Edward J. Lobacki

Catharine Sage

Stanley W. Peters

# A Tribute to Ed, Catharine and Stan

As the Town changes, and new citizens assume responsibilities in Town Government, it's nevertheless sad to see other men and women who have long served our community, and to whom we all owe much gratitude, for them to depart our midst. 1997 was a particularly difficult year with the death of three former Selectmen, all my peers at the Town House and all with whom I had the pleasure of serving.

Edward J. Lobacki (1961-1971) died on March 28, 1997, Stanley W. Peters (1979-1985-1989-1992) passed away on August 17, 1997; Catharine Sage (1967-1968) died September 30, 1997. I have fond memories of each of them, Ed Lobacki for his determination in seeing the community's most costly, and upsetting, Public Project, the Town Sewer System; to a successful conclusion in 1972. Catharine Sage, the First woman to be elected Selectman, for her forthrightness, and sense of humor and Stan Peters, also my colleague in the state legislature, steady, reliable, one who inspired confidence and never backed away from a difficult decision.

I could say more about my late friends, how Ed had to watch over his 5,000 "employees" on the egg farm, and his distinguished service as a county commissioner; about Catharine Sage's activities with the local democratic committee, and lectures in business law at Nathaniel Hawthorn College; and Stan Peters' service as a member of the Peterborough and Conval School Board and his association with the A.W. Peters, Inc. Stan's great talent was being a good listener, getting to the heart of a question, and working out a solution.

Ed, Catharine, and Stan may have thought differently on some issues, but together they were models of what has historically made Peterborough "A Good Town to Live In". they loved their community, and our community feels their loss. Bless each of you.

Merton S. Dyer  
Fire Chief 1966-1978  
Selectman 1984-1993

Board of Selectmen  
Town of Peterborough  
Peterborough, New Hampshire

In planning and performing our audit of the general purpose financial statements of the Town of Peterborough, New Hampshire for the year ended December 31, 1997, we considered the Town's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the general purpose financial statements and not to provide assurance on the internal control structure.

However, during our audit we became aware of several matters that are opportunities for strengthening internal controls and operating efficiency. The memorandum that accompanies this letter summarizes our comments and suggestions regarding those matters. This letter does not affect our report dated February 6, 1998, on the general purpose financial statements of the Town of Peterborough, New Hampshire.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Town personnel and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

Respectfully submitted,

**CURRENT YEAR'S FINDINGS AND RECOMMENDATIONS:**

**TOWN GENERAL FUND:**

**MONTHLY BANK RECONCILIATIONS**

**Finding** -To ensure effective cash and internal control, to confirm that all receipts and disbursements have been on the general ledger and to produce meaningful, useful and reliable monthly reports for the use of Town management it is important that all cash accounts on the general ledger be reviewed and reconciled to the bank monthly. We noted during our cash audit procedures that not all of the bank accounts were being reconciled timely at the end of each month.

**Recommendation** -It is extremely important that the general ledger cash account be reconciled to the Treasurer's reconciliation monthly with all necessary adjustments posted timely. We noted during the course of our audit that all required monthly reconciliations were being done timely.

**Benefit** - Monthly reconciliations of the cash accounts are crucial in maintaining the overall integrity of the accounting system. Without such proofs, errors could occur in posting that would not be caught until the year end audit. Monthly reconciliations are a crucial part of the control process to ensure that City management and City Council receive accurate monthly reports that they can use to make the necessary management and financial decisions.

**Management's Comments** - The Selectmen have authorized an article at Town Meeting to appoint a Deputy Town Treasurer. If it passes, one of the duties of the Deputy will be to reconcile bank statements on a regular basis, as being a backup to the Town Treasurer if he is away.

***DRAFT SUBJECT TO ADDITIONS AND DELETIONS***

**STATUS OF PRIOR YEAR'S FINDINGS AND RECOMMENDATIONS:**

**TOWN GENERAL FUND:**

**ACCOUNTING FOR ENCUMBRANCES**

**Finding/Recommendation** - Prior year's encumbrances were reported as fund equity accounts on the appropriation reports, i.e., they had a beginning balance from the prior year, which, as a result, caused available fund balance to be misstated on the general ledger. We had recommended that prior year's encumbrances be reported at the end of the appropriation reports in a separate department. Rather than reporting a beginning balance for the encumbrances, a budget entry should be made for the dollar amount of the encumbrance. When this is done, the correct amount of fund equity would be retained intact, and this would also allow comparison of budgeted (encumbered) amounts with the actual expenditures on the encumbered line items.

**Status** - We had noted that this corrected during the 1997 audit.

**CEMETERY TRUST FUNDS**

**CEMETERY MAINTENANCE COSTS**

**Finding/Recommendation** - Cemetery Trust funds are in most instances established to account for funds collected for perpetual care of specific cemetery lots, with the income on the funds used to pay for the annual costs of this care. We had noted during our audit work on the Cemetery Trust funds that the funds did not appear to be paying for the maintenance costs associated with the lots.

**Recommendation** - We would recommend that the Board of Selectmen and the Trustees meet to determine the purpose of the Cemetery Trust funds. If the funds are intended to be used to pay for the maintenance costs of the perpetual care lots, than an equitable allocation formula should be developed to charge each individual perpetual care trust.

**Status** - We noted that funds had been transferred to the Cemetery Maintenance fund.

## Notes

# Selectmen's Report

For the past three years, your Board of Selectmen has worked very hard to contain the cost of government in the Town of Peterborough, while maintaining the excellent quality of services that befits the needs of the town. As a result, budgets over that three year period were reduced by almost 10 percent and the town portion of the town rate was reduced by 14 percent, from \$9.22 per thousand to \$7.96 per thousand in 1997. At the same time, significant investments were made in the town facilities and in the personnel infrastructure of town government. During that period of time from 1995 through 1997, we have renovated the town house, acquired and equipped a new police station, built a new recycling facility, added a new recreation building, and closed the Starkweather landfill operation. But more importantly, we have revamped our personnel infrastructure through the hiring of new Town Administrator, Finance Director, Public Works Director, Community Development Director, and Police Chief. As a result, in terms of our basic professional capabilities and our brick and mortar facilities, the town is well positioned to move forward into the 21st century.

As we move into 1998 and look to the future, we think now is the time to prepare the basic infrastructure of the town of the next 50 years. The last time we did this was just after WWII, almost 50 years ago, when the citizenry and the leadership of the town saw the same need. It was then we took, the initial steps; our basic water and sewer systems were installed, and street, highway, and bridge programs were initiated. Now, it is time for us to reinvest in that basic infrastructure to ensure that those systems will serve our needs in the future. This year, we begin that process anew. For the reasons for the first time in three years, you will note an increase in the town portion of the budget and in the town portion of the tax rate. In order to plan for and begin this infrastructure renovation project, the town budget is up overall by approximately 8% but still less than the 1995 budget. And while the town portion of the tax rate has increased by 7% for 1998, it is still 7% less than it was in 1995.

With these modest increases, we can begin the process by developing our critical water resource and planning for mandated

upgrades in our waster water system. We can install an integrated information and financial management system that permits our various departments to enter the 21st century with 21st century technology. We can install an adequate computerized mapping system that will serve the needs of community development planning and our zoning and planning boards. We can proceed with the development into the master plans of the community . We can plan for the wecxension of the electric utility restructuring efforts, to include the upgrading of our telecommunications and cable systems. In short, we, the Board of Selectmen, are attempting to lay the groundwork for the continued valid success of Peterborough as the lead community in the Contoocook Valley, and we thank you for your continued support.

It has been our pleasure to serve you in 1997, and we look forward to serving you in 1998 as we strive to keep "Peterborough a good town to liven in"

Respectfully,

Lawrence Ross  
Charles Leedham  
Roland Patten

# Town Administrator's Report

One word best sums up the composition and character of our community - volunteerism. We should not fail to recognize the continuing contribution of the many Boards, Committees and Commissions who meet throughout the year. They guide the town's development to insure that our history and character are preserved; they review budgets and procedures to insure that services desired by the citizens are delivered promptly and efficiently; and they provide guidance on special projects to insure community input.

This subject is appropriate in 1997 due to the generous donations of money, resources, material and labor which resulted in the commencement of a renewal of our downtown. Downtown Peterborough is documentation of the community's genesis - it is that piece of real estate that defines Peterborough.

In 1997, the Arts Auction Group and Downtown 2000 worked for a third consecutive year to insure that the residents of Peterborough will one day experience the joy of a river front park, within the downtown boundaries.

The Town was also fortunate to receive a generous donation to the library from Arlene Magaw a long term volunteer at the library. It will be used to purchase the Catherine Sage property which will insure the long term viability of our library.

Many thanks to Francie Von Mertons and the Granite Bank for the contributions of photographs depicting the history of MacDowell Colony that now hang in the Town House lobby. Now visitors and residents alike have a place to go, to learn about how the colony came to be.

These contributions and others in town create a philosophy and environment in which the employees provide municipal services to our citizens. Although the tax rate is projected to rise to \$8.53 in 1998, it should not be overlooked that the town's portion of the tax rate has fallen over fourteen percent in a three year period. The investments in technology and personnel have reaped benefits in the form of more efficient delivery of services.

Community Development continues to plan the implementation of a Geographic Information System, which is designed to provide all departments with standardized land use information.

The department will continue to look at our codes in an effort to provide updated ordinances that are user friendly.

The Wastewater Department recently purchased a sewer camera which will allow employees to determine just what condition our sewer lines are in. No more digging up the entire street to find an obstruction.

The Economic Development Authority spent a considerable amount of time examining possible land that could be developed into an industrial development park.

Lastly, not the least important, the Public Works Director is looking toward the future and is recommending that funds be appropriated to support our infrastructure. The Spring Road Bridge was replaced with state funding providing eighty percent of the cost. This year for the first time we are recommending that a capital reserve fund be established to set aside funds that will be used to obtain the 20% match required to receive state funds. In addition, there are additional funds in the budget to reconstruct additional miles of road.

