SELECTMEN'S REPORT

The General Fund of the Town of Bridgewater at the close of fiscal 1978 is again in good condition, with a balance of \$1,817.00. The long term debt now stands at \$17,000.00.

With the acquisition of the Willoughby land on the River Road, the new Highway Garage, and the return of the River Road Schoolhouse to the Town, the physical assets of the Town have been greatly increased over the past few years. The school house is currently being used as a Community Center, Library, and Town Clerk's Office. The Clerk is now holding regularly scheduled office hours, being Monday and Wednesday evenings 7:00 to 8:30 P M, and the first and third Saturdays 1:00 to 3:00 P M.

Any responsible group wishing to use the available space may contact Mrs Kenneth Raymond.

An article has been included in the Town Warrant for the final payment on the Willoughby property, and an item in the Budget for the sum of \$1,000.00 for the Conservation Commission to further develop the property. Details will be found in the Commission's report.

The Selectmen have been receiving an increasing number of complaints concerning unreasonable speeding on some of the Town Roads, particularly in the Whittemore Point and Dick Brown road areas. In order to cope with this situation the Selectmen made application for Federal Funds toward the purchase of a Radar unit for the Police Department. Properly posted speed limit signs have been stolen outright, vandalized, or simply ignored. The Police Department has been instructed to issue not more than one warning per person, and to prosecute subsequent violations.

Another police related problem has been motor vehicle parking on the roads during the winter months which have caused problems with the snow plowing operations. The Selectmen have enacted an ordinance prohibiting parking on the town right-of-way from November 1st until April 1st. Vehicles will be towed away at the owners expense and are also subject to a fine of Twenty Dollars if found in violation.

An article in the Town Warrant asks the sum of \$1,500 from the Revenue Sharing Fund be used for improvement to the Town Buildings. The condition of the Town buildings has been somewhat improved by the re-roofing of the Town Hall on Bridgewater Hill last fall. However the Grange Hall is in need of maintenance, particularly attic vents as well as insulation as is the case with the Fire Station. It would seem that the insulation would pay back a large dividend in reduced heating costs which have increased from \$2,000 in 1975 to \$7,500 last year. It should be noted that four buildings are being heated now rather than two in 1975.

As indicated in the report of the Fire Chief, the Bridgewater Fire Brigade has been accepted as a viable source of help in case of fire in other communities, as shown by the number of mutual aid calls last year. They have assisted in actual fire fighting as well as acting as stand-by units.

Article #9 in the Town Warrant calls for an appropriation of \$2800 for membership in the Lakes Region Mutual Fire Aid Association.

Dues for the first year would amount to \$2800, of which \$2250 are to be used for communications equipment in the Bridgewater Department, and in subsequent years should be approximately \$2300 per year based upon the towns equalized valuation.

Membership in this organization would insure that anyone in Bridgewater reporting a fire would have the nearest Fire Department answering the alarm within the least possible time.

The Bridgewater Department is presently making application for an evaluation by the Insurance Services Office, which is responsible for establishing fire insurance rates, to determine if we could qualify for a listing which would reduce the rate by as much as 20%.

This would apply to property within 5 miles of the Fire Station if the Town is a member of the Lakes Region Mutual aid system otherwise 3 miles.

Another article in the Warrant asks for an appropriation for a new Town Truck for the Highway Department, which would be for cab and chassis only. It is felt that the four wheel drive dump truck should be used only for winter use, that is plowing snow and sanding. The dump body and hoist would be removed and installed on the new unit and replaced with the sand spreader.

The same article also provides for a new dump body for the other truck as the original body is badly in need of replacement.

COMMENTS AND RECOMMENDATIONSClosing of Road Agent's Payroll Checking Account Recommended

The road agent maintains a checking account for paying the highway department employees. The town issues a check to the road agent periodically which is deposited into the payroll checking account. There is no provision in the law for a department head to expend town funds without the approval of the selectmen. We recommend that this account be closed and all payroll disbursements be made from the general fund checking account in the same manner as all other obligations of the town are paid.

Accountability for Yield Tax Security Deposits

The selectmen should keep a record of all yield tax security deposits which are in the custody of the town treasurer. After the selectmen have given a warrant to the tax collector for the collection of yield taxes, the deposits should be given to the collector, drawn on a town check, to satisfy the amount of the tax. If the deposit is more than the tax, the difference should be refunded

TOWN OF BRIDGEWATER

COMMENTS AND RECOMMENDATIONS

to the taxpayer. If the deposit is not sufficient to satisfy the tax, the collector should bill the taxpayer for the difference.

