FOREST FIRE WARDEN'S REPORT

During 1979, there were three grass or brush fires in Stewartstown resulting in a total burned area of less than one-fourth acre. Of these three fires, the state paid half the suppression cost of two. The cost of extinguishing the third fire was paid by the party responsible for its ignition.

Residents are reminded that permits are required by law, for all outside fires when there is no snow cover. This includes outdoor fireplaces and incinerators for which season permits are granted. Permits may be obtained at no charge from your warden or from Deputy Wardens, Howard Carney and E. Hampton Roy.

I wish to express my appreciation for the cooperation I received during the year from the deputies; from the Beecher Falls and Colebrook Volunteer Fire Departments; from District Chief Bing Judd; and from the residents of the town. Without this cooperation our fire losses could have been much more serious.

Good fire prevention is better than good fire suppression.

Respectfully submitted,

GARY RICHARDSON
Forest Fire Warden

Upper Connecticut Valley Hospital Board of Directors

PRESIDENT'S ANNUAL REPORT

Another year is just about to come to a close, and many progressive actions have occurred in this area's health field.

The Board of Directors was very pleased to welcome aboard four new physicians - three internists and one surgeon - all board certified; plus two nurse practitioners. The new medical personnel are located in the Medical Center, which was built and opened its doors this year. Practicing physicians in the area now number seven. Also, a satellite medical clinic has been opened on a limited basis in North Stratford, manned by nurse practitioners and physicians.

The hospital is in the planning stage of opening an Intensive Care Unit which will be staffed by trained Intensive Care Nurses. Plans are also in process for expanding the laboratory area. The Operating Rooms are being used on a much larger scale, thanks to our surgeon - and our medical staff for their referrals. Furthermore, the hospital is now using a computer program that is installed in the hospital business office for billings, payroll, and other accounting functions. All of these developments are steps forward in bringing you, the public, better health care within the area.

The Board of Directors has tried to keep the cost of hospitalization to the lowest possible percentages of increase while still delivering high quality health care. However, room rates and costs of other hospital services had to be raised about 8.4 percent to meet rising costs. As we all know, the cost of heating fuels, food, electricity, and other manufactured goods has risen, along with labor costs and wages. Therefore, in order for your hospital to meet these rising costs, higher charges were necessary. To put this in perspective, it is like a wet snowball travelling down a mountain side - it gets larger as it nears the bottom! You may ask, "Since the charges are high enough at the hospital, why can't they pay their expenses without raising prices?" Well, there is another reason why hospital costs are high.

Not all people carry medical and hospitalization insurance. In this geographical area the ratio is about 20 percent uninsured. Then, some of the uninsured are unable to pay, or unwilling to pay, a hospital bill. Add to that the fact that the U. S. Government stipulates that we must write off a percentage of outstanding bills, as the hospital is a non-profit corporation.

So, in essence, this all helps to keep the costs up, as we the Board see this with our yearly budgets. Somewhere down the road there has to be a "Slow Down" sign. Otherwise medical treatment will be next to prohibitive. We endeavor to keep costs down as much as possible, but not to the point of jeopardizing good medical judgement and health care. We are looking forward to another year of continued quality care for the area.

Sincerely,

MARTIN G. HEWSON
President

STEWARTSTOWN SCHOOL DISTRICT

WARRANT

The State of New Hampshire

To the Inhabitants of the School District in the Town of Stewartstown qualified to vote in District Affairs:

You are hereby notified to meet at the Town Hall in said District on Tuesday, the 11th day of March, 1980, at 10 o'clock in the forenoon at which time the polls will be open, followed by the business meeting at 2 o'clock in the afternoon, to act upon the following subjects:

1. To bring in your ballots for the election of School District Officers to be elected by ballot for the ensuing year(s).
2. To determine the salaries of the Officers and fix the compensation of any Agents of the District.
3. To hear the reports of Agents, Auditors, Committees or Officers chosen and pass any vote relating thereto.
4. To see if the District will vote to authorize the School Board to make application for and to accept, on behalf of the District, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or the United States.
5. To see if the District will vote to authorize the School Treasurer, with the approval of the School Board, to appoint a Deputy Treasurer, said Deputy Treasurer to have the same powers as the Treasurer pursuant to RSA 197:24-a.
6. To rescind Article 4 passed at the Annual School District Meeting of March 4, 1975.
7. To see what sum of money the District will vote to raise and appropriate for the purchase of a school bus and to authorize the School Board to purchase same, the School Board to determine, in its discretion, the type of bus to be purchased and the route or routes to be serviced by same.

