to the sponsors who gave their time and money to make this a great success. A fifteen (15) game schedule was played followed by a tournament. Eastmans won the league play and tournament. In the consolation series, Camp Dodge came out on top.

Basketball (Women)

Berlin is fortunate in having a women's basketball league as many other communities throughout the state conducting recreation programs have none and others are just starting to organize this popular activity. Four teams made up the league—Brown Company, Curtis Hardware, Toussaint Bakery and Gorham Oil

Company. Forty women take part in this program and it is conducted by competent officials—Mrs. Raymond Farrington and Miss Miran Forbes. Brown Company won the league crown plus the tourney and were awarded trophies purchased by the recreation department at their annual basketball banquet held at the Chalet.

Grammar School Hockey League

The Grammar School Hockey League proved to be a very excellent stimulating sport for both the players and the sponsors. There were teams from all the schools of Berlin participating in the league. Each team played a total of ten (10) games, all played at the Community Rink. The Annual Championship all-star game was not played this year because of poor weather conditions.

The Eagles' Club presented a trophy to the Angel Guardian team as 1956 champions of the Grammar School Hockey League. Father Boutin gave a small luncheon on a Sunday afternoon in the basement of the Angel Guardian Church for the members of his winning team. Dignitaries from the Eagles' Club and the Recreation Department were invited to attend. League trophies and gifts were presented to the winners.

This year all the coaches, directors and players in the Grammar School League conducted a candy sale, which was a complete success. The Department was able to take all the boys in the Grammar School Hockey League to Boston for one of the Bruins' games and also to see various sights of Boston.

The Department wishes to thank all those who helped to make this trip possible.

Senior Hockey League

Senior Hockey received its start last year by the Recreation Department organizing a four (4) team league. This league gave the teams a total of nine (9) games to be played. The teams were: Lavigne's, Brown Company, City Hardware and Paper City TV Cable. All the games were played in the Notre Dame Arena. This league was one of the best for men ever conducted in the City of Berlin. The enthusiasm and good team play and sportsmanship displayed by this group of men was extraordinary. Their support and conduct in helping the Department was tremendous. Their efforts made this league outstanding. Brown Company won the League trophy and Lavigne's finished in second place. In the tournament, Lavigne's won and Brown Company finished second.

REPORTS OF DEPARTMENTS

Appropriate trophies to the winners and runners-up were presented at the First Annual Senior Hockey League Banquet held at the Chalet. An evening of dancing followed the banquet.

Tennis

Tennis proved to be very popular in Berlin during the past season. The courts were in constant use. The Annual Recreation Department tourney was held with trophies being presented to the single winner and runner-up and the double winners and runnersup.

More interest was shown in this tournament than before because the Recreation Department conducted more tournaments than previously. Men's doubles, men's singles; women's doubles, women's singles; junior boys' singles and junior boys' doubles tournaments. This is a good indication of things to come.

The Department this year selected three interested persons to serve and to assist the Director in setting up and promoting a bigger and better tennis program for the youth of our City in the hopes that in time we may be able to compete with other cities in the North Country in forming a tennis league.

The committee selected includes: Miss Sylvia Brassard, Mr. Al Adams and Mr. Carl Ashworth.

Softball

During the past summer, the interest in Softball reached a new high in Berlin. Seven (7) teams were organized with about 105 men participating. The Curtis Hardware team won the League play championship. In the tournament play-offs, Lamoureux came out on top with Recreation being runner-up.

Again last summer, Berlin played three games with North Conway and with these down-state rivals were victorious in two out of three games.

As a culminating activity climaxing the Softball season, a banquet was held at the Chalet. At this occasion, the trophies, purchased by the Recreation Department, were presented.

With all the facilities available in Berlin and the excellent conditions available for playing Softball, it is hoped that next season more teams will take part in this preferred activity.

Basketball (Boys)

One of the most interesting programs for the young fry was the Elks Biddy basketball program that was set up to take care of the young boys from the third through the sixth grades in all the Grammar schools in the City. Five weeks of practice and team organization preceded team play. Six teams were set up with coaches for each unit. All games were played on Saturday mornings in the Berlin High School gym. The Department wishes to go on record in thanking: Mr. Arthur Toll, Mr. Lawrence Dwyer, and Coach Ray Kneeland for their wonderful cooperation and assistance; Coaches Bill Kolinsky, Ernest Plante, Robert McKinney, Raymond Forestal and Henry Lacroix.