While I am pleased at the progress made in achieving our goals, I realize that more needs to be done to contain costs, deliver quality services and meet the challenges of the future.

I wish to thank the Department Heads and the other dedicated hard working Town employees who have helped carry out the direction which has been given by the voters. In particular, I wish to recognize the Finance Director. Her expertise and dedication was unsurpassed this year.

Finally, I wish to thank the citizens of Peterborough for your support and invite your suggestions for a better tomorrow.

Respectfully submitted

Pamela Brenner  
Town Administrator

# Public Works Department

## Highway Division Report

### 1997 Project Review

Members of the Highway Division are to be commended for their 1997 accomplishments and continued dedication to the maintenance of our infrastructure.

The flexibility and "can-do" approach as evidenced this year has been most appreciated. Major projects include:

- Construction of approximately 13 miles of roadside ditches, primarily in the Old Greenfield, Gulf, Old Bennington and East Mountain areas.
- Replacement of deteriorated culvert pipes on East Mountain Rd., Old Greenfield, and Gulf Road.
- Cold-mix reshaping and chipseal application on approximately 6.6 miles of roadway including: Old Greenfield, Holt, Gulf, Crosby and Old Bennington roads.
- Mowing projects included: EMS and Scott Mitchell Landfills; Town wastewater plant and sewer right-of-ways; Town Well sites; and rural roadsides.
- Sidewalk and street sweeping.
- Downtown pavement markings, line striping and signage.
- Bogle Road reconstruction (1400 L.F.).
- Hot bituminous pavement overlay on Prospect, Winter, Ames, Mercer, Wakefield, and a portion of Goyette Ave.
- Assisted with construction, signage, and waterline construction at Cunningham Pond Recreation area.
- Constructed concrete slabs for emergency generators at Police Station and Rte. 202 South Wastewater pump station.
- Assisted with Recycling Center Building construction/temporary facilities.
- Catch basins/storm drainage improvements on Pine, High, Cheney, and Grove Streets.
- Approximately 300 catch basins were cleaned/inspected.
- Spring Road Bridge was reconstructed to provide safe passage for legal trucks. Funding for the project included 20% Town and 80% New Hampshire Department of Transportation support.

-Sidewalks along Grove and School Street were reconstructed with concrete and clay brick.

-The Public Works Department advertised approximately 20 items for public bid.

Doris Hamberg joined the Public Works office on June 2, 1997 as secretary.

Larry Merrifield, Highway Superintendent, has achieved the classification of Senior Road Scholar from the U.N.H. Technology Transfer Center, having completed seventy (70) contact hours in highway maintenance subject areas.

Doris and Larry are valuable members of the department who, along with the Director, are most interested in your comments and suggestions regarding our services.

We all look forward to a very busy year in 1998.

Respectfully Submitted,

Edward L. Chase, P.E., Public Works Director

# **Public Works Department**

## **Recycling Division Report**

### **1997 Project Review**

The Recycling Division experienced a major upgrade of facilities for 1997. Following the Town Meeting vote to reject privatization of the Transfer/Recycling facility, voters authorized the construction of a new Recycling building and the purchase of necessary equipment.

Bids were solicited for a design/construct package for the new 50' x 110' pre-engineered metal building to replace the structurally deficient and functionally obsolete wooden structure.

Construction of the building was completed by Creative Tectonics of Bedford, NH, with our Grand Opening ceremony on December 6, 1997. Members of the Recycling Division are very excited with the new facility and we all look forward to the long-term recycling opportunities and efficiencies that will be available as a result of these investments.

The 1997 recycling revenue amount is \$22,101.64, of which, recycled sales totaled \$20,552.23 and \$1,549.41 totaled other fees collected.

The Public Works Department has received from NH Department of Environmental Services (NHDES), approval for the cleanup of the old scrap metal pile and plans to initiate cleanup activities in 1998.

The Director and Town Administrator continue to work proactively with NHDES, in the remediation of the groundwater contamination at the Scott Mitchell Landfill site.

The EMS Landfill site continues groundwater sampling, analysis, and reporting to NHDES.

To date, the landfill closure construction efforts have proven to be very successful.

Respectfully Submitted,

Edward L. Chase, P.E., Public Works Director

# **Public Works Department**

## **Utilities Division Report**

### **1997 Water and Wastewater Project Review**

In 1997, Utilities Division personnel were challenged with many new and exciting projects; some of which will continue into 1998. Below is a highlighted summary of the many projects completed.

#### **WATER**

- The Cheney Tank was sandblasted and repainted.
- New controls were installed for the Summer Street Well, along with new meters installed at all three Wells (Summer St., North Well, and Tarbell Well).
- Nearly 300 new meters were installed throughout town, with more to follow in 1998.
- Three meter pits and meters were installed at the cemeteries.
- Installed three hydrants at: 1 Pine Street, 99 Kaufman Drive and 25 Powersbridge Road, all with shut-off valves in front of them.
- Winterized all Town hydrants and updated the inventory.
- The Reynolds Drive multiple tap situation has been corrected.
- Completed the 1997 Lead and Copper sampling.

The water supply continues to be a concern for Peterborough, particularly between mid-June and September. We hired the firm, Emery and Garrett Groundwater, to analyze potential groundwater sources that should lead into development of a new water supply in 1998.

The remetering program initiated in 1997 includes the installation and verification of backflow devices that will provide the mandatory public health assurances, and implement our automated billing program.

#### **WASTEWATER**

- The old controls at Vose Farm Lift Station were replaced with new controls.
- The Wastewater Treatment Facility handled in excess of 120

- million gallons of influent this year, with acceptable results.
- The Annual Toxicity test performed, received acceptable results which help keep our overall lab costs to a minimum.
  - The State Inspector performed our annual review with favorable results.

## UTILITIES

- The Utility Division relocated from the Public Works garage to the Police Department garage which provides more space and better security.
- All utility personnel attended training covering both water and wastewater areas.

The Utility Division staff, wish to thank all who have contributed their help and support with any of the above projects. We also would like to thank our residents for their participation and patience with the installation of the new meters.

Respectfully Submitted,  
Edward L. Chase, P.E.,  
Public Works Director

# Public Works Department

## Maintenance Division Report

### 1997 Building and Grounds Maintenance Project Review

The Buildings & Grounds Division has been extremely busy with many projects: updating existing buildings and equipment with new parts, paint, fixtures, etc. Major projects performed:

- New wiring and meter pedestal was installed for new street lights near Toadstool.

- Three street lights on Grove Street received new wiring.

- The tire balancer and tire changer at the Town Highway garage was rewired.

- The Highway garage roof received a coating of sealant.

- The Library had part of the roof resingled, and the ceilings, outside trim, and railings painted.

- The bathhouse at Cunningham Pond received new wiring.

- New light fixtures were installed at the Wastewater facility.

- Installed new support beams at the old Recycling Center.

- The compactor at the Recycling Center received new wiring.

- The old flagpole at the Town House was laid to rest and replaced with a fiberglass pole.

- The upper hall floor of the Town House was refinished and a new sound system was also installed in the upper hall.

- A new railing was installed in the Town House.

- Landscaping projects were completed at the Police Station, the Library and the Town House; and numerous other projects were completed in the Town buildings.

Superintendent, Bob Wilder, supervised construction contracts including: exterior trim painting at the Library and the installation of new emergency generators at the Police Station and the Route 202 South Wastewater pump station.

Cliff Monkton joined this division in 1997. Bob and

Cliff continue to provide the daily maintenance and repairs to Town buildings, as well as assistance in winter snow and ice control. Their efforts and dedication have been invaluable in the preservation of our buildings and grounds.

Respectfully Submitted,

Edward L. Chase, P.E., Public Works Director

# Household Hazardous Waste Committee

Again, this year two Household Hazardous Waste Collection Days were held, the first on April 19th, timed to coincide with Earth Day (April 22) and a Fall Clean Up day on October 18th. Residents of Sharon-which is our Solid Waste District partner participated in both collections. The Town of Dublin joined us in the Spring and again the Town of New Ipswich joined us in the fall. We continue to use a pre-registration system which allows us to control costs tightly, as well as to schedule the traffic flow smoothly and quickly.

Over 300 households were represented in both collections and a total of over 4000 gallons of regulated hazardous materials were accepted for proper disposal under EPA and UN requirements, including the recycling of suitable paints.

In addition we continued to accept both paint and batteries at the Recycling Center(in warm weather) for convenient collection of substances regulated under the State Universal Waste Rule. This program has recently been expanded to include the collection of fluorescent bulbs, which are no longer accepted in New Hampshire landfills or incinerators due to their mercury content.

As part of our on-going public education program we created and distributed Non-Toxic Cleaning Kits to participants in both collections. These kits have received a great deal of attention statewide, have been featured in several presentation by the Department of Environmental Services, were copied by the Town of Londonderry, and will be showcased in five HHW workshops sponsored by DES in 1998. We appreciate the help given by the Peterborough A&P, Sterling Business Systems and Savron Graphics in creating our Non-Toxic Cleaning Kits.

Support for the Household Hazardous Waste Collection program has been strong and we are grateful to the Town Departments, committees, staff, and Selectmen who continue to back us. Special thanks to Belletete's Building Supply who again helped to fund the Paint Recycling program. Grants totaling \$4,341 were received from the New Hampshire Department of Environmental Services (DES) Hazardous Waste Clean up Fund toward public education and to offset tax-supported HHW disposal.

Plans for 1998 include two more collections, on April 18 and on October 19. Both Sharon and New Ipswich will participate with Peterborough again this year, and we welcome the addition of Bennington for our Spring collection as well.

Members of the Household Hazardous Waste Committee welcome comments and suggestions at any time.

