AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

The circulation for 1964 shows a marked increase over the previous year with the greatest gain showing in the adult fiction and periodicals. The increase in these areas is due, for the most part, to the extensive use of these materials by the school students.

The young adult books have been completely rearranged by subject so that it is easier for the readers to find the books that interest them. Old and worn books have been discarded to make room for the new purchases.

National Library Week and National Book Week were observed during the year with appropriate posters, bookmarks and collections of new books for the children and young adults.

In July the librarian was graduated from the Public Library Techniques Program at the University of New Hampshire. At this time, she wishes to express her gratitude to the members of the Hinsdale Woman's Club for their sponsorship. The scholarships awarded her through the club were greatly

appreciated. Also in July we were saddened by the death of Mrs. Luella M. C. Streeter, who before her retirement in 1956 served as town librarian for thirty years. In the near future reading lamps will be purchased for the library with funds given in her memory by family and friends.

The library was open on a part-time basis for three weeks in July and was closed for a week in August. During this week a new floor covering was laid and it does much to lighten the room and add to its attractiveness.

Each year more children use the library and at times our facilities are taxed to the limit. We have had many new adult readers this year and the demand for new books is greater than ever but we feel this is being met as well as finances will allow. The bookmobile does much to supplement our needs and its visits are eagerly awaited by the readers. Many non-fiction books are borrowed, thus freeing our funds for the purchase of much needed reference material and good fiction.

The librarian spoke at the Grange and Woman's Club during the year. She, her assistant and trustees attended a library meeting at the Monadnock Regional School in Swanzey, N. H. in the spring.

Due to the large number of high and junior high school students using the library during the evenings, it has been necessary to make a rule that children below the fourth grade are not to come to the library in the evening unless accompanied by a parent.

The librarian has nothing but praise for these young adults who spend so many hours in the library reference department. She enjoys her work with them as they are so appreciative and seldom forget to express their thanks for any aid given them.

At this time the librarian wishes to thank her Board of Trustees for the help and cooperation given during the past year. She thanks also those who have given books and magazines to the library. These gifts are always most acceptable.

A cordial invitation is extended to you to visit your library and give it your interest and support.

Respectfully submitted,
 SYLVIA E. FLETCHER,
 Librarian

HINSDALE MUNICIPAL COURT

Year 1964

The report of the Municipal Court will, of the year 1964, be presented in two parts. The first part reflects the statistics for the first six months when the Court was operated under the old statute and the second part for the last six months under the revised statute. It is still too early and the case-load is too small to provide for a true comparison between these two periods, but it is interesting to note a few differences that are outstanding. As might be expected, the number of cases brought before the Court in the second half of 1964 was 27% lower than those filed in the first half.

Fifty-three percent of the cases tried in the first six months of '64 were summonsed by local police while eighty-four percent of the second-half arrests were local. Revenue was down 35% for the second half although total revenue was almost double that of 1963.

I would like to thank Chief Wesley Ryan and his men for their cooperation through the year, the Selectmen, State Police, and other agencies of the Town and State. Without their assistance the function of the Court would be much harder.

During the year the pool was fenced in and the filtering system installed. The grounds and buildings were kept in excellent shape under the very capable hands of Mr. Frank Copeland, our caretaker. Mrs. Mary Ann Girroir was the supervisor during the summer assisted by Sherman Williams. Weekly movies were again shown and enjoyed. Your committee wishes to thank the Nelson family and the Brattleboro Horse show for their donations.

We also wish to thank the Selectmen, Highway Department, Fire Department and all the others who have assisted and helped us throughout the year. Our special thanks to all the people who helped make our annual nite before celebration a success.

REPORT OF THE ELEMENTARY SCHOOL PRINCIPAL

To the Superintendent of Schools :

I hereby submit my Fourth Annual Report as Elementary Principal in the Hinsdale School District.

Our September 8 enrollment was 434 in grades K-7 with the largest number of pupils in grades 1-3. The addition of one teacher and a combination first and second grade eliminated part of this problem, but at the present time we have a need for one additional teacher in grade one. This year we transferred grade eight to the secondary school thus decreasing our total number by 60 pupils. However, new pupils have offset this to some degree and we can expect housing problems in the near future.