We offer our sincere thanks to the Elks Club of Berlin for their help in providing a program that will in time help all schools in the area to field better basketball teams and above all to teach them sportsmanship.

Basketball (Junior High School League)

With the help of Father Boutin of Angel Guardian, Mr. Norman Mullins of Berlin Junior High School, Father Edward Milne of St. Patrick's school and Mr. William Marston of Gorham Junior High the Recreation Department was able to set up and put into action the Junior High School Basketball program that will give and develop more players for each school plus the extra practice that it provides in competition with the other schools. The boys now have the opportunity to go from Elks league into the Junior High league and finally into high school teams.

The Recreation Department wishes to express its sincere thanks to all the school officials, Father Boutin and Father Milne and all others who assisted with this fine program.

Improving and Maintaining Recreation Areas

The Department feels honored to have a maintenance crew that can maintain all the areas that are used for Recreation purposes. To these three men a great deal of the credit must go because of the amount of time and planning that must be accomplished before the program is set in motion.

The accomplishments of the Department were many during the past year such as:

Seeding playing fields.

Painting all playground equipment.

Cutting grass on all ball fields and parks.

Work on Community Field building.

Setting up and repairing skating and hockey rinks.

Worked with City electrician in the installation of Christmas decorations.

Built the Nativity scene for the Chamber of Commerce. Installed Band Stand for many occasions. Furnished and installed Public Address system for various Clubs and Celebrations.

Constructed new practice tennis board at Community Field. Prepared and rolled football field for school games. Hauled clay for infield of baseball diamond.

Assisted other departments.

Skating

Berlin can be very proud of its seven ice-skating rinks. They are maintained in the best way possible to facilitate good conditions for the pursuit of many peoples' favorite sport and pastime.

A daily check is made of all the rinks to see if flooding or scraping is necessary.

We would like to thank Mr. Toll, Mr. Dwyer and the School Board for the use of their facilities; Monsignor Bousquet, Father Marchand for the use of N. D. Arena; Father Murtagh, Fathers Green, Milne, St. Patrick School; Father McCarthy, Cascade; Father Drapeau, Father Houle, St. Anne; Father Lauziere, St. Joseph; staff at W.M.O.U.; staff at the Berlin Reporter; Elks Club; Lions Club; Eagles Club; American Legion; Local No. 75; Local No. 1444: Kiwanis Club; Rotary Club; Knights of Columbus; Junior Chamber of Commerce; Berlin Chamber of Commerce; Moose Club; V. F. W.; Labnon's Men Shop; Labnon's Women Shop; Brown Company; Lavigne's Red Wing; Eastmans; Granite State; City Hardware; Curtis Hardware; Camp Dodge; New England Telephone and Telegraph Company; F. W. Woolworth Company; Public Service Company of N. H.; Drouin's Men Shop; Berlin Community Club; City electrician and his helper; Athletic Booster Club; Management of the "Le Chalet." Many thanks to the Directors of the Civic Orchestra and Brown Company Band, Ware Knitters and Women's Club, St. Anne's Boy Scout Drum Corps. To any person or organization whose help we may have neglected to mention it has not been intentional.

We appreciate the cooperation that has been shown us by the Mayor, City Council and department heads toward our cause.

Respectfully submitted,

ROBERT J. LOWE, Recreation Director

MR. CHARLES ROSS, Chairman MR. ALCIDE VALLIERE MRS. EDGAR THIBODEAU Board of Park Commissioners

COMMISSIONERS' REPORT

February 17, 1958

To His Honor the Mayor and City Council City of Berlin, New Hampshire Gentlemen :

We submit herewith the thirty-third annual report of the Board of Water Commissioners for the year 1957.

Our entire construction force was kept busy on new water main extensions for new housing on 46 streets to supply water for 104 new houses, in addition to regular maintenance work and improvements to the distribution system.

Our 5th booster station was constructed this year on Sweden Street in the new development area known as Halvorson Terrace. This system pumps water for domestic use to 15 houses and boosts water pressure 50 pounds.