**TOWN WARRANT**  
**STATE OF NEW HAMPSHIRE**

To the inhabitants of the Town of Peterborough, in the county of Hillsborough, in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Town House in said Town on Tuesday, the Tenth day of March 1998, at eight a.m. (Polls close at 7:00 p.m.) to ballot for Town Officers and other questions required by law to be decided by official ballot. Pursuant to the authority of RSA 39:2-a all business other than official ballot questions will be recessed until 9:00 a.m., Saturday, March 14, 1998 at the Town House, to act upon the following subjects:

**Article 1.** To choose all necessary Town Officers for the year ensuing. (By Official Ballot).

**Article 2.** To see if the Town will vote to amend the Zoning Ordinance as proposed by the Planning Board and others, or take any other action relating thereto. (By Official Ballot).

**Article 3.** To see if the town will vote to authorize the Board of Selectmen to acquire the Elizabeth Brighton property on Hunt Road (Tax Map U11 Lot 6 ) for the purpose of providing a municipal water supply. Further, to see if the town will vote to raise and appropriate the sum of **One Million Five Hundred Thousand Dollars (\$1,500,000.00)** for the establishment of a town well, well house, land acquisition, water transmission mains, engineering, computer mapping system, and appurtenances thereto; and to authorize the issuance of not more than \$1,500,000.00 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33) and to authorize the municipal officials to issue and negotiate such bonds or notes and to determine the rate of interest thereon. Said amount is supported 100% by user fees and will not be supported by taxes. (The Board of Selectmen and the Budget Committee recommend this appropriation) (2/3 ballot vote required).

**Article 4.** To see if the town will vote to authorize the Board of Selectmen to amend the Agreement between the Town of Peterborough and the Peterborough Retirement Community at Upland Farm, Inc. d/b/a RiverMead dated 12-20-94 concerning the Well Site acquired by the Town

from RiverMead to allow the Town to search elsewhere on RiverMead property for a suitable Town Well site, in consideration for the Town reconveying its present Well Site and the rights of way and easements relating thereto, to RiverMead, provided the present Well Site is not used by RiverMead for drinking water purposes, or take any other action related thereto. (The Board of Selectmen and the Budget Committee recommend this article).

**Article 5.** To see if the town will vote to raise and appropriate the sum of **Seventy-Two Thousand Dollars (\$72,000)** for the purchase of the Catharine Sage property at 14 Concord Street (Tax Map U17Lot 141 ) to be used as an extension of the Town Library. Said amount is to be paid directly by the Library trustees to the seller of the property, will not be supported by taxes, and is shown as an offsetting revenue. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 6.** To see if the Town will vote to adopt Chapter 162-K of the New Hampshire Revised Statutes, which if adopted will grant the Town authority to establish tax increment financing districts. (The Board of Selectmen and the Budget Committee recommend this article.)

**Article 7.** To see if the Town will vote to:

- a) Establish a municipal economic development and revitalization district as shown on a map entitled Proposed Greater Downtown Tax Increment District (dated February 15, 1998) and which generally encompasses the historic downtown area, portions of the Contoocook River, and the commercial areas of Route 202 south. The district will have the name of Greater downtown Tax Increment Financing District.
- b) Adopt the Greater Downtown Tax Increment Financing Plan, dated February 15, 1998, which includes the stipulation that no funds arising from this district other than those included in Article 8 will be expended until a more comprehensive and specific plan is adopted by Town Meeting vote.
- c) Authorize the Board of Selectmen to appoint a District Administrator in accordance with the provisions of 162-K:13 and to appoint a five-member Advisory Board in accordance with the provisions of 162-K:14. The function of the Advisory Board shall be to advise the Board of

Selectmen and the District Administrator on the establishment of a more comprehensive and specific development plan for the District, and to then advise and assist in the implementation of that plan, once approved by Town Meeting. (The Board of Selectmen and the Budget Committee recommend this article.)

**Article 8.** To see if the town will vote to raise and appropriate the sum of **Twenty Five Thousand Dollars (\$25,000.00)** to obtain engineering services to evaluate the potential cost, probable number of parking spaces and environmental issues at each of two downtown sites for possible location of a future parking lot. The funds would come from the Greater Downtown Tax Increment Finance District. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 9.** To see if the town will vote to approve the cost items included in the collective bargaining agreement reached between the Town and AFSCME Council 93, Police Department employees which calls for the following increases in salaries and benefits:

Year	Estimated Increase
1997-1998	21,264.00
1999	20,216.00
2000	18,469.00

and further to raise and appropriate the sum of **Twenty-One Thousand Two Hundred Sixty-Four Dollars (\$21,264.00)** for the 1998 fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over those of the appropriation at current staffing levels paid in the prior fiscal year. (The Board of Selectmen and the Budget Committee recommend passage of this appropriation).

**Article 10.** To see if the town will vote to approve the cost items included in the collective bargaining agreement reached between the Town and Teamsters Local 633 Public Works employees which calls for the following increases in salaries and benefits:

Year	Estimated Increase
1997-1998	21,877.00
1999	27,115.00
2000	22,096.00

and further to raise and appropriate the sum of **Twenty-One Thousand Eight Hundred Seventy-Seven Dollars (\$21,877.00)** for the 1998 fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over those of the appropriation at current staffing levels paid in the prior fiscal year. Eighteen Thousand Two Hundred Seventeen Dollars (\$18,217.00) will come from general taxation, the remaining Three Thousand Six Hundred Sixty-One Dollars (\$3,661.00) will come from the Water and Wastewater Departments. (The Board of Selectmen and the Budget Committee recommend passage of this appropriation).

**Article 11.** To see if the Town will vote to adopt a Code of Ethics for public servants of the Town of Peterborough, public servants being all elected and appointed officials of the Town, all full-time and part-time employees of the Town, whether paid or unpaid, and all volunteers who serve the Town, or take and other action relating thereto. (The Board of Selectmen recommend passage of this article).

**Article 12.** To see if the Town will vote to raise and appropriate the sum of **Four Million Three Hundred Ninety-Seven Thousand Nine Hundred Twenty-Six Dollars (\$4,397,926.00)** which represents the operating budget. Said sum does not include special or individual articles addressed. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 13.** To see if the town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of Bridge Restoration and to raise and appropriate the sum of **Fifty Thousand Dollars (\$50,000)** to be placed in this fund and to designate the Board of Selectmen as agents to expend. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 14.** To see if the town will vote to raise and appropriate the sum of **Forty-Six Thousand Dollars (\$46,000.00)** for improvement and

construction in the town parking lot east of the Peterborough Diner and the Toadstool Book Shop, including lighting, engineering and drainage, with Downtown 2000 Corporation to provide matching funds for park construction, landscaping and lighting along the Contoocook River between Yankee Auto Parts and the Nubanusit River. (The Board of Selectmen recommend this appropriation). (The Budget Committee does not recommend this appropriation).

**Article 15.** To see if the town will vote to raise and appropriate the sum of **One Hundred Thousand Dollars (\$100,000)** (Gross Budget) for a computer mapping system of the town. Sixty Thousand dollars (\$60,000) will come from the Wastewater Department, the remaining Forty Thousand Dollars (\$40,000) will come from general taxation. This will be a non-lapsing account per RSA 32:3,VI and will not lapse until the mapping is complete or in three years, whichever is sooner. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 16.** To see if the town will vote to raise and appropriate the sum of **Fifty Thousand Dollars (\$50,000)** for the purpose of reclaiming, repairing and reconstructing town roads. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 17.** To see if the town will vote to raise and appropriate the sum of **Thirty Thousand Dollars (\$30,000)** to facilitate community discussion and participation in the preparation of an Economic Development Policy Plan for Peterborough. (Gross Budget). The Town has received a grant from the Hazel Goyette Fund in the amount of **Fifteen Thousand Dollars (\$15,000)** to offset one half of this expenditure. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 18.** To see if the Town will vote to raise and appropriate the sum of **Six Thousand Five Hundred Dollars (\$6,500)** for the construction of a fence at Cunningham Pond. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 19.** To see if the Town will vote to raise and appropriate the sum of **Seven Thousand Nine Hundred Dollars (\$7,900)** for the purpose of purchasing playground equipment at Adams Field and authorize the withdrawal of **Seven Thousand Nine Hundred Dollars (\$7,900.00)** from the

proceeds of the Albert W. Noone Fund for this purpose. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 20.** To see if the Town will vote to raise and appropriate the sum of **Two Thousand Five Hundred Dollars (\$2,500)** for the purpose of supporting the Peterborough Arts Festival. (The Board of Selectmen recommend this appropriation). (The Budget Committee does not recommend this appropriation.)

**Article 21.** To see if the town will vote authorize the Board of Selectmen to enter into a lease/purchase agreement for the purpose of purchasing a computer system, and to raise and appropriate the sum of **Fifty Thousand Dollars (\$50,000)** (Gross Budget) for the first year's payment for that purpose. Thirty-Three Thousand Three Hundred dollars (\$33,300) will come from general taxation, the remaining Sixteen Thousand Seven Hundred Dollars (\$16,700) will come from the Water and Wastewater Departments. (\$8,350 from each enterprise fund). The subsequent years payments call for the following amounts:

<i>Year</i>	<i>Cost</i>
1999	\$50,000
2000	\$50,000

(The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 22.** To see if the Town will vote to raise and appropriate by user fees the sum of **Four Hundred Forty Thousand Nine Hundred Eighty-Five Dollars (\$440,985.00)** for the operation the Water Department. Said amount is supported 100% by user fees, will not be supported by taxes, and is shown as an offsetting revenue. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 23.** To see if the Town will vote to raise and appropriate by user fees the sum of **Three Hundred Fifty-Four One Hundred Five Dollars (\$354,105.00)** for the operation of the Wastewater Department. Said amount is supported 100% by user fees, will not be supported by taxes, and is shown as an offsetting revenue. (The Board of Selectmen and the Budget Committee recommend this appropriation).