Curriculum

This year we have a new mathematics program in grades 1-3. In 1961 new math was introduced in grades 7 and 8 and extended to the secondary level. Next year we hope to add more grades until we have this new concept of arithmetic in our entire system. The inquisitiveness of our children in this area has induced some excellent thinking in other areas.

Our reading program is operating with good results whereby we teach reading skills in conjunction with a good basic reading series applying these skills to all areas of instruction. We have new Scott-Foresman reading books in the primary grades. We are handicapped by not having a good library, but we are making plans for this at the present time.

Grade four has been included in our departmentalized program this year. This type of organization has been very ef-

fective in strengthening our curriculum in English, math, social studies, and science.

Physical education is limited to outdoor instruction. During the fair weather days we use the athletic field for all grades. The upper grades have an intramural program supervised by Mr. Neilsen. We compete with teams from other towns nearby in baseball and touch football.

The Rinehart Handwriting System provides supervised instruction in handwriting. The progress of each pupil is graded and suggestions are made to correct any weakness in this area. Staff meetings and sectional meetings have been scheduled for the entire year. Through these meetings we hope to make a thorough study of our program sequential with the secondary program.

Personnel

This year we have made staff changes as follows:..

Kindergarten—Mrs. Richard Guthrie KSC '64 was hired to replace Mrs. Ray Bailey. Mrs. Bailey is now teaching in Pennsylvania where Mr. Bailey is studying for the Ministry.

Grade 2—Mrs. Charles Wilder KSC '64 was hired to teach one section of grade 2.

Mrs. John DeAngelis is now teaching a combined first and second grade.

Grade 4—Mr. Bruce Mitchell KSC '64 was hired to teach grade 4 and 5 science.

Grade 4—Miss Winifred Clark resigned to accept a position at the Experiment in International Living in Putney, Vermont.

Grade 4—Mrs. Roger Chapman is now teaching at East Dummerston, Vermont.

The transfer of grade 8 to the high school brought about some changes in this area. Teachers in grade 7 and 8 now teach departmentalized in grades 6 and 7.

Mrs. Lillian Williams retired after many years of service. During the years Mrs. Williams has taught in many areas of elementary education, and her love and understanding for children has certainly endeared her to hundreds of boys and girls. We extend our sincere wishes for rich and interesting retirement.

Our school cafeteria personnel are providing excellent school lunches in both cafeterias. Mrs. Helen Bouchie manages this program with the able assistance of Hortense Stephens, Elizabeth Bordner, Elizabeth Butler, and Anna Majer. I sincerely hope more pupils will take advantage of this program in helping us increase our participation.

The health program has been supervised by Mrs. Richard Bradbury. Vision and Hearing tests have been given in all grades. Polio clinics were conducted in the spring, and physical examinations have been given in grades 1, 3, and 5, by Dr. John Trumper, assisted by Mrs. Bradbury. We are very fortunate to have such fine health services in our schools.

Mr. Andrew Paduchak continues to maintain our building in a very commendable manner. New paint has been added in some areas and the general appearance of our building is excellent.

Special Education

We have long recognized the need for special education. For several years we have promoted some children, regardless of their achievement until they reach age 16 and then see them leave school totally unprepared in a skill. Many times these children are unable to find employment and become a burden on the community. We must have a program for mentally retarded children. Although the number of pupils in this category is not too large, their lack of ability is being felt in our entire school system. If we are going to carry out our obligation to the community, we must provide education for all children.

Summary

As we near the half-way point in the school year we can look back with pride. The foundation for education rests heavily on the shoulders of elementary instructors and our program is sound in bringing about desirable changes in human behavior which include good thinking, feeling, and actions. We are thankful for well qualified teachers who have made our school one of the best in elementary instruction. This status has only been achieved through hard work and cooperation. During the past four years much emphasis has been placed on improving the secondary curriculum. We now have a secondary program that meets the needs for our community, and we should focus our efforts on the elementary school.

