REPORT OF THE LIBRARY TRUSTEES

The library building has been painted on the outside, its front steps have been repaired, as well as the bulletin board and two new bookstacks have been purchased and are now in use. A book depository has been mounted on the front door for the convenience of the public.

Mrs. Sherman Brickett is our appointed delegate to the bi-monthly meetings of the State Library Association of which we are now a member. Member libraries derive such benefits from the association as discounts, free cataloguing of books, and advice and help in developing and keeping a working assortment of books.

The trustees extend the thanks of the town to Mr. George Vigneau who, after twelve years of vital interest and devoted services, has resigned from the board.

They wish to thank the Friends of the Library for their interest and help in the betterment of the library. They have added to the beautification of the grounds by planting bulbs for us all to enjoy.

The donation of books by townspeople have helped to round out the widening assortment and are very welcome.

THE FRIENDS OF THE LIBRARY

One of the primary goals of the Friends of the Library is to improve library facilities for the townspeople. To this end, the Friends have donated money from their treasury for the recaning of chairs and for a book drop. They have assisted the librarians in repairing and Cataloguing books. Through their efforts many books have been donated to the library.

The Friends are also concerned with the physical appearance of the library. A flower-planting project was initiated in the fall; the results will be visible this spring. The Friends purchased and set up the Christmas decorations for the Town Library.

In order to stimulate interest in the library, the Friends present interesting programs each month. Exhibits of various kinds are put on display monthly. For the town children, the Friends have sponsored a book

review contest and a weekly story hour.

All townspeople who wish to assist in the betterment of our library facilities are invited to join the Friends.

FIRE DEPARTMENT REPORT 1966

The year 1966 has been a very busy one for the men of the Volunteer Fire Department.

Besides the duties of fighting fires and keeping the station and equipment in top shape, we have made the following improvements.

We purchased a new ten horse powered siren at a cost of \$1,400.00; two Air Packs, which are used to enter a cellar or house filled with smoke, at a cost of \$588.00; a portable generator for auxiliary lighting at

a cost of \$200.00; and 800 feet of new 2½ inch hose, and 400 feet of 1½ inch hose. We recently finished building a new hose rack in the station to put this hose on when not in use.

The men of the department have worked hard to acquire this equipment for your protection, as well as running four suppers to help us financially.

The Ladies Auxiliary deserves a great deal of thanks for all the assistance they give us; financially or giving of their time, when the call arises, for serving coffee and refreshments .

In the way of special assignments, the Department assisted the Hampton Fall Police Department last November 10th in a man hunt for a missing patient from the Plimpton Nursing Home, the search being carried out for three days.

I am proud of the men in the Department and hope that we can serve you, the townspeople, as well in the coming year, 1967.

The officers and men invite anyone interested in helping the Department or just wanting to visit, to drop in anytime.

Regular business meetings are held the first Tuesday of every month and all other Tuesday nights are work parties.

Eugene A. Heal, Chief

**REPORT OF THE LADIES' AUXILIARY
HAMPTON FALLS VOLUNTEER FIRE DEPT.**

The Ladies' Auxiliary wishes to report that we have been very successful in financially assisting our Volunteer Fire Department this year.

We have given to date, to our Volunteer Fire Department the sum of \$800.00. This money was raised from our annual dance, whist parties, catering services, food sales, raffles, and the Fire Wardens' supper.

Our membership has continued to increase and we would like to take this opportunity to thank all those who have assisted us in our efforts to help our Volunteer Fire Department.

Secretary, 1966

As Chief of Police of Hampton Falls, I submit this report to you, having discharged my duties to the best of my ability and hope that the town has realized the difficulties encountered this past year as listed in the foregoing report.

Not listed in the report was much appreciated help received from neighboring communities, local volunteers, State and U. S. Federal Governments. The amounts expended by the above listed parties amounted to well in excess of \$4,500.