Riverside Pumping Station-Auxiliary Source of Supply

In 1955 and 1956 we laid an 8-inch cast iron line from the Motor Mart to the Riverside Station, in addition to the existing 6-inch line. This increased the output from 300 to 600 gallons per minute. This year we purchased a larger pump. We can now utilize the full capacity of the Riverside well or 900 gallons per minute.

Auxiliary Booster Station-Guilmette Street

This station was built in 1924 by the old Berlin Water Company for the purpose of supplying water to elevation above 1,220 feet, or all areas above the station. The pump unit was completely automatic, pump starting and stopping within certain pressure ranges until 1931, when the department floated bonds to construct a direct supply line from the present filter plant, to Ramsey Hill, thereby eliminating the daily use of the pumping system and power costs of \$1,800 yearly. Water was supplied direct from the available head at Godfrey.

When water service was piped into the area in 1924, less than 100 houses were supplied with water. Today, more than 275 houses obtain water from this source.

During the dry seasons, or occasional breakdowns, the pumping system is still used for auxiliary purposes, and the area is supplied from the low service supply. However, with the increase of 200 houses in the area, the original pumping unit, having a capacity of 100 gallons per minute, was insufficient for satisfactory service, so this year, the station was brought up to date with heavier equipment, increasing the output to 250 gallons per minute pumping into a reserve tank of 40,000 gallons.

New Equipment

New equipment in 1957 included a Hough backhoe with bucket combination, and new 125-foot Jaeger air compressor. Both units cost the department \$15,300.00.

Ammonoosuc Pipe Line

Work was started this year replacing some of the wooden pipe line to Godfrey Dam. The total length in the area to be replaced is 40,211 feet. The present pipe in use now is constructed of wooden staves, held together with steel hoops. This was installed in 1927. The work we have been doing consisted of the cutting and burning of 30 years accumulation of brush and small timber, building a road through 3000 feet of swamp area, laying a temporary pipe line on the ground surface, removing the old wooden stave pipe line, and replacing it with 20-inch transit water pipe at a cost of \$54,000.00.

Another replacement was started on the West Milan highway in front of the new Lavigne's Red Wing Express terminal. Three thousand feet of 16-inch cement lined cast iron pipe was purchased for this work. Six hundred feet was laid during the late fail on the easterly side of the new roadway. The balance of 2,400 feet is in stock and will be installed in the early spring. \$20,100.00 was expended to date on this work.

In addition to improvements made on our Ammonoosuc supply line, approximately 2 miles of new water mains have been laid within the City limits at an additional cost of \$48,800.00.

Funds to finance improvements during the year were realized through a \$200,000 bond issue for a ten year period, interest rate 3.1%.

Financial

We still have \$90,000.00 on principal due, plus interest on our original \$700,000 bond issue of 1925, final payment of \$30,000.00 will be made in 1960.

Rate Increase

Water rates were increased 20% in January 1957, thus increasing our operating income from \$129,000.00 in 1956 to \$159,000.00 this year. We provided free water for municipal uses, schools, churches, etc., the value of which amounted to an additional \$17,000.00.

We hope that this additional yearly income of \$30,000 will carry us into the year 1960 when final payment of \$30,000.00 will be made on the original plant bonds issued in 1925.

In closing, we again wish to especially thank your Public Works Department for help given us in construction work during the year.

For further details, we refer you to our superintendent's report. Our financial standing will be found in the auditor's report.

Respectfully submitted, GUY J. FORTIER, Acting Mayor, Member Ex-Officio EDWARD MURPHY, Chairman ROLAND J. BRIDEAU, Clerk RICHARD CHRISTIANSEN, Commissioner FRANCIS L. BRANNEN, Commissioner

SUPERINTENDENT'S REPORT

February 17, 1958

Board of Water Commissioners City of Berlin, New Hampshire Gentlemen:

The year 1957 was the second year of long water main extensions into newly developing areas. One hundred and four new houses were connected to the system and 48 old services relaid to the property line.

Precipitation this year of 1957 was 35.61 inches as compared to 35.8 inches in 1956, still about 3 inches below normal.