**Article 24.** To see if the Town will vote to authorize the treasurer, with the approval of the Board of Selectmen, appoint a deputy pursuant to RSA 41:29-a. (The Board of Selectmen recommend this article).

**Article 25.** To see if the town will vote to raise and appropriate the sum of **Twenty Thousand Dollars (\$20,000)** (Gross Budget) to be added to the Cemetery Expendable Trust Fund previously established, and to transfer said amount from the Cemetery Trustees checking account. This amount is supported 100% by the sale of deeds for burial lots is not supported by taxes, and is shown as an offsetting revenue. (The Board of Selectmen and the Budget Committee recommend this appropriation).

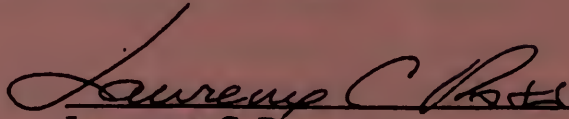

**Article 26.** To see if the Town will vote to authorize the board of Selectmen to acquire by dedication and acceptance, gift, purchase, grant or devise any interest in land for purpose of effectuating town roadway maintenance, storm drainage improvements, and water/wastewater maintenance activities. Any acquisition by the Town pursuant to this grant of authority shall be made without consideration of cash by the town. (The Board of Selectmen recommend this article).

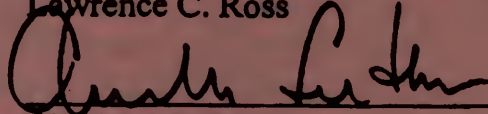

**Article 27.** To see if the Town will vote to authorize the board of selectmen pursuant to RSA 38 to acquire all poles, wires, conduits and electrical distribution and transmission facilities within the Town of Peterborough, and such other facilities outside the Town of Peterborough, that the Board of Selectmen may deem appropriate for purposes of establishing and operating a municipal electric transmission and distribution system, with the further understanding that any agreement to acquire and determination of acquisition price shall be presented to a future Peterborough Town meeting for approval and ratification prior to final acquisition of such electric utility property? (The Board of Selectmen recommend this article).

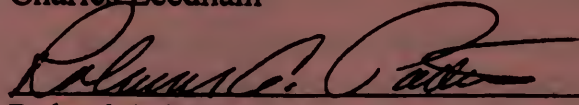

**Article 28.** To hear the reports of Agents, Auditors, and Committees or Officers heretofore chosen, and to pass any vote relating thereto.

**Article 29.** To transact any other business that may legally come before this meeting.

Given under our hands and seal this Twenty-Third day of February, in the year of our Lord Nineteen Hundred Ninety-Eight.

# Library Director's Report

In 1881, the Trustees of the Portsmouth (NH) Public Library saw its mission as "Improving the intelligence of the community." Fifty-eight years before that, Abiel Abbot persuaded his fellow citizens in Peterborough to tax themselves in order to establish the first free public library. The library's mission was identical to Portsmouth's: to be a source of education for all people. Sometime this year, I read an article that referred to the library as "the privilege of ideas." This concept appeals to me.

There has been much discussion about the role of the public library and the services it provides to its community. Books and technology are not mutually exclusive. While there are customers who prefer one or the other, there are other customers who expect both. As we approach the millenium, the Peterborough Town Library offers a mix of digital and physical, of computer access and print; a "privilege of ideas."

For this most successful year, I would like to thank the staff and volunteers for their dedication to service, and the library Trustees for their vision. I appreciate the support of the Friends of the Library, my colleagues in Town Government, and the citizens of Peterborough. A special thank you goes to arlen Magaw, whose generous donation allowed us to dream.

Respectfully submitted,  
Ann Geisel

# Conservation Commission

## 1997-Report of Activities

Among the projects this year, the Conservation Commission celebrated the purchase of the Fremont Field, the acquisition of which now brings the Fremont property to over 170 acres. The celebration included a mushroom foray and cookout, and inauguration of the new trail and guide to the history of the property-going back to the glacier's retreat! We urge you all to enjoy this beautiful addition to the Town's permanently protected open space. Just look for the trail sign off the Old Jaffrey Road, half a mile from Route 202. Trail guides are in the mailbox at trailside.

New signs, like that identifying the Fremont land, now mark all the trails that are maintained by the Conservation Commission, including the Old Railroad Trail on Scott Mitchell Road, The Wheeler Trail on Route 101, and the Raymond Trail on East Mountain Road.

In October, the Commission presented the results of a Cost of Community Services Study for the Town, done with the help of an Antioch New England graduate student. This was an attempt to get the word out on a new generation of studies that ties rapid development increased tax burden owing to the increased costs of community services demanded by new development. The old conventional wisdom that attracting new taxpayers will help to pay old bills does not stand up to examination. Instead, new taxpayers often lead to new tax bills-to pay for expanded schools, waste water treatment, town wells, sidewalks, etc. Given the high cost of development, open space looks even more attractive-fiscally as well as scenically. Copies of the study are available from the Commission.

We have also begun to set up a system for monitoring the conservation easements the Commission oversees. When landowners put a conservation easement on their land, they agree to give up the rights to develop the specific land in easement. This is usually done by someone who loves their land and wishes to preserve it forever in its natural state; easements also make sense for tax and estate planning purposes. In many cases the Conservation Commission has been designated as the organization that monitors the easement and ensures that no development

takes place. For more information on easements feel free to contact a Commission members.

This year we have also signed a contract for a timber stand improvement cut on the Kane tract on East Mountain Road, purchased and planted maple trees in front of the police station, and contributed financially to upgrading the maps available to the Community Development Director.

We have worked with the Community Development Director and the Planning Board on the proposed major residential development on Burke Road, trying to protect as much river frontage as possible, and have co-sponsored a workshop at the Harris Center on the ecological importance of river corridors. Somewhat related to river corridors, the Commission has signed on for the Keeping Track program, where a group of 20 locals will be trained as wildlife monitors by tracker Sue Morse. After the training, records will be kept on wildlife activity in Town-including along the river. The Keeping Track Movement has spread from towns in Vermont to California. We are pleased to be among the first in New Hampshire.

Members of the Commission also serve on the town's Economic Task Force where we hope our perspective on how the beautiful, unique, and fragile community of Peterborough can best be preserved is beneficial.

Respectfully Submitted,

David Stephenson, Co-Chair  
Frances Von Mertens , Co-Chair  
Richard Estes

# Office of Community Development

1997 was the first year of the Town's new Office of Community Development. Considerable time was spent working with a number of the town's committees and organizations, seeking their input and attempting to establish better coordination and cooperation. At the request of the Community Development Director, representatives from the Planning Board, Zoning Board, Conservation Commission, Long Range Planning Commission, Downtown 2000, Riverwalk, Economic Development Authority and the Chamber formed a Community Development Task Force. This Task Force, Chaired by Katharine Eneguess of the EDA, will assist the Office of Community Development in formulating an economic development plan that can then be brought to the Planning Board, Board of Selectmen and Town Meeting for approval. It is hoped that the task force can also serve as a focal point for discussions about community development issues.

A major condominium project in northeastern Peterborough in the Burke Road area finally received conceptual Planning Board approval after many years of on-going discussion. With significant assistance from neighborhood residents, the Conservation Commission and the Planning Board, a new plan has been formulated which should better serve the interests of the Town.

Without listing all of the projects that have been addressed during 1997, it is important to note what appears to be an increase in communication and cooperation among different groups; this will be essential if we are to forge a new direction for the Town. Perhaps the most important accomplishment of OCD during 1997 was to start a new process for working with the development community. It is hoped that in future years the Planning Board will spend less time on project reviews and more time on planning; for that to happen, we also need a better, more cooperative and less confrontational process for assuring that development proposals are consistent with what the Town wants. OCD will continue to focus on this effort in 1998.

In 1998 OCD will start a multi-year program working with the Planning Board and Task Force to create a new comprehensive Community Development Plan and also review all of the Town's

land use ordinances. Of greatest importance is to assure adequate protection of our drinking water supply; but many other issues will be addressed as well. With your positive support at Town Meeting, we can establish a clear accurate mapping system for the Town and use this to create a new blueprint for community prosperity.

Under the leadership of the Economic Development Authority, a proposal has been formulated to create a tax increment finance district for the greater downtown commercial area. With your positive support at Town Meeting, this can become one more tool to help the Town address our serious infrastructure issues.

# Planning Board Report

The Peterborough Planning Board saw a major decrease in the number of applications this year, from a total of 27 in 1996 to 16 in 1997. The Board held public hearings on 8 site plan applications and 8 subdivision applications this year. They conducted two site visits.

The Board thanks Heather Peterson and Charles Leedham for their service. Charles Leedham, Ex Officio, 1996 was replaced by Roland Patten, Ex Officio, 1997. The Board also welcomed new member C. Peter LaRoche. The Board worked directly with Peter Ryner as Community Development Director and Tammie J. Blanchette continued to provide secretarial services.

The Board's Minor Site Plan Review Committee met a total of 11 times to hear 10 requests. The Committee referred one application to the full Board due to the nature of the application.

As always, the Planning Board encourages everyone to participate in the planning process, whether it be attendance at regular monthly meetings dealing with applications for subdivisions and site plans, or at the public hearings on zoning amendment.

# Zoning Board of Adjustment

The Peterborough Zoning Board of Adjustment met a total of 16 times to hear 42 cases. Several cases were on the agenda for more than one hearing. The Board approved 31 of the requests. The Board denied 5 request and the remaining 6 were withdrawn by the applicant.

The Board saw a few changes in membership with the addition of Jeanne Dietsch as an alternate member and Greg Lawn was appointed as a full member. The Board of Adjustment would also like to extend its sincere thanks to John Franklin and Elizabeth MacEachran for their service to the Board.

