REPORT OF LIBRARY TRUSTEES.

If the withdrawal of books is to be taken as a measure to determine the value of the library to the community then the past year has been the most successful of any in the history of the institution.

Notwithstanding the population is several hundred less than a decade ago, the circulation statistics do not show any decrease in the use of the privileges of the library.

For the year ending December 31, 1921, the circulation was 24,010 divided as follows: books 22,471, magazines, 1,539.

The loan of books was 2,085 more than in any previous year. The loan of books to little readers was 4,845, some 400 more than any other year.

If the institution is not used to the fullest extent by the general public it is not the fault of the official management. They are ready at all times to give the utmost service in securing books or material furnishing information upon any subject.

If such is not to be found in the library an effort will be made to secure it from some other place.

An inspection of the financial statement will show that Mrs. Georgia B. Carpenter again manifested her abiding interest in the institution by her annual gift of three hundred dollars. Mr. E. P. Sanderson also gave evidence of his interest by a gift of twenty dollars.

Without such remembrances it would not have been possible to meet the actual needs of the library in many ways. The trustees take this opportunity to express their sincere thanks for such kindly interest.

Attention is called to the necessity of making repairs upon the building by painting the outside and inside. To do this a special appropriation of a hundred or more dollars must be made.

The public library should be recognized as a necessary part of educational instruction, and should be as liberally supported by tax as are the public schools and for the same reason.

Early in the year Dr. Robert Kerr, tuberculosis specialist of Manchester conducted a clinic at the office of Dr. Hill, at which time thirty-two individuals availed themselves of the opportunity of a free examination, with the result that twenty-two were found infected with tuberculosis in different degrees. Dr. Kerr was accompanied by Mrs. Idella Stanley, county tuberculosis nurse and Miss Elena W. Crough, who has recently been named by the state board of health as state supervisory nurse.

Dr. Kerr came again in February and addressed the people at a meeting held in the Opera House. Dr. Wallace and Miss Gibson, R. N. of Nashua also gave interesting talks along the lines of public health work.

The Association was particularly fortunate in securing the services of Mrs. Paige for the second year. The fact that she is a resident nurse with a personal interest in the town and the welfare of its people gives a zeal and inspiration to her work which have been plainly shown.

The resignation of Dr. Roscoe Hill as medical inspector of schools hindered the progress of Mrs. Paige's work among the school children, consequently she has given more of her time to bed-side nursing.

Arrangements have been made to conduct first aid work in the 6th, 7th, and 8th grades twice a month. Much interest has been manifested by the pupils in this work.

The Red Cross and The Woman's Club are valued assistants to the District Nursing Association as much of their work is so nearly along the same lines.

The request for clothing met with a generous response.

ELLA F. LANE,

*President District Nursing Association.*

The officers of the association are: President, Ella F. Lane; Vice-President, Belle H. Durell; Secretary, Pearl Osgood; Treasurer, Effie M. Sanborn.

Directors: E. A. Lane, N. S. Drake, John H. Jenness, Rev. W. H. Getchell, J. H. Danis, Dora Freese, Harriet Sweet.

Consultation Committee: Dr. F. H. Sargent, Dr. Roscoe Hill, Dr. L. D. Gilmore, Rev. W. I. Sweet, Hon. Newman Durell, R. B. Bartlett, F. T. Johnson.

The Treasurer of the Pittsfield District Nursing Association, respectfully submits the following financial report from Jan. 17th, 1921 to Jan. 16th, 1922.

## REPORT OF SUPERINTENDENT OF SCHOOLS.

---

*To the School Board and Citizens of Pittsfield:*

I herein submit my seventh annual report as superintendent of schools.

### ALTERATIONS OF SCHOOL BUILDINGS.

Activities in alterations were concentrated on the Upper City school house and consisted in laying a hard wood floor, sheathing the ceiling, painting the wood work and walls, oiling the ceiling and installing adjustable single seats. When a modern heater is installed, this building will be in condition of a model school building.

### NEEDED ALTERATIONS.

Through the agency of medical inspection and the endeavors of our district nurse, we are trying to furnish a more sanitary and wholesome environment for our pupils. Yet in Room II of the grammar building we allow our children to sit in old fashioned, non-adjustable, double seats, conditions that neither conduce to comfort, sanitation nor a virile physique, but on the other hand are a source of annoyance to the teacher in maintaining discipline and are conducive to round shoulders, curvature of the spine, and myopic eyes. I, therefore, recommend that a special appropriation of \$500 be made for the installation of modern single adjustable seats in this room.

### HIGH SCHOOL.

During the spring term, the student body expressed their appreciation of their school by presenting a set of Stoddard's Lectures and the Class of 1921 on the evening of graduation presented a bronze bas-relief of Ex-president Theodore Roosevelt. Both gifts will stand for interest in the Pittsfield High School, for good will and mutual respect between pupils and teachers and for inspiration and instruction for future generations.

At the beginning of the fall term the school was subjected to an entire change of teachers. Headmaster Aldrich who had been with us for three years and had become almost a fixture in the school resigned in order to accept a more lucrative position as Submaster in the Bridge school of Providence, R. I.