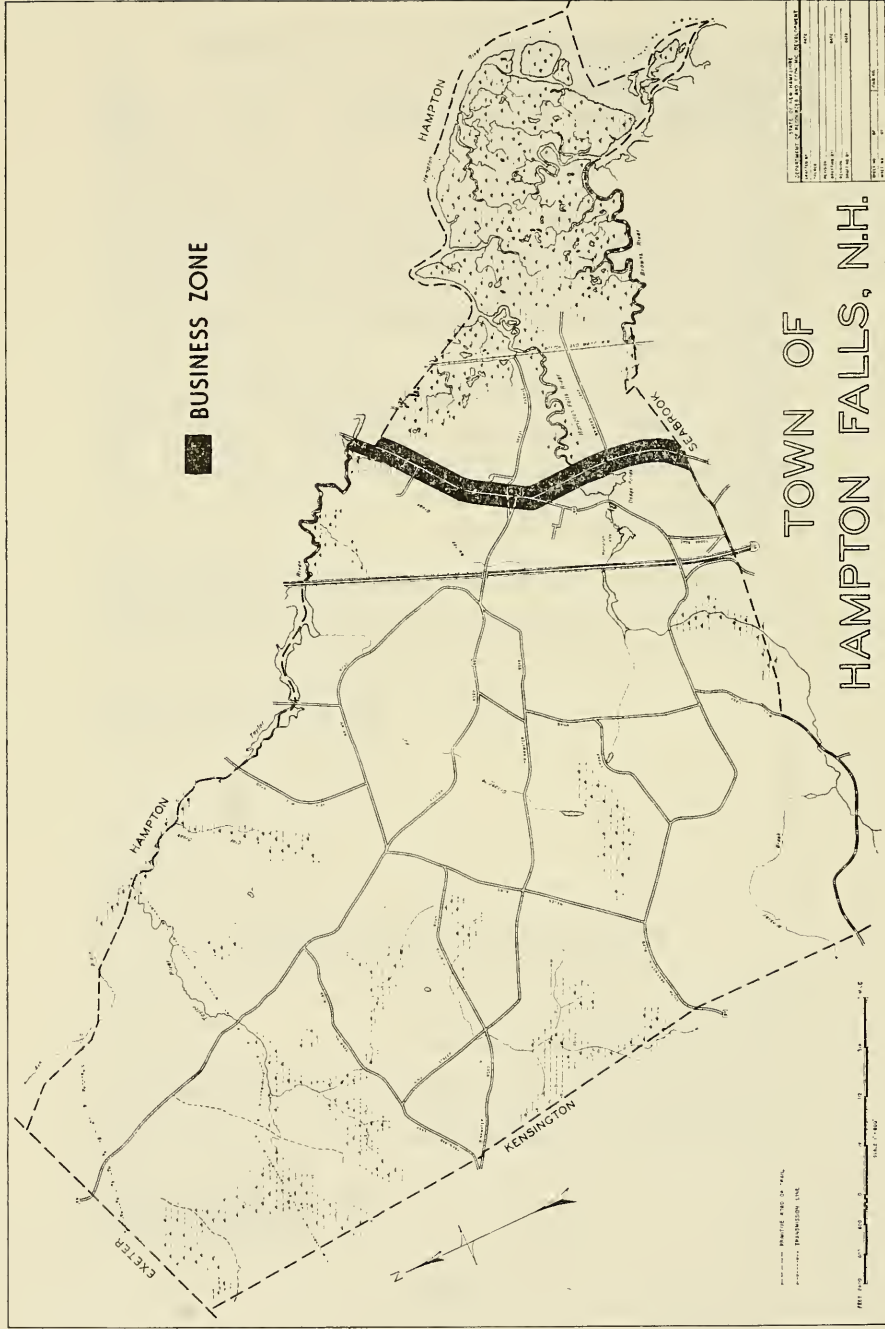

Unfortunately, we found it impossible to stay within the budget as appropriated, due to the numerous unforeseen problems which arose during the past year.

HAMPTON FALLS SCHOOL WARRANT
STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Hampton Falls, in the County of Rockingham, State of New Hampshire, qualified to vote upon District Affairs:

You are hereby notified to meet at the Town Hall in Hampton Falls, on the Tenth Day of March 1967, at Four P.M. in the afternoon, and to cast ballots for candidates for the following District Offices:

1. Moderator for the ensuing year.
2. Clerk for the ensuing year.
3. Member of the School Board for the ensuing three years.
4. Treasurer for the ensuing year.
5. To choose Agents, Auditors, and Committees in relation to any subjects embraced in this Warrant.

You are also notified to meet at the same place at Eight O'clock in the evening of the same day to act upon the following subjects.

6. To see what action the District will take in relation to reports of Agents, Auditors, Committees, or Officers chosen.
7. To see if the District will vote to authorize the construction and equipping of additions to the Lincoln Akerman School and alterations to the existing plant for use for school purposes; to provide such school facilities as have been generally

described in certain preliminary drawings by Douglas Prescott, Architect, and further to see if the District will vote to raise and appropriate a sum not to exceed Sixty-One Thousand Dollars (\$61,000.00) for such purposes, and whether the District will vote to raise such sum through issuance of notes and - or bonds upon credit of the District for all or any portions of the sum so raised and appropriated and will vote to authorize the School Board to negotiate, and issue such notes and bonds, and to fix the rate of interest and all other terms thereof, and to take such other action as may be required to effectuate the purpose of this vote in accordance with the provisions of the Municipal Finance Act RSA Chapter 33 and any amendments relating thereto and to see if the District will vote to authorize the School Board to make applications for and to accept, on behalf of the District, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and the United States Government or any agency thereof, or take any other action in connection with the foregoing matters, or any of them, which may be desirable or necessary.

Note: Although this article calls for a total appropriation of \$61,000, the School Board proposes to issue bonds for \$55,000 and take the remainder from the capital reserve fund established for this purpose (see article 8 below). The proposed building and estimated costs are described on a separate building brochure.

8. To see if the District will vote to authorize the School Board, as agents of the District, to withdraw such capital reserve funds of the District

as are being held in trust by the Trustee of Trust Funds for the purpose of "constructing and equipping an addition or additions to the Lincoln Akerman School and alterations to the existing plant."

