TOWN WARRANT

The State of New Hampshire

To the inhabitants of the Town of Brookline, in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Daniels Academy Building in said Town of Brookline on Tuesday, the Tenth day of March next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise and appropriate such sums of money as may be necessary to defray town charges for the ensuing year.
3. To hear reports of Agents, Auditors, Committees, and all other officers heretofore chosen, and pass any vote relative thereto.
4. To see what sum the Town will vote to raise and appropriate for Highways and Bridges.
5. To see what sum the Town will vote to raise and appropriate for the Public Library.
6. To see if the Town will vote to authorize the Selectmen to distribute inventory blanks when assessing, instead of mailing.

7. To see what sum the Town will vote to raise and appropriate for cemeteries.

8. To see if the Town will vote to raise and appropriate the sum of \$300.00 to be put in a Capital Reserve Fund for the celebration of the Bi-centennial anniversary of the Town in 1969, or take any action relative thereto.

9. To see if the Town will vote to raise and appropriate the sum of \$4,000.00 to be added to the "Capital Reserve Fund for Fire Fighting Equipment" for the purpose of purchasing a new fire truck.

10. To see if the Town will vote to authorize the withdrawal of the "Capital Reserve Fund for Fire Fighting Equipment" to apply toward the purchase of a new fire truck, and to authorize the Board of Fire Engineers to purchase said fire truck.

11. To see if the Town will vote to raise and appropriate the sum of \$7,500.00 for addition to and alterations of the fire station for the purpose of housing fire trucks.

12. To see if the Town will vote to authorize the Selectmen to enter into contract for the purchase of fuel oil for the Town Hall and Fire Station.

13. To see if the Town will vote to authorize the Selectmen to enter into a contract for snow plowing for three years.

14. To see if the Town will vote to raise and appropriate the sum of \$965.00 to increase the salaries of the Town Officers as proposed by the Salary Study Committee.

15. To see if the Town will vote to raise and appropriate the sum of \$118.50 to increase the salaries of the Supervisors and other election officials as proposed by the Salary Study Committee.

16. To see if the Town will vote to allow any discount on property taxes.

17. To see if the Town will vote to authorize the Selectmen to sell any property or tax liens acquired by Tax Collector's Deeds or Tax Collector's Sales.

18. To see if the Town will vote to raise and appropriate the sum of \$50.00 for a swimming instructor.

19. To see if the Town will vote to authorize the Selectmen to enter into contract for janitor service at Daniels Academy Building.

20. To see if the Town will vote to charge a penalty of twenty cents on each poll tax unpaid after September first.

21. To see if the Town will vote to raise and appropriate the sum of \$100.00 for Civil Defense.

22. To see if the Town will vote to raise and appropriate the sum of \$300.00 to increase the Police Department Appropriation.

23. To see if the Town will vote to raise and appropriate the sum of \$125.00 for Memorial Day.

24. To see if the Town will vote to appoint a "Street Light Study Committee" or take any action relative thereto.

25. To see if the Town will vote to raise and appropriate the sum of \$60.00 for premium on insurance against fire or theft of money in possession of the Tax Collector and Town Treasurer.

26. To see if the Town will vote to raise and appropriate the sum of \$430.34 to secure State Aid for permanent improvement of Highways.

27. To see if the Town will vote to raise and appropriate the sum of \$100.00 for Blister Rust Control.

28. To see if the Town will vote to raise and appropriate the sum of \$270.00 for cutting, spraying and removal of trees.

29. To see if the Town will vote to raise and appropriate the sum of \$1,000.00 for Capital Reserve Fund for Fire Fighting Equipment.

30. To see if the Town will vote to raise and appropriate the sum of \$300.00 for fire equipment.

31. To see if the Town will vote to raise and appropriate the sum of \$85.00 to install a telephone in the Fire Station.

32. To see if the Town will vote to accept the following legacies:

1. The sum of \$200.00 from the Guy Campbell Estate, the income from same to be used for the perpetual care of the lot in Pine Grove Cemetery.
2. The sum of \$100.00 from the Tom Barbour Estate, the income from same to be used for the perpetual care of the lot in Pine Grove Cemetery.
3. The sum of \$300.00 from Arthur S. Cook and Harley P. Cook, the income from same to be used for the perpetual care of the Cook lot in Pine Grove Cemetery.