SUPERINTENDENT'S REPORT

This year's report will focus on the academic performance of pupils in School Administrative Unit No. 7.

A great deal of public concern has been expressed in past years regarding declining scores of the S.A.T. college entrance examinations in the areas of English and Mathematics and also the decline of basic fundamental academic skills in the public schools. Responding to this concern School Board members in the local school districts agreed to conduct annual formal evaluations of academic skills in grades 1-11. Tests being used to conduct this evaluation in grades 1-8 are the Metropolitan, Stanford and S.R.A. Achievement Tests, and the California Test of Basic Skills for grades 9-11.

It should be emphasized that no one single achievement test or basic skills test can accurately measure an individual pupil's true overall academic ability or potential. From a classroom teacher's viewpoint, however, what the tests can indicate over a number of years are the strengths and weaknesses that a pupil may have in the areas tested. From an administrative view, group test scores or entire grade test scores give an indication of how well local pupils at a particular level are performing in various academic areas when compared to a national standard.

The general areas tested are Reading, Mathematics, Social Studies, Language Arts, Science and Reference Skills. The general area of Reading evaluates skills of reading comprehension and vocabulary. Reading Comprehension skills are evaluated in terms of being able to restate given material, putting written material in proper sequence and summarizing, being able to draw an inference from a written passage or applying the concepts read to new situations, and also recognizing logical relationships.

The areas of Language Arts evaluates skills in capitalization, internal punctuation, external and special punctuation, identifying parts of speech, and also skills in spelling.

The Mathematics area evaluates skills in math concepts which covers numeration, operations, problem solving, geometry and measurement. Math computation skills are also evaluated and covered in this category are skills involved in adding, subtracting, multiplying and dividing whole numbers, fractions, decimals and percents.

The Social Studies area evaluates skills in map reading, interpretation of pictures and graphs, geography, history, political science, sociology, anthropology and reading.

The Science area evaluates knowledge of living things and relationships, matter and energy, earth and space, experimentation, charts and tables, and reading.

The area of Reference Skills evaluates skills in usage of the dictionary, table of contents, index, references, catalog cards, maps, charts, graphs, research and general library skills.

The following test results for the school year 1978-79 for grades 2-4-6-8 are submitted for the Stewartstown School District. Group or grade performance is measured in terms of a National Stanine Score. A National Stanine Score of 1-2-3 is below average, 4-5-6 is average, and 7-8-9 above average.

GUIDANCE COUNSELOR'S REPORT

This past year Project C.H.O.I.C.E., the federally funded Career Education Program, finished writing the curriculum for grades 2, 4 and 8 and had them approved by the State Coordinator. The On-Site Visitation Committee, which reviews the program annually, was most impressed with the atmosphere of cooperation between the public and non-public facilities in the District and also the spirit of dedication radiated by the teachers involved in the project.

In the current school year the program curriculum will be implemented in grades 2, 4 and 8 on a unit basis. As recommended by the state committee, the teachers of grade 6 will design, write and try out a curriculum on Career Education for their grades.

This past summer, under the direction of Richard Bond, groups of students from grade 8 of Colebrook Elementary wrote, produced and videotaped programs dealing with careers in Forestry, Fish and Game occupations and Hotel work. All these tapes featured local people and their work.

The program, affording all parents of eighth graders an opportunity to confer with the Guidance Counselor regarding their children's subjects for high school, was expanded to include all schools in the district. The success of this program assures its continuance in future years.

Finally, the breakdown of the placement of the Class of 1979:

| | |
|--------------------|----|
| Four-year college | 7 |
| Two-year college | 6 |
| Business college | 3 |
| Vocational college | 8 |
| Armed Forces | 5 |
| Marriage | 1 |
| Gainful Employment | 43 |
| Seeking Employment | 3 |

SCHOOL HEALTH REPORT

Both Stewartstown and Pittsburg have health programs that strive to maintain high health standards. Combined efforts of parents and school are what makes them work.

Dr. Marjorie Parsons and Dr. William Gifford, our school physicians, once more provided their professional advice for our students.