Note: For two years the voters, by District vote, have placed money in the named capital reserve fund. Approximately \$5,320.00 is in this fund and the School Board proposes to now use this money toward completion of the school addition (see article 7 above).

9. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of School District Officials and Agents, and for the payment of statutory obligations of the District.
10. To transact any other business that may legally come before said meeting.

Given under our hands and seals at said Hampton Falls this 10th day of February 1967.

Report of the Superintendent of Schools

To the Members of the School Board:

I herewith submit my first annual report to school board members and citizens of this school district.

My duties as superintendent of schools officially commenced on September 15, 1966. This date was set jointly by the Portsmouth Board of Education and the School Boards of Supervisory Union No. 21

Shortly after my appointment in August, I was extended several invitations to visit schools and attend school board sessions as well as participate in the week-long meetings of your school principals and administrators later in August.

Early in my tenure here I came to realize that you have been and are sincerely interested in providing a quality education for your children. I have observed your school staff as ambitious, dedicated and cooperative professionals.

However, we must not become complacent in thinking that all must remain the same - - not in this day and age of rapid change. Already we are at work locally as professionals in studying our curriculum to keep it in focus with day-to-day advances. A good school system incidentally is judged by this very factor, among others. At this writing we are studying our social studies curriculum, modern foreign language program, art and music programs with the hope of providing needed continuity in all grade levels.

A great deal has been reported to you in the area of federally assisted programs under the Elementary and Secondary Education Act of 1965 (PL 89-10). Suffice it to say that our local school districts have benefited tremendously from these programs. Early in January, 1967 one phase of our Title I program will begin under the direction of Miss Sweetser. This program will provide small group instruction to students who have been identified as "educationally deprived" in need of special help in the academic areas. Statistics and experience tell us that these are the children whose number is rising and who get short - changed, educationally speaking, in the regular classroom of 30 to 40 children.

Title II is continuing to enhance our libraries. I may add here that I am impressed with the emphasis Hampton Falls has placed on improving library facilities and services. So vital to a good school, the library paves the way for increased knowledge and skills and, it is hoped, creates an awareness and interest in reading for pleasure.

Under Title III we are involved in two projects locally. In Cooperation with WENH-TV, Channell 11, in Durham, a grant was authorized which provided up-dated in-service education for teachers in Art and Science. The Instructional Materials Center under the able direction of Mr. Brooks is directly responsible for instructional improvement at all levels. I see evidence of the Center's influence each time I visit schools and classrooms. Through this facility teachers have come to realize that teaching methods can and must change. The learning rate of our students has gained speed and momentum with each passing day. We therefore are charged with adjusting our program accordingly.

The nation's school population is growing with each school year. Here in Hampton Falls we are feeling the

effects of the need for additional classrooms. We find ourselves in this dilemma due to housing problems in Hampton. I think it wise indeed for Hampton Falls to retain its sixth graders locally. By so doing we will need additional classroom space. Your school Board members and school administrators are presently preparing the way for what will be adequate additional facilities to meet this need.

With the coming of a new set of elementary school guidelines in New Hampshire 1, we are committed to the principles of sound planning and true evaluation of what future elementary school buildings should be like if we are to meet the many new challenges facing schools in the '60's.

1. Guidelines and Recommendations for New Hampshire Public Elementary Schools (K-6) Department of Education, Concord, N. H., 1966.

It has been and always will be my sincere intent to keep the public informed about local, state and national educational affairs. It is my job to keep school board members informed of developments regarding organization, programming and staffing of schools under their jurisdiction. My affiliation with several national, regional and state educational groups assists me in passing on much information which applies to our local school problems.

Since there has been and should be a continued interest in consolidation of school districts in this state as well as in the nation, the reactivation of the Co-operative Study Committee seemed advisable early in my tenure here. A reorganization session has been held with appointed representatives from Hampton, Hampton Falls and North Hampton present. Future meetings of subcommittees have been set for early January and

February, 1967. I expect that the results of the research will be of interest to all residents of Hampton Falls.

This supervisory union has been conducting two special education classes offered to those young people who have learning disabilities. While this type of program may be called expensive by a few of our critics, your school administrators are convinced that we must continue to offer special programs geared specifically to ability and achievement levels. The Town of Hampton has housed these classes for the past few years.

Our school enrollment figures, based upon December 23, 1966 are presented below:

Grade	No. Pupils
I	23
II	27
III	26
IV	14
V	27

Tuition pupils are listed elsewhere under school statistics.

The past few months have been challenging ones for me. They have been quite revealing for I have observed dedicated and competent staff members at work in each building. Our schools administrators are providing the kind of assistance, implementation and supervision of curriculum and personnel that makes for a most satisfactory school system.

I have high admiration for the unselfish manner in which individual school board members carry on their difficult and time-consuming roles as public servants - - their interest and dedication is commendable.

The Supervisory Union Office Staff is deserving of a great deal of praise for the efficient manner in which

they carry on the business affairs for eight separate school districts.

Respectfully submitted
Paul L. O'Neil
Superintendent of Schools