33. To choose Delegates to the Constitutional Convention.

34. To vote on the question "Shall sweepstakes tickets be sold in this town?"

35. To transact any other business that may legally come before said meeting.

Given under our hands and seals, this twentieth day of February, in the year of our Lord nineteen hundred and sixty-four.

REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience — a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump — its safer. A neglected backyard incinerator causes many fires.
3. Never discard a lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.
4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Lets all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

Report of the Police Department

1963

I wish to extend my sincere thanks to the Board of Selectmen for the co-operation they have given me and my department during the past year.

I would like to thank Mrs. Anita Taylor for the many voluntary hours spent at the Police Radio and Telephone assisting the Police Department and other departments and working with the other communications operators to increase the efficiency of our radio network.

I would like to express my thanks to the N. H. State Police, Motor Vehicle Dept. and to the Police Departments and Radio operators of the surrounding towns for their co-operation and express my gratitude to the members of my department for their support, their fine work and the many unpaid hours of their services donated.

A great loss to our Law Enforcement Program was suffered this year by the passing away of our Municipal Court Justice Everett H. Hurley, not only is this a loss to our Community as Justice of our Municipal Court, but as a true and faithful friend of this department.

In 1963 481 complaints were answered by this department, consisting of motor vehicle, dog, domestic, etc. Some taking only a few minutes to clear up, some several hours and some of these took days of investigation.

Property loss through breaking and entering and larceny was very small this year, however, a great deal of property loss was suffered through vandalism.

In 1963 there were 32 Motor Vehicle accidents investigated by this department.

Of these accidents 29 resulted in property damage of over fifty dollars and the total running into several thousand dollars, also 9 of these accidents resulted in personal injuries requiring Doctor's attention. I am happy and thankful to say that again this year there were no fatal accidents in Brookline.

The School Safety Patrol was very active this year, thanks to Mrs. Varney, and in May, Marie Homoleski and Peter Crowell represented the Brookline Safety Patrol for three days at the National Jamboree in Washington, D. C. All the members of the Patrol spent a day in Concord, N. H. visiting our State Government.

As can be noted by the activity report this has been a record year for activity and I would like to thank all that have contributed to the aid of the police department.

Last, but by no means least, I would like to thank our local newspaper the Brookline News for its support of this department and to the Citizens of the Town of Brookline for their splendid support and cooperation that they have given me and my department during the past year.

Respectfully submitted,

ALVIN W. TAYLOR

Chief of Police
Brookline, N. H.

BROOKLINE SCHOOL CALENDAR 1964-65

September 4	(Wednesday)	December 20 (Friday)	74 days
		(October 25, November 11, 28, 29 No School)	
January 2	(Thursday)	February 21 (Friday)	37 days
March 2	(Monday)	April 24 (Friday)	39 days
		(March 27 No School)	
May 4	(Monday)	Approximately June 19	35 days
		(Friday)	185 days

BROOKLINE SCHOOL CALENDAR 1963-64

September 9	(Wednesday)	December 23 (Wed.)	71 days
		(October 12, 23, November 11, 26, 27 No School)	
January 4	(Monday)	February 19 (Friday)	35 days
March 1	(Monday)	April 23 (Friday)	39 days
		(April 16 No School)	
May 3	(Monday)	Approximately June 25	39 days
		(Friday)	184 days

School will be in session a full day each day.

Supervisory Union 40 Teachers' Meeting September 8, 1964.

Workshops to be announced.

The closing date of school will be revised depending on the number of days omitted for workshops, bad weather, etc.

WARRANT FOR ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School district in the town of Brookline qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the Fifth day of March, 1964, at 8:00 o'clock in the Afternoon, to act upon the following subjects: Voting on articles one through four will take place at the polls of the Town Meeting beginning at twelve-thirty of the clock in the afternoon on the 10th day of March, 1964.

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the district will vote to authorize the school board to make application for and to accept, on behalf of the district, any or all grants or funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire, or from any other source.

10. To see if the district will vote to raise and appropriate the sum of \$1,840.00 to provide special class education for retarded pupils. Through state aid of \$625.00, the actual cost to Brookline will be \$1,215.00.

11. To see if the district will vote to raise and appropriate the sum of \$2,500.00 to be paid into the Capital Reserve fund for construction and equipment of additional classrooms to the elementary school.

12. To see if the district will vote to raise and appropriate the sum of \$675.00 to provide the services of an art teacher to the pupils in grades one through six.

13. To transact any other business which may legally come before said meeting.

Given under our hands at said Brookline this 14th day
of February, 1964.