The members welcome your suggestions and comments on our performance and procedure. We meet on the first Monday of each month in the Meeting Room of the Town House at 7:30 PM. All meetings are open to the public and you are encouraged to attend and participate. Applications may be obtained in the Community Development Office.

# Community Development Task Force

Moving toward a Community Development Policy, a comprehensive planning, growth and development strategy.

The Office of Community Development asked the Economic Development Authority to chair a Community Development Task Force comprised of all land use, conservation and public and private development groups. The task, to develop a comprehensive development policy plan over the next year and move toward clear agreement on town development strategy. To accomplish this, representation from two members of each committee or Board has been asked to participate. To then bring to the Task Force the knowledge, skills, expertise, thoughts, ideas and suggestions from their viewpoint. The membership of the Task Force currently includes the Planning Board, Zoning Board of Adjustment, Conservation Commission, Long Range Planning, Downtown 2000, Greater Peterborough Chamber of Commerce, Economic Development Authority, Riverwalk, and Selectmen. The CONVAL District and Capital Improvement Plan Advisory Committee will also be asked to participate in 1998.

The Task Force is in it's infancy stage and has begun with a strong educational component provided by the Office of Community Development. Presentations and discussion have included Peterborough's economic history, along with the current economic conditions and trends at the regional, national and global levels. Much good work and study has been also done by many of the Boards and Committees represented on the Task Force. The current and future work will be to review and take the lessons learned from each report, gather further expertise and knowledge and outline a specific strategy to guide Peterborough's immediate future.

To engage the broader public in this discussion, the Economic Development Authority successfully applied to the Major A. Erland and Hazel Goyette Fund for resources that will be dedicated to reporting the progress of the Community Development task Force to the community. Resources will be dedicated to finding the most useful way to gain feedback and consensus from the community, as a whole, during the next year. The total request was for \$30,000. The Town must match the first

\$15,000 from the Goyette Fund as is shows in the funding request which has been written as a warrant article in the 1998 budget.

Respectfully Submitted on behalf of the Community Development Task Force

Katharine Eneguess  
Chairman

# Economic Development Authority

Research and communications continue to be the watch words of the Economic Development Authority. Early in the formation of this Authority it became clear that fact based research is greatly needed. Our priority has been to change the perception that Peterborough is anti-growth. This requires current and accurate facts which then can be communicated to businesses looking to expand or move to the Monadnock Region and specifically, Peterborough. The status of our infrastructure needs to be continuously updated in a comprehensive manner. In concert with the EDA, water, wetlands, sewers, land parcel mapping and parking remain the focus of research being done by the Office of Community Development. There has been great progress since last report. Many development projects are being positively addressed and educational forums on economic development and opportunity are readily available to community members and interested investors. Economic activity within Peterborough is moving in a positive direction.

In 1997, the Economic Development Authority requested funds for an industrial land inventory and survey of the Town. This has been completed, well under budget. The factual information gained will require additional analysis, provide essential information to the Town well ahead in the ability to inventory available property. This will inform the Community Development Task Force as its works on a community development master policy plan in 1998. (See Community Development Task Force Report.)

Along with the above, two key pieces of work outline the accomplishments of the Economic Development Authority.

1. Getting the State to focus on the intersection of Route 101 and 202 and the Route 202 corridor throughout the Town of Peterborough.
2. The creation of the first Tax Increment Finance District.

Each requires an extraordinary effort of coordination with local, county and state officials. The Tax increment Finance District is a warrant article for 1998 and the Route 202 corridor and intersection is now in the planning phase in cooperative effort with the State of New Hampshire Department of Transportation.

It is with regret, that the Economic Development Authority accepts the resignations of Glen Swanson, Katherine Dodge and John Vance as they each move onto other opportunities of community service.

Respectfully submitted  
for the Committee:

Katharine Eneguess  
Chairman

# Finance Director's Report

## 1997

The Finance Department, which includes the accounting functions, tax collection, and utility billing for the Town, made some significant changes in 1997.

Our first accomplishment was to change the Town's method of financial reporting from a cash basis to a modified accrual and accrual basis of accounting. All governmental fund types, expendable trust funds, and agency funds utilize the modified accrual basis of accounting, with revenue being recorded when it is measurable and available, and expenditures recorded when the fund liabilities are incurred, except for long-term debt, which is recorded when due for payment. Financial statements for the proprietary funds (water & wastewater) are maintained on an accrual basis, with revenue recognized when earned and expenditures when incurred. While we have achieved a lot during 1997, there will be additional enhancements in the future.

The internal control structure is designed to insure that the assets of the Town are protected from loss, theft, or misuse, and that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. There were several financial and managerial changes made in 1997 to strengthen the internal control structure of the Town. Some of the financial procedures adopted were centralizing the collection of cash receipts, updating the purchase order system, adapting conformity in recording expenditures within each department, and revising the reporting procedures on taxes for the Town Treasurer. We believe that the Town's internal accounting controls adequately safeguard assets, provide assurance of proper recording of financial transactions, and maintain accountability of assets.

The 1997 Town Budget continued an earnest "Budget Reduction Program" which had been established by the Board of Selectmen in 1996. The purpose and goal of this program is to reduce the rate of growth in the cost of providing local municipal services and programs, without adversely affecting the essential services of the Town. This program has been successful over the past two years due to the dedicated and ardent work of all of the

department directors and the town administrator.

The finance staff developed a new type of real estate tax bill in order to increase efficiency of the department and supply additional information to our residents. The new bill is in the form of a mailer which saves on the cost of purchasing and stuffing envelopes. The new tax bill now shows the individual tax amounts for the School, Town, and County. We also acquired a presorted first class mail permit to save on the cost of postage.

During our review of the utility billing procedures, we discovered that there were many water meters that were not reading the use of water accurately or the water meters were inoperative. We worked with the utilities department to address these issues and obtained supplementary revenues for the water and wastewater funds. A new type of water metering system and the replacement of all water meters has been started. This project should give us a more accurate reading which will hopefully increase the annual revenues for the water and wastewater funds.

The finance staff, Ron Christian and Robert Geisel, has my sincere appreciation for their dedication and hard work on the accomplishments achieved in 1997. My special thanks is expressed to the employees of the other Town departments for their cooperation during the changes.

DIVISION OF FORESTS AND LANDS 603-271-2214

# REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

To aid your Forest Fire Warden, Fire Department and State Forest Ranger, contact your local Warden or Fire Department to find out if a permit is required. Violations of RSA 227-L:17, the fire permit law and the other burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$2,000 and/or a year in jail. Violators are also liable for all fire suppression costs.

There are ten Forest Rangers who work for the New Hampshire Division of Forests and Lands, Forest Protection Bureau. State Forest Rangers are available to assist communities with forest fire suppression, prevention and training programs as well as the enforcement of forest fire and timber harvest laws. If you have any questions regarding forest fire or timber harvest laws, please call our office at 271-2217.

There are 2400 Forest Fire Wardens and Deputy Forest Fire Wardens throughout the state. Each town has a Forest Fire Warden and several Deputy Wardens who assist the Forest Rangers with forest fire suppression, prevention, and law enforcement. The 1997 fire season was a safe period for wildland firefighters with no major injuries reported. The drought conditions experienced during the early summer months was a significant factor resulting in the total number of fires reported during the season.

The State of New Hampshire operates 15 fire towers, 2 mobile patrols and 3 contract aircraft patrols. This early detection and reports from citizens aid in the quick response from local fire departments. This is a critical factor in controlling the size of wildland fires and keeping the loss of property and suppression costs as low as possible.

# Fire/Rescue Ambulance Report

1997

The Peterborough Fire Department consists of one Chief, two Deputy Chiefs, one Fire Captain, one Ambulance Coordinator/Captain, two Lieutenants, thirty-two firefighting and emergency medical personnel, and a part-time administrative assistant. The Department provides fire, rescue, and emergency medical services to Peterborough and Sharon. Emergency ambulance service is also provided on a regular basis to Dublin, Frankestown, Greenfield, and Hancock. The Department also sends and receives mutual aid for fire, rescue and emergency medical services with area communities through the Southwestern New Hampshire District Fire Mutual Aid System.

## Operations

The Department responded to 865 incidents in 1997, of which 729 involved emergency medical services.

Fires inside structures (includes chimneys)	14
Vehicle fires	10
Brush/grass fires	4
Other outside fires	3
Emergency medical service	729
Extrication/rescue (motor vehicle accidents)	37
Other rescue	3

Dublin	89
Hancock	42
Greenfield	75
Fracestown	37
Sharon	13
Jaffrey	20
Temple	2
New Ipswich	2
TOTAL	729

### Risk Reduction and Public Education

The Department continued its fire safety education efforts in schools and day care centers. During Fire Prevention Week, members visited day cares and the elementary and middle Schools to present programs for the students. The Department Open House that week featured fire extinguisher training, fire safety videos, distribution of fire safety education materials, and a coloring contest.

Emphasis on properly operating smoke detectors in residential property and sprinklers in larger buildings is a priority of the Department. Construction and renovation projects are reviewed and monitored for fire protection features and fire code compliance from the planning stages through occupancy. The downtown area was the site of several major projects. Due to the age, types of construction and proximity of the buildings, many complex Fire Code issues were involved. We appreciate the cooperation of the developers.

We continued to review multi-unit residential buildings in the Town for code required smoke detectors. Many buildings are compliant but a significant number are not. Priorities have been developed based on the number of units and other risk factors, and efforts to ensure compliance continue. The cooperation of most property owners has been excellent in this effort.

The Department is happy to provide fire safety information to individuals or groups on request by calling 924-8090.