The new staff of teachers consisted of: Edward S. Young, Headmaster; Mrs. Elizabeth Hodges, instructor in English; Alice Shattuck, instructor in History and Latin; Alice Stone, Domestic Arts and French.

Report of Headmaster Young follows:

"I hereby submit my first annual report as Headmaster of the Pittsfield High School. In the firm belief that the expression of the whole truth is always the best policy, I shall endeavor to state conditions just as they are in the High School and to make constructive suggestions.

"Since the opening of school, I have eliminated the custom of hazing and should suggest that this policy be followed in the future. At the beginning of the school year the hardest problem was discipline, but this problem has been solved and I am confident that the discipline of the school is on a normal basis now.

"I feel that I have a competent and conscientious teaching force and that they are doing their duty as best they can against adverse circumstances. I am sure that their influence is for the best of the pupils, and that in addition to their class work, they contribute greatly to the moral and spiritual uplifting of the young people of the community. They are, however, unable to do their best work because they are crowded by too many and too large classes, by incomplete equipment and by an entering Freshman Class which seems unable to readily grasp the subjects required in a High School, probably due to the change in the subjects which they are studying and new environment. On account of the size of the class it is impossible to give individual attention or to correct each day's papers.

"It is essential for the good of the school that there should be more help in instruction in the High School and the sys-

tem will never run properly or good teachers will never be retained over a year unless another teacher is added. It is a proved fact that a good teacher cannot be retained in any school when she is overworked, for under such conditions her efficiency is retarded and her reputation as a teacher is at stake. It never has paid and never will pay to try to save a few dollars at the expense of the education of the young people.

“It is essential for the good of the school that at least seventy desks be bought for the recitation rooms. Students are sitting on settees, high stools and other improvised seats in several classes. It would be difficult to imagine a more injurious condition.

“The building should be supplied with storm windows, since drafts are very bad and it is difficult to heat the room. The saving in coal would soon pay for the initial expense.

“Two parent-teachers’ meetings have been held and problems have been discussed.

“It has been very difficult to get the proper amount of home study, on the part of the pupils, and they are on the street too much evenings.

“The best period for study is in the early evening and this time is being wasted by a large part of the student body. As a result the work of some classes is generally unsatisfactory. Too large a per cent of the pupils are doing work which is below the normal standard and as a result are failing to pass.

“I have attempted to raise the standard of the school since September with some success, but improvement is slow. Co-operation of home and school is essential to the work of improvement. On account of discouragement and from other causes, ten have left school since September. Our registration was 87 at the beginning of the year.

“Taken on the whole the year has been successful, the School Board and Superintendent have supported the Headmaster, in every respect and the outlook for the future is bright.

We believe we have an excellent staff of teachers in our

High School. They all have high ideals of school life. Every assistance and moral support should be given them by parents and citizens, that our school may function in its highest type and bring our community to a higher plane of usefulness.

#### MANUAL TRAINING.

Mr. Potter submits the following report:

"Our manual training department goes on in about the same way as last year with a much larger attendance, 35 pupils from High School and 63 pupils from the grades.

"Good discipline is maintained and full attention to the work in all branches demanded. Plans and drawings of the projects are required.

"Efforts have been made to make the work not irksome but interesting.

"The following projects have been made:

##### *Wood Working Department.*

"Four library tables, 1 cabinet table for Public Library, 5 smoking cabinets, 1 umbrella stand, 3 hall trees, 1 taboret, 4 match holders, 3 checker boards, 3 oak sewing cabinets, 2 box traps, 2 card index cabinets, 1 rabbit trap, 5 bread boards, 14 cake and meat boards, 6 letter holders, 25 pin trays, 9 knife boxes, 2 milking stools, 22 coat hangers, 1 weather vane, 26 hammer handles, 7 clothes hangers, 2 dibbles, 15 broom holders, 11 necktie holders, 4 clothes sticks, 2 foot rests, 6 medicine cabinets.

"Many repairs have been made on chairs, desks and other fixtures for both the High and Graded school.

##### *Blacksmithing Department.*

"Eight chains with hooks, 15 chain hooks in variety, 20 cold chisels, 16 punches, 12 hasps and staples, 15 stove poker, 14 square angles from round stock, 4 sets of double runner sleds fully ironed, 3 single sleds, iron work repairs.

"Many home jobs have been done and lessons and examination on shop tools, forges, qualities of the different kinds of iron and steel."

I invite parents and citizens to visit this department of our schools.

You will find projects in the stage of development and others finished, the artistic finish of which will surprise you. You will see work that is modern in conception, educative in psychological sequence, economic in proportion to its intrinsic and commercial value, and practical in its applications to daily life. This department should receive that popular and financial support that will make it a permanent fixture in our schools.

#### SEWING IN THE GRADES.

Miss O'Donoghue, principal of Memorial School, reports:

"My girls have made undergarments, blouses, dresses, bloomers, aprons, bags, towels and pillow slips.

"Several sweaters have been made and yokes for garments crocheted.

"Work had to be done outside the class room because we haven't a sewing machine."