REPORT OF SUPERINTENDENT OF SCHOOLS

It is with a great deal of pleasure that I submit by third annual report. In this report, I want to draw your attention to the subject of teachers' salaries.

Each year the major item in the annual budgets of school districts is that for teachers' salaries. And each year, as your Superintendent of Schools, I find myself once more in the middle of numerous discussions on the subject of how much the teachers of the boys and girls in our school districts should be paid. Never have I met one person who wants to see a lowering of the quality of education our children receive, for we all realize how vitally important it is to see to it that our youth are well trained to take their place in tomorrow's unpredictable times. And yet, each year, the question, "How much is a teacher worth?" is raised again at budget time.

Surely the value of a good teacher cannot be measured in terms of dollars and cents. Each of us can remember those teachers who made such an important impact on our lives, and we want the same type of high quality teachers for our own children.

Concern that we pay enough to keep our excellent teachers here and attract top quality teachers for our children is not new in the 60's. A Union 40 school board, Milford, wrote this in the 1891 annual report: "We would gladly retain teachers when they are doing good work, but oftentimes just when of most value to us. they find they can do better elsewhere, and we must let them go. Experience has a money value and if we would have it, we must pay the market priceff"

Era Of Change

Even though the problems of finding and keeping good teachers are not new, they are certainly very difficult, for many changes have taken place in our total way of life. Not all of these changes are for the good, but we must live with them. Better highways crowded with faster automobiles, television, electronic data processing, and space travel are only a few of the obvious changes. And there are changes in the teaching profession as well, changes with which teachers must

live. To be trained for a teaching job, a person must complete at least a four year college program. To obtain a State teaching license, a requirement before a person can be employed as a teacher, specified college or university subjects must be completed. To retain this license, a minimum of six semester hours must be completed every five years.

Teachers and Pupils Faced With Explosion of Knowledge

The above are minimum requirements. In Supervisory Union 40 school districts, the teaching staff has an excellent record of exceeding the requirements in order to keep up with the many changes taking place in the school curriculum.

The National Science Foundation is the most well-known group today that has improved subjects our boys and girls now study. New courses in mathematics, chemistry, and physics are already in your schools, and others will come as needed. "Needed for what?" one may ask. The answer is very simple. They are needed if our boys and girls are to be ready to compete with others for the jobs and life of tomorrow. The obvious changes I noted in highways, television, etc., are visible to all. Less visible but very important are those many changes resulting both in and from the tremendous explosion of knowledge which is part of our times.

“. . . Because of a Love for Teaching Children . . .”

I am very proud of each of our teachers, who because of a love for teaching children, has spent and is spending a great deal of his time and money to take the subjects needed in order for him to help our children. You are probably saying to yourself at this point, "What does all of this have to do with teachers' salaries?"

Trying to Find Good Teachers

Each year I spend a great deal of time between January and the opening of school in September traveling to many colleges and universities to try to convince those seniors qualified to teach that they should apply for a job in our schools. More time is spent trying to keep our top quality teachers with us. Those outstanding teachers who decide to leave do so in almost every instance because of salary. Those who

decide to come here do so because they feel the teaching conditions are good. **But many, many top notch people do not apply** because the salary schedule is not competitive with other school districts in New Hampshire, and even less competitive with the Southern New England states. Two years ago, twenty seniors at the University of New Hampshire and the same number each from Keene and Plymouth State Colleges applied for positions here. Last year only five from UNH were interested, and ten each from Keene and Plymouth. During the interview days in those colleges, superintendents from other New Hampshire school districts, with salaries ranging from \$4,400 to \$7,000, were attracting most of the candidates.

Two years ago, through vigorous recruiting, I was successful in attracting candidates from some of New England's top-rated colleges and universities in Maine, Massachusetts, and Connecticut. (Bowdoin, Colby, Williams, Harvard, Wesleyan) Last year, not one person from those institutions was interested in applying here — because of our salary plan.

Teachers are interested in location, housing, and teaching conditions as well as salary when they apply for a position. Those teachers who are most interested in doing a superb job of teaching our boys and girls are the people you and I want for our schools. Our location and teaching conditions are excellent. Some citizens offer good housing at reasonable rates and more is needed. (Inform my office if you would have apartments to rent for the next school year.)