A reconciliation of all the deposits received, transferred to the tax collector, refunded, or still on hand should be made monthly to ensure that the proper disposition of the deposits is being correctly done.

We would like to extend our thanks to the officials and office staff of the Town of Bridgewater for their assistance during the course of the audit.

Very truly yours,

Hillion, Rodzick + Sanderson

BRIDGEWATER FIRE BRIGADE REPORT

This has been a fire safe year for Bridgewater and we wish to thank the townspeople for being so fire conscious.

We are very proud of our department. The brigade now has 18 members and 4 trucks. We are now a member of Twin Rivers Mutual Aid which consists of 18 towns. The brigade can call upon them for assistance, if need be, and vice versa. A new dry hydrant has been installed on Dick Brown Road by Charles Weidners.

New members are always welcome, and if interested you should contact a member of the brigade. Meetings are held every Monday at 7:00 P M at the station.

We would like to express our appreciation to the Auxiliary for enabling us to purchase more helmets, jackets and fittings for the fire truck.

REPORT OF THE CONSERVATION COMMISSION

The Commissions major activity for the years 1977-1978 has been developing the 19 acres of Town property on the Pemigewasset River to be known as Sawhegenet Park and recreation Area. Plans include a beach area, picnic tables, boat launching slip, and parking area.

During the summer of 1977 ten CETA workers and their supervisor cleared brush and debris from the area. The Boy Scout Troop burned the brush after the first snowfall.

In 1978 continued use was made of CETA personnel in clearing underbrush and cutting dead trees. A bulldozer was obtained to widen and contour the access road. At the same time, the launching slip for boats, upstream from the beach, was excavated. A contractor began clearing the stumps and topsoil from the beach area, placing the materials in a bank erosion area nearby. The cellar hole, where the original Toll House stood, was cleaned out of dirt and rubbish. This maybe foundation for future bath house. A number of local people helped, through bug season and heat when needed.

In this year we shall continue brush clearing, finish building the beach and clean up the surrounding area. A fence will be installed on the access road and gravel poured.

It is the hope of the commission, with the help of volunteers, that the park will be open to all citizens of the town during this summer.

REPORT OF DISTRICT FOREST FIRE CHIEF and YOUR FOREST FIRE WARDEN

For more than 80 years, a cooperative effort between the State of New Hampshire and local forest fire authorities has created a forest fire prevention and suppression program that is recognized as superior throughout the United States.

Since the first forest fire laws were written in 1895, the state and local community governments have worked together to prevent and combat forest fires.

Today, 249 forest fire wardens and more than 1,000 deputy wardens are appointed by the State Forester to work with the members of the State Forest Fire staff in this effort. State funds are used to pay one half of forest fire suppression costs incurred by local forest fire organizations, within pay rates established by the Governor and Council. State funds matched by local funds are used to purchase hand tools to suppress forest fires, to train local forest fire crews and in forest fire prevention work.

All outside burning, when the ground is not covered with snow, is permitted only after obtaining a written fire permit from your local Forest Fire Warden. Penalty for burning without a permit when one is required is a misdemeanor punishable by a fine up to \$1,000 or a jail term of up to one year or both.

This past year, Mr Lawrence G. Morrill not only continued his excellent care of our cemeteries; but also repaired headstones and, with the help of his brother John from Bristol replaced the stones which had fallen from the wall of the Webster-Cross Cemetery.

To all those involved we extend our sincere thanks.

THE NEWFOUND AREA NURSING ASSOCIATION, INC

To: Selectmen, Town of Bridgewater

We are requesting an appropriation \$1,000 this year in order to continue to provide services to the Town of Bridgewater. This is the same amount we were appropriated last year.

In 1978 we were able to provide two new services to Bridgewater, Home Health Aide Service and Immunization Clinics in the school for school age children. Also in cooperation with the Lions Club we have offered two free clinics for testing vision and hearing, and for glaucoma, anemia and diabetic screening. This is in addition to our every other month blood pressure screenings.

In 1979 we hope to offer Homemaker services in conjunction with our Home Health Aide Service, and a new clinic for Women Infants and Children (up to the age of 5) who are found to be at a nutritional risk. The new clinic will be sponsored by the Community Action Program, a social service non-profit private agency.

Thank you for your support.