We had no real water shortage, ample water being available during the usually dry summer months. Water consumption decreased this year by 5%, in spite of the increase in domestic consumption. Total amount registered was 1,054,337,900 gallons, 53,218,700 gallons less than the previous year. The Riverside auxiliary ground water pumping station supplied 45,768,400 gallons of water at a cost of \$30.18 per million gallons pumped.

So great has been the demand for water main extensions and new services that even with the increased income from the 20% rate increase we have not been able to accumulate much in the way of funds for our major needs.

We began the year 1957 with \$2,080 cash on hand, but due to the 1956 expansion program we were obliged to borrow \$25,000 from the City, which we still owed on January 1st, 1957. During the year we paid this sum back and closed the December 31st, 1957 books with \$10,000 cash on hand.

Our operating income of \$159,000 for the year 1957 was distributed percentage wise as follows: 15.7% paid back to the City; 42% for operating expenses; 24% for payments on bonds and interest; 12% for new equipment and 6.3% left in cash at the end of the year.

All new water main extension work was paid for out of the \$200,000 improvement bond issue and amounted to about \$49,000. An additional \$75,000 was used for improvements on the Ammonoosuc pipe line and West Milan Road, leaving us a balance of \$76,000 earmarked for additional improvements. It is interesting to note that cost of water works materials have increased 225% and labor 280% since 1925. During the same period our water rates have increased only 20%. A survey of other water departments throughout the State showed increases in water rates as high as 100%, the average being 45%.

We do not expect the big building program to continue to any great extent during 1958. Many buildings started in 1957 will be completed in 1958, most of which are in new housing developments where water main extensions were made in 1957.

You will note in the proposed 1958 budget that we are planning to build another booster station in the Haskell development on the lower end of Second Avenue. We plan to extend a 6-inch line from Western Avenue to Second Avenue via Hill Street and construct the pumping station on the easterly side of Second Avenue. Areas to be supplied will be Hill Street between Second and Fourth Avenues, Third Avenue between Hill and Haskell Streets and any other new buildings extending westerly.

With the purchase of our new Hough backhoe-bucket combination, we managed to do our work more efficiently during the year, but we still need a bulldozer to be self-sufficiently operative which, please note, we have included in our 1958 budget.

The proposed budget which is attached to this report explains in detail how we propose to spend our operating funds.

In closing, I wish to thank the Water Board and members of my staff for the fine cooperation extended to me during the year.

> Respectfully submitted, ERNEST E. TANKARD, Superintendent

SUMMARY OF STATISTICS

For the Year Ending December 31, 1957 BERLIN WATER WORKS Coos County, N. H.

General Statistics

Population as of January 1956—19,000. Date of construction—Main construction, 1892. Sources of Supply—Bean and Horne brooks, Ammonoosuc river, ground water caisson well.

Mode of supply-Gravity and auxiliary pumping.

Statistics Relating to Distribution System

- 1. Kind of pipe—Cast iron, wrought iron, copper, cement lined wooden stave.
- 2. Sizes-Two to sixteen-inch.
- 3. Extended during year-9,675 feet.
- 4. Total now in use-55 miles.
- 5. Length of pipe less than 4 inches in diameter-17 miles.
- 6. Number of hydrants set during year-One.
- 7. Number of public hydrants-204.
- 8. Number of private hydrants-103.
- 10. Number of stop gates added during year-24.
- 11. Number of stop gates smaller than 4-inch-266.
- 12. Number of stop gates in use-563.
- 13. Range of pressure in mains-30 to 150 pounds.

Statistics Relating to Services, Meters, Etc.

- 1. Kind of pipe—Cast iron, wrought iron, brass, copper and cement lined.
- 2. Sizes-3/4-inch to 6-inch.
- 3. New services added during year-104.
- 4. Total number of services now in use-3,737.

Meters

- 1. Number of meters added for the year-3.
- 2. Number of meters now in use-608.
- 3. Number of meters changed during year-44.
- 4. Number of meters tested-60.
- 5. Percentage of services on meter-15%.

Booster Pumps

 Location—Corner Spring and Guilmette Streets. Manufactured by Lunt Moss Company. Description—Goulds centrifugal, pumps 250 g.p.m. against 200 F. H. Pumps from distribution system into a 40,000 gallon storage

tank on Hillside Avenue. (Pump to be used in an emergency.)