Need to Regain Competitive Status in Salary Plan

The salary plan recommended by the Salary Committee and the School Boards of Milford, Hollis, and Amherst is one which will enable our schools to begin to regain a competitive status with other school districts. Although we will still be somewhat behind those New Hampshire districts paying from \$4,400 or \$4,500 to \$7,000 and more, we will be moving forward and by this very act will encourage our own top quality teachers to stay and others to apply. The School Boards and administration can provide an excellent professional environment. I hope the citizens will provide the recommended salary plan, which will range from \$4,300 to \$6,112 (\$6,090 Milford) next year with a future limit of \$6,900.

In closing, I want to take this opportunity to thank Miss Connolly, every principal, teacher, aide or secretary, lunch worker, custodian, bus transporter — everyone connected with the operation of our schools — for cooperating to provide a good education for our boys and girls. A special expression of thanks is due from each of us to the members of the School Boards and to study committee members and other citizens who work for little or no remuneration, but from a sense of devotion to each town in Supervisory Union 40.

REPORT OF OUR TEACHER CONSULTANT

Each school in this union functions in the light of one basic philosophy, that of understanding and providing for the individual and group needs of all its pupils. The means taken to implement this philosophy differs from school to school for the reason that no two schools or communities are exactly alike; consequently, the programs developed take into consideration the resources and requirements of the school itself. Within each school may be found some of the best educational practices in this country. What are some of these practices?

Guidance and Grouping

Any school dedicated to such a philosophy must have operating a successful guidance program, since guidance is based upon the same philosophy — that the needs of each individual are recognized and are being met. Our elementary schools have been actively participating in a guidance program for several years. We group our children so they may achieve at their own rate. Frustration, which kills incentive and is a contributing factor for underachievement and dropouts, is lessened, and to a great extent, eliminated. This grouping is flexible, starting when the child enters school and continuing throughout the elementary years. Many children change from group to group as their progress and achievement indicate their needs. Because this grouping cuts across grade lines to such an extent, we may consider our schools ungraded in most subject areas. We may also consider it a program of continuous progress. Many children, who in the past would have repeated a grade, have taken the normal time to do their six years' work, as this program is especially favorable to those who make a slow start. Without experiencing failure, frustration, and the pressures of trying to catch up, they soon match the strides the other children have taken for themselves. The accelerated group moves along at its own pace and is ready for advanced work when it enters Junior High. The large group of so-called average pupils have gained to the extent that the needs of children at either end of the range have been met. A surprising number of these children exhibit real leadership once they are placed in positions where critical thinking and creativity are demanded. They

must rely upon their own resources rather than that of certain other pupils who naturally assert themselves. We find that many from this group work their way into an advanced group after a few years of experience in this program. Annual standardized tests compare the work of the children in the schools of our union with each other and with those on a national basis. The results are so encouraging that we know that this program "works".

One of our most significant kinds of grouping in recent years is that which provides for children in special classes. These children are so important to us and their education so necessary that our local, state, and federal governments recognize this and are actively engaged in furthering financial responsibility to meet their needs. We may be proud of work being done in our Amherst Special Class. Of great concern is the fact that we have more children who qualify for this type of education than can be cared for in our present program. Because of this, the number must be limited until another class is secured. Up to the present time, we have had children from Amherst, Milford, Brookline, and Mont Vernon. Plans are being considered for another such class. This would extend the age range and allow more children to have the type of education they deserve if they are to be educated to the extent of their potentialities.

Guidance and Teacher Aides

Another of our most promising practices is the use of teacher aides. The aide allows the teacher to spend more time doing the work for which she is hired — that of teaching children. The greatest dividend is the added time it gives the teacher to work with the individual child, to be more aware of his needs, and to put into practice a program designed to meet these needs.

Guidance and Cooperative Teaching

Some of our schools are in the process of developing programs of cooperative teaching as a means of strengthening the curriculum and providing more dynamic and effective learning situations. Where there is more than one teacher for a so-called grade all the children may have the benefit of the special talents of each teacher. The cooperative planning and teaching of lessons not only enhances the program but pro-

notes professional growth and promises to strengthen the over-all education of our pupils. Large group, small group and individual learning situations extend the number of opportunities for providing for the individual differences of children, and for the children to share their own talents with each other. This type of program lends itself readily to the guidance of our children toward optimum development. Amherst is to be congratulated for its farsightedness in recent classroom construction where folding walls between classrooms facilitate this type of teaching. The teachers of this union, who have participated in the strenuous summer sessions of the Harvard-Lexington programs, deserve special commendation, as do those who are actively sharing in the application of the experiences in cooperative teaching and other excellent practices gained from these sessions.