## **Training and Education**

Monthly drills on basic firefighting and rescue techniques were held under the direction of the Deputy Chiefs. Topics covered included water rescue, ventilation, wildland fires, vehicle extrication, dry hydrants, ladder pipes, use of self contained breathing apparatus, water supply, evacuation of health care facilities. Outside instructors presented classroom and hands-on training in school bus rescue and arson investigation. Public Service of NH presented a program on electrical emergencies related to their lines and equipment. In October a major casualty exercise was conducted jointly by the Department, Monadnock Community Hospital, and Harborside Healthcare-Pheasantwood. The exercise involved a mock roof collapse and fire in a nursing home with twenty victims injured. Fire suppression, extrication, triage, treatment and transportation of victims, as well as communication with the hospital, helicopter landing coordination and staging of resources were among the functions carried out in the field by over sixty fire and medical personnel from Peterborough and mutual aid towns. At the same time the hospital tested their systems which would be initiated with an incident of this magnitude. The assistance of the Peterborough Police and the help of the Boy Scouts who served as victims was most helpful.

Officer training consisted of additional monthly sessions which included pre-fire walk through of larger buildings, review of equipment and procedures, and evaluation of water supplies.

Emergency medical personnel participated in classes and seminars in-house and elsewhere, in order to maintain their certifications in various medical skills. Monthly training sessions were utilized to provide continuing education credit. Topics covered included patient assessment, cardiac care, packaging of accident victims, diabetic emergencies, and recertification in CPR. With the assistance of the Monadnock Hospital Emergency Department, medical personnel maintained certification in the use of automatic heart defibrillators and glucometers.

Many members of the Department spent additional time attending classes and seminars to further improve their skills. Several became nationally registered Emergency Medical Technicians while others upgraded their certifications from EMT-Basic to EMT-Intermediate. This enables them to provide a higher level of pre-hospital care to those patients who need it. Two

pump operation classes were held with several additional members now qualified as apparatus operators.

The Department supports and encourages participation in the Meadowood Fire School and other continuing education programs in fire, rescue, and emergency medical services. These programs enable the participants to maintain and upgrade their skills and to bring knowledge back to their fellow members.

The Department also served as the host for CPR classes for area personnel and provided on-site CPR training for several groups, including town employees. Fire extinguisher training was provided for civic organizations on request.

### **Apparatus and Equipment**

A new ambulance was placed in service to replace a 1990 unit that was overloaded and deteriorating. The Department's tanker was damaged beyond repair in an accident. Specifications have been developed for a replacement which will be paid for by insurance. Until its delivery, tanker coverage is being supplied by surrounding towns through the Mutual Aid system.

### **Water Supplies**

In conjunction with the Director of Public Works priorities were developed for the replacement and addition of hydrants to improve fire protection. In addition, the Department participates in planning relative to improvements to the municipal water supply and distribution system. Consideration of fire protection is an essential part of the planning process, and interaction with the public works and community development office is ongoing. Two new dry hydrants were incorporated into the Spring Road and Route 136 bridge reconstruction projects in order to improve water supplies for firefighting in areas beyond the municipal water system..

### **Support Activities**

The Auxiliary continued to support the Department with many hours of donated time at emergencies, training and other activities. They again sponsored a very successful Christmas party for members and their families.

The Explorer Post was very active with the Department, participating in training, emergency operations, and a variety of other activities throughout the year.

The Fire and Rescue Association, in addition to the generous support of citizens at large, was the recipient of a substantial grant from the Goyette Fund to maintain and preserve the Aquarius Fire Museum and its collection, especially the 1914 American LaFrance Pumper

### **Administration**

In accordance with the vote of the 1997 Town Meeting, a major change in funding of the ambulance service was initiated. This involved the implementation of user fees to defray some or all of the costs of operating the ambulance service. This is a change from the entirely tax-funded service in the past. Because of the lengthy process involved in setting up a billing system, completing the necessary documentation for insurance reimbursements, etc., billing was not fully underway until the end of the year. Thanks to the generosity of the Monadnock Community Hospital which is providing the billing service at no cost, we are now receiving payments for services rendered in 1997 and will move forward under this system in 1998.

We again stress that while we anticipate most of our fees will be covered by Medicare, Medicaid, workers compensation or private insurance, **NO ONE WILL BE REFUSED SERVICE DUE TO INABILITY TO PAY, LACK OF INSURANCE OR AN OUTSTANDING BALANCE.**

Another significant change was the establishment of a part-time administrative assistant position to the Department. This has improved the quality of record-keeping and other administrative functions in accordance with expectations for a modern fire-rescue service.

The Department, as always, is seeking men and women who wish to serve their community in a most rewarding way and can commit the time required to serve in the fire and emergency medical services.

In closing, we would like to thank the many people and organizations who assisted us throughout the year. The help of the other Town departments and officials is most appreciated in day to day business, risk reduction activities, and emergency operations. The support of the citizens of Peterborough, through tax dollars and contributions to our fund raisers, is gratefully received. Community support and pride in the services provided are the

greatest motivators for our members. The cooperation of the businesses who enable their employees to serve the public by responding to calls during work hours is essential to the success of the Department. Last, but certainly not least, we thank the families of Department members. They adjust to the many hours put in, often at inconvenient times, and continue to support the commitment of the men and women of the Department.

Respectfully submitted,

Stephen A. Black, Chief

Ronald Bowman, Captain

Bradley Winters, Deputy Chief

Michael Caisse, Lieutenant

Ronald Stickney, Deputy Chief

Paul Thibault, Lieutenant

Julie Thibault, Ambulance Coordinator/Captain

## **Cemetery Report**

During 1997 the Attorney General's office approved the cypress petition submitted by the Trustees of the Trust Funds to use a portion of the accumulated interest of Trust Funds for a number of major improvements in Town cemeteries. Among those projects are the paving of Upper Pine Hill Cemetery, landscape plantings in Middle Pine Hill Cemetery, directories and maps at the Upper and Lower Pine Hill entrances. During the year there were 19 burials. Seven deeds, for a total of 17 grave sites, were issued.

Respectfully submitted,

Robert Lambert  
JoAnn Hall  
Leonard Paradise

Cemetery Trustees

# William Diamond

## 1755 - 1828

William Diamond grew up in Boston where he learned his trade as a wheelwright. He moved to Lexington in 1775 to find work. When Paul Revere and William Dawes brought the alarm to Lexington, that the British were coming, Mr. Diamond rushed to the Lexington Common to join Captain Parker and the local militia. Mr. Diamond was ordered to remain there while the militia retired to the tavern and other houses nearby. Young Mr. Diamond was to wait for the British, and to sound the reveille on his drum at their arrival. In the early morning hours of April 19, 1775, the long roll of William Diamond's drum warned the minutemen. Moments later eight members of the Lexington militia lay dead or dying on the Lexington Green and the war had begun. Mr. Diamond borrowed a musket and followed the British to Concord where he fought against them. He joined the new Continental Army and served as a musician, i.e. drummer, in the battles of Bunker Hill, Trenton and Princeton. After the war he worked as a wheelwright and married Rebecca Simonds of Lexington in 1783. In 1795 the Diamonds moved to Peterborough to raise their six children on a thirty-two acre farm on what is now called Diamond Road. They had a small house and barn, three goats, two cows and a pig. A simple slate marks his grave in the Old Street Road cemetery. A very humble end to a man who marshaled our liberty with his drum! Mr. Diamond's drum is preserved by the Lexington, Massachusetts historical society. A member of Mr. Diamond's family still resides in Peterborough, Eva Diamond Stockwell of Webb Road.

# Health Department Report

1997

1997 was a busy year for the Peterborough Health Department.

I attended the two regular State Health Officers meetings, plus one additional special meeting as required.

I also responded to the following complaints:

9 Failed septic systems.

3 Heat complaints.

4 Asbestos complaints.

1 lead complaint.

I made 6 Day Care Inspections.

3 Foster Care Inspections.

1 Physical Therapy Unit inspection.

I would suggest that those citizens who use septic tank systems to please have your system checked out and maintained in good weather.

We have available at the Health Office a state booklet entitled "You and Your Septic System.". For those of you not familiar with such systems, reading it could save you money.

Respectfully Submitted,

James W. Lenane  
Health Officer

# **Joint Loss Management Committee**

## **Summary of Activities for 1997**

In compliance with State law, the Town has established a Joint Loss Management Committee to promote workplace safety in Town operations. The committee consists of designees from each Department with a balance between labor and management. Bill Cote of Compensation Funds of New Hampshire serves as an advisor.

The Committee met nine times during the year and achieved four major goals:

1. A safety policy for the town developed by the Committee was adopted by the Board of Selectman.
2. Inspection subcommittees visited the facilities of the various departments. During these visits, tours of the buildings were conducted with attention to safety considerations. The findings of the subcommittees were presented to the full committee for discussion. Input was solicited from all participants and recommendations made to further enhance workplace health and safety in each facility.
3. Items for ongoing training for employees were developed. A CPR class was presented in two sessions with employees from several departments participating. Suggestions for future training included addition CPR sessions and fire extinguisher operation. The Committee will be planning these and other programs.
4. Employee injury reports were reviewed by the Committee with the objective of preventing recurrences with training, equipment, or procedures. A new report of injury form was developed by the Committee with the assistance of Nancie Vaihinger in the Finance Department.

The Committee made substantial progress this year in developing ideas and enhancing cooperation among all employees of the town in the area of workplace safety. It should be noted that Peterborough continues to have an excellent safety record which is to the credit of all involved. The Committee thanks the Department Heads, Supervisors and Staff for another good year.

Thanks are extended to Mr. Cote of Compensation Funds of New Hampshire for his assistance in Committee activities, conducting the safety programs, and his supervision with inspections. The Committee is looking forward to working with him in 1998.

1997  
**Peterborough Police Report**

### **About the Peterborough Police Department**

The Peterborough Police Department is a 24-hour-per-day, 365-day-per-year public-safety agency consisting of 10 full-time officers, 6 part-time (special) officers and 2 clerk/dispatchers. We make every effort to operate two police vehicles at all times. During busy periods, our visibility may be greater.