- Location—Near junction of Kent Street and Forbush Avenue. Manufactured by DeLaval Steam Turbine Company. Description—Single stage centrifugal. Direct connected to the distribution mains. Pumps into a 20,000-gallon storage tank on Forbush Avenue.
- Location—Hillside Avenue Extension. Lunt Moss Unit. Description—Single stage 5-H.P., 30-g.p.m. Pumps into a 450-gallon storage tank.
- Location—Corner Petrograd Street and Eighth Avenue. Lunt Moss Unit. Description—Single stage 5-H.P., 30-g.p.m. Pumps into two 315-gallon storage tanks.
- Location—Upper Hillsboro Street. Lunt Moss Unit. Description—Single stage 7.5-H.P. 50-g.p.m. Pumps into two 475-gallon storage tanks.
- Location—Corner Twelfth and Sweden Streets. Lunt Moss unit, Description—Single stage 7.5-H.P. 50-g.p.m. Pumps into three 315-gallon storage tanks.

Purification Equipment

- 1. Chloro-Feeder unit, venturi controlled, in service on Ammonoosuc line.
- 2. Chloro-feeder unit, meter controlled, in service on Horne Brook supply line.
- 3. Chloro-feeder unit, venturi controlled, in service on Bean Brook supply line.
- 4. Chloro-feeder unit, meter controlled, in service at the Riverside pump.

BERLIN WATER WORKS

SCHEDULE OF WATER RATES

Effective January 1st, 1957

Flat Rate

| For first family, per year\$ | 513.20 |
|---|--------|
| For second family, per year | 10.80 |
| For third family, per year | 9.60 |
| For fourth family, per year | 8.40 |
| Bath tubs, each | 3.00 |
| Water closets, each | 6.00 |
| Wash basins, each | 3.00 |
| Maximum rate covering private dwelling house occupied | |
| by one family | 30.00 |
| Offices and stores, faucet | 12.00 |
| Stable | 3.60 |
| Each additional animal | 1.20 |
| Hose, to be used not more than two hours per day, | |
| May 1st to October 1st | 4.80 |

Fountains

| To be used not more than six hours per day from |
|--|
| May 1st to October 1st: |
| For 1/16-inch jet or less\$ 4.80 |
| For 1/8-inch jet |
| All fountains having an orifice or discharge greater than 1/8- |
| inch in diameter, will be supplied water by meter. |

Meter Rates

| Service charge | uarter |
|-------------------------------|--------|
| First 1,500 feet\$ | .36 |
| Next 3,500 feet | .261/2 |
| Next 5,000 feet | .22 |
| Next 10,000 feet | .18 |
| Next 20,000 feet | .141/2 |
| Over 40,000 feet | .12 |
| Minimum yearly meter charge 3 | |

Report of Fire Department

PUBLIC SAFETY

I hereby submit the annual report of the Berlin Fire Department for the year ending January 31, 1958.

During the year the department answered 415 calls: 117 calls for fires to buildings and contents; 17 fires to mills or shops; 50 grass or brush fires; 23 dump or rubbish fires; 14 automobile fires; 24 false alarms; and 36 miscellaneous calls such as removing ice off public buildings roofs, locked doors, spraying rag-weed solution, etc. The department ambulance was called 134 times.

The department travelled 1,258.3 miles and worked 213 hours and .03 minutes on the above calls and used the following equipment and material; 13,600 feet of $2\frac{1}{2}$ -inch hose; 2,700 feet of $1\frac{1}{2}$ inch hose; 15,330 feet of 3/4-inch hose (booster pump line) 23,077 gallons of water from booster tanks; 970 feet of ladders; 42 pounds of extinguisher dry powder; the smoke ejector was used 7 times; chimney weight 4 times; lighting units 5 times; indian pumps 23 times.

A new fire truck with four (4) wheel drive was purchased in 1957 and will be delivered within six months. It will be of great help, mainly during the winter months and for climbing hills.

I recommend that the City consider a Peerless transmitter equipped with ground rods and an air whistle, as our present air whistle cannot be heard in some parts of the City, due to the increase of suburban areas. I also recommend the replacement of our ambulance, the present one being obsolete for the number of calls we have to make each year. It should be replaced before we have an accident responding to a call.