The educational opportunities for each child depends upon what a community wants for its children. If we are to maintain and improve our standards we must have smaller classes, more equipment to work with, and a long range plan for our entire curriculum K-12. The future holds much for education; let's not jeopardize this opportunity with short sighted planning.

In closing my sincere thanks to the staff members, pupils, schoolboard, superintendent, and all who helped make the school year a success.

Respectfully submitted,

PAUL CHRISTIANSEN,

Principal

Hinsdale continues to place better than 40% of its graduates in post-High School educational institutions. Approximately 44% of the graduates went away to continue their education in recognized schools. The schools that sixteen students of the Class of 1964 are attending include Keene State College, The University of New Hampshire, Boston University, Massachusetts College of Art, South East Bible School, East Coast

Aero Technical School, Boston Trade School, New Hampshire College of Accounting and Commerce, Bay Path Junior College, Hudson Valley Community College, and Houle's Beauty Academy.

Additionally, four of the young men entered the Armed Services. Fifteen of the Class found employment in and around the Hinsdale-Brattleboro area. Two of our graduates are now married.

With the opening of school in September, our enrollment figures in the High School grades (9-12) were up approximately 6.6% over last June. However, when we include the total increase in the building enrollment caused by the transfer of Grade 8 into the High School facilities, we are speaking then in terms of a 50% total enrollment increase. The eighth grade, alone, added 65 students to our rolls.

There have been several changes on the Faculty this year. Such changes are not uncommon and are to be expected among our small schools. During the summer, Mr. Kidder left us to assume new teaching duties in Avon, Conn.; Mr. Martel transferred to Penacook, and Mr. FitzGerald went to a Physical Education and coaching position at the Monadnock Regional High School. Mr. Muller left us to enter the Air Force. These four teachers were replaced, and in consideration of School growth, we hired two additional persons. Mr. Leonard Pratt of Keene State College is teaching English in the upper grades, and Mr. Denis Joy, also from Keene State, is teaching English to the lower grades. Mr. Paul Kacanek of Keene is teaching college-level math and biology, and Mr. Robin Beauregard of Plymouth State College is teaching Junior High Science and Social Studies and ninth and tenth grade Physical Education. Mr. Paul Bonneville joined us from the staff of Woodbury High School in Salem, N. H., and is teaching several of our high school sciences. Mr. Lewis Major joined us, returning here from the Marlborough (N. H.) High School. Mr. Major is heading up the Mathematics Department.

In the foregoing paragraphs, some interesting items may be noted. Among them, the fact that Physical Education is now

offered to both ninth and tenth graders, and that basic instruction in a foreign language is commenced on the eighth-grade level. Both of these enriched areas are proving satisfactory additions to the total curriculum.

Our High School Library has continued its strong growth. Today, our volume total satisfies the State minimum standard of libraries in schools of our enrollment. The School feels very sincerely that they owe a debt of gratitude to Mrs. Doris Smith for the very professional and efficient manner in which she has served this facility as Librarian. This, of course, she does in addition to teaching several classes and conducting certain administrative functions as Assistant Principal daily.

Last April the High School was visited and evaluated by a Committee of the New England Association of Colleges and Secondary Schools. The Evaluation consisted of a close and scrutinizing look at all phases of our School—its life, curriculum, administration, student body, physical plant, philosophy and objectives. We passed the standards imposed by this organization, and in December, were admitted a member of this selective, influential group. In short, Hinsdale High School is now accredited by the same organization that has accredited our State's several fine colleges and the University. The end result of all this is an overall improvement in the quality and standards of local education.

The evaluative process of Mid-Year and Final Examinations has been found to be a satisfactory instrument of measuring student and instructor progress, and the retention of knowledge. These Exams carry a sizable weight, and determine to a considerable degree, both the semester's and the final subject grade. The very basic principles underlying our system of promotion and ultimate graduation are being affected by these means. Such a system of education evaluation has a definite place in our education program.