Mrs. Davis reports:

"The work in sewing this year has been along the usual lines. About the same number and variety of articles have been made as given in last year's report. During the spring term, several girls made pretty, becoming dresses and blouses.

"Besides plain sewing, by means of which all the simple stitches have been taught, the class activities have included mending, darning, crocheting, embroidery, and hem-stitching.

"Many have knitted sweaters. Nearly every girl is wearing specimens of her own handiwork. The work is still handicapped by the lack of a sewing machine."

Mrs. Hawley reports:

"Sewing is taught first in this grade. Our course for this year is very practical. Our first project is a sewing bag which is used to hold the child's sewing utensils for the school year.

"Other projects made are pillow slips, various kinds of

aprons, boudoir caps, hemmed towels and skirts. One child is knitting a sweater, another a face cloth. Our last lesson was on hanging a skirt using a yardstick.

"One child demonstrating before the class and thus helping her classmate. The skirt was one that had been made over.

"Needless to say the children were very enthusiastic over this work as it is a joy to them to know they can really help 'Mother.'"

#### MUSIC.

Our instruction in music this year like "All Gaul," that we read about in Caesar, is divided into three parts. Miss Harriet Sweet gave instruction during the spring term. She gave especial emphasis on correction of intonation, surety of time, rhythm and technical accuracy. All classes in the grades had advanced beyond their allotments in the Progressive studies. Her work in the High School was exemplified by the chorus singing at graduation which was a credit to the school.

At the beginning of the fall term for two months we were without a supervisor. During this interim the music did not lag but was kept up by the respective teachers, reviewing work already taken and giving more time to songs and hymns.

In November, Mrs. Wm. B. Ely assumed the responsibilities of music supervisor. Mrs. Ely took up the work with enthusiasm and animation. She contemplates the organization of a glee club and orchestra in the High School at an early date. Teachers of the High School have co-operated and assisted materially in the development of songs and hymns. On the whole, effective work has been accomplished in music throughout the year. Pittsfield is fortunate in having two supervisors of music of the ability and training that Miss Sweet and Mrs. Ely possess.

#### HEALTH ACTIVITIES.

Mrs. Grace Paige, our district nurse, in addition to her duties as town nurse has devoted faithful and conscientious

work to our schools. She has made frequent visits throughout the year to all the village schools, has introduced health charts that demand cleanliness of body, and wholesome conditions in the home, has followed up and assisted in needed clinical operations and has begun on a system of weighing the children monthly, thereby obtaining data by which she may assist in building up malnourished children. Mrs. Paige has been alert in safeguarding the community in times of threatened epidemics by visiting the schools daily and examining the children.

I believe that her work should be extended to our country schools. For this purpose, I recommend an appropriation of fifty dollars for the cost of transportation.

---

#### OBITUARY.

For the first time in several years we are called upon to chronicle the death of one of our associates in service of our schools. David O. Sherburne.

Modest and retiring by nature, he did not know, nor realize how strong was his influence, nor in how high regard he was held not only by the pupils, teachers and school officials, but also by the citizens of the town. He will long be remembered for his devotion to his duties, fondness for children, even temperament, tireless energy and interest in the best welfare of the town.

---

#### DRAKE ATHLETIC FIELD.

Before closing my report, I feel it a duty to express to Mrs. Carpenter our appreciation for her interest in and devotion to the children of Pittsfield exemplified by her financial support to this institution. The Drake Athletic Field is one of the things that distinguish us from other towns, the one thing that readily receives the admiration of tourists and places Pittsfield on the map. Yet we are not rising to our opportunities when we fail to make some appropriation that our boys and girls may have the benefit of playground supervision during the summer.

## IN GENERAL.

From our statistical data, we find an increase of 2 per cent in attendance, an increase of 25 on the Roll of Honor, and a decrease of 55 in tardinesses in the year ending June 30, 1921 over the preceding year. These improvements although small are in the right direction. Right habits are the foundations for right living and for a happy and successful life. Parents can not be too strenuous in their efforts to inculcate in their children the importance of regularity in attendance and punctuality. Pittsfield is to be congratulated in the fact that, while other towns are continually changing their teaching staff in the graded schools, for several years, we have retained 90 per cent of our teachers. For this reason more than any other our schools continue to do effective work. Throughout the year, particular emphasis has been placed on the fundamentals,—reading, writing, language and numbers; especial stress on writing.

We are living in the days of standardization. No longer should we be entirely governed by the diagnosis of the teacher supplemented by the arbitrary examination of a superintendent, but we must submit our grading to standard tests. Our grades must not only be on equal standing with the grades of our neighboring town, but on a par with those of same grade in state and nation.

With this purpose in mind, we have submitted our pupils to Adam's test in reading, Ayer's in spelling and writing, Witham's in English.

In all these tests our pupils have averaged above the normal condition of their respective grades.

In conclusion, I wish to acknowledge the cordial co-operation of teachers, parents and citizens and to express my gratitude to the members of the school board, who have given liberally of their time and energy for the good of the school system.

Respectfully submitted,

FREDERICK T. JOHNSON,  
*Superintendent of Schools.*