I wish to express my sincere appreciation and gratitude to the late Mayor, Aime Tondreau, to thank His Honor, the Acting Mayor, Guy J. Fortier, members of the Fire Committee, members of the City Council, other City Departments and all other citizens who helped in any way during the year.

Respectfully submitted,

O. B. BERGQUIST,

Chief

REPORTS OF DEPARTMENTS 73

EXPENDITURES FOR 1957

| Salaries, permanent men | \$123,961.65 |

L. LAURIER ROUSSEAU,

Tax Collector

Report of Public Works

To His Honor the Mayor and City Council Berlin, New Hampshire

Gentlemen:

I herewith submit the annual report of the Public Works Department for the fiscal year ending January 31, 1957.

Before I start my report I want to commend the men in the Public Works Department for their fine work in combating the never ending snow fall that we had during January and February of this year. (Even though many of the public did not realize that Berlin had a record precipitation for the month. We did manage to keep all the roads and streets open but at some times they were very narrow and hazardous.

Most of the public realized this and gave us a chance to get around but many thought that we are miracle men and kept the telephone lines hot for some time with unwarranted demands.

Now again I want to thank the Public Works men and other departments for their fine cooperation and hope that it will continue in the future.

Engineering

The year 1957 saw three years of planning and designing of your Public Works Department and State of New Hampshire Roads and Highways, in the new Glen Avenue road coming to reality, constructed by the Weaver Brothers of Concord, New Hampshire, contractors.

Also plans for the lighting of the Airport and new master plans for the Airport are now nearly completed.

The plans for the Green Street Underpass and extension of Glen Avenue Road up to the intersection of Glen Avenue and Pleasant Street are now in the making and should come into reality around 1960. The department also carried out the regular engineering work that is usually carried out by this department.

Clean-up Week

The week ending May 11th was set aside and known as Cleanup week in the city and an extension of time was necessary to carry all the trash to the city dump. Seven trucks were kept busy for the better part of three weeks to accomplish this work.

Street Sweeping

The usual sidewalk and street sweeping was carried out by hand and by the mechanical street sweeper during the summer months, in fact it was used on two shifts during the greater part of the summer.

Concrete Pipe Plant

The concrete pipe plant was operated this year during the spring and fall months but had to be shut down during the summer months because of the great amount of work that had to be done outside.

Patching Streets

Several crews were kept busy this past year patching our streets and a total of 1608.195 tons of cold patch was used.

Rubbish and Ash Collection

Rubbish and ashes were collected as usual during the year with extra trucks used most of the year. During the coming year we hope to start sanitary land fill for the disposal of garbage to eliminate the rat and smoke nuisance that now exists at our dumps. This of course will add to the expense of garbage disposal but I think it will be worth it to the people living in the approximity of this section. The cost of garbage and refuse collection during 1957 was \$50,487.00.

Sanding Streets and Sidewalks

Sanding of sidewalks was carried on by the Public Works crews as usual but street sanding was kept to a minimum because of surfact water drainage running into our sewer system and sand in previous years has caused no end of trouble.

Hot Topping

Our new Glen Avenue road was paved with hot asphaltic concrete. Also part of Coos Street was reconstructed and paved. East Mason Street was paved from the East Mason Street bridge to Burgess Street. \$13,906.00 was spent to cover and seal some of our broken and damaged sidewalks and to construct some new ones.

Snow and Ice Removal

The snow and ice removal has proved to be quite a load at times this year, especially during the month of January when the precipitation set a new record for the month of January, according to the weather bureau. Even with the new and improved Sno-Go purchasd by the city the load was tremendous and at times the Public Works crews worked around the clock trying to keep streets at least open for one way traffic, with very little cooperation from some of the public which made operations doubly hazardous. A total of \$70,382.95 was spent this year for snow and ice removal.

Sewer and Water Drainage

During the year of 1957 the Public Works Department was again heavily laden with work due to the continued amount of new home building within the city and mainly because most of the building was on new developments requiring the building of an enormous amount of streets and sewer lines and renewing some of the old lines which were too small to carry the increased load.