Our health team provides the following services:

1. Height and weight checks
2. Hearing and vision testing
3. Physical exams for students in grades 4, 8 and 11. (Also those participating in sports and new students.)
4. Tuberculin testing as needed
5. Immunization clinics
6. Urine testing for grades 4, 8 and 11 and offered to any of diabetic history
7. Scoliosis screening for grades 5, 6 and 7
8. First aid and emergency care
9. Phone and letter contacts for follow-ups
10. Home visits
11. Encouragement and aid in promoting good mental health
12. General health instruction and supervision

North Country Education Services provides speech therapy for students needing assistance.

Sight Conservation is still available to our students. It is a program that lends financial aid when needed for vision examinations and glasses.

Bureau of Handicapped Children provides orthopedic examinations and followups.

New Hampshire Division of Public Health sponsors a pre-school vision and hearing clinic in mid-May for early detection of problems.

Students in grades 1-6 in Pittsburg and in grades 1-8 in Stewartstown participate in a Fluoride Rinse Program. This is presented by the New Hampshire Bureau of Dental Health. The purpose of the program is to develop good oral hygiene habits and eliminate plaque.

Portsmouth Rehabilitation Center provides a mobile unit for our area. They evaluate students having failed school screenings for hearing.

Upper Connecticut Valley Mental Health Services provides professional services for our students.

Parents of pre-school children should please remember that there are requirements for first grade entry. Failure to comply with the requirements could mean having your child excluded from school. Therefore, we urge you to take advantage of the various pre-school clinics held in the area. The requirements are as follows:

1. Physical examination
2. Tuberculin test
3. Diphtheria, pertussis and tetanus vaccine series (5 needed)
4. Oral polio vaccine series (5 needed)
5. Rubella (German measles) vaccine
6. Rubeola (measles) vaccine.

STEWARTSTOWN

TITLE I PROGRAM

Title I money is used to assist St. Albert, the Hollow and the West Side Elementary Schools with the Reading Program.

Each fall, students' achievement tests are surveyed to determine their needs. Any child who is one level or more below his grade in reading and spelling skills is admitted into the program and additional testing is conducted to determine exact weaknesses. Follow-up testing is also conducted in the spring to determine growth. Participation by parents is encouraged and reports from the teachers go out twice a year to show the children's progress. Throughout the school year the Title I staff and director confer with parents and classroom teachers to evaluate the progress of each child.

At present the Title I Program encompasses 11 students at St. Albert, 7 at the Hollow School and 18 at the West Side. Twenty-nine students from all three schools are involved in spelling skills. The time spent with each pupil varies from 50 minutes to 2 hours per week dependent upon the needs of the pupil.

The main objective of the program is for 80 percent of the children to increase their growth rate 60 percent by June in areas of understanding, word attack skills and oral reading. It is expected that comprehension skills, especially inference, character analysis, predicting outcomes, mood time span, cause and effect, story setting and determining the main idea, will show improvement as a result of this program. It is also anticipated to increase word knowledge through exercises with word definitions in context as well as in isolation. Stress on spelling is also included in this area. We also hope to instill positive self-images and self confidence by providing successful reading experiences.

Various new skill books are being used this year for vocabulary development, reading comprehension and phonetic skills. A set of books on the subject of sports is a good motivation to increase reading for pleasure. A new kit including great literature stories with cartoon illustrations introduces famous authors and their works. A book corner has also been set up in the Title I Room including books on a variety of subjects to encourage outside reading. These books are circulated throughout the three schools and may be taken home to be enjoyed.

As an added feature this year, Mrs. Raymond and Miss Ryan plan to create a puppet theatre. The students will view a filmstrip about making puppets, plays will be selected and puppets made. The purpose of this activity is to motivate reading skills for both purpose and pleasure.

Mrs. Raymond and Miss Ryan deserve a great deal of applause for the Title I Program they are conducting and also for doing their utmost to help these children. The help and assistance they give to the various schools is greatly appreciated.

A special effort has been made this year to stimulate involvement in the Parent Advisory Committee. Parents have been urged to attend meetings to become more informed of what Title I involves and also parents' responsibilities to that program. Future meetings will include a speaker on parents' rights, a display of student activities in Title I and also a meeting for evaluating the program.

I wish to thank the parents, Board Members and Superintendent Dehl for their help and guidance in making the program a worthwhile success. We're happy to have parents visit Title I "in action."

Respectfully submitted,

ADDIE E. GRAY, Director
Stewartstown Title I ESEA