Guidance and the Underachiever

All of these desirable practices are intended to help prevent one of the greatest problems to be found in education — that of underachievement. In a traditional school, the program is geared to the average on a take-it-or-leave-it basis. Those pupils who do not meet the standards set up for an entire grade repeat the work and then drop out at the first opportunity. The rapid learner has no choice but to become satisfied with what for him is mediocre work. When he enters college, he finds great difficulty in meeting the standards set for this more select group.

We realize that much has to be done to solve the problem of underachievement, but feel very encouraged with the continuing increase in achievement at all levels. Our testing program is a constant tangible measure of this achievement. There are, however, other phases of growth that are difficult to measure but are very obvious results of our programs. These are in areas of development of the individual such as creativity, critical thinking, leadership, and a joy of learning.

Guidance and Dropouts

Another goal we hope to attain through our elementary programs is the elimination of dropouts. Even though most of them occur beyond the elementary school, it is still everyone's concern, because somewhere along the line they are developing certain conditioning factors

that lead to an unfinished education. This conditioning may be the result of continued failures and frustrations in school or at home. Lack of interest in education on the part of the parents may cause some of the dropouts. Sometimes too little is expected of the child, or too much. When the child cannot find his way beyond the impossible demands placed upon him by conflicting interests and requirements of the home and school, the threshold of frustration has been reached and to drop out of school is inevitable. What the parent thinks about school determines to a large degree what the pupil's reaction is to it. The parent's satisfaction, dissatisfaction, or lack of interest in the school is usually reflected in the child's manner of adapting to a specific school environment, or to education in general. We are becoming increasingly aware of this problem, as we consider it to be a tremendous waste of one of our country's most precious resources — that of the human mind with all of its potentials, and upon which the strength of this nation depends. Much of our future leadership could be found among these students who, for one reason or another, discontinued their educational development.

Cooperation

Unquestionably, the education of our youth is the concern of many people and depends upon the cooperation of the school, the parents, and the total community. Fortunately, this rare combination is outstanding in this school union, and is the reason why our schools are doing such an exceptional job in educating our children.

To the teachers, Dr. Goodman, the School Boards, other school personnel, the parents, and countless friends of education, I would like to express my sincere appreciation for their dedication to the task of providing the best for our youth. I am proud to be a member of this group.

Respectfully submitted,

MABEL I. CONNOLLY

Teacher Consultant

REPORT OF PRINCIPAL

Complacency, legitimate in itself, becomes a frightening term when used in reference to a field of endeavor similar to public education. We must continually strive to avoid this label and not to remain content with the "status quo." We feel that we have lived up to that obligation over the past year in Brookline.

In the area of curriculum, the most significant changes have occurred in the field of arithmetic. The term "modern math" has had a revitalizing effect, not only on the teaching profession but indeed on the parents themselves. The pressures brought to bear by a science-technology oriented society have resulted in changes so extreme and far reaching in their implications that they can be described only as a revolution.

This development required immediate action by the teachers of Supervisory Union #40. Last spring, under the direction of Miss Connolly, the teachers investigated material from several of the leading publishing houses. They decided to adopt the Addison Wesley series, which is being introduced into the first three grades during the current year.

Several of the Brookline teachers joined other teachers in the Union to attend a two week workshop in modern mathematics last June. The remaining teachers are participating in a weekly series offered by WENH-TV on modern arithmetic in the elementary schools. This will be a continuing process.

Our physical education program has received special attention this year. We are currently using screening tests for the various age levels as recommended by President Kennedy's Council on Youth Fitness. We are implementing this with a daily routine of exercises designed to bring each child to a suggested level of achievement commensurate with his physical ability.

We have also supplemented our outdoor equipment to provide a more organized and beneficial recreation program. We have added two large tether balls, a basketball net, and a soccer field complete with goals. In the spring, we are planning to put a jumping pit in both schools to provide practice in the high and broad jumps. Along this line we hope to enter both the Y. M. C. A. and the Union #40 track meets in the spring.

Since the Christmas holidays we have added a helping teacher in the language arts field. This teacher is helping to alleviate the burden of the split grade and to provide some of the individual attention that children in these grades require.

Our needs for the coming year are few but vital. Over the past few years, our enrollment has steadily increased and next year will be no exception.

