## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Marlow :

I herewith present my fifth annual report as superintendent of your school.

There are two major needs of your school plant that are desirable to improve its appearance, and have it conform to state board of health regulations. For a number of years we have been studying the problem of putting water in the school. Each plant that has been studied has proven to be unsatisfactory, either because of excessive cost or because the source of water was found to be polluted. Your school board is now recommending that the district borrow enough more money to add to the present amount, \$723.00, to do a satisfactory job as soon as possible. By borrowing the money and paying it back over a period of three years the cost does not become too great a burden in any one year.

The outside of the building needs painting. In a number of school districts the people have gotten together on a painting bee, had fun, improved their property, and saved themselves some money. The school board has funds available to purchase the paint.

The PTA is becoming a source of benefit to the school. Their latest project is to sponsor a milk program in the school so that every child wanting it may have a bottle with his lunch. This is a federally-aided project, with the government paying part, the P.T.A. paying part, and the child paying part. The P.T.A. is also donating two rubber door mats, and gave candy and gifts to the children at Christmas. These activities are much appreciated by the pupils and teachers.

You will note that the amount of money to be raised this year is about the same as last. A few increases have been

necessary in some items, but these have been kept as small as possible without impairing the efficiency of the school. We operate on a marginal budget, as can be seen from past reports, so that changes are only minor. High school tuition costs are rising rapidly. The last session of legislature made it possible for a district to charge the full cost of operating a school rather than just the cost of instruction. This accounts for some large increases in certain schools.

Our enrollment continues to drop off, somewhat.

#### ENROLLMENT JANUARY 1, 1950

Grade	1	2	3	4	5	6	7	8	Total
	3	7	8	3	11	3	6	4	45

1 pupil had sufficient wax in ears to obstruct the canal.

4 pupils had their teeth cared for.

1 pupil had tonsil and adenoid operation.

All pupils were given sight and hearing tests with the Massachusetts Vision Test and Maico Audiometer, no defects were found.

## FOREST FIRES—OUR MOST SHAMEFUL WASTE

Everyone apparently fears fires but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste".

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public—YOU!

The primary objective of all fire fighters is PREVENTION—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

- (1) Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
- (2) Securing the required written permit from the warden when the ground is not covered with snow.
- (3) Insisting that others be careful and comply with burning requirements.
- (4) Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

F. J. BAKER,  
District Chief.

### 1949 FIRE RECORD—MARLOW

Number of Fires, 3.

Acreage Burned, 2 3/8

Number of fire permits issued, 30.

Respectfully submitted

CHARLES R. ANDREWS,  
Forest Fire Warden.