I believe a passing comment should be made concerning the position our High School holds today in the academic world. Our course content has been found equal to and in many cases surpassing similar offerings in surrounding local schools. This we attribute in part to the smaller class size and

overall enrollment which enables our faculty to better know their students' capabilities and needs, and thus render, oftentimes, more effective teaching. The graduate statistics previously quoted certainly point to this, as do national testing data, in which Hinsdale ranks scholastically on a par with and in some instances, above, more well-known schools. Your High School in Hinsdale is successfully meeting the challenge of today's demands according to the impartial testing results we are beginning to receive. Community support of a conscientious faculty have much to do with this current standing.

In keeping with the tradition of forward progress, our School's activities have certainly maintained the trend. Mr. Norton's musical groups have continued their efforts unabated in the past year. An Exchange Band Concert was held last spring with North Berwick, Maine. Such experiences continue to be worth "their weight in gold," and have a place of definite value in our educational philosophy. In addition to such concerts, his High School Band performed in several local parades, including the well-known Holyoke (Mass.) St. Patrick's Parade. The Band's activities for the past year culminated with the reception and acceptance of an invitation to play in our Nation's 1965 Presidential Inauguration. To help these youngsters along in the costly world of music, an energetic and greatly-spirited Band Booster Club was organized by the parents of children in the Band.

Largely through their untiring efforts and the overwhelming and generous support of a proud and grateful Town this greatest of all parades became an attainable reality for our young people. For all this, your School, the Band, Mr. Norton and I say: "Thank you."

It must be further mentioned that in music we also have a vocal area, and from the High School Chorus we have the solemn promise of future prominence and good-accounting of those youngsters. Hinsdale is indeed fortunate to have the musicianial leadership it does in its present Director.

Our athletic picture brightened somewhat this past Fall when our Soccer team came up at Season's end with the

Southwestern N. H. League Championship. This was due in no small way to the never-ending efforts of the coach, Mr. Bonneville. The return of an athletic championship in at least one competitive sport was a greatly welcomed experience.

As stated in earlier reports, Basketball success continues to be a difficult goal to achieve. It is still felt that a change in facilities will serve to greatly enhance and improve this picture. Under the present conditions, it is next to impossible for our youngsters to get adequate instruction and training to even be a match for our competition. Virtually every opponent we face gives witness to the value of more contemporary facilities. It is hoped that we may soon join them in this area.

In the area of outdoor athletics, I firmly believe Hinsdale can ably give a very good accounting of themselves. This is true in both boys and girls athletics.

In respect to any outlook for the future, the way and the problems are easily discernible. It goes without saying that growth is with us for some time to come, as by fives and tens, our enrollment figures are constantly increasing. More students mean greater course offerings. But this also means eventual space problems!

Curriculum improvement and enrichment is not only necessary, but it is demanded. You can look forward to a wider variety of courses; but the day is coming when requirements will demand more highly-trained and specialized instructors.

The future is going to be bright and interesting, but not without some of the intervening hurdles which must be surmounted. Such a task is not impossible. With the continued support of a community that has shown its respect and value of education, Hinsdale's educational future is secure. Therefore, to all the parents who have cooperated with us so fully, to a conscientious and dedicated School Board, and to a devoted and loyal Faculty, I express my sincere appreciation and thanks.

Respectfully submitted,

BRUCE E. STEWART, JR.,

Principal

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Hinsdale :

I hereby submit my fourth annual report.

STAFF CHANGES: The following members of last year's teaching staff are no longer in our district.

Mrs. Esther B. Bailey, kindergarten teacher, resigned and has moved from the area with her family.

Miss Winifred R. Clark who taught grade four, resigned to seek other employment.

Mr. Bernard P. FitzGerald who taught Social Studies, Science and Physical Education, resigned in order to accept a position in the Monadnock Regional School District.

Mr. Robert S. Kidder, Mathematics instructor, resigned to accept a teaching position in Connecticut.

Mr. John B. Martel who taught French moved from the area.

Mr. John L. Muller, English instructor, resigned in order to satisfy his military obligations.

The new members of the Hinsdale teaching staff are :

Elementary School:

Mrs. Marjorie W. Guthrie, B. Ed., Keene State College, was elected to teach kindergarten.