Our standards are high. The men and women of the Peterborough Police Department are dedicated to their profession and to the community which they serve. Each officer has undergone a rigorous selection process and received up to 12 weeks of physical and academic training. Many officers are also certified in advanced skills beyond basic training. Staff training is encouraged and on-going.

An open house was held during the summer to allow citizens and businesses to meet the officers and tour the new facility. Held largely to bring the department closer to the community, we hope that people will continue to share their thoughts with us.

### **Staff**

A new concept in prosecution for the police department was introduced in 1997. The towns of Peterborough and Jaffrey pursued jointly funding a full-time prosecuting attorney. With the addition of this individual, the need for a police officer to assume a dual role as officer and prosecutor will be unnecessary. Although the concept will not be fully realized until 1998, both departments eagerly look forward to this endeavor.

Restructuring the department during the Fall of 1997 reduced the number of full-time police officers from 11 to 10. The department's prosecuting police officer holding the rank of corporal resigned his position. This position is not expected to be filled.

Entering 1998, two highly-deserved promotions will take effect. Sergeant Bruce McCall will assume the rank of lieutenant and Detective Ernest Belletete will assume the rank of sergeant. The dedication and professionalism these two officers demonstrate is an asset to the department and to the community.

Seven full-time officers will report to the lieutenant and sergeant along with six part-time officers and two clerk/dispatchers.

### **New Materials in 1997**

1997 was a tragic year for the New Hampshire law-enforcement community. Our hearts remain with the families and friends of the men and women struck down during the summer of 1997. Their tragic deaths were felt across the country. Several of the town's officers attended these highly emotional and personally-felt services.

**Bullet-Proof Vests.** The Peterborough Police Department and the town administrators are concerned with the on-going safety of the town's officers. Through their unanimous support, the department purchased bullet-proof vests for all full and part-time officers which will be delivered during the first quarter of 1998. Never before have vests been standard equipment for Peterborough Police Officers. These vests are now an integral part of the officer's uniform and are standard-issued equipment.

**Outside Call Box.** In August 1997, a call box was installed near the front door of the police station to better serve the public. This phone enables individuals who need police assistance to immediately speak to the Hillsborough County Sheriff's Department Dispatch Center during the times the police station is unstaffed. Dispatch will contact an on-duty Peterborough Police Officer and relay the information.

Since its installation in August, the phone has been used often to assist both Peterborough citizens and out-of-town motorists.

**Emergency Generator.** To enable the department to fulfill its essential-emergency services during power outages, we are equipped with a propane-gas powered emergency generator installed in November 1997. This allows the department to operate fully and continue to provide critical service to the community during severe weather conditions and other incidents interrupting power supply.

**Positive Interaction With School Administrators**

The Peterborough Police Department is committed to keeping the area schools safe and drug free through awareness and intervention. Two Peterborough Police Officers are certified Drug Abuse Resistance Education (D.A.R.E) officers. 1997 was a successful year for this program. 422 school children participated in the D.A.R.E. Program which educates children of the dangers of drug, alcohol and tobacco abuse.

Three Peterborough Police Officers serve as liasons with South Meadow School and Conval High School. Every other week these officers and the school administrators meet to discuss issues involving the school and local law enforcement. Positive results have been realized due to these meetings where a proactive rather than a reactive approach is taken relative to school and police issues.

**Increased Services**

Servicing the community is our primary responsibility. During 1997, the Peterborough Police Department experienced increased requests for certain service-oriented duties. Additional requests were received for vacant property and house checks, motor vehicle lockouts, civil standbys and, for the first time, fingerprinting for public sector employment screening (such as for the public school system).

The Peterborough Police Department performs periodic security checks on residential dwellings when requested by home owners who temporarily vacate their homes for vacation, employment assignment or medical confinement. The vacant property check (VPC), when performed randomly, serves as a deterrent against the possibility of a residential burglary being committed or, in cases where a crime has been committed, serves to ensure that appropriate corrective action is taken and that an investigation is conducted in a timely manner.

### Final Thoughts

1997 was a year of transition for the Peterborough Police Department. It is with utmost gratitude, respect and sincerity that I thank my fellow officers and dispatchers for their support and dedication. The men and women of this department are of the finest quality both as individuals and in their professions. They are hard working, knowledgeable and team spirited. It is with great honor that I serve them as well as this community.

I would like to thank our town administrator, Pamela Andrade, our selectmen, Lawrence Ross, Charles Leedham and Roland Patten, for their guidance, support and belief in my abilities to serve the Town of Peterborough. It is with immense pride that I will honor this appointment and to the best of my abilities, will continue to serve them and the community.

And finally to the citizens and businesses of Peterborough, I thank you for the countless letters, phone calls and public offerings of support. Although I have failed to thank everyone individually, know that your kindness has not gone unnoticed. It is you who the Peterborough Police Department serves, and I thank you for letting me serve you.

Respectfully submitted,

Scott M. Guinard  
*Chief of Police*

# Recreation Report

## 1997

Cunningham Pond's MARSHALL-THOMAS RECREATION AREA, a 13 acre property with a 200 foot public beach, officially opened on Saturday, June 21th. This astounding generosity, by Stephen and Elizabeth Marshall Thomas is a legacy compared only by the vision of Mrs. George Adam's 9 acre gift to the Town of Peterborough in 1914. As is with Union Street's Adams playground, the Marshall-Thomas Recreation Area is now a vibrant and wholesome center of public recreation for Our Town.

Every year the PRD encounters a handful of residents, like the Thomas', content on keeping a low profile but whose service or gift to the community truly becomes high impact! Dr. Richard Frechette, Cubmaster of Pact #8 and Scoutmaster, Carl Berntsen of Boy Scout Troop #8 come quickly to mind. Through their collective efforts 300 shrubs, evergreens and berry bushes were planted, replacing damaged plants that occurred during the beach's project construction and thus improving the aesthetics of the Marshall-Thomas Recreation Area.

The PRD's utmost gratitude is also extended to Susan Mansfield and Kirsten Peterson, of Swift Water Council Girl Scout Troop #258, for promoting a comparable high impact park beautification program for Adams playground.

Special thanks to Don Rodenhiser for both initiating and the year to year coordination of the Loran E. Hanson Memorial Fishing Derby held annually at Dubois Pond. The year 1997 marked the PRD-Trout Unlimited's 7th Annual Event in which 107 children participated.

Our gratitude also goes out to Iphigenia (Ginny) Hatt of Southwest N.H. services. In conjunction with the generosity of the Hazel N. Goyette Memorial Fund, children at Riverview had on site access to a summer recreation leader. Filling in admirably, in this first time position was Erica Alusic.

Further unsung heroes during 1997 were: Mark Bemont, Joan Butler, Tom Brennan, Robert Berube, Thelma Clark, Steve Conroy, Susan Copley, Mary Donaldson, Sophia Gemborys, Debby Giaimo, Craig Hicks, Janet Koerber, Pat Lang's 3rd grade class at PES, Eleanor Lapinsky, Tom Mansfield, Derrick Nichols, Jim Orr, Shawn Reynolds, Keith Rodenhiser, Alma Ruth, Kathie Schofield, John Smith, Jose Teixeira, Chris Williams and Gerald Wolf.

Sincere appreciation is extended to the many league officers, program volunteers and business sponsors who truly keep young children active in wholesome recreational activities from year to year.

Relevant to puppetry, children's theater and the arts there are never enough plaudits for the extra efforts of Glori B. Luebbermann. Glori B. is exceptionally talented and the PRD is indebted to her for her ongoing contributions in music and the arts.

Homer Paradise and Andy Norton work part-time administrating to the department's maintenance needs. Their expertise and dedicated service to the PRD is most appreciated.

Coordinating American Red Cross Swimming, Arts & Crafts and Tennis lessons as well as a host of other creative year-round recreational programs come under the able leadership of Kristen Hamill. Moreover, her selection of summer staff, for both Adams Playground and Cunningham Pond go a long way in determining the kind of experience children enjoy during their long awaited summer vacation. Kristen is just as exemplary in her work with Sr. Focus and other advisory community adult groups which meet regularly at the PRD.

Finally, the PRD staff would like to thank the Peterborough Recreation Committee, Cunningham Pond's Advisory Committee as well as Peterborough's Friends of Recreation for their constant and dependable support.

Respectfully

Roland Jutras  
Director

Cunningham Pond

# Riverwalk Committee

Throughout 1997, the Riverwalk Committee continued to focus on our Phase I section with the hopes of beginning construction by the summer of 1998. With the assistance of Peter Ryner and working with our Design/Build contractor, CHA Tech Services, LLC we have completed the engineering and design phase and are currently completing the permitting process for this section. We are also finalizing all easements associated with this section so that we are ready for construction.

We have been fortunate to enlist the help of two new committee members, George Toumanoff and Norman DePratti. Whose collective expertise will support the current effort of the Riverwalk Committee. The Riverwalk appreciate the time and effort given by past member John Vance and we know that we will be able to call on him for additional support in the future.

We continue to focus on fund raising with the majority of efforts in writing grants. Dollars received from the A. Erland and Hazel N. Goyette Memorial Fund and National Recreational Trails Fund were allocated to the design, engineering and permitting of Phase I.

Going forward, the committee will be working closely with both Peter Ryner and Edward Chase as we start the development process for the north bound section of the Riverwalk. For the ISTEAS funds that will be available in the year 2000, we have been assigned a project manager from the State of new Hampshire, and will begin meeting on this phase in the very near future.

Respectfully Submitted,  
Peterborough Riverwalk Committee

*Southwest Region Planning Commission*

January, 1998

Ms. Pamela Andrade, Town Administrator  
Town of Peterborough  
1 Grove Street  
Peterborough, NH 03458

RECEIVED  
FEB 5 1998  
TOWN OF PETERBOROUGH

Dear Ms. Andrade:

Please accept this letter as a general report of activities of the Southwest Region Planning Commission over the past year.