Approximately four (4) miles of sewer and surface water drainage was laid and in some cases they had to be put in through solid ledge requiring a great deal of drilling and blasting. Also 96 manholes were constructed and 67 catch basins were installed in different sections of the city.

City Cemeteries

The regular care of city cemeteries was carried on throughout the year as usual and several more lots were filled in to make them available for burial. Winter burial has now become a matter of policy rather than the use of the vault, so our vault has had very little use this year. The cost of care of the cemetery during the year 1957 was \$3,085.84.

New Equipment

The following equipment was bought by the Public Works Department during the year 1957:

- 1 Insley Backhoe and Shovel
- 1 Dodge Utility Truck
- 1 Mack 30,000 GVW Truck
- 1 International 25,000 GVW Truck
- 1 1957 Sedan Ford
- 1 1957 Chevrolet Pickup Truck

Tarring Streets

A total of 73,245 gallons of MC3 and MC2 was used to resurface our old streets and MC1 was used on our new gravel streets. The State Highway hone was again used this year to smooth up some of our broken streets while they were being resealed.

Bridges

The Y. M. C. A. bridge was given a badly needed sandblasting and painting and a small bridge was constructed from the parking area to Main Street near the Public Service dam.

The Mason Street Bridge should get a sandblasting and paint job this coming year.

EXPENDITURES FOR 1957

| | Appropriation | \$410,000.00 |
|----|--------------------------|--------------|
| 1 | Airport\$ | 6 43.71 |
| 3 | Blacksmith Shop | 1,535.97 |
| 5 | Cemetery | 3,085.84 |
| 6 | Garage | 75,569.23 |

| 19 | Street Maintenance | 155,137.72 |
| 20 | Sewer Maintenance | 112,910.39 |

| 22 Construction and Maintenance Overhead | 25,852.81 | |
|--|--------------|-----------|
| 23 Engineering | 2,649.91 | |
| 24 Storehouse PWD | 5,747.81 | |
| 26 New equipment | 29,022.86 | |
| 27 Concrete Pipe Plant | 2,198.15 | |
| Miscellaneous and Preventive Maintenance | | |
| | \$565,902.84 | |
| Credit for rental of equipment charged | | |
| to various jobs | , | |
| Total Expenditures | \$457,826.07 | |
| Other Credits | | |
| Amount Spent, less credits | \$429.401.60 | |
| Budget Allowance | | |
| Overdraft | \$ | 19,401.60 |

In conclusion, I wish to state that I feel that the department accomplishments this year have been many and I wish to thank everyone that has had anything to do with the successful year in the Public Works Department.

Respectfully submitted,

C. J. BRUNGOT, Commissioner of Public Works

Report of Auditor WATER WORKS

February 24, 1958

To the Board of Water Commissioners City of Berlin, New Hampshire Gentlemen:

I have examined the balance sheet of the Berlin Water Works as at December 31, 1957, and the related statement of income for the year then ended. My examination was made in accordance with generally accepted auditing standards and included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances, except as follows:

In conformity with prior practice, the earnings for the year include only charges accumulated at the regular billing dates, and unbilled revenue at December 31, 1957 has not been accrued. Also, a check of the 1958 invoice files indicated approximately \$7,700 of 1957 invoices which have not been included in accounts payable in this report. As in prior years, the value of insurance premiums unexpired at December 31, 1957 are not included in the balance sheet.

My examination did not include a detailed check of meter readings and service records supporting the billings to customers. I was not present at the taking of the physical inventories of materials and supplies, but I verified the mathematical accuracy of the inventory submitted to me.

In my opinion, subject to the foregoing exceptions, the accompanying balance sheet and statement of income present fairly the financial condition of the Berlin Water Works as at December 31, 1957, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

> LEO J. CAMPAGNA, CPA, City Auditor

Auditor's Report

March 6, 1958

To the Honorable Mayor and City Council

Gentlemen :

I have examined the balance sheet of the City of Berlin, New Hampshire, as at January 31, 1958, and the related statements of revenue and expenditures for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

In my opinion, the accompanying financial statements fairly present the financial condition of the City of Berlin as at January 31, 1958, and the results of its operations for the year then ended.