We have had two split grades in the upper elementary levels that have borne the burden of the increase. The current year has seen the peak of the increase with thirty-four and thirty-five children, respectively, in each of the two grades. This large number of students in a split grade with a complete ability range provides a situation that limits individual attention to a dangerous degree. The helping teacher has provided considerable relief in this area but is certainly not a solution. If allowed to continue, the split grade will shift in the coming year from the intermediate to the primary level where danger from this type of situation can be even more acute. In order to provide our children with proper grade by grade development we are in serious need of an additional teacher.

An area that we are unable to properly handle in the average classroom setting is the exceptionally slow child. Children in this category are in need of the instruction that can be afforded them in a special class that is equipped and taught by specially trained personnel. We have several youngsters in need of this type of training, who will benefit immeasurably if we have the opportunity to share a class of this type with an adjoining town.

In your long range consideration, the consolidating of all the classes under one roof is of growing importance. The advantages in-

herent with all six grades working as a unit and benefiting from the facilities at the new school are many. Such items as the TV, the recreational equipment, and the all purpose room can be shared by all the children. The ungraded program can also be extended to include the fifth and sixth grades.

Overall, we feel we have had an exciting and successful year. We have avoided the "status quo", but have been moderate and careful in bringing about change. I would like to thank the School Board, Dr. Goodman, Miss Connolly, and the teaching staff for their direction and help over the past year.

Respectfully submitted,

PETER G. DOLLOFF

Principal

ANNUAL SCHOOL BOARD REPORT

A. Tuition:

Tuition represents an increase of \$5,809 over the adopted budget of the previous year. This increase of Nashua's tuition is because the State now computes a state average for Junior High based on costs for grade seven, eight and nine only. In the past charges for grades seven and eight were based on elementary state averages and grade nine on high school averages. This means an increase in our charge from Nashua in grades seven and eight from \$295 to \$412. The ninth grade cost drops from \$449 to \$412. The senior high state average has increased from \$449 to 467. It is Nashua's policy to charge us the state average costs.

B. New Teacher:

The School Board recommends we add a teacher to handle the fifth grade. This will eliminate the need of a helping teacher to assist in the split grades. The sum of \$4,200 represents the salary of the proposed teacher.

C. Salaries for Instruction:

\$675 of the proposed budget represents an increase in salary to our present teachers.

D. Capital Reserve:

The School Board unanimously recommends that the District appropriate \$2,500 towards the Capital Reserve Fund, to be set aside for future building needs. The \$3,125 realized from the sale of the Primary School building has also been added to the Capital Reserve Fund.

E. Lighting:

The cost of additional lights in the Elementary School was \$1,500. The State Board of Health has certified the lighting is now adequate.

F. Special Class:

We have the opportunity to send some of our pupils who need special instruction to a second special class which is being formed by the School Districts of Amherst and Milford, in Amherst. We have five children in our schools who need this kind of class. Transportation would be provided by the parents and tuition by the town.

G. Art Teacher:

Once again the Superintendent has recommended that we take advantage of the parttime service of an art teacher, who already teaches in the other Districts in the union. The School Board has taken no action on this question.

HARRY CHORNEY
MARGUERITE W. PORTER
BEATRICE B. HALL

SYNOPSIS OF SCHOOL MEETING

March 7, 1963

The annual school meeting was called to order by the Moderator, Alton Jensen, and business proceeded according to the warrant.

Article 1 through Article 4: Tabled until the results of the election were tabulated.

Article 5: Voted to pass the Article for consideration under Article 8.

Article 6: Voted to accept the reports of Agents, Auditors, Committees and Officers chosen as printed in the Town Report. There were no other reports.

Article 7: Voted that town auditors shall act as school auditors.

Article 8: Voted to raise and appropriate the sum of \$103,023.66 for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Article 9: Voted to authorize the school board to make application for and to accept, on behalf of the district, any or all grants or funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire, or from any other source.

Article 10: Voted to raise and appropriate the sum of \$2,500.00 to be paid into a Capital Reserve fund for construction and equipment of additional classrooms to the elementary school.

Article 11: Passed.

Article 12: Voted to combine the school district election with the town election in accordance with Chapter 197, Section 197:1-a-197:1-d, which permits the district election to be held on the same day and at the same time as the town election.

Article 13: No other business.

The results of the school district election were announced and the following were elected. School Board, Beatrice Hall; Treasurer, Louise Corey; Moderator, Alton Jensen; Clerk, Geraldine Phillips.

The meeting adjourned at 8:55 P.M.

GERALDINE PHILLIPS

Clerk