The Planning Commission, with a service area covering 35 municipalities in Cheshire and Hillsborough Counties, is one of New Hampshire's nine regional planning agencies established by RSA 36. We continue to provide planning-related assistance to member communities and to represent the Southwest Region in state and federal programs. Our diverse work program covers activities such as local planning assistance, regional information systems & mapping, transportation planning, community & economic development, and natural resources planning. We are funded through multiple sources including local dues contributed by member municipalities. For every dollar of local dues, the Commission's operating budget includes over four additional dollars to assist in meeting the needs of the Region and its municipal members. These additional funds are provided in the form of various federal, state and local grants and contracts. These resources provide the Commission the ability to assemble a professional staff which member municipalities have direct access to.

Highlights of Commission activities for the past year include establishing an economic development planning program; award of a contract to study the Route 101 corridor from Keene to Milford; facilitation of a 10-year Transportation Improvement Program for the Southwest Region; preparation of a document and process to promote natural resources planning; participation in sponsoring several educational forums on planning related topics; and, use of a federal grant award to construct a mobile resource awareness center for educational purposes which the Town utilized during the opening weekend of its recycling center. In addition to the above, we have provided technical assistance to HCS Community Care in developing its application to establish a bus route in the Town under the State's Congestion Mitigation and Air Quality program and continue staff support of the Contoocook River Local Advisory Committee under the New Hampshire Rivers Program.

We continue to be available to assist you in your planning related activities - please don't hesitate to contact us if you have a project you would like to discuss. Thank you for your continued support of the Commission. We look forward to working with you over the coming year.

Sincerely,

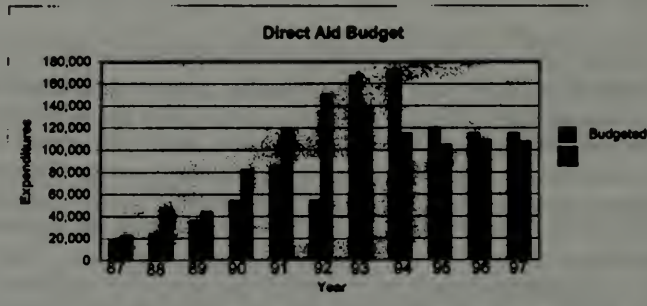

Timothy P. Murphy  
Executive Director

# Welfare Report

## 1997

This year has given us an inkling of what we may expect under our new Welfare Rules and Regulations. Washington has seen fit to give our State block grants to cover Federal Programs once operated by Federal Agencies, and has also curtailed or eliminated eligibility of clients formerly receiving benefits.

You will note by the accompanying chart, how our Direct Aid Budget has been coming down, and might well ask why we in this period of relative prosperity have people who still require assistance?

I will answer that question by noting that we have a 2.2 unemployment rate currently. Information from the US Department of Labor states that when we get to 2.8 unemployed, we are looking at the unemployable.

Also I might note that we have on apartment complex of 96 apartments, two apartment complexes under a Federal Subsidy plan and a private housing charity with three more apartment houses for low and moderate income families.

This in a Town of 5600 people with very little employment available to people of limited experience and training, plus no public transportation to any other area of employment.

We seem to be following the trend reported by other agencies, of more people needing assistance with food, dental emergencies etc. who do not qualify for public assistance.

This is a trend which I have been worrying about for the past three years. These folks through no fault of their own ( in most cases ) are falling between the cracks and must turn to private charities whenever and where ever it is available.

Using the Peterborough Human Services Fund, Inc. we are endeavoring to alleviate these problems. To illustrate, last year

(1996) we gave out 1,333 meals from our food pantry.

This year, (1997) we gave out 2,388 meals the funds as a framework and with the assistance several local charities and generous individuals we were able to pay for the locally needed dental cases which the town could not legally pay for.

The Board of Directors and myself have set a goal for an endowment fund in insure in the future that no deserving person will be in need without funding.

In this calendar year, I attended 11 meetings of the local welfare administrators. My sincere thanks go to Bertha Harris, our Budget Committee liaison, Town Administrator, Pam Brenner, the Board of Selectmen and my fellow workers at the Town House who have been so supportive of me this year. Also thanks and appreciation goes to the following individuals and organization for their generous support.

# Ethics Committee

It seems important to give the citizens of Peterborough a brief description of the task assigned to the Code of Ethics committee, and the approach we took to fulfilling that task.

It has been an interesting experience for me to chair this committee, and to hear the many comments from members of the community, expressed to me during the time of our deliberations. The general tone was reflected in one comment: "I don't envy you. You've got a difficult job." While the assignment was challenging, and required many hours, our work together proved engaging and rewarding. We hope the community will receive and act on this Code in the same thoughtful and caring spirit that prevailed among us, as we sought to act in the best interest of our whole community.

As the outgrowth of last year's Town Meeting, when a Code of Ethics was first introduced then tabled for further consideration, the Selectmen appointed a committee representing many different viewpoints. Members were Richard Fernald, Walter Peterson, Leo Smith, Elizabeth Thomas, James Wheeler, Deputy Chairman, Douglas Williams, and myself, David Baum, As Chairman.

The committee met seven times over a period of four months. Our charge was to explore the feasibility of even having a code of Ethics, and then, if we decided to compose a Code what we felt would be suitable for our community.

Selectmen Larry Ross came to our first meeting to express the Board's purpose in seeking a Code of Ethics. We then had a meeting with Jim Coffey, a Selectman from new Ipswich, who had drafted a code for his community. We sought comments from members of the community and other Town Officials, and spent many hours in discussion, debate, drafting and re-drafting our document.

After a few meetings we all agreed a code of Ethics would be useful for our community, if it were expressed as a guideline for individuals rather than framed as a legal ordinance. In relation to conflict of interest, we agree individual responsibility, good judgment and consideration for the best interest of the community were the fundamental cornerstone of the Code, and that self-disclosure was the primary means of bringing forth such concerns.

We agreed the language of the Code should be positive in nature. We wanted to address all the major areas of concern we could think of, with as little detail as possible. Finally, we agreed the Code should be reviewed after a year's time to evaluate it's terms and effects, and to make any desired change.

Our plan was to present our proposed Code of Ethics at a Public hearing on Thursday evening, March 12, then to Town Meeting on Saturday, March 14 where it would be adopted or not by the citizens of the Town.

Respectfully Submitted,  
David Baum, Chairman

# Town of Peterborough Code of Ethics

## Preamble

As citizens of the Town of Peterborough, we appreciate that we live in a community where people relate to each other with openness, honesty, fairness, and respect. We honor these values, and seek to live by them in our own lives.

In the conduct of our public affairs, we expect those who serve our community as public servants to act in accordance with these same values. As public servants, we mean to include all elected and appointed officials of the Town; all full-time and part-time employees of the Town, whether paid or unpaid; and all volunteers who serve us on behalf of the whole community.

We place our trust in these individuals, and have confidence they will serve us knowledgeably, responsibly and effectively, having in their hearts and minds the best interests of our entire community. Specifically, we ask each of them to subscribe to the following guidelines of a Code of Ethics we have adopted for our community.

## CODE OF ETHICS

1. Public servants will demonstrate the highest standards of personal integrity, truthfulness, honesty, dedication in all public actions and activities in order to inspire public confidence and trust.
2. Public servants will conduct their business with the highest standards of honesty, reliability, consistency, and fairness, and treat all fellow workers and citizens with dignity and respect. No person will be discriminated against because of age, race, religion, sex, national origin, disability, or sexual orientation. Public servants should ensure that the interest of the community and fairness to all are their primary considerations.
3. Public servants will extend fair and equal treatment to all Town officials, Town employees, volunteers performing service to the Town, contractors working for or providing goods or services to the Town, and the general public. No special consideration, advantage or favor shall be given to any person or entity as a result of public status, wealth, position, or personal relationship.

4. Public servants will respect and safeguard confidential or privileged information that may be acquired in the performance of duties and responsibilities for the Town.
5. Public servants shall, in their public position, implement and abide by applicable New Hampshire laws, and all written administrative rules, policies, and procedures established by the Town's Board of Selectmen, or by specifically designated Town officials.
6. Public servants shall avoid any potential or actual conflict of interest in the performance of duties and responsibilities. A conflict of interest might arise in a situation in which a person, designated to act on behalf of the entire community, uses his or her personal contacts or position to advance his or her own private business or financial interests.
7. Public servants are expected to avoid placing themselves in positions involving a conflict of interest, and also to avoid any situations in which a conflict of interest may appear to exist.
8. In cases where a conflict may exist, public servants should disclose the related matter of personal or financial interest to the appropriate person or committee. Matters of personal interest or financial interest to the appropriate person or committee. Matters of personal interest , which need full disclosure, may include but are not limited to, family relationships and financial interest. If the real or perceived interest is determined to be self-serving and not in the public interest, that person should disqualify themselves from participating in the particular action or transaction in question.
9. Public servants should utilize discretion in accepting gratuities, staying within limits of what would be considered a nominal value and/or part of the natural process of relationship between friends and colleagues.

## **ACCEPTING RESPONSIBILITY FOR THIS CODE OF ETHICS**

No Code of Ethics can address all situations which may arise in the course of duties performed on behalf of the Town. Personal judgment and common sense are the primary basis for consideration. In cases where doubt occurs or one becomes aware of an apparent violation of this code, individuals are encouraged to speak with their immediate Supervisor, The Town Administrator,

Board or Committee chairperson, or the Town's Board of Selectmen. Seeking advice is the responsibility of the individual. To avoid this counsel does not excuse the individual for having a conflict of interest or otherwise acting in violation of this code.

This code of Ethics does not replace written administrative rules, policies, and procedures established by the Town. A copy of this Code of Ethics will be given to all public servants of this town.