Mr. Bruce G. Mitchell, B. Ed., Keene State College, is teaching grade four.

Mrs. Elizabeth L. Wilder, B. Ed., Keene State College, was elected as an additional elementary staff member resulting

from the large first and second grade enrollment. Mrs. Wilder is teaching grade two.

High School:

Mr. Eugene R. Beauregard, B. Ed., Plymouth State College, is teaching Social Studies, Science and Physical Education.

Mr. Paul E. Bonneville, B. Ed., Keene State College, taught in Salem, New Hampshire, and is currently teaching the Science subjects.

Mr. Denis R. Joy, B. Ed., Keene State College, is an additional English instructor brought about by bringing the eighth grade into the high school program.

Mr. Paul Kacanek, B. Ed., Keene State College, is also an additional high school staff member resulting from bringing the eighth grade into the high school building. Mr. Kacanek teaches Mathematics and Science.

Mr. Leonard A. Pratt, B. Ed., Keene State College, is teaching English.

The total professional staff, including Art and Music supervisors, guidance counselor and principals, numbers thirty-three. This is a net increase of one over a year ago.

The high school staff increased by two as a result of bringing the eighth grade into the high school building. The elementary staff, however, decreased by only one. Although the eighth grade was moved out eliminating the need for two teachers, a combination grade one and two was created to handle the increased enrollments.

1969-70	45	54	59	38	57	47	77	59	436

The total current enrollment shows a net increase of six over the total enrollment reported in the last annual report. The moving of the eighth grade to the high school is responsible for a general decrease in the elementary enrollment and a general increase in the high school enrollment. The actual elementary school enrollment is fifty-two less than a year ago whereas the high school enrollment is increased by fifty-eight over a year ago.

The future enrollment figures do not take into account possible repeaters, dropouts, or transfers. The statistics are projections of current information which is subject to change at any time. For example, although the current elementary enrollment is 434, there have been 455 elementary pupils registered to date this year. In spite of the limitation involved in projecting enrollments, a look at enrollment figures over the past several years shows a steadily increasing school population. It is expected that this trend will continue.

SCHOOL FACILITIES: The Hinsdale school facilities with a regular program of maintenance provides a safe and healthy environment for the young people. However, expanding enrollments as well as expanding curriculum places a stress on the amount of available space. The Hinsdale School Board and School Planning Committee has spent many hours studying high school needs and will present their findings and recommendations to the citizens.

EDUCATIONAL PROGRAM: In reviewing the educational program in Hinsdale, no attempt will be made here to outline in detail the various aspects of the program. The principals in their reports will be more specific in this regard.

The educational program has undergone numerous changes in Hinsdale. The curriculum has been expanded so that the young people have more offerings than ever before. New instructional methods designed to increase pupil understanding are used by the teachers. Up to date teaching and learning aids provide continuity and enrichment.

The program has also undergone organizational changes in order to provide maximum utilization of staff and school plant. Such devices as homogenous grouping, departmentalized instruction, dual-track secondary program of studies, and various special services have been utilized to meet student needs.

These are only some of the changes which have taken place for the purpose of providing better educational opportunities for our youth. Some of the changes are the result of compliance with state standards. Other changes have been inspired by a desire on the local level to keep abreast with the increasing demands our modern society places upon its citizens. Our high school, for example, was evaluated first by our own personnel, and then by a committee of the New England Association of Colleges and Secondary Schools. We are, therefore, understandably proud to be able to report that Hinsdale High School has been accepted into membership in that association.

Providing an overview of the progress made in the educational program in no way implies that there is nothing further to be done. There are still many areas which need attention. As always, they contain financial implications. Among the more urgent needs are: special education for the intellectually retarded, physical education for boys and girls, driver education, and elementary school library services.

In this space age with the rapid increase in the quantity of knowledge available and the constant demand placed on our schools by these changes, it is essential that we continue to support programs which are in step with the times.

In conclusion I again wish to thank the principals and teachers, pupils and parents, the School Board and the patrons of our schools for their understanding and cooperation.
